VOL. XXXV

KERRVILLE, KERR COUNTY, TEXAS, FRIDAY, NOVEMBER 2, 1917

NO. 15

KERRVILLE TAKES \$59,250 IN BONDS

KERR COUNTY DOING HER BIT IN WORLD WAR WITH BOTH MEN AND MONEY.

One hundred and forty-six Kerrville citizens subscribed \$59,250 in the second Liberty Loan, which closed last Saturday. Chas. Schreiner, Banker, reports \$59,250 through that bank and the First State Bank of Kerrville reports \$3,500.00. Considering the unfavorable conditions in this section this is a remarkable showing.

Kerr County is "doing her bit" with both men and money. She can boast of over 200 men in service and approximately \$60,000.00 of the second Liberty Loan.

Injured in Runaway.

Harry Williams, Turtle Creek farmer, was painfully and seriously injured Tuesday afternoon when his team ran away. Mr. Williams was hauling wood on his place when the accident occurred. It seems that a stick of wood fell off on the horses and they started to run. Mr. Williams attempted to jump from the wagon, became entangled in some way and was dragged for some distance.

He was brought to the Kerrville Sanitarium-Hospital immediately following the accident, and is reported to be resting very well.

"Womanless Wedding"

One of the prettiest weddings of the year was solemnized at the High School Auditorium, Tuesday evening, October 30th, at 9:30 o'clock, when Miss Theda Bara became the wife of Charlie Chaplin.

The occasion was indeed a notable one in the history of Kerrville for a great many of the Nation's celebrities were in attendance and practically the entire populace of the city was present. Incidentally, the Red Cross Society garnered for their noble cause, the sum of \$150.00, and about twenty-five gentlemen of the city paid no heed to the bonds of reason and donned the attire of woman—low-cut gowns, high-cut hose, etc., etc. and ETC.—martyrs indeed.

But, back to the ceremony. Guests began arriving at 8:30, and at 9:30 the bride entered upon the arm of her father, while the beautiful strains of "Lohengrin" were floating upon the air. The bridal party followed, and shortly thereafter the Rev. I. Hitchem of Atlantic City spoke the solemn words that united two hearts as one. Miss Alma Gluck in High "C" sang "Oh, Promise Me," in the following words:

"Oh, promise me that you will now comply.
With all my wishes never asking why,
That you will mend my clothes and shine my shoes.
And furnish dough to pay the bills and dues;
Cooking corned beef and cabbage every night.
And that you will always submissive be,
O love unspeakable that is to be,
O promise me, O promise me,
"O promise me that you won't take the stand
To ever threaten, quarrel or command,
That you won't greet me with a railing pin
Or lock the door at night when I'm not in.
That you will never let the baby cry,
At nights when gently in the bed I lie,
And that you will walk him and let me be,
O promise me, O promise me.

A selection from "Lucia" was also sung by Misses Farrar and Gluck. Following the wedding a grand reception was held in the luxuriously appointed ball-room.

Every wedding has its features and this was no exception. The bride's gown, the ring (the bracelet of the law), the carer and Dan Cupid were a scream, too gorgeous for mere words.

J. E. Grinstead was master of ceremonies and in his usual grace of manner and unguessed wit announced the entry of guests and the bridal party.

Following is a brief summary of the different gowns of the party:—
The bride's gown was silk over white satin, Bertha of real lace, long, bride's veil of antique lace with real

orange blossoms; bridal bouquet of chrysanthemums and elephant ears; jewels of topaz, a gift from the groom with a handsome ivory fan.

Bride's Mother: Ashes of roses with crepe de chine, trimmed with Antoinette lace.
Groom's Mother: Black silk net trimmed with fur, with black picture hat.

Maid of Honor: Flowered silk mull trimmed with real lace and pink satin, lace picture hat.
Old Maid Aunt: White crepe meteor with pearl trimmings, with a white satin hat with handsome ostrich plumes.

Mrs. John Jacob Astor: White net trimmed with turquoise blue satin, with Mose model hat.
Mrs. Pankhurst: Red satin with white ostrich feather hat.

Mrs. Carrie Nation: Black jet robe over red satin, tregon hat with pink and blue roses; wedding her gold hatchet.

Mrs. Evelyn Nesbit Thaw: Alice blue satin over crepe de chine, picture hat of braid and pink satin.

Alma Gluck: Rummel model of blue crepe de chine with silver lace trimmings, white hat with ostrich plumes.

Geraldine Farrar: Fordtran model of lavender satin with real lace, wearing amethyst jewels.

Bride's Twin Sisters: Silk net over cloth of silver, lace hats.

Flower Girls: White organdie trimmed with ruffles of lace, large satin bows on their hair.

Ribbon Bearers: White tulle dresses and large beautiful satin sashes.

Cupid: Yards of yellow maline with ruffle and bows, carrying silver bow and arrows with hearts attached.

Ring Bearer: White Swiss with Valenciennes lace trimmings, baby cap with natural baby curls.

Bride's Maids: Billie Burk—White net with ruffles of Oriental lace, with lace hat and diamond ornaments.
Pauline Frederic: Cloth of gold, Gamn model, and gold lace picture hat.

Valaska Sarratt: Pink Georgette gown, Ravson model, with body of lavender chiffon and silver lace legon hat trimmed with pink lace.

Olga Petrova: Ravson model of green crepe, accordion pleated ruffle, with butterfly bow of black silk chiffon.

The groom and groomsmen were all handsomely attired in full dress suits of conventional black.

The Martyrs.

Master of Ceremonies	J. E. Grinstead
Ushers: A. B. Burton, G. M. Doyle, Ben Smith and Henry Noll.	

Will Enter Business School.

Miss Ethel Williams, who has been in training at the Green Memorial Hospital at San Antonio, arrived home for a visit Tuesday.

Miss Ethel, with Misses Mary Robinson and Eugie Myers, has been in San Antonio for the past two months attending the same training school to become war nurses, but with a patriotic feeling that they could be of greater service to their country sooner in other capacities they have decided to take a business training course which will enable them to take the places of our young business men who have gone to the front to fight for America's world-wide freedom.

MAY ASK NATION TO FAST THANKSGIVING

FOOD ADMINISTRATION SEES A WAY TO CONSERVE LARGE QUANTITY OF FOOD.

Washington, D. C., Oct. 31.—To make Thanksgiving Day one of fasting instead of feasting is a suggestion that is to be made by the Food Administration which is now waging an unrelenting campaign to conserve food and to curb the avaricious speculator in his efforts to manipulate and hold up prices.

It is said that the suggestion has been carried to the White House and when the President issues his annual proclamation setting aside November 29 as a day of prayer for the blessings which this country has enjoyed, for the safety of the soldiers under arms and the perpetuity of the Nation, that he may implore the people to cast aside the custom of a century of serving bountiful and sumptuous meals and to at least be scant upon one Thanksgiving and save as much food as possible.

The Food Administration has given the idea some thought and is convinced that thousands upon thousands of dollars worth of food can be saved this year in the manner outlined.

As is well known, the Thanksgiving dinner makes heavy demands upon the meats, sugars and other rich foods that are in the kitchen pantry, and the saving there with this class of edibles would be notable. It will be the first Thanksgiving of the kind in the United States, but it is the first time that the United States was ever engaged in a world war.

SOUTH AND NORTH SHARE FIRST SHOT IN FRANCE

American Field Headquarters in France, Oct. 30.—Indiana and Georgia divide the honor of having inaugurated America's warfare on land against the Germans.

A sergeant from South Bend, Ind., pulled the lanyard to send the first shell tearing across the valley in the direction of the German position at 6:15 a. m., October 23, just a week ago today.

A lieutenant from Georgia gave the order "fire!" The remainder of the shells, sent that morning by this particular battery, were fired under the direction of a lieutenant from Indiana. The facts were established during the first visit paid by the correspondent of the International News Service. The visit was at the same time the first by any civilian to the first American battle front ever established on European soil. The information was obtained while the battery was booming away in a terrific downpour of rain.

A French officer led the way across a muddy valley up the hillside to a spot from which the first shell was fired, the correspondent following, crouching low. Their guide's steel helmet scraped against the camouflage roof protecting the guns from enemy observation.

A Frenchman disappeared into a gun emplacement and emerged presently with a smiling American lieutenant, who was introduced to the correspondents while all were squatting on all fours behind the camouflage.

"Want to get all the dope about our firing the first gun?" asked the lieutenant. "Come right on down to our dugout. We have it all in a book there."

The party slid down the muddy hillside and arrived in a comfortable dugout warmed by a merry fire. But the lieutenant who had the information was not there. Our guide led the way up another slope to the spot where one gun, a certain Battery C gun, which opened the American land warfare, was busily plugging away at the Germans.

A few feet to the rear stood the lieutenant with the "dope." "Sure, I'll be glad to tell you all about it," said the young Hoosier, who was formerly a National Guardsman. "You must not mind if I keep on directing this fire. I'll tell you when to put your fingers on your ears." "It was this way: We arrived at our assigned position one afternoon. All my men were very anxious to fire the first shot, so I went to the French commander, asked him if it was possible to get into position to fire that night. He said it could not be done,

for the guns couldn't be hauled into position until the following morning.

"I went back and put it up to my men. I said: 'Look here, boys, are you willing to hook yourselves up to these guns and haul them up that hill through the mud tonight to put over the first shot?' "You should have heard them yell 'Yes, sir!' "Pardon me a minute, gentlemen—"

Then, to the men near the gun: "Ready to fire." And after a moment's pause: "Fingers on your ears, gentlemen."

Another pause. "Fire!"

There was a sharp crash from under the camouflage.

UNCLE SAM MUST KEEP HIS PROMISE TO ALLIES

Houston, Tex., Oct. 30.—To All Active Workers, Family Enrollment Campaign: Uncle Sam is mighty big and strong, but he is not so big and strong that he can afford to break a promise. There is not a real American in this country who would not fight to make good one of Uncle Sam's Promises. When Uncle Sam says anything, that means that all his loyal sons and daughters have said it. The honor and the interest of this Nation are in the keeping of our splendid citizenry.

Here is the proposition: We have promised to "grub-stake" the Allies. We said: "You need not farm—you fight!"

They did not farm, but how they did fight!

Winter is coming on. There were few for the sowing and there are fewer now for the harvest. The pinch has come. In France they are looking across the sea and saying:

"How about that 'grub-stake' Uncle Sam; how about that 'grub-stake'?"

They are not whimpering, the Frenchmen, they are not that kind but they are hungry and if we fail them with our "grub-stake" they will S-T-A-R-V-E! Thousands of them—men, women and little children.

Geniving at a near empty promise.

It is food that will win the war.

How are we going to get it? We are going to save it—give it to save our pals, because that's what the Allies are in this fight.

We are going to make good on Uncle Sam's promise that he will furnish the "grub-stake" for his war. The Allies need more wheat, more meat, more sugar. It is either wheatless and meatless days for us or wheatless and meatless months for them.

And we are going to help—every one of us. There is no mistake about that. We will make good on the "grub-stake" promise for the sake of the folks who trusted us and for the sake of our soldiers as well. Just remember that they are bound for France—the land where we are sending the "grub-stake."

We want no regrets after this war. We had ample warning of the condition which awaits us, unless every American citizen responds to the call of duty. You and I want to feel, as the regiments of our boys return from the battlefields of Europe, that they are not possibly broken, but victorious, that we have done our part even to the last detail, and we must have to lay upon our own consciences the loss, through neglect, of a whole American—U. S. FOOD ADMINISTRATION.

Hunting Party.

Police Officer W. G. Carpenter, City Tax Collector W. A. Favocett and County Clerk J. R. Leavell left Wednesday for the wilds of West Kerr County with a strong determination to select the best of the big game with a chili flavor. These gentlemen leave before the season opened up does not indicate that they had any intention of violating the game law; they are merely that should they capture a buck with more than twenty points they would probably take him home, but would not take his life until ten minutes after 12 o'clock on the morning of November 1.

Death of W. C. Kaiser.

W. C. Kaiser, aged 81 years, died at his residence, Johnson Creek, Monday, October 29, and his body was laid to rest at Sunset Cemetery the following day. Funeral services were conducted by Rev. Barr.

He had been a citizen of Kerr County many years and was highly respected by a large number of friends. He is survived by five sons and two daughters.

Chas. Schreiner, Banker

Wool and Mohair Commission Merchant

It is pretty hard to assert your independence and defy the world, when you have an empty pocketbook.

A bank account is a stimulant to real manhood. It breeds self-confidence, is proof of efficiency, and an ever present resource in time of need.

It is not what a man earns a year, that gives him a surplus at the bank, it's what he saves.

We want your deposit. We can offer every accommodation consistent with safe banking methods. Let us help you save.

No business so large that the smallest detail escapes our attention, or so small that we do not appreciate.

ESTABLISHED 1869

WAR DEPARTMENT AGREES TO USE TEXAS MOHAIR

The following letter from Thomas L. Blanton, Representative from the 15th District of Texas, to Captain Charles Schreiner is further evidence that the strong fight which Captain Schreiner has been waging for some time to induce the Government to use mohair in army supplies is bearing fruit. The letter follows:

Dear Captain Schreiner, Kerrville, Texas: My Dear Captain Schreiner: I received your very kind letter of the 24th inst. just as I am leaving to take the train for Texas. I thank you more than I can express in words. Whenever I can serve you in any way whatever, I want you to feel no hesitation in calling on me.

I have just gotten the War Department to agree to use mohair in all linings for Army and Navy cloth which will help the mohair men of Texas out to some extent at least. With very kind regards, I remain, Sincerely your friend, THOMAS L. BLANTON.

To Pave Camp Bowie Streets.

Fort Worth, Tex., Oct. 31.—Dust-laden doughboys at Camp Bowie may take some measure of comfort in the announcement by Lieut. Tomkins of the Quartermaster Department that paving will be started on the paving with trials of every regimental street in the stationment and several short stretches of road, aggregating six and a half miles or half the entire mileage of Camp Bowie.

A Unique Provision for Man.

The laws of life for lower orders of creation are illogical in their constitution and manifest themselves in appetites and instincts that operate automatically. The facts of nature show that her laws are inexorable facts which even man must learn by experience.

EXPERT SAYS FEED FAMINE IS SERIOUS

U. S. AGRICULTURAL DEPT. IS MAKING SURVEY OF SITUATION IN SOUTHWEST.

San Antonio, Tex., Oct. 30.—The cattle feed situation in Southwest Texas is so serious that the Government, through the Department of Agriculture, has sent an expert to San Antonio and the surrounding territory to make a survey in order to find out just how much feed will be needed by farmers for their stock and whether they are financially able to buy it. The Department of Agriculture's representative is Prof. Charles H. Alvord, formerly with the Agricultural and Mechanical College, and at one time connected with the Taft ranch.

Professor Alvord said yesterday at the Chamber of Commerce that 100,000 head of cattle had already been shipped to Eastern States because there was not feed enough in the Southwest for them. Official reports may increase that figure.

The farmers who can afford to buy feed for their stock must depend on the Northern States for their grain, Professor Alvord said. Oklahoma can also be depended on to a certain extent. The feed famine, he said, extended west and south of a line drawn from Wichita Falls to Dallas and from Dallas to Houston.

Professor Alvord said the Department of Agriculture was anxious to get county agents located in all Southwestern Texas counties and that a few still had no agents. M. T. Payne of College Station, district agent for the county agents of the Agricultural and Mechanical College was in the city with Professor Alvord.

CREW OF "TEXAS" LEADS THE NAVY IN AID TO LOAN

Washington, D. C., Oct. 30.—The Treasury Department today received the first actual cash from the sale of the second issue of Liberty Bonds. Federal reserve banks turned in \$124,308,753, representing part of the 2 per cent paid by subscribers with their applications and a small part of the cash they had on hand.

No further reports as to total sales came from the reserve banks, and none are expected until Thursday when member banks and other sales agencies must deposit with the reserve banks the first payments and reserves from cash sales.

Complete figures for subscriptions by the navy show that the enlisted personnel and civilian employees in the Navy Department bought \$10,202,150 worth of bonds. The battleship Texas led all warships with a total of \$107,350, more than \$100 to each of the crew.

New York was first among the several districts with \$632,950; Boston topped the navy yards with \$441,450, and the Great Lakes training station led the naval stations with \$706,950.

The navy's treasury today to the treasury offering of certificates of indebtedness ran the grand total for the issue so far up to \$429,974,00 and made a new record.

Big Land and Stock Deal.

Edwards County Leader: Of all the large deals that have been consummated in Edwards County during the year probably the largest was that closed up this week when Raymond Earwood bought the Fritz Knust ranch, about nine miles east of Rocksprings, together with the Knust live stock.

There are seventeen sections of land, 10,863 acres; 2,500 head of sheep, 2,640 head of goats, and 60 head of horses and mules. The consideration as to the land was \$7.00 an acre, and the consideration as to the stock is private. The amounts involved reached way up in six figures.

Texan Wins Honors.

Elgin, Tex., Oct. 30.—The Navy Department has announced that in recent target practice, slow and rapid fire, four positions of Haynie Davis, now of Sonora, but who was born and reared in Elgin and has many friends here, made a score of 94 out of a possible 100 and was one of ten men receiving a prize for the best score in a contest at the naval training station at Great Lakes, Ill. Haynie is a son of Mr. and Mrs. R. Walter Davis, former Elginites, who are now ranching in the west, and whose parents were pioneer settlers of this county, both grand-parents of the young man being gallant soldiers in the war between the States.

The Mountain Sun, \$1.50 per year.

FIND WAY TO CURB HIGH FOOD PRICES

FOOD ADMINISTRATION BOUND TO STOP EXCESSIVE PROFITS ON ALL FOODSTUFFS.

Washington, D. C., Oct. 29.—Herbert C. Hoover, Food Administrator, has found the remedy for high food prices. All dealers who charge excessive prices will find their supplies cut off until the end of the war.

The Food Administration has at its command extensive tables showing wholesale and retail prices, with cost figures in practically every city of the country. It will be able to determine at any given time whether any retail dealer is charging more than he should charge. When it decides he is charging too much, it will cut off his supplies through control of the wholesaler.

The new regulation, which goes into effect November 1, provides that no manufacturer, wholesaler or other handler of foods, will be allowed to sell to any retailer, anywhere in the United States, who makes unreasonable profits or buys large quantities of food for speculative purposes.

The organization of the Federal Food Administrator in each State will be on the watch and send to the Food Administration at Washington the names of retailers asking excessive prices.

"The Food Administration does not intend to disturb any legitimate operations and will initiate these measures against only hardened and persistent violators," said a statement issued at Mr. Hoover's office tonight.

"It takes the position that the great majority of food sellers, retail as well as wholesale, are patriotic and honest, and are making every effort to comply with good business principles and to sell to the consumer at the lowest possible prices. Such dealers will be protected from illegitimate competition. Those few who persist in abusing their opportunities and taking advantage of the emergency caused by the war will receive attention."

After quoting the new law on the subject, the statement describes it as "one of the most sweeping safeguards against high prices which will be incorporated in the licensing system, for which complete rules and regulations will be announced within a few days."

Small retailers of food are exempt from the licensing provisions of the new act, but they are subject to other actions. No other retailer, for instance, may make an unreasonable charge, hoard, monopolize, waste or destroy food. Any of these actions ceases his supply to be cut off. The Food Administration is confident it is extreme penalty will hold in line retailers inclined to charge excessive prices.

DRESSED TURKEYS BARRED UNTIL AFTER DECEMBER 1

Secretary of Texas Association Issues Notice to Members Giving Views of Government.

Brownwood, Tex., Oct. 29.—There are to be no dressed turkeys sold in this section of Texas before December 1, according to a notice sent out today by W. C. W. Fisher of this city, who is secretary of the Texas Poultry, Butter and Egg Association. The notice follows:

"At a called meeting of the Texas Poultry, Butter and Egg Association at Dallas, October 20, a resolution was passed to the effect that no turkeys should be dressed in Texas and the Southwest until after November 15, and then only hen turkeys over six pounds and tom turkeys over ten pounds in weight. This resolution was transmitted by wire to the Food Administration for official sanction.

"However, it has since developed that the Food Administration had already considered the same matter, and had sent a wire to the meeting, incorporating the result of their deliberation. This wire was not received in time to be considered by the meeting, although it was known to have been sent. Some time since received by the secretary, however, and for your information, reads as follows:

"I view of the shortage of meat and the great need of an adequate supply in helping to win the war, you are urged to refrain from dressing any turkeys for shipment outside of the State before December 1, by which time the birds will have matured and carry a much greater amount of flesh. This applies also to the purchase of Texas turkeys for slaughter outside the State. It is the opinion of the Food Administration

that to comply is not only your patriotic duty, but it is in accordance with that section of the food control law which prohibits all wasteful practices in connection with the food supply.

"The members of the Texas Shippers Association are requested to send to the Food Administration the names of dealers failing to observe this request."

"Having only today returned from the Dallas meeting, after a tour throughout North Texas, I find the Food Administration has further stressed its authoritative statement as to weights and date, as follows:

"Washington, D. C., Oct. 25.—W. C. W. Fisher, secretary Texas Poultry, Butter and Egg Association, Brownwood, Tex., Your telegram embodying resolution passed by the Texas Poultry, Butter and Egg Association on October 20 received, and your cooperation appreciated. Resolution as passed embodies wishes of the Food Administration, except minimum weight, which we believe should be eight pounds for hens, twelve for young toms, live weight. In order to reach this weight, believe it would be better to make the date December 1. Would like your opinion.

"FOOD ADMINISTRATION."

"It is therefore my duty to transmit this information to each member of the association, to the press and to all others who contemplate dressing turkeys this season. I am mailing members several copies, for you to transmit to your country shippers and turkey raisers, in order that they may be advised of the attitude of the Food Administration, to the end that the fullest co-operation may be secured.

"It will be the duty of each one of you to report any non-observance of the Food Administration's request, direct to that bureau, Washington, D. C., care Poultry Department. In this manner, all who faithfully comply with the regulation, may secure protection. However, it is anticipated that the very reasonable stipulations of the Food Administration will be observed to the letter by all turkey dressing establishments in Texas, and it is understood that all Southwestern territory has been asked to carry out same regulation."

At Kambove, in the heart of Africa, there is a modern missionary printing establishment, with a book store, which supplies books in twelve native languages.

LET US FURNISH Your Car With Lights

We have a large stock of Lenses of most any description for you to select from. We handle only those which have been tested by the State Highway Commission to comply with the new State law. Let us furnish your car with the kind of Head-light or Tail-light that will be satisfactory to you.

OVER TWO MILLION FAMILIES ENLISTED IN FOOD CAMPAIGN

Washington, D. C., Oct. 30.—Food pledge week is going to be a tremendous success in the conservation program.

This was the feeling of the food administration tonight when it announced that at the end of the first two days' campaign to enroll American families on pledge cards calling for conservation no less than 2,600,000 families have enlisted.

The minimum goal of the campaign is 10,000,000 families and with four days yet to go, the food administration is confident the number will be reached if our present 94 the 2,600,000 cards signed, 803,167 were signed today, although the report is not complete for today's campaign.

Maine leads all the States thus far with 97,340 families enrolled to help save the Nation's food supply. Indiana is second with 85,133 and Iowa third with 80,800.

Evidence that "meatless Tuesday" will be a big factor in the food conservation program was received at the food administration tonight. One New York hotel alone reported the saving of 1,927 pounds of meat by its omission from the menu.

This hotel served 2,830 guests that day, saving an average of ten and one-half ounces.

On "wheatless Wednesday" this hotel saved five barrels of wheat flour in serving 1,017 persons with rye, potato, barley and rice flour bread and wafers.

Correctly Defined.

A Russian applicant for naturalization papers was asked: "What is the Constitution of the United States?" "Rugged and healthy," he answered. —The Argonaut.

Infernal Machine.

"Can I mail an infernal machine here?" sternly asked J. Fuller Gloom of the pale clerk in the post office. "I want to send my nephew's accordion to him." —Judge.

Hard Job.

"De world was made in six days," said Uncle Eben, "but it's been takin' thousands of years to git desirable tenants for it." —Washington Star.

 Cincinnati Authority Tells How to Dry
 Up a Corn or Callus So It Lifts
 Off With Fingers.

You corn-pestered men and women
 need suffer no longer. Wear the shoes
 that nearly killed you before, says this
 Cincinnati authority, because a few
 drops of Freezone applied directly on
 a tender, aching corn or callus, stops
 soreness at once and soon the corn or
 hardened callus loosens so it can be
 lifted out, root and all, without pain.

A small bottle of Freezone costs
 very little at any drug store, but will
 positively take off every hard or soft
 corn or callus. This should be tried,
 as it is inexpensive and is said not to
 irritate the surrounding skin.

If your druggist hasn't any Freezone
 tell him to get a small bottle for you
 from his wholesale house. It is fine
 stuff and acts like a charm every time.

Big Saving to Students.
 University Station, Austin, Tex.,
 Oct. 29.—The faculty of the Univer-
 sity of Texas has under consideration
 the abolition of entrance fees at the
 University. Should the faculty act
 favorably upon the proposition, it will
 mean that students will no longer be
 required to pay matriculation fees,
 laboratory fees, etc., although it will
 not effect library and other return-
 able fees, and will represent a saving
 to each student of from ten to forty-
 five dollars per session.

Certain Cure for Croup.
 Mrs. Rose Middleton, of Greenville,
 Ill., has had experience in the treat-
 ment of this disease. She says, "When
 my child was small my son had
 croup frequently. Chamberlain's
 Cough Remedy always broke up these
 attacks immediately, and I was never
 without it in the house. I have taken
 it myself for coughs and colds with
 good results."

Trespass Notice.
 Notice is hereby given that hunting
 or trespassing of any kind is positive-
 ly forbidden in my pastures on Fall
 Creek.

GERMAN SECRETS ARE TO AID THE UNITED STATES

Washington, D. C., Oct. 30.—The
 vast store of German scientific in-
 formation in this country was opened
 to American manufacturers in regu-
 lations issued by the Federal Trade
 Commission under which enemy-
 owned patents and copyrights will be
 licensed for manufacture by citizens
 of the United States.

When the regulations had been
 made public, the commission met a
 group of medical men to consider li-
 censing the manufacture of certain
 drugs, principally Salvarsan, used in
 virulent blood diseases and non-toxic
 substitutes for local anesthetics, of
 which the supply in this country has
 run dangerously low since the war in-
 terrupted commerce.

Approximately 20,000 patent and
 copyrighted articles are said to be
 affected by the commission's order.
 These include most of the formulas
 of vital importance to American in-
 dustries and mechanical devices of
 wide use, though the humanitarian
 effect of the order attracts the widest
 attention.

German thought for many years
 has been in the forefront of medical
 research, evolving remedies for dis-
 ease and for alleviation of pain, all
 of which patents the United States
 will now become available to and suf-
 fering in this country.

It was said to be likely that any
 licenses issued for the manufacture
 of Salvarsan would carry a provision
 that a certain per cent of the out-
 come be turned over to the public
 health service.

Whether prices for drugs manu-
 factured under license will be de-
 termined by the commission was not
 announced, but it was intimated that
 the commission would safeguard the
 public against exploitation. The
 trading with the enemy act, by au-
 thority of which the patents and
 copyrights will be taken over, con-
 fers on the President, who has dele-
 gated the trade commission to carry
 out the law, power to fix conditions
 of licensing which might be con-
 strued as authorizing limitations of
 prices if the public welfare demands
 it. Prices of drugs have undergone
 tremendous increases since 1914,
 many remedies having increased as
 much as 1000 per cent.

The regulations issued today follow
 the law closely in safeguarding the
 interests of patent owners who must
 be reimbursed for the use of their in-
 ventions, and provided that licenses
 will be issued only where the interest
 of the public demands it, to supply a
 demand not now being met. The li-

cence must give evidence of ability
 to manufacture the article. When the
 commission will issue the first li-
 censes for the manufacture of articles
 patented by alien enemies of their
 allies probably will depend upon the
 time required for American producers
 to meet the license requirements.
 Physicians at today's conference were
 said to have pointed out that an early
 supply of important drugs would be a
 contribution to the National defense.

LOCAL RED CROSS NEWS

Edited by Mrs. J. W. Burney

Application blanks for membership
 in the Red Cross may be obtained from
 Mrs. Geo. Morris, chairman of the
 Membership Committee, at the St.
 Charles Hotel. Do your "bit" by join-
 ing the Local Auxiliary.

A great portion of our people can-
 not go to war. We cannot, even if
 we would, face its dangers, but we
 can serve our country as loyally and
 as faithfully and make sacrifices that
 are perhaps greater to make because
 uncoupled with the glory of combat.
 The women of the United States must
 bind themselves together as a great
 army of workers and make such sacri-
 fices that the world may know that
 the American soldier is the pride of
 his people and that his comfort and
 his safety and happiness are his peo-
 ple's first thought. The women of
 Kerrville can best serve their country
 by working for the Red Cross. Every
 woman of the community is needed.
 ARE YOU DOING YOUR PART?

Mrs. G. M. Doyle and Mrs. R.
 Holdsworth were on duty Wednesday
 afternoon.

At the Catholic Circle last week
 were the Misses Higgins, Annie
 Mosel, Kemper and Mrs. Carpenter.

Received from Mr. Walter Schreiner
 \$25.00 for the General Fund, and
 from Mrs. and the Misses Welge,
 \$5.00.

The workers at the Eastern Star
 Circle last week were: Mesdames E.
 E. Palmer, Lee Wallace and Weiss,
 and Miss Clara Herzog. Mrs. L. A.
 Mosby was a visitor.

Mrs. King called a special meeting
 of her class for making Surgical Sam-
 ples on Monday, October 22nd. Six
 ladies were present: Misses John-
 ston, F. Huntington, S. Huntington
 and Mesdames Young, Saucier and
 King.

Mrs. Geo. Morris is always busy in
 behalf of the Red Cross. Thanks to
 her efforts and to the generosity of
 her friends, an electric iron has been
 installed in the Red Cross Hall. The
 Kerrville Electric-Light Company has
 generously agreed to furnish the
 power free of charge.

Miss Huntington reports a good
 meeting last week. The workers
 were: Mesdames Braudigan, Nimitz,
 Whelsh, Walther, Leather and the
 Misses F. Huntington, S. Huntington,
 Reba Burnett and Galbraith. Mrs. E.
 Deitert, a member of this circle, sews
 at home and makes one hospital gar-
 ment each week.

Mrs. McLean, who had charge of
 the Baptist Circle last Saturday, re-
 ports a good attendance. Eleven gar-
 ments were finished. Ten ladies were
 present as follows: Mesdames W. H.
 Rawson, Staudt, Emma, Welch, Par-
 sons, Bickner, Bailey, M. T. Davis,
 McLean and Miss Susie Newton. Mrs.
 McLean assisted in the cutting depart-
 ment last week.

Mrs. Compasette reports another
 enthusiastic meeting of the Methodist
 Circle October 26th. These faithful
 workers are accomplishing much.
 Five suits of pajamas were finished
 and other suits are under way. Those
 present were: Mesdames Grinstead,
 Greer, Hanson, Green Surber, Beard,
 Frank Coleman, Nobel, Watters, R.
 Holdsworth, Meekie and Compasette,
 and Miss Mary Gowan.

Mrs. John S. Butler reports good
 attendance last week. A number of
 9x9 compresses were completed. The
 ladies on duty were: Mesdames Mor-
 ris, Bunbury, Mason, K. G. Baker and
 Butler, and the Misses Higgins, Lucile
 Smith, Reba Burnett and Mabel Moos.
 Mrs. Butler announces that the time
 of the class meeting will be changed
 from Friday to Saturday afternoons.
 In making surgical supplies it is very
 essential to have the use of an iron,
 and the electric current will be on
 Saturdays. It is hoped that the
 change of class day will not seriously
 inconvenience the class members.

The Young Ladies' Class for mak-
 ing Surgical Dressings met on Thurs-
 day afternoon. These enthusiastic
 workers finished ten dozen large com-
 presses, 36x18. Mrs. G. F. Schreiner,
 chairman of this circle, reports that
 the girls are interested workers with
 a full sense of the duties and obliga-
 tions assumed when they became
 members of the Surgical Dressing

Your Grocer will deliver

You've enjoyed it at restaurants and other places—
 now you want your family and your guests to join
 you in the same pleasure. That's one of the joys of
 serving Bevo—to hear your guests say how good it
 is—then to listen to their arguments as to just what
 it is. If they haven't seen the bottle they'll all agree
 that it is something else—if they have seen the
 bottle each will have a different explanation for its
 goodness.

Bevo is nutritive—pure through pasteurization and
 sterilization—non-intoxicating, wholesome and thor-
 oughly refreshing. Note—Bevo should be served cold.

Bevo—the all-year-'round soft drink
 Get Bevo at inns, restaurants, groceries, department and drug stores,
 picnic grounds, baseball parks, soda fountains, dining cars, steam-
 ships, and other places where refreshing beverages are sold. Guard
 against substitutes—have the bottle opened in front of you.
 Bevo is sold in bottles only—and is bottled exclusively by

Circle of the Red Cross. Those pres-
 ent were: Misses Kate Renschel,
 Bess Renschel, Irene Bulwer, Elsie
 Johnston, Marguerite Rummel and
 Tillie Schwethelm, and Mesdames
 Hilger, Abbott and G. F. Schreiner.

UGH! CALOMEL MAKES
 YOU DEATHLY SICK
 Stop Using Dangerous Drug Before
 It Salivates You! It's
 Horrible!

You're bilious, sluggish, constipated
 and believe you need vile, dangerous
 calomel to start your liver and clean
 your bowels.

Here's my guarantee! Ask your
 druggist for a bottle of Dodson's
 Liver Tonic and take a spoonful to-
 night. If it doesn't start your liver
 and straighten you right up better
 than calomel and without griping or
 making you sick I want you to go
 back to the store and get your money.

Take calomel today and tomorrow
 you will feel weak and sick and
 nauseated. Don't lose a day's work.
 Take a spoonful of harmless, vegeta-
 ble Dodson's Liver Tonic tonight and
 wake up feeling great. It's perfect-
 ly harmless, so give it to your chil-
 dren any time. It can't salivate, so
 let them eat anything afterwards.

For Sale.
 For sale on the Chas. Schreiner Live
 Oak Ranch, about 50 rams, 3 and 4
 years old, one-third Delaine, two-
 thirds Ramboulet. These Rams are
 very large, very few wrinkles and in
 fine shape. Robert Real, Mountain
 Home, Texas. 35-ff

An Old Man's Stomach.
 As we grow older and less active,
 less and less food is required to meet
 the demands of our bodies. If too
 much is habitually taken, the stomach
 will rebel. When a man reaches the
 advanced age of 85 or 90, you will
 find that he is a light eater. Be as
 careful as you will, however, you will
 occasionally eat more than you should
 and will feel the need of Chamber-
 lain's Tablets to correct the disorder.
 These tablets do not contain pepsin,
 but strengthen the stomach and
 enable it to perform its functions
 naturally. They also cause a gentle
 movement of the bowels.

Over the Telephone.
 "I was never so insulted in my
 life."
 "Huh?"
 "Somebody asked me if I wanted a
 kiss by wire."
 "Well?"
 "And when I spoke up he said he
 had the wrong number."—Kansas
 City Journal.

Telephones are built into a new hel-
 met for aviators to permit them to
 converse with companions while flying.
 To keep men who use ladders a
 great deal from slipping, an inventor
 has designed round metal plates
 to be worn on shoes.

Why Suffer?

Mrs. J. A. Cox, of Ad-
 derson, W. Va., writes:
 "My daughter... suf-
 fered terribly. She could
 not turn in bed... the
 doctors gave her up, and
 we brought her home to
 die. She had suffered so
 much at... time. Hav-
 ing heard of Cardui, I
 got it for her."

CARDUI

The Woman's Tonic

"In a few days, she be-
 gan to improve," Mrs.
 Cox continues, "and had
 no trouble at... Cardui
 cured her, and we sing
 its praises everywhere."
 We receive many thou-
 sands of similar letters
 every year, telling of the
 good Cardui has done for
 women who suffer from
 complaints so common to
 their sex. It should do
 you good, too. Try
 Cardui. E-77

GIRLS! WHITEN SKIN
 WITH LEMON JUICE

Make a Beauty Lotion for a Few Cents
 to Remove Tan, Freckles, Sallowness.

Your grocer has the lemons and any
 drug store or toilet counter will supply
 you with three ounces of orchard white
 for a few cents. Squeeze the juice of
 two fresh lemons into a bottle, then
 put in the orchard white and shake
 well. This makes a quarter pint of
 the very best lemon skin whiteners
 and complexion beautifier known. Massage
 this fragrant, creamy lotion daily into
 the face, neck, arms and hands and
 just see how freckles, tan, sallowness,
 redness and roughness disappear
 and how smooth, soft and clear the skin
 becomes. Yes! It is harmless, and the
 beautiful results will surprise you.

For a Weak Stomach.
 As a general rule all you need to do
 is to adopt a diet suited to your age
 and occupation and to keep your
 bowels regular. When you feel that
 you have eaten too much and when
 constipated, take one of Chamber-
 lain's Tablets.

To keep men who use ladders a
 great deal from slipping, an inventor
 has designed round metal plates
 to be worn on shoes.

L. D. MOTLEY, Local Manager

Entered as second-class matter at the postoffice at Kerrville, Texas, under the act of March 3, 1879.

SUBSCRIPTION \$1.50 PER YEAR

Advertising rates and circulation made known on application.

Subscribers will confer a favor on the management by notifying the office promptly when they fail to receive the paper, or when change of address occurs.

The above cut shows the trade territory in Texas that is covered by the publications of The Terrell Publishing Company.

The question of good roads is ever a live one.

It behooves Hoover to get busy with the food robbers.

No matter how disappointed you are, it is democratic for the will of the majority to rule.

It is not for the candidate to determine his own fitness for office; that duty belongs to the people. The voter uses it.

Buying a pair of shoes after wasn't any trick at all, but now they cost more'n Liberty Bonds. Let's try a band for a change.

Wonder what those fellows in Hillsboro who used to get so much satisfaction out of the fact that it was only fifteen miles to West will do now?

"I've always noticed," observed General Smith, after listening to several tales of woe from the bench on the bench, "that whenever a fellow gets the idea in his head that he ain't no 'count, generally he ain't."

McLennan County is to be congratulated that during the recent local option campaign not a single imported agitator for either side was permitted to sling any venom. As it is, friends are still friends, neighbors are still neighbors. Verily, the day of the agitator has passed in Texas.

Colonel Nick Heck says in the Mexia Herald: "Uncle Sam says we are too old to go to the trenches, and our banker says we are too dingy poor to buy a Liberty Bond, so what's a fellow to do about it?" Pretty much the same here, so we guess we'll have to "get down to our knitting."

The fact that railroad fare has advanced eight per cent doesn't affect the box car todrist. Wreny Willie Waterhouse of Waino Walls, Wash., passed through this week. We would say more of this eminent knight of the road, but may need the cap W's to finish out the editorial We's on this page.

We never knew an outside agitator to visit a community yet that he didn't take a wand out with him when he left and leave a lot of dissatisfaction behind him. Neither have we ever known this to be the case when the home people got together and settled a mooted question for themselves. Moral: Resist the presence of the outside agitator.

The professional politicians and graft manipulators want men elected to office whom they can handle to suit their aims and interests. The people want men elected to office whom the p. p. and g. m. can not handle. The p. p. and g. m. are numerous, 'tis true; but the people outnumber them thousands to one. This being the case, it looks to us as if the people have the advantage—or could have it if they would just lay factional prejudice aside and determine to place only men of clean records and known efficiency in of-

fice. The people are waking up rapidly to this idea, and we fully expect to see developments along this line in next year's election.

We can understand and appreciate the motives that actuate the German spy in this country, much as we wish to see them caught and Germany's aims thwarted; but we can't understand the motives of the American renegade. Of the two, we'd rather attend the funeral of the latter. The former is at least trying to serve his country, while the latter seeks to betray his.

San Antonio Express: A boy just naturally cannot reform if he desires to do so. That song which we once knew so well, and the chorus of which begins, "Where, Oh, where is my wandering boy tonight?" has fallen into disuse, and the Galveston News says that the old-fashioned woman who composed the song now has a son who gets mad as blazes when she wants him to go up town at night to see where his sister is.

The war news summed up to date is that England and France are licking Germany, Italy is licking Austria (7), Germany is licking Russia, Turkey is licking Germany's boots and American manufacturers are putting the price of boots so high that Germany will soon have no boots to lick. A serious threat comes to Germany from the Turks that if Germany adopts wooden shoes they (the Turks) will refuse to lick 'em for fear of getting splinters in their tongues.

In the same issue of the daily papers announcing a sugar famine in the United States we read this: "Federal secret service agents today reported to Washington the discovery in a Buffalo, N. Y., warehouse of ten million pounds of sugar in bags and barrels labeled Top Crust Flour." The owners of this sugar, and doubtless there are many other hidden stores of not only sugar but other provisions should be treated as the traitors and robbers they are. While we feel that not one ounce of foodstuff should be wasted, we see it a crime to hoard and hoard an ounce. Greed should be forced to give way to necessity. A male has perception enough to see the reason of this hoarding—to advance prices. Our Government can and should remedy such conduct. No doubt the owners of that sugar were urgently advising their victims—every consumer is a victim—to buy Liberty bonds, counter to military service, and do other loyal acts. The miserable hypocrites!

The Waco Times-Herald has made this inquiry before: "Every time we read of the arrest of some one for illegally selling liquor we mentally inquire why the buyer should go free?" We, too, have been making the same inquiry, mentally and right out loud, for several years. During the last two Legislatures we asked several members this same question. They all "loved it" or "loved it" but not one of them ever offered such a resolution—at least not to our knowledge. One of them asked: "What's the use? It would never pass." This induces us to ask another question—why? Is it any more a moral privilege to buy than it is to sell? We emphatically think that the arrest, conviction and punishment of one buyer would do more to stop the illegal sale of liquor than the arrest, conviction and punishment of a whole drove of bootleggers. Did you ever hear of a bootlegger forcing any one to buy? Does not the willingness of the buyer alone make the bootlegger possible? Yes, that question is still puzzling us.

It is no harder to like a man than it is to dislike him. All you have to do is to sire up your own list of weaknesses and compare them with his. On an average, the two lists will read about alike—numerically, at least provided you ever reach their numerical limit. Certainly he will have faults of which you are free, but you will unquestionably find that you have faults of which he is free. The trouble between you is a mutual perception of faults and a blind indifference to virtues. This paragraph is not intended as a sermon, nor as a mere piece of moral philosophy. It was suggested to us by an interview only a few minutes apart, with two friends whom we esteem highly. Each severely criticized the other. Both these men are splendid characters; both have many friends; the friends of one are the friends of the other. The last fact should convince them that they should be friends to each other. Strange to say, despite the fact that both are above the average intellectually, this is one idea that does not occur to them. But both are useful men to their community. If they could agree, their usefulness would be doubled; as it is, they largely nullify each other's usefulness. We suppose this condition is due to human nature, and a remedy for human nature misdirected is hard to find.

+++++ AS OTHERS SEE IT. +++++

The shoe trust is now taking its toll from the people by the millions. Criminal prosecutions should follow. —Georgetown Commercial.

When a fellow really wants a good road badly enough to dig up for it, it usually happens that he is way out somewhere alone, stuck in the mud or buried in the sand. —Henrietta Independent.

Taxes are so high and money so scarce that The Times cannot undertake to persuade the people to pile up more taxes just at this time. Yet we must have roads, and the building of the same this winter would furnish employment and sustenance for quite a bunch of our people. —Roscoe Times.

The San Antonio merchants are getting \$3,250,000 per month in business from the soldier boys who are stationed there. Yet they are not satisfied with legitimate profits and it is said that in many instances overcharges are being made. There ought to be jail sentences for those who take advantage of the war and exact unreasonable profits. There is no justice in the methods of later day business where men raise prices because trade is good: Prosecutions should follow extortion. —Georgetown Commercial.

The Drug Market.

Memphis Commercial-Appal: The effect of war on the drug market has been almost spectacular. Prices began at the very outset to show uneasy symptoms. This country, as England and France, has been largely dependent upon Germany for many necessary chemicals.

The drugs made exclusively in Germany and indispensable in the drug market became panicky in price and caused considerable uneasiness. Within a year after the war was inaugurated and England had placed an effective blockade about Germany the spectacular flight of prices began, and has continued ever since. Some of the drugs today offered on the American market are held at fictitious prices.

This is unfortunate, because in cases of illness drugs must be used, and, as in the great majority of cases, it is the poor who are made to suffer the most.

However, the war has had in a measure a beneficial effect. It has aided to a great extent in the efforts of the Federal authorities to suppress the sale of habit-forming drugs.

This is notably true in the instance of cocaine.

The Government some time ago came face to face with the fact that its people, or rather that portion of them who seek physical relief through cheap patent medicines, were being victimized and made drug addicts through the unscrupulous use of such poisoned doses. The fight made up of these stupefying nostrums has been a long and hard one.

The war price on cocaine has been increased to such a figure that the indiscriminate use of the drug in the manufacture of patent medicines has been reduced to a minimum.

The price has become prohibitive with many of the necessary things to use in our homes, and in this respect the burden of the war is severely felt, but here dangerous drugs, because of the increase in price, are being held beyond the reach of the weak and feeble, it seems that the hand of Providence is helping the guardians of the public seeking to relieve a deplorable condition which has for a long time been an ever increasing menace to society.

The drug market in other ways has shown how uncertain the prices are at present and how hasty they will be during the coming weeks.

Once again we are impressed with the fact that necessity is the mother of invention. We must acquire the habit of taking care of our wants and of becoming independent of other nations.

Some of the Antille's Men.

New York Herald: High up on the list of men who were sent to death by a German torpedo sank the American transport Antilles are found Sergeant Otto Kleber, whose next of kin is a father, living at Berlin, and Sergeant Otto Miller, whose next of kin is his mother, living at Aldenburg. Natives of Germany these men served with honor the country of their adoption and died in its service. All honor to them! They lived they lived and the deaths they died furnish a complete and convincing answer to the assumption of a traitorous kaiserism that it has the support or the sympathy of all Americans of German birth. If it has the sympathy or the support of any, they are unworthy the name American. Further down the list are found a Boyle, an O'Rourke, a Finnegan, a De-

THE GOVERNMENT NEEDS STENOGRAPHERS!!

Never in the history of the United States was the government in such dire need of STENOGRAPHERS and BOOKKEEPERS as it is today.

A Business Course WILL FIT YOU TO FILL ONE OF THESE POSITIONS!

ving, a flinty—of Irish descent, but Americans tried and true. Brave in death as in life, as befits their inheritance. How despicable are those traitorous German-Irishmen passing trading us Americans who are doing what they can do to stab such brave fellows in the back!

Dying With a Smile.

New York World: As details of the war in the Pacific are received, Americans must feel and express a melancholy pride in the behavior of their sailors and soldiers, face to face with death.

There was no warning of the torpedo's approach and no sign before it after the explosion of the presence of a submarine. Although the ship was on two and sunk in a few minutes, there was no panic. The men were removed first in good order and others followed with perfect discipline until at length all who remained were compelled to leap from the disappearing wreck. Even in the water, the sport of a turbulent sea, men were helpful, self-sacrificing and in such cases jovial, and the last that was heard from more than one victim was a jest.

Such fortitude in the face of fighting, where everybody has a chance, at least as good as another's, is common enough, but we do not find it always among the most heroic peoples in hopeless situations. A nation whose representatives retain to the last, in the presence of certain fate, not only their self-possession and humanity but their sense of humor, will one of these days make its indelible impression upon the battle line.

War and Men's Fashions.

New York World: Of ways to win a war, Federal regulation of men's fashions may seem the oddest, but we shall presently make the acquaintance of other devices now quite as unexpected.

There is not in Europe a warring nation, perhaps not a neutral one that has not to some extent regulated costume to save material. Great Britain limits the height of women's shoes to save leather, and it should be done here. Public opinion has everywhere been rallied for economy. Germany controls all clothing, permits it to be sold on an allowance, and expected eht Deutsch civilians to go barefoot during the summer. Multiplied by millions, saving of any kind is no trifle. The cloth used

in turn-up cuffs at trouser bottoms, one pair for each adult American male, would make a strip eighteen inches wide from here to the Pacific Ocean, and some men have many pairs. Norfolk pleats waste relatively even more cloth. Most of all his good in needless duplication of special-purpose garments.

Simply there is not wool enough in the world to go on in the old reckless way, men must of their own accord economy in raiment or civilization may become a necessity. To borrow a phrase worthy of the subject, this goes for the ladies, too.

Horns on the hoof are bringing us down to earth. Breakfast bacon can't be bought for less than thirty cents at present. After the war the price will be about a dollar. The horns on the hoof are not hatched, though the two-hoof kind need killing.

Best Union Label.

The greatest union label in the world is the American Flag. It symbolizes the union of all free men for democracy. —Chicago News.

Two Cannon Received at Camp Bowie.

Fort Worth, Tex., Oct. 31.—Camp Bowie's first shipment of cannon arrived in camp at noon Wednesday and was switched to the yards of the Quartermaster Department, where it was unloaded.

The shipment consisted of two brand new 3-inch guns with the necessary accessories. It is the fore-runner, according to artillery officers, of a continued shipment of field pieces until both the light field artillery regiments are supplied.

The guns are equipment for one position of artillery and it will require twenty-two more to completely outfit the 131st Field Artillery. If all batteries are fully supplied with guns before they leave here, both of the light field artillery regiments will have a total of sixty-eight cannon.

Instead of using the regulation cork or wood floats for holding up their nets, Maine fishermen employ glass globes. It is said that the glass attracts the fish. Glass also lasts longer. These floats are as large as grapefruit.

243 License Plates For Distribution

We have received 243 License Plates, numbering from 87,347 to 87,590, which we will deliver in parties calling and presenting Registration Cards. We have positive instructions from the State Highway Department that no number is to be given out without the card is presented for comparison.

WOMAN'S FAIR TO FEATURE POULTRY

DAIRY PRODUCTS WILL ALSO HAVE A PROMINENT PLACE IN THE EXHIBITS.

ARRANGE FOR EVERY DETAIL

Headquarters is Busy Place Now, and Committees Meet Daily—Patriotism to Be Keynote of Fair.

Headquarters of the Texas Woman's Fair Association is one of the busiest places in Houston now. There Mrs. J. Edward Hodges, the president, meets her committee daily and draws together the scattered threads of various departments in order to have everything working smoothly by opening day, November 5.

Important features of the fair this year are the poultry and dairy products departments, the canning club exhibits and all those sections emphasizing the conservation and production idea.

Patriotism is the keynote of the fair this year. Mrs. Hodges stated, and everything is being carried out along patriotic lines.

The board also feels that if a fair could be carried out successfully in these times such as these, the tradition is permanently established and that, in itself, means a great deal to an association that has long since passed its third year.

With rumors of the preliminary expenses met by the recent arrival of donations and with committees in excellent working order, Mrs. Hodges feels that the success of the fair this year is now an assured fact.

Among the prominent speakers who will be asked to visit the fair is Miss Jeanette Rankin, first congresswoman to be elected in the United States. Mrs. Percy V. Snybacker, national president of the federated clubs; Mrs. Fred Fleming of Dallas, state president of the federated clubs; Miss Mary Gearing, Mrs. Annie Reid, Mrs. E. M. Barrett have already accepted invitations to be present. E. A. Peden will give a lecture on food administration problems and the week promises a number of educational and instructive features of an interesting nature.

There will be a Red Cross exhibit and woman war relief measures will receive much attention. Girls' canning clubs will be given considerable space and farm products, garden products and food conservation exhibits of all kinds will be emphasized.

The program is as follows:
Monday, opening day, military day.
Tuesday, federation day.
Wednesday, music and art.
Thursday, old settlers, mothers' day.
Friday, housewives' day, girls' canning clubs.
Saturday, children's day, better babies' day.

Visitors to the Texas Woman's Fair last year will remember the Poultry Show, as fowls from over the state as well as out of the state were shown, and many prizes were drawn by magnificent breed birds. Some of the finest bred chickens, turkeys, geese, ducks, guinea fowls, etc., were shown anywhere in the United States were exhibited at the Houston fair last year, and this year the Poultry Show features prizes to outclass any heretofore given.

The dairy products exhibit will be one of the most successful of all exhibits, and one that directly interests every individual these war times, and as the products of the dairy are a necessity, they form up large on the horizon of the food question. Milk, butter and the products akin to them must be had, and the dairy products department will carry an instructive lesson to every person who will be able to inspect it, as the field in the dairy line at Houston is unlimited, as far as the products of the dairy are concerned, and each and every one is expected to be law-abiding and a word of cleanliness.

The canning club department will be one of the most interesting as well as instructive at the fair, as the government has made canning and conserving of fruits the one important necessity of today. Texas girls have availed themselves of the opportunity to do their part in that line by attending schools and colleges which have demonstrated departments in canning, and girls are now experts in that line, and Harris county, in which the city of Houston is situated, is doing her share, as the following clipping from the Houston Post will show:

"Eight girls, winners in the Harris county contest for the best canned and preserved fruits and vegetables, left Sunday for the Dallas State fair, where they will exhibit their products. They went as guests of the Chamber of Commerce, and were accompanied by Mrs. Annie E. Reid, county canning club demonstrator. The winners at the State fair will enter their products at the Texas Woman's Fair which will be held in Houston next month.

The girls who made the trip are Miss Zella Roberts, Miss Elfreda Hoyt and Miss Faith Poorman, all of Katy; Miss Millford Nash and Miss Lillian Rasch of Fairbanks; Miss Peary Schultz of Addicks; Miss Irma Schmitt of Bellaire and Miss Blanche Roberts of Pasadena.

The Mountain Sun, \$1.50 per year.

GOLDEN CROWN FLOUR

Peerless For Bread Biscuits and Cakes

THE HOME OF GOLDEN CROWN
The Reason Why You Should Use GOLDEN CROWN FLOUR:
1. It is unexcelled for making pure, wholesome bread, biscuits, cakes and pastry.
2. It is a pure, home product made from selected, some-growed wheat of the finest quality. By using it you are not only giving your sun-baked bread a special flavor, but you are also giving your own product a market for your own product or that of your neighbors.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

RANCH FOR SALE

18,000-acre ranch, about 8 miles southwest of Rocksprings. Well improved, and well covered with grass. Can be divided into three ranches. Easy terms. For further information address J. D. PEPPER, Rocksprings, Texas. 39-1f

Notice by Publication in Probate.

THE STATE OF TEXAS.

To the Sheriff or any Constable of Kerr County, Greeting: You are Hereby Commanded to cause to be published (in a newspaper of general circulation, which has been published continuously and regularly for a period of not less than one year in your County) at least once a week for two consecutive weeks previous to the return day hereof, copies of the following notice:

The State of Texas. To all Persons Interested in the estate of Annie Rotge, deceased, A. Joseph Rotge has filed an application in the County Court of Kerr County on the 8th day of October, 1917, for Probate of Will and for Letters Testamentary of the Estate of Annie Rotge, deceased, which said application will be heard by said Court on the 5th day of November, 1917, at the Court House of said County, in Kerrville, Tex., at which time all persons interested in said Estate are required to appear and answer said application, should they desire to do so.

Herein Fail Not, but have you before said Court, on the first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at Kerrville, Texas, this 8th day of October, A. D. 1917.

J. R. LEAVELL, Clerk County Court, Kerr County, Texas. 42-3f

IT HAPPENED IN KERRVILLE

And Is Happening to Kerrville People Every Week.

The case told below is not an uncommon thing. The same occurs frequently and will continue to happen as long as folks have kidneys and over-tax the kidneys.

T. M. Bradwell, retired gardner, Kerrville, says: "I suffered from kidney and bladder troubles for many years. Often I was laid up completely owing to the sharp, piercing pains across my back. The kidney secretions were highly colored and caused me much suffering. I was also subject to rheumatic pains. Doan's Kidney Pills brought quick results and one box cured me. I have recommended them ever since. I tried a good many medicines before using Doan's Kidney Pills but nothing did me so much good as they."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bradwell had. Foster-Milburn Co., Mfrs.; Buffalo, N. Y.

New Taxes Began Thursday.

Washington, D. C., Oct. 29.—The man in the street will feel added burdens of the war revenue tax Thursday. Some of the taxes going into effect on that day are:

One cent on each ten-cent admission to theaters, movies, Children under 12 years pay a total of one cent tax.

Eight per cent on passenger fares by rail or water, except on trips less than forty miles.

Three per cent on freight charges. Ten per cent for berths, staterooms and seats on parlor cars or vessels.

Ten per cent on club dues more than \$12 annually.

One cent on each twenty-five-cent charge for parcel post.

One cent on each telephone, telegraph charge.

Five cents on each telephone, telegraph and radio message costing fifteen cents or more.

Eight cents for every \$100 of life insurance.

By Saturday the new postal taxes will go into effect. Letters will carry three cents in stamps instead of two and post-cards will carry double the present number of stamps.

CATHOLIC CHURCH NOTES

BY FATHER KEMPER

On Wednesday morning, November 7th, at 7 a. m., there will be a Nuptial High Mass in St. Mary's Church to solemnize the marriage of Miss Ruth Mosel to Mr. Frank Nitsch of San Antonio. Particulars about the show-er given in honor of this bride by Miss Angeline Kemper will be given next week.

Last Sunday Father Kemper filled his semi-monthly engagement at Harper. Some of the Notre Dame pupils accompanied him on the journey.

This Sunday morning there is no appointment at any of the missions and therefore the local program will be as follows: First service at the Mexican Church, 8 a. m.; High Mass in St. Mary's at 10:15 a. m. No afternoon functions will be conducted owing to an engagement at Fredericksburg.

On Friday, Father Kemper was called to Petersburg, near Harper, to preach the German funeral sermon for Mrs. Joseph Jung, mother of Mrs. Max Grona. About two hundred relatives from Tivendale, Morris Ranch, Fredericksburg, Kerrville and Ingram were assembled at the private cemetery in this peaceful and neighborly settlement. Among some of the attendants were Mr. and Mrs. Arthur Mosel, Mr. and Mrs. August Mosel and their children, Hilmar, Edgar, Ella, Olga and Bertha; Mr. and Mrs. Chus. Kunz, Mr. and Mrs. Frank Klein and their son, Louis; Mr. and Mrs. Louis Jung and their three boys, Mrs. John Jung, Messrs. Anton, Jacob and August Jung, and Mrs. William Bierschwale.

Mr. Wm. Kaiser died on Monday after a lingering illness.

Six more students have recently enrolled in Notre Dame Institute. One of these is a young lady boarder at the Convent, Miss Alceutha Gillon of Sonora. Two of the remainder are young men from Lake Charles, La.

Mr. Arthur Lott, a brother-in-law of the Notre Dame caretaker, was here on Sunday for a brief visit.

Miss Ouida McCarthy, the first graduated nurse of the Kerrville Sanitarium, paid a visit to her Alma Mater on the eve of the formal opening of the beautiful annex. It was she that selected the room endowed by her home town, Bandera.

Mr. Frank Montague of Bandera was operated on for tonsillitis by Dr. Secor, and likewise Miss Charlotte Carpenter.

Notice to Customers.

On account of the greatly advanced prices on fuel and the small demands for day electrical current we are forced to cut out another day in each week. Therefore, beginning with November 1, we will run day current on Tuesdays and Thursdays of each week. KERRVILLE ELECTRIC LIGHT CO.

Notice to Customers.

This grocer's story surprises local people: "I had had stomach trouble. All food seemed to sour and form gas. Was always constipated. Nothing helped until I tried buckhorn bark, glycerine, etc., as mixed in Adler-i-ka. ONE SPOONFUL astonished me with its INSTANT action." Beca se Adler-i-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. SOCIETY

Miss Katherine King, Editor

On Friday, October 25, Mrs. Young entertained most delightfully in honor of her little son, Jimmy, who on that day had reached the major age of 6 years. The little guests arrived at 4:30 in the afternoon, each bearing a surprise packet for their little host. Pinning the tail on the donkey was quite a feature of the afternoon. Hans Gold received first prize and Peggy Peterson the booty. Various games were played and enjoyed 'till the little folks were ushered into the dining room, which, with its glistening table breathed the very essence and spirit of Halloween. A crepe paper lunch set richly besprinkled with witches, black cats, bats, owls and jack-o-lanterns, a real jack-o-lantern attached to the light over the table, from which flowed streamers in Halloween colors, the cake and the souvenirs all carried out to a finish the Halloween motif. The birthday cake, which formed the centerpiece, was a wonderful affair, completely covered with black cats and small candles, which each told a fortune; it was crowned by six bright little candles, and then inside—why there was the thimble, button and dime; but as to who cut these various things we may not tell. There were dainty souvenirs for each little guest, consisting of a tiny green and gold basket of candies and a little witch's broom. Most enjoyable and delicious refreshments of Jello with whipped cream, cake, cookies, nuts and candies were served and—well, it was just an all-around grand party.

The Christian Endeavor met last Sunday with Dora Johnston as the leader. The subject for the evening was "Ministry to Christ," and the leader was most ably assisted by Miss Laura Henke, Sam Sutton, Milton Gold and Dr. Diekey. The League much appreciated the compliment paid them by the High School Chorus, who rendered a most beautiful and appropriate song.

The Ladies Aid met last Thursday at the country home of Mrs. Richard Holdsworth. On account of the small number of members attending, the Bible Lesson was not discussed and the ladies knitted and chatted instead. Late in the evening most enjoyable refreshments of tamales and coffee were served. A few of Mrs. Holdsworth's neighbors were visitors at this Aid meeting.

The Tuesday Bridge Club was most delightfully entertained by Mrs. E. H. Goodell, at the St. Charles Hotel. Mrs. Wallace made the highest score and received a very dainty box of note paper as first prize. Miss Lucile Williamson has been admitted as a member to the club, in place of Mrs. G. Baker, who has resigned.

Mr. and Mrs. Frank Watters announced the marriage of their daughter, Annie, to Mr. Alfred Scoble, on Saturday, November third, one thousand nine hundred and seventeen, at Kerrville, Texas.

The Women's Club met last Saturday afternoon from 5 to 7:30 o'clock. All report a most enjoyable afternoon. Two or three visitors were present.

Dr. and Mrs. P. J. Domingues and Mr. and Mrs. J. L. Pampell spent Saturday and Sunday in San Antonio.

Mrs. E. H. Goodell is spending the week here, at the St. Charles Hotel.

Auxiliary Meeting.

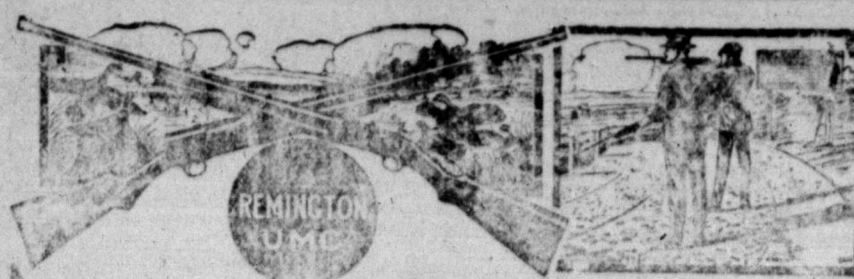

The Women's Auxiliary to the First Baptist Church will hold their quarterly Dollar Meeting at the home of Mrs. J. B. Riddle, Tuesday, November 6. The following program will be rendered:

- Song—"Help Somebody Today."
- Scripture—Mark 14:1-10.
- Prayer.
- Talk—"How the Woman Can Do Her Bit in the World-wide War"—J. B. Riddle.
- Piano Solo—Miss Newman.
- "How the Woman Can Do Her Bit in the Religious World."
- Round Table Discussion.
- Song—"Onward, Christian Soldiers"—G. A. Girls.
- Roll Call—Response with \$1.00 and Rhyme.
- Closing Prayer.
- Leader—Mrs. Deering.

Feminine Amenities.

Miss Ryval (triumphantly)—I suppose Jack never told you he once proposed to me?
Jack's Fiancee—No; he told me there were a number of things in his life he was ashamed of, but I didn't ask him what they were.—Boston Transcript.

REPEATING AND AUTOLOADING SHOTGUNS

If there is any one thing that a sportsman demands of a gun or a shell it is that it shall give him the full advantage of his skill.

The further along he gets in the game, whether at the traps or in the field, the surer he is to swear by Remington UMC—both in guns and shells.

Remington UMC guns work quicker than any man can aim, and shoot closely and evenly—"Arrow" and "Nitro Club" steel lined "speed shells" (mosses) cut down many a bird that would have gotten away from any of the slower makes of shell.

WHY THE LEAVES CHANGE THEIR COLOR

Washington, D. C., Oct. 29.—It requires no vivid imagination to picture Mother Nature going about these days with a liberal supply of paint with which she colors the leaves of the trees and other plants and thereby produces the vivid tints which characterize the foliage of this season.

In reality the change in coloring is the result of certain chemical processes which take place in the leaves. The change is not, as many people suppose, due to the action of frost, but is a preparation for winter. All during the spring and summer the leaves have served as factories, where the food necessary for the trees' growth has been manufactured. This food making takes place in numberless tiny cells of the leaf and is carried on by small green bodies which give the leaf its color. These chlorophyll bodies, as they are known, make the food of the tree by combining carbon taken from the carbonic acid gas of the air with hydrogen, oxygen, and various minerals supplied by the water which the roots gather.

In the fall when the cool weather causes a slowing down of the vital processes, the work of the leaves comes to an end. The machinery of the leaf factory is dismantled, so to speak, the chlorophyll is broken up into various substances of which it is composed, and whatever food there is on hand is sent to the body of the tree to be stored up for use in the spring. All that remains in the cell cavities of the leaf is a watery substance in which a few oil globules and crystals, and a small number of yellow, strongly refractive bodies can be seen. These give the leaves the yellow coloring so familiar to autumnal foliage.

It often happens, however, that there is more sugar in the leaf than can be readily transferred back to the body of the tree. In the case of the chestnut combination with the other substances produces many-colored tints varying from the brilliant red of the dogwood to the more austere red-browns of the oak. In coniferous trees, which do not lose their foliage in the fall, the green coloring matter taken on a slightly brownish tinge, which, however, gives way to the lighter color in the spring.

While the color of the leaf is changing, other preparations are being made. At the point where the stem of the leaf is attached to the tree, a special layer of cells develops which gradually severs the tissues which support the leaf. At the same time Nature heals the cut, so that when the leaf is finally blown off by the wind or falls from its own weight, the place where it grew on the twig is marked by a scar.

Although the food which has been prepared in the cell cavities is sent back to the tree, the mineral substances with which the walls of the cells have become impregnated during the summer months are retained. Accordingly, when the leaves fall they contain relatively large amounts of valuable elements, such as nitrogen and phosphorus which were originally a part of the soil. The decomposition of the leaves results in enriching the top layers of the soil by returning these elements and by the accumulation of humus. That is why the mellow black earth from the forest floor is so fertile. But if fires are allowed to run through the forest and the leaves are burned, the most valuable of the fertilizing elements are changed by the heat into gases and escape into the air. As a result, forests which are burned over regularly soon lose their soil fertility even if no apparent damage is done to the stand.

timber.—From the Forest Service, U. S. Department of Agriculture.

For Sale.

I have for sale on the Chas. Schreiner Live Oak Ranch, about 265 head of pure bred Angora Bucks; think as good as you will find, and will sell same very reasonable on account of the drought. Robert Real, Mountain Home, Texas.

Bitten by Rattlesnake.

Comfort News: On Friday afternoon Mr. and Mrs. Arthur Flach's four-year-old son, Arthur Jr., was bitten on the foot by a rattlesnake, while the child was playing in the garden near the house.

First-aid remedies were applied promptly. Dr. Jones was called, and the child was soon out of danger, though he was sick for several days. The snake was a very young one, being only about twelve inches in length. To this fact the child probably owes his life.

"For goodness sake, John, can't you check that furnace? Do you want to roast us alive?"

"One would think it mid-winter instead of early Fall."

"How foolish we were not to put up a Cole's Original Air-Tight Wood Stove for just such days as this."

"Why, my head is fairly splitting!"

"That wood stove will give us just as much or as little heat as we want this changeable weather."

"It holds fire all night and heats up quickly in the morning by putting in a fresh stick."

"And think of the furnace coal we would have saved—four or five tons at least—during the Fall and Spring."

"Talk about comfort—that is the way to get it."

It is also the best way for YOU to have it. Will you drop in and examine this "Quick Comfort" Heater?

"Cole's," the Original Air-Tight Heater, is sold only by us

CATTLE AND SHEEP RANCHES IN NEW MEXICO

New Mexico, the ideal range country for cattle or sheep, now offers to stockmen the final opportunity to buy desirable grazing lands at reasonable prices.

I offer exceptionally good grazing propositions in New Mexico at attractive prices to stockmen who are ready to do business now. These properties come in desirable, leased land, open range and in combinations; stocked or clear. They are well located and possess all the essentials of first-class stock ranches. They are both large and small and include a few very large properties.

perience and effort. But, as the highest nature and possibilities of man depend upon the relation of man to God as a person, as responsible, thinking and willing beings, it is evidently impossible that man could find out by his own effort what God thinks or purposes about his life and destiny. It is clear that, if man is to find out, God must tell him.

The real battle ground of religion is just this: "Has God told man what his will for him is?" The Atheist says, "There is no God and no will to reveal." The Agnostic says, "I don't know." The Christian says, "God who in times past spoke to us through angels and prophets, hath in these last times spoken to us through his Son."

That God has planned a Kingdom of Righteousness which shall realize to the full all the possibilities of man in body, mind and soul, and that he has actually been working through the ages of history, step by step, bringing nearer the realization of that happy promise. That he has a place in it for every man who willingly accepts his direction and obeys his provisions for entering into it.

It seems to me that, outside of the thought that God has such a plan and that he has actually given his Son to show it all to us and open the way for us to enter it, the most wonderful thought that ever entered a man's head or heart is that God has called us to be, not only Kingdom Members, but Kingdom Builders.

That is not only the statement of the text at the opening of this study, but it is the teaching of the whole passage to which it belongs and many others as well. We are not only saved from the penalty of sin and from the power of sin to hurt in the life that is to come, but we are saved to live Christ-like lives now and to be partners of God in bringing the plans and purposes of his goodness to the knowledge of men, of making it so real that men shall desire it, and bringing about among men such conditions that the Kingdom may be realized. God has a plan that takes in perfect physical health, perfect mental work and understanding, and such spiritual knowledge and action as will do away with vice and crime and impurity and oppression and selfishness, so that the brightest dreams of our hearts will be more than realized. But this is not going to be brought about by some earthquake miracle, but by the earnest, patient striving of his people to understand what he has told them, by humble surrender to the power he offers to overcome their own weakness and by the power of their teachings and testimony to their fellows.

God has infinitely honored man in making him responsible partner in the building of the Kingdom. For "To you it hath been granted in the behalf of Christ, not only to believe on him, but also to suffer in his behalf."

The Hope of the World.

Christ said, "And I, if I be lifted up, will draw all men unto me." It is the lifting up of Christ in the lives of his friends that is to convince and save the world, and is doing it.

Dr. Walter Rauschenbusch says that there are three motives which lead men to become Christians: The desire to escape hell, the desire to attain a perfect personality and the

desire to bring in the rule of God among men. The first two are self-centered and are, more or less, selfish. Neither of these motives are really dominant motives today in the world which we know, but our world is intensely interested in the welfare of the world. Many of our very strongest and noblest men and women are uncertain about what they know or believe about religion, but in their business or occupation are working unselfishly and with all their might to make this world a better place to live in. Doctors and nurses and scientists and lawyers and teachers and writers are working almost frantically to curb disease and crime and injustice and bring about the brotherhood of man. Today a million of the very best and most promising of our boys are cheerfully giving up everything they had hoped for and are offering their lives for this ideal: to make the world a safer and more just and happy place. They have caught one of the ideals of the Kingdom and are glad to fight for it. How immeasurably more joyous and confident and willing would they be if they were fully conscious that he had been called of God to do a necessary part in working with God to bring in his Kingdom? But it is not all to be done on such battle fields. God offers to every man who does any right and useful work, however hard or however small and commonplace, the inspiration of knowing that he is a citizen of a glorious kingdom of "rightness" and that he is a partner working together with God, in bringing this old world to willingly submit itself to all his law for its welfare.

To me, this is the thought that makes everything, any work, any suffering worth while; this is the appeal of the Gospel that fits the thought and need of our time, "Come and be partners with God."

Congratulates Building Committee.

To the building committee of the new addition of the Kerrville Sanitarium-Hospital: We wish to extend congratulations for the splendid manner in which the construction was handled, and we wish to publicly express our thanks of appreciation for the opportunity extended this company to handle the business and the expressions of satisfaction with our methods of serving the public.

We have made earnest efforts to establish a business reputation that will not be surpassed in Southwest Texas, and for the benefit of those to whom we have not had business dealings we wish to call your attention that we are in a position to furnish you material for any construction from a chicken coop to a ten-story mansion. PETERSON & MOORE LUMBER COMPANY.

Makes New Flight Record.

Paris, Oct. 31.—Nine flights in the course of a two hours' patrol flight is the record of Sergt. David McKay Peterson, of the Lafayette flying squadron. Sergeant Peterson drove one of his adversaries to earth. The German machine probably was destroyed.

Lieut. Raoul Lufbery has just been cited in orders for his fine work on October 26, when he drove down two German machines.

Free Lecture!

There will be a lecture at Pampell's Hall, November 6, at 7:30 p. m., by Dr. Scott Anderson on "War Clouds and Their Silver Lining."

The public is especially invited. Seats will be free, and a collection will be taken.

OUTDOOR SPORTS WILL BE MANY AND VARIED

AMUSEMENTS GALORE DURING TEXAS WOMAN'S FAIR AT HOUSTON IN NOVEMBER.

CHAMPION FOOTBALL GAMES

Rice Institute Eleven, Haskell Indians and A. and M. Teams Will Contest for Honors—Aquatic Sports, Etc.

The outdoor attractions to be staged at Houston during the Texas Woman's Fair week, beginning November 5 and lasting until November 10, will be many and varied.

Football games between the Haskell Indian team of Oklahoma and the Rice Institute eleven of Houston, and the Agricultural and Mechanical College team of Texas and the Rice Institute will be played.

Aquatic sports in a specially prepared pond and delightful diversions by the outdoor players will be interesting attractions.

Prizes will be offered local fishermen for the best catches sent in alive, and the aquariums of last year will be added to. Butterflies and birds will also be shown in collections, the educational idea being to make known everything there is to know of the nature products of Texas in uncultivated state. Along in this department will be staged the famous Atwater collection of Texas wild animals and birds, also Professor Atwater's collection of wool, silk, fiber, ores and an expert war weapons—a liberal education for the school student as well as the student of "real life" and, indeed, a real treat for all.

Houston has for years long been known as the city for winter sports, and there is hardly a Texan who does not remember some time or other in his life, if he has ever visited Houston, witnessing some event of importance.

Many great football games have taken place there, military contests, automobile and motorcycle races, marathon races, etc., and the people of that city are enthused with the spirit of outdoor sports, and there is hardly a week in the season but that some event of note is staged for the lovers of sport there, and all of high class, as the people are educated to the finer points of innocent sports.

Even the boys and girls of the various schools and colleges of Houston make it a part of their vocation to put on contests of a highly instructive and educational nature, and, taking it all in all, both young and old of Houston are ambitious lovers of all that goes to elevate and at the same time give innocent amusement to them. So visitors who attend the fair will not be at a loss to be entertained, as all the various outdoor and indoor amusements will be continuous during fair week.

Bands of music will be a part of all amusements, and patriotic airs and classical music will be dispensed by musicians who are artists in their line. Street music will be continuous throughout the week, and concerts and entertainments will be many.

The great army training camp at Houston will add its thousands of soldiers to the continuous and endless line of care-free people during the whole of fair week.

The various fair committees have arranged to make this the greatest fair of them all, both in an educational and amusement way, and that is guarantee enough to say that it will be carried out to the letter.

Mothers' Day.

Mothers' Day, to be held Thursday of fair week, will be classed "the big day of the week," as mothers not only of Houston but from all over the state are intensely interested in that day, and are working together to make it the crowning event of all previous mothers' fair days.

The war has made it necessary and the burden has fallen to the wife and mother as to no other member of the family to awaken to the needs of her immediate household, and she is now busily engaged in the duties that center her to make the best of the situation and to aid in an economical way to meet the situation.

The successful aid mothers have derived from the knowledge gained at the Better Babies Show has been proven and has opened a road for better and healthier babies as well as better and healthier mothers, and Mothers' Day this year will outdo all previous occasions of that nature.

The Mountain Sun, \$1.00 a year.

THE OLD SENTINEL

When the camps of commercial industry were first pitched in Southwest Texas, almost half a century ago, this house was one of the first in this part of Texas and is, in fact, the pioneer store of Kerr County.

Time has brought its changes in many things, but while this business has grown, and has prospered, the policy of the "House of Quality" has ever been the same.

Old faces have disappeared from behind its counters and in its offices, but new ones took their places and the business went on undisturbed. Old customers have passed away, and new ones, including their children and their grandchildren, have taken their places, but the policy of the house is the same today as it was when conducted in a little building of cedar palisados.

We appreciate the steadfast confidence the people have had in us, and have earnestly striven to merit that confidence. That we have succeeded in a large measure is evidenced by the great growth of the business.

We offer you the same service, the same quality, the courteous treatment today, and the same full value for your money that has marked the course of the business from its founding. You are always welcome at the store of

THE CHARLES SCHREINER COMPANY

"The House of Quality"

PRESIDENT URGED TO CALL SPECIAL CONGRESS SESSION

New York, Oct. 31.—President Wilson was urged to call a special session of Congress at an early date to declare war on Austria in a resolution adopted by the Board of Trustees of the American Defense Society at a special meeting here today.

The resolution further urges the transportation to Italy of a contingent of American troops and war material, using all ships possible, including seized Austrian ships for the purpose. It sets forth that "the complete defeat of Italy's armies will endanger her national existence and imperil the issue of the war for democracy," and that "to preserve Italy's existence and to maintain her efficiency as a fighting force immediate moral, military and economic aid from her allies is imperative."

The resolution declares that "German agents throughout Italy have tended to emphasize the fact that the United States has never yet seen fit to declare war against Austria-Hungary, Italy's great and neighboring enemy" and that "it is patent to the entire world that the German and the Austrian troops are working as a unit for the same end which America has declared she will not endure."

A copy of the resolution was telegraphed to President Wilson.

Prior to its adoption the trustees of the society adopted a motion which declared that an inconclusive peace would be an insult to those who have fallen in the war, and a "betrayal to the living."

The sending of an "overwhelming force" to France because, it says, "the more men we send, the fewer will be slain," is counseled in the minutes which declare that, considering the great numbers of men poured into the war in the last three years by England and France, the sending of as many as 10,000,000 would be no more than this country's proportionate share.

The minute urged that Congress at its next session be asked to declare that a state of war exists also between the United States and Bulgaria and Turkey.

Knox-Monroe Wedding.

Galveston News: Miss Edna Monroe, daughter of Mrs. Mary A. Monroe, and John Bates Knox were united in marriage last Wednesday morning at 10 o'clock in the Westminster Pres-

byterian Church of San Antonio, Rev. S. W. Griffiths officiating.

Miss Monroe was given in marriage by C. E. Sallman, and Mrs. C. E. Sallman, the only sister of the bride, was matron of honor. F. L. Dix, a cousin of the bride, was best man.

The bridal party entered the church to the music of the wedding march from "Lohengrin," played by Miss Stella Huffmeyer and retired to Mendelssohn's recessional. Immediately preceding the ceremony Mrs. A. Hays sang "At Dawning."

The bride was attired in a Barbrundy coat suit with large black velvet hat and wore a corsage bouquet of bride roses. Mrs. Sallman wore silver-gray taffeta and carried Killarney roses.

The bride is a San Antonio girl having spent her school days in that city, and recently returned there from Galveston, where during the last year she occupied the position of assistant superintendent in the Nurses' Training School of the medical department of the University of Texas.

The bridegroom is a son of Mr. and Mrs. Robert A. Knox, a prominent family of Lee County, and is a nephew of Mason Williams of San Antonio.

Immediately after the ceremony the young couple left for a camping trip among the springs and hills near Kerrville, Texas.

Out-of-town guests were Mr. and Mrs. A. A. Knox and Miss Grace Knox of Kennedy; Lawrence Mason Knox of Dime Box, Tex., and Miss Frances MacLaran of Galveston.

Mr. and Mrs. Knox will be at home after November 1, at Giddings, Tex.

Mrs. Knox has visited Kerrville several times and has a host of friends who will read the above with much interest.

Frost Fails to Damage Onions.

Laredo, Tex., Oct. 31.—While frost is reported to have visited the country within ten miles of Laredo last night, none fell in the great onion-growing section of North Laredo. About two weeks ago the first frost came and did slight damage to potato vines but these have recovered from the effects. No damage has been done so far to the onion seed beds in this vicinity; in fact, frost cannot do any damage this crop even when it is in embryo state.

Well shelves for light of beer patented that are attached to suspended from picture m

SAYS GERMAN LOSSES ARE NOW SIX MILLION MEN

Washington, D. C., Oct. 30.—Germany lost six million men in the three years of war, according to a declaration made in the Reichstag by the Independent Socialist Ledebour. A report of his speech reaching Washington through Switzerland states that contemplating the prospects of a fourth winter campaign the Socialist leader said:

"You have not, evidently, gentlemen, an exact conception of what war means. We have had 1,500,000 dead; three or four million wounded, of whom 500,000 are crippled for life, and two million absolutely invalidated. That makes altogether six million men lost during three years."

It was stated that official information confirmatory of these figures have been in possession of the American officials for some time.

Conditions Normal in U. S. Sector.

With the American Army in France Oct. 31.—Conditions in the sector in which the Americans are stationed were normal today. The artillery work continued. The weather was showery and much colder.

For the last two days there has been considerable observation; late yesterday three German planes flew over the American trenches.

So great is the enthusiasm among the Americans to go on patrol that the French commander has ordered that none of the higher grade officers perform other than their regular duties. It is the duty of the junior commanding officers and the non-commissioned officers to go with patrols, but the officers of higher rank such as majors were anxious to go out.

The quartermaster now has supplies for several days within reach of the American position as a precaution against any transportation difficulties with the bases.

Trespass Notice.

Notice is hereby given that any one hunting or otherwise trespassing on the Fritz Karger place, northeast of town, will be prosecuted. 45-8td
