FARM BOYS OFF ON ANNUAL TOUR

CROWD OF TEN LEAVE KERRVILLE SUNDAY ACCOMPANIED BY K. G. BAKER.

Sunday evening ten husky farmer boys of Kerr County started on the third annual educational tour under the auspices of the Kerr County Farmers' Institute. They were accompanied by K. G. Baker, County Agent.

Monday the delegation visited the State Department of Agriculture at Austin and conferred with Commissioner Davis and the heads of the various divisions of the department, after which they were taken on a visit to the various educational institutions and places of interest in the Capital City as guests of Commissioner of Agriculture Davis.

Tuesday the tourists left for the Agricultural and Mechanical College, where they will be given short courses in agriculture and animal husbandry. The personnel of the party is as follows: Gaspar Wharton, Evelyn Mosty, Alois Renschel, Clark Nelson, Manuel Griffin, Delma Burney, Kirk Holdsworth, Phentice Witt, Thomas Morris, Rankin McBryde and K. G. Baker.

The educational tours in the past have proven of great benefit to the boys of Kerr County and the membership of the Kerr County Farmers' Institute are to be commended for their interest in the future farmers and ranchmen of the Hill Country.

Methodist Church Notes.

Rev. D. Emory Hawk of San Marcos has been preaching at the Methodist Church each day at 10 a. m. and at 8 p. m. Fine audiences have been present and each meeting grows in interest. The gospel is being presented by Bro. Hawk with great power, and a cordial invitation is extended all to attend.

Services will continue this week and Sunday.

On Sunday the Sunday School hour will be used for an address to the children and young people. Bro. Hawk will preach at 11 a. m.

A men's meeting will be held in the church at 5 p. m., and to this meeting all men and boys are invited.

The night service will begin at 8:15 o'clock.

Civic League Meeting.

The Kerr County Civic League met Saturday, May 26th, at the Business Men's Club in regular session. Various items that had previously been discussed were brought before the club for further action. Ways and means were thought of that we hoped would assure our next clean-up day of being more successful than the last.

The next meeting of the League will be on June 9th. Everybody come that possibly can.

PRESS COMMITTEE.

Attention, Shooters!

All the members of the Kerrville Shooting Club are requested to meet Sunday afternoon between 3 and 4 o'clock at the shooting grounds without fail for important business.

JOHN LEAVELL,
Secretary.

Sid A. Rees of Kerrville bought 200 head of mutton goats from W. G. Wharon at \$5.00 per head, and fifty head from E. H. Leinweber at \$6.00.

NO FEAR OF PART U. S. WILL PLAY

PRESIDENT WILSON DELIVERS
INSPIRING MEMORIAL DAY ADDRESS AT ARLINGTON.

Washington, D. C., May 30.—War clouds cast a special gravity today over Memorial Day exercises here in which President Wilson, Cardinal Gibbons, Chief Justice White and many other high Government officials participated.

Down Pennsylvania Avenue and across the Potomac to Arlington National Cemetery marched veterans of two past wars at the head of a column of National Guardsmen and regulars who may see service in France within a year. Mingled with the American flags adorning buildings along the way were a number of Confederate banners set flying for the Confederate veterans' reunion here next week, and the old Union soldiers marched beneath them with no signs of rancor.

President Wilson, speaking at the exercises at the Arlington Cemetery, declared the time had come for action by this Nation and that he had no fear of the part America would play in the great world war.

"In the province of God," he said, "America once more has an opportunity to show the world that she was born to serve mankind."

"Any memorial day of this sort is, of course, a day touched with sorrowful memory, and yet I for one do not see how we can have any thought of pity for the men whose memory we honor today. I do not pity them. I envy them, rather, because theirs is a great work for liberty accomplished and we are in the midst of a work unfinished, testing our strength where their strength has already been tested. There is a touch of sorrow, but there is a touch of reassurance also in a day like this, because we know how the men of America have responded to the call of the cause of liberty, and it fills our mind with a perfect assurance that that response will come again in equal measure, with equal majesty and with a result which will hold the attention of all mankind."

"When you reflect on it, these men who died to preserve the Union, died to preserve the instrument which we are now using to serve the world—a free Nation espousing the cause of human liberty. In one sense the great struggle into which we have now entered is an American struggle, because it is in the sense of American honor and American rights, but it is something even greater everywhere, and in this cause America will show herself greater than ever because she will rise to a greater being. We have said in the beginning we planned this great Government that men who wish freedom might have a place of refuge and a place where their hope could be realized, and now, having established such a Government, preserved such a Government and having vindicated the power of such a Government, we are saying to all mankind, 'We did not set this Government in order that we might have a selfish and separate liberty, for we are now ready to come to your assistance and fight out upon the fields of the world the cause of human liberty.' In this thing America attains her full dignity and the full fruition of her great purpose."

"No man can be glad that such things have happened as we have witnessed in the last fateful years, but perhaps it may be permitted to us to be glad that we have an opportunity to show the principles that we profess to be living, principles that live in our hearts, and to have a chance by the pouring out of our blood and treasure to vindicate the things which we have progressed. For, my friends, the real fruition of life is to do the things we have said we wished to do. There are times when words seem empty and only action seems great. Such a time has come, and in the providence of God, America will once more have an

opportunity to show to the world that she was born to serve mankind."

Mass Meeting at Courthouse.

There will be a mass meeting at the Courthouse in Kerrville Saturday, June 2nd, at 3 p. m., at which subscriptions for the Liberty Loan bonds will be considered. All patriotic people are invited to attend.

There will be an army recruiting officer in Kerrville, Tuesday, June 5. Don't be a "sent," be a "went." Ask at post office for further information.

VILLA CAPTURES BORDER PORT

AMERICAN TROOPS PATROL RIO GRANDE WHILE BANDIT HORSEMEN RIDE OTHER SIDE.

Presidio, Tex., May 30.—Francisco Villa tonight holds a border port opposite an American town and again United States troops are patrolling the border while Villa cavalymen are silhouetted against the night sky on the southern bank of the Rio Grande.

At 3 o'clock this morning approximately 200 Villa followers dashed into the little border town of Ojinaga, opposite here, shouting "Viva Villa!" and shooting right and left as they rode. Only a handful of Mexican government forces occupied the town, General Figueroa, General Garcia and Colonel Riojas having gone out Sunday night to engage the Villa command then encamped in La Mula Pass, thirty-five miles south of the border. These forces were expected to return tonight and make an effort to drive Villa troops from the town.

Fifty of the government force of seventy-five men left in Ojinaga escaped across the river to Presidio. Women and children followed carrying babies and bundles. Of the twenty-five government soldiers remaining, sixteen were killed during the fighting, six were taken prisoners and the other three were wounded.

The fight lasted two hours, after which the shops and homes of the Ojinaga residents were looted.

Whether Villa was with his troops has not been confirmed.

Comfort Comments.

Prof. Henry Sibbens of Seguin is spending the summer in Comfort.

Mr. and Mrs. Louis Sour and family of San Antonio spent the week-end in Comfort with relatives.

Mrs. Cowan and daughter, Miss Martha, of Grape Creek were in town Monday.

On Sunday a ball game will take place between the A. B. C.'s and the Boerne Juniors.

Mr. Rudolf Allerkamp of Calaveras spent the week-end with his family.

HOODOO WAS FULL OF "PEP" SUNDAY

THE TURNERS OF SAN ANTONIO
GO DOWN SUNDAY TO THE
TUNE OF 7 TO 6.

Just as some people swear by unlucky thirteen, the Kerrville Athletics pin their faith to their winning hoodoo, and by obeying his commands for hard and consistent practice have been returned victors in every game so far this season. Even the princely offer of President Benson of the San Antonio Athletics for their hoodoo was not accepted.

While the game Sunday was somewhat too one-sided to cause the loyal home fans any great palpitation of the heart, the final score of 7 to 0 was a source of extreme satisfaction.

Pitcher Manny added eighteen more strike-outs to his already excellent record, ut for the most part took it easy. However, the opposing batters only succeeded in driving two of his benders to safe territory. Catcher Garcia was buck in the game, although he had not entirely recovered from his injury of the Sunday before. The entire team played good ball, and while only six hits were credited to the home boys they came when needed to bring in runs.

The Fraternal Brotherhood team of San Antonio will attempt to best the Athletics' hoodoo next Sunday on the local grounds.

Kerr County Farmers' Institute.

The next meeting of the Institute will be held at the Kerrville Courthouse, Saturday, June 2, at 2:30 p. m., for the purpose of electing delegates to the State Farmers' Institute meeting at Austin in July.

Everybody interested in agriculture is hereby requested to attend this meeting. MORITZ HOLEKAMP,
Secretary.

Individual Responsibility More Than Three Million Dollars

LIBERTY LOAN IS FINANCE PARADOX

UNCLE SAM LENDS MONEY TO
ALLIES AND STILL HAS IT
LEFT—ALL SPENT HERE.

Washington, D. C., May 30. Floating a \$7,000,000,000 indebtedness within a few weeks sounds colossal.

To the minds of those familiar with the history of large governmental financial transactions, it suggests dire possibilities. Heavy borrowing by nations has often resulted in price inflation and greatly added cost of living. Such a result might be predicted for the Liberty Loan were it not for the fact that precautions against these ill effects have been taken.

Uncle Sam now practically is in the position of the boy who can eat his candy and keep it. While borrowing to an extent greater than any nation has ever borrowed at one time, he is at the same time, providing greatly increased stimulus to business within his own realm.

It is not as if this \$7,000,000,000 were to be borrowed and taken out of the country for investment elsewhere. This is to be merely a transfer of credit, one of the conditions of the credit extended to foreign nations being that the money borrowed from this Government must be spent for supplies within this country. So when the United States lends \$200,000,000 to Great Britain, this Government merely assembles the credit of its people and lends that credit to Great Britain to enable Great Britain to enlarge its operations of buying our supplies. So, while we are aiding Great Britain, by giving her a lower interest rate than she otherwise could get, we are aiding ourselves by providing new demands upon all of our industries, new demands for labor, larger requirements of raw materials and a greater market for food supplies.

The Administration has profited from the costly experience of other nations by outlining a policy which provides for a combination of borrowing and taxation in order to keep down the bad effects usually resultant from large borrowing. The most pronounced ill effects that have come from large borrowing have come where nations have raised all of their war revenue by the sale of bonds. Whenever a nation has undertaken to raise its taxation proportionately with its rate of borrowing, this tendency toward price inflation has been reduced. The Secretary of the Treasury has made suggestions to Congress for an increase in taxation which would produce nearly \$2,000,000,000 annually. Germany has raised practically all of its war revenue by selling bonds and had added very little to taxation. Great Britain has followed the customary ac-

cepted policy of making increased taxation take care of at least the interest on increased indebtedness.

But this tendency to minimize price inflation is not the only saving grace in the new program of war finance. The Secretary of the Treasury, instead of calling for subscriptions to the entire loan at one time, called for only \$2,000,000,000 at once. His object was, manifestly, to distribute the shock of the loan. Such a program makes it possible for this money to be sub-

KERRVILLE RED CROSS CHAPTER

H. REMSCHEL, CHAIRMAN; MRS.
J. W. BURNEY, SECRETARY OF
NEW ORGANIZATION.

A preliminary meeting for the organization of a local chapter of the National Red Cross Society of America was held at the home of Mr. and Mrs. L. A. Schreiner on Monday afternoon. The meeting was attended by a large gathering of ladies and a few men, there being representatives from nearly all the organizations of the city.

Temporary organization was effected by the election of H. Renschel as chairman and Mrs. J. W. Burney as secretary. Upwards of forty names were enrolled as charter members and \$57 raised as a membership fee. This was immediately forwarded on to the National headquarters with an application for a charter for the local organization.

A soliciting committee was appointed to secure new members and the movement is being patriotically and enthusiastically received by the citizens of Kerrville and vicinity. It is a most worthy and very necessary department of the preparedness program of the Government, and it is expected that every citizen, man or woman will do his or her "bit" by enlisting in the chapter.

Bills Allowed by City.

At the last regular meeting of the City Commission the following accounts were allowed and ordered paid: Beitel Lumber Co., for lumber, \$0.72; Grona & Grider, sharpening tools, \$1.25; J. D. Leavell, hauling off dead dog, 50c; W. J. McDoniel, for marshal for April, \$10; J. D. Leavell, hauling off dead horse, \$3 and repairing culvert and material \$1.48, \$4.48; Kerrville Water Works Co., water rent from February 1st to May 1st, \$36.25; N. B. Smith, for Fire Company, \$14.50; E. F. Hicks, cleaning fire hose, \$4; G. C. Storms, collecting delinquent taxes for the years 1914 and 1915, \$47.85.

For That "Tired Feeling" So Com on in the Spring

The lazy feeling which comes over us in the Spring is often joked about, but the condition which causes it is a serious matter. It indicates a derangement of the blood and nervous system. People can't help feeling lazy and worn-out when impure blood poisons the system and paralyzes activity. Even when the tired feeling isn't very perceptible, it is well to take a good Spring Remedy. VOLUNTEERSYSTEM NATIONAL GUARD IS NOT MAKING GOOD TO BE DRAFTED

WAR DEPARTMENT OFFICIALS SAY IT IS FAILING IN EMERGENCY.

Washington, May 29.—War Department officials are pointing to the daily recruiting figures as proof of anew that the volunteer system again has broken down in time of National emergency.

Yesterday's regular army recruiting brought in 2,237 men, making a total of 87,314 since April 1. Illinois was first with 300 and New York second with 295.

Army officers declare that a great drive for volunteers to fill the army and National Guard to the new war strength will be necessary unless there is to be serious delay in organizing the newly authorized regiments. These, of course, are for the regular army and quite apart from the army to be raised by selective recruiting.

Despite the fact that the Nation is at war and American regulars are under orders for the fighting front in France, less than 200,000 men have enlisted since April 1 in the regular army and National Guard.

The present rate of enlistment—1,200 to 1,500 a day—officials say, must be increased to 10,000 or 20,000 a day if the forces which in all probability will be among the first to follow Major General Pershing's division to Europe are to go forward promptly.

The National Guard is in even worse situation. The present total strength of the force is less than 200,000 and raised to a war footing, as has been ordered, should total 330,000. In addition, the sixteenth National Guard division plan on which the War Department is working, would require nearly as many more to fill necessary additional regiments.

If voluntary enlistment fails, despite the recruiting campaigns that are in prospect, the only recourse will be to fill up the regulars and National Guard with men selected for military service under the draft.

The Lament of a Poor Old Irishman.
One summer eve in pensive thought,
I wandered on the sea-beat shore,
Where oft in childhood's happy days,
I gathered shells before.

The murmuring waves, like music fell
In soft cadence on mine ear,
A dream came o'er me like a spell,
I thought I was a child again.

Oh! Erin, thy purple mountains and
green hills,
Whose vales are watered by clear,
cool rills,

Thy valleys deep in sweet repose,
The only land on earth where the
Shamrock grows;

Thy lakes reflect the azure sky,
Thy rivers flow to meet the sea, and
to sleep.

In the broad bosom of the mighty
deep,
No more I'll see thy shores again,
For in this land I must dwell,
And when I lay me down to die
With many a tear and sigh,
My thoughts, they will go back to
thee,

The fairest island of the sea,
And loving memories to thee will
cleave,
And all I have—my heart—to thee
I leave,
My only legacy.

Big Profits in Food.

New York, May 29.—Joseph Hartigan, city commissioner of weights and measures, in a statement issued last night, declared that never in the city's history has so much money been made by individuals and corporations dealing in foodstuffs as in the last few months.

"While foods have been kept in abundance in storehouses and while prices have been advancing by leaps and bounds," asserted Mr. Hartigan, "no thought has been given to the consumer. The dealers have said 'here is our golden opportunity,' and they have seized it."

FIRST UNITS WILL BE TAKEN IN JULY 15, NEXT JULY 25 AND LAST AUG. 5.

San Antonio, Tex., May 30.—The entire National Guard of the United States is to be drafted into the Federal service, according to information sent to the headquarters of the Southern Department at Fort Sam Houston, yesterday.

On July 15 one-third of the National Guard troops will be drafted and on July 25 another one-third of the Guard will be taken into Federal service. On August 5 the last one-third of the Guard will be drafted.

The memorandum from the War Department stated that all National Guard units should be recruited up to full war strength by June 30. The order is similar to that of last June in that it places all of the Guard of the United States at the call of the Federal Government, but goes further in that it states that all Guardsmen are in Federal service during the period of the present war.

The Guard units will be held at their home stations for fifteen days, to give them a chance to recruit up to full war strength. They will be sent to the training camp. The Guards from twenty-four States have been ordered to come to the Southern Department for training, thus giving to this department five full divisions of National Guard troops.

The locations of the camp sites for the Guard troops have not yet been designated, but it is thought that at least one division will be stationed in San Antonio. Other troops will be scattered along the border or in locations where the best railroad facilities prevail. It is not planned to divide the troops into small units but rather to put them in camps of at least a division each as it will be a matter of training more than a matter of service.

Baseball on Western Front.

British Headquarters in France, in a message of "all work and no play," has its application in war as well as in peace. The baseball season on the western front is in full swing. Under the very shadow of Vimy Ridge, a great game was played yesterday afternoon before an all-khaki audience on a bit of battlefield on which the shell holes had been filled in and a rough grandstand erected for the officers and other spectators, including General Horne, general commanding the First British Army, who has become an enthusiastic fan.

The game was between teams representing two Canadian brigades. All of the players of the so-called world war league are anxiously awaiting the arrival of the American forces to arrange for an inter-league series.

The Second Canadian Brigade beat the Third by a score of 7 to 1. The Second Brigade had a great left-handed pitcher, whose delivery the Third Brigade batters could not solve.

The game was remarkably free from errors, considering the battlefield diamond on which it was played. All the equipment had been brought from America, including the base bags. As a side show it was possible for the grandstand to see an occasional German shell dropping half a mile or so away. Airplanes were humming overhead, but assuming them to be friendly, no one looked their way except when a fly ball happened to be hit.

There was typical rooting and much wagering on the game. The games are played twice a week in this strangest of all baseball leagues.

First Steel Ship Launched.

New York, May 29.—One of the first steel steamers to be built by an American ship yard since America's entry into the war is the 9,000-ton twin-screw freighter Scandinavia which is to leave the ways at a ship yard near here late today. Contracts for sixteen ships have been let at the same yards and it is hoped to complete all of them within a year.

GUARD AND ARMY TO GET FIRST MEN OF DRAFT

San Antonio, Tex., May 30.—In case the regular army of the United States and the National Guard fail to recruit their various units up to full war strength, men drafted on the first conscription draft will be used to fill these organizations to the required strength, according to information received yesterday at Southern Department headquarters at Fort Sam Houston.

The instructions from Washington stated that the first increment of the National Army would be of 500,000 strength. It was further stated that this first army would be drafted for mobilization on September 1. The drafting will have been accomplished in sufficient time so the new divisions can be sent to their training stations on this date. The boards of army officers investigating the camp sites have all now reported and the reports have been sent to the War Department at Washington. The announcement of the locations for the training camps will be made in a few days.

It was further stated that the reserve officers' training camps would close on September 15 and that the men given commissions would then be

U. S. MILITARY BALLOON BREAKS FLIGHT RECORD

Akron, Ohio, May 29.—A United States military balloon today broke all records for continuous flight for dirigibles in the United States, flying from Chicago to the town of Medina, eight miles west of Akron, a distance of 320 miles, in thirteen hours.

The big dirigible left Chicago at midnight last night and came to the ground at Medina at 1 o'clock this afternoon because its supply of oil ran out. It was piloted by Ralph H. Upson, holder of the Gordon Bennett international balloon trophy.

The trip was a complete success, Upson said. He flew at a height of between 1,000 and 2,000 feet.

HERE'S DRAFT DOPE

Detailed Information as to How Young Men of the Southwest Will Be Affected.

Los Angeles Examiner: Nearly 60,000 young men in Los Angeles and as many more in the Southwest are asking questions touching upon every phase of the selective draft law, each desiring to know how he will be affected. Registration day is June 5. Here are the most common queries and their answers:

Q.—Who must register? A.—Every male, whether citizen or alien, resident or non-resident, physically able or physically unfit, excepting only the soldiers and sailors in the active military or naval service of the United States, must present himself for registration in the manner prescribed, under the penalty of a heavy sentence for willful failure or neglect to do so.

Q.—Where must an eligible register in Los Angeles. A.—In his home voting precinct.

Q.—Where must he register if he resides elsewhere, but is visiting here? A.—On the sixth day after the date of the President's proclamation he should go to the clerk of the clerk of the county where he may be staying. If he is in a city of over 30,000 population, the city clerk is the official to whom to apply. The absentee will be told how to register and a registration card will be filled out.

Q.—What will be the method of registration? A.—Each man of the specified age, upon presenting himself to the designated registration place in his precinct, will be obliged to fill out a card containing questions and take oath that his answers are correct.

Q.—What information will he have to give? A.—His name, address, date of birth, whether he is a natural-born citizen, a naturalized citizen, an alien or one who has declared his intention of becoming a citizen; his birthplace, trade, occupation or office; by whom employed, where employed; whether he is married or single; whether he has a father, mother, wife, child under 12, or a sister or brother under 12 solely dependent upon him for support; his race; whether he has had military service, and, if, so, of what character; and he must state whether

he claims exemption and, if so, upon what grounds.

Q.—What provision is made for the sick to register? A.—They must send a competent person to the county or city clerk on the sixth day after the date of the President's proclamation. The clerk will give instructions for registration.

Q.—What married men are exempt? A.—Those who have relatives solely dependent upon them for support.

Q.—What single men are exempt? A.—There are three kinds of exemption affecting this class—physical, social and economic. Physically unfit men are exempt. Single men with dependents are exempt. They are exempt if they are following a trade or employment which the Government shall later classify as useful in the prosecution of the war.

Q.—What are the physical causes of exemption? A.—All obvious defects rendering a man unfit for military duty, as, only one eye, a foot or arm missing, crippled hands or feet, extremely bad teeth, defacing scars, under 63 inches in height, over 220 pounds in weight. Other physical defects, as of the heart, lungs, eyesight, hearing, feet, etc., will perhaps only be disclosed by the doctor's examination.

Q.—What trades or callings are exempt? A.—The range is very large. In general, farmers, railroad men, police and firemen, mechanics and men whose labor contributes to the maintenance of the army in the field are exempt.

Q.—Can men conscripted choose any branch of the service? A.—No. Their suitability for various kinds of service will be determined by officers.

Q.—What is the next step after registration? A.—Each precinct board will send its list of registrations to the office in control—the city clerk in Los Angeles and Pasadena, and the county registrar in the county—and these officials, in turn, will make their returns to the State Council of Defense in Sacramento. Here the social and economic exemptions will be made

and a time will be sent for physical examinations. This, at least, is the procedure so far outlined. The men will be selected by lot.

Q.—When will they be called to the colors? A.—Probably not before September.

Q.—Where will they be trained? A.—Both in the local camp and in a large mobilization camp. This detail has not been announced; this is a conclusion based upon statements made by the War Department.

Q.—What will be the character of the training? A.—It will be rigorous. There will be a long period of machine gun practice, bomb throwing, marching, trench digging, artillery and rifle practice, cavalry charges, maneuvering on a large scale, aeroplane scouting, building camouflage to conceal positions and all other features which modern warfare has developed.

Q.—What will be the period of training on American soil? A.—Six months has been named as the short-term time.

Q.—What will be the period of training in France or Belgium? A.—Possibly not over three months.

Q.—When will they probably reach the firing line? A.—Perhaps not before May or June, 1918.

Q.—What will be the pay of privates? A.—Twenty-five dollars a month in the United States and \$30 a month in foreign service.

Q.—What is the chance for advancement? A.—Very favorable. It is possible for a private, through energy, attention to duty and the exercise of intelligence, soon to become an officer in the new army.

Q.—Are there any penalties for failure to register or for false registration? A.—Yes. The penalty in each case is a maximum of one year's imprisonment. Assisting a person to

evade registration is punishable similarly.

Q.—Will men of the drafted army who are injured be entitled to pensions? A.—Yes; the same system will apply as is now in force with regard to the regular army.

Q.—How may a man's failure to register be detected? A.—By his inability to produce his registration certificate. This will render him liable to arrest.

The Calvert Courier, under the guidance of Editor O. D. Baker, is unquestionably the best paper Calvert ever had. Baker is one of the pushing kind. Since taking the management of The Courier he has done much to put Calvert on the map. It is to be hoped Calvert people will appreciate the good thing they've got.

A Kilsen banker is giving away common kershaw seed. The kershaw is one of the commonest vegetables grown, and will grow and mature anywhere a wild gourd will flourish. It is a member of the pumpkin family, but would never be taken for a pumpkin by the taste. In fact, many people eating kershaw mashed, have thought they were enjoying mashed sweet potatoes; though the flavor of a ripe kershaw is generally acknowledged as superior to the potato. It does not demand land all to itself; it will flourish between rows of corn, cotton, cane or any other crop not covering the entire surface of the field. We have even known the kershaw to grow to fine size in an oat or wheat field. Strange to say, its presence does not detract from the crop in the midst of which it grows. The kershaw will keep indefinitely if properly cared for; it may be cooked in many ways, and we have seldom met any one who did not find it

palatable. We do not know of anything that requires less attention, once planted, and have often wondered why more are not raised.

The French war delegation slipped into and out of this country all unbeknownst. They landed safely in France three days before the public knew they had even left America. The American newspapers knew of their departure, but needed no censorship to keep the fact to themselves.

If conscription will just clean up those who loaf their time away around the dives in every town, as well as the street corner mashers, it will prove a blessing to society. It would be a sin to take decent and respectable men into the army to do the fighting while the bums loafed. Under military discipline a bum makes as good a target for bullets as a decent man.

Judicious economy may make a very little equal a plenty. Judicious economy may be summed up as buying all you need but not all you want. All you want, as a rule, has no limit; but all you need, as a rule, is confined to small boundaries. It is a great deal easier to get what you need than what you want. Besides, if you had everything you want, none of the rest of us would have anything.

Federal Smith suggests to The Sun that maybe the people "needed all this here war, high prices and other blame foolishness to teach 'em some sense, though there's some as won't learn much even at that." Perhaps the old man is right. About the best lesson it will teach some people is what they can do when they have to. There are lots of people who have not yet found out that much.

The Roscoe Times, speaking of the more or less recent conversion of ex-Senator Willacy and Sam Sparks to the cause of prohibition, says: "We welcome these two astute and influential gentlemen into the prohibition band wagon." Astute and influential? Certainly they are. We knew and recognized them as astute and influential years ago when they were antis. We said so then; we still say so. But you never said so until they changed to your way of thinking. As antis they contended for what their honest convictions told them was right; as pros they will do the same thing. We believe in every man following his honest convictions. When the average man changes his religious, political or moral attitude he generally does so after mature deliberation, and chooses what honestly seems to him the best course. There's no good reason to blame him for the change. But, no matter what his convictions are, when it is plainly seen that he is sincere in them, we should recognize him as astute and influential in as far as he deserves such recognition; not wait until he suits our particular views to accord him justice. Of course, it is pleasant to be in agreement, but not absolutely necessary in order to determine a man's real worth.

STILL TIME TO VOLUNTEER.

Houston Chronicle: For the Nation conscription is much better than volunteering, but for the individual the reverse is true.

The man who shoulders the musket of his own accord is the better man. Not a more efficient soldier, perhaps, but better in this respect, that he recognizes personal responsibility and lives up to it on his own initiative.

Such a quality distinguishes him from those who have to be told, and it will continue to distinguish him after the war is over.

Have you that quality, son? Are you one of those who must wait for the crowd to move before you can make up your mind?

If you are, you will find yourself a conscript in everything, for whether a part of the organic law or not, conscription is, and always has been, a principle of economic life.

There are, and always have been, those who do things voluntarily, and there are those who wait for circumstance.

The former may fail or they may succeed, but they are invariably sustained by the thought they did their best.

The latter are always whining about luck, even though they succeed, but are

NO. 203. NOTICE OF HEARING TO APPROPRIATE PUBLIC WATERS. The State of Texas.

Notice is hereby given, to whom concerned, that Dr. F. C. Walsh, whose postoffice address is San Antonio, Texas, did on the 29th day of May, A. D. 1917, file an application in the office of the BOARD OF WATER ENGINEERS OF THE STATE OF TEXAS, in which he applies for a permit to divert and appropriate 2-3 of one cubic foot of water per second of time, for the purpose of irrigating certain lands hereinafter described, from the unappropriated waters of The State of Texas, to be diverted from the South Fork of the Guadalupe River, by means of a pumping plant, located on the C. & W. Railway Co.'s Survey No. 1447, and on the East bank of the South Fork of the Guadalupe River, fourteen miles in a Westerly direction from the town of Kerrville, in Kerr County, Texas.

You are hereby further notified that the lands proposed to be irrigated by the application of the water so diverted and appropriated, consist of a part of the old W. A. Hardin place, now owned by the said F. C. Walsh, and fully described by metes and bounds in said application, aggregating 17.65 acres, and situated in said Kerr County, Texas.

A HEARING on the said application of the said F. C. Walsh will be held by the Board of Water Engineers of the State of Texas, at its office, in the City of Austin, County of Travis, said State, on Monday, the 2nd day of June, A. D. 1917, beginning at 9 o'clock A. M., at which time and place all parties interested may appear and be heard. Such hearing will be continued from time to time and from place to place, if necessary, until such determination has been made relative to said application as the said Board of Water Engineers may deem right, equitable and proper.

GIVEN UNDER, and by virtue of, and order of the Board of Water Engineers of the State of Texas, at the office of said Board, in Austin, Texas, this 29th day of May, A. D. 1917.

ALL WORK TO CLEAN UP TOWN

Monkeys imitate. And there's a lot of "monkeys" in most of us.

Imitation is bad for the monkey if his model is bad, but the climber who follows a good example keeps out of a lot of trouble. Just so with us mortals. Inspired by environment, we can think great thoughts and do things worth while. Depressed by environment, we can sink into the depths.

But thanks to the human power of initiative, we can shape our environment—we can make it what we will, if we will. And so intimate are our own interests linked up with those of our neighbors that when we improve our own surroundings, be it ever so little, we improve theirs.

Right there the "monkey" in man asserts itself.

The fact that we are "our brother's keeper" responsible to a certain extent for the example we set him, may not weigh heavily on our shoulders. But the "monkey" in man keeps right on working just the same.

Today your neighbor slicks up his yard, cleans the alley, removes rubbish, plants flowers, trims his hedge, paints his house.

Tomorrow you will find that your own place looks sick. You never noticed before that a little cleaning up and painting up and greening up would accomplish so much in making home life happy and healthy through the long outdoor months of summer. So you get busy with the pruning shears, the rake, the lawn mower, the garden hose and the spade. You start a painter working on your house and out-buildings. Forthwith you, your wife and the kiddies begin to realize more fully the joy of living in this community through the good old summer time.

Day after tomorrow other neighbors will begin to "perk up" their premises and their persons. Then others will follow their example, and so the spirit of spring's generation will spread from house to house and block to block.

But let's not wait for this creeping regeneration.

Let's each start something today that will help make our own little corner of the community sanitary and more safe.

If there is unsightly advertising on your property see that it is removed. Clean up your property, business and residence, inside and outside, front and back.

Help the authorities keep streets and alleys clean. Do not throw papers or rubbish in streets or yards.

If your ash pit is full have it cleaned out. If it is out of repair and a fire risk have it repaired.

See that manure is removed from stables once a week.

See that garbage is kept only in metal containers, with tightly-fitting covers. Vermin and flies will pester you if you don't.

Clean up your vacant lots and turn them into flower or vegetable gardens.

Study the smoke that comes from your chimney and eliminate it.

If there are old shacks on your property, which are unsightly and fire risks, have them removed.

If you have no yard for a garden plant flower boxes for your windows.

If you own vacant property make it look at its best. A tenant will move in so much the sooner.

Let's make "Clean Up and Paint Up and Keep It Up" a real slogan hereabouts by living up to it.

TRAINING FUTURE CITIZENS

The boys and girls of today are the men and women of tomorrow. Boys and girls live in a very real world. It is a world of present activity, not future activity. The boy may be "president" or the girl may be "a great lady" some day—but the work and play of every day is the serious "business" at hand. It is serious business to the young people—talk with one of them for a minute and see. And it may be serious business in fact, just as worth while in human progress as the larger part of the daily activity of the "grown-ups." All that is necessary is that adults give the boys and girls real business to do, something worth while—that they consider the young people "junior citizens" rather than "future citizens."

"Clean up and paint up" effort, wisely directed, gives the boys and girls something important and definite to do for themselves and the community. Their part in the local campaign should be important.

SELF-RESPECT AND PAINT

The towns that have made themselves a part of the "clean-up and paint-up" movement are cleaner and better because of it. Naturally the paint dealer, the carpenter, florist and others profit by such campaigns. None but the pessimist will object to this. They give value received and more. The house that is painted and repainted is the better for it. A neighborhood that has cleaned up and painted up is a better one in which to live. Paint makes for self-respect and justifiable pride.

CHEVROLET Reputation

When you buy an automobile what do you really buy? Do you only buy the material and labor? Or do you buy what a car stands for in reputation, in achievement, in excellence of rank? When you buy a car, you believe what the maker says of it. You buy material and labor PLUS reputation. Reputation in motor car building is most important. Without reputation, your metal, rubber and wood would be merely a highly polished mechanical assembly. With it, you are certain of satisfaction, pleasure, health and efficient travel. Chevrolet reputation is founded on complete satisfaction. We could not have grown without it.

Cincinnati Man Tells How to Shrive Up Corns or Calluses So They Lift Off With Fingers.

Ouch ! ! ! !—This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called Freezone when applied to a tender, aching corn or hardened callus stops soreness at once, and soon the corn or callus dries up and lifts right of without pain.

He says Freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of Freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have Freezone tell him to order a small bottle for you.

CATHOLIC CHURCH NOTES

BY FATHER KEMPER

The Easter season, during which every Catholic adult is obliged to receive worthily the sacrament of Holy Eucharist under pain of forfeiting the right of Catholic burial and other privileges of practical members, closes on Sunday, Trinity Sunday. Next Thursday is the feast of Corpus Christi, and will be solemnized by a High Mass in St. Mary's Church at 7:15 a. m.

Miss Angeline Kemper motored in her new Buick to San Antonio on Tuesday in order to consult with the Daughters of Isabella who are assembled in a State convention. This organization is one of the most elite among Catholic women. Last summer they pitched their vacation camp at the Rectory. So well did they enjoy our mountain resort that they have decided to repeat the experience. To facilitate the handling of the increased crowd, Miss Angeline Kemper will be the local secretary for the camp, and will try to make it convenient for two hundred visitors to enjoy themselves before the reopening of school.

Miss Hilda Mosel toured to Fredericksburg on Wednesday in order to see her aunt, Mrs. P. J. Mosel, and also to call on her cousin, Miss Meta Dietz, at the latter's palatial new residence.

Another Notre Dame student returned to his distant home, namely Louis DiCarlo of Lake Charles, La.

Miss Estelle Shelley is with her sister's family in Uvalde.

Mr. Charles Kuesel graduated from St. Edward's College, Austin, and returned to his parents last Friday.

Miss Elizabeth Newton is visiting with her brother, Ed. Newton, until her departure for Junction. Her sister, Mrs. George Page, moved all her household effects to Boerne on last Saturday.

Having recovered sufficiently from her appendicitis operation, Miss Florence Higgins went back to DuQuoin, Ill. She was accompanied by her niece, Miss Nancy Purcell. Kathleen Higgins remains for her health's sake, but she has discontinued house-keeping. On this account Jack Gallagher removed to St. Mary's Sanitarium in Boerne. Another convalescent to leave us was Miss Marie Hochradel of Grand Rapids, Mich.

Laissez Faire.

The usual large crowd was gathered at the New York end of the Brooklyn Bridge waiting for trolley cars, says Robert Rudd Whiting, in "Four Hundred Good Stories." An elderly lady, red in the face, flustered and fussy, dug her elbows into convenient ribs irrespective of owners.

A fat man was the recipient of a particularly vicious jab. She yelled at him: "Say!" He winced slightly and moved to one side. She, too, sidestepped and thumped him vigorously on the back.

"Say," she persisted, "does it make any difference which of these cars I take to Greenwood Cemetery?" "Not to me, madam," he answered, slipping through an opening in the crowd.

Cholera Morbus.

This is a very painful and dangerous disease. In almost every neighborhood someone has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house so as to be prepared for it. Mrs. Charles Eneyart, Huntington, Ind., writes: "During the summer of 1911 two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and it gave them immediate relief."

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make This Beauty Lotion Cheaply for Your Face, Neck, Arms and Hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in; then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

Sour Stomach.

This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid sour stomach without taking any medicine whatever. When you have sour stomach take one of Chamberlain's Tablets to aid digestion.

Wanted!

Uncle Sam wants skilled workmen for active military service during the war—ages 18 to 45. Each man must have worked at one or more of the following trades:

Blacksmith, boatman, carpenter, carpenter (bridge), caulker, clerk, cook, draftsman, electrician, engineer (steam), engineer (gas), export aviator, farrier, fireman, horseshoer, lithographer, machinist, mason, miner, musician, packer, photographer, quartermaster, rigger, saddler, surveyor, signalman, teamster.

For information and enlistment in the Engineer Reserve Corps, apply to U. S. Engineer Office, San Antonio or Galveston.

The Expense Account.

A short time ago an eminent engineering firm in Philadelphia had occasion to send one of its promising young hopefuls to Washington. As he was sent hastily and was detained longer than he expected he found he simply had to have a clean shirt. Buying a "classy" one, he charged it to the firm. On his return to town he said to one of his fellow workers: "See this shirt? I bought it on the firm."

"You did," said the other. "And you put it down as 'shirts?'"
"Ah, no, boy," said he. "ate it."—Everybody's.

PROPOSED AMENDMENT TO THE STATE CONSTITUTION, PROVIDING FOR AND RELATING TO THE CREATION OF CONSERVATION DISTRICTS.

Senate Joint Resolution No. 12.

Proposing to amend Article 16 of the Constitution of the State of Texas by adding thereto at the end thereof another section to be known as Section 59, declaring the conservation and preservation of all the natural resources of the State of Texas are public rights and duties; providing for the creation of conservation districts, declaring such districts bodies politic and corporate, defining the authority of such districts, and conferring upon the Legislature authority to pass laws with reference thereto; declaring that the Legislature shall have authority generally to legislate for the purpose of conserving the natural resources of the State; fixing the time for the election for the adoption or rejection of said proposed constitutional amendment; making certain provisions for said election and the ballots thereof and the methods thereof; directing the issuance of the proclamation therefor, prescribing certain duties of the Governor of the State and making an appropriation to defray the expenses of said election.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Article 16 of the Constitution of the State of Texas be amended by adding thereto at the end thereof another section to be known as Section 59, and which shall read as follows:

Section 59a. The conservation and development of all of the natural resources of this State, including the control, storing, preservation and distribution of its storm and flood waters, the waters of its rivers and streams, for irrigation, power and all other useful purposes, the reclamation and irrigation of its arid, semi-arid and other lands needing irrigation, the reclamation and drainage of its overflowed lands, and other lands needing drainage, the conservation and development of its forests, water and hydro-electric power, the navigation of its inland and coastal waters, and the preservation and conservation of all such natural resources of the State are each and all hereby declared public rights and duties; and the Legislature shall pass all such laws as may be appropriate thereto.

(b) There may be created within the State of Texas, or the State may be divided into, such number of conservation and reclamation districts as may be determined to be essential to the accomplishment of the purposes of this amendment to the constitution, which districts shall be governmental agencies, and bodies politic and corporate with such powers of government and with the authority to exercise such rights, privileges and functions concerning the subject matter of this amendment as may be conferred by law.

(c) The Legislature shall authorize all such indebtedness as may be necessary to provide all improvements and the maintenance thereof requisite to the achievement for the purpose of this amendment, and all such indebtedness may be evidenced by bonds of such conservation and reclamation districts, to be issued under such regulations as may be prescribed by law and shall also authorize the levy and collection within such districts of all such taxes, equitably distributed, as may be necessary for the payment of the interest and the creation of a sinking fund for the payment of such bonds; and also for the maintenance of such districts and improvements, and such indebtedness shall be a lien upon the property assessed for the payment thereof; provided the Legislature shall not authorize the issuance of any bonds or provide for any indebtedness against any reclamation district unless such proposition shall first be submitted to the qualified property taxing voters of such district and the proposition adopted.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors for members of the Legislature at an election to be held for such purpose on the Third Tuesday in August, A. D. 1917, the same being the 21st day of August, A. D. 1917; At said election the vote shall be by official ballot which shall have printed or written thereon the words "For the amendment to Article 16 of the constitution of the State of Texas providing for conservation districts, the creation of such districts and their government and regulation," and also the words "Against the amendment to Article 16 of the constitution of the State of Texas providing for conservation districts, the creation of such districts and their government and regulation." All

voters favoring this proposed constitutional amendment shall erase the words "Against the amendment to Article 16 of the constitution of the State of Texas providing for conservation districts, the creation of such districts and their government regulation," and those opposing it shall erase the words "For the amendment to Article 16 of the constitution of the State of Texas providing for conservation districts, the creation of such districts and their government and regulation," which said erasures shall be made by making a mark with pencil or pen through said words. All ballots cast as above provided shall be counted as cast for or against this proposed amendment, and if a majority of the votes cast shall be for the amendment it shall be declared adopted; if a majority of the votes cast shall be against the amendment said amendment shall be lost. All the provisions of the general election laws as amended and in force at the time said election is held shall govern in all respects as to the qualifications of electors, the method of holding such election and in all other respects as far as such election laws can be made applicable.

Sec. 3. The Governor of this State is hereby directed to issue the necessary proclamation for said election and to have the same published as required by the constitution and laws of this State.

Sec. 4. The sum of Five Thousand (\$5,000.00) Dollars or so much thereof as may be necessary is hereby appropriated out of any funds in the State Treasury not otherwise appropriated to defray the expenses of such proclamation, publication and election.

C. J. BARTLETT
Secretary of State.

AN ACT

to require the publication in some newspaper of general circulation of all notices required by law or contract to be given of any act or proceeding, whether public or private, or relating to a judicial, executive or legislative matter, which notice is now authorized by law or contract to be made by posting notices in one or more public places, fixing a time of such publication, and the compensation, naming certain exemptions, repealing all laws and parts of laws, in conflict herewith, and declaring an emergency.

Be it enacted by the Legislature of the State of Texas:

Section 1. That whenever by law notice is required to be given of any act or proceeding, whether public or private, or relating to a judicial, executive or legislative matter, which notice is now authorized by law or by contract, to be made by posting notices in one or more public places, such notice shall hereafter be given by publication thereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year, in the county in which said act or proceeding is to occur; provided that nothing in this act shall be construed to require the publication of any general election notice, public road notices nor probate notices, when the appraised value of the estate in which same is issued is less than one thousand dollars (\$1,000), and provided further, that the provisions of this Act shall not apply to sales made under a written contract wherein it is provided that notice of sale thereunder may be posted.

Sec. 2. All notices published under the provisions of this act shall be printed at least once a week, for the period of time required for posting such notices.

Sec. 3. In the event no paper should be published in the county where such notice is required to be given, then such notices may be posted as now provided by law.

Sec. 4. The price to be paid for all publications required by this Act shall not be more than one dollar (\$1.00) per square of one hundred (100) words for first insertion, and not more than fifty cents per one hundred (100) words for each subsequent insertion, said publication fee to be taxed as other costs in the case.

Sec. 5. All laws and parts of laws in conflict herewith be and the same are hereby repealed.

Sec. 6. The crowded condition of the calendar and the necessity of this law creates an emergency and an imperative public necessity for the suspension of the constitutional rule, requiring bills to be read on three several days, and such rule is hereby suspended and this act shall take effect from and after its passage, and it is so enacted.

Whooping Cough.

In this disease it is important that the cough be kept loose and expectoration easy, which can be done by giving Chamberlain's Cough Remedy. Mrs. P. H. Martin, Peru, Ind., writes: "My two daughters had whooping cough. I gave them Chamberlain's Cough Remedy and it worked like a charm."

Historic Pens.

Christin Science Monitor: Collections of historic pens must necessarily be limited, since occasions of sufficient importance to make pens historic are not of daily occurrence. It is not surprising that many bids should have been made by American collectors for the pen with which Kaiser William signed the German mobilization order. It would have been surprising, however, if any one of them had been successful. The pen, a gold one, has been carefully preserved, and is to be an important exhibit of the new war museum which is being organized in Berlin.

Quite the most interesting pen in the world is that one recently in the possession of Mr. Isaac B. Reed New York. It is made from a carved box in which George Washington, as a young man, used to keep the lenses of his surveying instruments, and which was made of the wood of the lid of the captain's desk on the Mayflower. This pen has been used by both Lincoln and Grant. The next event to bestow fame on the pen will probably be the signing of peace following the present war. Could a more worthy pen be found than the one which traces its descent to the Mayflower?

His Opinion.

The late Professor Jowett had a curious way of commenting on the work that was brought to him by students. On one occasion he was shown a set of Greek verses. After looking them over carefully, he glanced up rather blankly and said to the author: "Have you any taste for mathematics?"—Argonaut.

Backhanded Slam.

Father—You're very backward. There's Norman Smithers, the same age as you, and he's two forms higher. Aren't you ashamed?
Hopeful—No. He can't help it—it's hereditary.—Punch.

Roosevelt Makes Appeal.

Mineola, N. Y., May 30.—Colonel Theodore Roosevelt, addressing several thousand of his Nassau County neighbors at the fair grounds here today, appealed to the wealthy among them not to employ labor to beautify their estates while the country is at war. Lifting his hat and pointing to a huge American flag nearby, he urged those present "to come to the front in an eager desire to serve with their bodies, with every quality of their souls and spirit and mind; with their service, labor and military skill and not stand upon words but in deeds for the one flag that floats over us—that flag which holds in its folds the future glory of mankind."

The former President reviewed the Sheriff's Reserve Corps, composed of many of the most prominent citizens of his home county. Turning to the audience, Colonel Roosevelt declared that if there was any man in the country who was not prepared to do everything in his power "now when the Nation calls" he had better go away.

"Do not think in terms of self sacrifice, but in terms of service," said Colonel Roosevelt. "I do not pity any man who has a chance to risk his life for his country; I envy him."

"There must be absolute and undivided loyalty to our flag. The events of the past two years have shown that no man can any more be loyal to two flags than he can be to two wives."

"Any man who is not a good husband is not a good citizen."

"A man must be loyal to his wife and to his country. Now that Germany stands as the most efficient military autocracy the world has ever seen, no man is a good American who does not stand against Germany and for this country with all his heart."

GOATS SELLING AT HIGH PRICES

MUTTONS NOW BRINGING FROM \$5.00 TO \$6.50 PER HEAD.

The stockmen, who less than two years ago swore they would never pay more than \$2.50 or \$3.00 per head for mutton goats, are now scouring the country for the chance to pay more than double that price. Stock goats, as well as all other classes of stock, are changing hands at undreamed of prices. For the most part, however, the Hill Country ranchmen are devoting their time in caring for what stock they now have, and raising food and feed crops for the coming winter.

Fort Worth Live Stock.

Fort Worth, Tex., May 31.—Trading in all classes of stock was very light today with a slight increase, however, in prices.

Sheep: Receipts 4,000 head; steady; 25c lower on others; not much sold.

Among the Stockmen.

W. A. Simmons and Sam Williams left Monday for Victoria, where they go to look after ranch interests which they have at that place.

Cully Cowsert, a prominent young ranch man of Kimble County, was in Kerrville Thursday, en route to Austin, where he expects to reside for some time.

The Big Paint News, published elsewhere in this issue of The Sun, contains reports of several stock deals in mutton and stock goats, which sold for good prices.

Frank Gibbens, a prominent stock farmer of Bandera County, was in Kerrville the latter part of last week. Mr. Gibbens brought in his wool, which he marketed at 45 cents.

F. B. Klein and little son were in Kerrville Thursday from their ranch on the Divide. They were pleasant callers at the Sun office while in the city and stated that everything was in first-class condition on the Divide.

Messrs. Henry Grobe and W. B. Miller, two of Kimble County's prominent stockmen, were in Kerrville Tuesday on business. These gentlemen stated that the recent rains that fell all over that country were great and in a very short time stock of all kind would be in fine shape.

THE OLD SENTINEL

When the camps of commercial industry were first pitched in Southwest Texas, almost half a century ago, this house was one of the first in this part of Texas and is, in fact, the pioneer store of Kerr County.

Time has brought its changes in many things, but while this business has grown, and has prospered, the policy of the "House of Quality" has ever been the same.

Old faces have disappeared from behind its counters and in its offices, but new ones took their places and the business went on undisturbed. Old customers have passed away, and new ones, including their children and their grandchildren, have taken their places, but the policy of the house is the same today as it was when conducted in a little building of cedar palisados.

We appreciate the steadfast confidence the people have had in us, and have earnestly striven to merit that confidence. That we have succeeded in a large measure is evidenced by the great growth of the business.

We offer you the same service, the same quality, the courteous treatment today, and the same full value for your money that has marked the course of the business from its founding. You are always welcome at the store of

LIBERTY LOAN IS FINANCE PARADOX

(Continued From First Page)

scribed; to be loaned to European countries; to be expended for supplies in this country and to be again distributed to its normal channels of business before the next installment is called for. Such a plan makes it possible to handle the Liberty Loan by degrees with the least percentage of business displacement.

Another provision in the making of the Liberty Loan which helped to reduce its ill effects to the minimum was that giving the Secretary of the Treasury authority to deposit the money subscribed for bonds in banks throughout the country. It is his policy to distribute these deposits where the money originates. Thus again is provided an excellent safeguard against business displacement.

The floating of this great loan will afford opportunity for getting a new angle on the savings habit of Americans. Heretofore Americans have not been satisfied with the low returns provided for Government securities. They have not been buying Government bonds. It is said that less than one-fifth of 1 per cent of the people of the United States are bond owners, and, of course, only a small portion of these are holders of Government bonds. In Great Britain and France nearly 12 per cent of the people have actually participated in the raising of war revenue by the purchase of bonds. On the basis of patriotic duty, a great many Americans will now become bond holders and the practice of buying this class of securities will be stimulated.

In order to make this great loan a complete success; in order to minimize the evil effects; in order to distribute the shock so that business will not feel it, it will be absolutely necessary for the people at large to participate generously in the Liberty Loan. To require the banks and trust companies of this country, whose total loans for commercial purposes now are \$18,000,000,000, to assume the bulk of a Government credit of an additional \$7,000,000,000 would be subjecting the business of the Nation to a great strain.

Choice Company.

When James B. Reynolds was Assistant Secretary of the Treasury, Senator Root sent for Mr. Reynolds one day to discuss with him some mat-

ters concerning a trade conference in Paris which Mr. Reynolds had been selected to attend.

"I suppose," said Mr. Root, "you speak French?"
"Well, yes," responded Mr. Reynolds. "I know a little French. I have no trouble to make the waiters and cab drivers understand me."

"I see," said Mr. Root. "But, Mr. Reynolds, suppose there should be no waiters and cab drivers at the conference?"—Ladies' Home Journal.

Russia is estimated to have more horses than any other Nation, about 25,000,000, the United States being in second place, with nearly 24,900,000.

No Objection.

When Governor Head was in office in New Hampshire, Colonel Barrett of the Governor's staff died, and there was an unseemly scramble for the office, even while his body was awaiting burial with military honors. One candidate ventured to call upon Governor Head.

"Governor," he asked, "do you think you would have any objections if I were to get into Colonel Barrett's place?"
The answer came promptly. "No, I don't think I should have any objections, if the undertaker is willing."—Tit-Bits.
