

Keep Your Eye on that Can

When Buying Baking Powder

For this is the baking powder that makes the baking better. It leavens the food evenly throughout, pulls it up to any height, makes it delightfully appetizing and wholesome. Remember, Calumet is moderate in price, highest in quality. Ask your grocer for Calumet. Don't take a substitute.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

Did you ever see one of those patriotic watermelons with a red, white and blue rind? Guess not, but if you did it would not be any better when you got inside. It is the meat of these things that people are after when they buy goods. We don't put on any frills, but we do sell as good merchandise as can be found in Kerrville. Our stock is complete, and our prices are right.

GRAFT TRAIL GROWS HOT

Patrolman's Confession Gives a New Impetus to Investigation in New York

NEW YORK, Feb. 3.—The confession of a patrolman today gave the District Attorney the long-sought instrument by which he expects to uncover the corruption in the New York police department.

The investigation of alleged graft among the police was aided by Patrolman Eugene Fox. On the first day of his trial for bribery Fox suddenly changed his plea and acknowledged his guilt.

The patrolman was indicted for taking protection money from a hotel. After he pleaded guilty it was said he gave the District Attorney facts that may lead to the indictment of two important members of the police department. Fox will testify before the extraordinary grand jury next Monday. From him the District Attorney expects to learn details of the system of "collections" which it is charged certain police officers levied on various resorts.

HUNT WAILS FOR NEW LAW

Arizona Governor Thinks Hangings Would Disgrace State.

PHOENIX, Ariz., Feb. 3.—The fate of five condemned men now in Arizona prisons rests with members of the first legislature, which convened today for the third session. The message of Governor George W. Hunt, who has granted reprieves for various periods to these men, said that he did so to give time for legislative action toward the abolition of capital punishment "before the disgrace of these proposed executions should come upon the State."

CALERO SAYS THAT HE RECEIVED UNITED STATES

Rebels in the North Again Ask the Government for Peace Terms.

MEXICO CITY, Feb. 4.—"I lied to the government for ten months, telling them that the Mexican revolution would be over in six weeks. I was forced to invest my diplomatic mission with a domino and a mask."

This statement was made by Manuel Calero, formerly Mexican ambassador to the United States, during the discussion of the loan measure in the senate last night.

"The truth is that the department of finance has not painted the situation as it really is. We should speak the truth, though it destroy us," declared Calero. "The truth is that the situation is desperate."

Senor Calero's speech created a tremendous sensation. Ernesto Madero, minister of finance, replied calling Manuel Calero an indiscreet ambassador and a bad financier.

He had been in some up from comfort when he lived on the train Saturday night. His body was taken to Comfort for burial Monday. The cause of the suicide is unknown.

Scores Leave College For Their Homes.

COLLEGE STATION, Tex., Feb. 3.—More than 300 of 446 students dismissed by the faculty at Agricultural and Mechanical College for insubordination have gone to their homes and others are leaving today, and the number of students whose names will be stricken from the rolls amount to more than 400. A number have applied for reinstatement, alleging that they were forced into signing the statement demanding the reinstatement of 27 boys dismissed for hazing. There has been no disturbance. School work is being continued.

BOOTBLACK OWNS STOCK

Offers Standard Oil Shares as Bail for Friend.

NEW YORK, Feb. 3.—Holpe, a bootblack, who shines shoes in the Standard Oil building, at 26 Broadway offered seven shares of Standard Oil stock as bail for a friend arraigned in the police court last night for alleged larceny. When Magistrate Corrigan was musing whether to accept some Standard Oil real estate as security Holpe stepped forward.

"I have a few shares of Standard Oil stock, your honor, if you care to accept them for bail," he said as he produced seven certificates.

Magistrate Corrigan accepted the Standard Oil real estate as sufficient security.

ROBS POLICE STATION WITH MEN ON GUARD

Thief Does Not Even Arouse Suspicion Prowling Around Chicago Officials

CHICAGO, Feb. 3.—When Alex W. Davidson, chief investigator of the Chicago Law and Order League, testified last Friday to the theft of records of the Irving Park police station, he told Chief of Police McWeeny that it was very easy to rob a police station and to prove this, he promised to invade four other stations.

Despite this warning, the Irving Park station exploit was repeated last night at the Desplains street station, one of the biggest in the city and one of the most numerously manned.

Municipal Judge Mahoney's court is in the Desplains street station. When court adjourned yesterday the judge locked his files in a drawer and locked the room door.

Sometime later some one entered the station, nodded cheerfully to a desk sergeant, wandered through the quarters and the offices of the lieutenants and up the flight of stairs. He then forced open the judge's chambers and the locked drawer and with the files under his arm, retraced his course, passing several detectives and officers. He excited no suspicion.

When the dobberry was called to the attention of Davidson today he evaded answer, but gave an outline of his movements during the night, calculated to baffle, if not satisfy Chief McWeeny.

CATHOLIC CHURCH NOTES BY FATHER KEMPER

To-morrow is the first Sunday in Lent, and the beginning of the paschal season. High mass will be sung at the usual hour of ten o'clock, when the diocesan regulations for this penitential period will be explained.

Wednesday, Friday and Saturday of this week are Ember days and therefore entail the additional observance of abstinence. Friday the fourteenth will be celebrated the feast of St. Valentine, a martyred priest and physician of the third century of the Christian era. After school close the customary Lenten Exercise of the Way of the Cross, a miniature Oberammergau, will be enacted.

On Wednesday the students of Notre Dame Institute will commemorate Abraham Lincoln's birthday in a patriotic manner. Father Kemper went to San Antonio last Tuesday to consult with the specialist architect, Mr. Frederick B. Gaenslen about the additions to be built to the Rectory, School and Convent. Total expenditures contemplated, with those now under contract, will probably exceed ten thousand dollars.

Fort Worth Stock Show Will Have New Feature.

FORT WORTH, Tex., Feb. 3.—White Arabian horses, a Texas product will be one of the attractions at the Fort Worth Fat Stock Show, March 15th inclusive. A special class has been made for these horses, in both the day and night shows, and some novel features have been arranged for these animals for the night exhibitions.

The White Arabian horses are raised in Texas and their appearance at the Fort Worth show, marks the first entry of this particular breed of horses into the American show ring. The poultry show has annexed a pigeon exhibition and the farmers and poultrymen are being offered special inducements to send their exhibits to the Fort Worth show.

Hard to Forget.

"Beg pardon, sir," observed the tough-looking waiter, suggestively. "Gentlemen at this table usually remember me, sir."

"I don't wonder," said the customer, cordially. "That mug of yours is hard to forget."

And he picked up his bill and strolled leisurely in the direction of the cashier.—BHF.

WILSON IN NO HURRY REGARDING CABINET

President-elect May Reach Decision, However, Before his Inauguration.

TRENTON, N. J., Feb. 3.—President-elect Wilson sees no particular reason why he should announce his cabinet before he is inaugurated, though he indicated today that he would try to reach a decision as to selections before that time.

"I remember very well," said the Governor, "that President Cleveland did not announce his cabinet until he had been inaugurated, and there were speculations and guesses until the very day of the announcement."

The Governor said he hoped he would not find it necessary to follow that precedent.

Mr. Wilson was urged today to appoint as secretary of agriculture C. S. Barrett of Union City, Ga., president of the National Farmers' Union. When asked about his attitude toward the Illinois Senatorial contest, the governor replied: "All I have said that the democrats ought to return the primary choice, and in view of the primary vote in Illinois, I felt they were entitled to the two democratic Senators."

licts.

CHICAGO, Ill., Feb. 3.—Free lunch and a warm sleeping place for those who are unable to find work, as well as a big wood pile to frighten away professional "Weary Willies," were offered last night to more than 60 men who gathered at the Wabash Avenue Methodist Church.
Rev. Robert M. Mooney, the pastor, announced that the men who were worthy were free to occupy the basement of the church, and nearly all of them took advantage of the offer after they had been well fed. The men promised not to use tobacco or swear while occupying the basement and then found places to sleep on the carpets of unoccupied pews. Today they were expected to chop wood and "clear house" preparatory to a night's lodging.

Government Loses Shoe Machine Case

WASHINGTON, Feb. 3.—The government today suffered its first big defeat in the recent anti-trust campaign when the Supreme Court held that the officials of the United States Shoe Machinery Company had not violated the Sherman anti-trust law by organizing that company. The court, however, did not pass upon the legality of the system by which the company leases machines on terms that no "independent" machinery be used.

Hazing Bill Introduced.

AUSTIN, Tex., Feb. 3.—A resolution signed by Lieutenant Governor Mayes and 19 senators upholding President R. T. Milner, of A. and M. College, in dismissing the large number of students there for hazing was unanimously adopted. Governor Colquitt has also upheld the action of the faculty.
A hazing bill introduced by Nugent provided that students guilty of hazing in any state institution shall be subject to \$25 to \$200 fine, imprisonment in jail from ten days to two months and that any teacher who permits it shall be dismissed.

WOMEN AID REBEL CAUSE

They Secure Ammunition From Federals for the Insurrectos.
EL PASO, Tex., Feb. 3.—Cheche Campos, a rebel leader, from Southern Chihuahua, is moving northward. It is reported, to join the insurrecto band under Salazar, which has been hovering near the international line and menacing Juarez. Salazar has a force estimated at 1500 men. Campos' army is reported to be of about the same strength.
Rifles and cartridges for rebels in Northern Mexico appear to be supplied from some interior point and not smuggled over the American border, as heretofore. Among other methods the rebels declare they secure ammunition by means of women camp followers, who visit the federal camps and exchange liquor for rifle ammunition. The native liquor is so expensive that it is said this method of supplying the rebel troops is cheaper and more certain than by the purchase and smuggling of cartridges.

YOUNG TURKS IN TROUBLE

Army Reported Seething With Germ of Revolt.
BERLIN, Feb. 3.—Some indication of the trouble which the Young Turks are having with the Turkish army is found in dispatches received here today. The army appears to be seething with the germ of revolt because of the assassination of Nazim Pasha, its beloved commander-in-chief.
It is regarded now as too late to stop the insurrection. The Turkish cavalry stationed in the Asiatic section of Constantinople and in the great Selimye barracks today made a formal demand for the execution of the murderers of Nazim Pasha.
The men refused to obey the war minister's command to return to their homes.

Alleged Bomb Thrower Makes New Confession After Repudiating First.

NEW YORK, Feb. 5.—After repudiating his earlier confession that he constructed and sent bombs that killed Mrs. Helen Taylor and endangered the life of Judge Otto A. Rosalsky of the court of general sessions a year ago, John Paul Farrell, the apartment-house janitor who is under arrest for the murder of Mrs. Madeline Herrera in a bomb explosion Sunday night, changed his mind as to his guilt tonight and said his original story is true.
His frequent shifts of ground, his many contradictory statements and other vagaries leave little doubt in the minds of the authorities that he is not mentally responsible.

Youngful Lover Who Slew His Sweet-Is Trained by Blood.

FORT SMITH, Ark., Feb. 3.—Omer Davis, aged 18, who last night shot and killed Miss Nellie Monrihan, aged 23, at her home near Headsford, was captured by a posse this morning and lodged in jail at Fayetteville.
Davis was trailed thirty-two miles through a blinding storm. A trail of blood caused by a self-inflicted bullet wound in Davis' head primarily led to his apprehension.
After Davis had shot the girl through the heart he turned the gun on himself and shot himself in the head. The bullet inflicted a flesh wound. The girl died in the arms of her father, who later grappled with Davis, who made an effort to shoot Monrihan. The father disarmed the youth.
Miss Monrihan had spurned the attention of Davis and recently announced her engagement to another.

GALLAGHER IS DEAD

He Assaulted Mayor Gaynor and Commissioner Edwards.

TRENTON, N. J., Feb. 3.—James J. Gallagher, the man who shot Mayor Gaynor of New York nearly two years ago at Hoboken, died here today in the State Hospital for the Insane. Death was due to paresis. He had been at the hospital since January 18, 1912, having been transferred there from the New Jersey State Prison, where he had been sentenced to serve twelve years on a charge of assault upon Street Commissioner William Edwards of New York City, who was with Mayor Gaynor at the time.
Gallagher was never prosecuted for shooting the mayor. This was at Mayor Gaynor's request.

Hollow Horn Bear Wants to Present Pipe to President.

WASHINGTON, D. C., Feb. 3.—Hollowhorn Bear of South Dakota, an Indian chief, and the original of the picture of the Indian on the \$5 treasury certificates, has written to the inaugural committee, through Senator Gamble, expressing a desire to attend the inauguration.
The chief desires to present to the new President a great peace pipe, which he declares is the highest honor the Indians of South Dakota can confer on the "great white father." If the President-elect is agreeable to the plan, Hollowhorn Bear will bring with him a group of Indian chiefs and the gift will be presented with tribal ceremony.

Proposition for Board of Dental Examiners Rejected.

AUSTIN, Tex., Feb. 3.—The Public Health Committee of the House this morning gave an unfavorable report to the bill providing for a board of dental examiners. The bill was refused on the ground that there was already a sufficient examination required for admittance to the practice of dentistry.
After a subcommittee of the Municipal Corporations Committee had consumed a week's time in the consideration of a suitable home bill to comply with the amendment adopted in the general election last November the bill was turned over this morning to the city attorneys of Texas who are here in the interest of the bill to draw a substitute and present it to the committee tomorrow morning. The attorneys will have the aid of the members of the subcommittee.

Sheppard Takes Oath of Office As U. S. Senator.

WASHINGTON, Feb. 3.—Ten minutes after the Senate convened at noon today, Morris Sheppard, for eleven years a member of the lower House of Congress, was standing beside seat 91, a United States Senator, receiving the congratulations of veteran members of that lofty body and some members not so veteran, as well as the felicitations of several Texas Congressmen, who crossed the Capitol from the House wing to meet Mr. Sheppard.
Viewing the scene from on high from the gallery set aside for the families of Senators, were Mrs. Sheppard and Mr. and Mrs. Frank Lockhart. Mr. Lockhart has served Mr. Sheppard as secretary since the now Senator stepped into the shoes of his father, the late Representative John L. Sheppard.
Early this morning, Mr. Sheppard telegraphed to Governor Colquitt his resignation as a representative of the United States from the First District of Texas and delivered a notification of such action to Speaker Clark. The credentials of Mr. Sheppard, as the elected member to fill the unexpired part of the term made vacant by the resignation of Joseph W. Bailey, January 4, were presented by Senator Culberson. The credentials of W. R. Webb, a new Democratic Senator from Tennessee, were presented by Senator Luke Lea of Tennessee.

Noted Lecturer Comes at Invitation of Governor Colquitt.

NEW YORK, Feb. 3.—Mrs. Ballington Booth, of the Volunteers of America, left here today for Texas. She goes to that State at the special invitation of Governor Colquitt and the State Prison Commission to inspect the prison plantations and farms, as well as the prisons at Rusk and Huntsville.
Governor Colquitt and the commissioners will accompany Mrs. Booth on her tour of inspection. At the close of her trip she is to speak to the Legislature at Austin. Mrs. Booth will also address public meetings in Houston, Austin, Waco and Dallas.

TO REDUCE PARCEL POST RATES

Hitchcock Suggests Lower Rates and Increase the Limit of Weight.

WASHINGTON, D. C., Feb. 3.—Postmaster General Hitchcock's annual report made public yesterday, tentatively suggests reduction of some parcel post rates and increasing the limit of weight beyond eleven pounds; recommends civil pension for postal employees; an increase in rates on second class mail which may pave the way for one cent letter postage; the consolidation of the third and fourth classes so books and papers may be forwarded by parcel post; and points out that during his administration, expense of operating the postal service has been cut down \$15,000,000.
In the course of a statement on the condition of postal finances, Mr. Hitchcock says in his report:
"In 1911, for the first time since 1883, postal receipts exceeded postal expenditures. Having a surplus instead of deficit. A heavy loss of revenue in 1912, due to the extraordinary amount of franked matter mailed in the political campaign, created a temporary deficit, but since the close of the fiscal year the income of the department again has outstripped expenses."

Old Age.

Old age as it comes in the orderly process of nature is a beautiful and majestic thing. It stands for experience, knowledge, wisdom, counsel. That is old age as it should be, but old age as it often is means poor digestion, torpid bowels, a sluggish liver and a general feeling of ill health, despondency and misery. This in almost every instance is wholly unnecessary. One of Chamberlain's Tablets taken immediately after supper will improve the digestion, tone up the liver and regulate the bowels. That feeling of despondency will give way to one of hope and good cheer. For sale by all dealers.

No Tabby's in Mails, a Hard and Fast Rule of Parcel Post.

And the cat came back.
There is one man in San Antonio whose high ideas of the parcel post system have been shattered.
Wanting to ship the family tabby to Uvalde, a San Antonian called at the postoffice yesterday and inquired the rate on a four-pound kitten to that point.
His inquiries were not made at the parcel post department, but at the money order window. However, he was informed the new system made no provision for the mailing of live animals, and 'tis said, he left crestfallen over the fact that kitty could not be sent through the mail.
Animals, dead or alive, with the exception of dressed chicken, are not eligible for mailing, and chickens can only be sent a certain distance.—S. A. Express.

LEVEE SECTION YIELDS

Gap in River at Beulah Has Been Widened to 600 Feet.
MEMPHIS, Tenn., Feb. 3.—Except for the unexpected collapse of 200 ft. of the southern end of the crevasse at Beulah, widening the gap to about 600 feet, the flood situation along the Mississippi River was not materially changed today.
At Memphis a stationary stage of 49.5 feet is reported tonight and local weather bureau officials predict that the river will begin to fall tomorrow. Stages above the flood mark are reported as far south as Vicksburg, north of Memphis, the river is falling at all points.
The widening of the gap at Beulah will cause the inundation of a much greater area than was at first anticipated. Refugees are being cared for at the towns in the overflowed district situated on high ground. The task is already assuming larger proportions than the local resources can master.
Residents of the overflowed section in the vicinity of Beulah adopted resolutions at a mass meeting today describing the situation as appalling and an appeal was made to Congress to provide relief.

Carpenter was greatly moved today when he sentenced three Rice brothers—James, Melvin and Fred—to the penitentiary for counterfeiting. James was given five years and the other two three years each. George, a fourth brother, was granted a new trial.
When James told the court that his wife, who is in a delicate condition, and her two children are to be evicted from their home for nonpayment of rent, Judge Carpenter burst out:
"Why do you tell me that? You make it all the harder for the court, when the matter is painful enough as it is."
James Rice Sr., father of the defendants, is serving a 10-year sentence for counterfeiting at Atlanta, and the plea of James Jr. that he sent to that institution was granted.

THE MOAT AND THE BEAM.

The alacrity with which a certain element of the people of this state assimilate every evil report about the members of legislature would be alarming, were it not ridiculous. There was a poker game at Austin, in a hotel, according to his own statement one of the greatest men Texas has had in recent years played poker. Mr. Paddock knew he was violating the law, and he was in the wrong, but referring to the "mote and beam," was the man who, as a surseer from the toil of the day, put in a few hours playing poker in a hotel room, worse, or even as bad, as the waul-eyed, split-tongued sissy who about the same hour was attending a "high-five party" and squeezing the hand of his neighbor's wife under the table?

Gambling is a violation of the law, and men should be punished for gambling, or else the law should be repealed. Being a legislator does not prevent a man from being a human, and prone to err. The history of nations paints one ceaseless panoramic picture of the fact the men and women who have been the most intensely human, have made the greatest achievement in the world. Gambling is wrong in its every feature. Stripped, it stands alone in its wickedness. There is no other vice in all the world from which so much viciousness can grow. There is no such thing as innocent gambling. The trend of mind that makes a man a gambler is not inherited, but acquired and it passes belief that a lot harlequins, would educate gamblers at social card parties, and then dance in fiendish glee at their downfall because they were apt scholars, and wrecked their lives, staying up nights squandering their own, and after other people's money, and in the end becoming worse than outcasts.

There is a duty that every citizen must perform. That duty is to teach proper living to sons and daughters, and to uphold the righteous acts of all men in authority. Not to condone the faults of public servants, when they are guilty of wrong doing, but at the same time to avoid magnifying them. To possess a normal mind, that complacently views both sides of every question, and has the good judgment to choose the lesser of two evils. The legislature is composed of human beings, and it were asking the impossible to expect that in that body no human frailty exist. When wholesale charges of gambling or some other infraction of the law are made against the legislators as a body, or against any considerable number of its members, its usefulness as an arbiter of the destinies of the state is greatly impaired. The press and the pulpit of the country should not magnify these evils. That which is sometimes called the white light of publicity, is quite often a blinding flash that makes men forget for a season that they too are human, and that leaves them afterward in the succeeding darkness of uncertainty. These men are in the main good men who are earnestly striving for the betterment of the social conditions of the state. If the people make great ado over their occasional shortcomings, they break the force of the good laws they pass. If an anti-gambling law is passed, and it is generally believed that the men who pass it are gamblers, men will violate it and juries will refuse to punish under its provisions because they have been told that the men who made the law were guilty. It may be true that one or more of the men who made the law were guilty. It may be true that one or more of the men did gamble, it may be true that one or more of the men who vote upon matters of restriction and regulation of the liquor traffic are drunkards, but that does not warrant the statement, nor the insinuation that an attempt, even, is being made for dissolute men to dominate the law-making bodies of the state. When wholesale charges are made against the legislature in these matters it defeats in a great measure, the things that the better element of the state's citizens would secure. It is the ill-advised comment that one human is making upon the actions of another

human, and in many cases, no doubt, is the censure of men who are virtuous because the opportunity for vice has not been presented.

The various "new county" bills introduced in the present legislature appear to have a rather rough road to travel. As a matter of fact no one should have a word to say in the matter of new counties except the land owners within the boundaries of the proposed county, or their attorneys. That is the real right of local self government, and when we attempt to override it we strike a blow at the very foundation of all free institutions.

It has leaked out that the constituents of some of the poker playing statesmen have raised a great howl about the matter. Their complaint is, it appears, if the boys had some money to lose they should have come home and lost it among their friends.

This has not been a very contentious nor a very strenuous legislature, so far. But, from now on until the congressional and senatorial redistricting bills are disposed of there is likely to be some restlessness.

There are evidently a lot of members of the two houses of the Texas legislature who have read Uncle Remus, and yar-praeing hard to be not thrown in the briar patch. Introducing a bill that you don't want passed is a rather risky business.

Crossing a bridge before you get to it is a very difficult and nerve-racking performance. The fear on the part of some people of radical tariff legislation is harder on them than the real revision will be.

It is not likely that the information secured by the quizzing of Rockefeller yesterday at Jekyll Island will pay the transportation of the money trust probe committee who did the quizzing.

The gentleman from Dallas insisted that the integrity of the House was at stake in the poker investigation. Must have been afraid they would find out the whole business.

If that Ann Harbor gentleman gets well his surgeons should move their place of business to Austin. There are a number of people there who need treatment at once in order to save them.

It is a credit to anyone to be able to do a single thing well. Aunt Della should be delighted that there is at least one member of the family who can make something real good.

It is a significant fact that Mr. Wilson's cabinet was not appointed before the election. There is every indication that he intends to be president after the fourth of March.

Speaker Terrell seems disposed to give the gentleman from Dallas a diploma as the chief time-killer of the House.

Removing Iodine Stains

To remove iodine stains from bacteriological instruments or the hands a strong solution of hypo sulphite of soda is good and effective. The solution should be quite strong, and after its application the solution should be rinsed off with warm water, and the stained article dried well.

Parcel Post Carries Lunch to 300 Hungry Business Men

CHICAGO, Feb. 6.—An innovation in lunch delivery by parcel post was started here yesterday when a downtown restaurant sent out 300 meals in pasteboard packages to brokers, bankers, real estate men, clerks and persons of other occupations.

The packages were mailed so that they would be delivered shortly before the noon hour. The idea was evolved as a solution of the short lunch period.

WILSON'S MIND YET OPEN

He Has Not Decided What He Will Recommend to Extra Session.

PRINCETON, N. J., Feb. 6.—President-elect Wilson has not decided what legislation he will recommend to the extra session of Congress besides the tariff. This statement was made by Mr. Wilson when he was asked tonight concerning reports from Washington to the effect that he would urge the next Congress to take up currency reform.

It is known Mr. Wilson considers the tariff, antitrust legislation and currency reform as the three principal subjects upon which the platform pledges should be carried out as quickly as possible. He expects to learn from party leaders in Congress just what it would be practicable to take up at the extra session.

Jas. Wynne, a wellknown Edwards county ranchman, was among the visitors in Kerrville yesterday. Mr. Wynne was en route home from San Antonio, where he had been on a business trip.

Business Change.

Rawson & Robinson have sold the Model Tailoring Establishment in the Rawson building to Killian & Callahan. These gentlemen were, until recently, engaged in the tailoring business in the Lowry building. They are two estimable young gentlemen, competent in their business, and will no doubt receive a liberal patronage at the hands of the Kerrville public.

City Taxes.

City taxes must be paid not later
than February first of each year. Ow-
ing to leniency on the part of the
City Council, some have been lead to
think that the taxes are not due un-
til May 15th. We have an ordinance
requiring all taxes to be paid not
later than Feb. 1st of each year, also
an opinion from the Attorney Gener-
al upholding the ordinance. There
being some confusion about this mat-
ter, the City Council at its last meet-
ing held February 4th 1913 has ex-
tended the time for the payment of
city taxes for this year over until
March 4th, 1913. All penalties will
be added after March 12, 1913.

SUNNY BROOK
THE PURE FOOD WHISKEY

The great tonic and stimulating properties of Sunny Brook have had much to do toward making us the largest distillers of fine old whiskey in the world. For nearly 50 years Sunny Brook has proved of real value to those who know and then require an energy-builder. When energy is lacking efficiency is lacking. Rare, old and mellow whiskey like Sunny Brook, acts as a great up-builder; and makes life worth living.

Sunny Brook is Bottled in Bond—every bottle is sealed with the Government Stamp showing that the contents are genuine, straight natural whiskey, U. S. Standard (100%) proof. This stamp however, only assures purity, but not quality. Any whiskey bottled in Bond is genuine straight whiskey, but not all straight whiskeys are good whiskeys. When you select Sunny Brook—The Pure Food Whiskey—then you know that in addition to the assurance of Absolute Purity by the greatest government on the globe you have a guarantee of Unexcelled Quality by the largest distillers of fine whiskey in the world.

\$1,500,000 FIRE AT SAVANNAH

For Two Hours Flames Sweep River Front of Two Blocks.

SAVANNAH, Ga., Feb. 2.—Damage estimated at \$1,500,000 resulted early today from a fire of undetermined origin, which swept the Savannah River front for two blocks, destroying the wharves of the Merchants' and Mariners' Transportation Company, several warehouses and business structures and the Planters' rice mill.

The blaze was discovered shortly after 1 o'clock this morning in a shed on the western end of the wharves. All the available fire apparatus in the city responded to the general alarm and every effort was made to check the conflagration, with the assistance of fire tugs in the river. The flames spread from the Ogeechee Canal east to within 150 feet of Broad Street, threatening many business structures and shipping houses.

After fighting the flames for four hours, firemen finally got the fire under control without loss of life. Several firemen were slightly injured but none seriously.

The greatest loss was sustained by the Central Georgia Railway Company, owners of the Merchants' and Mariners' terminals and the Merchants' and Mariners' freight, which was stored in the warehouses. The loss to this company is estimated at \$600,000, covered by insurance.

The American Steel and Wire Company warehouses on either side of the entrance to the Merchants' and Mariners' docks were partially destroyed with a damage estimated at between \$50,000 and \$75,000, also covered by insurance.

Estimates place the loss of the Planters' rice mill property at \$20,000. The building was not insured, but the machinery was protected. Other losses include the Conklin Tin Plate and Metal Company, \$20,000; Savannah Supply Company, \$15,000; Crane & Co., pipe, \$25,000; Quaker City Flour Mills, \$2,400.

Artificial Sponges of Paper

When paper pulp is treated with zinc chloride there results a viscous mass. Sodium chloride (or ordinary table salt) is added to this; the mass is then thoroughly rinsed with alcohol, and is finally submitted to the action of a press whose platform bristles with a number of fine metallic points or projections. These penetrate the mass, forming tubes like those in ordinary marine sponge known as "canaliques".

The block thus obtained is of a spongy consistency and is both insoluble and unalterable in water. It is smooth and pleasant to the touch, and is not susceptible of putrefaction. It is very ingenious employment of cellulose to which we owe so much.

First Movement to Better Farming 128 Years Ago.

PHILADELPHIA, Pa., Feb. 4.—The work of the Texas Farm Life Commission which is seeking to better farming conditions and make farm life more attractive, as well as the business of farming more remunerative in that State, has attracted quite a bit of attention in this city.

Historians recall the fact that the first organized effort for the promotion of agriculture in America was started here just 128 years ago. In 1785 George Washington and Benjamin Franklin organized the Philadelphia Society for the promotion of Agriculture and it is today one of the most attractive organizations in the country. The work of the farm life Commission bears the same relation to that State as the Philadelphia Society does to the United States.

Mothers Held For Death of Sons.

EAST ST. LOUIS, Ill., Feb. 2.—Mrs. Pearl Bell Stebbins and Mrs. Nell Carpenter, mothers of two boys who were found dead from gas asphyxiation in the same bed early today, are under arrest here.

The boys, George Stebbins, 12, and Ralph Carpenter, 6, were discovered dead when Mrs. Carpenter returned to her home this morning in the company of a man, it was testified at the coroner's inquest. The other woman was away from home all night, being found by the police shortly before noon.

A three-fourth inch gas pipe in the bedroom adjoining that occupied by the boys was the source of the fumes which caused the boys' death. At the inquest it was testified that late last night Mrs. Stebbins was seen to enter the house, and a man and a woman awaited her appearance on the sidewalk in front.

Defense Against Water Rates.

DALLAS, Tex., Feb. 3.—Dallas shippers tonight at the annual dinner of the freight committee of the Dallas Chamber of Commerce decided to call a meeting of the shippers of Texas to advise some means of defending themselves against advances in freight rates on shipments from the Atlantic seaboard to Texas gulf ports.

The meeting will be held in Dallas during the Texas Hardware Men's Convention, Feb. 11, 12 and 13. The exact day of the shippers' meeting will be announced by Manager G. S. Maxwell of the freight bureau in a day or two.

TWO WOMEN KILLED IN THEATER PANIC

Boy's Cry of Fire Starts Rush For Exits With Fatal Consequences.

NEW YORK, N. Y., Feb. 2.—A boy's cry of "fire" and the smoke from an exploded reel of a moving picture machine in an East Side theater tonight resulted in a panic among the crowd of 400 persons and a rush for the exits, in which two women were killed and eleven other persons so badly injured that they had to be sent to hospitals.

The panic occurred in one of the most densely populated sections of the East Side. The thousands who poured into East Houston Street, in front of the theater, rushed to the doors and added to the confusion and to the number of injured. The two women, who have not been identified, were trampled to death in the rush of the crowd to reach the doors. The operator of the machine soon extinguished the burning film, and the flames did not spread beyond the fireproof cage in which he worked.

At the time the panic started fully 100 persons were waiting in the vestibule to gain admission to the theater, and as the doors burst open from within these people were caught in the rush.

Fire Commissioner Johnson arrived at the theater soon after it had been cleared. In a statement he declared that there were 800 similar places in Greater New York where conditions are equally perilous. He said, however, that owners had complied with every ordinance governing such places.

Waving Red Rag, Little Dog Succeeds In Stopping Train.

MICHUAPAN, Mexico, Feb. 2.—While the peace envoys were en route to villa Ahumada to meet the rebel chiefs, Salazar and Rojas, last week, the train came to a sudden stop near Escuintlas station.

The commissioners apprehensive of danger, fearing that the train had been held up by a rebel band, approached the vestibule of their coach and peered up the road. They saw a brakeman run up the road paralleling the track and later return, bearing in his arms a little Spaniel holding in its mouth a remnant of a red shirt—the emblems of danger. The canine had flagged the train—had stood in the middle of the track waving his head to and fro.

It developed later that the little dog had gotten lost from a military train preceding the one carrying the envoys and was the property of a federal officer. The dog has been riding on trains for the last three years and therefore seemed to be familiar with the mode of stopping trains.

Texas Hunters Pay \$7,000 Into State Treasury in 1912.

AUSTIN, Tex., Feb. 4.—During the year from September 1, 1911, to September 1, 1912, 4,297 licenses to hunters were issued by the county clerks on behalf of the Game, Fish and Oyster Commissioner of the State, according to the report of the State Game Warden for that period, which has just been made public. On these, a gross amount of \$7,364 was collected and clerks' to the amount of \$1,945.63 were paid, leaving a net amount to the state of \$5,418.37.

During the same period, game wardens issued State licenses to hunters and fishermen to the amount of \$1,755 on which there were fees amounting to \$125, leaving for the state \$1,630. Bexar county issued the greatest number of licenses, with a total of 569, while the fewest number were issued in Howard and Mason counties with one each.

In all, there are three ponds in which the fish are raised, ranging in area from two acres down. These ponds are supplied with pure artesian water, although situated near the springs of the San Marcos River. The variety of fish raised here embrace several kinds of bass and sunfish family. Among them are the black bass, crappe, strawberry bass, rock bass, warmouth bass, bream, and about four varieties of sunfish of the perch family.

The State Game, Fish and Oyster Commissioner has asked the Texas Legislature to provide for four hatcheries, to be owned by the State, in order that all the fresh waters of Texas may be stocked with fish.

University School For Club Women.

AUSTIN, Tex., Feb. 3.—Mrs. Percy V. Pennybacker, president of the General Federation of Women's Clubs and Mrs. Ell Hertzberg, president of the Texas Federation, have sent a joint letter to every Women's Club in Texas, urging that each send

"Sure Cure"

"I would like to guide suffering women to a sure cure for female troubles," writes Mrs. R. E. Mercer, of Frozen Camp, W. Va. "I have found no medicine equal to Cardui. I had suffered for about four years. Would have headache for a week at a time, until I would be nearly crazy. I took Cardui and now I never have the headache any more."

Take CARDUI

The Woman's Tonic

The pains from which many women suffer every month are unnecessary. It's not safe to trust to strong drugs, right at the time of the pains. Better to take Cardui for a while, before and after, to strengthen the system and cure the cause. This is the sensible, scientific, the right way. Try it.

a delegate to Home Economics Week at the State University, which will begin Monday, February 19. The letter of Mrs. Pennybacker and Mrs. Hertzberg follows:

To the club women of Texas: The School of Domestic Economy of the University of Texas will hold a week's school of Home Economics at the University, beginning Monday, February 19. This school is open to all of the women of the State without entrance requirements of any kind. Its purpose is to consider the various functions and activities of the home including the economical, physical and aesthetic aspects. And also the relation of the home to the community and to society as a whole.

Lecturers of National reputation will discuss daily these phases of the home. The detailed program is accompanying this enclosure. You are asked to give your careful consideration. The Texas Federation of Clubs recognizes the home as the unit of society; as the very basis of civilization, and it heartily indorses any movement that tends to uplift and strengthen it.

We want every club woman in the state to know of the splendid opportunity offered them at the University and urge that as many as possible avail themselves of it. We recommend that each club send a duly elected or appointed delegate to Austin that they may bring back the knowledge and inspiration gained through these lectures, demonstrations and conferences.

We feel assured that not only would the individual be benefited and the homes of countless thousands would feel the stimulus of this movement.

Texas Lumber to Canal Zone.

PORT BOLIVAR, Tex., Feb. 4.—The first shipment of a contract for 2,500,000 feet of Texas yellow pine lumber made for the United States Government and to be supplied by the Kirby Lumber Company for use in the Panama Canal Zone left here on the Steamship Harry T. Inge recently. The initial shipment was 500,000 feet and will be used in the construction of barracks for the United States soldiers quartered along the Panama Canal.

Uncle Sam Needs More Railroads in Texas.

While our legislature bodies are doing co-operative thinking, and the time for interrogating progress is at hand, Uncle Sam has given out a few statistics on Texas that remind us we are yet a frontier country, much in need of modern methods of transportation.

According to the official figures, we have 43 postoffices, 50 miles or more from a railroad and one postoffice to which the mail is carried a distance of 90 miles by stage, from Comstock in Val Verde county to Ozona in Crockett county. There are 1,557 inland postoffices in Texas, and Uncle Sam is now advertising for five hundred men to carry the mail over a portion of these routes.

It is true that many sections of the State enjoy a dozen branches of prosperity and forget our frontier neighbors who are struggling with primitive conditions.

Suffragist Favors Women For Ministry.

EVANSTON, Ill., Feb. 3.—Mrs. Catherine Waugh McCulloch, suffragist and justice of the peace, made an impromptu address in favor of women for the ministry at the First Congregational Church here last night.

Mrs. McCulloch rose after Dr. S. O. Davis, president of the Chicago Theological Seminary, had deplored the fact that good material for the ministry is scarce. He had said that the ordinary church cannot afford a high class pastor and his family, and the result was that men of only limited attainments could be had.

"Why don't you get a woman to preach?" asked Mrs. McCulloch. After Davis had answered that the question of ordaining women as ministers had often been discussed, Mrs. McCulloch continued:

"You should seek the women as you do the men. There are many girls in college who are more capable than men to take up preaching. They could do better because they could live cheaper and they wouldn't be burdened with families."

Texas Hatcheries Produced 3000,000 Fish Last Year.

SAN MARCOS, Tex., Feb. 4.—The output of fish raised at the Federal Fish Hatchery here last year was the largest in the history of the hatcheries, there being about 300,000 of the combined varieties distributed in Texas. In spite of the increased production over previous years, the output was far short of the demand for stocking the lakes, streams and private ponds in Texas.

Xapattistas Attack Train, Kill Troops

MEXICO CITY, Feb. 3.—Rebel followers of General Zapata attacked a passenger train traveling from Mexico City to Orzumba, forty-five miles south of the capital early today, killing or wounding all the twenty soldiers in the train's escort. Four men passengers were killed and many of the women passengers were carried off by the rebels.

The train was halted by the derailment of the engine in a cut. The rebels then began firing on the train from the sides of the cut at a distance of less than two yards, concentrating their fire on the troop car. A relief train took the wounded to Amecameca.

SHOT FROM WINDOW

KILLS GIRL STRIKER

Proprietor of Shop Fires Late Crowd, 17-Year-Old Girl is Dead.

ROCHESTER, N. Y., Feb. 5.—The first death resulting from the strike of garment workers occurred here today, when Valentine Sauter, proprietor of a clothing shop, fired a shotgun into a crowd of strikers who were engaged in a demonstration in front of his place of business.

One girl striker, Ida Braeman, 17 years old, was killed and three other persons were injured. Two of the wounded are women.

Sauter employs about forty machine hands and 700 strikers went to his shop this afternoon in an effort to persuade the operatives to walk out. During the demonstration many stones were thrown. Sauter fired from an upstairs window of the shop. Miss Braeman died almost instantly from the wound she received. The police arrested Sauter and he is charged with murder in the first degree.

More arrests will be made, the police say, on charges of rioting.

James McManus, of the State Bureau of Mediation and Arbitration, which has been trying to settle the strike, today sent a circular letter to the manufacturers and employees suggesting that a conference be arranged. Such a conference, he believes, will result in settling the trouble and defining the issues. So far the strikers have made no formal presentation or demands.

Pres Will Publish Daily Newspaper

AUSTIN, Tex., Feb. 6.—"The Southerner" is the name of a new publication which is to be launched in Texas within the next year, and which will be backed by the leading pros of the state. The new company will publish a daily and semi-weekly newspaper, according to one of the stockholders here, and the capitalization will be \$1,000,000. The office of publication will be either at Waco or Austin, the place, however, having not as yet been officially determined. It is said the company has already \$250,000 subscribed and will begin operations when \$500,000 has been

subscribed. H. M. Bain of Waco is the executive head of the venture and is promoting the company. During the coming spring there will be another meeting of the promoters, at which time the place of publication and also the date for commencing operations will be determined. "Prohibition, good government and civic righteousness," will be the motto of the newspaper.

New Plan For Alamo.

AUSTIN, Tex., Feb. 6.—Another plan is to be recommended for the disposition of the Alamo proposition. It was learned today that when the majority and minority reports come up for disposition in the Senate, an amendment is to be offered for the two bills—the one placing the property under the control of the governor and the other under that of the daughters of the Republic—which the author of the amendment believes will settle the controversy.

This amendment to the bill will provide for the creation of a board to be composed of the governor, attorney general, superintendent of

public buildings and grounds and two women, one representing the De Zavala faction and the other the Sevier-faction of the Daughters, and these five persons will constitute the board. The active management, however, to be with the three men on the board, and the women to take part only when there is a question of appeal.

Brain of Dog Put Into Man's Skull.

ANN ARBOR, Mich., Feb. 5.—The brain of a dog was transferred to a live man's skull at University hospital here today. W. A. Smith of Kalamazoo had been suffering from abscess on the brain, and in a last effort to save his life this remarkable operation was performed. Smith was resting comfortably tonight and the surgeons say he has a good chance to recover.

Rockefeller on Friday.

BRUNSWICK, Ga., Feb. 5.—Arrangements have been completed for the examination of William Rockefeller Friday afternoon by members of the House Money Trust committee, at the Rockefeller apartments on Jekyl Island. Because of Mr. Rockefeller's aversion to publicity, it is stated, all newspaper men will be barred from the island, which is private property. It is understood arrangements have been made for the government investigators to be cared for in the Rockefeller apartments during their stay on the island.

Chemical Schedule is up.

WASHINGTON, D. C., Feb. 4.—The chemical schedule of the tariff law, producing 4 per cent of the total government revenue from customs, was considered in executive session by the Democrats of the House Committee on Ways and Means today. Many of the items taken up were raw materials used in the manufacture of medicines, paints, dyes and in tanning and other dyeing processes, coal tar products and the like. The schedule will not be material-
