Draws hundreds to the Hill Country. The big Presbyterian Camp is a scene of bustling life and activity. A great crowd of pleasure seekers throngs the Camp Grounds and the city.

AMBASSADOR WILSON REPORTS ON MEXICO

Says Conference With President Related Entirely to Mexican Situation.

POLICY NOT DISCUSSED.

Bryan Not Present at Interview. Ambassador Wilson Takes Vacation.

WASHINGTON, D. C., July 28.—Ambassador Wilson immediately after his conference with President Wilson, said:

"The discussion related entirely to the facts of the situation in Mexico, and not at all to any question of governmental policy. All view relative to the situation have been placed in the hands of the president for his consideration."

Secretary Bryan was not present. Ambassador Wilson said he expected to leave Washington tonight to be away several days. He would not discuss the possibility of his return to Mexico in his official capacity. His departure at this time seems to indicate that he will not appear before the Senate foreign relations committee.

President Wilson does not believe the public mind in the United States is excited over the situation in Mexico, nor is he convinced that a crisis has been reached in the revolution itself.

This information was obtained in official circles today with an authoritative denial that any proposal looking toward a co-operation between Mexican government for the restoration of peace had been suggested. Those who approached the president today on the Mexican situation found him disinclined to discuss it, as later he was to confer with Ambassador Henry Lane Wilson.

Secretary Bryan arranged to see the president before the conference. The Secretary also continued his residence on Mexican affairs.

It was learned at the White House, however, that reports crediting Ambassador Wilson with having advocated a set of proposals contemplating minor co-operation with Mexico, or intervention, were unfounded. The president has received from Ambassador Wilson a historical account of events in Mexico in the last three years. The ambassador himself declared today he had not mentioned any remedies on the situation to any one and had not even put on paper the plans he had in mind. These he had reserved, he said, for his personal interview with the president.

Contradictory information has reached the Washington government

regarding the stability of the Huerta administration. It was said today to be a question of reliability of informants. Officials declined to state which reports were being credited. It was said, however, that in the last few days there has been little or no change in the status of affairs in the Mexican republic.

Secretary Bryan, after a call at the White House, sought information through a conference with President Brown of the Mexican National Railways, on traffic conditions in Mexico and their relation to the paralyzed conditions of commerce and industry. Latest reports from the Mexico City embassy reflected the financial situation.

The battleship South Carolina is expected at Vera Cruz late today, to resume patrol duty, after having been at Galveston, Tex., to give officers and crew shore leave. The battleship New Hampshire, is en route from Vera Cruz to Galveston.

The gunboat Wheeling, reporting from Frontera, makes no mention of disorders there.

Senator Pomerehne called at the State Department to press for attention the case of Bernard McDonald, under sentence of death at Chihuahua. Senator Pomerehne was told that the department had taken aggressive steps for McDonald's relief, but that no report had been received since the embassy at Mexico City and the consul at Chihuahua had been instructed to act.

Representative Smith of Texas, asked Secretary Bryan to remove Consul Edwards at Jauzez because of his refusal to allow a party of 50 Americans to go to relieve refugees at Madera.

A telegram received by Representative Smith today said the Madera refugees were in momentary peril. There are 35 Americans, 22 of whom are women and children. The telegram charged that Consul Edwards had not properly represented the situation to the State Department.

Representative Smith's report stated that \$5 railroad bridges on the line between Madera and Jauzez have been burned or dynamited and that bandits have threatened to kill any person attempting to repair the line. He urged Secretary Bryan to embargo all shipments of arms to Mexico or to allow both Mexican factions to secure American guns.

Representative Smith said that the secretary gave him no information as to what the United States would do.

The shooting of Charles B. Dixon Jr. at Jauzez is regarded as a serious incident, but its bearing on the general Mexican situation is being minimized by officials here today, as the American demand for the investigation and punishment of the offenders apparently was being complied with.

At the White House it was said the United States would pursue a course of diligent inquiry into the affair and would insist on summary action to the guilty.

Strong representations made yesterday

were the most drastic in phraseology that have been made to the Huerta government in Mexico today.

The United States Government demanded not only the prompt arrest, court martial and punishment of the Mexican federal soldiers who shot Dixon, but the immediate release of Charles Bissell and Bernard McDonald, mining managers, imprisoned by federal soldiers at Chihuahua City and said to be threatened with execution.

So serious were these demands regarded in official circles that they overshadowed largely the theoretical considerations of policy which the visit of Ambassador Henry Lane Wilson has brought to a climax. The ambassador himself was so excited over the developments in Mexico that he dictated two strong telegrams, one to the embassy at Mexico City, and the other to the American consul at Jauzez and, while Secretary Bryan slightly modified their tone, they were approved and promptly dispatched.

Texas Veterans Meet.

GREENVILLE, Texas, July 27.—Preparations are being made in this city for the State reunion of United Confederate Veterans, which is to be held August 7 and 8.

Many important features for the success of this reunion are being carried out by the committees from the Chamber of Commerce, who have the matter in charge. Chief among these will be the establishment of a regular military camp composed of several hundred army tents, and will be located just north of the City Park. Every feature of a real military camp will be provided and many conveniences added thereto.

Plans are being laid for the caring for and feeding of over a thousand and all meals will be served in the camp on the afternoon of August 7. Several hundred automobiles will carry the veterans for a sightseeing trip over the city.

On the afternoon of the second day, August 8, Joseph W. Bailey will deliver an address to the Confederates. This city expects to entertain the largest crowd in her history as special convention railway rates will be in effect from all points in Texas.

Episcopal Clericus.

Kerrville hopes to have as her guest from 12 to 15 clergymen of the Episcopal Diocese of West Texas for two or three days in the latter part of August. There will be special services while they are here, which we hope everyone will attend.

For Sale.

200 head good young stock goats, will sell before or after shearing. W. N. HATCH, Japonica, Tex.

Misses Laura and Meta Henke left yesterday for Fredericksburg where they will visit relatives.

PRESBYTERIAN ENCAMPMENT BIG SUCCESS

All Records Broken In Point Of Attendance. Ideal Weather Prevails And Big Crowd Pleasured.

IMPROVEMENTS APPRECIATED Management Is Congratulated On Every Side For Great Achievements In Handling Big Meeting.

The 1913 meeting of the Texas Presbyterian Encampment now in session at Kerrville is the big winner in all the list of summer camps at this place. Manager Delaney has won laurels in the enterprise in which he as well as all those who are identified with the movement may well be proud.

The attendance this year is by far the largest that has ever been on the grounds at any time in its history. The people are well pleased with the improvements made at the grounds since last year's meeting. The program is an excellent one, and is being carried out in a highly satisfactory manner. The welcoming address was made by Prof. Alvin Dille, who in a happy vein welcomed the campers to the city and its beauties. The response was made by Dr. R. E. Vincent, of Austin, who has spent so many summers in Kerrville that he felt like he was welcoming himself home. From the hour of the formal opening up to the present there has not been a hitch in the program anywhere, and the outlook is splendid for the entire session to be bigger and better in every respect than ever before.

While Manager Delaney merits much credit for the smoothness of the administration of the affairs of the big camp, Dr. Hall comes in along with the other members of the directorate for an excellent program. And when all are given credit for an excellent entertainment and the royal good time that is being shown the crowd, it is in order to place the credit for the big attendance where it should go, and that is to the tireless efforts of Dr. W. P. Dickey, of the First Presbyterian Church, Kerrville. Never before has the advertising of the encampment been undertaken on such a broad basis as this year, and results show the wisdom and well directed efforts of the advertising manager.

The management has made it plain from time to time that all people are welcome, and have invited the people of Kerrville and of all this section to join them in a work that cannot but result in the betterment of the people in every way. When the moral and spiritual uplift, and the physical well-

DIES OF INJURIES

John Shelby Lowrance Hurt in Auto Accident Succumbs, Buried Yesterday.

John Shelby Lowrance died at his home in Kerrville, July 31, from injuries received in an automobile accident Tuesday night. The funeral took place yesterday under auspices of the local camp Woodmen of the World. Mr. Lowrance and Mr. Leath were returning to Kerrville about 8 o'clock Tuesday evening, when about a mile below town on the Center Point road the car in which they were driving collided with a wagon loaded with wood. Neither of the occupants of the car were thrown from it, but in some manner Mr. Lowrance, who was driving, was struck by the steering wheel and injured internally. Mr. Leath was not injured. The wagon was demolished, and the Mexican driver slightly injured.

John Shelby Lowrance was born in Kerr county September 6, 1864. During the greater part of his life, after becoming of age, he was engaged in the stock business, in this and adjoining counties. A short time ago he disposed of his ranch interests in Edwards County and coming to Kerrville bought a garage, which he was operating at the time of his death. Deceased is survived by a widow and ten children, all of whom were present when the end came. The children are Ed, Robert, Fred, Joe and John Lowrance, Mrs. Roger Shurley, Misses Effie, Mabel, Minta and Maggie Lowrance.

The high esteem in which the deceased was held by a wide circle of life long friends and acquaintances was evidenced by the vast concourse of people who attended the funeral services.

Let us supply you with ANTHRAX OIDS. RAWSON'S DRUG STORE.

Card Of Thanks.

I desire to express my sincere thanks and appreciation of the great kindness shown me in my bereavement at the death of my wife.

Gratefully,
J. V. DOTY

Don't borrow. Do you know your neighbors talk about it all the time. Buy an ice cream freezer at our season-end sale of freezers. Will last for years.

Tan rubber heels for tan shoes. BENTON, The Shoe Repairer

Bruno Schwethelm was in town Saturday from his ranch on Wolf Creek.

G. E. Dowdy of Ingram was in town Tuesday.

LOST—A gold lavallier, on the streets of Kerrville Saturday, July 26. Finder will please return same to this office and receive reward.

G. F. Schreiner, W. R. Schreiner, Howard Lacey, W. N. Barton of Austin, and Capt. B. C. Bunbury returned Monday from a week's fishing trip on Paint Creek.

Our aim is perfect service in the mercantile business. Not only the best goods obtainable, but such goods handled in a business-like manner, and delivered to you with promptness. We solicit your telephone conversation about things to eat and things to wear. HEIMANN & GRONA.

T. M. Kelley, a ranchman living near Carta Valley, and Judge Foter of Del Rio were here Friday and Saturday on a business trip.

You want to build? Well, in building as in everything else, the best is cheapest. We handle the best builders' material. The "Old House" BEITEL LUMBER CO.

Mr. and Mrs. C. W. Granville and baby returned to their home at Harper Saturday after a short visit at the home of Mr. and Mrs. E. C. Fisk.

We offer you pure, fresh groceries. The kind of goods that will stand inspection under the pure food law. HEIMANN & GRONA.

Miss Clara Herzog returned to her home in this city Saturday from a six weeks' visit to relatives and friends at Houston and Galveston.

You want to build? Well, in building as in everything else, the best is cheapest. We handle the best builders' material. The "Old House" BEITEL LUMBER CO.

Mortiz Cloud, a ranchman of the Roosevelt country, was here attending to business on Friday of last week.

Summer clothes, comfortable, stylish wearables are in our line, and we invite your attention to our stock. HEIMANN & GRONA.

Mrs. T. C. Johnston and children, Dora and Fordtran, and Mr. and Mrs. W. G. Garrett, Jr., and baby left Saturday for a visit to relatives at Junction. Mr. Garrett returned Tuesday, but the rest of the party will remain several weeks.

No bargain counter, no special bargain stock, no culls and left overs at the "Old House." We handle standard, staple builders' material, and sell at a reasonable profit. The profit (our wages for handling) is on every piece of lumber in the yard. We don't keep a stock of "bait," because we know the people of this section are not fish.

BEITEL LUMBER CO.

Mr. and Mrs. W. C. Rigsby and Charles Schreiner, Jr. came up from San Antonio last Saturday to join L. A. Schreiner and family in a week-end camping trip up the river.

Mrs. B. Peltzer, who had been visiting at the home of her brother-in-law, Capt. Charles Schreiner, for several weeks returned to her home in San Antonio Saturday.

Look ahead a little. There is a story of a nigger at an experience meeting who said: "I wish I was a June bug, I'd fly away to Heaven." "Yes, you fool nigger," responded his wife, "an' a peckerwood 'ud gitcher 'fo you got haf a mile." Look ahead and when you bring a load of grain to town take home a load of lumber for the gallery floor or kitchen roof. Kill two birds with one stone and dodge the "June bug," and also remember to buy the lumber at the "Old House."

Mr. and Mrs. C. A. Stapp and daughter and son were among the visitors in Kerrville Tuesday from their ranch near Mountain Home.

LOST—Open case gold watch, on road between Ingram and Goat Creek crossing, Monday. Will reward for return to this office.

COCA COLA HABIT, A GHOST.

We have all heard of ghosts, but none of us has ever seen one. It's the same way with coca cola "fiends;" you can hear about them but you might search for them until doom's day and you would never find one. Physicians who have treated hundreds of drug habit cases, including opium, morphine, cocaine, alcohol, etc., say that they have never seen a case where the use of coca cola has so fastened itself upon the individual as to constitute a habit in the true sense of the word. Although millions of glasses of coca cola are drunk every year, no coca cola fiends have made themselves visible at the doors of the sanitariums for the treatment of drug habits.

The Coca Cola habit is analogous to the beefsteak habit and the strawberry habit and the ice cream habit. People drink Coca-Cola first because they see it advertised and thereafter because it tastes good and refreshes their minds and bodies. They drink it when they can get it and contentedly do without it when they can't get it. If you had ever witnessed the ravings of a real drug fiend when deprived of his drug, if you ever observed the agony he suffers, you would never again be so unfair as to mention Coca Cola in the same breath with the "habit-forming" drugs.

Prison Board in Austin.

AUSTIN, Tex., July 28.—The rumors that the senate might refuse to confirm the nomination of Captain Ben E. Cabell as Prison Commissioner and the ruling by the Attorney General that it would be necessary for the Governor to make appointment of the other two members of the Prison Commission at this time, have had the effect of bringing all members of the prison Commission to Austin, together with several friends of the commissioners who are working in their behalf. Chairman Cabell of the commission has been here several days.

Minister Praises This Laxative.

Rev. H. Stybenroll of Allison, Ia., in praising Dr. King's New Life Pills for constipation, writes:—"Dr. King's New Life Pills are such perfect pills no home should be without them." No other laxative for the liver and bowels. Every pill guaranteed. Try them. Price 25c at the Kerrville Drug Co.

Can't Wear Bloomers.

LACROSSE, Wis., July 29.—Bloomers, which 25 girls in the Young Women's Christian Association camp, just north of here, have worn as their preferred camp attire, have been ordered suppressed by the matron, Miss Bertha Hoefke. Because of the constantly passing stream of motor boats and steamers this dress is declared immodest and the girls were ordered to wear skirts.

The young women who find the bloomers more convenient than hobble skirts for hill climbing and rambling through the woods, are in revolt against the order, but were told they would have to wear skirts or leave the camp.

The Best Pain Killer.

Bucklen's Arnica Salve when applied to a cut, bruise, sprain, burn or scald, or other injury of the skin will immediately remove all pain. E. E. Chamberlain of Clinton, Me., says:—"It robs cuts and other injuries of their terrors. As a healing remedy its equal don't exist." Will do good for you. Only 25c at The Kerrville Drug Co.

W. B. Gano Died.

DALLAS, Tex., July 28.—W. B. Gano, member of the law firm of Gano, Gano and Gano, and one of the oldest members of the Dallas bar, died Friday evening in the Henrotin Hospital in Chicago, following a surgical operation made necessary by an injury received in a railway accident two weeks ago. He was located temporarily in Chicago and making his home in one of the suburbs.

Going into the city one morning the train stopped suddenly, throwing him back of the seat in front. He regarded the injury so slightly that he said nothing to his Dallas relatives about it. When he thought he had about recovered from it he was induced to undergo an operation shortly after which he died.

The body will be brought to Dallas, but as yet no funerals arrangements have been made.

Cecil Robinson returned last week from Philadelphia, where he had been in school for several months, taking a special course.

CATHOLIC CHURCH NOTES
BY FATHER KEMPER

The Portiuncula Indulgences can be gained from today noon until tomorrow midnight in St. Mary's Church by grant of the Right Rev. Bishop Shaw, who thus transfers the date for the convenience of the faithful. This devotion dates back to the foundation of the Franciscan Order in the 13th century when St. Francis of Assisi received a "little portion" (Portiuncula) from the Benedictine monk, somewhat as St. Benedict himself in the 5th century had laid the beginnings of western monasticism in a hermit's cell at the now famous Monte Cassino. It was last year on the feast of St. Francis that the Janitor's Lodge was blessed and dedicated under the name of Portiuncula. The Janitor's position will be filled after next week by Mr. Thos. Calc and family of San Antonio. He is an experienced gardener, and will no doubt make St. Mary's Park one of the sights of our town.

Mass will be read tomorrow at 8:30 o'clock a. m. If the present overcrowded conditions continue, it will be necessary to duplicate the Sunday services so that everyone has an opportunity to fulfill his Catholic obligations. The Notre Dame advertisement running in a San Antonio Catholic paper is very largely responsible for the large influx of visitors who are thus informed of the residence of a priest and all other conveniences.

Mr. Thos. F. Hart and family paid a short visit during the week in order to make arrangements for a prolonged sojourn during August. Mrs. Agnes Sullivan and her four sons returned to San Antonio on Wednesday, and will there meet her two oldest boys who are preparing to enter a theological seminary. Mrs. Sullivan is a second cousin of the celebrated Cardinal Cullen who at the age of 25 completed his priestly studies and defended 224 scriptural theses in the presence of the Pope and all the elite of ecclesiastical Rome, and was then appointed Professor of Hebrew at the Propaganda University, which school he saved a few years later from Italian confiscation by hoisting the Stars and Stripes and procuring Uncle Sam's intervention.

Father Campbell finished a successful French revival in Chicago and writes that before the feast of St. Anne a miracle was wrought at this pilgrimage church when a blind girl suddenly recovered the full use of her sight. The priest-editor adds that under his own eyes occurred the instantaneous cure of a young man who had been bed-ridden for four years from a spinal ailment that doctors had given up in despair. This young man will go with Father Campbell to Umberger and work in the Antidote office.

Miss Mary Lange and her sister Hedwig went to San Antonio in the early part of the week to visit their two religious sisters of the Divine Providence Order, at Our Lady of the Lake. The elder of these nuns is now completing her annual summer normal course, and will then resume her teaching in the Academy at Quapaw, Oklahoma.

On Tuesday Alejandro Arreola, whose death occurred the previous night, was buried from the Catholic Church because the suicidal element was far from certain, and because the young man had called for a priest and was fully conscious for an hour while Father Kemper prepared him for a Christian departure. These facts are stated not to recount an unfortunate occurrence, or to fill space, but to disillusion those who might have been ignorantly or maliciously misinformed.

The Very Rev. Provincial, Andrew Morrisey C. S. C., honored us by personally guiding Misses Angeline Kemper and Hilda Mosel through the numerous buildings at the "big Notre Dame," which is the largest Catholic boarding University in the world. He paid this singular courtesy in order to manifest his pride in having an alumnus establish a "little Notre Dame" down in Texas. Time will tell whether our school will not run a close race with its parent institute.

MRS. J. V. DOTY.

Mrs. J. V. Doty died at her home in Kerrville Sunday, July 27. Deceased came to Kerrville several years ago from Lexington, Miss., in quest of health. She was afflicted with tuberculosis, of which malady she died. The body was taken to the old home at Lexington, accompanied by Mr. Doty, for interment.

Mrs. Doty was a patient sufferer and a most lovable woman, and notwithstanding her long illness made many warm friends among the people of this city who deeply sympathize with the grief-stricken husband.

Notice by Publication of Final Account.

THE STATE OF TEXAS
To any Sheriff or any Constable of Kerr County—Greeting:
F. A. Karger, administrator of the Estate of J. M. Harris, Deceased, having filed in our County Court his Final Account of the condition of the Estate of said J. M. Harris, deceased, together with an application to be discharged from said administration,

YOU ARE HEREBY COMMANDED, that by publication of this writ for twenty days in a newspaper regularly published in the County of Kerr you give due notice to all persons interested in the Account for Final Settlement of said Estate, to file their objections thereto, if any they have, on or before the August Term, 1913, of said County Court, commencing and to be held at the Court House of said County, in the town of Kerrville, Texas, on the first Monday in August, A. D. 1913, same being the 4th day of August, 1913, when said Account and Application will be considered by said Court.

WITNESS: J. R. LEAVELL, Clerk of the County Court of Kerr County, GIVEN UNDER MY HAND and seal of said Court, at my office, in the town of Kerrville, Texas, this 2nd day of July, A. D. 1913.

J. R. LEAVELL
Clerk C. C. Kerr County, Texas.
A True Copy, I Certify:
J. T. MOORE,
Sheriff Kerr County.

Smoke of Battle Hides Peace Dove in Balkans.

LONDON, July 27.—The Balkan peace conference is expected to open at Bucharest Wednesday, but meantime serious fighting continues. The Greeks refused Bulgaria's request for even a three day's truce and, after heavy fighting, have gotten through Krefna Pass, defeating the Bulgarians at Simakle, capturing three siege guns and driving the Bulgarians back on Djuma. The Greeks claim they annihilated the whole left of the Bulgarian army and that they have forced the Bulgarians back along the Struma Valley to Djuma, on the Bulgarian frontier. Unless peace speedily is negotiated another great battle is likely to occur at Djuma.

The concert of the Powers seems as powerless as before to adopt any united action of its troops in penetrating old Bulgaria, and no further advance of Turkish troops has been reported. The Turks claim their spoils at Adrianople consisted of 150 guns, 50,000 rifles and 1,000,000 sacks of corn.

Uprising in Portugal.

PARIS, July 29.—Oispatches from Portugal received by way of the Spanish frontier today indicated that great revolutionary activity prevails in Portugal. It is reported that a vast movement planned in Lisbon and Oporto, may break out at any moment. From the same source it is learned that serious street fighting occurred last night in various places.

The censor in Lisbon refused to allow the cabling of an Associated Press dispatch, stating that a band of revolutionaries had attempted to rush the barracks of the Sixteenth Infantry in order to rescue political prisoners detained there. The civilians were repulsed by the troops after an exchange of shots with the guard.

U. S. CRUISER HIT ADDITION TO ASYLUM

Observing Battle, Stray Missiles Strike Ship.

SHANGHAI, July 27.—The United States auxiliary cruiser Rainbow's bluejackets, who were landed Saturday for a demonstration, are now guarding the foreign settlement with the men from other foreign warships. The Rainbow was struck three times during the fighting last Friday. The whereabouts of Dr. Sun Yat Sen, one of the leaders of the revolt, is unknown. The Standard Oil Company's houseboat was commandeered near Stow Chow. Much of the money on board was taken and the boat was released.

In accordance with a proclamation issued Saturday the municipal police, reinforced by a strong body of Shanghai volunteers, went today to the rebel headquarters at Chapel, immediately north of the foreign settlement boundary, where they disarmed 300 soldiers and twelve officers and took six three-inch guns. There was no actual resistance on the part of the rebels, but for a brief period a conflict seemed imminent. The rebels, however, were overawed by the firm attitude of the municipal police.

Detachments of American, British, Japanese, French and Italian bluejackets were patrolling the settlement and the Chapel boundaries. The rebels Saturday morning captured the Tien Tehing, a Chinese admiralty yacht, which it is believed was bringing dispatches to Shanghai.

The departure of transports from the Foo points to the probability of a battle at the Wu Sung arsenal.

During the last thirty hours all has been quiet and the Northern soldiers have been employing their leisure time in constructing wire entanglements in the roads.

Wu Ting Fang, former Chinese minister to the United States, is actively engaged in negotiations for peace, but the northern generals are not empowered to treat with him, as Shanghai forms only an item in the general revolt. Thus far, however, the negotiations have been successful, as the Northerners have resolved to fight only if they are attacked.

The Chinese are loud in their denunciation of the Japanese, whose assistance is held to have been mainly responsible for the success of the revolt. There were wild rumors in circulation that concessions have been promised Japan by the rebels, and it seems undeniable that some material assistance in the way of money and military instructors has been lent the rebels in unofficial Japanese quarters. The Japanese government's attitude, however, seems most correct, and it is going its utmost to remove all grounds for reports that it expects to benefit through the successes of the rebels.

Aerial Divers.

The highest point on the face of the earth rises 28,992 feet above the sea. This peak of Mount Everest pokes its nose above the life-sustaining stratum of the earth's atmosphere. To reach such an elevation, it is quite as necessary to employ oxygen supplying apparatus as it is for the diver who descends into the sea. The highest point ever reached by man without the aid of special breathing apparatus was 8,500 meters or about 28,200 feet. This was on April 18, 1878 when the balloon "Zenith" left La Villette with three passengers aboard and came down three hours later with two of the passengers, MM. Sidel and Croce Spinelli, suffocated and Gaston Tissandier all but dead. That record for height has just been broken by a wide margin by the balloon "Icare," which, on May 28th of this year, left Lamotte-Breuil, rose to an altitude of over ten thousand meters, or nearly thirty-three thousand feet, coming to the ground five hours later. Two of the passengers, MM. Bienaimé and Jacques Schneider, were photographed by the third passenger, Albert Senouque, at the 10,000 meter elevation. The photograph is reproduced herewith, and it shows the aeronauts well bundled against the extremely cold weather at that altitude and each fitted with an oxygen-breathing apparatus. Each apparatus consisted of a container for 1,600 liters of compressed oxygen, a nose and mouth attachment connected to the container and a means for regulating the feed of oxygen as needed.—Scientific American.

You are repairing your house. Do you know that a nice, ornamental front door to your home gives an air of distinction that nothing else can give? And the cost is not great. We are showing a very attractive line of these goods at the "Old House."

BEITEL LUMBER CO.

Southwestern Asylum to Have Large Addition.

AUSTIN, Tex., July 26.—To remove all insane persons from county jails in various parts of the State and house them in a new fireproof structure to cost \$275,000 at the Southwestern Insane Asylum at San Antonio is a plan agreed upon tonight by the House Committee on Appropriations.

Responding to a telegram, Superintendent White came over and appeared before the committee to explain in detail the need for such a building. The present institutions are badly overcrowded, so that several hundred insane are kept in county jails, without proper attendance and treatment, to their own detriment and at great cost to the State.

An effort was made to persuade the committee to divide the appropriation between the asylums at San Antonio and Austin, and that it will be less expensive to erect one structure instead of two, the committee decided to give the entire appropriation to San Antonio.

The new building is to be large enough to accommodate five hundred patients, and Dr. White and the committee estimated that by the time it is completed, there will be enough patients to fill it to its capacity.

The committee also agreed to appropriations for the Insane Asylum at Austin and for the Deaf, Dumb and Blind Institute for Colored Children. The latter now houses ninety-eight children. Reports show that all of the young negroes who have received training at this institute and have been sent out to work for themselves have become self-supporting.

Dr. F. S. White, superintendent of the Southwestern Insane Asylum, returned to San Antonio last night after securing from the House Committee on Appropriations a favorable report on his demand for an appropriation of \$275,000 for the institution.

Dr. White said last night to a reporter that the fund would provide for the accommodation of at least five hundred additional patients. He said also that from the number of insane now in the jails of the State he believed the new buildings would be filled at once.

A part of the appropriation will go to the building of a structure large enough to accommodate one hundred patients. It will be used to house violently insane women. The balance of the money will go to make additions to the old buildings. Provisions are to be made for four hundred patients in these additions. The

Remarkable Cure of Dysentery.

"I was attacked with dysentery about July 15, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief." writes B. W. Hill of Snow Hill, N. C. For sale by all dealers.

Texas Sulphur.

Texas is destined to play an important part in the production of sulphur for the world's consumption. Beginning on November 19th, 1912, sulphur is paying quantities has been mined from the Freeport Sulphur Company's new field at Bryan Heights near Freeport, Texas.

This latest large deposit to be worked for commercial and industrial purposes is located about three miles from the mouth of the Brazos River, the largest navigable river west of the Mississippi, and within view of the Gulf of Mexico. The sulphur deposit is practically located at tide water.

The sulphur at this mine is found under conditions very similar to those existing in Calcasieu Parish, Louisiana, which mine was recently fully described in the Scientific American.

The area of the Texas deposit is something over 600 acres, and the sulphur content of this mine is probably somewhere in the vicinity of seven million tons. The process of mining used at the Texas field is that of introducing hot water into the formation and removing the sulphur in a molten state by pumping it to the surface. The basic system of mining by this process was patented by Herman Frasch in 1892, the patents for which expired in 1909. At the Freeport Sulphur Company's mine, however, the application of the process differs in some respects from that used by Mr. Frasch, and the same results are arrived at by somewhat different methods.—Scientific American.

Flies Forerunners of Pestilence

The fly is the undertaker's traveling salesman and it is an able servant of the grim monster, death. This is the fly season and eternal vigilance is the price of health. Every house should be well screened and a vigorous war of extermination should be waged on every fly that crosses the threshold. It has been estimated that if every person would kill ten flies per day for thirty days there would be no flies upon the face of the earth. A swarm of flies hovering over the face and contaminating the victuals with slime and filth is disease entering the home.

Flies are the forerunners of pestilence, the advance agents of the doctor, and they make business for the undertaker. There are many ingenious devices for trapping the fly and for protection against their entering the house and all effective agencies should be employed in fighting this arch enemy of health. Every day should be fly day at the home. Kill the fly; remove all filth; destroy decaying vegetation and stamp out the breeding ground of the fly.

SAFER THAN CALOMEL

Dodson's Liver Tone at Night Will Straighten You Out by Morning. Calomel May Knock You Out of a Day's Work.

If you are a calomel user, next time you are tempted to buy it ask your druggist if he can absolutely guarantee the drug not to harm you. He won't do it because he CAN'T do it.

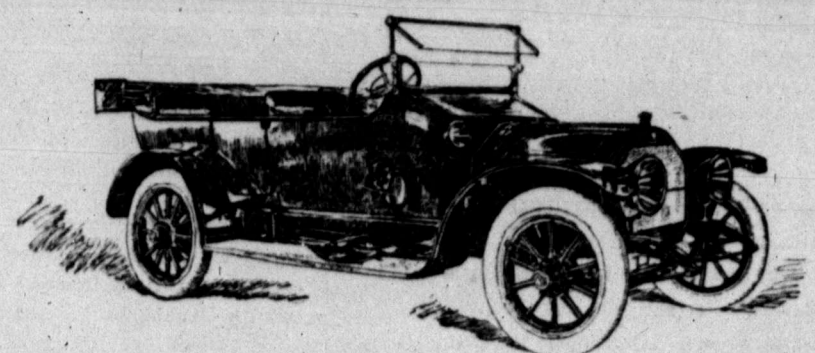

But here is a perfect substitute for calomel which the druggist does guarantee—his famous Dodson's Liver Tone. W. H. Rawson & Son will refund your money without question if you are not thoroughly satisfied.

Go to W. H. Rawson & Son, whom you are acquainted with—and find out about the great number of people who are taking this remarkable remedy and feeling better, keener, healthier, and better able to enjoy life than they ever were when taking calomel.

Why? Because calomel is a poison—one that may stay in the system, and while seeming to benefit you temporarily, may do harm in the end. If you haven't felt these ill-effects so far, it is because you are fortunate enough to have a strong constitution. Don't take the risk any longer. Get a bottle of Dodson's Liver Tone (50c.) and note how easily and naturally it corrects all bilious conditions, how it clears away that sick headache and coated tongue, how it sets you right without ache or gripe. The most wonderful thing in the world for constipation.

All this without the slightest interference with your regular habits.

SCOFIELD SCHOOL FOR GIRLS

Who Will Be the Lucky 1000?

This month we will produce one thousand HUDSON cars. That is a small percentage of the number of people who will want them, for before a single HUDSON was offered, more than one thousand individuals had paid their deposit to assure getting cars.

The demand in excess of the number we can build has been in about that ratio ever since the first photographs were shown.

Electric Self-Cranking-Electrically Lighted

Why This Great Demand.
People recognize now the importance of engineering brains in their relation to mechanical perfection. Without knowledge a smooth, simple, safe, satisfactory car is impossible.

These cars were designed by 48 skilled engineers gathered from Europe and America, representing 97 factories. They had a hand in building over 200,000 automobiles. These men represent about all that has been learned in motor car design. Some have made the greatest headway of all in designing six-cylinder cars. Some are specialists in other lines. So the combined skill and knowledge of all these men is focused upon the perfection of HUDSON cars.

All who are motor-wise recognize the importance of having a car built under such favorable conditions. That is why, with the maximum of 1,000 cars for delivery this month, only one out of three of those who will want HUDSONS will be able to get them.

What better assurance could be offered than that these men who possess about all the knowledge that has thus far been gained in automobile building have joined in saying, "The New HUDSONS are the best we know."

The HUDSON "37" is their four-cylinder masterpiece. It sells at \$1875, completely equipped with electric lights, speedometer, clock, top, windshield and twelve inch upholstery. There is nothing more to buy.

The "54" HUDSON—a Six, capable of doing 65 miles an hour and a speed of 58 miles in 30 seconds from a standing start, is offered as a car superior to any automobile on the market regardless of price. It sells at \$2450, completely finished and equipped as above. Prices are f. o. b. Detroit.

THE KERRVILLE MOUNTAIN SUN

OFFICIAL ORGAN KERR COUNTY

PUBLISHED EVERY SATURDAY

BY J. E. GRINSTEAD

West Water Street, Kerrville, Texas

SUBSCRIPTION \$1.00 PER YEAR

Entered at the postoffice in Kerrville for transportation through the mails at second-class matter.

Advertising rates and circulation made known on application.

The publication of Mr. Ball's withdrawal from the race for governor of Texas serves a twofold purpose; it puts him out of the race, and at the same time puts the public on notice that he was in.

Ambassador Wilson got mad when his official actions in Mexico were criticised. As a rule when a public official gets mad at criticism of his official acts he is crooked.

The legislature is about to appropriate a large sum for an addition to the insane asylum at San Antonio. The suggestion that Joe Bailey would be a candidate for governor of Texas must have originated in that city.

Program For Dollar Day.

The Baptist Ladies' Aid and Mission Society.

Tuesday, August 5th: Business meeting, including election of officers; Scripture reading. Mrs. Airhart; Prayer, Mrs. Clapp; reading by Mrs. Howard; Descriptive Bible Characters; roll call, responded to with dollar and experience of how it was made tall in rhyme.

Leaky to be County Seat.

In the recent election held in the new county of Real it was at first reported that Leaky lacked three votes of getting the necessary two-thirds majority to make it the county seat, but later advices state that certain irregularities occurred in one or two voting boxes that change the result and give the county seat to Leaky by a good safe majority.

Miller makes a specialty of giving difference.

Conference Settles Status of Albania.

LONDON, July 30.—The ambassadorial conference yesterday settled the status of New Albania. A prince will be nominated six months hence to rule over the new state. In the meantime, a commission of control, composed of one representative of each power, will organize the administration with the aid of a Swedish officered gendarmerie. The conference has done nothing officially in coercing Turkey. The Greeks are operating by sea and by land. The Bulgarians, who were defeated recently at Kresna Pass, turned upon the pursuing Greeks to the north of Djumala. Furious fighting occurred, the reinforced Bulgarians making a desperate attempt to recapture their lost positions. The battle lasted throughout Sunday, during which the Greeks thrice were ejected at the point of the bayonet from one position. Both sides suffered heavily.

According to a Greek account of the battle neither side had gained a decisive advantage at nightfall Monday, but under cover of darkness, the shaken Bulgars retired after abandoning and setting fire to the town of Djumala, which later the Greeks occupied.

A correspondent with the Greeks says their losses in the previous battle for possession of the Kresna defiles were 2500 men killed or wounded.

You are repairing your house. Do you know that a nice, ornamental front door to your home gives an air of distinction that nothing else can give, and the cost is not great? We are showing a very attractive line of these goods at the "Old House" BEITEL LUMBER CO.

Married.

Porter Goff and Miss Ada Terry, of the Reservation community, were united in marriage at the courthouse in Kerrville Wednesday morning, July 30, Judge Lee Wallace officiating.

The bride is a daughter of Mr. and Mrs. A. M. Terry, and a most charming and popular young lady. The groom is one of the promising young men of the community. A wide circle of friends join in wishing Mr. and Mrs. Goff a life of happiness.

Katy Suit Under Way.

DALLAS, Tex., July 30.—Hearings in the state suit against the Missouri, Kansas & Texas Railway company of Texas, and associated lines began this morning before Special Commissioner Thurman Barrett.

The suit attacks the merger of the Missouri, Kansas & Texas, the Missouri Kansas and Texas of Texas, the Texas Central, and other lines included in the "Katy" system, as authorized by the last session of the legislature, one the ground that Texas anti-trust laws have been violated.

Forfeiture of charter and penalties from \$1,000,000 to \$15,000,000 are asked.

White Crepe, Cross bars, nainsook and Dimity for underwear. Just received at KERRVILLE MERCANTILE CO.

Forest Notes.

The national forests of Chile cover about 7,000,000 acres.

The forest service of India has demonstrated that teak wood grown in plantations is just as strong as that grown in natural forests.

Even the well-protected forests of Germany are by no means immune from fire, and the Prussian fire protection system makes use of lookout towers and telephones.

Much of the so-called silk nowadays is made of wood. Germany produces more than one million pounds of this cellulose silk, worth \$1,500,000. A ton of wood worth \$10 yields cellulose worth \$20, and this cellulose yields silk worth \$850.

Army bayonets now form part of the emergency telephone outfit of forest rangers, used chiefly in fighting fires. This emergency line consists of small instruments and a coil of fine copper wire. The wire is attached to the nearest telephone line, the bayonet is thrust into moist ground at the other end, and with the circuit thus completed the ranger can talk with headquarters, report his position, and summon fire fighters if necessary.

A NOTE TO YOU

August 2, 1913

The time honored phrase, "Drug Sundries" embraces a thousand and one things for the household which, when needed, become of great moment, and must be procured sometimes in great haste.

We try to arrange things so that you and we will not be out of the same thing at the same time; and that makes it pretty safe for you to come here first when in a hurry, or any other time.

Yours truly,
W. H. Rawson & Son

CLOSING OUT SALE!

We are closing out our big stock of General Merchandise for cash, and from today on, until the entire stock is sold out there will be a reduced price on every article in this store. This sale is not a Catch-penny device, but a bona fide closing out sale.

We are not going out of business, either. We are building a new store, and we do not want to move the present stock into the general public such as is not usually offered. It is not merely a slight reduction on some articles for the purpose of drawing trade, but it is a Great Money Saving opportunity for all the people.

The stock includes Dry Goods, Groceries, Clothing, Hats, Shoes, Queensware and all the wide variety of articles usually found in a first-class General Merchandise establishment.

Beginning today, these reduced prices will prevail until the goods are sold, but you should not wait, because at the prices made the stock will move fast, and you will miss some really interesting bargains if you fail to come early.

We shall be pleased to have you visit us often during this sale, and hope to greet the people in our new store at the corner of Clay and North Streets about the first of September.

Luling State Bank Fails.

AUSTIN, Tex., July 27.—The Luling State Bank of Luling, Tex., was today placed in the hands of the Commissioner of Insurance and Banking. Its depositors will be paid promptly, as provided by law, out of the guaranty fund of the State of Texas. The amount of money required to pay the depositors will have no appreciable effect on the guaranty fund.

The closing of this bank was precipitated by the filing of suit today against it, as endorser on two drafts recently handled by it and upon which the makers were unable to take up.

State Bank Examiner L. K. Roberts was dispatched from Austin tonight to take charge of the affairs of the bank until a liquidating agent is appointed.

A water cooler saves enough ice in a little while to pay for it. We are closing out coolers at a price you can afford. KERRVILLE MERCANTILE CO.

Dixon Will Recover.

EL PASO, Tex., July 28.—Charles B. Dixon, the Texan who was shot by Jaurez officers Saturday while on official duty in that city as a United States immigration inspector, is recovering in an El Paso hospital and is pronounced out of danger.

The bullet which went through his body did not penetrate his intestines.

Officials of Jaurez said today the man was shot through his own mistake. When the soldiers passed the city police station, en route to the military barracks, Dixon ran, then they shot.

Dixon admits that he did not know the barracks were beyond the police station.

Committed Suicide

Alejandro Arreola, Jr., killed himself Monday morning, July 28, at 1:30 a. m., at the home of his father, Alejandro Arreola, Sr., in Kerrville. The fatal wound was inflicted with a pistol, and the young man lived but a short time after the shot was fired. Cause of the rash act is not known. The funeral took place from the Catholic church Tuesday evening.

When you come to us for Lumber it is the same as going to a bank for money. You get exactly the amount you order, and the profit is a fixed amount. Just the same as interest on money. We have money in the business and want interest and wages. The beauty of this system is that we never have to add more to one, or take less from another. Everybody gets the same treatment at The "Old House."

BEITEL LUMBER CO.

A. E. SELE.

Miller makes a specialty of machine sewed halfsoles for women for 65 cents. There is a difference.

Real County Election.

REAL COUNTY, July 29.—The unofficial report of the election to locate the county site and select county officers for this county are as follows for county site:

Leaky 159
 Alvin 82

For county officers:
 For county judge, W. H. Carr; for Sheriff and Tax Collector, D. E. Huffman; county and District Clerk, John Burns; Tax Assessor, Z. H. Eppier; County Treasurer, Joe Haynes; County Surveyor, John Auld; Commissioner Precinct 1, Jess Chisum; Com. Prec. 2, John Burdett; Com. Prec. 3, F. M. Winans; Com. Prec. 4, John Shackelford.

There were only 351 votes polled owing to rain. It began raining at 8 o'clock on the morning of the 26th and continued until 3 o'clock p. m.

There was about an inch of rain and it did a great deal of good. Crops are better than for 5 years, also range conditions.

People living along the Nueces River have about got their fences repaired since the flood.

An unusually good crop of wool will be shorn this fall, as all goats are fat.

Considerable pecans will be gathered along the river this season.

Any time you want a Sunday San Antonio Express, leave your order with us any day in the week and we will see that you get it. Also any other paper or magazine you wish.
KERRVILLE MERCANTILE CO.

To the Public.

Complaints have been registered with the members of the city council on account of the unhealthy condition of camp yards, lots, back alleys etc., and we make this appeal in the interest of the general health of the town.

The City Council respectfully requests that all lots and back alleys must be cleaned up at once and especially public camp yards and private lots located in the central part of the town.

Please give this your prompt attention as we insist that it must be attended to at once.

BAL WITHDRAWS SUFFRAGETTE PLOT

Will Not Be Candidate For Governor of Texas Next Year.

HOUSTON, Tex., July 27.—Thomas H. Ball has retired from the race for the Democratic nomination for Governor. He today issued the following:

"Conditions have arisen which necessitate the abandonment of my purpose to retire from the practice of law and become a candidate for Governor, subject to the action of the Democratic primaries in July, 1914. As some candidates have already announced and others have the matter under consideration, I deem it proper to give this fact publicity, that all who feel an interest in my candidacy may align themselves as they see proper.

"The Frisco lines, with which my firm has been professionally associated since B. F. Yoakum began his great work of development in Texas some ten years ago, are in the hands of receivers, and because of our familiarity with their affairs and at the request of parties at interest, members of our firm have accepted responsible appointments from the Federal Courts, in whose hands the properties now are.

"It would not be consistent with the discharge of these obligations and those to other clients whose business is in our hands, nor fair to my professional associates for me to give the time necessary to a campaign for office on the gratification of a personal ambition, however unselfish or laudable, to enter the public service.

"My conclusion has been reached without suggestion from any client or law partner, all of whom have been most considerate, and is governed only by what I think right under existing conditions.

"I would not make an explanation, so entirely personal, of my reasons for not being a candidate for office, nor consider one necessary, but for the fact that so many friends and well wishers throughout the State have expressed a desire that I should make the race, and I feel they are entitled to know why I cannot comply with their wishes.

"I am profoundly grateful for the assurances of confidences and support which have come to me from so many sources, and only wish that I were more worthy of the high estimate they indicate of my fitness for the great office of Governor of Texas.

Respectfully,
"THOMAS H. BALL"

American Foresters Help Palestine

An agricultural colony in Palestine has just applied to the U. S. Forest service for help in planting trees to bind the drifting sands of the Mediterranean. The colony is near Jaffa, or Yafa, the ancient Joppa of the Bible, and there is being developed in connection with it a seaside resort, with hotel, villas, bath houses and gardens.

The experts of the service point out that the reclamation of sand dunes is not a serious problem in the eastern United States because the prevailing winds are from the land and the sand is blown into the sea. On the west coast the situation is more serious. The most notable example of reclaimed sand areas there is furnished by Golden Gate Park, San Francisco, where grasses, acacias, and, later, trees and shrubs have converted sand wastes into pleasure grounds of great beauty.

The attention of the Palestine colony is called to the wonderful reclamation of the Landes, France, where a wealth-producing forest of maritime pine, the source of the French turpentine, has grown to take the place of shifting dunes. The American foresters also give the address of the French seedsman who furnished this government with the maritime pine seed which has been used in planting experiments on the Florida national forest, near the Gulf coast.

Predicts Deluge and Builds Ark.

PANAMA, July 27.—Word has reached here from Penonome, in the interior of the republic, that Sagundo Sanchez, a native of that section, has proclaimed himself the Messiah.

He has predicted the destruction of the world by a deluge in a short time and some of his eighty adherents are building an ark, while others are busy collecting in pairs, animals of all species, found in their region.

His followers also have armed themselves and the Panama government is taking steps to avoid possible trouble.

Kerrville is in the "cleanest town contest." Clean up your place and the adjacent alleys. The inspection begins today.

Miss Pankhurst is Strikingly Like "Maw" as a Trouble Maker.

LONDON, July 27.—Sylvia Pankhurst, the militant suffragette, who was out on license under the "cat and mouse law" was the leader of a suffragette demonstration today which surpassed all previous Sunday afternoon affairs of the sort. During the rioting which followed, Miss Pankhurst was rearrested and taken to Holloway jail.

The meeting, held in Trafalgar Square by the Men's Federation for Woman's Suffrage and the East End branch of the Women's Social and Political Union, had been announced in advance, and this fact and also a rumor that a charge upon Premier Asquith's residence with resolutions was planned, brought enormous crowds into the square.

"On to Downing Street" was the watchword, and but for vigorous work by the mobilized police, who arrested Miss Pankhurst and twenty men and women supporters, there would have been window smashing and perhaps worse damage at the Premier's house. The procession of women and men marched from White-chapel to Trafalgar Square with constantly growing crowds following.

It entered the square with the band playing the "Marseillaise" and planted banners on the plinth of the Nelson column. Miss Pankhurst made a dramatic appearance from among the crowd and was dragged to the plinth amid cheering. When the demonstration had subsided she made an impassioned speech.

"The time for speaking is over," she said. "Deeds, not words, are wanted. Let us all go to Downing Street."

She concluded by saying that she was going to defy the authorities and carry resolutions to the Premier's residence herself. A roar of approval greeted this announcement.

The huge crowd, Miss Pankhurst leading, moved down Whitehall toward Downing Street. A platoon of police, which had come at double-quick from Scotland Yard, formed a cordon across the road which was effectively aided by a blockade of wheeled conveyances. Mounted police rode into the crowd, scattering it and driving the people down various streets, while officers in plain clothes got possession of Miss Pankhurst after a fist fight with her body guard of East End youths.

The mounted men cleared a way for the prisoner to a cab. Miss Pankhurst was driven to Holloway jail to serve the sentence or stay until she is again released through the hunger strike. In the station house she struggled desperately with the officers and smashed a window with a ruler.

After Miss Pankhurst had been taken into custody two women were arrested for throwing stones at Mr. Asquith's windows. During the rioting several policemen were badly injured.

Educational Methods Defended by Bureau.

WASHINGTON, D. C., July 27.—Aroused by the growing criticism of present day educational methods in the public school, the United States Bureau of Education today came to the defense of the present system in a vigorous statement. It declares that not only were the "three R's" being taught as thoroughly as was the case in the little red schoolhouse, but that they were being taught more scientifically and with a modern view to the needs of the individual child.

"We frequently hear that there are 'too many subjects, and too many fads and frills,' says the report, 'and hence neglect of the three 'R's.' The critics who utter this sort of criticism seldom agree on exactly what the 'fads and frills' are, but they invariably look back to a golden past when the so-called 'fundamentals,' reading, writing and arithmetic, were taught in such a way as to never be forgotten."

"As a matter of fact the system of today is immeasurably ahead of the school system of the past. The growth has been steady. Whatever may be said against the enrichment of the course of study by its 'fads and frills,' the contention that the essentials, so-called, have suffered in comparison with the past falls flat."

The report declares that the educational system of today seeks to educate the children for the kind of life, economic and social, which they will lead when they leave the public schools. The bureau bases its defense of the present system principally upon this ground.

West Texas Fair opens August 20. Get busy and boost for it.

GREAT CLEARING SALE

Starts Saturday August 2d, Lasts 15 Days
15 DAYS UNEQUALED BARGAINS 15 DAYS
All Summer Goods Must Move, Regardless of Cost!

NOW HER FRIENDS HARDLY KNOW HER

But This Does Not Bother Mrs. Burton, Under the Circumstances.

Houston, Texas.—In an interesting letter from this city, Mrs. S. C. Burton writes as follows: "I think it is my duty to tell you what your medicine, Cardui, the woman's tonic, has done for me.

I was down sick with womanly trouble, and my mother advised several different treatments, but they didn't seem to do me any good. I lingered along for three or four months, and for three weeks, I was in bed, so sick I couldn't bear for any one to walk across the floor.

My husband advised me to try Cardui, the woman's tonic. I have taken two bottles of Cardui, am feeling fine, gained 15 pounds and do all of my housework. Friends hardly know me, I am so well."

If you suffer from any of the ailments so common to women, don't allow the trouble to become chronic. Begin taking Cardui to-day. It is purely vegetable, its ingredients acting in a gentle, natural way on the weakened womanly constitution. You run no risk in trying Cardui. It has been helping weak women back to health and strength for more than 50 years. It will help you. At all dealers.

Write for Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. 169-B

Military Leader Shot.

SAN SALVADOR, Republic of Salvador, July 29.—General Abraham Perdomo, widely known throughout Central America, as a military leader was shot dead today in the principal square of this city, the Parque Dunas, by a journalist named Arturo Gomez.

General Perdomo played a prominent part in last year's revolution in Nicaragua.

SAYS WILSON AIDED PLOT

Governor of Yucatan Sends Information to President.

EAGLE PASS, Tex., July 28.—Governor Nicolas Camara Vales of Yucatan, who is in Piedras Negras, this morning sent the following telegram to President Wilson:

"Piedras Negras, Coahuila, Mex., July 28, 1913.

"To His Excellency, Woodrow Wilson, President of the United States, Washington, D. C.

"Dear Sir—In view of the published statement made by Ambassador Henry Lane Wilson, regarding the revolution of February last in Mexico City, and the assassination of President Madero, Vice President Pino Suarez and Guatavo Madero, I deem it my duty to acquaint you with some of the acts of Mr. Wilson in connection therewith, and especially in regard to myself.

"I am the Constitutional governor of the state of Yucatan, having been elected to that position in December, 1911, and still holding it under the constitution and laws of Mexico. I am the brother-in-law of Vice President Pino Suarez, and was in Mexico City with my family during the February revolution. On February 19, it became necessary for me to leave the city in haste in order to preserve my life. It being impossible for my wife to accompany me in my escape, she remained in the city. Subsequently she called on Ambassador Wilson, after it had been learned that I had escaped, and he told her that it was necessary that she should telegraph me at once, and urge me strongly to recognize General Huerta as president of the republic. Otherwise, and if I refused to do this, he declared that I should have the same fate that had befallen President Madero and Vice President Suarez. He was very urgent and insisted that this be done, showing that he was acting with Huerta and had full knowledge of his plans.

"I have good reason to believe that the plea for the deposition and murder of President Madero and Vice President Suarez was arranged in part, if not in whole, in the offices of Ambassador Wilson, and that he had full cognizance of the plan to assassinate them and could have prevented it if he had so desired. The majority of my fellow countrymen are in accord with me in this and they look to your sense of justice to see that such conduct on the part of a representative of a supposedly friendly nation be treated as it deserves.

(Signed) ...
"NICOLAS CAMARA VALES,
"Constitutional Governor of the State of Yucatan."

Senor Alfredo Alvarez, member of the chamber of Deputies from Puebla, who is with Governor Vales in Piedras Negras, said last night:

"I was in the office of President Madero in the national palace when Ambassador Wilson called on him during the February revolution, and said to him: 'If you do not resign you may be sure there will be intervention in Mexico by the United States.'"

Senor Alvarez fully confirms all that Governor Vales says with regard to Wilson's part in the plot and its subsequent culmination in the murder of Madero and his associates.

A THOROUGH TEST

One to Convince the Most Skeptical Kerrville Reader.

The test of time is the test that counts.

Doan's Kidney Pills have made their reputation by effective action. The following case is typical.

Kerrville resident should be convinced.

The testimony is confirmed—the proof complete.

Testimony like this cannot be ignored.

Mrs. Anna Vogel, 808 Seguin St. New Braunfels, Texas, says: "When my back and loins began to ache, I was alarmed and though I doctored, I steadily became worse. My son finally brought home a box of Doan's Kidney Pills. I used them and they soon cured me. I am pleased to confirm the testimonial I have given before. The cure has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Train Hits Tree; Four Die.

IRON MOUNTAIN, Mich., July 27.—Four persons were killed and one seriously injured late last night when the Copper Country limited, on the Chicago, Milwaukee & St. Paul Railroad, running between Calumet and Chicago, struck a tree which the wind had blown across the track at Cable Line, Wis.

Dr. Brooks For Governor.

AUSTIN, Tex., July 28.—Dr. S. P. Brooks, president of Baylor University of Waco, was here today and was given cordial welcome by his friends in the Legislature and in Austin. Dr. Brooks' name has been mentioned more than once in connection with the nomination of a Democratic candidate for Governor, and his friends here say they believe that if he is properly urged he will consent to enter the race. And should he enter the race, they predict he will receive the nomination. They assert there is a doubt in their minds that he will be acceptable to the prohibition forces, that the pros will center upon him.

"In my opinion, if Dr. Brooks decides to enter the gubernatorial race he will win the nomination by a most decisive majority," said a friend of the head of Baylor University. "My information is that Dr. Brooks has not yet given an expression on the subject, but I believe that if he is urged by the leaders of the pros he will consent to become a candidate."

Mothers! Have Your Children Worms

Are they feverish, restless, nervous, irritable, dizzy or constipated? Do they continually pick their nose or grind their teeth? Have they carping pains, irregular and ravenous appetite? These are all signs of worms. Worms not only cause your child suffering, but stunt its mind and growth. Give "Kickapoo Worm Killer" at once. It kills and removes the worms, improves your child's appetite, regulates stomach, liver and bowels. The symptoms disappear and your child is made happy and healthy, as nature intended. All druggists or by mail, 25c. Kickapoo Indian Medicine Company, Philadelphia, Pa., and St. Louis, Mo.

How The Trouble Starts.

Constipation is the cause of many ailments and disorders that make life miserable. Take Chamberlain's Tablets, keep your bowels regular and you will avoid these diseases. For sale by all dealers.

Mr. Lane Holds up Bonds.

AUSTIN, Tex., July 28.—The \$50,000 of penitentiary bonds, purchased by the State Board of Education at its regular meeting this month, were delivered today by J. T. Bowman, the Governor's private secretary, to Comptroller Lane for his signature. The bonds have been approved by the Attorney General's Department.

Comptroller Lane may not sign the bonds. He is holding them up until he can make an investigation as to whether or not he has the right to affix his signature to them. At this time he expressed himself as being of the opinion that it is not the legal thing to invest school money in penitentiary bonds.

"I am uncompromisingly opposed to using the school children's money in caring for State convicts," said the Comptroller. When the question came up at the meeting of the State Board of Education the first part of this month to purchase \$50,000 of the penitentiary bonds, I voted against it, but the other members of the board voted in its favor.

"I do not believe that the bonds are worth the paper they are printed on. I do not intend to sign them until, by investigation of the law in a most thorough manner, it is clearly shown that it is lawful for me to sign them. Until I have made that investigation, the bonds will be held up in my department."

Castly Treatment.

"I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment," writes C. H. Hines of Whitlow, Ark. "I went to a St. Louis hospital, also to a hospital in New Orleans, but no cure was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now alright." For sale by all dealers.

Saloons the Issue.

GEORGETOWN, Tex., July 29.—Williamson county voters balloted today on whether the county should be prohibition or anti. Practically the entire county, except Taylor and Granger is already dry.

The campaign has been one of the most notable in the country in recent years. About 1000 automobiles have been in use by the campaigners for several days. Both pros and antis are claiming victory on the strength of early voting. There are 7500 qualified voters in the county and a heavy vote appeared to be turning out.

"THE MASTER BUILDERS"

ARE, after all, what men and women are. The creative genius is awake in the child mind at the earliest dawn of intelligence. The desire to build something, to make something beautiful. The above picture will call to mind some incident in the child-life of everyone who sees it. You have not changed, but have merely grown older. Your desire to create, to "build a house," is the same today as when you built houses of blocks in the shade of the oak tree, except that your efforts are directed by the judgment and cultivated taste in such matters that years and experience alone can bring.

We are all the kind of "Master Builders" that want a home, and when we get one we want to make it better whenever it is practicable. There is a home building instinct in the heart of every human being, and the greater the civilization and enlightenment, the stronger the spirit of social progress, housebuilding and home making. To the "Master Builders" of the world, to those men and women who in their childhood were moved deeply by the desire to build houses, and who cultivated the spirit of creative genius and became builders indeed, when they reached mature years, the world owes much of its progress.

You have a home perhaps, and desire to make it more attractive, or maybe you have no home and desire to build one. In either of these circumstances we shall be pleased to consult your wants with you. We are pioneers in the Lumber Business in this section of Texas. We carry a complete stock of everything used in the building trade. Our reputation, established by almost a quarter of a century of daily business operations in Kerrville, and half a century in San Antonio, are back of our guarantee to every transaction in which we engage. If you are in the market for lumber or other builders' material in any quantity, we are at your service, and offer you all that a long business career and a thorough knowledge of the lumber business means to the careful buyer.

Beitel Lumber Co.

"THE OLD HOUSE"
ALLY BEITEL, MANAGER

YARD NEAR DEPOT KERRVILLE, TEXAS

Rudolfo Reyes to go on "Mission."

CITY OF MEXICO, July 27.—It is stated officially that Rudolfo Reyes, Minister of Justice and son of the late General Reyes, will leave soon on a foreign mission. His departure, following the resignation yesterday of Equival Obregon, Minister of Finance, leaves President Huerta only one member of the Cabinet as agreed on between him and Gen. Felix Diaz at the end of fighting in the capital last winter. This is David de la Fuente, Minister of Communications.

Eighty rebels of Castillo Brito's command were killed or wounded while trying to escape from pursuing Federals in the State of Chiapas, according to official reports received here. The Government troops had forced a fight at Hichaukalpo, near the Grijalva River, and killed 100 rebels. Eighty others attempted to

swim the wide stream, but the troops on the banks picked off many of them while others, weighted down with their equipment drowned. It is reported that Governor Carranza, the rebel leader, has reached a point south of Torreon.

Quarantine Suspends Church Work

At a meeting of the Baptist Church Board of the Medina River Association, held at Center Point Tuesday, it was decided that the work of the Baptist Evangelist for this association suspend work until the quarantine against charbon is raised. The quarantine in the counties north and west of Kerr is very strict, so much so that persons traveling with stock are excluded from passing through the territory, and those living in the quarantined district are not permitted to travel.

Ballots 18 Feet Long.

NEW YORK, July 30.—The 14-foot ballot which came in for so much ridicule during the election primaries last fall, has been outdone by one 18 feet long, which will be used in the democratic primaries in the Twenty-third assembly district here this fall. There is no press in New York big enough to take the ballots at a single impression. They will have to be printed in six-foot sections and pasted together like circus bills.

Card of Thanks.

We desire to thank our friends for their great kindness and sympathy at our recent bereavement at the death of beloved husband and father, H. P. McNealy. May like kindness be shown you in your hour of sorrow, is the wish of

Yours Gratefully,
MRS. McNEALY and CHILDREN

Every Day For Over FORTY YEARS

Because we say it, does not, we admit, absolutely make it true, but the fact that we have proved it every day for forty years warrants us in saying "Quality and Service are the keystone of the business arch of the world."

¶ We have proved that our methods of doing business are RIGHT
¶ We handle Superior Grain Drills, Springfield Wagons, Studebaker Hacks and Buggies, Moline and Avery Disc Plows

¶ We Carry a Complete Line of GENERAL MERCHANDISE, DRY GOODS, CLOTHING, GROCERIES, HATS, SHOES, Etc.
¶ You probably trade at our store—most people in this section do—if you are not a customer we would like to have you become one.

THE HOUSE OF QUALITY Chas. Schreiner Company

COLQUITT WINS

Governor Wins on Every Point in Alamo Case.

AUSTIN, Tex., July 29.—The Supreme Court at chambers at 5 o'clock this afternoon handed down its decision, which was unanimous, in the Alamo injunction case, granting every point asked for by Superintendent of Public Buildings and Grounds A. B. Conley. It is a complete victory for the Governor.

A writ of prohibition is issued against W. S. Anderson of the Thirty-seventh Judicial District, prohibiting him to further entertain the pending injunction action brought in his court by the Daughters of the Republic and their attorneys, commanding and directing them to desist from instituting or prosecuting any action against the Superintendent of Buildings and Grounds and J. B. Nitschke, State Inspector of Masonry, or either of them, whereby the improvement of the Alamo property may be delayed or in any manner hindered before the \$5,000 appropriation shall have been expended on the improvements.

The Daughters of the Republic and their attorneys are further commanded to desist from suing out any process to require or compel Superintendent of Public Buildings and Grounds Conley or State Inspector of Masonry Nitschke to state the amount heretofore expended or that may hereafter be expended out of the \$5,000 appropriation, or to state their plans for improving the property, or to state any fact in connection with the work. The Daughters and their attorneys are also to desist from any proceeding which will interfere with the work of Conley and Nitschke under the direction of the Governor until the appropriated sum shall have been expended in the improvement of the property.

The writs are returnable to the next term of the Supreme Court, October 6, 1913.

In the course of the opinion, which is signed by Chief Justice T. J. Brown and Associate Justices Nelson Phillips and William E. Hawkins, it is stated that "the proceeding by

the Daughters of the Republic and their counsel is in effect against the Governor, to whom the people have entrusted the powers of chief executive of the State, and we will presume that the Governor is directing the application of the fund appropriated to the improvement of the said property in good faith and that his agents will, under his direction, in good faith, confine themselves within the limits of their authority as indicated by our former opinion."

The full text of the order issued follows:

A. B. Conley, et al., Plaintiffs in Error, vs. W. S. Anderson, Judge Thirty-seventh Judicial District Court et al., Defendant in Error. No. 2565.

We will not recite at length the facts in this case but will give a condensed statement only, referring to the opinion of this court in causa No. 2507 for a complete statement of the case (156 S. W. 197.)

In that case this court held, in substance, that the defendants, Conley and Nitschke, had the right, under the direction of the Governor, to enter upon the Alamo property for the purpose of improving the same under the direction and approval of the Governor to the extent of expending the sum of \$5,000 appropriated by the Thirty-second Legislature for that purpose. Under that judgment the applicants in this case proceeded by direction of the Governor to apply the appropriation of \$5,000 to the improvement of said property and the Daughters of the Republic applied to Honorable W. S. Anderson, Judge of the Thirty-seventh Judicial District Court of Bexar County for an injunction to prevent said Conley and Nitschke, which was dissolved upon the coming in of the answer of defendants, but the case was continued upon the docket of that court.

At a subsequent date the Daughters of the Republic filed in said court interrogatories propounded to said Conley requiring him, among other things, to answer as to what plans had been prepared and are being followed in making said improvements, what amount of the appropriation had been expended and what time would be required to complete the work, thereby resuming the prosecution of said cause before the said Judge W. S. Anderson.

The said Conley and Nitschke have

applied to this court for a writ of prohibition to the said Judge W. S. Anderson and to the Daughters of the Republic and their attorneys, commanding them to desist from further interfering with and obstructing the execution of the judgment of this court by the applicants.

Preliminary to a brief statement of our conclusions of law we will state that we are not concerned with the motives of counsel or the parties, but we will deal with the case upon the basis of the legal effect of the acts done and threatened to be done by the Daughters of the Republic and their learned and respected counsel.

The proceedings by the Daughters of the Republic and their counsel is, in effect, against the Governor, to whom the people have entrusted the powers of Chief Executive of the State, and we will presume that the Governor is directing the application of the fund appropriated to the improvement of the said property in good faith and that his agents will, under his direction, in good faith, confine themselves within the limits of their authority as indicated by our former opinion.

This court having, upon writ of error, reversed the judgment of the District Court in the former suit, and having entered final judgment in that case, no District Court had jurisdiction to review that judgment nor to interpret and enforce it, but must observe it as it was framed by this court. The interpretation and enforcement of that judgment belongs exclusively to this court and no interference with its enforcement will be tolerated. Conley and Nitschke were proceeding under the judgment of this court, by which their authority is clearly defined, and the effort of the Daughters of the Republic, through their learned counsel, to require said Conley to make report to the District Court of the sum expended and to submit to that court the plans of the Governor for improvement of the property constitutes a plain effort to assume control of said parties in the execution of the judgment of this court, which the District Court had no power to do. The proposed action has not the merit of being based upon any violation of duty by said parties who had answered fully.

The high character of the counsel for the Daughters of the Republic

forbid the conclusion of a purpose to disregard the judgment of this court, but we say again that their purpose is not of be considered, but as the effect of their action upon the rights of the applicants clearly is to embarrass and hinder and tend to delay and defeat the expeditious enforcement of our judgment, the applicants are entitled to be protected from proceedings which interfere with their peaceful and unobstructed performance of the duties enjoined upon them by the judgment of this court.

It is, therefore, ordered that the clerk of the Supreme Court issue to the said W. S. Anderson, Judge of the Thirty-seventh Judicial District Court in Bexar County, Texas, a writ prohibiting him to further entertain the pending action, and to the Daughters of the Republic and their attorneys, Denman, Franklin & McGown, Webb & Goeth and Williams & Neethe, a like writ commanding and directing them, and each of them, to desist from instituting or prosecuting any action against the said Conley and Nitschke or either of them, or suing out any process against the said parties whereby the improvement on said Alamo property may be delayed or in any manner hindered before the said \$5,000 shall have been expended in said improvements and commanding that the said Daughters of the Republic and their said attorneys desist from suing out any process to require or compel said Conley or said Nitschke to state the amount heretofore expended or that may hereafter be expended out of said appropriation or to state their plans for improving said property, or to state any fact in connection with the said work, and that said parties shall desist from any proceeding which will interfere with the work of said Conley and Nitschke under the direction of the Governor until the appropriated sum shall have been expended in the improvement of said property. The said writ shall be returnable to the next term of the Supreme Court on the 6th day of October, 1913.

entitled to recognition by this government as belligerents. Senator Sheppard of Texas today introduced a resolution calling for an investigation by the committee of foreign relations and a recognition of their belligerent rights if the facts justify it.

Concerning his resolution the senator said to a correspondent: "From advices that I have from friends who are in immediate touch with the situation in Mexico, the Constitutionalists are fighting for the cause of human liberty; that they are in the same situation practically that the Americans were in 1776 when they made their revolt against tyranny. The least this nation can do is to investigate the situation and accord the revolutionists the rights of belligerents if they find they are justly entitled to such recognition."

"I think we have a duty to perform in the matter that ought not to be neglected any longer."
