**It Reached the Spot.**  
 Mr. E. Humprey, who owns a large general store at Omega, O., and is president of the Adams County Telephone Co., as well as the Home Telephone Co., of Pike County, O., says of Dr. King's New Discovery: "It saved my life once. At least I think it did. It seem to reach the spot—the very seat of my cough,—when every thing else failed. "Dr. King's New Discovery not only reached the cough spot; it heals the sore spots and weak spots in throat, lungs and chest. Sold under guarantee at Rock drug store. 50c. and \$1.00. Trial bottle free.

**Antitrust Suits Continued.**  
 Jefferson City, Mo., April 27.—The suits of the Attorney General of Missouri against the International Harvester Company and the alleged lumber combine on charges of having violated the antitrust laws of the State were both continued to the October term by a ruling of the Supreme Court today.

**The World's Best Climate**  
 is not entirely free from disease, on the high elevations fevers prevail, while on the lower levels malaria is encountered to a greater or less extent, according to altitude. To overcome climate affections lassitude, malaria, jaundice, biliousness, fever and ague, and general debility, the most effective remedy is Electric Bitters, the great alterative and blood purifier; the antidote for every form of bodily weakness, nervousness, and insomnia. Sold under guarantee at Rock drug store. Price 50c.

**Bridge Builders Are at Brownsville.**  
 Brownsville, Tex., April 27.—The bridge builders and part of the material for the construction of the railroad bridge across the Rio Grande at this point have arrived, and it is thought that work will begin very soon.

**Do It Now.**  
 Now is the time to get rid of your rheumatism. You can do so by applying Chamberlain's Liniment. Nine cases out of ten are simply muscular rheumatism due to cold or damp, or chronic rheumatism, and yield to the vigorous application of this liniment. Try it. You are certain to be delighted with the quick relief which it affords. Sold by all druggists.

**4104 Births; 1320 Deaths.**  
 Austin, Texas, April 27.—The bulletin of the State Health Department was issued today for the month of March. It shows births for the preceding month, reported to the State Health Officer, to the number of 4104; deaths, 1320.

During February there were 462 cases of smallpox reported, there being one death from that disease. Cases of scarlet fever reported numbered 56, there being 6 deaths, cases of diphtheria, 79, with 31 deaths; typhoid fever, 27, with 24 deaths; tuberculosis, 43 cases, 17 deaths. This table shows that there were during February 667 cases of communicable diseases and 232 deaths from such causes.

**Whooping Cough.**  
 This is a more dangerous disease than is generally presumed. It will be a surprise to many to learn that more deaths result from it than from scarlet fever. Pneumonia often results from it. Chamberlain's Cough Remedy has been used in many epidemics of whooping cough and always with the best results. Delbert McKeig of Harlan, Iowa, says of it: "My boy took whooping cough when nine months old. He had in the winter. I got a bottle of Chamberlain's Cough Remedy which proved good. I can not recommend it too highly." For sale by all druggists.

**WHEN SHE MADE CAKE.**  
 "This is lovely angel food," said she, tasting the cake at the high tea. "Did you make it? Wonderful. I never tried to make angel food but once. I took all day to make it, walking very lightly while it was in the oven, hardly daring to breathe. Then when it was done I put it in the sideboard. The next morning they had to use a derrick to move the sideboard in order to sweep under it. That is, that's the story my husband tells about it. You know how husbands are."

**A Californian's Luck.**  
 "The luckiest day of my life was when I bought a box of Bucklen's Arnica Salve," writes Charles F. Budahn of Tracy, California. "Two 25c. boxes cured me of an annoying case of itching piles, which had troubled me for years and that yielded to no other treatment." Sold under guarantee at Rock drug store.

**THE CRINOLINE.**  
 It is surely inconceivable that the crinoline can ever be revived. Yet the mothers of a good many of us wore that enormity, and one always likes to think of one's mother as looking pretty. Millais certainly made his crinolined ladies of the sixties look charming in his inimitable black and white illustrations. The present writer has under his eyes a copy of the 1863 Christmas number of All the Year Round, which contains a full page advertisement of these amazing articles. It is headed "Designed for the Home Circle." What a vast home circle it must have been.

**Chamberlain's Liniment.**  
 This is a new preparation and a good one. It is especially valuable as a cure for chronic and muscular rheumatism and for the relief from pain which it affords in acute inflammatory rheumatism. Those who have used it have invariably spoken of it in the highest terms of praise. Lame back, lame shoulder and stiff neck are due to rheumatism of the muscles usually brought on by exposure to cold or damp, and are quickly cured by applying this liniment freely and massaging the affected parts. Soreness of the muscles, whether induced by violent exercise or injury, is allayed by this liniment. For sale by all druggists.

**Takes Five Hours to Count Fine.**  
 Austin, Tex., April 26.—Five hours and a half were consumed today by Chief Clerk Edwards and assistants, Messrs Carter and Cornwall of the State Treasury, to count the deposits made Saturday by Attorney General Davidson through Assistant Attorney General Lightfoot of the State's share of the penalties collected from the Waters-Pierce Oil Company. The State's share amounted to \$1,718,009.30. The biggest part of the fine, \$1,200,000, consisted of one hundred bills for \$10,000 and forty bills for \$5000. These were quickly counted, the great duration of time being required to count the remainder, \$518,000.

**Biliousness and Constipation.**  
 For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to do its work naturally.—Mrs. ROSA POTTS, Birmingham, Ala. These tablets are for sale by all druggists.

which was composed of bills ranging in denomination from \$5 to \$1000.  
 When the State's deposit was made Saturday the Attorney General and Treasurer received the money in packages guaranteed by the two banks through which the payment was made. It was merely necessary at that time to certify the count by packages, reserving the actual computation until more time was available.  
 Nearly one hundred persons called at the treasury today to see the fine. Charles Taylor, one of the attaches of the department kept tally on the visitors.

The money is reposing safely in the vaults of the treasury, and will probably remain there undisturbed for several days. However, one of the \$10,000 bills was exchanged today for smaller bills, a local bank desiring it for a part of its reserve fund. Mr. Sparks has already had several similar applications, which he will doubtless grant.

For a burn or scald apply Chamberlain's Salve. It will allay the pain almost instantly and quickly heal the injured parts. For sale by all druggists.

**MRS. CARNEGIE AND THE POOR.**  
 Few people know that prior to her marriage Mrs. Andrew Carnegie was an ardent worker among the poor and has continued her work, though in a more restricted fashion. She was Miss Louise Whitfield and is many years the junior of Mr. Carnegie. The one child of the union, Margaret, was for some years exceedingly frail, a fact which caused Mrs. Carnegie to keep well hidden from the public eye. Even now that Margaret is a sturdy girl her mother shuns society and devotes herself to home life.

### TUBERCULOUS SCHOOL CHILDREN

A recent committee of investigation places the number of Tuberculous children in the schools of Boston, at 5,000. An effort is being made, and will no doubt succeed, to build a hospital and school segregating tuberculous children. Other states and municipalities are making progress in the matter of waging war against consumption, while Texas, practicing a disgraceful, ungodly and indecent course of inhumanity refuses to spend \$200,000 as a starting point, toward better things. It should, however be a source of congratulation to the people of Texas that the only two persons in the State who have openly declared themselves to be in opposition to a Tuberculosis Sanitarium are George Griggs of Houston and Tom Campbell, of Tyler. The former, fortunately, an ex-Senator and the latter, unfortunately, not an ex-Governor.

The corner stone of the new Odd Fellows' hall building was laid at San Antonio Monday.

The Austin Forum and Sifter came out last week in gay colors, in honor of the big Spring Carnival.

The big hotel now being built on the site of the old Mahneke, at San Antonio, will be called "The Gunter," in honor of the memory of the late Jot Gunter.

TEXAS has a disgrace to live down in that the regular session of the thirty-first legislature did not pass a bill during the first week of its existence appropriating a million dollars for the enlargement of insane asylums.

The Wichita Falls Daily Times got out a mammoth illustrated special edition April 9. It was profusely illustrated with scenes in and about Wichita Falls, and was replete with interesting reading matter in regard to that section of Texas.

BOSTON is threatening to have an exposition. If the "hub" is going to try to feed the gang on beans, they had better begin shaping up for a corner on beans. The proposed exposition is to be held in 1920. That is some off yet, but "it will take a heap of beans."

It is hard to believe that men of sufficient ability and presumable manliness to be entrusted with the toga of Senatorship from the State of Texas, could stoop to as pitiful, small a game of politics as that played on the floor of the Senate over the resolution thanking the Attorney General's department for its excellent service in the prosecution of the Waters-Pierce case. There is no power on earth that can rob Davidson and his associates of the honor they have won. The drivel of Bailey partisans will only make the disparity appear more plain between the statue one real man, confronted by a platoon of mice. Real manly men do not stoop to such practices as those of Bailey's partisans in the Senate, and the rank and file of Bailey sympathizers in Texas will not approve such cheap politics.

AMENDMENTS to Senator Holsey's resolution thanking Attorney General Davidson for the great service rendered Texas in the Waters-Pierce Oil case failed to kill the resolution or to rob the Attorney General of the need of praise due him for the service.

If half the effort had been made by some leading men of Texas toward assisting Attorney General Davidson in the suppression of trusts and combines, that is now being made to rob him of the honor of his victory, there would be little doing for trusts in the Lone Star State.

In the controversy over the Ward bill, it developed that Mr. Lightfoot told Mr. Ward he would let Mr. Ward know his opinion after looking over the bill. Why didn't Mr. Lightfoot say, "I will have an opinion, and will probably express it when General Davidson tells me what it is."

It is thought by people of Boston that three hundred years is sufficiently long time for the original passengers, who came over on the Mayflower to have "lived it down." So Plymouth Rock will be turned over and the biggest exposition ever known will be held at Boston in 1920.

The daily papers had bold headlines Tuesday, saying, "Bailey Row Comes Forth in Senate." It is still called the Bailey issue, but it never was and never will be anything more than an argument of the merits of honesty and fidelity in office. The adherents to the so-called Bailey policies have little to gain by advocating them.

The Houston Post of April 27 contains a cartoon, entitled "A Good Joke." The cartoon shows the relative size of Senator Culbertson and Tom Campbell in the estimation of the people of Texas. There will be nothing doing for Tommy, and he will doubtless wake up to the fact that the thing he thinks is a political machine is nothing but a 12-inch lawn mower.

**Built in Memory of a Dog.**  
Of the memories to dogs the most imposing of modern date is "Tell's Tower," a structure on the seashore near West Kirby, Cheshire, England. It is in honor of the great St. Bernard dog Tell, "ancestor of most of the rough-coated champions of England, and himself winner of every prize in the kingdom. He was majestic in appearance, noble in character and of undaunted courage." Built by the late M. J. Cumming Macdonna, the tower is a sort of summer house, in the base of which is a vault containing Tell's remains, guarded by an effigy of that remarkable animal.

**Goodness.**  
Goodness is a large, often a perspective, word; like harvest, which at one stage when we talk of it lies all underground, with an indeterminate future; is the germ prospering in the darkness? At another, it has just put forth delicate green blades, and by and by the trembling blossoms are ready to be dashed off by an hour of rough wind or rain. Each stage has its peculiar blight, and may have the healthy life choked out of it by a particular action of the foul land which rears or neighbors it, or by damage brought from foulness afar.—George Eliot.

**The American Voice.**  
I think myself that what, as much as anything else, laid the foundation of the American voice was the nervous ill-health, lasting over three or four generations, of the American woman. Up to the middle of the nineteenth century, and even beyond, foreigners were surprised when they came across a healthy looking woman. The isolation of frontier life, the general tension of the American climate, malaria, bad diet, and worse sanitation, combined to turn one-half the nation into semi-invalids; and the thin, sharp, slovenly, staccato tones of the American women were as often as not the result of physical and nervous depression. I do not say that ill-health was the sole cause, but it is undoubtedly the fact that as the health of Americans has improved so have their voices.—London Chronicle.

### PUTS BABIES ON DEFENSIVE

Writer Calls on Them to Give Reasons for Their Admission to the Country.

We desire to call attention to a flagrant violation of one of our most important statutes.

Under our immigration laws, no alien can land in this country who has no money and no capacity. If he comes from a foreign shore, he must be identified and duly passed upon.

What is really happening? Every day, nay, almost every minute, in this country babies are being born who really have no right to enter our domain. Not only this, but they are calmly allowed to be here and not the slightest protest is made against them.

It is true that recently some effort has been made to discourage their presence. But this is by private individuals, and not by the authorities.

Every baby comes here from a foreign shore. He is a vagrant. Why, he hasn't even clothes on his back. In a large percentage of cases he is sickly, and ought to be kept out by quarantine authorities, if by no one else.

These intruders ought to be guaranteed under the pure infant act, or else they should be promptly shipped back to the sender, with instructions to at least provide them with the necessities of life before they land among a free people.—Lippincott's.

### Fear of Microbes.

Microbes are agents of disease and death. When they were discovered and when their character was exposed science made a big step forward. Microbes taught men not only how to cure disease, but how to avoid and even how to prevent it. But into life they brought a new terror! Now the question is how to guard against the terror. For all fairly healthy persons there is just one thing to do. Ignore the existence of microbes altogether! Don't even stop to think of them, save in emergencies, which, to the layman, seldom arrive. Human beings have no reason to be in continual fear of microbes. The way to be immune from their influence is by not caring a snap of the finger about them, and by observing the ordinary rules of wholesome living. Eat and sleep regularly. Take exercise. Keep in fresh air. And devote a few minutes each day to deep breathing. Microbes hate healthy people as the devil hates holy water.

### Clock That Tells Much.

One of the most wonderful clocks in existence is now in the possession of Louis Desoutter, who has had the honor of taking it to Buckingham palace for inspection by the queen. Her majesty showed great interest in its beautiful mechanism.

The clock is fixed on a Louis Seize stand and has four faces. Besides marking the hours, it shows the tides at six different parts of the world, the mean time and the solar time, the age of the moon, the movements of the planets, all eclipses, and is a perpetual calendar. It was made by Janvier of Paris in 1789 for the French Academy and took 11 years to manufacture; the workmanship is magnificent.—London Evening Standard.

### New Method of Keeping Potatoes.

A German publication, "The Practical Adviser in Fruit Raising and Gardening," states that a new method for keeping potatoes and preventing sprouting consists in placing them on a layer of coke. Dr. Schiller of Brunswick, who has published the method, is of the opinion that the improved ventilation by means of coke is not alone responsible for the result, but believes that it is due to the oxidation of the coke, which, however, is a very slow one. Coke always contains sulphur, and it is very possible that the minute quantities of oxides of carbon and sulphur, which result from the oxidation, mixing with the air and penetrating among the potatoes are sufficient to greatly retard sprouting. Potatoes so treated are said to keep in good condition until the following July.

### The Revealing Vision.

Long ago, in the days when our caged blackbirds never saw a king's soldier without whistling impudently "Come over the water to Charlie," a minister of Thrums was to be married, but something happened and he remained a bachelor. Then, when he was old, he passed in our square the lady who was to have been his wife, and her hair was white, but she, too, was still unmarried. The meeting had only one witness, a weaver, and he said, solemnly, afterwards: "They dinna speak, but they just gave one another a look and I saw the love-light in their een." No more is remembered of these two, no being now living ever saw them, but the poetry that was in the soul of a battered weaver makes them human to us forever.—J. M. Barrie.

### QUEER TRAITS OF CRIMINALS.

Sentence, I to Prison Terms, They Frequently Mourn for Pets They Are Leaving Behind Them.

The New York central office detective had just sent one of the worst criminals in the city away for a long, long rest.

"Did he give you any trouble?" asked a friend.

"No, he did a good deal of crying, though."

"For some woman, I suppose?"

"Woman? Rather not! They never cry for human beings. This fellow had a wife who had stuck by him through the trial, and who, before he was caught, worked her fingers off for him. Then there were two children. But he never mentioned them. He was crying about his flight, his pigs, you know. He had about 60 fancy ones, and whenever he thought of what would become of them while he was away tears would spring to his eyes. A lot of the worst crooks and gangsters in the city are fanciers, and a kid couldn't be more sentimental than they are. Sometimes, too, they are sorry for dogs. I knew one who was more anxious about his ferret than anything else. At the same time I never knew a criminal, man or woman, who had a cat among the things they were sorry to leave behind."

**Cure for Headache.**  
One of the very best remedies for a sick or nervous headache was suggested to me recently by a Finnish servant girl. She took raw potatoes without either washing or paring and cut them into thick slices. These were laid close together on the forehead and temples and kept in place by covering with a large handkerchief folded cornerwise and tied in the back.  
In a short time the pain disappeared. As the pieces of potato get hot replace with cold fresh ones.  
They give all the coolness of ice without the incidental dampness, and there is not the burning sensation ice often causes.

**Whither It Went.**  
Capt. Kidd explained.  
"I didn't bury my treasure!" he cried. "I cremated it."  
Considering he had money to burn, it is strange none thought of it before.

### SERVED AS HIS LADY'S MAID.

Romantic Manner of Wooing That Won Love of Young Russian Widow for Her Admirer.

A St. Petersburg paper publishes details of a Russian romance in which figures the wealthy and beautiful young Baroness Urusoff, the widow of a distinguished Russian government official.

All the young cavaliers of Moscow were hopelessly in love with her. The baroness, however, rejected all attempts to obtain an introduction to her and lived in perfect seclusion, attended only by an elderly relative. Some months ago a young peasant girl began to visit the residence of the baroness, offering the servants cheap articles for sale. Subsequently the baroness used to buy different articles from the peasant, who was intelligent, had good manners and considerable conversational talents.

The baroness eventually asked the girl whether she would enter her service as a lady's maid. She agreed and discharged her duties to perfection for a fortnight and then revealed "herself" as a young Russian nobleman named Maximoff, who, taking advantage of his fair hair and complexion, had masqueraded as a domestic servant to break down the barriers with which the beautiful baroness had surrounded herself.

The baroness was so much impressed by his extraordinary perseverance that she became engaged to him, and the marriage took place a few days ago.

**Investing in Nature.**  
A man must invest himself near at hand, and in common things, and be content with a steady and moderate return, if he would know the blessedness of a cheerful heart and the sweetness of a walk over the round earth. This is a lesson the American has yet to learn—capability of amusement on a low key. He expects rapid and extraordinary returns. He would make the very elemental laws pay usury. He has nothing to invest in a walk; it is too slow, too cheap. We crave the astonishing, the exciting, the far away, and do not know the highways of the gods when we see them—always a sign of the decay of faith and simplicity of man.—John Burroughs.

### PUMP AIR INTO DEAD WHALE.

Hunter's Prize Made Sufficiently Buoyant to Float, Marked with Buoy and Set Adrift.

Then began the work of bringing the whale to the surface and blowing it up so that it would float. Taking a hitch about a convenient post, the rope was slacked and run through a pulley block at the mast head to relieve the strain of raising the great body. The winch was set in motion and for 15 minutes nothing was heard save the monotonous grind as fathom after fathom of line was wound in. When the body was brought alongside the lobes of the flukes were cut off and lifted to the deck. Then a long coil of small rubber hose, one end of which was attached to a pump and the other to a hollow, spear-pointed tube of steel with perforations along its entire length, was brought into play. The spear was jabbed well down into the whale's side, the air pump started and the body slowly filled with air. When inflated sufficiently to keep it afloat the tube was withdrawn, the incision plugged with oakum and the chains cast off. A buoy with a flag was then attached to the carcass and the whole set adrift to be picked up at the end of the day's hunting.—Popular Magazine.

### JUST CASE OF WANDERLUST.

Family Starting to Git Were Properly Sure They Must Land Up Somewhere Eventually.

In the smoking car on a southern railroad, where they had sat up all night, was a family consisting of husband, wife and five children. They were rubbing sleep from their eyes and wrangling with each other when a man entered the car and espied them and advanced to say to the man:

"Howdy, Joe—I'm s'prised to see you."  
"Howdy, Tom?"  
"Where you all gwine?"  
"Down to Harbor Pint, I reckon."  
"But I thought you all lived up at Cherry Hill?"  
"We did."  
"What you all totin' away from there fur?"  
"Dunno."  
"What you all gwine to Harbor Pint fur?"  
"Dunno. Jest thought we'd so."  
"Oh, I see. You all thought to get?"  
"I reckon. Yes, thought we'd git, and we pulled up and started a-gittin', and if we keep on long 'nuff we sure 'nuff must git sunwhar' or other."  
"Yes, sure. Been a-gittin' myse'f and always got there some day. It's heaps better than never gittin' 'tall."
