HAGERMAN, CHAVES COUNTY, NEW MEXICO, THURSDAY, MARCH 23, 1933

NUMBER 12

## WELL NET STARS MEET HAGERMAN MS SATURDAY

Everything in readiness for gala occasion, Hagerman's of the tennis world is awaiting the series of matches with Roswell which has been planned for this coming Saturday morning promptly at 8:00 a. m. Nalle Burt and Nora play the opening game. The White sisters, an enemy will be devoted to the best that will bring the tennis strength of the towns together. The invaders were carefully selected from the best. Headed by Dick Herman and Dick Blackmer, their team is an introductory "ballyhoo" to local fans might be interested to know that Dick Crawford recently put up a terrific against Allen Key in the quality tournament. Key, who is a regiate champion of Texas, use everything he had to defeat the lanky Roswell star. The members of the committee appeared here last summer mixed doubles matches. He defeated by the same team on those occasions. Mrs. Francis X. Murphy by Elizabeth Tignor and F. O'Neil gave the specialty to remember in the good tennis. Both are aggressive players who slam-bang type of men's tennis.

Hagerman team is just being rounded into shape. A late start due to condition of the court, the team tried to make the past few days a period of intensive practice. Alma Nail is back with "slam," as D. L. Looney call it, and a newcomer Slade, is expected to hold local club. As usual, the playing school teachers are given a good account of George, particularly, have swung up well in practice.

noon hour, a luncheon served the members of the Domestic room at the school building. will, of course, be no ad-charge to the games and may be free to come throughout the day. A on exchange is planning to announce complete schedule follows:  
No. 2 Women's Nalle Burt-Nora Clem- vs. Helen White-Mary (R).  
No. 2 Men's doubles: Dye-Earl Slade (H) vs. Blackmar-Euburn Walker (R).  
No. 1 mixed double: McCormick-Eleanor (H) vs. Dick Crawford- Francis X. Murphy. (R).  
No. 2 mixed double: Nail-Jessie George (H) vs. Blackmar-Mrs. M. F. (R).  
noon-luncheon at school.  
No. 3 mixed double: Dye-Loula Denham vs. Euburn Walker-Helen (R).  
No. 4 mixed double: Slade-Nora Clemens (H) vs. Dye-Mary Lulu White (R).  
No. 1 women's Loula Denham-Jessie (H) vs. Mrs. Francis X. Mrs. M. F. O'Neil (R).  
No. 1 men's double: McCormick-Alma Nail vs. Dick Crawford-Herman (R).

## SECURITY DEPOSITS ARE LIQUID

YORK—"The American says that at least \$38,000,000, or 88 per cent of the deposits in the banks, will be available by the end of the banking holiday. The remaining five billions up in banks awaiting to be reopened, completion of reorganizations, liquidations will release the proportion within a comparatively short period, the public and losses in liquidity less than a billion or less than 2 1/2 per cent of the funds of the country."

Mrs. James McKinstry will receive a guest ticket to the Princess theatre at Roswell to see Claudette Colbert and Frederic March in "Tonight Is Ours" Sunday, Monday or Tuesday, if she will call at The Messenger office for same.

## E. V. SWEATT LEAVES HAGERMAN

It is with genuine regret that the community gives up the family of Mr. and Mrs. E. V. Sweatt who left on Monday for Carlsbad, where Mr. Sweatt is manager of a large farm.

Both Mr. and Mrs. Sweatt; their two charming daughters, Misses Carolyn and Merle, and the son, Edward were interested in church, school and social activities. It is people like these, who make better a community; and help to strengthen the democracy of America, and leave behind them enrichment, in the hearts of friends.

## CATTLE GROWERS OPPOSE PLANS FOR STABILIZING PRICES

New Mexico cattlemen do not want livestock included in any plans calling for stabilizing the value of agriculture products.

This thought was contained in a resolution adopted by the New Mexico Cattle Grower's Association at the close of its 19th annual convention at Tucumcari. The cattlemen went on record as opposing inclusion of livestock in plans now before congress for stabilizing the value of farm products.

The cattlemen also went on record as favoring the consolidation of all agriculture credit agencies and increasing land bank loans from \$25,000 to \$100,000 on western ranches.

A \$100 reward was offered by the association for the apprehension and conviction of cattle thieves. The reward, however, was limited so as to prevent salaried peace officers from participating.

A. K. Mitchell of Albert, this state, was re-elected president and the following vice presidents also were returned to office: E. T. Springer, Cimarron; Lee Evans, Marquez; R. C. Sowder, Ft. Sumner and Joe Lane, Roswell.

The 1934 convention will be held in Albuquerque at the same time as the American National Livestock association will be in session. Roswell, Clovis and Las Vegas entered bids for the convention.

## PRESIDENT HAS PLAN TO AID EMPLOYMENT

WASHINGTON.—Pres. Roosevelt is expected by his close advisors to send a message to congress within the next few days recommending an emergency unemployment relief fund of \$500,000,000 for direct grants to the states.

The President also probably will include in his immediate emergency program a \$40,000,000 appropriation out of unexpended funds in the treasury to begin his gigantic restoration program.

These proposals, which the President regards of immediate urgency, will be submitted to congress in a special message probably as soon as the house passes farm relief legislation, expected by Wednesday.

A more permanent and far-reaching program for relief or the jobless will be submitted later, probably based upon legislation introduced today by Senator Wagner (D., N. Y.) for liberalizing construction loans through the reconstruction corporation.

The \$500,000,000 proposal for direct relief was submitted to the President by the committee which has been studying the proposal for him, composed of Miss Frances Perkins, secretary of labor; and Senators Wagner (D., N. Y.), Costigan (D., Cal.), and LaFollette, (R., Wis.).

## HUTCHINS BUYS CALIF. INN

Purchase of Sonoma Mission Inn, a resort property in the Valley of the Moon, 35 miles north of San Francisco, by M. B. Hutchins, New Mexico hotel operator, was announced last week.

The announcement of the purchase did not mention the purchase price but said the property represented an investment of \$625,000 as of four years ago. Hutchins formerly operated a hotel at Cloudercroft.

## THREE NEW PARKINGS HAVE BEEN CREATED BY THE UNEMPLOYED

Three beautiful parkings, bordered by concrete curbs and sodded with grass, are the results of the latest efforts on the part of the welfare committee, helped by the unemployed, to improve the appearance of our little city.

The three parkings are located on the school street, two across from the gymnasium and one near the main building. Twenty-one Chinese elm trees have been put out in the parkings.

The road has been gravelled in front of the school, forming a wide driveway.

## BEER CAN BE SOLD IN FOURTEEN STATES

State capitals report that: There are at least fourteen states in which beer can be sold as soon as the federal government legalizes it, which will be fifteen days after President Roosevelt's signature to the 3.2 per cent beer bill.

In others a varied situation exists. In some beer can be sold after a specified time; in some it can be sold in certain localities; in others proposed action to license or regulate the beverage is pending. In still others—at least ten states—neither has there been repeal of prohibition laws nor is official action pending toward licensing beer.

The fourteen in which beer can be sold immediately after United States legalization are: Arizona, California, Illinois, Indiana, Kentucky, Missouri, Montana, Nevada, New Jersey, New York, Oregon, Pennsylvania, Washington and Wisconsin.

## TORCH MURDERERS ARE DENIED BAIL MONDAY

TUCUMCARI—Judge Harry L. Patton Monday denied bail for Leonard Beck and Roy Reed held in connection with the death of Lee Marshall, Logan homesteader who was burned to death at his home early in January.

The two men were arraigned before Judge Patton and applied for bail. Defense attorney, Joe B. Moore of Amarillo, said he would apply for a habeas corpus this week in an effort to get the men out of jail.

Rev. S. S. Bussell, corresponding secretary of the Baptist Convention of Arizona, preached in the Baptist church Sunday morning. Rev. M. M. Hatcher, pastor of the Dexter Baptist church spoke at night.

Mr. and Mrs. Dub Andrus; Mesdames Lizzie Rice and Perry Andrus motored to Brownfield, Texas on Sunday to visit relatives. They reported a terrific sandstorm.

Typewriters for rent at Messenger

## VALLEY TO HAVE PARTIAL APPLE CROP THIS YEAR

There will be at least a partial crop of Ben Davis and Champion apples at various points in the Pecos valley this year, Sidney I. Redfield, who is recognized as a local authority on fruit said Tuesday after examining apple trees in a number of orchards according to the Roswell Dispatch.

Mr. Redfield said that he was certain there would be a full crop of Ben Davis apples in the top of the trees in various orchards and that there would be a number of Champions and a scattering crop of York Imperials.

He said it was still too early to predict as to a number of other varieties of apples in the valley this year, but that there would be a full crop of several varieties next year.

## HEREFORD BREEDERS SALE

The second annual sale of the Eastern New Mexico Hereford Breeders Association will be held in Roswell Monday, March 27th. 125 high grade registered bulls will be sold to the highest bidder.

Hardwick Brothers of Clovis will consign 72 bulls to this sale, and have shipped 100 head of bulls to Roswell, which will be sold through the sales ring and at private sale. These bulls are now at the fair ground barns for public exhibition.

## VOTERS WILL HAVE CHANCE TO VOTE ON 5 ISSUES IN SEPT.

SANTA FE—Yes or no choice will be given New Mexico voters September 19 on four propositions one concerning liquor, one about taxes, one on borrowing by the school districts and one creating 12 judicial districts and judges therefor. A fifth proposition for voters will be selection of delegates to a state constitution convention for retention or rejection of the 18th national constitution amendment.

Voters will have the opportunity to determine, under SJR21 whether taxes shall be limited to 20 mills. Since the taxpayers' association has favored a two percent reduction in property tax it was expected the weight of the organization would be thrown behind this proposal and it was expected to carry. It would amend the state constitution.

'Back of the approval for this limitation lies the shadow of a special legislative session, according to tax experts who say the levy will not produce more than two thirds of the money necessary for operating the schools and all branches of government.

Loose Leaf Binders, Special Ruling and Stock Forms—The Messenger

## RECEIVES A LETTER ABOUT EARTHQUAKE OF INTEREST HERE

Dad Gardner received the following letter from his daughter, Dorothy, in Long Beach California, which I believe will be of interest to Hagerman readers:

Dear Daddy: We are all safe and well—just awful tired—no sleep or rest. The quakes keep coming. Of course, they are not supposed to be dangerous. After a big quake that jars everything loose, then the little ones shake down the damaged buildings. Our apt. house is the only one in ten blocks that is not damaged. I mean not condemned. Everything in Long Beach is damaged. When the quake came at 4:55 Friday evening, Jimmie was at work. Elizabeth and I were in the kitchen—we tried to run out but the building and floor moved so crazy we couldn't walk. Just leaned against the door and held to each other. We left and were soon joined by Jimmie, and we just wandered about. We saw some awful sights and had to run for our lives several times as buildings started to fall. We wandered out to the residential section of town and sat on the sidewalk, away from electric wires, trees, buildings, and tall lamp posts. People who had cars sat in them.

An earthquake is sure a terrible experience. It is much worse than a cyclone. You can't see anything. The weather is beautiful, but every hour or so the whole earth sways and rumbles. The house rocks until you almost fall down. I can't begin to tell everything I want to. It was wonderful that it came at that time of the day. The children were all home from school, and most business and office places were closed. And most wonderful of all, the Atlantic and Pacific fleet with 40,000 men was right at our door waiting to help. The minute the quake struck, a young man we know who is a life guard at the beach right in front of our house, jumped into a motor boat, and headed for the nearest ship. That ship sent radio messages to the other ships, and before the guard was back to shore, the sailors, with guns and full army equipment had passed him in their big, high powered motor boats, and before the police, firemen, and officials had got their breath or wits the sailors and marines marched up fell into formation, saluted the officer in charge, said, "At your service, Sir" then 40,000 men started, in double rank, and the entire city was under martial law before the people caught their breath. Sailors everywhere, on buildings, helping people, carrying things, shutting off gas and electricity, carrying sick and wounded.

It was like a picture show—the sailors saved Long Beach from the terrors that San Francisco went through by guarding against fire.

CHICAGO, Illinois—Twenty-four men—the first graduating class in 17 years at the Wahl-Henius Institute — Saturday heard their graduating address, and a warning against the saloon and politics and the extolling of beer drinking as a ritualistic pastime.

The 24 are qualified brewmasters who completed a five months course of study covering brewing chemistry, bacteriology, botany, physics, yeast culture and refrigeration. The future of the graduates now awaits congressional action.

## 24 ARE GRADUATED FROM BEER SCHOOL

WASHINGTON, D. C.—The farm relief bill, integral part of President Roosevelt's emergency program, was passed by the house yesterday by a strong bi-partisan majority.

Passage was voted after two days of committee consideration and two days of debate by the house, during which amendments were barred. It was the fourth major recommendation of President Roosevelt to receive house approval in less than three weeks.

Slower action is expected in the senate where opposition is formidable and there is no restriction on debate, or rule to be invoked against the proposal of amendments. Yet yesterday a number of senators were predicting it would pass very much in its present form.

The bill places enormous powers over American agriculture in the hands of the secretary of agriculture. Its policy was termed by Mr. Roosevelt a "new and untrod path." Its purpose is to increase farm buying power.

The chief provisions:

Names wheat, cotton, tobacco, corn, rice, hogs, cattle, sheep, milk and its products as major agricultural commodities.

Authorizes the secretary of agriculture to enter into voluntary agreements with producers of these commodities to secure acreage or crop reductions. In return for curtailments, the producer would receive rent or benefit payments.

Empowers the secretary to levy processing taxes on the commodities to raise the funds for paying the rent or benefits. The tax would be limited to the amount necessary to bring the aggregate farm return to its pre-war purchasing power.

## HOUSE PASSES PRES. ROOSEVELT'S FARM BILL YESTERDAY

WASHINGTON, D. C.—Major developments in the country's first week of financial rehabilitation: Approximately 13,500 of the country's 18,000 banks reopened on a normal basis the first of the week.

Hoarders returned \$327,000,000 in gold to federal reserve banks which will be used by the latter to bolster their reserves.

Banks found it necessary to issue only a few millions of the proposed two billion dollar emergency currency issue because of the light demands on them from depositors.

Federal authorities went ahead with appointment of "conservators" for temporarily embarrassed banks or those in need of reorganization, instead of costly receiverships.

Directors and stockholders of liquid banks began to subscribe funds for reopening under their own initiative without aid from the government.

## STATE TO START POKING NOSES IN GAS TANKS

If one of these days you see a stranger looking at the gasoline in the tank of your automobile, do not become alarmed. He is only determining the color of the fuel.

Following passage of the "black gasoline" bill by the last state legislature which will exempt the farmers from paying the five cent state tax on fuel used in tractors and other farm machinery, the set-up is now being completed to look after those who may attempt to evade the law.

This law provides that application may be made for black gasoline from dealers by farmers who are going to use the fuel in their tractors and other machines, except automobiles. The gasoline sold under these applications will be dyed black and it will be unlawful to use it in an automobile or truck.

## COST OF PAIR BOOTS

According to Dave Runyan, veteran stockman, it takes eighty cow hides at the present prices to pay for a pair of boots. That represents quite a spread between the raw materials and the finished products. Maybe you can figure out what is wrong.

## MASONS END THREE DAY MEETING AT ROSWELL YESTERDAY

With the largest crowd in attendance in three years the fifty-fifth annual communication of the Grand Lodge Ancient Free and Accepted Masons of New Mexico opened in Roswell Monday, the first of the three day session being featured by the election of John Milne, Albuquerque, as Grand Master and the annual banquet Monday night attended by 320 Masons from Roswell and from all sections of the state.

Other officers of the grand lodge elected Monday were William H. Duckworth, Clovis, deputy grand master; Reuben Perry, Albuquerque, senior grand warden; Ira L. Pennington, Clayton, junior grand warden; Edward R. Paul, Santa Fe, grand treasurer, re-elected and Alphus A. Keen, Albuquerque, was re-elected grand secretary.

E. A. Cahoon, Roswell and Richard H. Hanna, Albuquerque, were re-elected trustees of the New Mexico Grand Lodge, their terms expiring at this time.

## B. Y. P. U. STUDY COURSE

A B. Y. P. U. study course is being held this week at the Baptist church with Rev. M. M. Hatcher of Dexter, teaching the book, "Books of the Bible" written by Hight C. Moore. 15 were enrolled in the course.

## 13,500 OF 18,000 BANKS ARE NOW OPEN

WASHINGTON, D. C.—Major developments in the country's first week of financial rehabilitation: Approximately 13,500 of the country's 18,000 banks reopened on a normal basis the first of the week.

Hoarders returned \$327,000,000 in gold to federal reserve banks which will be used by the latter to bolster their reserves.

Banks found it necessary to issue only a few millions of the proposed two billion dollar emergency currency issue because of the light demands on them from depositors.

Federal authorities went ahead with appointment of "conservators" for temporarily embarrassed banks or those in need of reorganization, instead of costly receiverships.

Directors and stockholders of liquid banks began to subscribe funds for reopening under their own initiative without aid from the government.

## BARTLETT IS ELECTED PRESIDENT OF STATE FARM HOLIDAY GROUP

O. P. Bartlett of Portales was elected president of the first State Farmers Holiday association convention at Portales Friday.

Other officers elected at the meeting were, Charles Madrid, Las Cruces, first vice president; John Stevens, Clovis, second vice president; A. P. Smoak, San Juan county, third vice president; J. Whitefield Taylor Portales, secretary; Mrs. W. W. Greenhow, Portales, treasurer.

## FIRE SATURDAY

Carl Ridgley lost a barn and over a ton of hay Saturday afternoon when a fire was accidentally started by one of the children playing in the back yard. Although the fire apparatus arrived immediately, it was impossible to save any of the feed.

## MR. AND MRS. PRICE CURD, MISSES CLEO HOLLOWAY AND EIDRA DYE, WERE HAGERMAN RESIDENTS WHO ATTENDED THE B. Y. P. U. RALLY IN ARTESIA SUNDAY.

Mrs. S. L. Jones spent last week visiting her granddaughter, Mrs. James McKinstry.

HAROLD DYE, Managing Editor  
ETHEL WILSON MCKINSTRY Associate Editor.

**SLIGHTLY MISINFORMED**

Our colleagues at the Roswell Daily Record have gotten their babies mixed in an editorial appearing in the Wednesday issue. We quote: "The Democratic campaign literature was mailed out in a stamped envelope bearing the imprint of the New Mexico State Magazine which is the official publication of the State Highway Department and the New Mexico Game and Fish Commission. The democrats are using those bodies to aid their operations as a political machine. Of course Brother Charles Barker is state game and fish warden, and Brother William Barker is democratic state chairman, and that may have something to do with the link between the two."

In the first place, Charles Barker is a republican. The Record should have been aware of this. Elliott Barker is state game and fish warden. William J. Barker, democratic Kingfish, is no relation of the other two men. There is nothing political whatever in the attitude of Elliott Barker in his administration of the affairs of the state game and fish department. He has been fair and equitable in all his dealings, with favors shown to neither party. This in itself constitutes a remarkable phenomenon—with Arthur Seligman governor of New Mexico.

**MILK AND ITS USES**

A good milk cow averages approximately seven thousand five hundred pounds of milk a year. Humanity is so dependent upon "bossy" from the cradle to the grave, that the government and the states have enforced rigid laws to prevent milk from unhealthy herds from being used. Recent surveys of the milk situation made in co-operation with the United States Bureau of Economics shows that the owners of milk cows are lucky if they get as much income as the hired man. Strangely enough the official statistics reveal that children use more milk in March than any other month.

Milk has its place on all diet lists and the medical profession has discovered that evaporated milk may be prescribed as a diet for treatment of ulcer patients with "very satisfactory results." The developments in the use of evaporated milk have been remarkable since that period in the beginning of the century when it was first discovered that unsweetened evaporated milk was an ideal and uniform food for young infants. Science and hygiene has come a long way on the road of progress since the period when cool cellars, crocks and open pans, furnished the method of caring for fresh milk in the days before refrigeration was common. New and useful uses for milk furnish lengthy lists of food products.

**Odd—but TRUE**

**Leap-Year Prerogative Runs Through History**

February, besides being the scapegoat month when it comes to adjusting man's record of time, is also blamed at times for leap-year customs. Even the matter of women's prerogative to propose marriage during leap year has been laid at February's door. But the charge scarcely holds water. The true source of the custom seems to be lost in antiquity, but nearly seventy years ago an English almanac quoted a law said to have been enacted in Scotland in 1228—perhaps it was in February—which said: "Ordonit that during ye reign of her maist blessed maestie, Margaret, lika maiden ladee, of baith high and lowe estate, shall hae libertie to speak ye man she likes. Gif he refuses to take hir to be his wyf, he shale be mulct in the sum of ane hundred pundes, or less."

**Humble Beginnings of Sunday School System**

The Sunday school, as first established, was, as its name indicates, a school for meeting on Sunday and went beyond the purely religious in its instruction. The first school so established is credited to a resident of Gloucester, England, one Robert Raikes, who regularly on Sunday collected all the children he could find on the streets and took them to his school, where teachers he hired at 25 cents a day taught them. The first school was established in 1780. Its curriculum included letters, reading and the church catechism. Raikes' school was followed by another in London in 1784, established by Rowland Hill. These schools were day-long affairs. They usually met at 8 p. m. and continued in session until church services began. At the conclusion of the church service the school work was resumed and continued until 5:30 p. m.

When religious instruction was given to the young on Sundays in the New England colonies, the first regularly organized Sunday school in this country is generally attributed to Bishop Asbury and was believed to have been located in Hanover, Va.

**THE NEW CAR**

Father—How many miles to a gallon?  
Mother—What color is the upholstery?  
Son—How fast will she go?  
Neighbors—How can they afford it?

Pat and Mike stood before a store window wherein were displayed trunks for sale.  
Pat—Moike, why doncha buy a trunk?  
What furr, and pray tell me?  
"To put your clothes in, you blitherin' idiot."  
What, and me go naked?

"When are you going to pay?" asked the bill collector.  
Man, who did not work even when times were good: "How do I know? I'm no prophet."

Woodstock Typewriters for sale at The Messenger.

Jack Dionne, in the Gulf Coast Lumberman, strikes a sympathetic note in the hearts of most of us with his little gem.

"I Want to Build a Home" I want to build a home to endure. A house of generous size and low-flung roofs, cradled by the gentle shade of great trees, where permanence and strength shall be reflected. A house where little voices may babble in the ecstasy of babyhood, and grow to the full blish of youth, and, in the fullness of Time, come to maturity, and age, and grow old, and nod, and sleep. A house where my children's children shall be nourished and fed and protected by these same walls that have sheltered and protected me.

I want to build these little lives which have rooted in the garden soil of my soul so that they, too, shall endure. Build them so that they shall know the glory that Love is, the joy that Happiness is, the peace that Contentment is. I want to root them in the eternal truths, and nourish them with the true ideals of usefulness and service. I want to build them unafraid—gentle as the daisies nodding in the fields, sturdy as the rock-ribbed hills, strong as Love.

I want to build a garden where loveliness dwells. A garden where the lingering pictures in Memory's eye come into being, and all the dreams I have dreamed of Paradise nestle at my feet in my own doorway. A garden where mine enemy dare not come lest he, too, be charmed into forgiveness. A garden where the divine laboratory of Eternity lies in my hand, and speaks in untold tones the delights, the mysteries, the wonders of the Hand behind it all.

I want to build a home where Love will dwell. A home valued not by the dollars it cost, or the richness of materials or furnishings going into, so much as by the happiness it has created. A home which has grown dear and near because of the stress and storm it has weathered, the tears it has dried, the smiles it has caused. A home where patience, and effort, and

denial have brought their treasures of happiness and contentment and peace. A home where love comes like the fluttering dove and perches and dwells—unwilling to search elsewhere.

I want to build a home.

I forgot about advertising for shoes for the welfare committee (to distribute, not to wear), and popped off about some lady leaving her shoes in my office. Thereupon the fur began to fly. First my wife boxed my ears. Then a lady wrote the epistle which we herewith reproduce:

Dear Sam: I read your ad that you wanted shoes for the needy at your office, so I thought if anybody was needy enuf to wear them shoes, they was welcome to them. O me, O me! Of your lady friends, don't suppose Mrs. Dye cares which one of them left her shoes.

P. S. This don't need sinnin'. You've got the shoes and I don't want them.

Then as if that weren't all, three different women came in looking for their shoes. I had a dang good notion to put their names in the paper. The only reason I didn't was because they found them.

**Birds Build Playground**

The "bower building" birds of Australia, says Nature Magazine, are of many different kinds, the most familiar being the satin bird of southeastern Australia. The bowers are really playgrounds; the nests are bowl-shaped structures of twigs, sometimes lined with leaves, and have no connection with the bowers. After building the bowers the birds collect bleached bones, small shells, blue parrot feathers and other bright objects, which they heap around the playground. Any shred of glass of metal which arrests the eye, or reflects the rays of the sun, is a gem in the bower-bird's collection.

Aged county club mosquito to baby mosquito: And to think when I was your age I could bite girls only on the face and hands."

**Murdered Mayor Laid to Rest**

Scene in the Bohemian National cemetery in Chicago as the remains of Mayor Anton Cermak, victim of a bullet intended for President Roosevelt at Miami, were laid to rest.

**MOTORISTS HARD HIT BY NEW TAXES**

Contribute Heavily to Cost of Government.

Washington.—A heavy share of federal, state, and municipal government costs is being borne by automobile owners throughout the United States as the result of new taxes enacted during the past two years. Revenue of more than \$250,000,000 was expected to accrue to the United States government through the excise tax passed by congress at its last session and which levies on gasoline, oil, tires, and all accessories.

States and municipalities also have tapped new fountains of income by levying upon motor vehicle owners. In the 12 years from 1919 to 1931 state license and gasoline taxes alone have risen from \$8.68 to \$34.10 per capita, an increase of 292 per cent.

The tax bill which Mr. Car Owner in the United States paid during 1932 is estimated at the stupendous total of \$1,500,000,000, this figure including the new federal tax and the state and local increases. In license fees, gasoline taxes, municipal and personal property taxes on motor vehicles during 1931 the motorist paid a national total of \$1,025,000,000.

One-tenth of the entire United States tax bill was the amount paid by motor car owners during 1931 through license fees, gasoline taxes, and personal property taxes on vehicles. The percentage is expected to be higher when the figures for 1932 are available.

From figures obtained from all parts of the country it appears that raising the tax on gasoline has been a favorite means of providing new revenue for states. In some states this levy has been pyramided to the point where the gasoline tax amounts to 11 cents a gallon.

While the old-time toll houses that once lined the nation's principal highways as a means of collecting enough money to pay for the roads and keep them in repair have passed into history, the modern gasoline filling station, according to leaders of the automotive industry, has just about taken the place of the toll house.

Gasoline filling stations today are toll collecting agencies for federal, state, and in many cases, for county and city governments. On a basic tax of 5 cents a gallon, a light passenger car consuming one gallon of gasoline each 20 miles pays a road toll tax of \$50 for every 20,000 miles.

**Famed Thieves' Market of Moscow Is Abolished**

Moscow.—With the closing of Sukharevsky market the Soviet capital lost an institution of its fame which was part of Moscow life for generations.

A sort of "thieves' market" before and after the revolution, it became in the last few years the last stamping ground of private traders, legitimate and otherwise. In ordering its abolition the Soviet felt it necessary to explain that the construction of new modern markets made this one unnecessary.

The local press supplemented the official apologies by attacking Sukharevsky market as a hotbed of theft and speculation and disease.

The fame of Sukharevsky went far beyond Moscow. It was known throughout the country. The market presented a scene far more Asiatic than European. Besides rows of booths where government goods were being sold there were others presided over by peasants trying to dispose of farm products under the Kremlin's new permission to trade on a free market basis.

Buyers and sellers milled in a noisy confusion. Men, women, and children stood or promenaded all day long to dispose of a bottle of oil, a pair of pants, golashes, or some other article.

With the increasing shortage of food and clothes in the last year these became the principal items of trade on Sukharevsky. It was chiefly at this market that thieves employed of government shops sold their loot through intermediaries.

**Town to Get Free Gas**

Bow Island, Alta.—The town of Bow Island will receive free fuel gas for the next five years by virtue of its location in the heart of a gas producing area. The company developing property in the vicinity of the town agreed to supply the town's gas in exchange for a non-producing well owned by the municipality.

**Long Drive Ends in Accident Near Home**

Washington.—After driving all the way to North Carolina and return in search of her sister whom she had not seen for the last nineteen years, Mrs. Inez Turner, Bethesda, received a cut on the right ankle within a mile of her home.

According to police at Bethesda she was attempting to pass a truck when it swerved to the left. Trying to avoid a collision she turned short, causing her automobile to overturn.

**LEGAL ADVERTISEMENTS**

**NOTICE FOR PUBLICATION**

Department of the Interior, U. S. Land Office at Las Cruces, New Mexico, February 23, 1933.

NOTICE is hereby given that Henry C. Young, of Roswell, New Mexico, Box 443, who, on May 20, 1929, made Homestead Entry, No. 038498, for W½NE¼, NW¼SE¼, W½ Section 24; E½W½, NW¼NW¼, Section 25, Township 12-S., Range 29-E., N. M. P. Meridian, has filed notice of intention to make three year proof, to establish claim to the land above described, before Dan C. Savage, U. S. Commissioner, at Roswell, New Mexico, on the 6th day of April 1933.

Claimant names as witnesses: Charles Douthitt, Elgin Douthitt, Otto Douthitt, Thomas Rosenberg, all of Roswell, New Mexico.

V. B. MAY, Register.

9-5t

**IN THE PROBATE COURT, CHAVES COUNTY, STATE OF NEW MEXICO.**

IN THE MATTER OF THE ESTATE OF MRS. ALBERTA BABB, Deceased.

No. 1446.

**NOTICE**

NOTICE IS HEREBY GIVEN that the undersigned was on the 28th day of February, 1933, appointed administrator of the Estate of Mrs. Alberta Babb, deceased, by Honorable C. C. Hill, Probate Judge of Chaves County, New Mexico.

DEETS THORNE, Administrator.

10-4tc

Quite a number of people attended the grand lodge sessions in Roswell and the Eastern Star attracted all the lady members.

J. R. Thomas county extension agent aided in canning a beef at M. Y. Monicals last week. Several are taking advantage of this help and are using their surplus meat, besides saving for a "leaner" day.

J. E. McKinstry spent the week end with his grandparents, Mr. and Mrs. Jim Senn of Dexter.

**MAN'S HEART STOPPED, STOMACH GAS CAUSE**

W. L. Adams was bloated so with gas that his heart often missed beats after eating. Adierka rid him of all gas, and now he eats anything and feels fine. Hagerman Drug Co.

"I want a nice present husband. What do you think I should get?" "May I ask how long you have been married, madam?" "Oh about fifteen years."

"Bargain counter in my mind, ma'am."

Just because a man is a musician, it doesn't mean that he can play a harp.

Sports Editor—Agnes McCormick  
Social Editors  
Flora Hughes, Ruby Baker

"This point of view has certain important implications for business education." Says the Balance Sheet. "It is quite possible to oversupply our markets with clerical workers of certain types. I have on other occasions pointed out that the falling wage rates of clerical workers, true even before the current economic situation, was but an indication that business education had over-expanded in certain fields. There are, however, some phases of business education in which overproduction is impossible. I refer particularly to the problem of the upgrading of business intelligence. The real purpose of business education is the abolition of business and economic illiteracy. The business teacher has scarcely touched this market."

Then say the expansion of this school is as beneficial as were the three "Rs". The commercial department of this school is one of the most important departments here.

Says Robert C. Sollars, Morton High School, Richmond, Indiana. "In the last generation, with an increased emphasis upon the preparation for vocations, the commercial curriculum finally gained in popularity. It is as firmly fixed as English, history, or mathematics—perhaps more firmly fixed than the former core of secondary education, foreign language."

"What pupil can tell me what a butters is?" asked Miss Harrison. "Oh, I know," said Ruth Wiggins. "It's a nanny goat."

Prof. to Leonard: "Repeat in your own words, I see the cow. The cow can run. The cow is pretty." Leonard: Lamp de cow. Ain't she a beut? an' say, baby, she sure can step.

We would like to know how it came to pass that Nadine went to Roswell last Saturday evening.

What is coaching? Coaching, says one authority, means to re-instruct, that is, individual re-teaching of students for whom initial instruction has been found ineffective.

## WE WONDER

Where Elizabeth went Sunday night?  
Who saw the big grass fire Sunday night?  
Who the hog is that called somebody else a pig?  
Why so many shades were pulled down in the cars the other night?  
Why Miss George has everyone to find out what kind of family the early races had, ie. how many husbands and wives were allowed to the family circle?  
Why Mr. Wellborn watches his keys so closely now?  
Why the north door of the study hall is usually locked the eighth period?  
Where John gets the idea that his name just must be written on the board in the commercial room?  
Why Elizabeth looked so down and out Monday?  
Who Ruby was with last Thursday night?  
Where Ruby and Lillis went Friday night?  
Who Lillis receives letters from in Artesia?  
If Bill Bogie's mother told him to get home by nine o'clock last Saturday night?  
What some people thought of the old bridge's being blockaded?

The Junior Class, sponsored by Miss Clemons, gave the high school a party last Friday evening. The Juniors were not satisfied with the outcome of the inter-school tournament so they challenged the Seniors to another game. The Seniors won by a narrow margin. After the ball game candy was served on a stick. Later, games were played much to the delight of all participants. The first game, it seems, was played in order to find out who had the flattest head. Anyway, we had to put a pie pan on our head and walk down the hall.

The Juniors are, after all, very good sports and we all enjoyed ourselves immensely.

Which is the better "High Pressure Salesmanship" or a good argument?

Prof. (answering phone): You say Raymond has a bad cold and can't come to school? Who is this speaking?

Voice (with assumed hoarseness): This is my father.

## MARKETS

Kansas City Livestock

KANSAS CITY—Close: cattle, 3,500; calves 425; light weight steers and yearlings steady to strong; fairly broad demand for lower grades; heavy steers steady to weak; 2 loads well finished 1-114 lb steers 5.75; 1,185 lbs 5.60; 2 loads choice 1,460 lbs 5.25; rough 1,492 lbs 3.75; light mixed yearlings and fed heifers generally steady; some in between grades easier; light mixed yearlings up to 5.00; others 4.00-5.25; bulk cows steady to strong, 2.40-3.00; all cutters 1.50-2.25; bulls steady; heavy weights around 2.50; vealers steady mostly 5.00-down; few to 6.00; stockers steady.

Hogs 3.500; fairly active, mostly 5-10c lower; top 3.70 on 180-220 lb; bulk desirable 170-315 lb 3.55-3.70; 140-160 lb 3.40-3.60; sows 2.90-3.15; few 3.25; stock pigs scarce.

Sheep 12,000; lambs uneven mostly steady; top fed lambs to packers and shippers 5.65; bulk sales 5.30-5.50; medium to good clipppers 4.60-5.00; odd lots native spring lambs 7.00; sheep steady.

## N. M. INCOME TAX LAW MAY BECOME EFFECTIVE APRIL 15

Governor Seligman has signed the state income tax law, which is estimated to bring from \$30,000 to \$40,000 in new income. The bill introduced as senate bill SB137, passed both houses without opposition. Said to be insignificant it provides a graduated tax of 1 to 4 per cent on incomes from \$1,000 up. Married exemption is \$1,500 and \$200 is allowed for each dependent.

The bill carries an emergency clause which puts the law into effect immediately. Returns are to be filed by April 15th, if the tax is to be levied on calendar years, or on the 15th day of the second month after the close of the fiscal year if it be the basis.

Members of the tax commission do not think the law will become operative until next year, but an opinion has been asked from the attorney general.

## CAN YOU GUESS?

To what man in town do all the other men take off their hats? The barber.

What is the best material for kites? Flypaper.

Under what circumstances is it all right to lie? When in bed.

What is the hardest key to turn? Donkey.

Why do sailors wear white hats? To cover their heads.

When does a man weigh most? When he is the heaviest.

Where was King Alfred the Great crowned? On his head.

Tom went out, his dog went with him, but he went not before, nor behind, nor one side of him. Where did he go? On the other side of him.

## Crackers in their whole state

are as familiar to you as your own pots and pans—and quite as necessary to keeping house! But crackers crumbled or "cracked up" are something else again, and have brought a new art into the kitchen, along with about 1,500 recipes for foods that turn out right every single time!

You probably met your first cracker when the beginnings of your set of teeth brought you a piece of zwieback to gnaw on; you got to know graham crackers next, along about the toddling stage, and finally included in your repertoire all the kinds—plain and fancy and sweet ones. For crackers alone or with milk, are a meal in themselves and as "accessors to the fact" with soup or cheese or salad, have been making our tables festive since 'way back when.

But now crackers go in as well as on or with, and are used as foundations, ingredients and "extenders" besides. It all started when some clever crook banished the pie crust bugbear by making it out of crackers. That inspired the cooks who evolve our recipes and they found out that not only can you make pie crust with crackers, but that you can make delicious stuffings, muffins, cakes; that you can, in fact, use them to advantage in every course from a canape made on a snowy flake cracker to a dessert made with old fashioned ginger snaps.

## Easy, Exact and Economical

Brides and new cooks were in haste to take up the new art because they discovered how easy it is to prepare even the hard-to-make dishes perfectly and accurately. "The old hands" took it up when they realized its economy. Now, evidently believing in the axiom "such popularity must be deserved," all the cooks are doing it—and liking it! You will want to start your course with these recipes; they're taste-tested.

## Chicken Imperial

1 cup chicken  
2/ cup cracker crumbs.  
1 cup hot milk  
3/4 cup chicken stock  
2 tsp. pimiento  
1 tsp. onion  
1 tsp. parsley  
1 cup mushrooms  
Salt and pepper.

Dice chicken. Add crumbled flaked crackers, milk, stock, canned pimiento, onion, parsley. Cook over low flame 3 minutes; add cooked mushrooms and cook five minutes. Serve on heated crackers. 6 servings.

## Apricot Ice Box Cake

(Good to Look at, Too)

3 eggs.  
1 1/2 cups apricot pulp  
1/2 cup brown sugar  
4 tsp. butter  
1/2 sup whipped cream  
1 box vanilla wafers.

Beat eggs, and fruit pulp (canned or stewed) and stir over hot water until thick. Add creamed butter and sugar; cool. Fold in whipped cream. Line a loaf pan with waxed paper, and lay pan with waxed paper, and a loaf of vanilla wafers. Pour in mixture and top with wafers. Chill and serve with whipped cream.

## Cocoanut Taffy Pudding

20 soda crackers and combine with salt and hot scalded milk; cool. Melt sugar and butter in pan. Combine with first mixture and add shredded cocoanut and vanilla. Bake in oiled baking dish, set in pan of water, in moderate oven (375° F.) 45-50 minutes. Six portions.

## KIDNAP CHARGE FILED AT HOBBS MONDAY

Officers Monday night sought Lyle B. Durdy on a charge of kidnaping his three-year-old son, Gene Durdy from the home of Mr. and Mrs. Ben McGinnis at Hobbs Sunday afternoon.

The child, officers said, had been living with Mr. and Mrs. McGinnis's grandparents, since his mother, Mrs. Myrtle Durdy, obtained a divorce and complete custody of the boy. At the present time Mrs. Durdy is in California.

Durdy, McGinnis told officers when he filed a kidnaping charge against the father, had visited his son several times lately and Sunday afternoon took the boy down town to buy some candy. He failed to return and the grandfather called police.

A customer went to a restaurant and ordered a plate of hash. "Gentleman wants to take a chance," yelled the waiter to the cook.

## A new pumping engine COSTS LOTS OF MONEY

We have the most accurate reborring equipment in the valley and at a small cost can make your old engine more powerful than when new. See us or write us for prices. We can also put bearings in that electric motor or make those piston rings you have been wanting.

We do a general machine and repair business . . . If you bring it to Roswell! Bring it to us.

## The Palace Machine Shop

"We repair anything but a broken heart"

111-13 So. Main St. Roswell, N. M.

## Fly Your Kite

KITE-FLYING TIME is here again . . . and a fine healthy sport it is for boys and girls. But—it may be a dangerous one unless the kite is flown out in the open spaces away from all overhead wires. Wire should never have any place in kite-flying . . . neither as string nor a part of the kite, because of the danger of coming in contact with electric wires. Even though no bodily harm should result, serious damage to our lines may be caused, thereby inconveniencing users of electricity. Never climb poles to rescue disabled kites . . . you may fall or come in contact with electric wires. It is not our intention to discourage kite-flying . . . but we hope, with this friendly warning, to prevent accidents.

We will appreciate the co-operation of parents and teachers in warning boys and girls to avoid the dangers of kite-flying . . . to fly their kites in the open.

**Southwestern PUBLIC SERVICE Company**

### The Birds Tell You It's Spring Time

### GOVERNOR SIGNS LAST BATCH OF BILLS

**SANTA FE**—Governor Arthur Seligman Friday night wrote "Fin- ins" across the page of the 1933 legislature by signing the appropriations bill as the last of scores of enactment by that body. The records Friday night showed 35 bills died in the governor's office by pocket veto. Included in these measures were the mortgage moratorium, appointment of county health officers by county commissioners and fixing of salaries of county officers, mileage and feeding of prisoners.

Also included in the bills that died were SB1117, relating to the plugging of Artesia wells in Cha-

### How Much Will My Cattle Bring?

A farmer is offered a price for his steers which seems low. He telephones to another buyer and gets a better price. The telephone also saved him a trip to town. By telephone, the rancher and farmer keeps in touch with his neighbors and customers. He is within quick reach of the fire department, doctor or veterinarian in emergencies. It's a contact with folks who want to reach him quickly. And telephone service costs but a few cents a day.

The Mountain States Telephone & Telegraph Co.

### It's SAFE!

Everyone accepts the fact that Bayer Aspirin is the swiftest form of relief for headaches, neuralgia, neuritis, periodic pain, and other suffering. If you've tried it, you know. But no one need hesitate to take these tablets because of their speed. They are perfectly safe. They will not depress the heart. They have no ill effect of any kind. The rapid relief they bring is due to the rapidity with which they dissolve.

So, keep these tablets handy, and keep your engagements—free from pain or discomfort. Carry the pocket tin for emergencies; buy the bottle of 100 for its economy. The new reduced price has removed the last reason for trying any substitute for genuine Bayer Aspirin—each tablet stamped with this cross:

### AT THE CHURCHES

#### METHODIST CHURCH

We will have the regular service Sunday morning. The League will have charge of the program at the evening service; Sunday being young peoples' day.

REV. J. W. SLADE, Pastor.

#### CHRISTIAN CHURCH

Regular preaching services, by the pastor, next Sunday morning at eleven o'clock. Sermon subject: "The World's Greatest Need." This will be a sermon on present day conditions and one you should hear.

Bible school at 10:00 a. m. Christian Endeavor at 6:30 p. m. You are always welcome at—A friendly church, A worshipful service, A Bible message.

C. C. HILL, Pastor.

#### ASSEMBLY OF GOD

The revival continues every night at 7:30 p. m. The full gospel in sermon and song. This week's services deal with prophecy revelations and the millennial reign. Come and hear Brother Lee.

MR. and MRS. GEO. BIXLER Pastors.

### FARM PROGRAMS TO BE HEARD OVER KOB

The following programs broadcast over KOB at Albuquerque each evening at 7:00 p. m. may be of interest to many of our readers on the farms. These programs run to April 1st: March 23—"Child Training and Care," Mrs. Grace Long Elser. State College News Flashes. "The State Department," Jas. G. McDonald.

March 24—"The Lamb Crop and Profits," A. L. Walker. "Your Farm Grown Feeds," F. E. Oakes. Pressing Issues.

March 25—"Experiences of Producers of Irish Potatoes," P. W. Cockerill, Asst. Economist. "Instruction in Dairy Husbandry at State College," O. C. Cunningham.

Medical Talk, "The Health Value of Spring," Lloyd Arnold, M. D., University of Illinois.

March 27—"Growing Certified Seed," G. R. Quisenberry. Talk to High School Students, Dr. H. L. Kent.

Rural Life Series, "Springtime Down on the Farm," Dr. Aretas W. Nolen.

March 28—"Produce and Market Quality Eggs," A. L. Walker. State College News Flashes. "Facism in Japan," Jas. G. McDonald.

March 29—"The Problem of Erosion in New Mexico," E. P. Fleming, dean of engineering. "The New Garden Circular," Extension service.

Citizens Forum. March 30—"A Lady's Fancy in Spring," Miss Dee Maier. State College News Flashes. "The Schools Belong to the People," Willard E. Givens, Superintendent of Oakland School.

March 31—"Preventing Death Losses on the Sheep Ranch," A. L. Walker. "The Place of Your Farm Grown Feeds in a Ration," F. E. Oakes.

Pressing Agricultural Issues. April 1—"The Forgotten Man—The Farmer Who Is Free From Debt," P. W. Cockerill. Junior Extension Clubs in New Mexico," Extension Service. Medical Talk, "Rabies," Lloyd Arnold, M. D.

"Shall we ever achieve the Utopias of which we dream?" is often asked. It is well to have faith that we shall, as a spur to endeavor. As Browning wrote: "All that we have willed or hoped or dreamed of good shall exist . . . when eternity confirms the conception of an hour."

#### Horse's Pulling Power

In determining the average pulling power of a horse, much depends on the kind of surface over which an object is pulled, its tractive qualities and the resistance of the object to be moved. In actual pulling contests horses have generated more than ten horse power.

#### Ignorant Peer

There is a story of an English nobleman so ignorant that being told a Sir Matthew Dexter wrote St. Matthew's gospel he not only believed it but left in his will a large sum of money to Sir Matthew to be by him distributed among the poor.

#### Performance

"An capable workman," said Hi Ho, the sage of Chinatown, "will not boast of the ease with which a task can be performed. Each task may present new difficulties which should be studied in silent sincerity."—Washington Star.

### DexterNews

Mrs. John Wier who has been ill for the past ten days is able to be out again.

Mrs. Alven McKnabb and Mr. and Mrs. John Laney spent Monday in Roswell as the guest of Mrs. A. C. Jones, Jr.

The Ladies Aid Society of the Presbyterian church met Tuesday afternoon with Mrs. Raymond Durand as hostess.

The Home Ec. girls of the Dexter school chaperoned by their teacher, Mrs. Ruth Andrews, attended the convention held in Artesia Saturday.

Mr. and Mrs. John Bailey entertained with a St. Patrick dance Tuesday night. Dexter orchestra furnished the music and at midnight doughnuts and coffee was served.

The Home Extension club met Tuesday at the home of Mrs. Earl Latimer, with Miss Faulkner and Mrs. Latimer as joint hostesses. At noon there was a covered dish luncheon.

E. O. Moore Jr. celebrated his fifteenth birthday last Sunday, by a line party at the theater in the afternoon and a delightful dinner party at his home following the show.

St. Patrick colors were reflected in the house decorations and the delicious salad course served by Mrs. Frank Reinecke, Thursday afternoon, when she entertained the Missionary Society of the Methodist church at her country home west of Dexter. Mrs. Curtis Sharp was in charge of the afternoon lesson.

Little Jimmie Wiley suffered a bad accident Saturday while visiting at the home of Mr. and Mrs. John Wier southwest of Dexter. Jimmie was run over by a trailer of a car, was badly bruised and cut, which made it necessary for Dr. Hubbard to take fifteen stitches under one arm. Jimmie is doing as well as could be expected, but will be several days before he will be up and around again.

#### Retain Savage Ways

The Iquitos, a tribe of South American Indians, are divided into many branches, some on the River Tigre, others on the Nany. Missionary efforts have failed and they remain savages, worshipping figures carved in the shape of birds and beasts. They brew the Indian fermented liquor chicha better than any of the neighboring tribes, favoring it with the shoots of some plant which has the effect of an opiate.

#### Old College Executive

In 1933 the regular course of academic studies at Harvard began, degrees being conferred four years after. Nathaniel Eaton, with the title of master or professor, was the first in charge. He was appointed in 1937, but two years later was dismissed from the institution and was followed by Rev. Henry Dunster, the first college executive in the United States to bear the title of president.

#### Old Phrase

"King's English," meaning the English language as it should be spoken, is a very old phrase. Who originated it is not known for certain. Shakespeare used it in the "Merry Wives of Windsor," but it is supposed that it was old already then. "Queen's English" is used in the same sense.

#### Heathen Emperor's Advice

Be not ashamed to be helped, for it is thy business to do thy duty like a soldier in the assault on a town. How, then, if, being lame, thou canst not mount up on the battlements alone, but with the help of another it is possible?—Marcus Aurelius.

#### Not a Nonsense

Henry Brewster Stanton, husband of Elizabeth Cady Stanton, was prominent in anti-slavery movements and assisted in the reorganization of the Republican party, 1858-60. He was for many years on the editorial staff of the New York Sun.

#### REPRESENTS FRANCE

M. Andre de Laboulaye who is the successor to M. Paul Claudel as French ambassador to the United States. M. Claudel is being transferred to another post.

### SOCIAL ITEMS

#### ENCHILADA SUPPER

A group of girls enjoyed a delightful evening with Miss Lillis Mae Andrus on Wednesday. After a supper of enchiladas, salad and caramel pie topped with marshmallow frosting, and ice tea, the party played games. Guests were Misses Ruby Baker; Martea Graham; Betty Mann; Elizabeth McKinstry; Nadine Mann; Jaucile and Jewel Barnett. Miss Lillis Mae was assisted by her mother Mrs. Perry Andrus.

#### R. T. C. PARTY

The R. T. C. girls met on Saturday evening with Miss Flora Hughes.

St. Patrick's games were the fun for the evening, and shamrock cakes, sandwiches and punch were served to Misses Marion Key; Gladys Menefee; Thelma Robinson; Evelyn Lane; Flora Hughes, and Miss Jessie George, the sponsor; and guests Misses Margaret Slade, Carolyn and Merle Sweatt. Favors were all day suckers decorated to represent St. Patrick.

#### BRIDGE PARTY

Complimentary to Mr. and Mrs. E. V. Sweatt, who moved to Carlsbad, the bridge club was entertained on Saturday evening at the home of Mr. and Mrs. Jack Sweatt.

Four tables of bridge players enjoyed the evening. Refreshments of angel food cake and coffee were served to Messrs. and Mesdames R. M. Ware; Harrison, McKinstry; J. T. West; Ernest Bowen; E. V. Sweatt; Lloyd Harshey; E. E. Lane; Miss Clyde Pierce, the host and hostess.

#### JUNIOR CLASS PARTY

The Junior class sponsored a party on Saturday evening, complimentary to Edward Sweatt, one of their class, who left on Monday to attend school in Barstow, Texas, the remainder of the year.

Chaperones were Mr. and Mrs. Price Curd; Misses Nora Clemons, the class sponsor; and Nelle Burt. Games were supervised by Misses Eulalia Merchant; Elizabeth McKinstry and Evelyn Lane. Guests were the high school pupils, and a very large crowd was present.

#### HOME EXTENSION DAY

On Wednesday, at the home of Mrs. Tom McKinstry, a number of ladies met for an all day session of helpful hints about remodeling clothes.

Miss Dee Maier, of State College was present to conduct the lessons which proved to be very helpful. For the covered dish luncheon was present also, Mesdames Tom McKinstry; Edmund McKinstry; Lloyd Harshey; and Mrs. Dexter, Mesdames Schuyler Smith and Ira Marshall. In the afternoon, Mesdames Waldron Jacobson; Ernest Langenegger and John Campbell came.

#### SERIES OF DINNERS

Mr. and Mrs. Ed Blackwelder had on Sunday for turkey dinner, Misses Laura Moss; Margaret Edmondson and Grace Cole of Dexter and Mr. and Mrs. Tom McKinstry. On Monday evening for dinner, their guests were: Mr. and Mrs. Lloyd Harshey and family.

#### ST. PATRICKS DAY PARTY

The St. Patrick idea was carried out in a party given by the L. C. club on the sixteenth of March at the home of Mrs. Lester E. Henrichsen.

After a scripture reading and a prayer, a business session was conducted by the retiring pres. because of the absence of both the pres. and vice pres. Roll call created much merriment. Each one answering with Irish wit, games were played, and delicious refreshments were served by the hostess, the color scheme of Irish green and white being used. Fourteen members and two guests, Meslames Spurgeon Wiggins and Parnell were present.

### HEALTH COLUMN

Conducted by Dr. J. R. Earp, Director, New Mexico Bureau of Public Health.

#### GONORRHEA

Based on surveys made in other parts of the United States and at a conservative estimate there must be 2,000 new cases of gonorrhoea in New Mexico every year.

Many of these cases are not seen by any doctor. This means that hundreds of men believing themselves cured when they are not cured pass on the infection to their wives.

Gonorrhoea is a disease which often leads to serious results. It is the commonest cause of sterility in both men and women. At least half of the major operations on the female abdominal organs are
