**Pecos Valley Register.**

VOL. II. NO. 38

ROSWELL NEW MEXICO THURSDAY AUGUST 14. 1890.

\$3.00 A YEAR.

**BY TELEGRAPH.**

President Celman of the Argentine Republic has resigned.  
During one hundred years our government has issued 433,432 patents.  
Emperor William is visiting his grandmother, the Queen of England.  
The railroads are cutting rates to the G. A. R. encampment at Boston.  
A famine prevails in the Soudan. In some parts of the country the deaths average 100 daily.  
It is reported that an English syndicate is gobbling up all the glassware plants in the country.  
During the year ending June 30th the coinage of our mints amounted to \$22,000,000 in gold, \$36,000,000 in silver and \$1,400,000 in base metal.  
The Catholics of Canada have erected a monument to the memory of Catherine Tegahouta, the first Indian converted to that faith in 1667.  
By order of Emperor William factory workmen's children who are weak and ailing will have a holiday at the seaside at the government's expense.  
The superintendent of the Yellowstone Park reports that buffalo and elk are increasing very rapidly, and that the streams are being stocked with salmon and trout.  
A dispatch says that Emin Pasha has had severe fighting at Masai and Ugogo. He killed many natives by using the Maxim gun. He seized 1,300 head of cattle. He defeated the Ugogos with great slaughter.  
Twenty-four British sailors attempted to escape from their ships at Newport last Monday by stealing a vessel's boat while excursionists were landing. A crew sent in pursuit shot one, cut another's finger with a cutlass and captured all but three as they were landing at the torpedo station.  
There was another wreck on the Louisville, New Albany and Chicago railroad Sunday. Two men were killed and several injured. About seven miles north of Bedford, Indiana, the south bound passenger train came in collision with the north bound passenger from Louisville. Several of the cars were completely telescoped.  
An attack was made upon the town of Shafter, Presidio County, Texas, on the 4th by twenty-five Mexicans. State Ranger J. G. Graves was killed and Deputy Sheriff I. Lee seriously wounded while endeavoring to arrest the Mexicans. A posse of rangers and deputy sheriffs have left Marfa to capture the marauders. It is reported that Shafter was sacked and burned.  
Hon. Martin Mahler, Secretary of the Kansas State Board of Agriculture, has great confidence in the success of a second corn crop planted now, and is preparing a circular to be issued soon urging the farmers to save themselves from total loss by planting a second crop of corn, millet or cane. Otherwise there will be much suffering and loss in the western part of that State.  
A telegram from Kingman, Kansas, says that the grasshoppers have made their appearance by millions in Kingman County, and that they are appearing rapidly in Sedgewick, Reno and Harper Counties. It is feared that this pest is to be added to the fearful drouth and hot winds now sweeping over the Sunflower State, and there will be no salvation for any crop in southern Kansas.  
The special session of the Illinois legislature is ended. The World's Fair bill which was passed provides that the made land, after the fair, whenever diverted to any use other than a public park, shall revert to the State of Illinois. A joint resolution recommending to the World's Fair Directors the enforcement of the eight hour principle, and that no aliens be employed was adopted by acclamation.  
Advices from Athens announce a most disastrous fire upon the celebrated Mount Athos, the holy mountain of the Greek church. The fire has destroyed the largest part of its wonderful forests. Of the twenty Greek monasteries which have been located on the mountain for centuries not have been completely destroyed. The damage is estimated at 5,000,000 francs. Twenty monks and hermits perished in the flames.  
It is officially announced that Baron Biersbach, the Prussian minister of commerce, has conceded most of the demands which the miners' delegates recently submitted to the government. The principal demands granted are the adoption of an eight-hour shift, the reinstatement of all strikers who were dismissed, the introduction in the labor bill before the Reichstag of a clause providing for arbitration courts, so which mining officials shall be amenable and the abolition of farming jobs.  
Mrs. Martha Hamilton, a wealthy resident of Beaver Brook, Connecticut, died from the effects of a spider's bite. Mrs. Hamilton was at work in her garden one day last week when she was bitten by a spider. The tiny wound was not painful and she paid no attention to it, scarcely giving the matter a thought until last night, when her arm, which had been bitten, began to swell up and become very painful. Medical assistance was called in but to no purpose, as she presently expired. She was 18 years of age.

**THE SALVADORAN TRAITOR.**

**Defeat and Death of General Rivas.**  
A special from La Libertad, Salvador, contains the following particulars of the death of General Rivas:  
Rivas for some time before the death of President Menendez, had endeavored to start up a revolution in Salvador, and General Carlos Ezeta, the president, met Rivas and his army and defeated them, and advised Rivas to seek a sanctuary in Honduras. Upon the death of Menendez Rivas was invited, among other military officers who had been refugees under the Menendez government, to return to his country. Rivas came back to Salvador and told Ezeta that he would organize the Cojutepeque Indians into an army to assist him in his war against Guatemala. Ezeta never suspecting treachery from Rivas, assented, and the latter armed and equipped 8,000 men.  
Subsequently Ezeta learned that Rivas contemplated a move on the capital and ordered General Antonio Ezeta, his brother, the hero of eleven battles with the Guatemalans, to place able generals in command of the army of occupation and for the 2,000 veterans to return to Salvadoran soil and follow Rivas' Indian army. This movement was executed by forced marches, but before the younger Ezeta reached the city of San Salvador, Rivas had the attack. Then Ezeta came up and the battle began. Rivas made fourteen attacks on the president's palace in San Salvador but was repulsed each time. His Indians attempted to loot the town and pillaged many stores. General Antonio Ezeta finally forced Rivas to leave the city and he retreated to Santa Ana Tecla, a town on the highway between this city and the capital. Here Rivas fortified himself and when Ezeta came up with him his surrender was demanded.  
Rivas refused to capitulate and one of the hottest and most desperate battles fought during the present war followed. For sixty-eight hours, without cessation the conflict was carried on with varied success by both armies. Blood flowed like water, the Indians fighting more like demons than men. When they lost their rifles the favorite knife was used with most deadly effect. At times the fighting was so heated that they used clubs.  
The Indians were mown down by the deadly rain of lead from Ezeta's army, which never wavered from its duty, its ranks, as fast as thinned, closing up with clock like precision. The fighting at night was severe, the Indians preferring warfare then rather than fight by day.  
At last Rivas was shot through the back and fell dead in his tracks, and the Indians became demoralized and were scattered by Ezeta's veterans like chaff before the wind.  
With the conclusion of this sanguinary conflict the body of Rivas was publicly exposed in the plaza after the battle, then torn down and indignities heaped upon it as in the case of other traitors.  
If Ezeta had been defeated there would have been no hope of a continuance of the victories over Guatemala. But with his success it is believed that Guatemala will be worsted. Not a position already gained and occupied by the Salvadoran army in Guatemala was abandoned by Ezeta when he returned to put down the rebellion. It is said that Ezeta with his victorious army will return to Guatemalan territory at once.

**A Letter from Stanley.**

A letter received in New York from Henry M. Stanley by a personal friend of the great explorer, contains some interesting particulars about his drooping trouble. "My illness," Mr. Stanley writes, "is wholly due to the fact that my correspondence was altogether too enormous. A dozen secretaries could not have answered the letters. There have been something like 2,000 letters, congratulations, presents, etc., to attend to, which have completely overwhelmed me.  
After a long resting spell, and especially from the nervous labor of the pen, the explorer proposes to visit the continent. Mr. Stanley says he looks forward with delight to his visit to this city next November."  
Facts About the Argentine Rebellion  
At the beginning of the revolution General Lavall took command of the government forces, seconded by the chief of police, Capdevilla, and twenty-five policemen, until Sunday, the 27th, at 5 a. m., the revolution triumphing. It was decided to grant the truce asked by the government till 10 a. m., when fighting was to be continued. It was not resumed, it having been decided to stop firing to enter into treaties. While this was going on the government was receiving troops from the interior. Many commissioned soldiers about the streets were killed and many others wounded by the people assembled.  
On the 28th firing started again, the revolutionists being helped by six men-of-war bombarding places occupied by government troops, causing damage of small importance.  
At 4 p. m. on the same day the men-of-war ceased firing by order of the revolutionist, who abandoned their arms according to agreement with the government. The leaders of the revolution say this agreement was entered into because of their want of ammunition.  
The people are greatly discontented with these arrangements. Some citizens and soldiers have even committed suicide.  
The chief leader of the insurrection was Don Leonardo Alem.

**After Smuggled Opium.**

**KANSAS CITY, Aug. 5.**—Revenue officers and United States detectives arrived here yesterday looking for 2,000 pounds of smoking opium which were smuggled into the United States some time ago. The opium came through California and the smugglers got as far as Phoenix, Arizona, with it, when the detectives got on their track and scared them into Canada. Since then the smugglers have eluded the detectives until a few days ago, when it was learned the contraband goods had been shipped here. The detectives made a thorough search of all the Chinese laundries to-day, but found no smuggled opium. The duty on this opium amounts to \$20,000.  
Don't Like Their Job.  
Over one-sixth of that part of the men in the Haytian navy lying at Philadelphia for repairs, have deserted, and one-fourth of them have been caught and are in irons on the gun boat Jaemel, at Neale & Levy's shipyard. The force of the two boats, Dessalines and Jaemel, is 110 men, officers and crew, including the admiral. Nine men have deserted from the Dessalines, and eleven from the Jaemel. Six from the latter were arrested. Every fireman on the Jaemel has run away. They claim that they were treated harshly. The nine men from the Dessalines, it is said, will not be caught. They have run off to Boston, New York and Baltimore. About a month ago a mutiny occurred on the Dessalines. An engineer, a quartermaster and two firemen refused to work. Admiral Killick had them sent to prison for fifteen days, and then he charged them \$35 each, according to their story, saying that that was what the prison officials have charged for keeping them. They will not mutiny again. The Dessalines is now lying at Mills' shipyard at Camden, where a propeller was put on yesterday. The repairs are nearly finished.

**Hoisted by an Iceberg.**

A Halifax special says: The steamer *Pertia* arrived on the 4th from Newfoundland, en route to New York. Your correspondent talked to Captain Ash with reference to the encounter his steamer had with an iceberg off Fogo Head. He says it was a most miraculous escape for the steamer. A big iceberg, 150 feet high and 600 feet long, broke in three pieces just as the *Pertia* was passing it.  
One of the pieces 200 feet long came up under the steamer, lifting her entirely out of the water. She remained for some minutes resting on the huge cake of ice when the tremendous sea set her afloat. The stanchions in the saloon were misplaced and bent, and the under girders of the dining table smashed. Captain Ash declares that he was never in such a perilous position before.  
Negroes to Go to Mexico.  
J. Milton Turner a New York attorney is arranging to colonize a large number of negroes in Mexico. He says the plan is being promoted by a firm of coffee dealers in New York who have a capital of about \$5,000,000. "The purposes of the firm," he said, "is to put the negroes to raising coffee and sugar. They own about 21,000,000 acres of land, which will be divided among the colonists. No rental will be charged for the land, and the company will furnish a means of support for the negroes till they can get their grounds under cultivation and become self-supporting. They are willing to spend \$2,000,000 or \$3,000,000 in that way. The details of the scheme will be settled August 14." He believed the movement can be made very beneficial for the negroes. "I have already received a large number of applications from negroes who are anxious to go. These applications come from all parts of the country."

**Wants to Practice Law.**

Mrs. P. A. L. Smith, the bright young woman who made something of a sensation in Virginia last fall by asking the State legislature to pass a special act allowing her to practice law, has determined to enter the professional world and will soon begin the publication at Danville of a newspaper. It will start as a weekly paper, but Mrs. Smith designs to convert it eventually into an afternoon daily. It is stated that Mrs. Smith will make it lively for the men and newspapers that objected to her entering the legal profession. She has not yet given up the idea of practicing law, and will soon make a petition to the supreme court of appeals.

**A Big Raft of Logs.**

A raft of logs is being towed from New Brunswick to New York. The raft left St. Johns, New Brunswick, June 17, at 10:30 o'clock, and has been on the way ever since except for the stops-over at Portland and Vinland Haven. This raft is unlike the Leary raft which was successfully brought here two years ago, both in its starting point and its construction. The other raft started from Joggins, on the opposite side of the Bay of Fundy and St. Johns, and was built like a huge bundle of cigars.  
The timber in this raft is unlike that in the previous ones. Mr. Leary has a contract with the Astor estate to furnish 100,000 logs, to be used for crib building in filling the low lands owned by the estate along the Harlow River.  
This raft comes from St. Johns and may be likened to a series of bundles linked end to end by a huge chain running through the center. There were seven or eight sections each containing 500 logs, or 5,500 altogether. The sections are eight feet apart. The whole thing is towed by

**In Turkish Prisons.**

**LONDON, Aug. 2.**—A special correspondent of the *Daily News* has succeeded in obtaining admission to the Turkish prison at Uskub, Macedonia, a town of European Turkey. He found that the building contained 149 cells, which were occupied by 1,811 persons, or over twelve to a cell. As a rule the unfortunate victims are sent there to be confined from one to ten years each, but owing to their suffering, arising from the barbarity of their keepers and the total disregard by the latter of all sanitary laws, scarcely any one outlives five years.  
In one cell two and a half yards square the correspondent discovered nearly a score of wretches pining for air and starving for food, having in the way of the latter nothing but bread and water. The greater number were stark naked and chained by the ankles and wrists.  
As the jailers were unable to inflict tortures enough upon the victims in the dens already provided, the correspondent found a series of underground cells, said to be reserved for the worst prisoners, where in total darkness were those whom Turkish tyranny had singled out for special barbarity.  
In order to force confessions which might prove useful to those in power, the aid of the ant is called in. These insects are kept in small boxes for the purpose and fifty of them are placed at one time on the naked body of the prisoner whom it is desired to torture. It is also customary to chain men all day in the sun in such a way that they are unable to move.

**Emperor William in England.**

**LONDON, Aug. 4.**—The German imperial yacht, with Emperor William and his brother Prince Henry on board, arrived at Osborne on 10 o'clock this morning, and the queen signaled "welcome" to his majesty from Osborne house, her palace in the Isle of Wight.  
As the yacht entered Cowes Roads the Prince of Wales and Duke of Connaught, on board the royal yacht, went out to meet the emperor, while the other members of the royal family awaited his arrival on the private landing stage. One German ironclad accompanied the emperor, who was also escorted into the harbor by five British torpedo boats.  
As the emperor landed a salute was fired, and entering a carriage his majesty drove to the Osborne House, where the queen, the Princess of Wales and the Duchess of Edinburgh received him at the entrance. As he entered the band played the German and British national anthems. The emperor wore a British admiral's uniform.  
After luncheon the queen and the emperor had a long private interview. In the afternoon the emperor and Prince Henry drove around the grounds of Osborne House and visited the Marchioness of Lorne and the Duchess of Edinburgh. The queen's dinner party, besides the German emperor and members of the royal family, included only Count Von Hatsfeldt, the German ambassador at London.  
Sold His Wife.  
A queer proceeding has just taken place at the Hungarian camp near Duquesne, the new steel manufacturing town ten miles up the Monongahela river valley from Pittsburgh. A Hungarian sold his wife for \$100, \$25 cash down and the balance at the rate of \$6 per month. Josiah Gwynn, the village magistrate, is witness to the truth of the story. Several years ago Kulick Vojek left his wife in Poland and came to America. Two years ago, after waiting patiently, but being rewarded with no news, the wife came here in search of her husband. She could find no trace of him, and becoming ill she was provided with a home and had her doctor bill paid by Antone Wenzler, an industrious Hungarian farmer. When she recovered she married her benefactor. In the mean time her husband No. 1 began the search for his wife. He is employed in the Michigan lumber region and a few days ago found the woman at Duquesne. Wenzler and the woman were arrested on a criminal charge, but when Vojek found that his lawful wife absolutely refused to live with him again, he compromised on a sale for \$100, the amount of his traveling expenses. Vojek has returned to Michigan. Squire Gwynn wrote the agreement from dictation.

**A Timely Warning.**

Mrs. Emily Branson of North Wakefield, New Hampshire, saved the Boston & Maine express last Friday from a serious disaster. A terrific storm of wind and rain was raging, and the heavy train was running at a high rate of speed in an endeavor to make up lost time. Hardly had the North Wakefield station been left behind when the engineer saw a woman on the tracks just ahead of him, frantically waving a white cloth. The train was stopped with the cow catcher almost in front of the woman.  
"The track around the curve is all covered with trees," she said. "I came to warn you."  
Just ahead there was a turn in the track so sharp that after an obstruction upon it had come into the engineer's view no human power could have prevented an accident. Her name, she said, was Mrs. Emily Branson. From her house she saw the wind hurling the trees across the track. She was alone with her little children, but she knew that the express was due and that the trees were on such a curve that they would be hidden from sight until it was too late.

**Mr. Moody's Work.**

**NORTHFIELD, Mass., Aug. 1.**—D. L. Moody opened to-day the Betsy Moody Cottage, named for his mother. The building cost \$15,000 and is designed for an infirmary for his schools. There are now thirty attendants. He also announces the establishment of a training school for ladies who study the Bible, drill, dress-making, cooking and other branches in preparation for city Christian work. The first session will be held in October next and there are two terms of three months each. Dr. A. L. Pierson of Philadelphia started a series of ten Bible readings from Ephesian before an audience of 500 this afternoon. There were 1,500 attendants this evening to listen to an address by Rev. A. S. Gumber of Boston. Evangelist W. R. Lane of London, England, also spoke.

**Senator Plumb on the Tariff.**

In the discussion of an amendment to the tariff bill last Friday, reducing the duty on earthenware and glassware, Senator Plumb joined the Democrats in attacking that feature of the bill.  
He produced a letter from a merchant doing business in St. Joseph, Missouri, and Atchison, Kansas, stating that on an invoice of crockery he had paid that day customs duty of \$16.40; that under the pending bill the duty on the same invoice would be \$31.32, and under the McKinley bill, \$57.12.  
The whole tendency of civilization, Senator Plumb said, was toward the reduction of prices of all products of human labor. To claim that the tariff had been the sole, or main factor in the reduction of the prices of manufactured goods was to ignore all the forces of civilization. The American people were entitled to have cheap goods, if competition could bring that about. When he asked, was the time coming when the people of the United States would get some benefit from the establishment of home industries? But just as fast as the point was arrived at when lower prices might be expected, the manufacturers came to Congress and said that they wanted more duties, whereby the downward progress of prices might be arrested. The people of the United States ought to have their "inning" sometime, and he thought that time had come.  
He believed in distributing the duties that were necessary for the purpose of raising revenue for the support of the government in such a way as to equalize the conditions existing between the manufacturers of this country and those abroad. If he were in doubt he would resolve that doubt in favor of the American manufacturers. But, if he knew what the exact conditions were, he would put the home and the foreign manufacturer on the same footing precisely. He should be recreant in his duty if he gave his support to such a proposition as the chinaware schedule.  
The Senate, he continued, owed some duty to the American people as well as to the manufacturers. There was a point where political sympathies ended and where business interests began. The Democratic party had its full share of responsibility for the iniquities of the present tariff law and of that which was now proposed. The Democrats in the House had the opportunity of correcting their errors and wickedness of the McKinley bill, but they had sought to evade the responsibility of their votes, when by joining with the Republicans who were opposed to the bill, they might have eliminated many of its errors. He could see the game of battlere and shuttlecock between free trade and protection constantly going on, for political advantage on one side and for personal advantage on the other; between the two extremes the great body of the American people were being crushed and ground. He would apply the rule that whoever demanded a tax for his own benefit should be ready to show conclusively that his interest was also the public interest. The demonstration should be made that every single penny of tax proposed was absolutely necessary.

**Making a Big Gun.**

**NEW YORK, August 1.**—The jacket on the first forged steel rifled gun ever manufactured in this country has been shrunk on the tube at Watervliet arsenal under the supervision of Lieutenant L. L. Bruff, ordnance department, United States army, who has charge of the construction of the gun.  
The huge jacket of French steel weighing fifteen tons was heated to allow it to slide over the tube. The whole constitutes a most delicate operation, and the slightest miscalculation would have resulted in a failure, costing the government thousands of dollars. The entire operation, however, was a complete success and the operation of "turning" for the hoops will now take place. These latter are all prepared and will be shrunk on with the least possible delay.  
When completed the gun will be sent to the Sandy Hook proving ground and there be subjected to the severest tests. If these are successfully withstood, the gun will be taken as a type of the United States breech loading forged steel rifled gun for sea coast defense, and if Congress appropriates the money we may hope in time to see these mounted in the forts of our principal harbors.  
This gun will fire a projectile weighing 1,000 pounds with a charge of 500 pounds of powder. It is estimated that the muzzle velocity will be 2,000 feet per second and the range about ten miles.  
The general plan of the ordnance department is to manufacture a model gun of each calibre and thoroughly test it as above. If it be successful more guns are to be made with this as a model.

**Mr. Moody's Work.**

**NORTHFIELD, Mass., Aug. 1.**—D. L. Moody opened to-day the Betsy Moody Cottage, named for his mother. The building cost \$15,000 and is designed for an infirmary for his schools. There are now thirty attendants. He also announces the establishment of a training school for ladies who study the Bible, drill, dress-making, cooking and other branches in preparation for city Christian work. The first session will be held in October next and there are two terms of three months each. Dr. A. L. Pierson of Philadelphia started a series of ten Bible readings from Ephesian before an audience of 500 this afternoon. There were 1,500 attendants this evening to listen to an address by Rev. A. S. Gumber of Boston. Evangelist W. R. Lane of London, England, also spoke.

**CONGRESSIONAL**

**THURSDAY, JULY 31.**

**SENATE.**—Under the new order for the dispatch of business the Senate met at 10 a. m., but a quorum could not be obtained until twenty minutes later. It was announced by Senator Frye that the river and harbor bill would be taken up next week Friday.  
The conference report on the District of Columbia appropriation bill was taken up, discussed for an hour and a half, chiefly on the subject of the street railroad companies and their shortcomings, and agreed to.  
The tariff bill was then taken up and its reading by paragraphs was continued.  
Mr. Plumb moved to increase the rate on castor oil to eighty cents per gallon, the present duty, agreed to.  
A large number of amendments offered by Senator McPherson were defeated. Four pages of the bill having been thus disposed of to-day the Senate adjourned after a statement by Mr. Blair that by a calculation which he had made the bill would be disposed of at the present rate of progress by the 20th of next December.  
**HOUSE.**—Mr. Oates of Alabama rising to a question of privilege, offered a resolution for the investigation of charges of corruption against members of the House, contained in a recent editorial in the *National Economist*.  
The Speaker ruled that the resolution was not a privileged one, owing to the indefiniteness of the charges. Mr. Oates appealed, and the House sustained the Speaker.  
The House then went into committee of the whole on Senate amendments to the sundry civil bill. The entire afternoon was consumed in a discussion of the Senate irrigation amendment. Many amendments were proposed to this amendment, but the ultimate result was that the Senate amendment was non-concurred in.

**FRIDAY, AUGUST 1.**

**SENATE.**—The tariff bill was taken up. Mr. McPherson moved to reduce the duty on fire-brick not glazed, named or decorated from \$1.25 per ton to 50 cent. ad valorem, and on glazed ornamental fire-brick from 45 cent. to 40. Rejected.  
Mr. Plumb voted with the Democrats, the first break in the solid party vote.  
Mr. Plumb having thus started in the assertion of independence of party allegiance so far as the tariff bill is concerned, began to take Mr. McPherson's place offering amendments. His first two amendments were to reduce the rates of duty on enamelled plates and on hydraulic cement. After discussion they were voted down by the Republican majority, the Democrats of course voting for them.  
On the hydraulic cement amendment Mr. Padock joined Mr. Plumb in voting with the Democrats, the result of the vote being 31, nays 27.  
Mr. Plumb attacked the high duties on earthenware and glassware and was answered by Mr. Sherman.  
**HOUSE.**—On motion of Mr Taylor of Illinois a resolution was adopted calling upon the Secretary of the Navy for copies of the report of the engineers in charge of the work of the improvement in Galveston harbor. The House then resumed consideration of the Senate amendments to the sundry civil appropriation bill.  
It was found impossible to secure a quorum, so no business was transacted.

**SATURDAY, AUG. 2.**

**SENATE.**—The resolution by Senator Blair in reference to shutting off debate was laid aside temporarily. The tariff was then taken up and the discussion occupied the day.  
**HOUSE.**—The House this morning resumed consideration of the sundry civil appropriation bill.  
There was great difficulty in disposing of the remaining amendments owing to the illness of the attorney. A resolution was adopted revoking leaves of absence. The bill was finally passed, the Senate amendments throwing open reservoir sites and arid lands to settlement being rejected. The bill was sent to a conference committee.  
**MONDAY, AUGUST 4.**

**SENATE.**—Mr. Davis offered a resolution calling on the Secretary of War for information on the accident last Friday to the lock of the Sault Ste. Marie canal. He spoke of it as a most serious calamity to the commerce of the nation, costing, as he had been informed by telegraph, \$500,000 a day.  
Mr. Payne said the damage was being repaired as fast as 500 men could do it and would be completed to-morrow or next day, but the main object of the appeal to congress was that provision should be made for an additional lock.  
The tariff bill was taken up.  
**HOUSE.**—The House went into committee of the whole on the general deficiency bill. Mr. Rogers took occasion to attack the Speaker very bitterly. Mr. Henderson of Iowa defended Mr. Reed. Mr. Breckenridge of Kentucky spoke against the elections bill.  
**TUESDAY, AUGUST 5.**

**SENATE.**—The Senate met at 10 and immediately proceeded to the consideration of the tariff bill, the pending item being the paragraph relating to cylinder and crown glass, polished.  
Mr. Berry addressed the Senate on the general subject of tariff legislation. A number of amendments were offered by Democrats, but rejected.  
**HOUSE.**—Mr. Bingham of Pennsylvania moved to lay on the table the motion which had been pending some time to reconsider the vote by which the House passed the bill to grant leaves of absence to clerks in the first and second class post-offices. The motion to reconsider was tabled.  
A resolution was passed making inquiry of the Secretary of the Navy concerning the large number of men employed at the Kittery navy yard, New Hampshire, the Democrats claiming that it had a political end in view.  
The House then went into committee of the whole (Mason of Illinois in the chair) on the general deficiency bill.  
Without disposing of the bill the committee rose and the House adjourned.  
Representative Morse of California, from the committee on foreign affairs, today reported to the House his bill to absolutely prohibit the coming of Chinese persons into the United States, whether subjects of the Chinese empire, otherwise.

Some ore is now being brought to Aspen from the Independence district. There are places in the mines located there that produce very rich mineral, and these pockets, it is understood, are now being shipped. Free gold shows in some of the ore that has been delivered here, and it is thought to be very high grade. *Aspen Times.*

Announcement. I hereby announce myself as a candidate before the People of Chaves County, at the ensuing November election, for the office of Probate Clerk.

Announcement. We are authorized and requested to announce N. P. (Neighbor) Gayle as an INDEPENDENT candidate before the People at the coming November election for the office of Probate Clerk.

Announcement. Believing I can subscribe the interest of Chaves County, for the office of Assessor, I respectfully announce myself as a candidate before the People at the ensuing November election.

Announcement. I hereby announce myself as a candidate for the office of Assessor of Chaves County subject to the voice of the People at the polls in November.

Announcement. I announce myself as candidate for Sheriff of Chaves county at the ensuing November election.

Announcement. In taking charge of THE ROSWELL REGISTER, the undersigned desires to offer only a very few very brief remarks.

In the first place, THE REGISTER is going to be run principally for the purpose of heralding to the world the unequalled attractions of Roswell and the Great Pecos Valley, and in defending the best interests of the town and valley.

If there is, by chance, any room left each week, after all the good things possible about Roswell and the G. P. V. have been said, then there may be planted a few grains of good, sound, conservative Democratic sense, and it is to be hoped that the seed may fall in good ground and bring forth a hundred—yea, a thousand-fold.

But the true mission of THE REGISTER will be to build up the lovely little town, now known far and near as "The Pride of the Pecos," and the advancement of every interest tending to the development of the grand valley in which we are fortunate enough to be located.

Our association with THE REGISTER, as editor, closed with the purchase of the paper by James Kibbee, of the Lincoln Independent. We are loth to give up the pleasant association we have had with our readers for the past 18 months, during the life of the paper.

The articles also note that this company may "aid any other railroad company, as far as it can lawfully do so, in the construction of its railroad, within or without the territory, for the purpose of forming a connection thereof with the road of this company."

This is significant, in view of the fact that Mr. Hagerman and Mr. Lowe, as mentioned above, are so intimately associated with the Colorado Midland and the Rock Island roads. Mr. Hagerman is president of the Pecos Valley Railroad company now building from the Texas & Pacific line up the valley to Roswell, and is also at the head of the Pecos Valley's great irrigation system.

The line toward the northwest has not been definitely located as yet, but the Cerrillos coal fields and Tijeras canon at San Pedro is evidently its destination. The road will be built to give northern and central New Mexico a direct outlet to gulf tide water via the Pecos Valley.

Our White Oaks people, who of late visited Roswell and Pecos country, are enthusiastic about the many improvements and the bright future in store for that section.—Interpreter.

Roswell realty is receiving a great deal of attention from outside investors.—New Mexican.

Yes, and it will receive continued attention until its value will be above that of any other southwestern town.

Roswell is a nice town and a good town, of course, but we do not like to have Eddy citizens who go up there gush over it, especially in the presence of the REGISTER man. It doesn't look loyal.—Argus.

Tut, tut, man, they can't help it. If you was to visit us once you would gush like a young girl over a new beau. Remember Roswell is the Pride of the Pecos, and although the Pearl is bright and beautiful, it must not be jealous of its equals.

W. E. Anderson, a former president of the Lincoln county cattle association, this Territory, is chairman of the committee on arrangements for water melon day, September 4th, at Rocky Ford, Colorado. He estimates that between 5,000 and 6,000 people from a distance will be present at the grand melon festival, the preparations for which are more elaborate this year than ever before.—Optic.

Since the late match game between Roswell and Eddy several good players have come to town. Among them we mention George Smith and the Lucas brothers. Smith is a good pitcher and all-around player and Tom Lucas is a good catcher. In this connection we would again mention that the Argus has a silver ball, a present from Alec Mermod, to be given to the winners of the next match game between Eddy and Roswell, or Eddy and Pecos City.—Argus.

Well, don't talk so much about it, we are ready to arrange for a game at any time; we have no new players, in fact have lost some, but still we are ready.

We understand that the Las Vegas boys are desirous of crossing bats with the Roswell club, and wish their club to send them a challenge, the game to take place here. They will play either for money or glory, and the quicker the better. What's the matter with arranging a game? Talk it over boys and let them hear from you. No trouble at all to beat Vegas, the Ft. Union nine did them up in great shape the other day.

—Jim Brent returned from Roswell Wednesday without being interviewed by the REGISTER man.—Argus.

Thanks for calling our attention to it. Such an oversight on our part is unparadigmatic, and we assure you it will not occur again. Take it cool Bro. Howe, don't sweat.

As a proof of the fact that Roswell means business, we would call attention to the fact that the new bank has done a regular "land office business" since the first day it was started. And then we have another institution that does a "land office business"—that's the land office itself.

The special Pecos Valley edition of the Lincoln Independent is not a "boom" edition, but just an illustrated special edition, gotten up for the purpose of picturing to the world the Great Pecos Valley, as it actually is. There will be no "boom" bombast and exaggeration, but plain facts and figures, presented in as pleasing a manner as possible.

The Argus quotes from a certain (imaginary) "Billy Raisenell," who tells Bro. Howe that the lumber is on the ground for another saloon in Roswell. Billy is a monumental liar, of course, and the truth ain't in him. But if he had said that the foundation for a \$5,000 brick school building was being laid he would have told the truth. Also that buildings are springing up like magic all over the town. Several new contracts have just been let for new brick business blocks and residences. Just give Roswell her due, Bro. Howe, and we will promise to not let Billy Raisenell with you any more.

PECOS NORTHERN RAILROAD.

Incorporation Papers Filed To-day.—J. J. Engerman and H. C. Lowe in the Deal—It Means Business.

Articles of incorporation for the Pecos Northern Railroad company were filed to-day in the office of the territorial secretary.

The incorporators are James J. Hagerman, Thomas H. Edsall, Charles J. Noble and Percy Hagerman, of Colorado Springs, Colo.; and S. M. Folsom and John A. Lee, of Albuquerque, N. M.

The capital stock of the company is \$3,620,000, \$200,000 of which has been actually subscribed and paid into the hands of Henry C. Lowe, of Colorado Springs, who has been selected treasurer of the corporation.

Article II of the articles of incorporation sets forth that this corporation is formed for the purpose of constructing, maintaining and operating a railroad and telegraph line from Roswell, Chaves county, at a point of connection with the Pecos Valley Railroad company, and running thence in a northerly and easterly direction to a point of connection with the railroad line of the A. T. & S. F. R. R. company in Bernalillo county, the estimated length of such line being 200 miles.

The articles also note that this company may "aid any other railroad company, as far as it can lawfully do so, in the construction of its railroad, within or without the territory, for the purpose of forming a connection thereof with the road of this company."

This is significant, in view of the fact that Mr. Hagerman and Mr. Lowe, as mentioned above, are so intimately associated with the Colorado Midland and the Rock Island roads. Mr. Hagerman is president of the Pecos Valley Railroad company now building from the Texas & Pacific line up the valley to Roswell, and is also at the head of the Pecos Valley's great irrigation system.

The line toward the northwest has not been definitely located as yet, but the Cerrillos coal fields and Tijeras canon at San Pedro is evidently its destination. The road will be built to give northern and central New Mexico a direct outlet to gulf tide water via the Pecos Valley.

Our White Oaks people, who of late visited Roswell and Pecos country, are enthusiastic about the many improvements and the bright future in store for that section.—Interpreter.

LINCOLN LOCALS.

DEAR REGISTER, we, the citizens of Roswell, are gathering here in force to-day, all prepared for the grand struggle to-morrow. Sorry we haven't telegraphic communication with Roswell, so we could send you to-morrow evening the result of their first day's deliberations.

Mr. Nathan Jaffa, the stylish and handsome merchant of your city, is still sojourning in our lovely mountain town, under the influence of pure air and water. It is rumored that his weight has increased five pounds already since his arrival here. But Nathan had a cold, and last Friday, and all on account of cucumbers or something else that didn't agree with his "inner man." In fact he came very near dying from a severe attack of cholera morbus. He was driven to Fort Stanton, and fortunately arrived just in time. The Post surgeon, Dr. Bannister, says that Mr. Jaffa had been a little looser on the road the Friday of the Pecos would have now been mourning for one of its most prominent citizens.

Capt. J. C. Lea and family, of your city, were in Lincoln, week, en route to Fort Stanton. The Captain and Mrs. Lea returned at once to Roswell on important business, leaving the children to enjoy our lovely climate for a few days.

Messrs. Seelye, Whiting and Park Lea, of your town, passed through town Monday en route to the mountains to fish and rusticate.

Mrs. O'Neil, the popular Roswell landlady, arrived here to-day, on a short business trip. Also Mrs. O'Neil, the landlady, who came up to see about her property here, which was damaged by fire the first of last week.

The following estimates of population of towns in the territory were obtained at the census office in Santa Fe: White Oaks, 700; Eddy, 1,500; Roswell, 1,000; the town of Mora, including five precincts within a radius of five miles, 2,000; Gallup, 1,200; Springer, 1,400; Raton, 2,100; Lincoln, 1,000.—Optic.

Unless the above figures lie, we suspect that the Eddyites have incorporated and taken in Seven Rivers, Lookout and Screwbean—all as same Chicago.

Judge Lee on the New District. Judge Lee, of Albuquerque, in conversation with a Citizen reporter, and in reply to the question: "When will the new fifth district be created?" Says:

"The act providing for a fifth justice has passed congress, been signed by the president, and the amendment of the senate has been agreed to by the house for the appropriation for his pay, and will no doubt be passed along with the regular appropriation bill. The president will then appoint a justice for that district. After which the judges may be called together to establish the boundaries of the district. Or in view of the fact that the counties of Eddy and Chaves will not be legally formed until next January for judicial purposes and the fact that the legislature in all probability will create other new counties, which would have to be provided for in the assignment, the judges may not take action before the meeting of the supreme court in January, but of this I do not know, as the supreme justice is absent in Minnesota, and the judges have not consulted on the matter."

The military headquarters of the department of Arizona will be removed from Los Angeles to Santa Fe, an order to this effect having been issued from the war department in Washington.

—We learn from Capt. Kerl that the track has been completed out 20 miles on the Pecos Valley railroad. This road is moving on at a rapid rate.—Pecos News.

This office acknowledges the receipt of the premium list for the territorial fair.

Democratic Call. ROSWELL, N. M., May 17th, 1890. Notice is hereby given that the Democratic Central committee of Chaves County, N. M., in regular meeting held in Roswell, has this day and date hereby appointed the 20th day of August 1890 as the time for holding the County Convention, and that the same shall be held in Roswell the county seat of said Chaves County.

The purpose of said convention shall be the nomination of candidates as follows: One candidate for Probate Clerk; one candidate for Assessor; one candidate for Sheriff; one candidate for Treasurer; one candidate for Coroner; one candidate for Sup't. Public Schools; three County Commissioners; and seven delegates to the Legislative District Convention; the selection of a County Central committee composing of one member from each precinct. JNO. W. POE, ATTY. CHAS. H. HOWELL, Secretary.

Republican District Convention. A Convention of the Republicans of the Lincoln Legislative District, to be composed of the counties of Lincoln (Chaves and Eddy,) will be held at ROSWELL, N. M., AUG. 23, 1890.

Said Convention will nominate candidates for one Congressman and one Member of the House of Representatives, to be voted for at the general election in November next; will elect a Legislative District for the ensuing two years, and will, as a Convention representing the entire territory of the existing county of Lincoln, elect delegates (number to be determined by the Republican Territory Committee) to the Republican Territorial Convention to be held at the time and place to be also designated by said Committee.

Such Convention will also be designated by said Committee to call the primaries and otherwise represent said Committee within the territory of the future counties of Chaves and Eddy respectively. The several counties will be entitled to delegates as follows: Lincoln County, 18; Chaves County, 9; Eddy County, 9.

THOMAS C. TILLOTSON, Sec. In accordance with the above, the Republicans of Chaves county are requested to assemble at the polling places in their various precincts, on Tuesday, August 19th, 1890, for the purpose of electing delegates to the District Convention to be held at Roswell, N. M., on August 24th, 1890, for the purpose of nominating one Congressman and one Member of the House of Representatives. The several precincts will be entitled to representation as follows: Precinct No. 7, Roswell, 5; precinct No. 17, Cedar Canon, 2; precinct No. 19, South Spring River, 2.

Notice for Publication. LAND OFFICE AT ROSWELL, N. M. Aug. 12, 1890. ### LOCAL NEWS AND VIEWS.

—Look out for material improvement in THE REGISTER soon.

—Roswell presented quite a business appearance last Saturday. All the good Democrats were in town.

—Trotter & Daniel last Sunday sent a force of men down to the big ditch to begin work on the headgates.

—M. Whiteman, will, so he informs us, soon move his store from White Oaks here and close out his entire stock at cost.

—Several parties from Eddy and the lower valley, were in the city attending to business before the U. S. land office this week.

—The Las Vegas, Ft. Stanton and Eddy nine's would all like to get a "crack" at Roswell. Come on—first come first served.

—Joe Jaffa says he saw a whole lot of flat cars in Trinidad a few days ago loaded with ties for the Pecos Valley railroad and marked "P. V. R. Ry."

—We have long expected it and it has at last come—Bro. Howe has taken to writing poetry for his paper. You are safe, they have neglected to pass a law to prohibit it.

—A dancing party was given at the residence of Mrs. Gamble in the Farms last Friday evening. Quite a number went from town, and report having an excellent time.

—The Democratic county convention met at Lincoln, Thursday, with a full attendance. Up to the hour of going to press, no definite news has been received as to its actions.

—Jaffa, Prager & Co. will, in a short time, build their present large store room out to the street and put in a brick front. This will give them greater room and help the appearance of their store wonderfully.

—J. H. Morrison has been doing pretty well, thank you, since he opened up his real estate business. Since July 22nd there have been twenty transfers consummated in his office, and still there's more to follow, right away quick.

—Scott Truxtun has let the contract to Garrett & Hill for the erection of a neat residence, which he will build at once on his handsome lot on Overton Ave. The building will be 16x30, with an "ell" 14x28, making 4 large rooms, and all nearly surrounded by porches. Work will commence in a few days.

—The band is once more attending to their practice, getting in shape to play, presumably for the Alliance barbecue. The boys are anxious to wear their new caps. Won't they feel big, and to use a local expression, "it will be impossible to hand them a red apple with a ten foot pole."

—We are reliably informed that J. C. DeLany, the Ft. Stanton merchant, is contemplating erecting a business house in Roswell. It will be a brick with an iron front, the upper story to be a hall. Any one wishing to rent a hall of that kind will do well to write to Mr. DeLany.

—Several of our young ladies went bathing last Saturday evening, and as they supposed in Spring river, but upon inquiry next day learned that instead of Spring river it was Judge Stone's ditch. The young ladies experienced no inconvenience, however, from their mistake; the water was wet, and as it was not deep, it was much safer.

—Rev. Francis, a Methodist minister, sent here by the presiding elder for this district, has been and is now holding services here. He preaches at the church every evening at 7:30 p. m. and will hold services Sunday at 11 o'clock a. m. He will fill Rev. Gibbons' unexpired term until the meeting of conference, when, we understand, another gentleman will be sent here.

—The caps presented to the band by G. A. Richardson have arrived and the boys are now the proud possessor of a neat cap each. They are a very pretty style and will help the appearance of the band considerably. The band boys returned the compliment by presenting him with his monogram, made from the minerals of New Mexico.

—Judge Rogers said the other day, in conversation about the growth and cultivation of his fruit orchard: "I expect to ship apples to California in five years, and though you may laugh now, you will see if you are here that such will be the case." That's the kind of citizens we have here and that is the kind of a country they will make.

—A strong petition has already been sent in to the headquarters, praying for the increase of service on the Roswell and Eddy mail line from a semi-weekly to a daily. There is little doubt, but what the increased service will be ordered. This will give our people a much better mail service, especially when the railroad is completed to Eddy.

—Parizer Walls has let the contract for the erection of a business house on Main street just south of Hotel Pauly. It will be built entirely of brick, two story, the dimensions of the building being 30x50 feet in the clear. The upper story of the house will be used as an Odd Fellows and K. of P. hall. Garrett & Hill have the contract, and work will commence at once.

### PERSONAL POINTS.

—J. T. Eubank, of Lincoln, came down to the metropolis Saturday.

—Geo. T. Ovard started Wednesday morning for the mountains.

—James Brent, of Eddy, was in the city this week. He went on to Lincoln Tuesday.

—A letter received by Smith Lea from Col. Milne, at Chicago, states that the Colonel is rapidly improving in health.

—John Copeland, proprietor of the saw mill at Las Tablas, was in the Pride attending to business matters the first of the week.

—George Donaldson made a visit to Roswell from the mountains last week, returning Tuesday. Hard to stay away, isn't it George?

—Dr. Bearup has returned from his visit to his family at Ft. Stanton, and can now be found at his office just south of the Texas house.

—Dr. McKinney was called to the Capitan saw mill last Friday, to attend a young man named McFarland, who was dangerously ill with typhoid fever. At last accounts the patient was improving.

—Mr. Sol. C. Jacobs and wife, and Misses Rosa Jacobs and Mattie Miller, who have been recreating on the Ruidoso for the past two weeks, returned home last week.

—Joe Whiteman, of White Oaks, son of M. Whiteman, of this place, paid our growing city a visit this week. We are of the opinion that it will not be long till we number Joe as one of our citizens.

—Mrs. C. C. Fountain and children, Mrs. Wm. Fountain, Misses Mary Lea, Mintie Meeks and Ida Fountain, Mrs. Robert Doak and mother, started Tuesday for a brief sojourn in the mountains.

—L. L. Wells and wife left Wednesday morning for the railroad, where they will take the cars for Paris, Texas. This is Lee's old home and they will spend several months there visiting friends and relatives.

—H. G. Wallace, who taught the the Farms school a term last year, went to Lincoln last Friday and returned Saturday. He came back armed with a teacher's certificate from the county school superintendent.

—L. M. Long, accompanied by Miss Ohl, went to Eddy Wednesday. Miss Ohl has been visiting with Roswell friends for several weeks, and now returns to Eddy to take charge of the fall term of school.

—James R. Brent and Mrs. Fritz, of Eddy, passed through town Tuesday enroute to Lincoln. Mr. Brent has, we understand, disposed of all his interests in Eddy. Better come up and locate in the Pride of the Pecos, Jim.

—Brown Allen, the Ft. Sumner cattle man, came down to attend the Democratic primaries last Saturday. It is hinted that Mr. Allen will be a candidate for nomination before the convention for county Commissioner.

—C. L. Hubbs, the Grand Sec'y. I. O. O. F. who instituted our Lodge last week, took a ride through the grand farms adjacent to Roswell. Of course he expressed himself as being both astonished and delighted. They all do.

—Billy Jones, a cowboy working for the Jinglebob Co., was thrown from a horse and had three of his ribs broken, last Friday. Dr. McKinney was called and soon had the sufferer in as good a condition as possible, and he is now rapidly recovering.

—H. L. White, our diminutive, but pretty, barber, has returned from his visit to his parents at La Mesa. White reports enjoying the trip and having a fine visit with his old friends, but, like all the rest, says that Roswell is the best town to live in.

—Joe Jaffa, one of the finest young men in Roswell, so the girls tell us, and head book-keeper for Jaffa, Prager & Co., returned from his trip to Trinidad, Friday, where he has been visiting with friends for the past six weeks. He reports having a good time, but says that Roswell is the only place to live and enjoy life.

—Senator G. A. Richardson made a trip to Lincoln and Stanton last week, on business. His sister, Miss Louise, accompanied him, and left Stanton the first of this week, accompanied by Col. J. C. DeLany, for her home, Pittsburg, Pa. Miss Louise was highly pleased with her visit to New Mexico, and was especially charmed with the Pecos Valley.

—J. H. Morrison and Mr. Blackwood returned last week from Las Vegas, where they accompanied Col. Milne. The Col. stood the long trip very well, and Mr. Blackwood received a telegram from them in Chicago, before starting for home, saying that they had arrived all right, and the Col. was improving. His many friends will be pleased to learn of this, as some doubts were entertained of his reaching the railroad alive.

—W. M. Miller, formerly a resident of Las Vegas, and who came to the valley about a year ago, sold his effects and started for his old home in Virginia, last week, where he will in the future reside. Mr. Miller was Justice of the Peace in the Farms district, and his going leaves the office vacant. His farm, located just south of Mark Howell's place, was purchased by L. A. Stephens, at a price we consider a bargain. We wish Mr. Miller much success in his new home, but think he has made a great mistake in leaving the Pecos Valley.

—Colonel Stidger, special agent of the general land office, accompanied by Mrs. Stidger, started off to-day on a month's tour of inspection through Lincoln, Chaves and Eddy counties. The worst that can be said of the Colonel is that he is a Republican land office official and a pleasant gentleman. We wish him and his wife a pleasant trip.—Mesilla Valley Democrat.

Col. Stidger arrived in Roswell Tuesday evening, and devoted his time for several days to attending to land matters in this office and then went down to the valley.

### ANNOUNCEMENT.

Having sold THE REGISTER to James Kibbee we wish to make this announcement to the public. All bills of advertising and job work up to August 1st, will be collected by Erwin & Fuller, all subscription as they now stand on the books and all accounts since August 1st, will be collected by the new management. Parties knowing themselves in debt to the old firm will please call and settle. Thanking you for your past courtesies and patronage, we are  
Yours Very Respectfully,  
ERWIN & FULLER.

New Deal on the Santa Fe.

The Thunderbolt train leaving Denver daily at 9 p. m., Colorado Springs at 7:30 p. m. and Pueblo at 9:30 p. m., carries through vestibule and chair cars to Chicago, arriving at Chicago the second morning at 8:00, serving supper out of Denver in Santa Fe Route famous vestibule dining cars. This is the only line running dining cars in and out of Denver. For a pleasant trip, take this train when going East. Double daily train service to all California points.

Life is short, and so are the most of us all through life.

100 Young Men

and women from Colorado should prepare themselves for good positions at some good Business College or School of Short-hand. We recommend the Iowa Business College, at Des Moines, Iowa. You can get lessons by mail in Short-hand, and reduced Railroad fare. You can see the school at work in the catalogue.

When a girl dislikes her suitor she steals her heart against him. When she likes him she lets him steal it.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

FARMING IN FOREIGN LANDS

The Russian administration in Central Asia has resulted in greatly developing the growth of cotton in that country. In the province of Ferghana no less than 50,000 acres were sown with American seed last year, while in other provinces, also, the culture of this crop has largely increased.

The wheat crop of 1890 in New South Wales is the greatest ever produced, the 407,400 acres yielding 6,460,000 bushels, or an average of nearly 16 bushels per acre. In 1889 only 1,450,503 bushels were grown on 304,808 acres. The greatest production in any previous year was 5,868,844 bushels in 1887, of which 1,000,000 bushels were unfit for human food.

The rabbit pest in Australia is being turned into a source of profit. A big company to put up canned rabbit meat is already canning 44,000 rabbits a week at Stony Rises, Heriot district, New South Wales, and another is being started at Toopeka. The rabbits are first scalped, the head and legs cut off, and then skinned. Then they are cut up, steeped in brine, washed in one or two waters, parboiled, and pressed into tins.

In both France and England a large amount of horse flesh is sold for human food. In the former country there are at least 140 horse flesh shops in the department of the Seine. In Paris 20,000 horses are killed annually for this purpose, the price of the meat being less than half that of ordinary butcher's meat. In England the fat is frequently removed from the meat, and beef fat or mutton fat skinned on to the lean in its place. The horse slaughterer pays about \$5 a horse.

Farmers about Glasgow and Aberdeen have made a good profit in importing store cattle from Canada, to be fattened for the local market. Dundee farmers—also those of Newcastle, England—desire to adopt the same practice, but want the privilege of getting their store cattle from the United States. This will necessitate setting aside the order which now compels all cattle from the United States to be slaughtered immediately upon arrival. The farmers and corporations interested at both places are convinced, after expert investigation, that this order is no longer necessary, and have joined in a petition for its repeal.

Roofs for Barns.

The farmers in attendance at a recent meeting of the Elmira Club gave the result of their various experiences with the roofs of barns and farm buildings. President McCann said very few roofs are properly built. C. Heller did not believe there is one roof in twenty that does not leak. C. Compton knew of many who used slate roofs who would not put them on again. President McCann said the slate gets loose and slides off. C. Heller said slate would last forever if they did not get broken and work out. He said it was impossible to make slate stay on if put over an old shingle roof. President McCann asked if a tin roof would not last if painted and taken care of. C. Heller said it would if kept well painted and well taken care of. Corrugated iron was preferred by some, and was nearly as cheap as shingles. J. McCann said corrugated iron costs from \$4.50 to \$5 a square, and requires to be kept well painted, the same as tin. C. Heller would replace an old shingle roof with shingles, and an old tin one with tin. He did not think that good cedar shingles would last any longer than good white pine. He said it was impossible to make a tight roof of matched lumber. He had tried it a number of times, painted it thoroughly, but it would shrink and swell, crack the paint, and let the water through. J. D. McCann thought that asbestos roofing was good, lasts well, and was fire proof. In answer to an inquiry, J. E. Collins said that tar preparations or other patent roofings were not worth putting on. General Diven had a roof of it which was good for nothing. D. T. Billings used a paint made by some patent process, claimed to be made of powdered slate—it cracked off when exposed to frost. O. M. Wixom said if shingles are painted after they are put on, they will rot off just above the point.

The above statements are condensed and arranged from the desultory discussion at the Elmira Club, as reported in the Husbandman. Two modes which have been tried thoroughly are not given, namely, dipping the shingles in fresh, sharp, and thin lime wash, and in crude petroleum, either of which greatly increases their durability.

Fruit Gatherer.

A cheap and simple fruit gatherer, which has long been in use and can be easily made, consists of a narrow sheet of strong tin, bent to a circle and the ends tacked to the end of a pole. The upper edge is cut with notches to pick the fruit, and a bag large enough to hold a dozen or more fair sized apples is attached to the lower edge. The teeth or scalloped edges should be rounded and filed smooth to prevent cutting the fruit in gathering.

Much choice fruit goes to waste for lack of a convenient means of gathering. Such a gatherer, which can be made for a few cents, will enable the most inaccessible fruit to be easily picked.

Care of the Strawberry Bed. Immediately after bearing, the strawberry bed requires attention. The mulch should be removed, weeds pulled out, and a liberal dressing of manure applied. If the plants are grown in hills, runners have to be cut off. In the alternate row system the growth of the runners is encouraged so as to fill all the bare space. When this is well done the old rows are spaded under. Old beds overrun with grass are not worth the trouble of renovating; better plant a new bed as soon as well rooted young plants can be obtained.

Nickel-in-the-Slot Telephony.

A novel telephone station is being introduced in Connecticut. The instrument cannot be used unless a fee is paid. There are five slots in the machine for the reception of a nickel, ten cent piece, quarter, half dollar and dollar respectively. The amounts cover the rates charged for telephoning to various places in and out of the State. To use the telephone it is first necessary to call up the central, as on an ordinary telephone. The objective point is then asked for, and when this is reached, the party who rings up is told to put the necessary fee in the slot. If five cents is dropped in the slot, it strikes a bell of a high note, once. Ten cents strikes a bell of the same note, twice. A quarter strikes a bell of a lower note, once. A half dollar strikes that bell twice, while a silver dollar strikes a bell of very low tone—"cathedral gong."—Scientific American.

A Sensible Precaution.

Though disease cannot always be conquered, its first approach can be checked. Not only is the use of a medicinal safeguard to be recommended on the first appearance of a malady, but a wise discrimination should be exercised in the choice of a remedy. For thirty years or more Hostetter's Stomach Bitters has been the reigning specific for dyspepsia, feverishness, a loss of physical stamina, general complaint and other disorders, and has been most emphatically indorsed by medical men as a health and strength restorative. It is indeed a wise precaution to use this sovereign fortifying agent and alternative in the early stages of disease, for it effectually counteracts it, if the malady belongs to that large class to which this sterling medicine is adapted. Not only is it efficacious, but pure and harmless.

A man in love is considered lucky if he does not lose his head when he loses his heart.

Harness.

Lying on our table is one of the neatest and most elegantly gotten up little volumes that have reached us for some time. It is the Harness Catalogue, just published by the W. J. Kinsey Implement Co., of Denver. Good things are said to be packed in small parcels, and this booklet goes far to justify the truth of the assertion. It is of just the right size to go in an ordinary government envelope—some three by six inches. The paper is an excellent quality of "book" with a "finish" or gloss on it which makes it attractive to the eye and pleasant to the touch. The type is uniform throughout, and the press work faultless. With regard to the contents of this Catalogue, we may say, briefly, that it comprises harness of nearly all styles and grades, from pony harness to the heaviest double farm and coach harness. The descriptions are full and complete, and give a clear idea of what each set is like, the language used being as little technical as possible, and always terse and to the point. The general effect left by a perusal of the pages of this little book is that the line of harness carried by the Kinsey Implement Co. is in every way superior. And this impression is correct, for a visit to their Harness Department will convince anyone that all their harness is the best of its kind, and, of quality considered, moderate in price. After looking over anything in the harness line will do well to write to the Kinsey Co. for the elegant little Catalogue described above, which is mailed free to all applicants.—Colorado Farmer.

A sad sight in this world is an old hen trying to plume herself to look chic.

NEW AND ELEGANT TRAIN SERVICE.

The train service on the New York Central is being constantly improved. Never before in the history of the company was there so many fine trains being run on this line. Last year, the company carried over 18,000,000 passengers, and it is expected this year the number will be considerably larger.

When the mint julep is ready then the straws show which way the drink goes.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

When a man is short he does not remain long at the races.

Any man that puts an article in reach of overworked women to lighten her labor is certainly a Benefactor. Grain & Co. surely come under this head in making Dobbin's Electric Soap so cheap that all can use it. You give it a trial.

The Warning. Ethel—"We've been married three months to-day, Charlie." Charlie—"Great Scott! Is that all?" J. S. PARKER, Fredonia, N. Y., says: "I shall not call on you for the \$100 reward, for I believe Hall's Catarrh Cure will cure any case of catarrh. Was very bad." Write him for particulars. Sold by Druggists, 75c.

Baby McKee and Mary Scott Lord McKee have been tested by the Jersey medicines, and pronounced very fine.

Mr. Huggard's Stroke of Fortune. Bridgeport (Conn.) Farmer, July 14. The prosperity which recently came to Joseph Huggard in the shape of a \$10,000 prize in the Louisiana State Lottery has not in the slightest degree turned the fortunate recipient's head. He still carries on file-making in a little shop at No. 34 John Street, which he has conducted all alone for several years and proposes to keep right along as formerly instead of giving up his old occupation or attempting to splurge in any direction. He was busily employed about his work when the writer called on him to day. "There isn't much of a story to tell," said he, when asked about his stroke of good luck, "my ticket was a one-fourth of No. 39,848 which won the \$100,000 prize in the last drawing and my share was \$10,000. I forwarded the ticket to New Orleans for collection by the Adams Express Company, and a check for the amount came back very promptly. It makes me comfortably well off, and I am satisfied and rejoiced, although I have no idea of allowing my good luck to run away with my senses."

"In which yard did you lose the ball, my boy?" "The one with the dog in."

G. A. R.

To the National Encampment Grand Army of the Republic at Boston, Aug. 10 to 16, 1890.

The Great Burlington Route announces a rate of one lowest first-class fare from Denver, Colorado Springs and Pueblo to Boston and return; tickets on sale August 6th to 10th and are good returning until Sept. 30th.

A rate of half fare from all Colorado points is made up to initial points which, added to rate from such points, will make through rate to Boston. The Burlington being the short through line is the route over which to purchase your ticket.

A woman may make a match, but she doesn't know how to scratch one.

Our Flag

Is the name of a beautiful new book. Carlyle says "It is in and through symbols that man consciously or unconsciously lives, moves and has his being. Those signs, moreover, are accounted the noblest which can be recognized symbolic worth and prize it at the highest." This saying is verified by the teachings and quotations contained in this book lately brought out by Robert Allen Campbell, published by H. E. Lawrence & Co., 161 State St., Chicago. The author has given us many quotations from celebrated patriots, statesmen and poets, along with a complete history, sparkling with reason as to design, the colors and position and mystic interpretation of our glorious flag. The book, beautifully illustrated, also contains several of our proudest national songs, with sketches of their origin, and in some cases an interesting sketch of the author. When one can thus find the purest and sweetest sayings of our most gifted and best loved scholars so daintily compiled for our pleasure, and information along with so much history, our love of that flag and the country it floats over, gives rise to the wish that the little book may be found in every home, school and library that not only men and women may enjoy it, but that it shall be handy for the boys and girls growing up, thus stimulating their patriotism, love and pride of country. Cloth bound, \$1.

A lady in this city who owns a cat that scratches a great deal has given it the descriptive name of "Clawed."

Too long deluded—the unhappy victim of catarrh in the head. He's been told that it can't be cured. Don't you believe it. It can be, and it is—no matter how bad or of how long standing. It has been done for thousands—by Dr. Sage's Catarrh Remedy. Other so-called remedies may palliate for a time; this cures for all time. By its mild, soothing, cleansing and healing properties, it conquers the worst cases. Its makers offer, in good faith, a reward of \$500 for a case of catarrh which they cannot cure. They are able to pay it. Are you able to take it?

The symptoms of catarrh are, headache, obstruction of nose, discharges falling into throat, sometimes profuse, watery, and acrid, at others, thick, tenacious, mucous, purulent, bloody, putrid and offensive; eyes weak, ringing in ears, deafness; offensive breath; smell and taste impaired, and general debility. Only a few of these symptoms likely to be present at once. Thousands of cases terminate in Consumption and end in the grave, without ever having manifested all these symptoms. Dr. Sage's Remedy cures the worst cases. 50 cents, by druggists.
