Brady Faces Best Railroad Proposition She Has Ever Had from Any Source

The Point of View

Some people, we fear, look upon a bank as a place where a few "rich old codgers" keep their money.

Others may think that only large accounts are wanted and that this bank would not care for their business.

If your point of view has been anything like this we want you to correct it right now.

We want to show you that THIS BANK wants YOUR business and also how an account here will be of great practical benefit to you.

WE KNOW YOUR WANTS and WANT YOUR BUSINESS.

POSTOFFICE WILL MOVE

S. A. Conley the Successful Bidder As Uncle Sam's Landlord for Next Ten Years.

A letter was received by Postmaster David Doole, Jr., Tuesday from the postoffice department at Washington, in which he was informed that S. A. Conley, of the Conley Mercantile Co., was the successful bidder for the local office.

There were four or five bidders for the office, with proposals ranging from several hundred dollars per year to one of absolutely free rental. Mr. Conley's bid was \$1.00 per year, with free water and lights for a period of ten years. In his proposal he also agrees to install new furniture which will cost not less than \$2500. One bid is understood to have been for absolutely free rent, but the government it is said, does not consider this kind of a bid.

The new location comprises one third of the building now occupied by Conley Mercantile Co., and will be 25x90 feet, on the east side of the store. Mr. Conley's contract calls for 1500 feet of floor space, but the amount will be at least 2250, which, it is thought, will give plenty of room in which to handle the work.

The new quarters are to be ready for occupancy by March 1st, but Mr. Conley states that he thinks everything will be in readiness by the middle of the coming month.

Quite a good deal of friendly rivalry existed between the business men of that part of the town where the office is now located and those of the new location, and the successful ones are in high glee over their victory. Mr. Conley is to be congratulated on the liberality of his bid and the keen business foresight prompting the same. The general public will be glad to learn of the very substantial improvements the office will receive in its new location, and the further fact that the Brady office will undoubtedly be raised to the second class soon assures us of postal service commensurate with the city's needs.

Lee's Birthday.

Commemorating the birthday of Gen. Robert E. Lee the following program was prepared and rendered at the Odd Fellows Hall yesterday. The local Chapter Daughters of the Confederacy were in charge of the affair:

MR. JONAH IS SILENT

Chief Engineer of Frisco Inspects Surveys that Were Made for the Brady Extension.

F. G. Jonah, chief engineer of the Frisco lines, with headquarters at St. Louis, stopped off in Fort Worth Saturday after a trip over the routes surveyed for the Frisco's extension from Brady to Menardville.

Mr. Jonah said that two routes had been surveyed and that his trip to Brady had been for the purpose of going over these routes to obtain data for presentation to Vice President Gray at St. Louis, who would select the best route. Mr. Jonah left for St. Louis last night and it is expected that the route will be selected within a short time.

Contractors are already at work on the first seventeen and a-half miles of the extension out of Brady and are making favorable progress on the grade and the bridges, reported Mr. Jonah.

"I had heard a good deal about the Brady country but I was not prepared to find such a splendid, rich country as there is all the way from Brady to Menardville," he said. "It can't be beat in Texas."

In a store window at Menardville Mr. Jonah said he saw a head of cabbage weighing sixteen pounds, and beets as large as a man's head, all grown near Menardville, without irrigation. Menardville, he said, is in the

Let's Clean Up.

Recognizing the fact that it is the duty of the city health department to take the initiative in matters pertaining to sanitation in order to protect our rapidly growing city from a scourge, as that of typhoid fever with the advent of spring; also, that with present methods and means it is necessary to arouse public sympathy and obtain individual co-operation in measures that will accomplish results, a few words along these lines will not be amiss at the beginning of the new year, provided you have an interest in human welfare and are not aligned with the interests of Brady's arch enemy, the common house fly—"musco domestica." I shall not question your intelligence by telling you what personal cleanliness means, rather have you determine at some leisure moments your attitude toward your fellow man in considering the subject of public hygiene and whether or no you tolerate conditions that are a menace to the health, to say nothing of community pride. No doubt your senses have suffered shock, individually or collectively, as a matter of daily experience. However, your silence is commendable, inasmuch as the citizens of Brady wish to avoid publicity, hence I refrain from detail, wishing simply to arouse the community into thinking and acting in unison with the health department for a cleaner Brady, whose bill of health at the expiration of this year shall show the minimum number of cases of typhoid fever and other communicable diseases. Mention of this disease is made because your experience makes you more familiar with it, and since sanitation, properly established, is the only known remedy in this disease, as in many others, your energies and the city's must adopt the course of preventative medicine.

It is true that almost insurmountable difficulties present themselves, considering the lay of the land, which makes a properly constructed sewerage system at this early date in the city's rapid growth an impossibility because of the enormous expense attached thereto, hence undivided effort, properly directed, for the disposition of garbage and sewage, together with the dry scavenger system, is our next best working plan. In this way surprising results can be accomplished and, with Brady's continued rapid increase of population, the ideal system is in sight

as the fruits of our initial efforts and perseverance to keep abreast the times of progressive medicine which has adopted preventative medicine as a campaign slogan instead of curative.

With your co-operation in the residence section of our city and the enforcement of city health ordinances in the business section there remain only to beautify our city—a task willingly accepted by the Women's Club of a city—and right here it might be stated that it were better not to place further power into their hands, as the reforms might prove too sudden, which always disturbs the quiet of man, who prefers to think these sanitary matters over before rendering an opinion and allows affairs to gang their own way. In justice to our business men, and in fact all others consulted, any plan for better sanitation has not only aroused their interest, but elicited approval.

Now, why such a furore about garbage, etc? Not merely because unsightly, nor that conditions of filth are obnoxious to the sense of smell, but it is a habitat of the house fly, which, though interesting enough to the naturalist, is, by birth, a scavenger and a menace to mankind. His life history would prove interesting reading. Unlike the bee, which harvests a crop and assists in fertilizing plants with pollen and hence is of commercial value, the house fly is a disseminator of bacteria; and domesticated by man through lack of fear and given culture media (garbage) by this same benefactor, shows his gratitude to mankind and his sphere in our system of economy by conveying to our choicest food deadly germs. Contracting the disease incapacitates a sufficient number of men in our city each year and entails expenses which, together, from a commercial viewpoint, would sustain a sanitary system for a city much larger than ours. Nevertheless, we have reasons to congratulate ourselves over the fact that not more than one per cent of our population fell victims to typhoid fever in 1909. It is our intention to reduce this percentage to the minimum and not permit it to be sown broadcast, that typhoid fever or any other communicable diseases is endemic in Brady as a reflection on our sanitary conditions and taken as an index to our progressiveness.

Filth from which gases emanate has the power to lower one's vitality, making the human system favorable soil for the culture of pathogenic (disease producing)

bacteria, and so, in describing the various means of producing ill health, lack of sanitary measures is the source in the majority of instances.

In order not to disappoint those who think that our water supply should be condemned and come in for mention as a typhoid and disease conveyor, will state that, while recognized in some localities as the principal means, it is the opinion of Brady physicians who have had experience with typhoid and find this disease prevalent during the fly breeding and dusty months and not a case during the winter, that the disease is air-borne and the fly the principal offender, eliminating the question of water supply. With so much individual effort as is being expended to develop our waterworks in the interests of the city, placed in our campaign against unsanitary conditions about your premises, high-ways and alleys, the results would be gratifying to say the least.

In conclusion would state that this campaign is not the effort of one man to prove himself a martyr to the cause of sanitation, but an expression of the sentiments of Brady citizens and her council, provoked by righteous indignation, and the remedy is co-operation and a shoulder to the wheel for the first turn.

If there be those who different part or in toto, discuss it with your neighbor, and the desired first step to have you become aroused will be taken in the right direction.

J. B. GRANVILLE, M. D.
City Health Officer.

J. J. Strickland Dead.

J. J. Strickland who came here from Sapulpa, Ok., a few months ago to make his home, died Monday night in the eastern portion of the city after a illness of pneumonia. Mr. Strickland was 35 years of age and unmarried. Funeral services were held Tuesday afternoon at 4 o'clock, followed by interment at the Brady cemetery.

BRIDGE BONDS CARRY

Bonds for Three Bridges in the County Voted at Last Saturday's Election.

Very little interest was taken in the bridge bond election last Saturday, with the exception of three towns at which places it is proposed to place the improvements. The vote generally was light and no box, with the exception of Stacy, Waldrip and Voca, showed anything like their full voting strength.

It is a Good One

THE work it has been called upon to perform, the service together with the satisfaction it has given has demonstrated beyond any doubt that the Case Planter is the planter for this country. About five years ago this planter was introduced into this country. At first, it was a good one and performed its work in such a way that it established confidence, but time, experience and late improvements have added to its value until today it is the best planter that is offered on the market. We say the best, we mean it. Not one that is just as good, but better, and we want to prove it.

WILL IT PAY

TO invest your money in an inferior planter? Would you pay \$1.25 for a silver dollar. We think not, and we believe you should consider the purchase of a planter in the same way. The J. I. Case planter is not only worth one hundred cents on the dollar, but it is an investment that will yield a return far in excess of the purchase price. You can't lose when you buy the Case, it will last, that is good; it will plant just like you want it to, that is better, and the best of all is that he who uses them is happy and contented.

J. K. Baze.

J. K. Baze authorizes The Standard to announce his candidacy for the office of Superintendent of Public Instruction for McCulloch county, subject to the democratic primary, July 28. Mr. Baze is a self-made, native McCulloch county boy, his parents having moved here when he was an infant some thirty years ago. He has been teaching school for fifteen years, has served on the county board of examiners, is a graduate of a commercial college, holds a first grade certificate valid throughout the entire state, and has also a license to practice law. Mr. Baze is well known to our people, and every interest he has or has ever had is identified with this county. He respectfully solicits your support, promising an undivided attention to the duties of the office.

In buying a planter remember the Canton, the one that has stood the test. Everyone knows the quality of a Canton planter. It stands when others fail. We think we will have plenty this year to supply the trade. Have already received one car of planters and cultivators, and will have another car in soon. Broad Mercantile Co.

Reports Good Season.

J. M. McAnally, manager of the McAnally & Wells gin, reports the season just closed much better than he anticipated. The gin closed down for the season last Saturday, and the total number of bales turned out is given as 2128, being about 600 more than he expected. Mr. McAnally says that he had about 450 patrons during the season, and nearly every one of them reported their crop as being larger by from one to ten bales than they anticipated at the beginning of the season.

Purchased Half Interest.

J. F. Montgomery, cashier of the Brady National Bank, has purchased an undivided one-half interest in the Melvin townsite, heretofore owned exclusively by O. C. Utsey. The town of Melvin is so located on the Menardville extension of the Frisco that a good town is an assured fact, and Mr. Montgomery is receiving the congratulations of his friends.

Gus Herberg.

In the proper column of this issue will be found the name of Gus Herberg, of Stacy, as a candidate for district and county clerk, subject to the action of democratic primary, July 23. Mr. Herberg has been a citizen of the county for about four years, and his standing in his community is such as to entitle him to the respect and careful consideration of all the voters. He will make the race strictly on his qualifications to fill the office, and merit as a citizen, and earnestly solicits your support. He is a man of good business qualities and has been identified with the mercantile interests of his home town since locating there.

My notice of last week which appeared in The Standard in regard to paying any more than \$10.00 to any agent meant to all agents alike, and didn't intend to throw any reflection or insinuation on Mr. E. Murray in the least, for I believe him to be a gentleman of respect and a man of his word. I only wished to discontinue my contract with him on account of the Adkins Land Company being exclusive agents, there arose a dissatisfaction. Trusting this will be a satisfactory explanation to all concerned I remain, W. W. SPILLER.

The New Bank.

W. R. Randle, of Fort Worth, has been in Rochelle this week looking over the situation with a view of establishing a State or private bank here. When seen by a Record reporter yesterday afternoon, Mr. Randle said that a satisfactory number had agreed to take stock in the concern and that its coming was an assured thing. He did not know just where it would be located but said that temporary quarters would be secured until a building could be erected. He says the capital stock will be \$20,000 or \$25,000 and that it will be in operation within thirty days.—Rochelle Record.

BRADY, TEXAS, JANUARY 20, 1910

FOR FIRE ESCAPES.

The Standard has several times called attention to the lack of fire escapes on the public school building, also to the fact that the outer doors were so hung that they only swing inward, and we are glad to note that others have taken an interest in the matter. At the session of the school board yesterday morning the Mother's Club of Brady presented a petition asking that the fire escapes be provided and that the doors be changed.

There is no denying the fact that the school building in its present condition is dangerous. In case a fire should break out during school hours the lives of hundreds of children would be endangered, and The Standard is glad to see the mothers of Brady take this matter up, and we sincerely trust that they will not stop in their agitation of the subject until the needed changes have been made. We are informed that the Mothers' Club has taken full cognizance of the fact that the board is badly handicapped for funds with which to make these improvements, or carrying out this fact, and are now laying plans by which the money necessary for the work may be raised without expense to the school fund. The Club has several committees at work on the plans for raising the money, and in this work The Standard pledges its utmost assistance, both morally and financially.

THAT flour mill would be easy to get if Brady only had a commercial club to work it up.

THE bridge bond election is over, and now it is time to begin the agitation for better roads. Road bonds in sufficient amount would be the best way to handle the matter. Let us begin to study the matter.

BRADY has the chance of a life time to build a railroad. That Coleman-Brady-Llano proposition is a good one, and a town with the money and resources which this town boasts, should experience no difficulty in handling Mr. Love's proposition. Coleman has accepted and subscribed for her full share of the stock. What will Brady do?

In going through the deed records in the County Clerk's office a few days ago a Standard reporter encountered a name, which for length and unusualness, almost equals some of the "doocook" and "bobpeary" variety. The name was that of a party to whom a tract of 240 acres of land in Archer county had been patented by the state. Here it is: Wageischouschouskis.

Comprehensive Statement of Enrollment at Brady Public School for Term of 1909-10.

The table given below, taken from the records in the office of Superintendent M. L. Stallings of the Brady Public Schools, will show, possibly more eloquently than could be shown in any other manner, the congested condition of our school. The figures show a total enrollment for the term of 726, an increase of about 100 over last year. The enrollment at the end of the past week was 654, while desk room is only provided for 593 pupils,

showing an excess of 61 students over the number of desks. Eight of the twelve rooms show pupils in excess of desk room, two show more desks than pupils and two the same number of each.

Every citizen should be able to see, from these figures, the urgent need of more room for the schools, and the necessity of providing same before the opening of the next term. Brady can boast of as an efficient corps of teachers as can be found in the state, but no matter how well they are fitted for their work it is absolutely impossible to do their best work under the conditions obtaining here. These figures show that the least number of pupils in one room is 28, while the largest is 82, the average being 54 to the room. The figures follow:

COMING TO BRADY AGAIN

Dr. J. Harvey Moore

The Eye, Ear, Nose and Throat Specialist, of San Antonio, will be at his Office Over New State Bank Wednesday to Saturday, February 2nd to 5th.

SOME REMARKABLE CURES.

A Brady Ranchman.

Mr. John V. Ewing, who has lived here twenty years, says: "I was nearly blind with granulated sore eyes. I had been treated by several physicians and specialists, but got no relief. I wrote to Dr. J. Harvey Moore while he was in St. Louis. He sent me medicine that cured my eyes and they have not troubled me for five years."

Another Bad Case.

Rev. D. F. Draper, of Sabinal, Texas, formerly of Taylor, who is well known here, wrote the following letter to a Brady citizen: "If I had not met Dr. Moore twelve years ago I would now be blind. I know of many wonderful cures he has performed. I will go Dr. Moore's bond for anything he promises."

Straightened His Eyes.

Howard Gould of Brady, has been

cross-eyed all his life. Dr. Moore straightened his eyes without pain and without any chloroform and he says it did not hurt him at all. He has been around town all the time.

Blind With Cataract.

Mr. F. M. Miller, who was County Treasurer and Sheriff for many years and a pioneer of this county, was blind with cataract and Dr. Moore removed it by an operation and he is able to see again.

Dr. Moore cures all kinds of weak or watery eyes, overflow of tears, granulated sore eyes, cataracts, cross eyes, ingrown lashes, growth on the eyes, etc.

He treats catarrh and deafness, enlarged tonsils and all nose and throat affections. He makes a free examination and if you are incurable he will tell you so and will not take your money.

FARMER MAKES MONEY

Has Handsome Revenue Each Month by Milking Ten Jersey Cows and Selling to Creamery.

Illustrating the money a farmer can make by milking good cows and selling the butter fat to a creamery we note what one Donley county farmer is doing, as told by the Clarendon Times.

This man is milking ten high grade Jersey cows and shipping the product to a Fort Worth creamery. He ships each month 800 pounds of butter fat for which he receives 32 cents per pound. He takes good care of his cows and feeds them well, but he figures that feed costs him little or nothing for the reason that he follows his cows with a bunch of ten hogs, the profit derived from the hogs more than paying for the feed for the cows. In addition to this he has another bunch of ten hogs on the skim milk, thus making every edge cut.

What this man is doing can be done by any farmer living close to Brady. The Brady creamery will be put in operation about the first of April, and it will pay any farmer well to get some good cows and prepare to patronize the creamery. It is a source of revenue which brings in cash at all seasons of the year, and the margin of profit is large if the proposition is properly handled. If you haven't the cows, now is the time to get them. There's no danger of getting too many, as the creamery will be prepared to buy all the butter-fat offered, regardless of quantity.

If your stomach, heart or kidneys are weak, try at least a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the stomach, nor stimulate the heart or kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nervous system. When these own controlling nervous organs fail, the dependent organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by Central Drug Store.

In buying planters remember the Canton, the one that has stood the test. Everyone knows the quality of a Canton planter. It stands when others fail. We think we will have plenty this year to supply the trade. Have already received one car of planters and cultivators, and will have another car in soon. Broad Mercantile Co.

Joe Matthews and Fred Cox and family of Brady passed through Saturday on their way to Ozona. The whole bunch except Joe, claim kin with us, and you can bet we felt uneasy until the wagon got out of sight up the McKavett road.—Menardville Messenger.

Every article bought here is guaranteed, both as to price and quality. You can't lose when your purchases are made at the great Quality Store. O. D. Mann & Sons.

One Thousand Dollars

Fully Equipped

We have said in the display headlines of this announcement that this is the most significant announcement that has ever been made in the automobile world. We want the reader particularly to be impressed with this statement.

It is not a mere high-sounding or extravagant phrase; it's the literal truth, as you'll be amply convinced if you compare the specifications with the best car you know of at \$1,500, \$1,800 or even \$2,000. You cannot find anything like or near the Overland at anything like the price; and you cannot get a better car of 25 H. P. at any price.

This car, wherever shown, is conceded the most astounding automobile value of the era.

Model 41

40 Horsepower. Planetary transmission, 2 speeds forward, 1 reverse. Close coupled body or 5-passenger touring, 4 or 5 passengers. Price \$1,400.

Model 42

40 Horsepower. Sliding gear transmission, 3 speeds forward, 1 reverse. Close coupled body or 5-passenger touring, 4 or 5 passengers. Price \$1,500.

When We Say

That the Overland Model 38, 25 H. P. car at \$1,000 is the first "real" automobile ever offered at that price, we mean precisely that and no less.

We mean by "real automobile" a car that embodies in its make-up everything that is acknowledged the world over by the makers of the highest priced cars, the very latest and most approved practice in design, material, workmanship, style and finish. It is a low price car, but distinctly, it is not a cheap car—it could not be a better made car if the price were twice what we asked.

We are absolutely certain that it is the first car built to sell for less than \$1,500 that contains all the latest and best features of the world's best in construction.

It has produced a veritable sensation wherever shown, and from the way in which dealers everywhere have gobbled up the product, it is perfectly evident there won't be enough to go around.

There are hundreds of ways we might have skipped and saved. There are many ways in which we might have reduced the cost of production—but the men back of the Overland began with their standard set high on a pinnacle of "quality"—determined to make the car good all through first and the price afterward.

How well this policy has succeeded can be testified to in no uncertain way by the thousands who are now driving Overland cars, and you see them wherever you go.

With this year's cars the same policy obtains, as it will always obtain here—make the car first; make it as good as a car can be made all through; make the price afterward.

It does not seem possible in comparison with the prices which others are obliged to get for cars of like size and power, and it is not possible for any other factory with less manufacturing experience, less manufacturing facilities or less marketing facilities than those possessed by the Overland Company.

Quality—that is the answer. We are going to build 20,000 of these cars, one exactly like the other, except possibly as to style of body. Every

one of these cars will be running over the streets and roads of our own and other countries between now and the time the leaves begin to fall next year.

And mind you, we would have asked \$1,500, instead of \$1,000, if the production was 500 cars less than 20,000. Our cost accountants, our material buyers, our engineers and our factory producers are figuring the production at its maximum and at its minimum.

The motor-buying public gets the benefit—the first real automobile for \$1,000.

It is not possible to go into details of construction within the narrow confines of this advertisement—how every part is snuggled, how every part is inspected and then inspected and tested again; how every cylinder and every bearing and every moving part is ground and polished so that the fit is accurate to the thousandth part of an inch, but we can say a few words about the

MOTOR—The 25 H. P. Motor in the Model 38 Overland is of the L-head type, with both exhaust and intake valves on one side, positively actuated by cams of generous size. Both intake and exhaust valves are of large diameter in conformity to the latest practice of the world's best makers.

One of the largest foreign factories—a concern which makes automobiles selling all the way from \$8,000 to \$20,000—has just completed a test of motors to determine which is to be preferred from a standpoint of power, fuel consumption and reliability.

Three cars of large size were run under identical conditions, with the three contrasting types of motor, L-head, T-head and Valve-in-the-Head.

The L-head motor (the same as the Overland) came off with first honors by a big majority; the T-head came second; and the Valve-in-the-head type third.

Every motor is fitted with Remy magneto, which, during the past season, has been pronounced by the drivers who have carried off the most honors in all the big events, absolutely ignition perfection.

The carburetor is unquestionably the most economical in the world, moreover, it is the easiest of adjustment. There is one little button to turn one way or the other to get the desired mixture. A mere tyro can adjust the carburetor on the Overland.

The cylinders are cast singly, 3 1/2 inch bore and 4 1/2 inch stroke. Note the long stroke—the latest practice the world over.

CLUTCH—Just as an example of the thoroughness with which we have built this car, the item of the clutch alone will serve this purpose as well as any. We could easily have adopted the conventional cone clutch, which, of course, is the very cheapest construction, but instead, note that the Overland is fitted with a multiple disc clutch, enabling an easy start without throwing stress or strain on the reciprocating parts; an easy clutch to manipulate; a clutch that needs little or no attention; the type of clutch that is acknowledged by the best makers the world over as the most standard and the most expensive.

TRANSMISSION—The transmission of the Overland is of the planetary type, unquestionably the most simple and most easily operated.

Note all absence of gear shifting levers. It is safe to say that the majority of troubles experienced by owners of new cars, and even old, experienced drivers, is due to faults in gear shifting. This is all obviated in the Overland. Simply press your foot on the pedal and the trick is turned. A child, a woman—any one can do it. No danger of stripping gears; no severe shocks to transmission or engine; everything smooth, silent and sure.

In the building of the Overland the element of safety has been taken into very serious consideration. Study the construction of the running gear thoroughly. You will note the rigid pressed steel frame, reinforced by heavy cross sections; long resilient springs, thoroughly and safely anchored; bearings of generous proportions; and wheels made of the very best second growth hickory.

The steering wheel, steering column, steering knuckles, and all other parts contributing to the guiding of the car, are of generous size, made from the best drop forgings; giving to the driver that confidence which he can scarcely have with many of the make-shift constructions on cars made to sell at a price.

Let us send you all the data on this superb car. Let us send you a complete catalogue, showing all models.

FORTY YEARS AGO

Extract From a Letter Written in 1870 by D. Doole, Sr., to the San Antonio Express.

The following is taken from the San Antonio Express of Jan. 2, 1870, and at this date, forty years later, will read with interest:

D. Doole in a letter to the Express from Fort Mason says: "The Indians have been living with us for the last ten days, stealing horses and murdering. On December 23 they stole two horses from Chas. Thompson, one from J. D. Bridges, four from C. C. Wood; two from George Coots and one from Dr. Barton and on the night of December 27 they murdered Hamilton Briddy and stole several more horses."

The writer of that letter, Mr. D. Doole, Sr., still lives at Mason, where he has been engaged in the mercantile business nearly half a century. He was an "old army" man, had served ten years in the regular service in the West before the civil war and is well and favorably known to surviving members of the "Old Guard" and also in Masonic circles in San Angelo.

The pioneers he mentions as having been robbed by the Indians have nearly all passed away, Mr. C. C. Wood and Mr. Doole being the only survivors of those enumerated. At the time of which Mr. Doole writes strong garrisons were maintained at Fort Concho, then in the heart

of a vast wilderness, Fort McKavett and Fort Mason. But despite this fact, Indian raids were numerous and the soldiers proved to be of little protection to those living outside of the post limits. The Indians hailed the coming of the regulars to the frontier. They said these soldiers always brought good American horses which furnished them good mounts.

It was Major Doole who said: "These United States regulars are the finest trailers in the world as long as the whiskey holds out."—San Angelo Standard.

S. B. Craddock Dead.

S. B. Craddock, one of Brady's oldest citizens, died last Friday afternoon at 6:15 o'clock at the residence of his son, Dr. B. L. Craddock, after a short illness. Mr. Craddock's death was due principally to old age, but his demise was hastened by an attack of la grippe which he contracted about Christmas.

Mr. Craddock was 77 years, 5 months and eight days old, having been born in Lauderdale county, Alabama, on August 6, 1876, and with the exception of a few years, has been a resident of this state since that time. He was an ex-Confederate soldier, having served two years in the southern army. He was the father of seven children, of whom four survive him—two boys and two girls. They are Mesdames R. G. Brown and Wm. Caswell, of Sunset, Texas. Dr. L. L. Craddock, of Sonora, and Dr. B. L. Craddock, of this city, the latter of whom he has made his home for the past several years.

The funeral services were held at the residence in South Brady at 4 o'clock Saturday afternoon, conducted by Rev. L. C. Matthis, pastor of the M. E. church, followed by interment at the Brady cemetery.

Don't Risk even a penny—until health returns. And I mean just exactly that. I am the one physician who says to the sick, "I will, out of my own pocket, pay for your medicine if it fails to bring you help!" And for 20 years Dr. Shoop's medicines have

been used and recommended in every city and hamlet in America. They are positively standard in every community—and everywhere.

Then why pay the cash, and at your risk, for other unwarranted and uncertain medicines? Thousands upon thousands have on the most successful used Dr. Shoop's Restorative. When the blood is weak, or the nerves are exhausted, or the brain is overtaxed, or the stomach is deranged, or the system is generally run down, Dr. Shoop's Restorative will bring them back to health again. But best of all, they positively take no money risk whatever. They know that when health fails to return Dr. Shoop will himself gladly pay the druggist for that test. And for that test a full 30 day treatment is freely granted.

But write me first for an order. This will save delay and disappointment. All druggists sell Dr. Shoop's Restorative and Dr. Shoop's Kidney Pills, but I have authorized to give the 30 day test. So please—for I have appointed an honest and responsible druggist in almost every community, everywhere, to issue my "no help, no pay" medicines to the sick.

Tell me also which book you need.

The books below will surely open up new and helpful ideas to those who are not well. Besides, you are perfectly free to consult me just as you would your own home physician. My advice below are yours—and without cost.

THE STATE OF TEXAS, COUNTY OF McCULLOCH:

By virtue of an execution, issued out of the Honorable Justice Court, Precinct No. 1, Mills county, on sixth day of October, 1909, by the Clerk thereof, in the case of Henry Martin versus Lon Jones et al. No. 1190, and to me, as Sheriff, directed and delivered, I will proceed to sell for cash, within the hours prescribed by law for Sheriff's Sales, on the First Tuesday in February, A. D. 1910, being the first day of said month, before the Court House of said McCulloch County, in the town of Brady, following described property, to-wit:

220 acres of land, Abst. No. 412, Cert. No. 33-245, Sur. 223, G. H. & H. R. R. Co. original grantees.

40 acres, Abstract No. 504, Certificate No. 653, Survey 798; A. Holscher original grantee.

Also 160 acres, Abstract No. 505, Certificate No. 653, Survey No. 770; A. Holscher original grantee.

Subject to family homestead. Levied on as the property of W. H. Dial to satisfy a judgment amounting to \$155.27 in favor of Henry Martin, and costs of suit.

Given under my hand, this 3rd day of December A. D., 1909.

T. L. Sansom, Sheriff.

There is no Quinine, nothing whatever harsh or sickening in Preventives. These Little Candy Cold Cure Tablets act as if by magic. A few hours—and your threatening Cold is broken. Candy-like in taste. Preventives please the children—and they break the feverishness, always. And least of all is the economy. A large box of 48 for 25c. Ask your druggist. He knows! Sold by Central Drug Store.

Souther & Co., the feed men, want your trade. Their prices are always in line.

—If it's glass you want we have it. Jones Drug Co.

Business Change.

The Brady Auto Co. last week bought the automobile business of Willbanks & Kerr and have consolidated the two. This progressive firm is one of Brady's strongest institutions and enjoys a large patronage from the automobile owners of this section. The company is making extensive improvements in their plant which, when completed, will give them an equipment second to none in this part of the state.

Messrs. Willbanks & Kerr will continue their general blacksmithing business at the same old stand.

TOO MUCH FACE

You feel as if you had one face too many when you have Neuralgia don't you? Save the face, you may need it but get rid of the Neuralgia by applying Ballard's Snow Liniment. Finest thing in the world for rheumatism, neuralgia, burns, cuts, scalds, lame back and all pains. Sold by Jones Drug Co.

Goes to Santa Anna.

Chas. Broad has sold his interest in the firm of Broad Mercantile Co. to his brothers, Ed and Howard, and left yesterday for Santa Anna, where he will go into the hardware business with another brother, Will Broad, now of Coleman. Charley Broad is one of Brady's brightest young business men, and the best wishes of our people will attend him in his new location.

There will be no change in the firm name or business of the Broad Mercantile Co. as a result of this sale.

LOST CREEK ECHOES.

Voca, Texas, Jan. 17th, 1910.
Editor Brady Standard:

Take a seat now and we will have a little talk with you...

The Bridge bond election is over. The Lost Creek box went solid for a bridge across the San Saba at Voca. And nearly so for the Bridges at Stacy and Waldrup.

D. H. Henderson went to Brady Monday to turn in the Lost Creek election box.

Charley Bryson bought steer yearlings from J. J. and Roy Armour and others here last week paying as high as fifteen dollars.

W. F. Spiller bought Mrs. W. R. Yeales' yearlings last week, we never learned the price paid.

Edd Campbell bought the Taylor place on the north side of the river last week paying twelve dollars and one-half per acre.

J. D. Parker made a business trip to Brady Monday.

Mrs. J. D. Parker visited friends in Brownwood last week.

Alex Arledge went to Brady Monday with the Mt. Tabor election returns.

A CITIZEN.

Forty years in the lead, and when our lady customers tell us a Selby shoe wears from twelve to eighteen months and still good we know we have the best shoes made. Everything new is here in ladies oxfords and pumps. Mistrot's.

PASCHE PICKUPS.

Pasche, Texas, Jan. 12th '10.
Editor Standard:

The weather has been very bad, so bad that no one has been able to do any outside work.

A. F. Walters has been on the sick list.

B. H. Childress has been very sick for the past two weeks but is better now.

Willie Sparks and Miss Lea Ward were married last Sunday evening. They are very prominent young people of this neighborhood. They will make their future home at Millersview.

Will Shields is visiting his uncle, Tom West, at Pasche.

Messrs. Dow Eating, Jim Turner and Tom Sawyer went on a wolf chase last Sunday night. They ran one about four hours and caught it with about fifteen dogs.

As news is scarce will close. Success to The Standard and its many readers.

Everything neat and clean at the new Brady Cafe—east side.

McCully & Co. this week shipped two cars of fine pecans to New York City via Galveston.

Everything the market affords, and served in first-class style at the Brady Cafe, east side.

S. B. Sorenson, of Rockport, was here Sunday looking after some property interests. He is an old friend of L. Ballou, and thinks Brady is about the liveliest wire he has seen.

Quarters here do the regular work of half dollars. You get just what you pay for, one hundred cents of good value for every dollar invested. O. D. Mann & Sons.

We carry a house full of goods and not a handful: is why we can give you 20 to 50 per cent discount on all winter goods and do the business. That is why the people are going to Mistrot Bros. & Co.

WALDRIP WHISPERINGS.

Waldrup, Texas, Jan. 16.
Editor Standard:

Well, The Standard came out last week and took a bold stand for the bridges in big headlines. Now we at least know where the paper stands pat. When the "people's paper" goes after things it gets results. Have been unable to get a positive statement as to the results of the election, but it is safe to say the bridges carried. We thank The Standard for its courage and its energy, but the only real convenience compared with what a good bridge across the Colorado means to us. Once more, we thank you.

Still it rains! Still everything looks prosperous for the new year!

Dr. Garrett moved to San Angelo last week. We are so sorry to lose the good doctor and his family, as they have made many warm friends while here, and our best wishes go with them to their new home.

Sam Glascock went to San Angelo last week on business.

Dr. Anderson, of Brownwood, was here last week, professionally, to see Marcus Gattis and Mrs. H. L. Braton.

Dr. Marberry, of San Angelo, was here last week.

Mr. Cathey went to Santa Anna last week.

D. W. Hill, Jr. is out in the Pecos country on a prospecting trip.

One of the saddest things the community has had lately was the death last night at 3 o'clock of Mr. Marcus Gattis, a good friend, an honest citizen and an earnest christian. 'Tis so sad to give him up. He was a young man and leaves a wife and two children, father and mother and several brothers and sisters to mourn. Everything that loving hands and medical skill could devise was done but "he had heard the call that every one must heed." We extend to the heart broken family our sincere sympathy, may God bless them in this hour of grief.

E. B. Kennedy has just completed a neat little cottage on Mr. Tidrow's place just across the river.

MILBURN MIXUPS.

Millburn, Texas, Jan. 17.
Editor Brady Standard:

Little Maud Cryen, who was reported very sick in the last news, died last Wednesday, and was buried at Millburn cemetery. We extend to the bereaved family our heartfelt sympathy.

Rev. J. J. Jones has gone to Mosuria to engage in meetings for a season.

Mrs. J. B. Jones and children are in San Saba county visiting relatives.

Jim Chamberlain and family have returned to their home near here. They have been away on a visit for some time.

Our school is progressing nicely.

Rev. J. C. Thames filled his regular appointment at Cowboy Sunday.

An election was held at Millburn Saturday.

Messdams Stroud and Thames visit Mr. G. L. Scoggins, out at Scoggins ranch Sunday.

As fast as people move out from here new ones come in, so there are no vacant places now. IDAHO.

Probably the greatest coffee substitute yet produced is that now known to grocers everywhere as Dr. Shoop's Health Coffee. It actually goes a third farther than all others, and besides it is "made in a minute." No 20 to 30 minutes tedious boiling is at all necessary. Pure toasted grains, malt, nuts, etc., have been so cleverly blended as to give a wonderfully satisfying, true genuine coffee flavor and taste. And not a grain of real coffee is used. 100 cups, 25c. Sold by all Grocers.

J. V. Searcy Tuesday bought the entire jewelry stock of Ward & Boyd, located on the southeast corner of the square, and is moving his stock from the Jones Drug Store to the Ward building. Mr. Searcy located in Brady last spring, and by his honest, straight-forward manner of conducting business, has built up a nice trade in his line.

Chamberlain's Cough Remedy is not a common, every-day cough mixture. It is a meritorious remedy for all the troublesome and dangerous complications resulting from cold in the head, throat, chest or lungs. Sold by Jones Drug Co.

The Standard joins the many friends of Dr. A. S. Holley in extending sympathy in the death of his father which occurred at the latter's home in Houston Saturday night. Dr. Holley at the time was ill himself and unable to attend the funeral, but is consoled by the thought that he was enabled to spend the holidays in Houston with his father.

Best for coughs and colds is Kennedy's Laxative Cough Syrup. It moves the bowels freely yet gently and thereby drives the cold from the system. It stops the cough. Children like it—pleasant to take. Sold by Central Drug Store.

We now have a full stock of the celebrated John Deere disc plows and are able to supply those farmers who displayed their good judgment by waiting for them. Satterwhite & Martin.

School Bond Election Ordered.

At a meeting of the school board of the Brady public school held yesterday morning an election was ordered, to vote on the issuance of \$8000 worth of bonds for the construction of a school building on the north side. The date for the election will be February 20.

A request from the ladies of the Mother's Club was presented to the board asking for a fire escape at the school building and the swinging of doors so that they would open outward, instead of into the rooms. No action in regard to this matter was taken by the board, other than to agree with the ladies that this work should be done.

COLEMAN-BRADY ROAD

Coleman and Brady Capitalists to Organize Company and Build Road From Coleman to Llano.

Col. R. A. Love, the railroad builder, was here last Saturday following the visit by the local railroad committee to Coleman, and at a mass meeting held Saturday the plans of the new road were made public. Mr. Love proposes to take \$50,000 stock of the \$500,000 necessary, and Brady and Coleman are to divide the remainder, each taking \$225,000 worth. The plan is to obtain a charter, and start the work of constructing the road between Coleman and Brady, and when some thirty or forty miles are built to bond the same, thus obtaining money sufficient to complete the road to Llano.

A telephone message from Coleman Saturday announced that that enterprising little city had already secured the entire amount of their pro rata, and were ready for business. The local mass meeting was well attended and the discussion was most favorable, and a resolution finally prevailed that Brady accept the proposition. A committee of ten was then appointed to begin the work of placing the stock.

On Monday two other meetings were held, and the matter further discussed, and while at that time all the stock had not been subscribed the men in the lead express themselves as believing that there will ultimately be no difficulty in placing the entire amount of \$225,000.

Brady needs this north and south road. In fact, if such a road is built Brady cannot afford to let it go elsewhere, for the simple reason that it rightfully belongs to this city. The lay of the land is right, and to have the road turned elsewhere would be just about the worst thing that could happen. The coal and oil fields of this and Coleman county would be connected with the iron mines of Llano county, and the advantage, are too apparent for discussion. The Standard hopes to be able to report the road as an assured fact in its next issue. We regret that we cannot so state it this week, but in expressing this regret we do not mean to express a doubt that Brady capital will overlook a plum of this magnitude.

LATER—A committee consisting of W. D. Crothers, Jim Mann, D. F. Savage and Jeff Wood left at 6:00 o'clock yesterday afternoon for Coleman for a conference with Mr. Love and the Coleman people. Chairman Crothers informed a Standard reporter just before leaving that he expected to have good news to report on his return.

Creamery Company Elects Officers.

At a meeting of the stockholders of the Brady Creamery Company held at the courthouse Tuesday afternoon the following officers were elected: T. H. Marsden, president; J. C. Wall, vice-president; John Plummer, secretary. The following board of directors was named: W. D. Crothers, J. C. Wall, T. H. Marsden, W. H. Dial and John Plummer. Application for a charter was made to the Secretary of State yesterday and the company expects to begin business on April 1st.

Firemen Elect Officers.

At a meeting of the fire department Tuesday night officers were elected for the year. W. S. Shropshire was re-elected chief and Ova Garner, assistant chief. It was decided to hold another meeting next Tuesday night to arrange for an entertainment of some kind for the boys. Three new members were received at the meeting and a few matters of minor importance attended to.

Royal Arch Chapter Work.

The Brady Royal Arch Chapter of Masons is very busy this week. There are twenty-six candidates for the Chapter degrees, and the lodge has secured the services of four very bright Masons, as follows: Eugene Posey, of Indian Creek; W. W. Peavy, W. A. Ham and E. Spencer Frey, of Brownwood. These gentlemen, with the assistance of local lodge members, have been holding all-day sessions in addition to the night session, and the work will probably continue throughout the week.

We think we will have plenty this year to supply the trade. Have already received one car of planters and cultivators, and will have another one in soon. Broad Merc. Co.

Clean-up Crusade.

Dr. J. B. Granville, the newly appointed city health officer, has an article in this issue to which the attention of every good citizen is directed. The Standard is glad indeed to note that our new health officer intends to take a firm stand for a cleaner Brady, and we trust that his efforts will have the hearty approval and co-operation of our entire citizenship. The doctor is, in our opinion, quite mild in his estimate of the filthy condition of our city, and we believe that another spring and summer of neglect such as was witnessed here last year will bring disaster in its direst form. Let's all help in this work of keeping the city clean.

WERE STUCK IN MUD

Brady Railroad Committee on Return Trip
From Coleman Last Week Has
All Kinds of Trouble.

Brady's railroad committee which went to Coleman last week had a series of harrowing automobile experiences the like of which has not heretofore been known locally. Leaving Coleman about 4:00 p. m. Thursday without knowing of the big rain in McCulloch county, they struck the mud several miles the other side of Waldrip. At that point it was just muddy enough to be slick, and in dodging one stump the car skidded into another, crushing one of the back wheels, and then their troubles began. Not knowing the condition of the road on this side of the river they phoned the Brady Auto Company to send out a new wheel and the necessary tools to put it on. The manager of the company was stumped; the party was stranded twenty-seven miles from town, with seemingly impassable roads intervening and the problem was a serious one. He had about decided to give it up as an impossible job when he mentioned the matter to Mr. Carey, the Overland man, who happened in about that time with a little Model 38, a \$1000 car. Mr. Carey is an automobile man who is ever ready to lend a helping hand, and with unbounded confidence in the Overland car, so accompanied by Manager Welch he left at 7:00 p. m. in his little car for the scene of the wreck, over roads neither had ever traveled before, and with the mud "something fierce." At 9:00 o'clock they reached Lohn, having traveled over two-thirds of the way on low gear. At times as if it were impossible to get through, often the mud being up to the axle for miles at a time, but never once did the little car refuse or lay down. They arrived at the scene of the wreck a little after 10:00 o'clock, the repairs were soon made and the journey home commenced, the Overland carrying three and sometimes four passengers. On reaching Lohn the party decided to spend the balance of the night there, as the other car was unable to continue the journey on account of not being able to get sufficient water to keep the engine cool while running on low gear all the time as it was forced to do by reason of the mud.

Next morning after filling up the radiators the party started on its way rejoicing, the "38" carrying three passengers all the way, the balance of the party in the other car, home was reached about 11:00 o'clock.

The remarkable feature of the trip was the performance of the Overland, and never once was its engine hot during the entire trip. Every member of the party has since been singing the praises of the little car.
