

THE MESSENGER

HAGERMAN, CHAVES COUNTY, NEW MEXICO, THURSDAY, SEPTEMBER 7, 1933

NUMBER 36

A friendly town
A friendly community
Served by a friendly paper.

THIRTY-TWO

BERMAN BANKER'S NEW MEXICO ASSOCIATION

W. C. T. U. SPEAKER HERE

Miss Grace Leigh Scott, special lecturer for the national Women's Christian Temperance Union, will speak at the Methodist church Monday night at eight o'clock. Miss Scott is nationally known for her educational work among both children and adults, and she has the endorsement of schools, governors, welfare societies and churches. Everyone in the entire community interested in all phases of the prohibition question, is especially invited to attend this meeting held under the auspices of the local chapter of the W. C. T. U.

HAGERMAN SCHOOLS OPEN THIS SEASON LARGE ENROLLMENT

Hagerman school is off to a glorious start this year, with an enrollment at the beginning of the term of nearly four hundred, and the prospects of increasing this number to nearly five hundred.

There were on the opening day, 292 students in the grades, with 90 in the high school department.

A few changes for the better have been made in the policies of the school for the coming year. The former requirements for the Northcentral Association have been raised and it now becomes necessary to enrich the course of study offered by the academic department of the Hagerman high school to meet these standards.

Heretofore students had no opportunity to major in science, but this year they have been extended some privileges along this line. Miss Peggy Harrison is offering a course in general science. Professor Price Curd is offering an additional course in biology. In other years, only one laboratory science has been offered. Each year science courses have been finding a larger place in secondary schools and universities.

Brennon Witt will be coach this year, and it is hoped that the 1933-34 athletic season will be very successful under his leadership. Hagerman high has good basketball material this year, although the boys seem somewhat handicapped by lack of weight.

Dr. H. M. Brown, during his practice, one of the finest physicians in Chaves county, spent Tuesday in town visiting old acquaintances and friends.

A MASS MEETING OF HAGERMAN CITIZENS HELD TUESDAY NIGHT

Twenty-two men attended the banquet of the Men's club Tuesday night and later met with citizens of the community at the school house to discuss the proposition of a sewer system and water works for Hagerman.

Mayor West explained the sewer proposition to the group and answered questions which the property owners asked in this regard. The system will cost in the neighborhood of \$15,000, one-third of which is donated by the United States Government. The sewer lines will just be laid along the streets of the main part of town, extending as far west as Jim King's place, and the home of Dub Andrus. As far south on the west side of the tracks as the Tressler residence. The south side on the east of the railroad will be along the street where the C. G. Mason, A. L. VanArsdol and Ben Jack West houses are situated. The lines will go as far north as the George Lathrop property, and will include the school building and both gins.

The money for the building of a sewer can be borrowed at four per cent interest. About \$7,500 will be put out for labor alone, and will benefit the people of Hagerman who are unemployed at the present time, as well as the entire town.

The water works will cost about \$45,000, a third of which is also donated by the government, with the rest loaned at four per cent interest. Bonds will have to be sold on a fifty year basis, provided the voters agree.

Both the water works and the sewer propositions will have to come before the voters of the town at the next election which can be held for that purpose—in April, 1934.

The citizens at the mass meeting Tuesday night expressed themselves as being in favor of both the sewer system and the water works.

GOES TO COSTA RICA

Leo Sack, Washington correspondent for Scripps-Howard papers since 1919, has been named United States minister to Costa Rica by President Roosevelt. Mr. Sack is a native of Tupelo, Miss., and is an Independent Democrat.

THREE ARRESTED ON A LEA CO. ROBBERY CHARGE FRI. NIGHT

Officers Roy Vermillion and J. M. Jackson arrested two men and a woman Friday night, three miles above Lake Arthur, wanted in Lea county for robbery. According to information here the trio, who gave their names as Bruce Scroggins, Robert Kent and Leona Kilen robbed a hardware store at Lovington on the night of August 28th and took several tires from a Hobbs tire house the following night.

The three were asleep when caught. They were delivered to the Lea county sheriff and his deputy Saturday.

REPEAL WINS IN VERMONT

MONTPELIER, Vermont—Vermont, long a rockbound prohibition stronghold, Tuesday joined the parade of states favoring repeal of the 18th amendment.

It was the 25th consecutive state to record itself in opposition to retention of prohibition in the constitution. No state has voted for the amendment.

Complete returns of Tuesday's special prohibition repeal election from 248 towns and cities in Vermont, gave: for repeal 41,279 and against 20,572.

The National Oil Allowable Is Set

WASHINGTON, D. C.—Secretary Ickes Saturday fixed at 2,408,700 barrels the daily production of oil in formally putting in effect the NRA trade code for the \$12,000,000,000 industry without attempting price fixing for the time being.

The division of the production among the oil states was announced by the administration as follows:

Texas 975,200; Oklahoma 540,000; California 480,000; Kansas 112,000; Arkansas 29,000; Louisiana 70,000; New Mexico 41,400; Rocky Mountain States 38,900; Appalachian 94,200; Michigan 30,000.

The allocations become effective at 7:00 a. m. September 8, and the order provides there shall be no withdrawals from storage except upon order of Ickes, after approval by the industry's planning and co-ordinating commission.

Imports are limited to the average daily influx during the last six months of 1932.

Ickes designated the central proration committee of California as the agency in the state, which lacks an oil regulatory body, to allocate production within California.

With these steps, the code became formally effective, but numerous revisions still were pending on Ickes's desk for final determination. The code affects an estimated 1,200,000 workers and leaders have said these would be increased by 250,000 in the next few weeks.

Soon after Ickes made known his decision to the oil committee, he announced to newspapermen that on price regulation "I see no occasion to exercise a power which I don't have to exercise," adding:

"The prices were not fixed with the code's becoming effective because I don't know what will be necessary. I want to see the effect of balancing supply and demand."

If the rigid control over production does not take care of prices, Ickes said, he will consider "raising prices" by fiat, explaining "no door is closed" by his present decision.

Informed of recent price hikes by major oil companies and others in advance of the code becoming effective, Ickes said "gouging of the consumer" would be tolerated by the administration.

"We are going to watch very carefully the retail price of gasoline," he said. "I hope it won't get out of a fair and proper relationship to the price of crude oil."

NABBED AS KIDNAPER

Harvey Bailey, escaped convict, who was arrested at Paradise, Texas, by federal officers for the kidnaping of Charles F. Urschel, Oklahoma City oil man. He was identified as one of the machine gunners who killed four officers and a convict in Kansas City last June.

OIL SEVERANCE TAX CASE ARGUMENTS STARTED AT CAPITOL

SANTA FE—Filing of briefs in the oil severance referendum suit in the New Mexico supreme court advances the case to the argument stage. The appellees filed the last brief. The question before the high court is whether the referendum petition is valid.

All action but argument has developed in the delinquent tax collection suit, also stopped by referendum at least temporarily.

The validity question revolves about whether the legislature can declare an emergency, or whether the emergency clause on a bill is to fix time and not put the law beyond the reach of the voters. Another factor is that part of the severance tax revenues goes to support of schools. The constitution provides school revenue may not be interfered with.

POSEY HAS HEARING

Tony Posey, charged with murder in the death of his father-in-law about two weeks ago, Saturday was bound over to district court, January term, without bail at Alamogordo.

The state witnesses at the preliminary hearing were Gladys Penline, 18, daughter of T. A. Pendergrass, the dead man, and a son, Paul. The mother was ill and unable to attend.

TAX COLLECTIONS UP

Gasoline tax collections for last month totalled \$230,412.27, State Comptroller Juan N. Vigil said Saturday, showing a gain of about \$11,000 over the same month in 1932.

EQUIPMENT TO PLUG WELLS

Equipment for plugging forty leaky and abandoned artesian wells is on the ground and plugging operations, which have been delayed will be started the latter part of the week. Work is to start in the northern part of the basin.

FIRST BALE 1933 COTTON WAS GINNED HERE LAST TUESDAY

The first bale of 1933 cotton was ginned Tuesday at the W. W. Akin gin, ushering in the finest cotton crop of many years.

The cotton was grown by J. L. Bartlett on his farm one mile west of Hagerman. Van Bartlett has brought in the premium bale every year for a number of seasons, but his crop was just a little later this time. Last year the first bale came on the third of September, or two days earlier than this season. In 1931, Van Bartlett also ginned the first bale—on September 12th.

The first bale Tuesday weighed 490 pounds and was weighed out on the Hagerman Alfalfa Growers scales because of the repairs being made to those at the gin.

Other cotton in this section is rapidly opening, and many bales will be out by the last of the month. The price is fairly steady, though a bit disappointing to some who thought that it would hold up above twelve cents, with fifteen cents in the prospect.

In addition to the good cotton crop, Hagerman farms are producing an abundance of alfalfa this year. The price of hay is gradually increasing, being at present, over twice as much as it was at this same time last year.

The outlook is favorable for a fine year in the Pecos valley. Although the market has been comparatively low, still owing to the fact that every farmer has economized as much as possible and labor and fuel have been cheap, profits will be larger than for the last two years. The price of picking has not been set as yet.

KIDNAPER ESCAPES IS CAUGHT MONDAY IN OKLAHOMA CITY

OKLAHOMA CITY, Oklahoma—Manacled and guarded by machine guns, Harvey Bailey, accused kidnaper of Charles F. Urschel, Oklahoma City oil man, was placed in the Oklahoma county jail here shortly after 6:00 p. m. Monday following a dash from Ardmore where Bailey was recaptured four hours after escaping from the Dallas jail.

ARDMORE, Oklahoma—Harvey Bailey, one of the nation's most desperate criminals, was captured at the end of a wild automobile chase here Monday four hours after he made a sensational escape from the county jail at Dallas, Texas, by using a smuggled pistol.

Cornered in a smashed sedan on a main intersection of this southern Oklahoma city, the accused leader of the \$200,000 kidnaping of Charles F. Urschel, Oklahoma City oil man, and one of the asserted machine gunners in the slaying of four officers and Frank Nash, federal convict, at Kansas City June '17' surrendered quietly to three Ardmore policemen.

Bailey made no move toward the pistol that lay on a seat beside him.

By his side, protesting, "I'm a jailer," sat Nick Tresp, Dallas jail turnkey, whom Bailey had kidnaped.

It was Tresp's car that was wrecked beside the curb.

OIL COMMITTEE TO MEET AT SANTA FE SEPT. 22nd.

The Hobbs proration committee has asked for a meeting at Santa Fe September 22nd, with Governor Seligman, Land Commissioner Vesley and State Geologist E. H. Wells.

The Methodist parsonage is being re-roofed with tin, laid on by the Tressler process.

GINNERS ORGANIZE STATE ASSOCIATION AT ARTESIA MEETING

Pecos valley ginner met at Artesia Friday with a committee of 6 from the Mesilla valley and formed a tentative state association and approved the NRA ginner's Code. In approving the ginner's code the association called attention to the sterilization of the cotton seed, a factor which is expensive and which is not considered in other ginning districts. A permanent state association will select representatives to represent the association at the national meeting at which time the NRA code will be taken up in detail.

Ginner have asked for a rate of 60 cents per hundred for ginning long staple cotton, which applies to the Pima variety and thirty cents for short staple. In as much as sterilization has to be considered in this district and the cotton to be ginned measures 1 1/16 inches, valley ginner feel that they should be allowed a better rate than the minimum for ginning valley cotton.

A committee of ten, five from Chaves and five from Eddy were appointed to represent the valley at a meeting to be held in El Paso, Texas on Monday at which time a permanent state organization was formed. Committee members named from Chaves county were: O. A. Pearson, Hub Gifford, L. Martin, C. W. Curry and John Tweedy. Eddy committee members include: C. W. Beeman, Allen Tipton, L. T. Lewis, W. R. Hornbaker and Walter Craft.

Twenty-three gins were represented Friday and the committee of six from the Mesilla valley represented eighteen gins from the El Paso and Mesilla valleys.

State Association Formed

A situation was brought about that left the Pecos valley ginner the choice of joining the Texas Ginner's association or forming a state association, after El Paso and Las Cruces ginner affiliated with the Texas association. Because of the peculiar problems affecting the cotton growing sections of New Mexico, it was felt that a state organization was needed and accordingly the El Paso and Las Cruces ginner withdrew from the Texas association to unite with the New Mexico ginner's association, which was organized at El Paso Monday. Officers elected were: C. W. Beeman, Carlsbad, president; J. A. Sweet, Las Cruces, vice-president; W. H. Gary, Lamesa, secretary-treasurer. The association elected to retain John Tweedy of Roswell as a representative to the national association at Memphis, Tennessee.

Every gin in the valley was represented at Monday's meeting.

LAWING MARKET MOVED

The Lawing Market is being moved across the street to the building formerly owned by Perry Cristler, which was recently purchased by Tom Lawing.

The building is being repaired to accommodate the stock and fixtures, and contains much more floor space than the one now being vacated.

Tom Utterback and Max Wiggin left for State College in Tom's ninth wonder of the world. They expect to make a non-stop flight.

800 TO 1,000 DEER TO BE REMOVED FROM SACRAMENTOS SOON

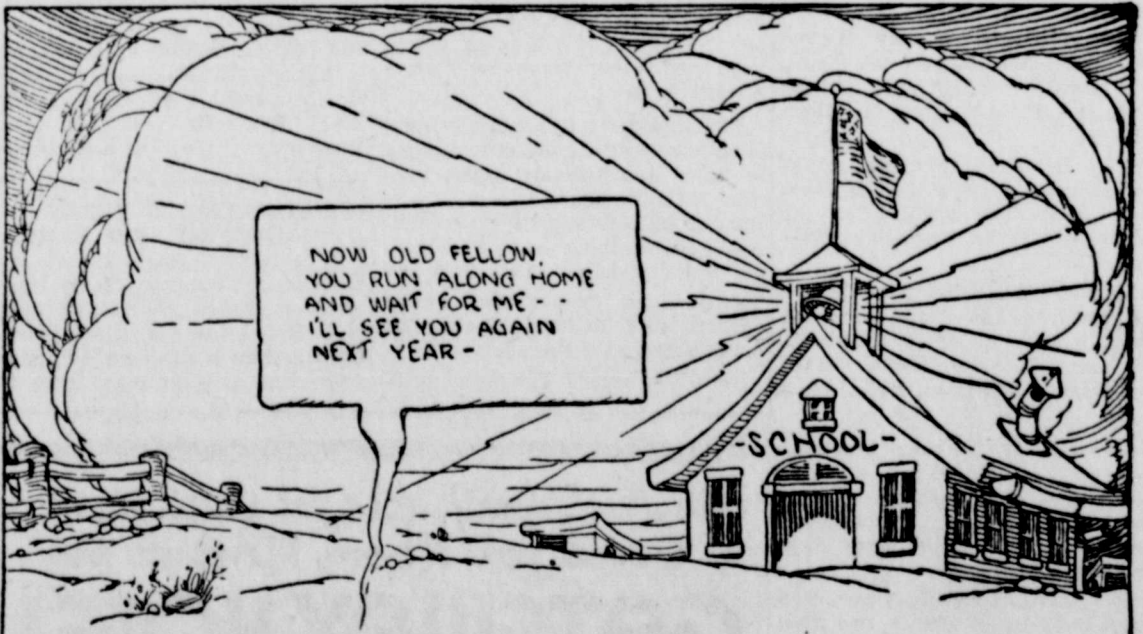

With the aim of removing from 800 to 1,000 deer from the Shelton and McCracken ranges, Otero county, the game commission will issue 500 permits to hunters in this district. The fee will be \$2 in addition to the big game license fee.

The doe season is to be coincident with the big game season. No hunters will be permitted in this territory except those who hold doe permits. Each hunter will be allowed to take a buck and a doe or, if he surrenders his buck tag, to take two does.

The 500 permittees will be divided into three groups and sent into the ranges at different times. The first two groups will have seven days each; the third, eight days.

If there are more than 500 applications for doe permits there will be a drawing to decide who gets them.

HAROLD DYE, Managing Editor

Only Weak Characters Indulge in Self-Pity

Never complain. Let that be your leading principle. Self-pity is one of the worst habits any one can have. Unfortunately innumerable persons have this evil habit, to their own and other people's misfortune. By pitying themselves, by continually pondering on their troubles and making a display of these in order to arouse pity in others, they increase their own sufferings without doing themselves any good whatever. Self-pity is sentimentalism of the most foolish kind, and is characteristic of the weakling. Just as dirt is matter in the wrong place, so is sentimentalism a feeling in the wrong place!

We are equipped with feelings that we may be activated by them to leave undone that which may be noxious, and so seek out that which will be advantageous. When we suffer pain, we should turn it to account by noting that something is going on which must be altered, and by setting to work on the instant to make the necessary change. If, instead of doing this, we surrender to the pain, we are not true persons of feeling, but sentimentalists. There are, unfortunately, more sentimentalists than persons of true feeling, and in every one of us there is a considerable infusion of sentimentalism. Almost all of us like being commiserated, are fond of indulging in self-pity, thereby doing ourselves more harm than we imagine.—E. Tietzens.

Athenian Citizen Seen as Man of Many Parts

Pericles' age shows that the outstanding Athenians were men of parts. Sophocles, for example, is now known as a poet only, but in 442 Pericles named him chief treasurer of the city. Besides, he was a big business man, politician, warrior, gentleman—quite the man about town.

But the average Athenian of the time likewise occupied varied roles. He was cultured, but as Pericles once stated, he was almost as good a soldier as the war-loving Spartan when conflict was at hand. He was a better sailor, in fact, thereby making his city supreme on the sea as was Sparta on land.

Greece, particularly Athens, is synonymous with such terms as mythology, early culture, and others, yet the study of the intimate details of Greek life is a field that has been barely scratched. Professor Merritt, historic authority, says:

Splendid Work in Africa

The medical missionaries of West Africa have brought about a decided improvement in the condition of the natives, particularly as concerns sleeping sickness and leprosy. Government officials have made tests and reported that the percentage of the entire population having sleeping sickness virus circulating in their blood has been reduced to 2.6 per cent, and that the percentage of new cases in the entire population has been reduced to 1.35 per cent. The conclusion is that while the disease is not yet completely stamped out, it is no longer epidemic. The vigorous measures of government and missionaries have saved villages and tribes from practical extermination.

Duties of Floor Leader

A floor leader is a member designated by his party caucus to have charge of the party strategy in the house of congress of which he is a member. He follows the proceedings carefully and accurately, in order to speak effectively when necessary. He has the duty of arranging the order in which other members of his party may speak on a given measure.

Thinnest Sheets of Gold

The thinnest sheets known to have been mechanically made of gold are 0.00001 millimeter thick. This would indicate that if a cubic centimeter of gold could be hammered out to the same thickness it would cover 100,000,000 centimeters, or 100 square meters, equivalent to 120 square yards.

White House Servants

Cooks, chambermaids, laundry women, butlers and pantrymen, about 20 in all, are provided by the government for service at the White House. Such personal servants as the President and his wife may choose to accompany them to the White House are paid for by the executive.

The only ship that comes in for the man who waits is receiver-ship.

Man is like an egg— Keep him in hot water long enough and he becomes hard boiled!

The kid brother has been in school a whole week and hasn't got paddled yet. He is a disgrace to the family.

My wife slapped me the other night and cracked one of my front teeth. She said that she was asleep and was probably hitting at a mosquito. I bought her a pair of boxing gloves to sleep in and I am using a catcher's mask for a night cap.

A Scotchman had been advised by his physician that he had a floating kidney. He was very much disturbed by the diagnosis and went to the minister of the Kirk with a request for the prayers of the congregation. "I don't know," said the minister dubiously. "I'm afraid that at the mention of a floating kidney the congregation would be inclined to laugh." "I don't see why they should," replied the suffering one. "It was only last Sabbath you prayed for loose livers."

Grandma used to sit and knit, But now she seeks a thrill; Her crochet work she had to quit, Her knitting days are nil. She stays away from skating rinks; Of course, she never pets— But, lordy, how the lady drinks and puffs on cigarets! An tho her hair has grown quite gray

She wears a wind blown bob; And when the dancers dip and sway

At automats she spends a dime, On roads she likes to speed; Old Father Time will have a time In getting grandma areed!

Deer editor colon there hain't no earthly use in kickin' up a row about main street comma you can't git anything done about it anyhow these durn demmycrats is worse than the republikins besides the farmers like to have the road that way because they kin start to town with a five gallon can of cream and churn it into butter and sell it to the people at a big profit with the highway doin' all the work period but the funniest dang thing i ever seen wuz last Sunday night while my ant susie duz driving our twenty-one model flivver home period yuh see my ant susie has got a wig and the road shook it off on the ground and the wind started blowing it along the bumps and it grewed legs jest like the evolution yuh read about and when my ant had stopped the lizzie her wig wuz settin' on Dub Andrus' fence makin' love tuh his tom cat period good bye till i git another inspiration but fer pete's sake lay off the road or yuh will git kinks in yer spinal column— happy hector

The editor had written a hot editorial which Happy Hektor had read, and which caused the foregoing comments by that gentleman. We killed the editorial in view of the fact that Main street is now being repaired, but we are running Happy's letter because we are afraid of him.

THE FENCE REMOVAL ORDER STANDS

The Ickes fence removal order will stand in New Mexico. Federal loans on roaming livestock, quarantine provisions and other reasons advanced by the governor, land commissioner and others in the state, were of no avail so far as could be learned. It was heard in informed circles the stockmen of New Mexico would pay no attention to the fence removal order and would go to court and make the government obtain court orders for permission to take down fences. It was expected such tactics would delay the fence removal until some other means of adjustment is found.

Smilin' Charlie Says

Remember - while you're wasting time - time is wasting you!

Odd—but TRUE

Dexter News

John Mehlhop is home from Las Cruces, where he went for the week-end to visit friends.

Bob Reid left Monday morning for Albuquerque, where he will spend the week visiting relatives.

J. W. Sharp and daughter, Miss Gayle, went to Farmington Friday where Miss Sharp will teach this winter.

Jack Hubbard left last week for Las Cruces where he will enter the New Mexico State College for his second year college work.

Breeb Hurst and Fred Danley went to Carrizozo yesterday morning, where they will spend a few days looking after business.

Frank Reinecke returned home Sunday night from Albuquerque where he spent the week-end visiting relatives and looking after business.

Mr. and Mrs. T. F. Nelson and daughter, Juanita left Wednesday for San Marcos, Texas, where they will spend the next two weeks visiting relatives.

Spring Mound school opened Monday morning with a splendid enrollment. Everett Stanley is teaching this school again this year.

Mr. and Mrs. Irwin Ashton and sons left yesterday morning for Los Angeles, California where they will spend the next two or three weeks.

Mr. and Mrs. Tommy Wayne are pleasantly located at Dora, this state. Mr. Wayne is the agricultural teacher in the Dora schools.

Miss Jewel Sharp a student at Las Vegas is home for a short visit before the opening of the fall term at the Normal University.

Mr. and Mrs. Harley Coble and daughter of Las Vegas are the house guests of Mr. and Mrs. L. W. Marshall. Mrs. Coble will be remembered as Miss Edith Marshall.

Mr. and Mrs. Frank Wortman and children are home from a two weeks' visit with relatives in Flagstaff, Arizona. While away the Wortman's spent four days at Grand Canyon.

The Parent Teachers Association are entertaining with a reception in the auditorium of the Dexter school building Friday night complimenting the Dexter school faculty.

Miss Gayne Reavis who had been visiting Miss Velma Lee Senn for several weeks left Friday for El Paso, Texas where she will spend two or three weeks before returning to her home in Sweetwater, Texas.

Mr. and Mrs. J. T. Mills returned Friday afternoon from a months vacation with relatives in Iowa, Missouri and Oklahoma.

Steve Wells and M. L. Cook of Sweetwater, Texas were guests of Mr. and Mrs. J. E. Senn and Miss Senn Friday night.

Walter and Ralph Stone and Fate Kuykendall went to Las Cruces last week. Ralph and Fate will be freshmen at State College this year. Mrs. A. T. Stone visited her sister, Mrs. Calloway at Alamogordo while Walter was in Las Cruces.

Wyatt and Everett Stanley returned Friday night from a two weeks' visit with relatives in

NATIONAL PARK HEAD

Arno B. Cammerer is the newly appointed director of the national park service. He was formerly associate director and succeeds Horace M. Albright. Mr. Cammerer is a western man, having been born in Arapahoe, Neb., fifty years ago. He entered the federal service in 1904 as an expert bookkeeper in the Treasury department.

Iowa, Illinois and Indiana. While on the trip the boys also visited the Century of Progress exposition in Chicago, making a full and worthwhile vacation.

Luther Caraway arrived Saturday night for a short visit with the Senn family and for his wife and daughter, who have been visiting in the valley for the past month. Mr. and Mrs. Caraway and Nancy Jo left Monday afternoon for their home in Sweetwater, Texas.

Mr. and Mrs. Raymond Durand entertained with a delightful party at Lake Van Tuesday night, honoring their house guest, John Benton and George Wesley Fulton. At six-thirty the young people enjoyed a swim, then a delicious picnic supper was spread on the lawn, dancing in the club house followed the supper.

Rev. Dr. Gerritt Verkuyle, author, lecturer, preacher and teacher of Chicago, Illinois will be in Dexter the week beginning September 17th, for a "Christian Leadership Course Training in Worship" for the benefit of any one who cares to take it. The course will be given at the Presbyterian church. A large number of people have been enrolled for this course.

MAY LOCATE C. C. C. CAMPS

SANTA FE—The state park commission expects to begin making applications for winter C. C. C. camps by the end of this week, State Highway Engineer G. D. Macy, chairman said Tuesday.

Twelve projects now are under consideration, he said, but the commission has not yet reached a definite decision on any.

The projects being discussed include a park on Santa Fe river, work on the Pecos ruins, parks on either side of the Rio Grande at Albuquerque, Ruidoso, Sacramento Mountain, Cimarron, Fort Union, El Moro, Chaco Canyon, Bosque Redondo (near Ft. Sumner), Gran Quivira and Jemez.

Insofar as the state is required to own the land on which the work is to be done, it is believed some of these projects may be automatically eliminated.

Bridge followed the dinner service.

The Dexter school opened Monday morning, September 4th with an enrollment of 391 students and a splendid faculty. The opening program given in the school auditorium at nine o'clock Monday morning was one of the best ever given in Dexter. The auditorium was packed and the audience very appreciative. Rev. Anderson gave a short prayer, asking God to guide the teachers through their work this year; Miss Harper, music supervisor, gave two splendid violin numbers and a reading that pleased every person present; Mr. Parker, superintendent gave a short talk as to the plan of the year's work and asking the support and good will of all patrons and pupils; Mrs. Parker in a most pleasing and delightful manner gave two musical numbers and a reading, which were very enjoyable; E. O. Moore, president of the board of education, Oscar Kunkel and Frank Wortman, also board members, made short talks.

TO VALUABLE PROTECTIVE FOOD

It comes a time of year when people everywhere may enjoy tomatoes at their best, Miss Veda Strong of the New Mexico State College. That is here, as you do not need to have garden space in order to grow your own. But the gardenless, may that the vine ripened, home tomato is a much more fruitful fruit than the one grown miles away, picked for miles when still green and packed in storage. All the fine values of the tomato, as well as the flavor, are at their best when the sun has had full opportunity to do its work on and ripening fruit.

Season for home grown tomatoes is now at its height. All the country family gardens, holding, commercial growers getting their crops to market, and factories are busy producing tomato juice, canned tomatoes, catsup or chile sauce that appear on countless thousands of tables next winter. The canning industry is busy with its patch, community canning is putting up tomatoes for relief supplies later on. Last year the tomato crop that was marketed amounted to more than 18 million bushels of fresh tomatoes, and the canneries put more than one and a half million tons—nearly all used in the United States.

Modern science finds tomatoes to be the best of the "protective" because they are a good source of just one or two, three of the vitamins. Then there are those very important vitamins of the tomato which are unusual for cooking and eating. Vitamin C, for which tomatoes are particularly valuable, is destroyed by heat, but the acidity of the tomato helps to preserve this loss. To a less extent the same thing is true of Vitamin B also. Again, because tomatoes are easier to digest than other vegetables. Canned tomatoes—when fresh tomatoes are at their best—are so convenient as a winter food that dietitians recommend a serving of them three times a week.

NEW MEXICO FLOCKS ALL DO THEIR PART

Even in the depression year of 1932, New Mexico farm flocks produced poultry and eggs valued at more than one and one-half million dollars, says W. M. Ginn of the New Mexico State College. One of the more interesting aspects of that figure is that almost half of this production was consumed on the farms where it was produced.

These foods formed an important part of the diet of many farm families who live in certain areas and who do not have a very large variety of vegetables and other protective foods for their growing children. Then too, regardless of how hard times get and how little money they have, the farmers who grew these chickens and eggs have had a good food to eat and, in many cases, have sold enough eggs to buy either a little sugar, a little coffee, or perhaps some medical care or school books for the children.

There were one and one-fourth million chickens on New Mexico farms January 1, 1933, according to the latest figures from the crop reporting board of the U. S. Department of Agriculture. These chickens were valued at \$508,000. There were 1,670,000 chickens valued at \$668,000, raised in 1932. In 1932 New Mexico farm eggs valued at almost one million and pullets laid 79 million eggs valued at almost one million dollars.

Other interesting figures on poultry are found outside of New Mexico. The ten states ranking highest in egg production per hen are as follows: three Pacific coast states; six northeastern states and the lone state of Utah. Utah is the only one of the ten that does not border on either the Atlantic or Pacific Oceans.

In years before the decline in prices, the poultry industry was a 1 1/2 billion dollar industry. The decline in value has not been due to a decline in the business which is here to stay and grow, but is due to decline in prices.

New, second hand and factory rebuilts in portables and standards—See us before you buy. Hagerman Messenger.

QUEEN OF ROUNDUP

Twenty-three years ago L. G. Frazer was one of the founders of the Pendleton (Ore.) roundup. This year, Frazer, who has served on the roundup board since its inception, will see his daughter, Miss Jean Frazer, rule over the historic celebration as queen. The roundup will be held September 21, 22, and 23. Miss Frazer is nineteen and a junior at the University of Oregon.

CHEVROLET INCREASE OUTPUT 38 PERCENT

DETROIT, Michigan—How one transportation system supplants another was revealed here in the statement by the Chevrolet Motor Company that in the first six months of this year the company moved by railway freight 69,595 full carloads of incoming materials and outgoing finished parts and automobiles.

This represents an increase of 38 per cent over the full carload movement in the same period last year, according to C. R. Scharff, Chevrolet Traffic Director, and does not include 72,000,000 pounds of railway freight carried in less-than-carload lots, an additional 2,100,000 pounds moved by railway express and 24,000,000 pounds by freight forwarders.

Millions of dollars have already been paid to the railroads this year by Chevrolet for the traffic haulage essential in the movement of parts and raw materials to the company's twenty domestic plants, and the outbound carriage of parts and finished automobiles to dealers and zone warehouses, Mr. Scharff pointed out.

The long sustained buying market for automobiles this year is reflected in the Chevrolet freight movement in June, the last month for which figures are available. In this month alone the company handled 16,409 full carloads of freight, or more than three times as much as in June, 1932.

Mr. Scharff stated that 65.3 per cent of all freight handled by Chevrolet in June was moved by rail. The remainder was divided between motor trucks, drive-aways and water transportation.

LEGION TRAIN FROM AMARILLO TO CONVENTION

AMARILLO, Texas—New Mexico and Oklahoma Legionnaires will receive a hearty welcome on the west Texas special to the National Legion convention in Chicago. Scores of inquiries have been received from each state, as this train offers them the most economical and convenient trip to Chicago that has been offered this year.

The train leaves Amarillo, Saturday afternoon, September 30. Negotiations are now under way to include the Mineral Wells band and the Amarillo Ladies Drum Corps in the party. These musical organizations won first places in the state contests at Wichita Falls last week.

All interested veterans should write the Legion Train committee, Box 1472, Amarillo, Texas for full details as to rates and the best method of joining the excursion. The round trip rate, including everything except meals and incidentals while in Chicago, is \$40.85, basis Amarillo—only \$5 per day.

Calling Cards, 100 for \$1.75, on best grade paneled or plain stock.—The Messenger.

STATE LAND OWNERS MUST PAY RENTALS

SANTA FE—Upwards of 600,000 acres of land has been leased so far, State Land Commissioner Frank Vesely said as the result of his determination to make everyone pay who is using state land for grazing.

He found about 2,000,000 acres of land in the state not under lease a large part of which was being used.

The state gets 3 cents an acre on the ground. Vesely said he found two cases involving about 100,000 acres, a revenue to the state of about \$3,000 a year, and he made the users fork over the rental.

If the users do not want to lease the land, Vesely said, he will advertise it is open and it will go to who ever will pay the rental. He said there was demand for grazing on leases and there would be no trouble in getting renters.

HONORED BY VETS

William H. Armstrong of Racine, Wis., was elected commander in chief of the United Spanish War Veterans at their convention in Los Angeles.

Smilin' Charlie Says

"And another thing—these days th' early bird gets his own breakfast!"

Why You Should Buy and Bank Here

MONEY that is banked here means more prosperity for our own community. It means more employment for local labor—better prices for farm products—more business for our merchants. Whatever will increase the flow of money in our own community will increase the welfare and prosperity of everyone here.

LOTS of local money in this bank spells lots of local prosperity. Every dollar that is hidden—or kept out of your local bank—is spent far away—makes us all just that much the poorer. Not as a tendency but as a habit, buy and bank here.

Cremation of a Buddhist Monk

Here, at Sarnath, India, is the funeral pyre of the late Sri Dema Dhammapala, well-known Buddhist monk and preacher and one of the foremost authorities on Buddhism. Over 100,000 followers of Buddha from the outlying districts of India to have a last glimpse of their departed religious leader.

LIQUID AIR BOILING ON ICE IS FEATURE OF DISPLAY AT FAIR

CHICAGO—Boiling liquid air in a tea kettle placed on a cake of ice is only one of the thrilling surprises provided by Elliot James in his daily demonstration of liquid air in the Hall of Science of a Century of Progress—the Chicago World's Fair.

Mr. James, who makes the demonstrations hourly from 11:00 a. m. to 9:00 p. m. proves with great emphasis that, contrary to the ordinary belief, freezing is a warming process and heat a cooling process.

Mr. James calls attention to the fact that liquid air exists in our normal atmosphere pressure at a temperature of about 312 degrees below zero. By placing the liquid on ice which is 344 degrees hotter than the liquid air, the latter soon boils violently. Steam arising from boiling water is a process of cooling.

Mercury, such as is used in the thermometer, is placed in the liquid air by Mr. James and a handle inserted into it. The mercury freezes so solidly that he uses it as a hammer to drive nails in a board.

After this demonstration, he sets the mercury hammer in a funnel placed into a bottle and by the time the demonstration is completed the mercury hammer is back in the bottle in liquid form. "Liquid air will run any steam engine, but it is not a practical fuel since it costs between \$300 and \$400 a gallon," Mr. James said.

"Too," he added, "liquid air as a fuel in a steam engine is so cold that oil could not be used."

To illustrate the extreme cold of liquid air, Mr. James drops a bright rose into a glass of the liquid air. Within a few moments the rose is so brittle that it is almost pulverized when he squeezes the flower in his hand.

BEER MAY BE SOLD OCTOBER 16 IN N. M.

Santa Fe—The sale of 3.2 beer will begin legally in New Mexico on October 16th if the state so votes at the September 19th election.

Dr. J. R. Earp, state health director and member of the state liquor control board, said last week that a meeting of the board will be called soon to make preparations. He said also that they will have to rely on the public to help enforce the law as the appropriation is not large enough to take care of policing for law-breakers.

October 16 is the date on which the state canvassing board meets to canvass the vote.

WAKE UP YOUR LIVER BILE—WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. Don't take for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. It's a substitute. 25c at drug stores. © 1931 C. M. Co.

EIGHTEEN COUNTIES TO VOTE SEPTEMBER 19th

Monday, September 4, being a legal holiday, was the last day petitions for local option elections for September 19th could be filed. According to law, proclamations of special elections must be made 15 days before the election.

According to replies to a questionnaire sent out by the Women's Organization for National Prohibition Reform, 17 of the 31 counties in the state have scheduled their local option elections for September 19. Replies had not yet been received from the other fourteen Saturday, but other information indicates that a number of them will hold the local option elections on September 19.

In addition to Grant county, which went wet August 15, counties which have significant elections are: Bernalillo, Sandoval, Curry, Harding, Torrance, Eddy, Hidalgo, Santa Fe, Union, San Miguel, Mora, McKinley, Chaves, Dona Ana, Rio Arriba, Taos, De Baca and Guadalupe.

Counties yet to be heard from are: Lea, Otero, Lincoln, Catron, Valencia, San Juan, Colfax, Quay, Roosevelt, Socorro, Luna and Sierra.

Mr. and Mrs. Raymond Stamm and Mr. and Mrs. Ross Merritt of Albuquerque, stopped off in Hagerman on their return from the state G. P. A. meeting yesterday.

OTIS GETS BOY SCOUT TROOP

A new Boy Scout troop has been organized at Otis, and is the first to be registered during the expansion campaign of the eastern New Mexico area council, which was initiated September 1.

FOR SALE—New style Wardford Transmission, 15 h. p. Electric Motor, 1 h. p. Electric Motor, Light Plant suitable for filling station or farm—generator and engine combination, Air Hammers, Radiators, Car Axles, Gas Engines, Magnets and Car Glass. Call and look these items over and get our prices. These are real bargains for some one.—Palace Machine Company, Roswell. 34-tfc

STATE TREASURER'S RECEIPTS INCREASE

SANTA FE—Total state revenue receipts passing through the treasury during the last fiscal year showed an increase over the preceding fiscal year, according to a financial statement issued by Clinton Anderson, state treasurer Saturday.

For the last fiscal year the total receipts were: \$10,850,954 compare with \$10,273,213 for the prior fiscal year, the statement shows. Of the total receipts only \$1,991,275 came from property taxes. For the prior fiscal year the property taxes returned \$2,116,949.

The statement shows that during the last fiscal year, the 21st, the interest from sinking funds increased from \$11,604.80 to \$13,102.80 and that the interest from investments increased from \$152,336 to \$175,916.

The state treasurer has direct control over these funds and his careful handling increased from the state's revenue from these two sources approximately \$26,000.

BIDS OPENED SEPTEMBER 15

Bids on eight projects, expected to cost around three quarters of a million dollars will be opened by the state highway commission at Santa Fe September 15th.

New construction, including one overpass is called for in the specifications with the projects located in seven counties.

The projects:

- Curry county, 11.8 miles north from Clovis, widening, base course surfacing and rock asphalt top.
- Valencia county, 7.5 miles between Grants and Horace, grading, surfacing and constructing one overpass.
- Mora county, 15.2 miles surfacing, Wagon Mound stretch.
- Union county, 8.9 miles between Clayton and Textline, oiling.
- Union county, 3.4 miles west from Clayton, new construction.
- Otero county, 10.9 miles, Alamogordo-Tularosa, oiling.
- Socorro county, 9.8 miles, south from San Antonio, grading and construction.

(October Option)

	Open	Close
August 31	9.37	9.40
September 1	9.37	9.36
September 5	9.30	8.96
September 6	8.97	9.15
September 7	9.15	9.02

COTTON LETTER

He who would probably analyze the future of the cotton market will have to answer three questions correctly:

(a) Will business hold, and improve upon the improvements already made?

(b) What will be the final crop for this season?

(c) Will there be some form of inflation of the currency?

No one can do better than guess. Those best informed are making the following guesses:

(a) Business will hold and slowly improve.

(b) Final crop likely larger than first estimate.

(c) There will be some form of inflation.

Higher wage scales and processing taxes are curtailing mill activity, some mills have already closed down because they are unable to sell their finished products at a profit.

Higher costs of cotton goods are curtailing buying. With the price of the raw product going down something will have to be done to adjust the situation. Inflation seems to be the answer. But there is a lot of trouble ahead on that route. Inflation would send all prices skyrocketing. Farmers' dollars would not buy nearly so much although they would pay off just as much debt, therein seems the big issue.

For the present we are not optimistic as to cotton prices. If inflation comes, the last of this month should see something done. We are confident President Roosevelt will do the best thing possible for all.

SATURDAY LAST DAY TO REGISTER TO VOTE

Next Saturday, September 9, is the last day upon which it will be possible to have your name recorded as a voter at the special election to be held on Tuesday, September 19th.

If you have become a legal voter since November last, and know or have reason to believe that your name is not on the registration list then used, you must apply to the district court to have your name placed on such rolls.

Loose Leaf Binders, Special Ruling and Stock Forms—The Messenger

FAREWELL PARTY

Complimentary to Miss Ruth Wiggins who is leaving next week for Long Beach, California to enter college, Misses Waunita Evans and Thelma Robinson gave a farewell party last Saturday evening at the home of Miss Evans.

Very interesting and delightful games were played throughout the social. Cookies and lemonade were served to the following girls: Misses Ruth Wiggins, Elizabeth McKinstry, Dorothy Sweett, Vera Goodwin, Lillis Andrus, Waunita Evans and Thelma Robinson.

GIFFORD—DENNEY

Owing to the fact that she decided to become Mrs. Bernice Denney Gifford, of 1823 W. Pico, Los Angeles, California, Miss Denney resigned her position with the Hagerman schools.

"THE FAULT OF ANGELS"

We have just received a new shipment of the Harper prize novel for 1933-34 which was written by Captain Paul Horgan of the N. M. M. I. Your library is not complete without it.—Cobean Stationery Shop. 36-1tc

LOCALS

Miss Almetta Growden, one of the three new members of the faculty of Hagerman school, has been unable to come to Hagerman because of illness, but is expected to arrive next Sunday afternoon.

Mrs. K. A. Bivens and small son, Hollis, visited in the home of Mr. and Mrs. Harold Dye Tuesday. The Bivens children are entered on the rolls of Hagerman high school this year. They live at Lake Arthur.

Mr. and Mrs. J. E. Wimberly and Clifford left Thursday for Altus, Oklahoma for a visit with Mr. and Mrs. Harrington Wimberly. They will return to Hagerman Sunday. Rufus King is carrying the mail on the rural route in the absence of Mr. Wimberly.

Everett Lankford has entered State College. He was accompanied by Royce Lankford and Spurgeon Wiggins who returned here, and by Mrs. Spurgeon Wiggins, who continued on to Silver City for a visit with Mr. and Mrs. Fred Parrish.

Mr. and Mrs. Charles Lathrop and Mrs. W. E. Utterback have left for a visit in Silver City and in Glenwood, this state. Ernest Utterback says that he has eaten Sow belly till he can't look a hog in the face since his wife has been away and wants to know if he can get an invitation out for Sunday dinner.

HEALTH COLUMN

Conducted by Dr. J. R. Earp, Director, New Mexico Bureau of Public Health.

PAIN

Recent research has confirmed the suspicions of previous investigators that pain is not just a special variety of one of the five senses but is a true sixth sense with an independent service for receiving impressions and bringing them to consciousness.

It is easy to see how useful pain is by looking at certain individuals who through disease of the nervous system have lost the faculty of feeling pain. Even a rubber hot water bottle is dangerous to them—it may cause a serious burn without their being aware of it. Such people often have large, infected ulcers grown from a simple source of injury, such as a nail in the shoe, which has persisted for a long time through their ignorance of its presence.

Many pains give timely warning. Such as toothache, earache, colic and headache. They should lead us at once to a dentist or doctor who by their aid may be able to find out what is wrong in good time. To treat a headache oneself with a pain killer is to run unnecessary risks. True a headache may be nothing worse than constipation. It may also come from eyestrain, from kidney disease, from a brain tumor, to high or too low blood pressure . . . One of my books lists fifty-five disease conditions of which headache may be a prominent symptom.

Some very deadly diseases are usually painless in the early stages. Among these are cancer, syphilis and tuberculosis. In these diseases it is important to teach the public to look for other symptoms, if the disease is to be taken in time.

FORD GOES NRA ONE BETTER

DETROIT, Michigan — An upward revision in wages in the plants of the Ford Motor Co., bringing the daily pay for some classes of employees to \$4.80 as against a previous \$4 minimum became known Tuesday.

It apparently was Henry Ford's first move in "going one better" the NRA automobile code from which he is a holdout.

Rumors of the upward revision were confirmed at the Ford offices, although officials said they were not ready to make an announcement pending adjustment, which has been under way several weeks.

It was indicated, however, that already approximately 10,000 of the 40,000 Ford employees have benefited by the increase in basic pay rates.

In The WEEK'S NEWS

COLLEGE CAREERS ASSURED—Scholarships worth \$5,000 each were awarded these four boys when their model coaches won annual Fisher Body Craftsmen's Guild competition. Photo shows, left to right, Jack Wicks, St. Paul; Charles Gadd, Spokane; Myron Webb, Arkansas City, and E. Stanley Knochel, Baltimore, with prize winning coaches. Seated are W. A. Fisher, President of Fisher Body Corporation and H. J. C. Henderson, Secretary of the Guild.

NONCHALANT, Almost waist deep in water in front of their home near Philadelphia, Pa., this family waits for the arrival of a boat to take them to safety, following the recent overflow of the Schuylkill River.

MUCH ADO ABOUT CROWN—International controversy results from Miss Helen Jacobs' victory by default over Mrs. Helen Willis Moody, who was unable to continue in third set after losing three straight games.

PROFESSOR RAYMOND MOLEY, chief member of the President's "Brain Trust," who resigned as Assistant Secretary of State, will become Editor of a National Weekly to be founded by Vincent Astor.

HONORED AS WAS THE PRESIDENT—The Improved Order of Redmen confer life honorary membership on the "Voice of Experience," noted sociologist (seated). He was presented with duplicate of bonnet given President Roosevelt when similarly honored.

NEW TITLE HOLDER, Robert Mankowski of Beverly Hills, Calif., fishing at Catalina Island brought to gaff a 348-pound Marlin Swordfish, and thereby captured the world's light tackle record, defeating Jimmy Jump, holder of the championship since 1927.
