No. 34

Secure a Home in McCulloch County, the Land of Opportunity. Do it Now!

Common Sense

DICTATES that money should be kept in the bank and paid out by check instead of currency. By doing this you avoid misunderstandings and always get a receipt for your payments.

Bank your money with this bank. Whether the amount you handle is large or small, we welcome it just the same and give the small account the same careful attention as we give to the business of the large depositor.

WE KNOW YOUR WANTS and WANT YOUR BUSINESS.

OFFICERS AND DIRECTORS:

F. M. Richards, Pres. J. F. Montgomery, Cashier.
F. W. Henderson, Vice-Pres.
John P. Sheridan, Vice-Pres.
S. S. Graham, Ass't Cashier.
T. J. Wood. E. E. Willoughby. J. S. Neal.

The
Brady National Bank
of Brady

Selling Carlsbad Property.

Mr. S. D. Magill, who has been in our city for some weeks in the interest of the new town of Carlsbad, in Tom Green county, reports the sale of thirty-five contracts to Brady people, which indicates that the Carlsbad proposition has much of merit in it which will lead careful observers to invest. The firm of O. D. Mann & Sons took twelve contracts, the largest single deal which Mr. Magill has closed here. A representative of the firm visited Carlsbad and investigated before buying.

Carlsbad is a new town located in the Concho river valley, and the town site and surrounding country was formerly a part of the old Collins ranch. Mineral water was discovered there some time ago which has proven of much medicinal value, and if the present plans of the company pan out Carlsbad will be a health resort of some note within a few years. It is located on the extension of the Santa Fe road to

Sterling City, and is surrounded by fine farming land which is being opened up quite rapidly.

Have a Little Crater Crude Oil Burner installed in your cook stove and have a nice clean kitchen all the time. Come up and see it in operation over Hudson's store. M. J. Campbell, Local Agent.

Say, isn't that street sprinkler just about the best thing Brady ever invested in? What a difference these windy days! And who is there to regret the small cost?

The yield of bargains now is generous. The prices we are making on our mammoth stock of furniture has produced the results we expected. O. D. Mann & Sons.

El Dorado citizens have agreed to take \$100,000 worth of the Orient bonds in order to secure that road. \$80,000 was raised at the first mass meeting.

Try our Dairy Food on your milk cow. Souther & Co.

THE BRADY CREAMERY NEW ROAD TO STACY

Stock Has Been All Subscribed and the Building Committee Appointed. Names of Stockholders.

The stock in the Brady Creamery has all been subscribed and a meeting was held Tuesday in which the stockholders appointed a committee of three to select and purchase a site, supervise the erection of the building and the placing of the machinery and to see that everything comes up to plans and specifications. This committee is composed of J. C. Wall, P. J. Martin and F. M. Phillips.

Mr. Quinn, the contractor, has wired for his builder who is expected to arrive today to begin operations. Another committee composed of Messrs. Wall, Marsden, Phillips and Dutton was appointed to make a canvass of the country and secure pledges of cows for the creamery. In this work they will be assisted by Mr. Quinn. It is confidently expected that not less than 400 or 500 cows will be pledged for the start-off.

The plant will be complete for the production of creamery butter and manufactured ice cream, and will cost, complete with building and machinery placed ready for operation, \$4,950. Stock to the amount of \$5400 has been subscribed, thus leaving a nice little working balance after the plant is put in operation. The stockholders are as follows, shares being placed at \$100 each:

- T. H. Marsden, 20.
- W. H. Dial, 5.
- J. C. Wall, 5.
- W. F. Dutton, 2.
- Lee Schuler, 2.
- F. M. Phillips, 2.
- Hardin & Jones, 1.
- Crothers & White, 2.
- J. Meers, 1.
- S. A. Newton, 1.
- H. C. Johanson, 1.
- H. J. Huffman, 1.
- C. C. Bumgardner, 1.
- W. H. Cowser, 1.
- S. S. Graham, 1.
- F. W. Henderson, 1.
- J. F. Montgomery, 1.
- Rainbolt & Plummer 1.
- Thos. Bell, 1.
- J. V. Ewing, 1.
- D. Harkrider, Jr., 1.
- Lewis Brooks, 1.
- Satterwhite & Martin, 1.

It is desired to impress upon the cow owners and farmers the necessity for patronizing the creamery. The plant can easily take care of the product from 1000 cows, and the more cows secured the better for all concerned. The creamery will pay the farmer for his butter fat at the rate of from 2c to 4c per pound less than the wholesale price of creamery butter as fixed every Monday morning by the Elgin Board of Trade, of Elgin, Ill. This margin is allowed the creamery for profit. It means that if butter is quoted at 31c per pound the farmer will receive from 27 to 29c per pound for his butter fat delivered at the plant. The amount of butter fat obtained from a gallon of milk depends upon the quality of the milk, of course, but roughly speaking the farmer will receive for his fresh milk about one cent per pound and will get his skim milk given back to him.

The soliciting committee will doubtless call on every farmer living close enough to Brady to patronize the creamery, and they hope for a ready response. It is hoped to get the creamery built and in operation within 90 days. Later—Mr. J. J. McKean, who will have charge of the construction work, arrived yesterday and will immediately get busy.

Commissioners' Court Takes Preliminary Steps Toward Granting a Badly Needed Highway.

Commissioners court has been in session since Monday, this being the regular quarterly term. Much of the time up to yesterday noon had been taken up with examining and approving the various monthly and quarterly reports of the several county and precinct officers.

The most important business transacted so far was the hearing of a petition relative to the Stacy road. This petition was signed by about 500 citizens, and a large number of citizens from the northern section of the county were here in connection with same. Brady business men were also very much in evidence.

The petition asks for a new road from the top of the Brady Mountain near Broadmoor to a point intersecting the Coleman road, and means the shortening of the distance from Brady to Stacy by several miles. G. V. Gansel made the court the proposition to give free right-of-way through his ranch the other side of Broadmoor, cutting his pasture diagonally. The court granted the petition and appointed a jury of view as follows: Thos. Bell, G. E. Coburn, A. C.

E. A. DAVIS (BIG DAVIS) RANCH

We are offering the Davis Ranch for sale, which consists of 10,000 acres of land, situated four miles south of Brady and is a very fine body of land—about half of it being fine farming land and the other half a fine proposition for stock farming, dairying, and for feeding cattle it is just the thing.

This ranch has about 1400 acres in farms and has about eight sections fenced with twenty wires and cross-fenced, making about four sections in each pasture, fenced absolutely hog, sheep, goat and wolf proof. Being well watered and well located, either of these four-section pastures will make a fine little ranch for anyone. We will sell any part of this land to suit purchaser and on very reasonable terms.

For further information call on us at our office, over Jones Drug Store.

MEERS LAND COMPANY

Russell, Mack Coalson and C. A. Trigg.

It is very important that the Stacy road be given prompt attention, and the chances now seem good that such will be the case.

The court will probably be in session all week, and a full report of its proceedings will be given in our next issue.

A. L. Williams is building a nice residence on the lots recently purchased from A. B. Reagan.

W. J. Docwra has bought the A. C. Russell residence near the public cotton yard, consideration \$1100, and will move to town for the benefit of our schools. Mr. Docwra has rented his farm seven miles northwest of town, sold off his cattle, teams, etc., and will engage in some other work. He secured \$400 for one team of mules and wagon.

—We can sell you glass and put it in as cheap as the other fellow sells the glass alone. Jones Drug Co.

NETTLETON SHOES

Our Nettleton Shoes were shipped out of New York October 29, and will be in Brady in a few days, so polish your old shoes once more and then come and get a pair of NETTLETONS, the gentleman's shoe of national reputation—the shoe that is known from California to Maine and from Michigan to Florida—and it is the shoe that has created the greatest sensation in London, Paris and all the large cities of the East. It is the shoe that Teddy wore on his hunting expedition in the jungles of Africa; the shoe that Bryan stands in when speaking in behalf of Democracy.

The Nettleton has a sale of three pairs to any other shoe's one in the cities. Competition may howl about their good shoes and spiel about the style and durability, but "O U NETTLETON."

A large stock of DOROTHY DODD Shoes for Ladies just received and we have the names of sixty-eight ladies who have been waiting for their arrival. The Dorothy has the reputation of style, quality and a corn curer and bunion preventer—a shoe that is shape-retaining and attractive, and our guarantee will go with every pair.

A New Shipment of Good Boots Just Received

Watch the Grand Leader sell the Dry Goods, Clothing and Shoes. Competition is our best friends, as they are talking about us and we appreciate their kindness. We love them for the kindness.

Where the People Trade

Ready for Business and Getting Some of It

OUR new store is open for business and we are already receiving a very nice share of the public's trade. While all our goods have not yet been received and our fixtures are not all yet in place, we are ready to take care of your orders in Dry Goods and Groceries, and if we can't show you where it is to your advantage to trade with us on the cash basis we won't expect your business.

Our stock will be one of the most complete in Brady and will consist of standard lines of high-grade merchandise. Our terms will be **STRICTLY CASH TO ONE AND ALL ALIKE**. Buying in large quantities for cash and selling for cash will enable us to quote you closer prices and render you better satisfaction in every way. If you have never tried the cash system of merchandising you will be surprised at the savings it will offer you, and we ask you to put us to the test.

We are in the cotton business, too. We want to buy your cotton and will pay you the best prices. Bring us your cotton whether you buy a dollar's worth or not; we will buy it anyhow, and if you do buy from us at the same time we will make it interesting for you. We are here to do business and will make the prices right, both in buying your cotton and in selling you our goods. Come in and see us and get acquainted with us and our business methods. Remember the place—west side square, in the Rice corner building

Wm. CONNOLLY & COMPANY

THE HOUSE OF QUALITY

SOCIETY NOTES

MRS. A. G. WALKER, Editor
PHONE 149

Mrs. F. W. Henderson entertained a party of friends Wednesday evening in honor of her guests, Mr. and Mrs. Rogers, of Dallas, who arrived that afternoon, having toured the distance in their White Steamer. The evening was spent in testing the skill of those present at "forty-two," as well as enjoying refreshments prepared by the hostess.

Mr. and Mrs. W. D. Crothers, Mrs. Jarvis and Miss Crothers, as guests of F. Savage, made an overland trip in Mr. Savage's touring car to San Angelo last Saturday, that Mrs. Jarvis, who is visiting her sister, Mrs. W. D. Crothers, could enjoy the beautiful western scenes. The distance was covered in less than 5 hours including stop for lunch. After remaining in San Angelo 24 hours, the return was made Sunday afternoon, all parties delighted with the trip.

Mr. and Mrs. J. H. White extended the hospitalities of their home to the dinner club Friday evening. A 5-course dinner was served by ladies of the club. Guests of honor, Mr. and Mrs. Russell V. Rogers, of Dallas.

A party composed of W. D. Crothers, wife, daughter Marie, Mrs. Jarvis, and F. Savage spent last Tuesday at the Sellman ranch.

Mrs. Willie White entertained Prof. Gibson and sister, with the Misses Sammons last Sunday with high noon dinner.

Mr. and Mrs. Venable, who will be remembered by many Brady friends, arrived Monday to spend some time with the family of Mr. Joe White, brother of Mrs. Venable.

The birth-day club, composed of 12 ladies who meet and celebrate each anniversary, were guests of Mrs. Charlie Bradley on last Monday afternoon. The home was beautifully decorated with white chrysanthemums. The hostess received her guests in a charming manner. After congratulations the club extended their compliments in the form of a handsome parlor chair, other guests by hand embroidered scarfs and doilies. Refreshments of cake, cream and fruit were served during the evening. The club believes as the years come and go each year

will bring more good cheer and each occasion quite the best.

The reception given by Mrs. G. R. White Thursday afternoon from 3 to 5 o'clock was in honor of Mrs. Jarvis, of Kentucky, and Miss Laura Lee White, who will spend the winter at home after four years' absence in attendance at school, including six month tour in Europe. This is spoken of as the social event of the season. Miss Crothers, in dainty corn colored silk and lace, greeted each guest in reception hall and announced to hostess, who was gowned in jet-spangled net over silk slip, and diamonds. Mrs. Jarvis in black messaline, old gold ornaments. Miss White in peach satin, crystal trimming. Mrs. W. N. White was charming in white embroidered lawn, dispersing the guests in groups to the spacious dining room beautifully decorated in ferns and presided over by Mrs. John Wall in love blue satin, and Mrs. Austin Benham in a creation of hand embroidered messaline. Delicious refreshments of cake, cream, nuts, mints and coffee were served. The color scheme was pink and white. Out of town guests were Mrs. Russell V. Rogers, of Dallas, and Mrs. McMullen, of Ft. Worth. Out of the one hundred invitations issued the majority manifested their appreciation by attending.

Don't Listen, but come and see for yourself that J. V. Searcy carries the best selected line of Jewelry, Cut Glass and Hand-painted China in Brady.

Robert Calvert left yesterday for San Angelo, where he has accepted a position with an automobile company as vulcanizer.

We want your 1910 account, your cash will be acceptable and you will be struck by our credit inducements. O. D. Mann & Sons.

John Moffatt, who has been sick with fever for several weeks, is reported to be improving.

Mrs. Louie Hite, 428 Outlen, St. Danville, Ill., writes, Oct. 1st: "Foley's Kidney Pills started me on the road to health. I was treated by four doctors and took other kidney remedies but grew worse, and was unable to do house work, and the doctor told me I could only live from two to six months. I am now so much better that I do all of my own work, and I shall be very glad to tell any one afflicted with kidney or bladder trouble the good results I received from taking Foley's Kidney Pills!" Commence today and be well. Do not risk having Bright's Disease or Diabetes. Jones Drug Co.

—Figure with us on your window glass. Jones Drug Co.

WILL BUILD 3 BRIDGES

Commissioners Court Orders Election for Bonds to Build Bridges at Waldrip, Stacy and Voca.

Yesterday the commissioners court decided to order an election for bonds with which to build three good bridges in McCulloch county—one at Waldrip, not to exceed \$10,000. One at Stacy, not to exceed \$10,000. The third at Voca, not to exceed \$12,000. The date of election was not set yesterday, being passed over until today, and The Standard goes to press too early to publish the date.

The Waldrip bridge will be probably the most expensive, as Coleman county has agreed to pay one-half the cost of same, and it was estimated that this bridge would cost \$18,000. The bridges are badly needed at all three points, and it is almost a sure thing that the bonds will be voted practically unanimously.

We are making war on poor goods and high prices. You should improve this opportunity. O. D. Mann & Sons.

County Judge Walker, Sheriff Sansom and County Attorney Brown went to Tucker yesterday to conduct a court of inquiry in a lunacy case.

—Glass cut any size by an expert cutter. Jones Drug Co.

Cicero Allen, of Groesbeck, died at the old Shore hotel Tuesday and was buried at the expense of the county Wednesday. Deceased came out here seeking health a few months ago and had been staying on the Joe Myers ranch.

Most women are troubled with kidney complaint, and you know very many serious and even fatal diseases result from these neglected kidney troubles. If you will take DeWitt's Kidney and Bladder Pills as directed, you may be confident of good results. Try them and see how really good they are. Beware of imitations; pills that are intended to deceive you. Be sure you get DeWitt's. Sold by Central Drug Store.

Belmont Sammons left Friday for Mercury where he has accepted a position with the South Texas Lumber Co., at that place.

Souther & Co., the feed men, want your trade. Their prices are always in line.

—We are the only people in Brady who buy glass in quantities, thereby enabling us to sell for less than the other fellow. Jones Drug Co.

Frisco Construction.

The Frisco is beginning to get busy on the Menardville extension. The Sharp Contracting Company has opened an office near the depot with Mr. McMurray as manager, and the surveying forces have office rooms in the Syndicate Building. A large amount of materials, teams, etc., is being received and work of grading will begin at once. The first will probably be done just across the creek on the property formerly owned by the water works company.

A shell for every purpose, a cartridge for every use, at the store where the people trade. O. D. Mann & Sons.

B. B. Gabbert, an enterprising farmer living four miles northwest of town, has purchased from the Bourland Music Co. the fine Hamilton piano, mention of which was made in these columns a week or two ago.

Don't Listen, but let J. V. Searcy show you the South Bend Watch. They keep the time all the time.

The Standard was in receipt of still another beautiful bouquet of flowers this week. Mrs. S. J. Striegler was the donor, and the collection embraced many varieties. Mrs. Striegler is another Brady lady, who appreciates beautiful yards, and who is very successful in the culture of all kinds of flowers.

Read the pain formula on a box of Pink Pain Tablets. Then ask your Doctor if there is a better one. Pain means congestion—blood pressure somewhere. Dr. Shoop's Pink Pain Tablets check head pains, womanly pains, pain anywhere. Try one, and see! 20 for 25c. Sold by Central Drug Store.

During the month of December we will show at our store in the Syndicate Building the most beautiful line of pianos and organs ever exhibited in the city of Brady.

Bourland Music Co.

BORN—To Mr. and Mrs. H. C. Cummins, on the 6th, a boy.

Rocking prices on our entire line of Rockers, snappy styles to give a snap to business. O. D. Mann & Sons.

Judge Joe A. Adkins, Thos. H. Wood and Leonard Wood returned Monday from a week's hunting and fishing trip on Bear creek in Kimble county. They report plenty of squirrels and fish but no deer in the game bag.

Store service excellent, values ditto—that's why business comes our way. O. D. Mann & Sons.

LOVE FOR TITLES.

The Way the Average German Burger Lengthens His Name.

The average German burger's love of titles is a source of never ending fun to the rest of the German population and of continual ridicule to the rest of the world. Any one caring to see how far some people of the fatherland will go in this direction need only have a look at a hotel register at a summer resort. He will see added to the name of the guest the most curious combinations of appellations drawn together to form a title. He will, for instance, find:

A "Technischen Provinzialfeuerwehrs-inspektors" (a technical provincial fire insurance inspector).

A "Geheimen Expedierenden Sekretar im Ministerium der Offentlichen Arbeiten" (meaning a special sort of secretary at the ministry of public works).

A—to continue in English as well as possible—"cashier president of the Royal Saxon railway," a "royal railroad subsecretary."

The ladies are no better. "Frau Verwitweterobersteuercontrollerin" is quite usual and means "Mrs. Widowed Supertax Collector." Then there are the "Mrs. Secretary and Calculator" and "Mrs. Widowed General Agent." The best of all, however, is a title which a lady entered in the register of a hotel at which I recently stayed. It read, "Mrs. Prison Warden and Children."—Fall Mall Gazette.

TAMING A BIRD.

Teaching a Feathered Pet to Trust You is Not Difficult.

No creature is more jealous or sensitive than a bird. It is easy, however, to win the heart of almost any bird, and that without starving him or making him think he has mastered you. Simply talk to him a good deal.

Place his cage near you on your desk or work table, and retain his choicest dainty to give to him with your own fingers. Let him know that he can never have that particular thing unless he takes it from you, and he will soon learn. If you are patient and do not disconcert him by fixing your eyes upon him.

After this he will more readily take it from your lips, and then when you let him out of his cage, after the first excitement is over, he will come to you, especially if you have a call to which you have accustomed him, and accept the dainty from you while free.

As soon as he becomes really convinced that you will not hurt him or try to catch him or interfere in any way with his liberty he will give you to his boundless curiosity about you. He will pull your hair, pick at your eyes and give you as much of his company as you desire.—New York Press.

A Lost Opportunity.

The father of the late Benoit Constant Coquelin, the great French actor, was a baker, and the young Coquelin was brought up to the trade. At thirteen, a writer in Le Figaro says, he manifested an irresistible inclination toward the stage, an inclination which his father steadfastly strove to repress.

"Don't devote so much time to those dramas," his father used to say. "You have learned a good trade, the business is running well, and you shall be my successor."

A number of years after Constant had made his way into general favor his father, who took pride in his boy's success, but could never quite get over the feeling that Constant should have been a baker, was congratulated upon his son's eminence.

"I remember," said the old man, "that Constant was a good baker. He would have gone far in the trade."

Blowing Up the Locks.

Would it be easy to blow up and destroy a lock canal by the malicious use of dynamite or other high explosive? The question has been debated much in connection with the Panama canal. The Engineering News calls attention to the fact that an attempt made in 1900 to wreck the Welland canal in this way produced surprisingly small results. After two weeks' examination the two men concerned selected lock 24, and each lowered a satchel containing dynamite and a fuse to the water behind the gate at each end of the lock. Both charges were exploded, but the dynamite failed to carry away the gates. Although the explosives blew a hole about a foot in diameter through each gate and loosened the hinges, the gates remained in position, holding back the water.

MARKET REPORT.

The following prices are being paid by Brady dealers for farm produce. Report changed each Wednesday afternoon:

Cotton, middling basis	14.25

Pecans10c

You need not be troubled in any way with the stomach, if you will simply take Kodol at those times when you feel that you need it. Kodol is guaranteed to relieve you. If it fails your money will be refunded to you by the druggist from whom you purchased it. Try it today on this guarantee. Sold by Central Drug Store.

WORLDLY WISE.

Sunday School Teacher—Scattered seeds of kindness.
Johnny Subbubs—What's the use? The chickens will get 'em.

A LAWYER'S REPLY.

Mrs. Benham—What was the fight at the baseball game about?
Benham—I believe the umpire failed to sustain a demurrer.

Foley's Orino Laxative

For Stomach Trouble, Sluggish Liver and Habitual Constipation.

It cures by aiding all of the digestive organs—gently stimulates the liver and regulates the bowels—the only way that chronic constipation can be cured. Especially recommended for women and children. Clears blotched complexions. Pleasant to take. Refuse substitutes.

JONES DRUG CO.

A bold onset is half the battle—Garibaldi.

HEDGES AND GENTLEMEN.

A box hedge takes as long in the making as a gentleman, and when they are done the two are much of a sort. No plant in all the garden has so settled an air of breeding, so gentle a reserve, yet so gracious a message of sweetness for all of the world who will stop to learn it. It keeps a firm dignity under the stress of tempest when lighter growths are tossed and torn; it shines bright through the snow; it has a well-bred willingness to be background, with the well-bred gift of presence, whether as background or foreground. The soul of the box tree is an aristocrat, and the sap that runs through it is the blue-blood of vegetation.—Mary R. S. Andrews.

Don't Send Off for Your Piano.

Those parties offering to sell you pianos direct are doing so on a retail proposition. We buy our pianos direct from the largest wholesale concern in the world, on a wholesale proposition. Our profit is the difference in wholesale and retail prices. Confine the proposition to grade and we will make you a price and terms equal to anything on the globe. Our twenty-eight years experience places us in a position to know whereof we speak. Have a talk with us before you buy elsewhere.

BOURLAND MUSIC CO.

A clergyman writes: "Preventives, those little Candy Cold Cure Tablets, are working wonders in my parish." Preventives surely will check a cold, or the Grippe, in a very few hours. And Preventives are so safe and harmless. No Quinine, nothing harsh nor sickening. Fine for feverish restless children. Box of 48 at 25c. Sold by Central Drug Store.

A HARD OUTLOOK.

A tailor who was defendant in a case at the assizes seemed much cast down when brought up for trial.

"What's the trouble?" whispered his counsel, observing his client's distress as he surveyed the jurymen. "It looks pretty bad for me," said the defendant, "unless some steps are taken to dismiss that jury and get a new lot. There ain't a man among 'em, but what owes me money for clothes."—Tit-Bits.

If you don't really need a new suit for Thanksgiving phone Kirk, the tailor, to come and get your old clothes and clean 'em up. He'll make 'em look like new. Nuf sed.

If you desire a clear complexion take Foley's Orino Laxative for constipation and liver trouble as it will stimulate these organs and thoroughly cleanse your system, which is what everyone needs in order to feel well. Jones Drug Co.

WELL BOILED.

The Shade of Health. Food Crank (absently)—Say, old man, how's the water in Hades?

Charon (smilingly)—O, you can rest assured that all you receive will be boiled.

For a clear head, a stout heart and strong mind, DeWitt's Little Early Risers gentle, safe, easy, pleasant, little pills. DeWitt's Witch Hazel Salve is unequalled for anything where a salve is needed, and is especially good for piles. Sold by Central Drug Store.

THE WORST.

"Everyone despises mere fair-weather friends."

"I don't know. I like them better than the rainy weather ones who drop in on one and absent-mindedly walk off with his umbrella."

Foley's Honey and Tar cures coughs quickly, strengthens the lungs and expels colds. Get the genuine in a yellow package. Jones Drug Co.

Souther & Co. are selling Dairy Food, the best milk producer yet. Try some of it.

The Standard \$1 per year.

BRITISH IMPERIAL ARMY.

Britain's scheme of an imperial army and a general staff for the empire contemplates an army with a peace strength of 480,000 men and a war footing of 1,200,000. It divides the empire into four sections, as follows: Southern, Australasia and South Africa; western, Canada; eastern, India; home, British isles.

Tickling, tight Coughs, can be surely and quickly loosened with a prescription druggists are dispensing everywhere as Dr. Shoop's Cough Remedy. It is so very, very different than common cough medicines. No opium, no chloroform, absolutely nothing harsh or unsafe. The tender leaves of a harmless, lung healing mountainous shrub, gives the curative properties to Dr. Shoop's Cough Remedy. Those leaves have the power to calm the most distressing cough and to soothe and heal the most sensitive bronchial membrane. Mothers should, for safety's sake alone, always demand Dr. Shoop's. It can with perfect freedom be given to even the youngest babies. Test it yourself and see! Sold by Central Drug Store.

For Sale Cheap.

A practically new rubber tire, cut-under Runabout, new set harness and good family buggy horse. Can be had at a bargain. See Bourland Music Co., Brady, Texas.

ENTERTAINING NEIGHBORS.

Little Neighbor Girl—Didn't you have a good time over at our house for dinner last night, Mrs. Tibbs?

Mrs. Tibbs—Yes, Edith. Why? Little Neighbor Girl—Oh, nothing! Only mamma said you left a good deal on your plate.—Judge.

It isn't so difficult to strengthen a weak stomach if one goes at it correctly. And this is true of the Heart and Kidneys. The old fashioned way of dosing the Stomach or stimulating the Heart or Kidneys is surely wrong! Dr. Shoop first pointed out this error. "Go to the weak or ailing nerves of these organs," said he. Each inside organ has its controlling or "inside nerve". When these nerves fail then those organs must surely falter. This vital truth is leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. A few days test will surely tell! Sold by Central Drug Store.

The Standard is equipped to print wedding announcements and invitations, ladies' calling cards, dance programs, etc., in the latest styles of type and stationery and on short notice. When you need anything in this line it will be to your interest as well as our's to call on The Standard.

Who Wants a Bargain?

A pair of good work horses and wagon for sale cheap. See Meers Land Co.

Feed your cow right and get more milk and better milk. Dairy Food is the stuff and Souther & Co. the place to get it.

Get Well First

Don't risk even a penny—until health first returns.

And I mean just exactly that. I am the one physician who says to the sick "I will, out of my own pocket, pay for your medicine if it fails to bring you help!" And for 20 years Dr. Shoop's medicines have been used and recommended in every city and hamlet in America. They are positively standard in every community—and every where. Then why pay the cash, and at your risk, for other unwarranted and uncertain medicines? Thousands upon thousands have in the past successfully used Dr. Shoop's Restorative. When the stomach nerves, or the Heart or Kidney nerves fail, these sick ones know how quickly Dr. Shoop's Restorative will bring them back to health again. But best of all, they positively take no money risk whatever. They know that when health fails to return, Dr. Shoop will himself gladly pay the drug cost for that. And for that test a full 30 day treatment is freely granted. But write me first for an order.

This will save delay and disappointment. All druggists sell Dr. Shoop's Restorative and Dr. Shoop's Rheumatic Remedy, but all are not authorized to give the 30 day test. So drop me a line please—for I have appointed an honest and responsible druggist in almost every community to issue my "no pay" medicines to the sick. Tell me also which book you need. The books below will surely open up new and helpful ideas to those who are not well. Besides you are perfectly free to consult me just as you would your home physician. My advice and the book below are yours—and without cost.

Perhaps a word or two from me will clear up some serious ailment. I have helped thousands upon thousands by my private prescription or personal advice. Let it be surely worth your simple request. So write now, while you have it fresh in mind, for tomorrow never comes. Dr. Shoop, Box 12, Racine, Wis.

Which Book Shall I Send You?

BRADY, TEXAS, NOVEMBER 11, 1909

THAT STACY ROAD.

A petition was being passed around the first of the week asking the commissioners court to open a new road to Stacy. The road asked for is from the Harris mountain in a due southeasterly direction, and will shorten the Stacy road by three miles.

Brady business men ought to get together on this road proposition and see that better roads are provided our farmers all over the county. We are informed that Ballinger has completed a fine road to a point within about nine miles of Stacy, a portion of the road running through Coleman county, and they are further planning its extension to Stacy crossing, in fact have asked for bids on this work. Shall Brady business men and McCulloch county's commissioners sit still and see our trade territory thus invaded and our business interests endangered without making some counter move?

The McCulloch county farmer is entitled to as good roads as any other farmer, and, like any other farmer, he is going to travel on good roads when he gets the chance, no matter in what direction they may lead him. If Brady can't build roads to keep her natural trade the town had just about as well give up trying to ever amount to anything more than a country village.

How does Ballinger build roads? The Ballinger Commercial Club, working in conjunction with the Runnels county commissioners court, is responsible for the good roads. And now, on top of all they have been doing, they are going to call a bond election for \$100,000 with which to build wagon roads. Brady can do as well as Ballinger if there were only someone to take the lead. It is not stinginess on our part; simply laziness and indifference. Let's wake up!

The creamery is a fact.

OVER in Coleman county Saturday night a young man named Ticer shot his mother through the body with a six-shooter, the wound being pronounced necessarily fatal. The man was in a drunken wrangle with his father when the mother attempted to

act as peacemaker, the shooting following. It is to be hoped he will be sobered up in time for the hanging.

The Brady Standard says that town is now assured a creamery. That is good for Brady and if Brownwood doesn't secure one this town will ship its cream and buy its butter there.—Brownwood Bulletin.

Brady will be ready to buy your cream and supply you with creamery butter in a few months. The contract has been closed up, the machinery and materials ordered, and the Brady Creamery Co. is at your service—or will be soon.

THE Brownwood Bulletin is now boosting for a bigger population in Brownwood. Monday's paper announced a new girl at the home of Editor Will H. Mayes. One issue last week announced a new boy at the home of Business Manager H. F. Mayes. Any old newspaper can give advice about town building, but when the editor gets in the harness and blazes the way the results are always more noticeable.

BRADY'S creamery is now an assured fact, and it behooves the farmers of the county to begin making preparations to supply it with cream. Every farm can support some cows for this purpose, and the better the cows the more returns they will bring. Remember, the creamery is a permanent thing. Brady men have invested their money in the enterprise and it will be worked for all there is in it. Without the cream it will be a failure. With plenty of cream it will be a success, and both the creamery and the farmer will reap big returns. If you haven't the cows now, better proceed to get them. It will pay.

F. H. Smith, of Winchell, who is in town today, says that the people right around Winchell are interested in a creamery at Brownwood and that he is certain he can get the product from 75 or 100 cows pledged for such an enterprise. It has been suggested that the creamery matter be the special subject for discussion at the meeting to be held in Brownwood on Saturday, Dec. 4th that being the time for the next meeting of the Farmers' Institute. Matters so shaped themselves that there was no time left to discuss the creamery at the meeting Friday, but is of such vital importance as to have become a necessity here. If Brownwood does not secure a creamery some other town nearby will soon be getting the business that ought to come here.—Brownwood Bulletin.

Mr. Smith's attention is directed to the fact that Brady has organized a creamery company and will be in a position to serve the Winchell trade in a few months. Brady is very few miles further from Winchell than is Brownwood, and Mr. Smith and his neighbors can ship their cream here just as cheaply as to Brownwood, and more conveniently,

for trains run more nearly right coming this way. The Brady creamery will have a capacity which will enable it to handle the cream from all the cows that can be scared up, so the good people of Winchell, Mercury, Milburn, Rochelle and other points, may rest assured of a ready market and highest market prices if they will milk cows and ship the product to Brady.

To the Public.

The livery business of Thompson & Co., The Brady Auto Co., and the auto business of Thompson & Co., have been all consolidated under the name of the Brady Auto Company. The garage will at once be enlarged to twice its size and a full line of automobile supplies will be kept always on hand and also a nice line of automobiles will soon be shipped in. The best efforts will be used to make it the biggest and most up-to-date concern in the West.

Messrs. D. F. Savage and J. E. Thompson will have the management of this concern with a paid up capital of \$30,000 and surplus of \$8,000. This promises to be quite an addition to the business interests of the town.

D. F. Savage, President.
J. E. Thompson, Gen'l Manager.
Directors:—J. E. Thompson,
D. F. Savage, W. D. Crothers.

Mr. and Mrs. E. B. Venable, of Silver City, N. M., are visiting the family of J. H. White. Mrs. Venable is Mr. White's sister.

The old, old story, told times without number, and repeated over and over again for the last 36 years, but it is always a welcome story to those in search of health—There is nothing in the world that cures coughs and colds as quickly as Chamberlain's Cough Remedy. Sold by Jones Drug Store.

The Brady National Bank has some beautiful specimens of press brick on hand from which to make a selection for their new building.

Have a Little Crater Crude Oil Burner installed in your cook stove, cost 5 cents per day for fuel. Come up and see it in operation over Hudson's store.

M. J. Campbell,
Local Agent.

Leonard Sansom is reported improving though he still has fever. Miss Hunter, a trained nurse from Fort Worth, is attending him, and speaks of locating in Brady permanently.

A Peculiar Wrench

of the foot or ankle may produce a very serious sprain. A sprain is more painful than a break. In all sprains, cuts, burns and scalds Ballard's Snow Liniment is the best thing to use. Relieves the pain instantly, reduces swelling, is a perfect antiseptic and heals rapidly.

Price 25c, 50c, and \$1.00. Sold by Jones Drug Co.

Rev. T. P. Grant and W. E. Simpson have returned from a hunting trip to Kimball county. They report that country as a desolate waste—absolutely no grass or any other vegetation, and as a consequence, no game.

In order to reduce our stock of buggies and hacks we are going to offer you for the next thirty days for cash only, 20 per cent off on all our lines. Just think of it—a regular \$85 John Deere buggy will only cost you \$68. This is the greatest bargain ever offered you in a buggy, so don't fail to take advantage of it. Satterwhite & Martin.

Mrs. J. S. Sheffield, of Bangs, is here at the bedside of her daughter, Mrs. W. H. Seymour, who is very ill.

A Broken Back.

That pain in your back caused by lumbago, stiff muscles or a strain is an easy thing to get rid of. Ballard's Snow Liniment cures rheumatism, lumbago, sore and stiff muscles, strains, sprains, cuts, burns, bruises, scalds and all aches and pains. You need a bottle in your house. Sold by Jones Drug Co.

—Carbon paper in large sheets, 19x25 now in stock at Standard office. Just the thing for ladies who do tracing.

TREAT YOURSELF FAIRLY

And do not let a mere notion, or anyone else, persuade you that it is possible to make a better Disc Plow than the EMERSON STANDARD.

During the past six years we have sold about two hundred of them; and if that is not about a whole straw stack to show which way the wind blows as to sales of this Plow, then we don't know.

The EMERSON STANDARD is an easy seller, because it first almost convinces on sight that it *ought to be good*, and with a little showing on our part, the sale is made, and then a little later the "pleased purchaser" comes in and tells us all about it.

Certainly no man can go wrong in buying anything made by the Emerson Mfg. Co., from a double shovel plow to Standard Cultivators or Disc Plows.

O. D. Mann & Sons

The South's Greatest Newspaper.

The Semi-Weekly Record.

FORT WORTH, TEXAS.

In addition to subscribing for your home paper, which you cannot well afford to be without, you must have a high-class general newspaper.

As a trustworthy family paper, The Semi-Weekly Fort Worth Record has no superior. It isn't for any limited set of people; it's for every member of the family. If you don't find something of interest in a particular issue—well, the editor looks on that issue as a failure. In addition to printing all the news of the day in concise form, The Record has special features for each member of the family. The remarkable growth of The Record is the best evidence of its merits.

By subscribing through this office you can get The Fort Worth Semi-Weekly Record together with The Brady Standard, both papers one year for only \$1.50.

Accept this remarkable offer today.

Some Good Reasons.

There are many reasons why the people prefer to trade with J. F. Schaeff. First, he uses nothing but the best materials in the construction of his goods. Second, he employs none but expert workmen. Third, he employs no crooked methods. He calls superior saddles good, and inferior harness bad. Yours for a square deal, west side square.

Dr. Martin, of Sterling City, formerly a citizen of Brady, was here the first of the week on business.

November 25th is Thanksgiving Day. Have your suit made to order by Kirk, the tailor, and be thankful. Nuf sed.

Emil Weizendanger, of Comanche, has accepted a position with O. D. Mann & Sons and will move his family here as soon as he can secure a location.

SPECIAL CLUBBING OFFER

Every intelligent man wants to keep up with the news of his own community and his country. Therefore he needs a good local paper. He also needs a paper of general news and for state, national and world-wide happenings he will find that

The Semi-Weekly Farm News

has no superior. The secret of its great success is that it gives the farmer and his family just what they need in the way of a family newspaper. In addition to its general news and agricultural features, it has special pages for the wife, the boys and the girls.

It gives the latest market reports and publishes more special crop reports during the year than any other paper.

For \$1.75 cash in advance, we will send the Semi-Weekly Farm News and The Brady Standard each for one year. This means you will get a total of 156 copies. It's a combination which can't be beat, and you will secure your money's worth many times over.

Subscribe at once at the office of this paper.

Dairy Food for your milch cow. It gets results. Souther & Co. sell it.

Rutherford-Trigg Addition

We are now offering these superb lots for sale again. The railroad excitement is over and prices have settled down to a level where you can now buy a piece of property at its value and make some money on your investment.

Remember we are going to sell these lots at a very low price and on such terms that the inducement will be so great that they will last but a short time. Call and see us at once. We are ready to show you the property at any time.

Meers Land Company

Do You Want the Best?

If you want an easy-riding saddle, use Evers' special make. The best material that can be bought is used in its construction. Sold on its merits. Recognized by stockmen as being the best saddle in West Texas. H. P. C. Evers, east side square.

Rev. W. A. Knight and wife left Monday for Dallas to attend the meetings of the Texas Baptist Pastors' and Laymen's Conference and the Baptist General Convention of Texas.

Buy your feed stuffs from C. D. Allen Grain Co. Full stock at all times.

W. C. Bowman, head of the Bowman Lumber Co., of Kansas City, was in Brady this week looking after his interests. Mr. Bowman expressed himself as being highly pleased with the volume of business done by his firm here, and will likely open yards at Llano, Menardville and other points in this section of the country. He was accompanied by J. W. McAlister, locating agent of the Bowman company in Texas.

The Bourland Music Co., report a rushing piano business the past week, having closed a number of deals at their store where parties called to make a selection from their excellent stock of pianos.

Our display of Reed Rockers far surpasses any thing shown in Brady. They make a suitable present for your friends, so remember this, and visit the mammoth store, the quality store, where you get your money's worth every time. O. D. Mann & Sons.

John Bledsoe, a workman in the Brownwood Oil Mill, was killed Saturday night by stepping in the seed conveyor. The accident was identically the same as occurred at the Brady Oil Mill two weeks ago, the only difference being that the Brownwood man had no one near enough to pull him out and was drawn so far into the conveyor that death resulted.

FOUR LOT HOG PASTURE

Corn, Cow Peas, Crimson Clover, Rye, Peanuts and Bermuda Make Cheap Pork.

We have clearly demonstrated on our farm that by the use of a well planned hog pasture, subdivided into small pastures, we can produce pork at less than one-half what it cost us when we had no pastures, writes W. C. Crook to the Southern Farmer.

Our first pasture contained 12 acres under one fence. This we found a great improvement over no pasture at all, but soon found that our hogs were very wasteful creatures and were wasting far more than they ate. We also found that we could not rotate our crops, diversify them or have a variety of feed in one large pasture. So we divided the field into four smaller pastures, containing three acres each. By so doing we have very little waste. We are also able to grow a variety of crops and also practice a very good rotation.

On lot No. 1 we grow corn with cowpeas planted at last plowing. When peas are ripe hogs are given access to both corn and peas. On lot No. 2 cowpeas are drilled latter part of May and first of June. This lot furnishes ripe peas three or four weeks earlier than lot No. 1. Lot No. 3 usually goes to peanuts or rape. No. 4 is set to Bermuda, as it is somewhat hilly; yet this plot is about the most valuable we have, as it furnishes excellent grazing when the crimson clover gives out, which is generally about June 1 to June 10. From then until July 15 to August 10 our hogs reap great benefit from the Bermuda pasture. After peas are eaten on lot No. 2, we take hogs from this lot and sow same to crimson clover. We find this to make a fine early spring pasture. When corn and peas are eaten out of lot No. 1 we sow to rye. When peanuts are gone in lot No. 3 we sow either rye and crimson clover, or rye and vetch, usually the latter.

The second year we grow corn and peas on lot No. 2, peas alone on lot No. 1, rape on lot No. 3 and perhaps peanuts. We also have the pastures so arranged that pigs can have access to them before the larger hogs. This is very essential, as they are not so destructive as the large hogs and also require more pasturage than the larger ones.

A farmer can take a well arranged lot of pastures and clear expenses raising scrub hogs. But if he will stock them with pure-breds he will not only pay expenses, but make a handsome profit. These hog pastures also come nice to turn calves and colts into during weaning periods. The Standard, \$1 per year.

Rochelle "Records."

Miss Iva Goodson, of Brady, visited Rochelle friends the first of the week.

Miss Mary Anderson has resigned her position with the telephone exchange. Miss Anderson has been the operator here for the past two years, and has by her painstaking and efficient manner of conducting the switch board, made many friends among the patrons who sincerely regret her resignation.

Miss Kittie Ranne left Sunday for the Round Mountain neighborhood where she will teach school the ensuing term. Miss Ranne is one of Rochelle's most accomplished and popular young ladies and will be greatly missed by her many friends.

Miss Della Hampton took up her school duties at Lohn Monday. Miss Hampton is one of the county's most efficient teachers and the Lohn people are fortunate in securing her services.

T. J. Bradley, of Brady, was in Rochelle Tuesday. He is the enumerator for the U. S. Agricultural Department.

I Am Located.

I have secured the Yeary building on the south side of the square, just across the street from the Brady National Bank, and my patrons will find me there after Nov. 1st. Thanking you for all past favors, and soliciting a continuance of your business in my new location, I remain, Yours truly, J. F. SCHAEFF.

Thanksgiving, like Christmas, comes but once a year. Who wants to be seen in his old suit on Thanksgiving Day? Nobody. But if you place your order with Kirk, the tailor, he will have the best fitting suit you ever owned here in time for Thanksgiving and you will then have something to be thankful for. Nuf sed.

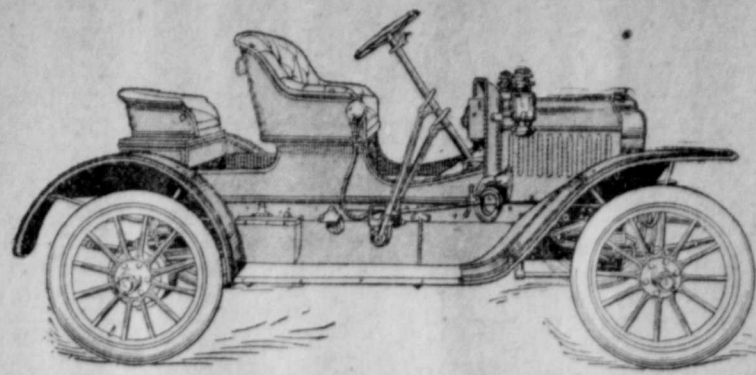

Mr. and Mrs. Russell V. Rogers, of Dallas, visited Mr. and Mrs. F. W. Henderson the past week, returning home Tuesday. They made the trip through from Dallas in their automobile.

Our buggy department is full of values, and the people are taking advantage of them. You can get the best at home any time. O. D. Mann & Sons.

Rev. and Mrs. S. L. Batchelor, of Junction City, were in the city Tuesday, enroute home from a visit with Mr. Batchelor's parents, Mr. and Mrs. R. M. Batchelor, at Lohn.

What have you to be thankful for? If your glad rags come from Kirk, the tailor, that will be something to be thankful for. Nuf sed; place your order now.

Look good and feel respectable on Thanksgiving. If you wear Kirk clothes you will look good, feel right and be thankful that you are living. Nuf sed.

SUB-GRADE

Treatment of This Important Factor in Road Building.

KIND OF MATERIAL TO USE.

Nothing but the Best Obtainable, Says Highway Commissioner—Surfacing Is Also a Prominent Feature That Demands Strict Attention.

A well built road's chief characteristic is not unlike a well constructed house, at least in one respect. Both will have a similarity—namely, a tight roof and a dry cellar. Such a road must have the ability to sustain and hold up into position it should occupy the wearing surface of the road, whether it be two inches or two feet in depth. Any yielding of the sub-grade will be fatal to the road. The whole question of dust laying and road preservative requirements of the hour is simply relegated to a secondary position when compared with this very important feature of the construction, and the remarkable aspect of this important part of road building is that it is not so much the expense, for the

GETTING THE GRADE READY FOR STONE. (From Good Roads Magazine, New York.)

same principle can be adopted in the simple turnpiking of a road as that which will have to be employed in the most expensive construction that we are called upon to build today.

The first principle to follow in every case is to properly drain the section of road to be improved, after which you then take up the question of sub-grade, or foundation upon which to build your road. I have found the best material with which to construct a sub-grade is sand or gravel. Disintegrated rock, with an admixture of light loam, makes a capital sub-grade.

Rolling the sand before rolling, with a light roller before using the material, is a great assistance in forming the road, as the sand will not creep before the roller, thus making the sub-grade firm. A little sub-soil placed on top of the sand is a very good practice. This will prevent the material from being pushed ahead of the roller, and it will make a good sustenance for the stone or gravel. If something is not done to make a sandy foundation firm it will shift.

Slighting the sub-grade is sometimes practiced by contractors, with the result that they do not gain anything, for the contractor has to pay in the end an increased expense owing to the fact that there will be a greater shrinkage in the stone.

The wisest contractor is the man who will spend more time with his 15 cents an hour help in forming the sub-grade and thereby require less stone or gravel and other incidental expenses. This is often the reason why the tonnage of stone per mile has been largely exceeded over the original estimate of the contractor. This is very easily demonstrated by taking the cost of the stone per ton, with freight, the haul from the cars, the time consumed in applying the stone on the road, to say nothing about the expense of watering and rolling required to get the road into a perfect bond—firm and unyielding.

But you will ask naturally, "Is not the road better by reason of the fact that more stone has been used?" Not at all. This would be true if a uniform depth of stone were on the road. But it is an intermittent depth. In some places there may be four inches of stone, while in other places there may be eight inches. The influence of the roller is not uniform where the sub-grade is not sufficiently hard and firm. Wherever there is an intermittent depth of stone the road will develop a weakness because the pressure of the roller on the road has not been uniform.

You must have a good, well built, substantial foundation as well as a good surface—a roof to your road. I do not and never have believed that the surface of the road can ever become an accomplished fact until this all important and necessary adjunct to a good road—the foundation—is taken care of.

Antedating the surface must come directness to your road, then the reduction of these grades to a minimum, then the question of drainage. Of these the most important is under and surface drainage, after which comes the question of surfacing, the least important of all things connected with road building. You want directness to your road to shorten the distance and

Store

water off and must be got away. When we have done this, we have the sub-grade, and not before.

As a general proposition, in accomplishing a well built sub-grade it is always well to remove all loam, roots and vegetable matter from the proposed travel part of the road; also everything of a spring nature or anything found in excavating for said roadway that will be liable to heave or settle and fill all such places with clean sand or gravel.

Where it is necessary to fill to bring the sub-grade up to the height required I have found in my practice where the filling exceeds one foot in depth that the filling should be deposited in courses—not to exceed twelve inches in depth, loose measurement, and require that each course shall be extended across the entire fill and completed before commencing another course, no matter if the fill be two or twenty feet. And this method should be followed with each succeeding course until the established grade is reached. The constant traveling over each of the courses by the teams employed in handling the material will remove the possibility of ever having a cracked fill or one that will slide after the road has been constructed. This is a very important matter, I find, and I have used it in my work in my own state. I also find that in the cuts it is well not to plow down below that point that is to be the finished grade of the sub-grade, but to keep it a sufficient height above that so that when the roller is placed on the work it will make a good solid foundation, and you will not have to resort to filling in the cut to bring the sub-grade up to the grade desired. These two principles of cut and fill will be found to work to great advantage in the proper construction of a road.

The shape, or contour, of the sub-grade has been somewhat a matter of controversy, some engineers holding to the level line foundation and putting on an extra depth of stone or material in the center to make the contour or shed from the center line of the road to the berms, or shoulders, while other engineers have given the sub-grade or foundation upon which the wearing material is to be placed the same contour as the finished road. I have used this latter method in my own work in my state by reason of the fact I believe it makes a better foundation and that the uniform depth of stone at the shoulders will assist in holding the crown of the road in shape and furnish a sustenance at the shoulder line better than to have a less depth of stone at the shoulders and a greater depth at the center of the road. It also assists in case of a breaking up of the road or a fracture or other developments in draining to the side, or shoulder, of the road.

The forming of the shoulders is a very important matter. They are really the support of the road. It has always been my practice when making a shoulder to the fill to lay out my road and put the newly added material ten or twelve inches into the new travel path, tamping it down firmly and then cutting back to the line, thereby making a good, firm shoulder to work to and to hold in place the stone or gravel in the travel path of the road.

It is a difficult matter to treat this question as intelligently through the medium of the written word as it would be with charts, but if these principles are followed in building the sub-grade a good foundation upon which to put the wearing surface will result.—James H. MacDonald, State Highway Commissioner of Connecticut, in Good Roads Magazine, New York.

CONVICT ROAD BUILDERS.

Inmates of Georgia Prisons Beautifying Highways.

The roads of Swainsboro, Ga., are fast being converted from veritable sand beds into beautiful turnpike clay roads. The county chain gang, which is now about fifty strong, including thirty felony convicts, Emanuel's quota of the state convicts, is doing fine work in road building, under the supervision of M. B. Boatright, who has had much experience in practical road building.

However, the people of the county, while awakening somewhat to the fact that they must be up and doing in matters pertaining to roads if they would keep pace with their neighboring counties, still do not show the proper interest in the construction of their roads, or, rather, in the keeping up of the roads after they are built by the chain gang. There seems to be an idea abroad that it is the chain gang's province to keep up the roads as well as to construct them, and this idea must be eliminated before a thorough good road movement can be installed and substantial improvements made on the county's highways.

Object Lesson in Good Roads.

A Glastonbury (Conn.) rural free delivery carrier became tired of traveling the dirt roads on his route and, finding that he had no right to dictate to road officials in regard to needed repairs, took a little of his spare time and had the fourth postmaster general advised on the subject. That official replied that if the roads were not put in repair at the earliest possible date—thirty days—the carrier can deviate from those portions of his route that are out of repair and inform the families residing on these roads that the department will not maintain rural service over any road that cannot be traveled by the carriers with facility and safety at all seasons of the year.

Christmas Presents

"Why aren't there more Christmas gifts that are appropriate for men?" and "Are there any novel presents so the stereotyped collar box, hat brush or stickpin will not have to be given this Christmas?" are questions often heard at this season of the year, particularly by women who do fancy work. And for once the answer may be that there is at least one attractive

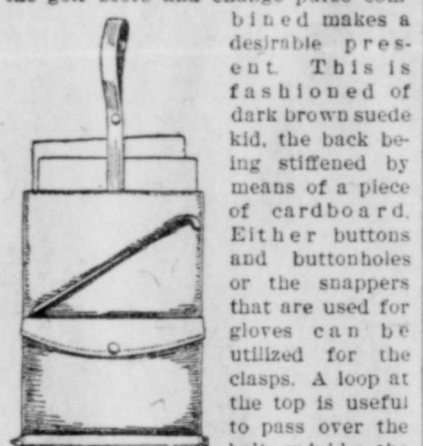

gift that an ingenious woman who is clever with carpenter's tools can make. This present is a novel pipe rack. To make the rack procure four boards from a carpenter—two eighteen inches long by six inches wide and two eighteen inches long by five inches wide. In one of the latter pieces get a carpenter to bore four holes three-eighths of an inch in diameter and running lengthwise in the board. The two end holes are four inches from the ends of the board, and all of the holes are two and a half inches apart. The two larger boards are joined together by means of braces, which screw on the backs with very small screws. Five inches from the top of the longer side is fastened the board with the holes in it, so that it makes a shelf on the first piece. Then, five inches below this, is fastened the other board in the same manner as the first—by means of screws from the back. The rack is finished as far as the carpentering goes. The upper shelf is for the pipes, the holes being made for them to rest in, while the lower shelf is for tobacco boxes, matches, etc.

The next thing is to stain it the popular mission color. Then get screw eyes and put them on the back, and through these put picture wire to hang it by. The hardest thing is to print above the first shelf, "A Man's Best Friend." Paint the letters with gold paint, which sets off the dark color of the wood and gives the rack a finished, decorative appearance.

Gift For the Golfer.

For the use of the up to date father the golf score and change purse combined makes a desirable present.

It is fashioned of dark brown suede kid, the back being stiffened by means of a piece of cardboard. Either buttons or buttonholes or the snappers that are used for gloves can be utilized for the clasps. A loop at the top is useful to pass over the belt, while the miniature golf stick is a toy fastened on by silk cord.

A Tobacco Pouch.

When wife or daughter makes a tobacco pouch for the father he's always delighted. A pretty pouch in rich brown or dark green, lined with a maroon silk, would be attractive when the edges are pinked and a drawing of heavy silk with long tassels run in near the top. It's not the kid, the lining or the cord that makes these bags so unusual, for without the monogram or crest done in gilt thread or in bright colored silks the pouches, aside from being handmade, would be quite the same as those bought in the shops. But with an attractive emblem or two or three initials prettily embroidered in one corner the pouches are presents any man, no matter how surfeited with gifts, would be glad to receive at Christmas.

Not New but Well Liked Present.

Knitted or crocheted ties, though not novelties, will be desirable gifts, for they are serviceable and, being made by hand, are valuable accessories to any wardrobe. In plain green, dark cardinal or made of a combination of two tone effects or of two strongly contrasting colors, such as black and red or orange and blue, they are striking contrasts as neckwear.

The Ever Useful Shaving Case.

An attractive gift for a man is a shaving case. This is composed of white tissue paper cut to the proper size, while the outside case of blue linen, with the seams outlined in white silk, is in the shape of a football. The top is fastened with inch wide satin ribbon of any color.

A Christmas Present.

It is not often that one can find a suitable gift for an elderly man whose eyes are weak. A reading glass of the new kind, with a handle and a leather case, would be acceptable. The person in doubt should experiment with this as a Christmas gift this year.

Sick Headache
"I have been a frequent sufferer from sick headache for years, yet never would use headache tablets. My son persuaded me to use Dr. Miles' Anti-Pain Pills during one of these attacks, and to my surprise it gave me speedy relief."
MRS. LOUISE LEWELLYN, Powell, S. D.
When the disturbance which causes headache affects the nerves at the base of the brain, which connect with the large nerves that run to the stomach, heart and lungs, it frequently causes headache with vomiting—sick headache.
Dr. Miles' Anti-Pain Pills soothe the irritated brain nerves and the cause of pain is removed. The first package will benefit; if not, your druggist will return your money.

Women Suffer Agonies from Diseased Kidneys

And Most Women Do This Not Knowing the Real Cause of their Condition

These poor, suffering women have been led to believe that their misery of mind and body is entirely due to "ills of their sex." Usually the kidneys and bladder are the organs, that need and must have attention.

Those torturing, enervating sick headaches, dragging pains in back, groin and limbs, bloating and swelling of the extremities, extreme nervousness or hysteria, listlessness and constant tired, worn-out feeling—are almost certain symptoms of disordered and diseased kidneys, bladder and liver.

DeWitt's Kidney and Bladder Pills have, in thousands of cases, been demonstrated as remarkably beneficial in all such conditions of female organism—affording the most prompt relief and permanent benefit.

As an illustration of what these Pills will do, Mrs. P. M. Bray of Columbus, Ga., writes that she was very ill with kidney trouble, and that she is now well—and that these Pills are what cured her.

They are very pleasant to take, and can in no case, produce any deleterious effects upon the system—as syrupy, alcoholic, liquid preparations are apt to do.

E. C. DeWitt & Co., Chicago, Ill., want every man and woman who have the least suspicion that they are afflicted with kidney and bladder diseases to at once write them, and a trial box of these Pills will be sent free by return mail post-paid. Do it to-day.

News Notes of Interest From Our Country Correspondents

LOST CREEK ECHOES.

Voca, Texas, Nov. 8.

Editor Standard:

Hello, Mr. Editor, here I come for a little chat with you.

By the way, I see in the last Standard you had to juck us correspondents up just a little. It does seem as though we need it. With thirty correspondents it looks like at least ten of us could come to see you each week. That would give lots of news and would give each of us plenty of rest. But I find the oftener I write the easier it is to keep up with the news of the community.

There is some improvements being made in this community.

W. W. Henderson is putting some very nice additions to his residence.

The new residence of Bill Hibdon has just been completed.

J. E. Davis is drilling for artesian water for J. D. Parker.

The driller who was sinking a well for D. H. Henderson has quit his job at a depth of 200 feet. Mr. Henderson though has a very nice flow of water, about twenty-five gallons per minute.

The crops in this section are just about gathered.

Saturday night, a week ago, J. W. Millsap, Sr., one of McCulloch's oldest settlers, and a U. C. V., departed this life at his home. He leaves an aged companion, two sons and a daughter and a host of friends to mourn his loss.

Best wishes for The Standard and its many readers.

A CITIZEN.

COWBOY ROUND-UPS.

Cowboy, Texas, Nov. 9.

Editor Standard:

Since we had a nice rain all the farmers who didn't have their grain sowed have been very busy trying to get ready for another rain. Most of the cotton will be picked by the middle of the month, and everyone will be glad to finish up.

The singing convention at Placid was a grand success. Plenty of dinner and singing. The next convention is to meet at Mercury. Everybody is invited to come and bring someone with you.

Miss Mattie Hughes is to begin her school at Waldrip, the 8th. We regret to lose her, though wish her success in her work.

Mrs. J. M. Jones visited her daughter, Mrs. Jim Jones, Wednesday.

The Plain View school opened Nov. 1 with Will S. Lee as teacher. They should do good work with new desks, new house and new teacher.

News is scarce, so is money, with best luck to The Standard and its readers. I close.

QUAKER.

Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by Jones Drug Co.

Waldrip Whisperings.

Waldrip, Texas, Nov. 6, 1906.

Editor Brady Standard:

Cotton picking is somewhat on the lull. But pecans are now being gathered very rapidly.

Dr. E. B. Newton was over Tuesday also Thursday. He has caught the railroad fever, like the rest of us, and predicts a bright future for Waldrip, as well as other little places.

Mrs. E. D. Bungardner has been visiting her children in Brady this week.

Dr. J. E. Powell, D. C. Randal and Clay Randal made a flying trip to Brady Wednesday.

Mr. Julian Davis and Mr. Odell, of Brady, came in last Thursday eve and spent the night with J. R. Winstead.

Misses Winnie Belle Walker and Maybel Winstead were shopping in Brady last Saturday.

Tell the W. O. W. can't be beat for brilliant entertainments. The supper given by them last Thursday night was a success. Rev. Burrows, of Stacy, made an elegant address on Woodcraft which was followed by one of the most delicious suppers imaginable, pies, cakes, chicken, ham and many other delicacies were served. After the supper the young people were given free access to the hall where they enjoyed themselves to their hearts content. One and all pronounce it perfect.

Mr. W. T. Stacy and wife received a hurry call from Trickham to come to the bedside of Mr. Stacy's father who was very sick. Morgan Stacy and wife and Mrs. Hill were also called and they found Mr. Stacy much better when they arrived and still improving Friday morning when they returned.

Miss Mattie Hughes, of Mercury, came in Saturday. School will begin Monday morning with Miss Hughes as Principal and Mrs. Metts as assistant. The number of pupils now enrolled is about 70.

ANONA.

A cook stove is something you will not have to buy every day, and for that reason you should be careful in making a selection. We handle the National. They took the gold medal at the World's Fair in 1904, and if they were not the best stove on the market they certainly would not have been awarded the gold medal. Satterwhite & Martin.

GENERAL DELIVERY.

I have begun a general delivery system in Brady and will deliver goods for any store or individual. Rates 5c and 10c for ordinary delivery. Can be found at Connelly's new store, phone 94-2 rings.

W. F. Harris.

QUARTERS FOR THE FLOCK

To keep healthy and thrive sheep should be provided with quarters suitable to their needs. It is essential that their quarters be separate from other stock. Sheep prefer seclusion from other farm animals. They get along with young calves probably better than with any other stock. In discussing this phase of flock management Professor Henry says:

"Above every other animal on the farm, the sheep to be profitable must be kept dry as to coat and feet. Inattention to either of these essentials will result disastrously. With dry quarters sheep will stand a considerable degree of cold without inconvenience. Indeed, their quarters should not be as warm as for other animals. One thickness of closely matched boards will make the barn or shed where the sheep are confined sufficiently warm in the northern states except for winter lambs. Ventilation is of great importance and should be ample, care being taken to avoid direct drafts."

"The amount of space provided for each sheep will vary with the size of the animal. A ewe weighing 100 pounds will require about ten square feet of ground space, while one weighing 150 pounds should have about fifteen square feet. A space 40 by 40 feet square will therefore accommodate about 100 sheep weighing 100 pounds each, not allowing for feed racks. Provide fifteen inches running length of feed rack for each sheep weighing 100 pounds and two feet for those weighing 200 pounds."

A shed open to the south on well drained ground and not over twenty feet wide makes an ideal place for sheep. It also makes a very satisfactory

A CHAMPION HAMPSHIRE RAM.

place to care for the lambs when they come. Pens can easily be made by the use of panels or hurdles.

Provide wide, shallow troughs for feeding that can be cleaned regularly. Don't expect the lambs, whether range or native, to do well unless they have clean food and clean water as well. Salt is also valuable in getting the lambs started on grain, and it should be given throughout the feeding period and always regularly.

The most successful lamb feeder is the man who studies the needs of the lambs closest. In short, this requires that a man love to be among them, treat them kindly always and be ready to give intelligent attention to their needs at all times.

Getting the lambs on a grain ration is the most critical period, and a close watch should be kept. It has been said that lambs are the poor man's friends, but this does not imply that they can be fed and finished on a field of weeds and an occasional feed of grain. The better the grazing and the more suited the ration the better price the lambs will bring on the market.

Sheep pay for extra care expended on them as well as any other kind of animals. They respond to feed and good management in a way that is pleasing to every observing person and thereby keep more vigorous and healthy and produce more wool and stronger, larger lambs.

Swiss Goats.

A herd of five imported Swiss milk goats has just been received at the farm of the agricultural experiment station at the University of Wisconsin for co-operative tests on the breeding and rearing of milk goats to determine their usefulness, economy of milk production and relation to other classes of live stock. This type of goats, known as the Schwarzenburg-Guggesberger breed, is noted for its large milk production, the milk being of particular value for infants and invalids, since goats are practically immune to tuberculosis. These goats are kept in Switzerland as a chief source of food for poor people. There are very few in the United States, and this is believed to be the first time a careful test of their usefulness has been attempted in this country.

Heaves Hard to Cure.

There is no cure for heaves after the disease is thoroughly organized. In such cases the lungs are broken down in structure, and medicine does not repair the damage. Give half an ounce of Fowler's solution of arsenic night and morning. Wet all food. Feed rans in summer and wet oat straw in preference to hay. Allow double the usual period of rest before working after meals.

Swine of Uniform Color.

The herd of swine should be of uniform color, and the lots of swine for market should be of as near uniform size, shape and color as possible. The packers pay more for this kind of hogs.

Oilmeal.

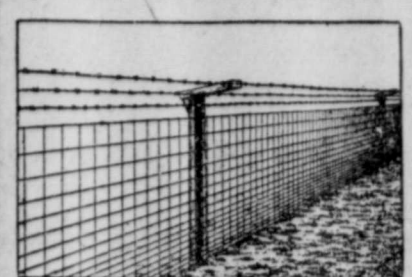

A handful of oilmeal daily in the horse's ration will help put a gloss upon his coat.

PROTECTION FOR SHEEP.

The Attack From Dogs is Injurious and Detrimental in Many Ways.

An expert on the subject writes as follows:

"While the loss from dogs is reported as comparatively small, the dog nuisance is nevertheless a great detriment to the sheep industry in many sections. The direct loss from severe chasing and worrying is often not so great as the loss that follows. Breeding ewes that have been badly worried and frightened rarely, if ever, entirely recover. The result is usually weak and inferior lambs at the next lambing season, with some abortions and

DOG PROOF FENCE.

many abnormal presentations of the fetus. In fact, many breeders of registered sheep consider their breeding flock almost ruined after having been severely chased by dogs. Frequently a large number of ewes will not breed for some time after being chased and badly frightened."

The remedy for this nuisance is, of course, an efficient dog law rigidly enforced. In the absence of this legal protection resort may be had to dog proof fences and like means of protection. At best, however, such fences are expensive. A dog proof fence constructed at the experiment station at a cost of 65 cents per rod is described as follows:

The woven wire fence consists of seven horizontal wires, the three lower wires one and one-half inches apart, the width between wires gradually increasing to five inches at top. The vertical stays are six inches apart. The wire is fastened to posts set twenty-five feet apart, the bottom wire being three inches from the ground. One barbed wire is set midway between the bottom horizontal wire and the ground. One barbed wire is fastened to the posts three inches higher than the top wire. Two barbed wires are attached eight inches apart to pieces of 2 by 4 scantling nailed to the posts above the wire with twenty penny nails. These pieces are set outward and upward with the posts.

COST OF MATERIALS.

Red cedar posts, each	12 1/2
Woven wire fence, per rod	37 1/2
Four barbed wires, per rod	15
Total	65

The 2 by 4 scantling costs about \$18 per thousand and adds about a cent per rod to cost of the fence.

Any other closely constructed fence would answer the same purpose.

Corn Silage.

Corn silage is about the cheapest and most efficient to supplement the winter ration for dairy and beef cattle, horses, calves and sheep. It is cheaper to handle the corn crop in the form of silage than any other way. And should there be another summer of little rain the well stocked silo furnishes succulent green feed and comes as a great relief to the husbandman.

THE DAIRYMAN

Scientists tell us that 6 cents' worth of milk has as much nutriment in it as 15 cents' worth of beefsteak, and it is much easier to digest.

The Dual Purpose Cow.

The dual purpose cow may be all right for some farmers, but she does not give as much milk as the dairy cow and eats considerably more, nor does she produce as much beef as the beef cow and eats just about as much.

Value of the Silo.

The silo is the best method of preserving one of the best and cheapest milk foods there is. The man who can grow corn successfully, whether for beef or milk, should not fail to have one. Then if he can grow red clover or alfalfa well he is doubly blessed.

Right Use of Separator.

Every user of a cream separator should be careful to see that the machine is not run at too low a speed. Instances have been found where from this cause skim milk has contained butter fat to the amount of 1 per cent. This is a costly mistake and one that can easily be rectified. It has been demonstrated that the separator run by a small gasoline engine is cheaper than the one run by hand. In the business of dairying the small things count a great deal.

Skim Milk is Valuable.

A well known breeder of Guernseys, when asked how he reckoned the value of skim milk, answered as follows: "If fed to young pigs less than 200 pounds weight, when live pork is worth \$3 per hundred, I count skim milk worth 30 cents a hundred pounds. If fed to grade Guernsey heifer calves, I count it worth from 50 to 60 cents a hundred. That is, I can sell the heifers at ten months of age and make the milk net me that per hundred. If fed to registered calves it is certainly worth from \$1 to \$2 per hundred pounds, for I know of no other feed that will make up for a lack of skim milk in securing a profitable growth on a calf. The only trouble I ever had with skim milk was a lack of it. But the way farmers usually feed it and handle it convinces me that they really know but little of its value."

How Much Could You Get For Your Farm?

You are a farmer. You live near this town. You own land. Let us say that you own more than you need and would like to sell a hundred acres.

How much could you get per acre? But has the value of your land risen as you think it should?

Your land is good land. You think it is worth considerably more than anybody has offered you. Well, let us see.

A man buying farm land naturally prefers to locate near a thriving, up to date town. He wants good home markets for his crops. He wants good schools.

Let us say your land is three miles from town. A farm that looks very much like yours is three miles from a town twice as big and twice as prosperous as this town.

If you were going to buy a farm for your own occupancy, wouldn't you pay a whole lot more for land near the town that is twice as large and twice as lively?

Of course you would. It would be good business.

Now, what makes a town big and bustling? Money. Money in circulation. Not in circulation in Chicago, for instance, but right in the town that wants to grow.

How much money have you sent to the big Mail Order houses in the city the past ten years? How much have your neighbors sent? How much have all of you together put out of circulation here at home?

It is probably beyond calculation. If all that money had been spent in your own home town, isn't it reasonable to assume that the town would have grown more than it has grown?

Wouldn't this town be a bigger and better town?

Wouldn't it have more stores to buy your produce?

Wouldn't it have more public improvements to make it more attractive to outsiders who might come here to live, to go into business, or buy your surplus land at a good figure?

TO TRADE AT HOME MEANS TO HELP THE TOWN AND THE NEIGHBORHOOD. TO HELP THE TOWN AND THE NEIGHBORHOOD MEANS TO HELP YOURSELF.

MAIZE FOR HOG FOOD

Experiments Have Proven Milo Maize Equal to Indian Corn for Fattening Hogs.

Around the stock yards and the packing houses it is no longer a matter of surprise when hogs fed solely on kaffir corn or milo maize top the market. For a time after it was proven that hogs really liked milo maize and kaffir corn, and thrived on the food, it was thought that Indian corn was needed as a finisher. But this theory is exploded.

A chemical analysis of each shows that Indian corn, milo maize and kaffir corn contain practically the same food elements in the same proportion. An approximate analysis will give each 9 per cent protein, 3 per cent fat, and 3.5 per cent crude fibre. When it is understood that milo maize and kaffir corn contain practically the same elements in the same proportion, it is clear that they must be on a level from the standpoint of food values.

Kaffir corn and milo maize have the advantage of being dry weather plants. In seasons when Indian corn is a total failure because of drouth, farmers and hog raisers can harvest from fifty to seventy-five bushels per acre of either kaffir corn or milo maize. For this reason Texas farmers have gone right on increasing the production, while the farmers of the North have been forced to unstock largely on account of the scarcity of corn.

Besides being independent in large measure of rainfall, kaffir corn and milo maize are grown and harvested at much less expense of time, money and energy than is devoted to the Indian corn.

Actual tests of the value of milo maize and kaffir corn as compared with Indian corn have been made by Swift & Co., at great expense, and the victory is with the two former.—Ft. Worth Live Stock Reporter.

—Just received—100 boxes of window glass. We can beat anybody's prices. Jones Drug Co.

Bob Armor, an experienced druggist of Brady, has purchased the Musick drug business and store, and will continue the business without closing the store. Mr. Armor will move his family to Eden as soon as he can arrange for a house.—Eden Echo.

Abney & Vincent

THE ONE PRICE STORE

Jail Work Delayed.

Superintendent Holcombe returned the first of the week from Fort Worth where he went after brick masons for the jail work. He secured what he wanted, but was disappointed in the shipment of brick which came in subsequently. These brick do not come up to specifications and Mr. Holcombe has turned them down. There is a small quantity of brick on hand of the proper grade to build up to the first floor line, and the masons are at work on that, but the refused consignment will necessitate a delay of several weeks.

BORN—To Mr. and Mrs. J. E. Campbell, six miles north of town, on the 7th, a fine girl.
