WHAT MINING PEOPLE ARE SAYING ABOUT OUR DISTRICT.

Properties of the Eagle and American Companies.

(Mining Reporter.)

Two mining companies, under the same management and having practically the same owners, are carrying on extensive operations in this county, where their holdings include several groups of mines which are classed as substantial producers. These are the Eagle Mining and Improvement Company and the American Gold Mining Company, both under the management of John M. Rice, with M. S. Gandy as general superintendent, both of whom are stockholders. While their several camps are separated from each other by a few miles they are all near the line of the El Paso & Northeastern railroad, in the vicinity of its capital branch.

The properties of the Eagle M. & I. Company comprise the Old Abe and South Homestake in White Oaks district; the Hopefesl in Bonin district and the Roadis in Nogal district. The Old Abe mine was operated for a number of years by a company in which Messrs. Hewitt, Ferguson, Watson and Hoyle were largely interested. These parties sold the property to the Eagle M. & I. Company, but not till they had taken approximately $1,000,000 therefrom. The Old Abe has a vertical shaft, 1,375 feet deep, with crosscuts from it to the veins. The main vein is said to be about forty feet wide, the ore therein running an average of $4 per ton. A second vein opened by the same workings, ranges two to five feet wide, whose ores are claimed to average $3 per ton. The two veins are parallel and about forty feet apart. The country rock is a granite, quartzite and porphyry, the vein matter being quartz, bearing free gold, which at greater depth carries or iron sulphide which is very rich in gold, partially free. On the property is a twenty-stamp mill which is operated on about fifty tons of ore daily. About one per cent of the saving by cyanide work. There are 7,000rels of crude oil in storage, and agreed to put up a forfeit of $1,000 as a guarantee of good faith. Several reasons may be assigned for the upward tendency in prices of the Beaumont product, prominent among them being the fact that many of the wells are being drilled by the Hopefesl, and other groups were 'remarkably fine. The Helen Rae, having the same vein as the former has a 375-foot Shaft, with development therefrom, showing a vein one foot wide. The Hopefesl, in Nogal district, is 2,000 feet from the Hopefesl, but on the opposite side of a high ridge. There are three parallel veins on the Hopefesl, 300 to 400 feet apart. The first is 315 feet wide, as demonstrated by these crosscuts from three shafts which are 35 to 110 feet deep; the second is said to be 300 feet wide, the third, it is claimed, is 145 feet wide. The ore in the three veins is estimated to average $4.50 per ton. The plans are to erect a twenty-stamp mill, which is being put in working order to be operating soon. The record of production of this mine is said to have reached $3.50 to the ton, which will be cyanided. Mr. Gaylord of free gold from the Old Abe and other groups were 'remarkably fine.

Mr. Peterson had quite an experience in killing a lion. The lion had been making visits to the pasture and killing young calves so he decided to lay for the beast. He finally caught sight of him just as he was in the act of springing on a calf. He fired and the animal fell, and supposing that he had killed it, he started to approach. When he got up within a few feet of him the lion made fight, and he had to take to a conveyance, where he loaded his gun. He then fired a fatal shot.

More Water.

John Owens and Frank Hall have struck a free stream of water in the well near the Tulia station on the line of the Southern in each for the well the next day after they struck water. They have in all probability the finest lines in Lincoln county.

Lincoln County Postmasters Sent to Penitentiary.

More Water.

Mr. G. M. Paden's Orchard. White Oaks, N. M.

Dr. M. G. Paden's Orchard, White Oaks, N. M.

Several weeks, there is no telling when the prices will be at a result of the molder's strike much confusion has resulted, notwithstanding, the union molder's places were filled at the beginning of the strike with non-union men, but now and then when a piece of machinery is turned out by a non-union molder and sent to the union men to be finished they refuse to handle the output of the non-unionist's skill.—El Paso News.

Hogg Says Beaumont Will Produce Twenty Years.

In an interview Geo. Hogg takes a very optimistic view of oil situations bearing upon the productiveness and longevity of Spineton Heights. He says prices soon, the 25 cents in the wells is due to the fact that the casings are split and cracked. Mr. Hogg says there are 400 producing wells on 200 acres of proven territory. He calculates that with such acre of land he and his partner, will carry off annually 18,000 barrels of oil, and that at present rate of hauling the oil it will require twenty years to exhaust the field.—El Paso News.

A Hunters Experience.

The most sacred doctrine of the Republican party, a doctrine sanctified by the blood of one of the party's foremost presidents, is that ours is 'a government of the people, for the people, and by the people.' To the light of this doctrine no genuine Republicans will attempt to remain in office when he has been voted out by a majority of the vote, much less when he has been voted out by a majority of several hundred votes. —Socorro Chieftain.

Lincoln county Republicans could profit by such consistent political honesty. The Editor of the Socorro Chieftain suggests.

For commisioner 4th district
J. Grayson, M. Ketchem and E. Holstad.

There being no further business Board adjourned sine die.

Attest: Approved
Chairman.

NOGAL NEWS.

Regular Correspondence.

We are very quiet. Election fights and bets have been called off. No one to tell you how industrious was, or to kiss the babies. It is strange how little interest some people take in an after election, and how limited other symptoms of benevolence and charity become. These things are only biennial and are precursors of the regular election.

The Nogal Republican is hibernating, editor Lightfoot having resigned and will start Saturday for Old Mexico.

The Adams mine under the management of C. C. Bourne, is putting in some new machinery and will soon begin developing.

L. H. Rudisille was in the city Thanksgiving and attended the exercises at the public school. The school has now an enrollment of 94 and is doing good work. Our teachers attended Association meeting at Capitan last Saturday.

No sickness or marriages to chronicle at this writing though conditions are favorable for marriages, as some amended motions have been filed awaiting the decision of the girls. The Friday night hops are regular. More anon.

OPTICIAN.

Alex J. Wyatt, Refracting and Manufacturing Optician, 119 Dearborn Street, Chicago, is expected to arrive here in a few days, and will be pleased to meet any who may need his services.

A CORRECTION.

We are sorry it is necessary to correct the statement in last week's Eagle that connection had been made between the old and the new shafts at the North Homestake. This connection is only between the new shaft and a hole recently sunk near it, and the development is not such as we thought in last week's Eagle that connection had been made between the old and the new shafts at the North Homestake. This connection is only between the new shaft and a hole recently sunk near it, and the development is not such as we thought would be done.

What is there in the President's message encouraging to statehood? The answer is nil.

W. R. Hearst, the country's biggest newspaper man, is in Mexico looking after his ranch interests.

THE EAGLE WILL SOON BEGIN PRINTING A BOOK WHICH WILL BE DESCRIPTIVE OF LINCOLN COUNTY RESOURCES 25c a Copy.
CHILDREN SOLD IN HUNGARY.

People Without Children Go to the Foundling Hospital to Buy the Waifs.

The Hungarian authorities are taking decisive steps to put an end to an extraordinary system of selling children which prevails to a large extent in the central provinces.

Once a month children persons appear in a large foundling hospital in Temesvar where they select the children that suit them and depart after paying a sum of money for their purchase.

On a recent occasion 30 children, ranging from one to nine years, were disposed of in this way without sufficient guarantees being given that the purchasers were respectable people who would treat the children properly. The most beautiful children were those most sought after, especially fair-haired girls, as these in Hungary are rare.

In three cases direct people bought six children to bring up as servants. In one case a millionaire sought a boy to bring up as his heir, as he had disinherited his own son. The authorities now insist on the most careful investigations into the status and motives of the purchasers.

The news has got abroad in Hungary that there is a ready market for children in Temesvar, and the mothers of illegitimate children are eager in many cases to send their unhappy offspring to an institution where they have such prospects.

Water rose to within 40 feet of the top to the Chapman-Ludlam well Monday morning. The water was used of a little below 50 feet and only a short distance was made until a stronger flow of water was struck and it rose to within 40 feet of the surface. The water has not been analyzed but is thought to be a good quality. While some doubt at all discourage oil prospects, it at the same time has demonstrated beyond question that White Oak is the best watered town in this country. With a non-stop amount of trenched this water is blown to the surface and run in to town by gravity. Messrs. Chapman and Ludlam pay no attention to the water and are going eight days down for oil. How­ever, if oil is never struck, this well will be a valuable property.

Not the Old Abe.

A. B. McKie, until recently the president of the Industrial Record, of this city, states that it is on the sale of the Helen Rae mine, and not the Old Abe mine, that he claims a commis­sion. He says his attorneys already have the papers drawn and the suit will be filed at once. He claims $15,000 commission.

El Paso Herald.

Makes Business Good.

The large farmers in the interior and many throughout Mexico say they do not care if the dollar falls to 30 cents, as only the city merchants and importers get the per cent. They urge that the deprec­iated silver keeps the dollars in the country and makes business good.

Republicans have now given it out as a certainty that there will be no trust legis­lation this winter. Nobody expected it. But republican leaders might say, if they want it, that it is not the intention of the republican party to ever attempt any legis­lation of this character. Anti-trust legis­lation, if it comes at all, will come through democratic agitation. The President may favor anti-trust legislation, but he is not the republican party and his wishes will probably never be consulted.

W. H. H. Llewellyn, Otero's candidate for speaker of the lower House of the ter­ritorial assembly, has been shelved and Nuestor Montoya, editor the American at Albuquerque, substituted. Montoya is sheriff Hubbell's candidate.

Officials at Santa Fe have ordered mass improvements in and about the ancient capital. Since the statehood Committee visited them. New side walks are being installed, and the free daily mail sys­tem installed. Scared up make, might lose the capital.

Governor Otero's annual Thanksgiving pardon, this time given to Elmo Saa, murderer, a convict, sentenced to life imprisonment in the territorial pen­sity from Mora County in 1896. Thus is another atonement for the murder of his fellowman properly rendered. But the poor devil who fell into an early grave is still dead.

There will be no district or county court in Socorro county this fall. Funds are still dead.

Our mail service is again bad. It is not once in the week that we get eastern mail on time. It is not one thing it another that throws the train late at Car­pinter. Sunday's mail got in at 5 o'clock in the afternoon.

Letter List.

Letters remaining uncalled for in the White Oak Postoffice Nov. 30th:

C. R. Taylor & Son, 50c.

Gran Quivira, Homestead Litiga­tion Settled.

M. R. Oter, register, and Fred Muller, receiver, have decided in favor of the con­testant, the famous homestead contest of Mrs. Virginia D. McClurg of Colorado Springs, vs. Mrs. Clara A. R. Carls, blind woman of Washington, D. C., which has taken possession of the historic and picturesque ruins of the Gran Quivira in northeastern Socorro county, which are reputed to contain vast treasures buried there by the Pueblo Indians three hundred years ago. Mrs. McClurg brought the contest in order to preserve the ruins from despoliation and as the absence of water makes the agricultural reclamation of the land out of the question.

The President has appointed a negro, Dr. Crum, Collector of the Post of Charleston, South Carolina. We would like to see the President make an appointment like this for the state of Massachusetts, then if proved satisfactory the South could take to medicine more uncom­monly.

The Denver News says that King Ed­ward has deprived Willie Waldorf Aster of the title of "honnor." The title of "honorable" bestowed on him by the American people is to be allowed to stand, unmolested.

John L. Sullivan has filed a petition in Bankruptcy. He says his liabilities are $65,540 and his assets $35,000. He is not worth of wearing apparel. In short, John is knocked out.

A thirteen-year-old daughter of the fa­mous Apache Chief Geronimo is now in the Apache school at Mesilla's Agency, there. Geronimo is still a prisoner of the government at Ft. Sill, Oklahoma.

The latest sensation extant is that there is a scheme on to admit Oklahoma and In­dian Territory as one state and likewise of the government at Ft. Sill, Oklahoma.

Stock Farm
For Sale

ANCHI on the Ruidoso, 6 miles below Dowlin's mill, 8 miles above Coe's orchard, 560 acres, 360 acres under fence and ditch, and in cultivation; 1½ miles on the creek; two adobe houses. Good range adjacent; small orchard in bearing; a few acres in alfalfa. Rented for 1902; purchaser to take it subject to lease, receiving the rental. A considerable portion could probably be taken off the hands of the renter.
