

# THE MESSENGER

HAGERMAN, CHAVES COUNTY, NEW MEXICO, THURSDAY, AUGUST 28, 1930.

NUMBER 37

Hagerman—Where the spring with healing in its waters is located.

## ∴ DEXTER NEWS ∴

### COMMISSION SETS THE VALLEY GINNING RATE AT 40 CENTS HUNDRED

Standard ginning rates of 40 cents on cotton and 45 cents on boll and snap cotton for Pecos valley ginneries have been established as the result of Thursday's ruling at Santa Fe by the state corporation commission.

A hearing for set rates was held here on August 6th by Commissioner Hugh Williams when arguments were presented by ginneries for and against the measure.

Rates had varied in the valley from 35 cents to 50 cents before the new ruling was passed.

Miss Helen Richards has arrived to be on hand for the opening session of school. Many happy married couples will owe the serenity of their matrimonial seas to the fact that Miss Richards taught the prospective brides how to cook.

### 512 REGISTER HERE DEXTER RECORDS 604 INCREASE OVER 1928

The large number of voters registering in this district gives evidence of a great deal of interest in the coming election. Both Hagerman and Dexter recorded over a hundred names more this year than in 1928, with a registration at Hagerman of 512 compared to 407 in 1928, and a roster at Dexter of 604 against 479 in the previous registration. In 1928, the Hagerman vote counted 323, and the Dexter vote 373.

There are about 750 men and women of voting age in the Hagerman district, so that means that a large number failed to register in spite of the continual reminders in the paper and elsewhere, but the number registered is very gratifying. Chaves county registered over 8,000 voters as a whole. This is about 500 more than registered in 1928, but the vote in the general election is expected to be larger by far this year.

### BEASLEY MANAGER

Howard Beasley has been selected to manage the powerful baseball team which Lake Arthur has assembled to turn loose on the Hagerman diamond this coming Sunday afternoon at 2:30 p. m. Defeated in four previous attempts to win over the locals, Howard feels that his rejuvenated nine will be able to turn the trick in this next meeting. A number of wild rumors have been circulating in this regard to the reputed strength of the invading nine. Hagerman fans are confident that several strangers will be gracing the Lake Arthur line up since three of Artesia's performers are already signed up for the fracas. Banded with two from Cottonwood and possibly one from Dexter, the lads to the south should have quite a ball team.

### NATIONAL RADIO AUDITION

Any one interested in the 4th National Radio Audition by Atwater Kent Foundation, should either write, or call Mrs. J. C. Martens, 609 S. Lea Street, Roswell, local chairman for this locality. This contest is open for any amateur vocalist between the ages of 18 and 25, both boys and girls. Each contestant must be prepared to sing three songs if necessary, and if possible should furnish their own accompanist, if not some arrangement must be made with the local chairman. The date and place for this contest will be announced in the near future. Mrs. Martens is particularly anxious to have a talk with any eligible contestant.

### G. P. A. SESSION TO BE A TRI-CITY AFFAIR

The Eddy County Game Protective Association meeting to be at the municipal beach next Thursday has developed into a tri-city affair. Representatives of the Roswell and Artesia associations will attend, Roy Carey, secretary of the Eddy county organization, learned this morning from Artesia.

The Roswell and Artesia associations had been dickering for a joint meeting and then both decided to come to Carlsbad for the session here Thursday night. Mr. Carey learned this morning from M. W. Evans, secretary of Artesia association.

W. A. Losey of Hagerman a member of the state fish and game commissioners, will be one of the principal speakers at the meeting, and subjects of importance to all sportsmen of the Pecos valley will be discussed.—Current-Argus, Tuesday.

Barney Moore of Amarillo, was looking after business matters in Dexter and Hagerman Thursday.

The boys who have been in Las Vegas, with Battery A, for the past two weeks returned home Monday.

Mrs. L. C. Johnson and daughter of Marfa, Oklahoma are visiting friends and relatives in Dexter this week.

Mrs. Luther Carraway and small daughter, of Sweetwater, Texas, arrived Saturday for a visit with the J. E. Senn family.

Miss Grace Stanley left Monday for Denver, for a few days visit with friends, before she takes up her teaching for the winter.

Miss Flora Reese will leave Saturday for Tularosa, where she will have charge of the English department in the high school this winter.

Mrs. R. G. Pollock, Miss Blanche Pollock and Harry Carver who have had a delightful summer in California with friends and relatives, returned home last Wednesday.

Mrs. H. C. Garrison, who has been in St. Mary's hospital for the past ten days, following a major operation, was removed to her home last Thursday evening.

Miss Alma Thompson and mother will arrive Saturday from Wisconsin, where they spent the summer. Miss Thompson will have charge of the music department in Dexter school again this winter.

Mr. and Mrs. P. N. Albright and son, Joe returned home Monday from Tennessee, where they spent the summer. Mr. Albright having taken summer work in the University of Tennessee, and Mrs. Albright visited relatives at Baxter.

Mr. and Mrs. O. B. Berry and their house guests, Mr. and Mrs. L. A. Pritchard and daughter, of Oklahoma City, are spending a few days in the mountains. They will return the last of the week.

S. C. Bybee and George French of Roswell, were transacting business in Dexter Wednesday.

Lawrence McCoy, of Big Spring, Texas, is visiting friends in Dexter this week. Mr. McCoy was manager of the Roberts farm east of town for a few years, and has many close friends in this vicinity, who are very happy for another visit with him. Mrs. McCoy was taken last June, when their little daughter arrived.

Mrs. Robert Miller, who has been the house guest of Mr. and Mrs. Raymond Durand, left Saturday morning for Roswell, where she joined Colonel and Mrs. Andrews, and went to Dr. W. T. Brown's ranch, "Dos Vitas," near Valmore, where they will spend the week end. Governor and Mrs. Dillon will be among the guests at this house party. Mrs. Miller will then spend a few days at Las Vegas, before she takes up her duties as supervisor of music in the Maxwell school.

### A. E. HATCH FARM SOLD

A deal was consummated last week by which the A. E. Hatch farm, one of the best in the Pecos valley was traded for El Paso property. We are very pleased to state that Mr. Hatch made such a fine deal, but sorry to lose this fine family from our vicinity. Mr. and Mrs. Hatch and children will leave soon for El Paso, where they will make their future home.

### WILL YOU TELL

Our advertisers, please, that you noticed their advertisement in The Messenger.

## CHURCHES

### Presbyterian Church

"To testify the Gospel of the Grace of God"

#### NEXT SUNDAY

Sunday School ..... 10:00 a. m.

Bells ring 9:15 and 9:45 a. m.

Morning Worship ..... 11:00 a. m.

Subject of Morning Sermon: "A Friend of God."

"All that I could never be  
All men ignored in me  
This I was worth to God  
Whose wheel the pitcher shaped."

JAMES A. HEDGES, Pastor.

### METHODIST CHURCH

Sunday school at 9:45 a. m. E. A. Paddock, Superintendent.  
Morning worship 11:00 a. m. Rev. Harold Dye will preach at this church at the morning hour in absence of the pastor. You will enjoy his message. He will appreciate your cooperation.

Epworth Leagues at 7:15 p. m. Union services at 8:00 p. m., at the school house lawn.  
Rev. J. A. Hedges will bring the message. Welcome to all services.  
BRYAN HALL, Pastor.

### CHURCH OF THE NAZARENE

Sunday school 10:00 a. m., Rev. Walter Orr, superintendent.  
The revival meeting will continue the rest of the week and we need the help of the christian people in Hagerman if we do anything for God and the lost in our town.  
Services: Morning prayer meeting

Owen Phillips of El Paso was in Hagerman Wednesday.

Mrs. Ernest Bowen and son, Junior attended the First American in Albuquerque.

Mr. and Mrs. Wm. McAdoo were in Hagerman Monday en route home to Carlsbad from a business trip to Denver.

Mr. and Mrs. Dub Andrus returned Saturday from El Paso and Jauruz, where they spent the second week of their vacation.

Mrs. Helen Cumpsten returned to her home in Clovis last Sunday after having visited a week here with her daughter, Mrs. B. W. Curry and son, Robert W. Cumpsten.

at sunrise.  
Morning service 10:00 a. m.  
Evening service 8:00 p. m.  
We entreat you in Jesus' name to come to any and all of these services which will probably close Sunday night. Rev. Lowery is doing some good preaching and declaring the whole counsel of God.  
MARY I. HARTLINE, Pastor.

### THE CHURCH OF CHRIST

The Church of Christ meets for worship every Lord's Day at 10:45. Elder McGuffin preaches every second Sunday. Everyone is invited to attend these services.

### UNION SERVICE

Rev. J. A. Hedges will preach at the union services next Sunday evening. Everyone should come to this service as it will be the last of the season.

Mr. and Mrs. Clifford Hearn were week end guests in the D. L. Parker home at Roswell this week.

The members of the Presbyterian Sunday school will enjoy a picnic Thursday night on the F. D. Mitchell lawn.

Mrs. I. V. Cook, a former resident and teacher in the Hagerman school left for her home at Abilene, Thursday after a week's visit here.

A course in Hebrew is now included in the curriculums of New York and Chicago schools.

Messenger want Ads pay.

### TEXAS AND OKLAHOMA CAPITALISTS INVEST MILLIONS AT HOBBS

Oklahoma and Texas capital to the extent of approximately forty million dollars has been invested or is being used in the development of the resources of Hobbs section of New Mexico at this time. It is predicted by oil men that the entire state of New Mexico will be explored as rapidly as is logical and possible now that outside capital is becoming acquainted with the latest possibilities here. If this is true New Mexico will in all likelihood assume an air of prosperity during the next five years which will exceed the expectations of the most optimistic of six months ago.

Lea county has become the entering wedge for the introduction of new capital to the state and that the county has not proved a disappointment is reflected in the great amount of activity there.

### HAGERMAN SCHOOLS TO OPEN SEPTEMBER 1 FIRST DAY IMPORTANT

Hagerman schools will open next Monday, September 1st, and it is very important that all students be present. According to Superintendent White, the prospects are flattering for an unusually good term of school another year. Very few changes have been made in the faculty. Only two of last year's teachers will not be here this year. One of these is C. H. Barnett, who has accepted a position as long distance lineman for the Mountain States Telephone and Telegraph Company at a substantial increase in salary. The other vacancy in the faculty was caused by Miss Mary Davis, who has forsaken her duty as school ma'am to become happily married to a loving and obedient husband.

The faculty this year is composed of: Superintendent White, who is beginning his eleventh year as superintendent; Miss Pearl Richards, principal of the high school; R. N. Thomas, principal of the grades; D. W. Hulet, of the agricultural department; Miss Helen Richards, of the home economics department; Raymond Welborn, of Housonia, Missouri, of the mathematics department, and coach; Miss Sylvia Gatignol, of the foreign language department; Miss Jessie George, English; Mrs. Floyd Childress, music and art; Miss Nora Clemons, 7th grade; Miss Nellie Burt 6th grade; Miss Clyde Pearce, 5th grade; Miss Rosalie Bardsell, of Nacogdoches, Texas, 4th grade; Miss Renalee Banta, 3rd grade; Miss Lucy Pettigrew, 2nd grade; and Mrs. S. B. Palmer, 1st grade.

A few new rules and regulations have been promulgated by the state board of education which will be explained the first day. They apply more especially to high schools. Supt. White says that the teachers should be on hand at the superintendent's office Monday morning at 8:00 a. m. Pupils should be in their respective rooms at 9:00 a. m. for enrollment and securing lists of books for their respective grades, after which pupils will be dismissed in order to give teachers time to discuss with the superintendent organization problems.

Books may be had at the McAdoo Drug Store which is now located in the building recently occupied by the Lawing Market.

A group of Montezuma College representatives took dinner in the Harold Dye home Friday. In the party were Mrs. A. B. Clark, of the faculty, Steve Beck and Miss Ina Cole, students, and Miss Madge Brown.

Rev. and Mrs. Bryan Hall left Monday morning for Gallup with Rev. and Mrs. H. L. Thurston of Abilene. Mr. Thurston is a brother of Mrs. Hall's. The group is intending to attend a family reunion at Gallup.

Mr. and Mrs. Earl Johnston and daughter, Ruby Jean, of Mills, N. M., and Mrs. W. E. Gibbons, and three small sons of Portales, New Mexico, were callers at the Harold Dye home Thursday and Friday nights. Mr. and Mrs. Johnston and Mrs. Gibbons were members of a former church pastored by the writer.

Friends of Miss Mary A. Davis will be interested to learn of the announcement of her marriage to Mr. L. Wilbur Mowry at Silver City last month. Mr. Mowry graduated from State Teachers College this summer and following their marriage they spent their honeymoon in Kansas. Mr. and Mrs. Mowry will make their home at Cliff, this state, where Mr. Mowry will teach.

### SANATORIUM TO OPEN OFFICIALLY SEPT. 15 52 ROOMS IN BUILDING

The Hagerman Mineral Wells Company will open officially to the public on September 15th, it was announced to-day by T. E. Dollahan.

The fifty-two room health resort will be one of the most beautiful spots in the valley and is already attracting inquiries from health seekers throughout the south. Several apartments have been rented as a result of sign board advertising from here to Amarillo, at intervals on the highway.

At present, Dr. Ramsey, electric masseur and Mrs. Duffy, women's nurse, are averaging twenty-five treatments each week. The mineral water is being sold by the five gallon bottle in many towns. Roswell uses 55 gallons daily. When it is remembered that the advertising work is just beginning, these results look very favorable.

The buildings are of frame stucco construction with a rough finished wall that is very pleasing to the eye. They are built around a square with an open court in the center made beautiful by grass and flowers. A fresh water swimming pool is another feature of the grounds that is proving popular with the visitors.

The buildings are equipped for light house keeping as well as for single rooms with dining room facilities. Men's and ladies' bath houses are fitted with three tubs each and showers. The baths are given under expert care. It has been necessary already for a larger hot water tank of 240 gallons capacity to be substituted in place of the smaller tank that has been in use.

Prospects are good for Hagerman to become the ideal health center which will draw people from over the entire United States.

## SOCIAL ITEMS

### ZONE MEETING

A Methodist Zone meeting was held in the Paddock grove Friday the 22nd, at 2:30 p. m.

The meeting was called to order by Mrs. E. A. Paddock, chairman. The song "Jesus Calls Us," was sung. Devotional was led by Mrs. W. C. Buchly of Roswell and a prayer by Mrs. Johnson of Dexter.

Welcome address was given by Mrs. Bryan Hall of Hagerman, the response by Mrs. J. C. Martens of Roswell. Minutes were read by Mrs. W. F. Phillips of Dexter after which election of officers was held: Mrs. J. I. Hinkle of Roswell was elected chairman of the zone and Mrs. Edmond McKinstry of Hagerman, was elected leader.

Mrs. Dan Wilmot, of Roswell, made a talk on "Social Service," and Mrs. L. R. Burck of Hagerman gave an interesting talk on "Africa." Mrs. Paddock told of the "Social, Economical and Religious Conditions of Africa."

Following this Mrs. J. C. Jones gave a talk on the district work here. After a song, a social hour was spent. Refreshments were served to about forty-five ladies by the Hagerman Auxiliary.—Reported.

### L. C. CLUB TO MEET

The L. C. Club will have its first meeting September 11, with Mrs. Sanders.

Mrs. Perry Sears and son, Bobby came down from Capitan Monday and made a short visit here with relatives, the W. A. Losey and J. E. Wimberly families. Mrs. Sears will teach in Capitan high school this year.

### DALLAS DOCTOR MEETS DEATH IN CAR CRASH NEAR CARLSBAD SAT.

Dr. Leland C. Ellis, prominent physician of Dallas, Texas, died at a Carlsbad Sunday from injuries suffered in an automobile accident on the Carlsbad Cavern highway Saturday. A car driven by John Low, shepherd, struck a rock in the highway and swerved into the Ellis car.

Mrs. Ellis, their two sons, and Dr. Ellis' father also were slightly hurt but were able to start back to Dallas Sunday. Two consulting physicians called to Carlsbad from Dallas arrived about an hour after Dr. Ellis died.

TIME TWENTY-NINE

HAROLD DYE, Managing Editor

## AL CAPONE—KING OF THE U. S.

A recent dispatch from Washington, D. C. reports that Al Capone has again reached his throne of King of Hoodlums and that it took him just five months to do so after a year spent in jail during which time his racket was disorganized.

A writer in a small western town can hardly realize the difficulties facing the eastern authorities in the matter of the huge gang problem, but on the other hand, being far removed from the scene of the battle front, he can get a disinterested view of the matter. It appears to us that Al Capone has the entire United States buffaloed.

We boast that we can lick any nation under the sun, and we can, but if we continue to let a cancer with its root in the ruthless gangs of organized criminals eat into the very heart of our civilization, the day will come when we cannot fight as a nation because internal warfare has broken our power. Having such military power, why cannot we control our own pests? These underworld lice are open breakers of the law. If we are too effeminate and chicken hearted to put them in jail and to send them to the electric chair, why don't we deport them? We could do that without stretching any law out of bounds.

We eulogize our inventions, but we cannot invent a way to circumvent the activities of these great, black leeches of the underworld who are sucking the blood of our society and have already overturned the bulwarks of our law.

We have been content to watch the authorities seize a few hundred thousand dollars of the great beer king's money, as represented in his stills, and we pat them on the back. It may be that that is all that the present authorities can do, and if it is, the sooner state and national militia are called upon to solve the problem, the better. In our opinion, the time has come for such action.

We of the west feel that we are isolated from the gangs, and consequently are little bothered by their existence. But the great octopus is stretching his tentacles even to the confines of our frontier, and he must be killed.

Hasten the time when we can crush Al Capone, and all that he represents.

## ERRATIC TEXAS

Outsiders who have labored under the idea that Texas went republican in the last national election are now trying to make a new estimate of that erratic state. It was merely a matter of anti Al Smith, not pro Hoover. The number of votes polled in Texas' recent democratic primary was the greatest in history. Tom Love was given credit for throwing the state vote to Hoover and it has been supposed since the election that he carried Texas' vote in his pocket. He made the race for governor last month and received 50,000 votes out of a total of 830,000. Poor consolation for Hoovercrats and less for Love. Texas has a way of tantalizing republicans once in a while thataway. About twenty-five years ago, Starr county, down in that chili belt toward Brownsville, sent a mighty pleasant gentleman to the legislature at Austin and it developed that he was a republican. Appreciating the oddity of the situation, the members of the house elected him speaker. Just how and why Seabury happened to get elected was a matter of no little conjecture, Starr county having been the first Texas bailiwick to go republican since the days of reconstruction. Fifteen years later, the Dallas News editorially explained away that mystery—Starr was the only county in the state that did not possess a bath tub.

## 6-HOUR DAY COMING

"Whether we like it or not, there's going to be a reorganization of labor conditions and one of the things sure to come will be a 6-hour day and the 5-day week," United States Senator Royal S. Copeland told members of the New York City Kiwanis Club at a luncheon recently.

Senator Copeland estimated unemployment in this country at "at least 2 million, and possibly 10 million," and urged a campaign to encourage home-building and "solve 100 economic ills," induced, he said, partly by the following conditions:

"Many families have been led to purchase too many articles on the installment plan; the federal reserve bank releases too much money for use in gambling in Wall street and thus encourages this present breakdown, and branch banks and chain grocery stores do not serve the community as the other small banks and independent merchants did."

In just a couple more months we will be wondering how in the world some of the men with such black records ever escaped the penitentiary, and how others failed to be translated into heaven like Enoch was in a day long past.

Well, well, well! Ma Ferguson lost out. This comes as a surprise to us, because we had figured that she had pardoned enough convicts to elect her. Just shows how a person can get fooled.

A northern correspondent informs us that the biting season is well advanced with the blackflies and mosquitoes again displaying more energy than the fish—Hamilton Spectator (Ontario).

A noted engineer says humanity is in the grip of steel, someone having forgotten to tell him that women have shaken the old corset.—Dayton (Ohio) News.

After our first summer picnic we are convinced of our attractive personality. A million chiggers can't be wrong.—Florence (Ala.) Herald.

The thermometer went above 110 in some places and a lot of people joined the church.—Florida Times-Union.

Some people know how to make such good excuses that they don't try to do anything else.—Fort Worth Star Telegram.

## NUMBER UNEMPLOYED PLACED AT 2,508,151 BY APRIL CENSUS COUNT

WASHINGTON, D. C.—A total of 2,508,151 able-bodied Americans, comprising two per cent of the country's total population, were listed recently by the census bureau as unemployed last April and looking for work. The total was announced on the basis of preliminary returns from every section of the country. The bureau explained that six other classes of unemployed were not included in the present total, but added that those without a job, able to work and looking for a job, unquestionably constituted the bulk of those to be listed as unemployed.

Because tabulations have not been completed on the number of persons now gainfully employed, a definite comparison was not available. The bureau estimated, however, employed would approximate 40 per cent of the total population. This would bring the number idle to approximately five per cent of the normally employed population.

By states, the percentage of job seekers ranged from 0.5 in South Dakota and Mississippi to 3.2 in Rhode Island and New Jersey and 3.3 in Michigan.

The other classes to be covered by the unemployment census include those having jobs but laid off without pay; persons unable to work; those having jobs and voluntary idle and vacationists and others drawing pay but not at work.

At Maryville, Tennessee, as E. B. Adkins, a barber, was dying he requested that he be buried in a barber's suit and white shoes. His request was fulfilled.

## Hubby's Housework

Well—I for one believe a man  
Should help his wife when'er he can.  
I think a man's a poor old fish  
Who won't, for instance, wash a dish!  
To wash a dish is not a job  
To make a fellow whine and sob,  
But many fellows start to yelp  
Whenever they are asked to help!

Nor should it fill a man with gloom  
To tidy up the living-room.  
And furthermore, he shouldn't balk  
To take the broom and sweep the walk.  
The boys who balk are those afraid  
Some one will think that they're the maid!  
Or else they fear the neighbors think:  
"Just look at Brown—the poor old gink!"

Whereas, in fact, the neighbors cry:  
"Hoo-ray for Brown—the good, old guy!"  
At least, the wives proclaim that he  
Is like ALL hubbies ought to be.  
And I proclaim that all through life  
A married man should help his wife,  
And gladly too, at every chance—  
But, through it all — SHOULD WEAR  
THE PANTS!

By Dr. L. D. LeGear, V. S.  
St. Louis, Mo.

### How to Raise Poultry

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice, on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and popular lecturer.

## BLACKHEAD; TURKEY RAISERS' BUGABOO

The bugaboo to turkey raising is that dread disease Blackhead. The name itself is misleading, for it does not describe a symptom. In other words the head of the turkey does not necessarily turn dark or black. First we must get clearly in mind that there is no cure for Blackhead. That is a hard thing to say, but it is true nevertheless. Someone bobs up every day with a new "cure" and we are glad so much interest is being manifested in the subject. The day will come perhaps when a real cure will be found. But right now we are interested in a far more valuable movement, that of preventing blackhead. For after all prevention is the best cure in the world.

Blackhead is an infectious disease. It is caused by a germ that affects the liver and the blind gut or caeca. If you have a microscope that will magnify several hundred times you may see that germ. But you don't need glasses even to see its effect, which is more important.

Young turks are more susceptible, although it affects the grown as well. The germ enters with the food and is found in infected ground, where droppings from birds that have had blackhead or droppings from chickens, contaminate the soil.

The blackhead germ attacks the liver first and from the diseased tissues of the liver these germs pass through the bile duct and into the intestines, from whence it completes its deadly circuit by returning to mother earth via the droppings.

It takes from ten days to two weeks for the disease to show itself after infection. The greatest source of danger of course is for the young turkeys to run with chickens or to be exposed to older birds from flocks that have had the disease, and on ground that has been contaminated. That is about as close to turkey suicide as you can come.

But even on fresh ground, if the young birds are allowed to be with the older birds that are infected the danger may be almost as great. Young turkeys have ravenous appetites. They pick at everything in sight. Fresh contaminated droppings contain the blackhead germ in its liveliest, most dangerous stage.

To show you how insidious the disease is, turkeys have been known to contract blackhead when placed with incubator chicks. Infected ground that has been plowed and seeded has been known to carry the lurking danger. Hens are carriers of the parasite and when allowed

to roam with turkeys may infect them. Your boots will carry the germ from infected ground into the new, fresh yard.

It is easy to spot the first appearance of the disease in a flock if you are at all observant. When poults appear lazy and lag behind the rest of the flock, look out. They are not lazy at all, but ailing. As this weakness grows they take on a droopy appearance. They walk with slow, measured tread, head down and wings carelessly dangling. Loss of appetite and weight are the inevitable results.

In the adult turkey the symptoms are practically the same except that they do not appear as quickly as in the young birds. And they die in a few days after you note they have it.

Put your flocks on clean, uncontaminated ground, clear away from your other poultry yards. Above all keep your turkeys away from your chickens. Don't make the mistake, for instance, of building your brooder house with a cement floor so that it can't be moved. You want that brooder house as far away from the farm buildings as possible. It's a splendid thing to give growing turks a change of ground and pasturage every few weeks. Alfalfa and sweet clover or a plot of rape that is away out on the farm is the finest thing in the world to prevent blackhead during these dangerous early growing weeks.

### Fantastic

## DEPT. OF AGRICULTURE FORECASTS ADVANCE IN PRICE OF CATTLE SOON

WASHINGTON, D. C.—The agriculture department said Tuesday that prospects favored a "material advance in cattle prices in the next twelve months."

A report issued through the bureau of agricultural economics said market supplies of cattle during the next five or six months probably would be about the same as a year ago but the supplies during the first half of 1931 were expected to be smaller than in 1930.

Demand for stockers and feeders this fall will not equal that of last year—and for that reason slaughter is likely to be somewhat greater, the report said.

"Prospects favor a continuation of low imports of both live cattle and calves and of fresh and frozen beef and veal. Consumer demand for beef probably will improve somewhat in the next six months with the advent of cooler weather, especially if there is an improvement in industrial activities. Prospects favor a material advance in cattle prices in the next twelve months."

## GAME ASSOCIATION TO MEET AT ALBUQUERQUE

Sportsmen of the entire state are waiting with interest the sixteenth annual convention of the New Mexico Game Protective Ass'n. which will be held in Albuquerque, September 1 and 2.

The Albuquerque association, host to the convention, is making elaborate plans for the entertainment of delegates. It is expected that over two hundred delegates will be present from the 47 local associations in the state.

The Franciscan hotel will be the headquarters and the convention will be held in the large Indian Room, which will be decorated with mounted heads and trophies of the hunt for the occasion.

While entertainment plans are still tentative, the first day will be featured with six reels of field and stream pictures at the Sunshine Theatre, and a huge rally at night to be held in the First American grounds.

"If possible, the convention will be brought to a close at noon of the second day so as to enable members to return to their homes that night.

The New Mexico G. P. A. has been growing rapidly in the past year and it is expected that this will be the largest and most enthusiastic annual convention of its sixteen years of existence.

Among the speakers will be representatives of sheep and cattle growers, forest service, biological survey, state game commission and others.

### How Science Aids Life

A company is being formed in Ontario for the manufacture of acetylene, oxygen, hydrogen, nitrogen and other gases.

A portable blowing unit has been designed to cool the interiors of refrigerator cars before they are loaded with fruit.

Portable signals that can be moved to where they are most needed to control street traffic have been adopted by Paris.

### CURRENT THOUGHT

The Red menace, is just a form of bad manners.—Secretary of War Hurley.

America has made fetish of college education.—President Lewis of George Washington university.

Knowledge doesn't amount to anything; it is achievement that is important.—Henry Ford.

The only way some women seek to elevate themselves is to wear high heels.—A. M. Carothers.

We should confine our best opportunities to our best students.—Secretary of Interior Wilbur.

We need not believe in peace blindly, but we must believe in it profoundly.—Dr. Nicholas Murray Butler.

The glider opens a new field for aeronautical development. It places flying within the reach of all.—Charles A. Lindbergh.

The man of fifty has usually come to terms with the world and the devil and is suffering from fatty degeneration or sclerosis of the conscience.—Denn Inge.

## SETH ALSTON FOR STATE LAND CHIEF

A large meeting consisting of the business men, both republican and democrat, of Lea county, was held at Lovington Saturday night, August 16, to urge the candidacy of Seth Alston of Lovington for State Land Commissioner. The organization was effected with J. S. Eaves as president, and J. L. Reed as secretary. The finance committee appointed Millard Eidson as chairman.

Assurances were received from all over eastern New Mexico and representative men from every county in the eastern half of the state urging Alston to get into the race, pointing out that while acceptance of that position by Mr. Alston would entail a large business sacrifice, the opportunity to do service to the state of New Mexico is great in urging Alston to run.

This meeting was spontaneous and was not in any way engineered, aided or abetted by Mr. Alston—it came from his friends and acquaintances who know his true worth and the service he could render to the people of New Mexico. — Lovington Tribune.

You would not think of employing unskilled labor to do the work of a high class salesman—it's just as serious a matter to use only good printing. The Messenger, phone 17.

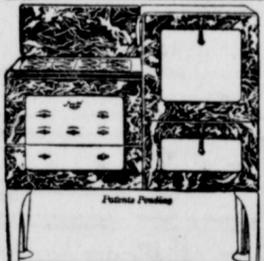

### UNMATCHED in Beauty and Value

THE latest style in gas ranges is now ready for your inspection... a new Magic Chef designed especially for the smaller kitchen. Built conveniently low and compact, this new Tiffin Model is complete in every detail and embodies every modern labor-saving feature. It is just the handsomest gas range you ever laid your eyes on. Come soon to see it. In beauty and value there is nothing on the market to equal this new Magic Chef.

## A HERDSMAN CALLED OF GOOD TO BE A PROPHET

THE BOOK OF AMOS. AMOS 1:1-15. AMOS 2:1-16. AMOS 3:1-15. AMOS 4:1-13. AMOS 5:1-27. AMOS 6:1-14. AMOS 7:1-17. AMOS 8:1-14. AMOS 9:1-15.

Although good colonies of bees with plenty of stores often survive very cold winters with little protection, it is usually better in the North to provide some protection. Packing and protection tend to reduce the necessity for heat production by the honeybees. Consequently they consume less food and their vitality is not reduced so much. Pack the hive in chaff, leaves, or similar material to check loss of heat. In generating heat bees consume honey, and the water in the honey passes off into the hive as vapor. Unless the temperature within the hive is high enough this water will condense. If water runs onto the cluster, harm results. If the hive is packed properly and if the colony is in good condition, the beekeeper need have little fear that water vapor will condense within the hive to the injury of his colony. In cold weather entrances should be contracted to keep out the cold, sudden draughts and wind, and to prevent mice from entering. It is best to contract the entrance to a space just high enough for a bee to pass through. This will then permit flight in suitable weather, will allow the bees to carry out debris and will prevent the bees from becoming restless as might be the case if they were confined.

Two glass measuring cups, one for wet and one for dry ingredients, are a great convenience in cake making.

Oysters are in season again. They are extremely valuable as a source of various minerals needed by the body. Like fresh fish, they supply iodine.

Here's a good September menu: Corn soup, made from fresh corn cut from the cob; omelet with Spanish sauce, which contains tomatoes and peppers; rice; new yellow or white turnips; apple sauce from some of the windfalls, with cup cake.

Choose designs for children's clothes with ironing in mind, whether you make the clothes yourself or buy them readymade. Fussy ruffles and queer shaped parts take up the time of the laundress, and never look as well after washing and ironing as trim, smooth garments that are well-cut and made of interesting materials.

Probably fewer sandwiches would be discarded from children's lunch boxes if the bread were always of the best quality. Children will eat more bread if different kinds are served. Sometimes so simple a change as baking the bread in a new form, a twist or roll instead of a loaf, or cutting the sandwiches into fancy shapes with a cookie cutter, will increase interest in it. The change of flavor given by added raisins, dried currants, dates, or nut meats is another inducement to like the lunch bread.

The "hot pack" is not a new method of canning. It is the method of filling the jars to get good results. By the hot pack is meant cooking the fruit or vegetables to be canned for a short time, and then packing it boiling hot into jars or cans, which are then processed the required length of time. The hot pack shortens the time needed for the food in the center of the can to reach the required temperature for sterilization, insures a better product, and does away with the step that used to be known as "exhausting."

AUGUST SHEEP DIPPING  
August is a good time to dip sheep for ticks. Two dippings are necessary, about 24 days apart, because the first may not destroy all the tick eggs. Various kinds of dips—such as coal tar creosote, creosol, and nicotin—may be used. Sheep dips are most effective when used with soft water. The sheep tick is very prevalent and spreads rapidly, especially among close-herded range flocks. Heavily infested sheep will bite, scratch and rub against any available object. The ticks may be found by parting the wool over the neck, breast, shoulders, belly and thighs.

## SAMBO'S PHILOSOPHY

Pray the Lord  
in his tender mercy are beyond thought! I will therefore praise thee, O Lord, with my whole heart, with my voice, with my whole soul, with my whole strength, with my whole mind, and with all my power. Amen.

Trifles  
do not make trifles  
of the smallest action  
either right or wrong, and  
of the conscience of little things.

"Boss man 'low dat barkin' dawgs  
'em neva bite—but how us gwine  
ter tell dat kin' o' dawgs 'em de  
BITIN' dawgs dat barks, TOO?"

## INSIDE INFORMATION

### NO SCARCITY GUBERNAL TIMBER IN RANKS OF STATE REPUBLICANS

Any fears that there will be a dearth of candidates before the Republican state nominating convention in Albuquerque on September 22, may be cast aside.

There are plenty of gentlemen with aspirations—or whose friends have aspirations for them—according to a check up made recently by a high state official, who has been keeping a little record all his own in a notebook.

Seventeen hats, kellys, chapeaus, sombreros, lids—or what have you—have been shied into the gubernatorial ring, this state official's record shows, either by the owners or folks who want to be nice to the owners.

Judge Reed Holloman of Santa Fe, of course is the outstanding candidate. He has been talked about the most and seems at this time to be the likely nominee. But take a glance at the rest of the 17: E. L. Moulton and C. M. Botts, Albuquerque; Oliver M. Lee, Alamogordo; Dr. H. S. Murdoch, Springer; Jaffa Miller, Roswell; Ed Sargent, Chama; T. E. Mitchell, Albert; Hugh B. Woodward, Clayton; Rupert F. Asplund, Santa Fe; Levi A. Hughes, Santa Fe; Manuel B. Otero, Albuquerque; B. C. Hernandez, Albuquerque; John MacDonald, Kelly; Judge E. R. Wright, Santa Fe; Col. W. G. Halt-justen, Santa Fe and Supreme Court Justice John C. Watson.

There they are folks, the whole 17. All of them have been mentioned in a greater or lesser degree in the last few weeks. There may be a dark horse—or several of them—in the bunch. But the fact is that the state official who kept the record has seen or heard every one of them mentioned.

## FATTEN STOCK WITH WHEAT AND SORGHUMS

The drought throughout the "corn belt" states may change the outlook for New Mexico livestock feeders, says W. L. Black of the New Mexico Agricultural College. The shortage of corn will probably result in less feeding being done throughout the middle west, which should result in a wider spread than usual between the price for common classes of animals and the price for well finished stuff. Indications are that the prices of feeder animals will be extremely low this fall, and if the prices of wheat and the grain sorghums remain low, they may be fed to considerable advantage.

Extensive experiments have shown the grain sorghums to be practically 95 per cent as efficient as corn for fattening cattle and lambs, and whole wheat to be equal to corn for lamb feeding, but not so good for cattle.

Recent experiments at the Nebraska experiment station have shown a mixture of nine parts of coarsely ground wheat and one part of meat meal tankage to be better than a mixture of nine parts of shell-corn and one part of meat meal tankage for feeding hogs. Under present conditions, it will be well for farmers who have large quantities of wheat and grain sorghums to consider the possibilities of feeding livestock before selling the grain at the present low prices.

The man with a supply of corn, however, had better hesitate until he learns what the market price will be before he considers feeding it to livestock, as present indications are that it will be more profitable to sell the corn and eliminate the risk involved in a feeding operation.

You would not think of employing unskilled labor to do the work of a high class salesman—it's just as serious a matter to use only good printing. The Messenger, phone 17.

## THE LIST OF UNITED STATES SENATOR NOMINATION POSSIBILITIES IS MUCH SMALLER, ACCORDING TO THE CHECK-UP, AS THERE ARE BUT SIX ON IT. GOVERNOR R. C. DILLON, IN THIS CASE, IS THE "BIG GUY WITH THE BRASS COLLAR." HE SEEMS TO BE A CINCH. BUT THERE ARE FIVE WHO HAVE BEEN MENTIONED, AT THEIR OWN INSTANCE OR BY THEIR "LOVING FRIENDS." THE OTHERS ARE: HERBERT B. HOLT, LAS CRUCES; JUSTICE JOHN C. WATSON, FORMER SENATOR HOLM BURSUM, SOCORRO; HUGH B. WOODWARD, CLAYTON; NOW U. S. ATTORNEY AT ALBUQUERQUE; OLIVER M. LEE, ALAMOGORDO.

Albert Simms, present congressman, has appeared to have the field pretty much to himself as far as any serious competition is concerned, but six others have been mentioned. They are Dr. Murdoch, of Springer; L. N. Wilson, Raton; Wm. Carmichael, Clayton; H. H. Errett, also of Clayton; Johnson of Otero county and M. A. Otero, Jr., attorney general.

Dr. Murdoch, G. O. P. chairman of Colfax county, may prove to be the dark horse in this race. Mike Otero is out after the judgeship in the first district and has announced that he will not accept the congressional nomination. The others are rather unknown quantities. There has been considerable opposition to the renomination of Simms, but no one has been brought against him definitely up to this time. Dr. Murdoch might be the answer to the anti-Simms prayer.—Santa Fe New Mexican.

The honeymoon trip of Mr. and Mrs. Lloyd Burns was delayed in Seattle, Washington, while police hunted for the thief who stole the bridegroom's wooden leg.

Young Bride—"Now Dearie, what will I get if I cook a dinner like that for you every day this year?"  
Young Groom—"My life insurance."

### THE MODEL

ED WILLIAMS

## DYED TOPICS

By Harold Dye

The only genuine freak in the nameless circus side show which encumbered one of our city blocks last Friday and Saturday night, was the manager. The alleged hermaphrodite, with the muscles of a giant on one side, and the weak physique of a woman on the other, failed to attract the Friday night crowd. The man who could eat the flame of a blazing blow torch was a complete flop. The lady who could have a two foot sword thrust through her gizzard without feeling any ill effects failed entirely to cause a ripple on the disinterested calm.

It was too much for the temperamental manager, and he started a volley of abuse directed toward the hearers and town in general. He compared us unfavorably with our neighbor Dexter. Whether Dexter or Hagerman should consider itself to be insulted will remain a debatable question. The thought to appeal to what he believed would be a hidden enmity between the two towns, but failed. We are not unfriendly to Dexter, and neither are we jealous. Dexter feels the same way about us. So the worthy gentleman's attempt to gain an audience was a miserable crash to the dust.

Next the vitriolic bally hoo artist turned to religion. What part that could have in the discussion is not readily apparent. He said, "You believe that there is a God, and yet you have never seen Him. What right do you have to such a belief? etc., etc." Poor man.

Fifteen people attended the Friday night show and it looked as though

at least three persons were in the audience at the Saturday night exhibition. It served the manager right. Next time he will use a little more tact.

Most people connected with cheap shows look upon a small town as being composed of so called "hicks" overflowing with gullibility and credulity, when as a matter of fact, the small town will usually out-rank the city in average intelligence among its citizens. For this reason, the way of the imitation show among us is becoming increasingly hard.

The small city is rapidly demanding the best. Its business and professional men must rank high in their respective avocations. Its public schools must lead the field, in teaching equipment and supervision. Its churches must be in the front, faithful and intelligent champions of right. The small, rural village has ceased to be a weakling and has developed into a power, politically, industrially, religiously and socially. Leaders of thought recognize this fact, and are studying the problems of the small towns as never before in the history of our nation. It is well.

In the mean time, a certain class of people that lives by preying upon the lower strata of civilization, must be disappointed from time to time in the little town.

## ARTESIA JUNIORS WIN BALL GAME FROM THE HAGERMAN TOWN TEAM

Scattered somewhere within the confines of Artesia are nine very happy youngsters who succeeded in lowering Hagerman's baseball colors last Sunday by a slender 4 to 2 margin. These fine lads, scarcely grown, put on a sterling exhibition of sportsmanship and fine ball to take the lead from the local nine in the second inning and hold it secure throughout the balance of the game.

Apparently dissatisfied with their mediocre showing of the preceding week, Manager Truett brought all his regulars for this contest and the five new faces assisted in a far more effective defense. They were held to fewer scores but performed much better in the field since Ford and Dozier were the only Hagermanites to register a counter.

Hagerman (2)	AB	R	H	P	O	A	E

Summaries—Two base hits: Ford, Burch. Sacrifice hits: Dozier. Stolen bases: Schmitz, Langenegger, Bowen, Jesse. Hit by pitcher: By Wilson, Ford, Schmitz. Bases on balls: Off McCormick 2. Strike outs: Wilson 5, Desee 2, McCormick 7. Umpires: Langenegger and Clayton.

## THRIFT HABITS NECESSARY TO SUCCESS AND PROGRESS

By S. W. Straus, President American Society for Thrift.

"It doesn't pay to worry about the future. The things we dread seldom happen. It's better to take life as it comes and not burden ourselves with thoughts about the years ahead."

There are many whose creed of life is something like this and it leads them along a very treacherous and dangerous pathway. It doesn't pay to worry, perhaps, from the standpoint of conjuring up imaginary woes and misfortunes. But there is a great difference between worrying about the future and facing life's possibilities in a sensible manner.

The Japanese have a proverb which says: "Success and happiness are the beautiful flowers that spring from the plain brown bulbs of thrift and savings." The point of this talk on thrift is to point out the difference between planting the honest bulbs of thrift and neglecting entirely to make provision for the future.

Too many of us are apt to think of thrift only in terms of plain, brown, unattractive bulbs, without thought of the beautiful flowers that come from them. And the sequence of thrift and personal advancement is just as true as the sequence of bulb and lily.

To maintain that one can go thru life with absolute disregard for the fundamentals of rightful living and prudent habits, and still continue to thrive is as false a doctrine as would be the suggestion that the flowers could live and grow without the bulb.

There are varying standards of thrift, according to individual circumstances and conditions. But living beyond one's means, squandering one's time, energies and health, and thinking only of present moments without plan or preparation for the later years, are practices that cannot fail to bring unhappiness in the end.

Unless the flowers of your success and happiness are rooted in the plain brown bulbs of thrift, the day of their passing is sure to come.

## LOCAL

Mrs. Mayr Kadow and Miss Renalee Banta returned Tuesday night from an extensive tour of the west and Canada.

George Lang returned Thursday from Las Vegas, where he has been attending school at the New Mexico Normal University. George will teach this year near Pine Lodge in the mountains.

Mr. and Mrs. T. J. Fisher and family of California have moved to Hagerman and Mr. Fisher will be employed by the Pecos Valley Roofing Company and also as a Van Ness representative.

## R. STERLING DEFEATS MA FERGUSON IN LATE DEMOCRATIC PRIMARY

DALLAS, Texas—"Prince and pauper" race between Ross Shaw Sterling and Mrs. Miriam A. Ferguson for the democratic gubernatorial nomination ended in victory Monday for the millionaire publisher from Houston.

Texas voters for the third time repudiated "Farmer Jim" Ferguson, husband of the woman candidate in Saturday's run-off primary election. By a possible majority of 100,000 votes. Sterling was given the democratic standard which is considered tantamount to election.

Returns compiled by the Texas election bureau Monday showed Sterling to have polled a total vote of 464,698, against 371,645 for Mrs. Ferguson. The returns were compiled from 251 of the 253 counties in the state. Of these, 109 counties were complete, and Mrs. Ferguson was given no chance for victory.

In the November general election, Sterling will oppose Dr. George C. Butte, of Austin, an assistant United States attorney general, who gained the republican nomination in the recent primary. Butte polled less than 10,000 votes and was given little chance of gaining more support in the general election.

## RANDOM THOUGHTS

The life of a motorist seems to be just one jam after another. Now it's financial.

It signs mean anything women are going to make short work of those long skirts.

Criminals prefer paragraphs to judges because their sentences are so much shorter.

Without wishing them any harm we would like to see some of those so-called comedians choke on their gags.

Since curves are once more coming in, Hollywood actresses who have been on a diet should now make a hit at the home plate.

Brides are becoming educated. Formerly when in trouble with their husbands they used to run to their mothers; now they run to the judge.

## S. ROBERTSON, FARMER DIES FROM INJURIES RECEIVED AUGUST 18TH

S. L. Robertson, age 63, well known farmer of the Cottonwood community, died Monday morning, following an illness of about a week's duration. Mr. Robertson's death is said to have been due to injuries received when he attempted to ride a wild horse on August 18th.

Mr. Robertson, a native of Texas, had lived in the Cottonwood community for several years and at the time of his death, was operating a farm for Pearson Brothers, near the county line.

Burial was made in the Artesia cemetery Monday afternoon. R. W. Emerson, pastor of the Christian church, held a short funeral service at the graveside. Later the Lake Arthur Masonic lodge took charge of the body and a brief service was conducted by John Hall of Roswell.

The deceased is survived by a widow, two sons, Clyde and Julius and three daughters, Mrs. Grace Whitaker of Row, Oklahoma, Mrs. Marion Tollison of Brady, Oklahoma and Mrs. Beryl Tollison, of Sulphur, Oklahoma.
