Brady Faces Best Railroad Proposition She Has Ever Had from Any Source

The Point of View

Some people, we fear, look upon a bank as a place where a few "rich old codgers" keep their money.

Others may think that only large accounts are wanted and that this bank would not care for their business.

If your point of view has been anything like this we want you to correct it right now.

We want to show you that THIS BANK wants YOUR business and also how an account here will be of great practical benefit to you.

WE KNOW YOUR WANTS and WANT YOUR BUSINESS.

A Pleasant Outing.

The editor and wife in company with Dr. and Mrs. J. S. Anderson enjoyed a day's sport with the birds at the Polk ranch, twenty-five miles northwest of Brady, one day last week. After arriving at the ranch, where we were graciously welcomed by Mesdames Polk and McCann, the party took the field under the espionage of Dr. and Mrs. J. D. McCann, and Gus Herberg, of Stacy. The birds were numerous, the dogs worked well and the day was fine, and, thanks to the marksmanship of the two gentlemen from Stacy, the gamebag did not go empty. In this connection Dr. McCann was heard to remark that this editor was the only man he ever saw who could eat more quail at one meal than he could kill in an entire day. To this charge the editor can only reply that if he had not even fired a shot or seen a quail that dinner served by Mrs. Polk would have been sufficient enjoyment to have made the day a perfect success.

The Carey Automobile Company received a car load of automobiles yesterday afternoon and have unloaded them for delivery. The machines were sold prior to shipment and by the time the week is gone the whole shipment will have been delivered. Some of the machines go to Brady and some will be delivered in Sonora country. Carey is making the "Overland" go. — Brownwood (20th) Bulletin.

ROAD IS NOT ASSURED

Brady Has So Far Failed to Subscribe Required Amount of Stock in Coleman-Brady Proposition.

The Standard regrets its inability to announce this week that Brady has secured beyond doubt the new railroad from Coleman to Llano. While we have realized the great importance to this city of securing this road, and while we have expressed confidence in Brady's enterprise and ability in this connection, yet we have been conservative in our statements, and all other press reports to the contrary notwithstanding, The Standard has never stated that Mr. Love's proposition had been finally accepted and the road secured.

It is true that an organization was effected at Coleman last week in which four prominent Brady men were named as directors and a charter drafted on the supposition that Brady would make good. But the Brady railroad committee has met with much discouragement, and of \$225,000 necessary to be subscribed in stock less than \$100,000 has actually been taken, and with the poor showing thus made the committee has been unwilling to sign up in any binding agreement, in which respect they have doubtless shown wisdom.

At the mass meeting Monday to take final action on the proposition nothing was done, although the Coleman committee and Mr. Love were even at that hour in Brownwood awaiting the arrival of the Brady committee to sign up. On Tuesday the Coleman committee came here for a conference, and strongly urged that Brady close the matter up by contract, but as the requirements meant the guarantee of the entire amount of stock and the immediate payment of \$11,250 or five per cent, in cash, the local committee could not comply and the Coleman men accordingly returned home Tuesday night with the agreement that they would go ahead with the enterprise on their own hook, have a full directorate of Coleman capitalists and apply for the charter at once, giving Brady the promise that if she could raise the amount necessary within a reasonable length of time four of the directors would resign and four Brady men would be allowed to take their places as directors in the new road. Coleman has more than raised her share, having stock pledged to the amount of \$260,000 and \$12,000 of that amount in the bank, and the action of the Coleman men in making the above agreement is indeed fair and all that could be asked, especially in view of the fact that both Abilene and Llano are ready and willing to take up the end of the proposition which Brady seems so ready to lay down.

Much credit is due W. D. Crothers and the other members of the local committee for their work. They have spent almost their entire time the last two weeks in the work, and have done all they can. It simply remains for the citizens of Brady to get together and back them up and the road will be ours. Otherwise, if we get the road at all it will only be after putting up a big cash bonus, and who

will say that railroad stock is not better than a railroad bonus? Brady cannot afford to pass this proposition up. We must have that road. It does not have to come through here, but can easily pass a few miles on either side and thereby do the town incalculable injury.

While the amount seems large, yet according to the plans of Mr. Love who knows the game, it will be due and payable in small amounts and will eventually sell for more than it costs, leaving a good margin of profit in addition to all bonuses and townsites which might accrue to the chartered company. The Standard would once more strongly urge that one last mighty effort be made to handle this proposition. It will not do to let it go by.

Hon. D. Doole, Jr. writes us from Brady requesting that we decapitate our New Year's resolution and accompany him to the Passion Play in Germany this year. We should much like to take in the play with Dave, but would be a bit uneasy making such a trip with one who unblushingly admits being a Republican, and remembering that he is in the postal service we fear it is a scheme of the administration to throw us overboard in order to deprive Democracy of our support in the next campaign. — Menardville Messenger.

Miss Zula Fletcher, who has been the guest of Miss Nita Wolf for several days, returned the past week to her home in Lampasas.

MORE NEW GOODS

We are the only people in Brady talking NEW GOODS. WHY is this? The answer is plain, simple and easy. In fact, the children of Brady could answer this question. THE GRAND LEADER IS THE ONLY STORE IN BRADY WITH NEW GOODS. We are not worrying about cleaning out an old winter stock, but we have a longing to sell new up-to-date dry goods at old prices.

New Gingham, New Silks, New Dress Goods in every weave and all the late shades.

New Laces, New Embroideries, New Ribbons.

A swell line of Men's Spring Trousers, made with 3-inch turn-up and peg top
A line of old reliable M. W. Hodkins Gloves for men.

All the old stockmen know the name HODKINS on gloves just as well as they know Stetson in a hat. They are in a class by themselves, and THE GRAND LEADER is exclusive agents for Hodkins Gloves in the best town in the best state in the Union—BRADY, TEXAS.

A new line of Nettleton Low Cut Shoes for men. The best man's shoe sold in Brady.

He Says to Diversify.

W. T. Loudermilk, president of the State Farmer's Union, has issued an address to the members of the union of the state concerning the actions of the officers in regard to cotton seed. He claims that the union is responsible for the high price of seed. In closing his address he uses the following language: "Now let us diversify our crops and learn to live at home, and by co-operating all along down the line, victory will crown your labors in the near future."

The new comet is plainly visible now. It hangs low on the western horizon and can be plainly seen between the hours of 7 and 8 p. m.

Advertising Brings Results.

The Standard last week proved to the satisfaction of itself and its esteemed contemporary, The Star, as well, that "it pays to advertise." We placed a small want ad in both The Star and The Standard, and to date we have received seven replies. Two of the replies were from the Star ad, and five were in reply to the ad in The Standard. We are well satisfied with results.

C. E. Cary and W. D. Crothers brought over a couple of new "38" Overland autos from Brownwood Sunday, one of which has been sold to Dr. Anderson by the Brady Auto Co.

BIG PIANO SALE!

WE FIND that we are overstocked on Pianos and in order to reduce the stock we have decided to make SPECIAL PRICES FOR THE NEXT 15 days. During these 15 days we expect to sell high-grade instruments at prices never before offered in Brady. The high character of our instruments is well-known, and in this sale we are not offering cheap, shop-worn or second-hand goods but our regular line of the famous BALDWIN MAKES, fresh from the factory and strictly high-grade in every respect. We have these goods in our house and can show you better than we can tell you, and we cordially invite you to call and let us show you our beautiful stock and exceptional values. As to prices, we propose to save you money. If you are thinking of buying a piano come and see us. Get anybody's prices and then get ours. We positively will save you money on any kind of a deal.

FREE MUSIC.

DURING this Sale we will give away absolutely free 500 copies sheet music and songs, also a valuable booklet entitled, "Songs of the Sunny South," containing thirteen popular Southern songs. This is not a fake piano advertisement. You know us. We are Brady citizens with a reputation to maintain, and you know our past record. You know also the high-grade of goods we sell, and when we say "Special Sale," it means something. Come in and see just what it does mean. The iron-clad guarantee of the Baldwin Company stands behind every instrument in this sale. Every part of every piano is manufactured by the Baldwin Company and bears their guarantee in detail.

One Death From Diphtheria.

The little two-year daughter of Mr. and Mrs. J. E. Snavely, living in South Brady, died Sunday morning of diphtheria. All the necessary precautions were taken by the health officer to prevent the spread of the disease, and it is thought that there is no danger of further developments. The funeral services were conducted Sunday afternoon, followed by interment at the Brady cemetery.

Jewelry of quality at J. V. Searcy's, Brady, Texas.

County Court.

Very little business has been disposed of in the county court during the past week, only two cases coming up for action, as follows:

J. M. Glasscock vs. J. M. Galbreath, suit on contract; judgment for plaintiff.

Fort Worth & Rio Grande R. R. Co. vs. R. A. King and F. G. Pettibone, condemnation; after introduction of testimony of several witnesses plaintiff withdrew notice of announcement of ready for trial and case continued.

When you buy a piece of jewelry from J. V. Searcy you can rest assured the quality is there.

Operated on Tuesday.

Mrs. Joe A. Harris, of London, Kimble county, came to Brady last week for a visit with her daughter, Mrs. J. B. Granville, and Monday underwent a serious operation by local physicians. The operation was entirely successful and Mrs. Harris is recovering nicely, which evidences the fact that it is unnecessary to go to the cities in such cases, as it has been shown a number of times that the Brady physicians and surgeons are thoroughly competent to handle the most delicate operations successfully.

Don't be in too big a hurry about buying that plow. Our car will be here in a few days and you know we handle the celebrated John Deere line, the best in the world. Satterwhite &

B. M. Westbrook, of Menard county, was in town last week with some samples of kaolin, or potter's clay, taken from his land near the county line. The clay is pronounced as fine as exists, and there is a large deposit of the substance in that locality. This is another of the many industries of this section of the state which will be opened up by the building of the new railroads.

We offer you high qualities and low prices. If you buy an article here and find it elsewhere at a cheaper price we will buy it back at the regular price. You can't lose when you trade here. O. D. Mann & Sons.

The School Board held a short session Sunday morning, following the announcement of a case of diphtheria near the public school building, to take the necessary precautions to prevent the spread of the disease among the pupils. After an investigation of the situation it was deemed unnecessary for any action of the board in the matter, as the situation is well in hand by the health officer, with no danger of a spread of the disease.

We have an expert harness and saddle maker. None better in West Texas. If you want to see some real first class work call in to see us. Arrested On Forgery Charge.

Herbert Stover was arrested at Melvin last Friday by Sheriff Sanson on a warrant from Cass county charging him with forgery. Sheriff W. C. Blalock, of Cass county, arrived in Brady Sunday morning and left in the afternoon for Linden with the prisoner.

Don't make any difference what you want, we have it and we have proven to the buying public that our price is the lowest in the city. At any rate this has been our effort to give better prices on the same article than any other concern, and we still have this in view. If you want to buy it a little cheaper than elsewhere, we will say easily that we can save you big money. Broad Mer. Co.

W. E. Pollock, proprietor of the Majestic Theatre requests The Standard to correct the rumor being circulated to the effect that he is to shortly close down the theatre. O. D. MANN & SONS

Brady,

Texas

To the Voters of the 33rd District.

Two county unions and many local unions have endorsed my record in the 31st Legislature. The Legislative committee of the F. E. C. U. says in a published statement: "Hamilton of McCulloch supported every measure of interest to the farmers of Texas." The joint Legislative Labor Board formally thank me for "your valuable support of the measures submitted by organized labor." I received a letter like these from the officers of Stockmen's Convention.

Business men, preachers, lawyers, doctors, mechanics, farmers, stockmen, labor men all over the district have urged me earnestly to stand for reelection.

Many of the very best men in the 31st will not be members of the 32nd Legislature—such men as Jenkins, Jackson, Mobley and Marshall.

For these reasons and many others I feel it a duty I owe to my country to submit my name to the voters of the 33rd district in the coming July democratic primary for representative.

I hope I have merited the friendship and good will of every man in my district.

I solicit your support.

A RAILROAD COMBINE

Santa Fe and Frisco Roads Reach Agreement Regarding Right of Way Out of Brady, West.

The Standard has it on unquestionable authority that the Santa Fe Railroad Co. has purchased the Frisco's rightofway leading out of Brady toward Eden, and that the Frisco has been granted the privilege of running its trains over said road when completed from Brady to a point about eight miles west of town, where the Menardville survey leaves the line, for such use paying the Santa Fe an annual rental sum equal to two and one-half per cent of the amount invested in said strip of road.

This agreement is, without doubt, the explanation of the sudden stoppage of the proceedings in the county court this week, wherein the two roads were fighting over a strip of right of way through the city limits just north of the creek. The town was full of prominent railroad officials and attorneys for several days, and the case was dragging along in the usual manner, the telegraph lines being kept hot all the while, and late Tuesday evening the case was suddenly withdrawn, an agreement having finally been reached.

By this agreement, as above stated, the Santa Fe will take over the Frisco's right of way, together with the grading that has been done, and at a point about eight miles west of town the Frisco will begin construction of the Menardville branch, while the Santa Fe will proceed on towards Eden, both lines using the same roadbed out of Brady.

It is further stated that the Santa Fe will begin active construction work on their new line within ten or fifteen days, the work to start at Lometa.

BRADY, TEXAS, JANUARY 27, 1910

INTENSIVE FARMING.

The fact that intensive farming is the most profitable farming is proven by the fact that it is the only method by which the man who farms land valued at \$50 to \$300 an acre can make money, especially if the land belongs to another. This is done in innumerable instances, as, for instance near the larger cities and in the denser populated sections of this and other countries. If intensive methods of farming can be made to pay on land of the value suggested, they can of course be made to pay on land of proportionately lower price.

A campaign has been inaugurated by The Galveston-Dallas News for the purpose of impressing upon the people of Texas and the Southwest generally the importance as well as the satisfaction and profit that are the results of intensive farming. For many years the News preached in season and out for diversification of crops. The press of the State generally took up the slogan, with the result that the farmers of the State are much better off than they otherwise would have been.

Intensive farming necessarily includes diversification, as The News has stated, for the reason that to intensify it is necessary to grow as many crops on the same land in a season as possible. This of course necessitates the planting of different crops; so that diversification is a part of the intensive system of farming, and intensive farming means simply the best farming. Or, as The News defines it, "Getting the largest yields and greatest profits from a given area of ground at the smallest cost."

\$300 IN CASH PRIZES.

In order to assist in getting the best of information on the subject of intensive farming, The News is offering to the farmers of Texas those actually engaged in farming, cash amount of \$300 for articles on the subject of intensive farming. The first prize is \$100, second \$50. There are five prizes of \$10 each and twenty prizes of \$5 each. It is hoped that many splendid articles, full of valuable information will be received not only in the competition, but aside from that.

Since the beginning of this movement in October The News has received many indorsements of the idea from a great number of the best farmers in the State, as well as from Government agents of the Department of Agriculture, National and State, and the press of the State is supporting the idea. These articles have been published, and have proven interesting not only to the farmer but to men in every walk of life, for they see in the intensive farming methods greater prosperity for the farmer, and they know that whatever causes the farmer to prosper causes everyone else to do so.

DOUBLE PRESENT PRODUCTION.

It is said by those who are in a position to know that the present yield of crops in the State of Texas, and in most of the other States, for that matter, can be easily doubled by intensive methods. There is no reason to question this statement. At the same time, it is also possible to make

the quality of the product twice as good.

This is an important matter, and if the people will take hold of it in the right spirit and with a determination to double their yields and income, it will be the greatest step ever taken by a State toward greater material welfare, progress and prosperity.

Our idea of a nifty man is one who begins planning for a summer trip before he gets his Christmas bills paid.

Sometimes a woman is so needy for something to boast of she will brag on the price of her daughter's hair.

Taking The Census.

Census Supervisor Nat M. Washer, whose office is at Washer Bldg. San Antonio, has received from the Census Bureau a supply of blank applications for persons applying for positions as census enumerators. These will be forwarded to his list of applicants as soon as possible.

The applications, properly filled out, must be returned to the Supervisor not later than January 31, the Census Director having extended the time for filing from January 25, which was the date first set for closing the consideration of applications. The "test" will occur February 5, as previously announced.

Indorsements of each applicant must be secured from two representative citizens of the community in which the applicant resides. They must be at least 21 years of age and acquainted with the applicant not less than one year. Indorsements will not be accepted from any person who is in any way related to an applicant. The indorsement certifies that the applicant "is a thoroughly trustworthy and honest person, of good habits, and in my opinion, is fully capable of discharging the duties of a census enumerator, if appointed."

Card of Thanks.

We wish to render our heart felt thanks to our many friends who helped us in various ways during the last and fatal illness of our son Marcus.

In justice to the several physicians who attended him so faithfully we wish to say that they did all in their power for him, but in spite of all that medical skill loving hearts and willing hands could do, death claimed him.

Very respectfully,
MR. and MRS. GATTIS.

If your stomach, heart or kidneys are weak, try at least a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the stomach, nor stimulate the heart or kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity falter. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by Central Drug Store.

High Priced Hogs.

L. D. Ward of Minco, Okla., had a shipment of hogs on today's market out of which he sold one head of the Thin Rind breed, weighing 550 pounds, at \$8.27 1-2, the hog netting \$45.76. This falls slightly below the highest sum ever brought on this market by a single hog, J. W. Walker of Tarrant county selling one last December at \$46.40. Mr Ward also sold 64 hogs at \$8.27 1-2—Fort Worth Live Stock Reporter.

Deep Plowing Results.

Mr. Egerton, of Dallam county, broke ten acres of land—half of it ten inches deep and half five inches—and planted potatoes on both five acre-plots of ground and cultivated them alike. On the deep breaking with frequent shallow cultivations he made over eighty bushels per acre and made nothing on the other five acres. The farming was just as "dry" in one case as the other but the results derived from scientific methods were very different.—Dalhart Texan.

We want some testimony of McCulloch county farmers to publish now, then we hope some will make a test for the coming year, so they can know for themselves.

Notice to Taxpayers.

After January 31st there is a ten per cent penalty on all unpaid city taxes. I will maintain my office at the store of A. B. Reagan & Co., until January 15, after that date can be found at Rainbolt & Plummer's. Poll taxes MUST be paid before February 1st. Better pay now and avoid the rush.

COMING TO BRADY AGAIN

Dr. J. Harvey Moore

The Eye, Ear, Nose and Throat Specialist, of San Antonio, will be at his Office Over New State Bank Wednesday to Saturday, February 2nd to 5th.

SOME REMARKABLE CURES.

A Brady Ranchman.

Mr. John V. Ewing, who has lived here twenty years, says: "I was nearly blind with granulated sore eyes. I had been treated by several physicians and specialists, but got no relief. I wrote to Dr. J. Harvey Moore while he was in St. Louis. He sent me medicine that cured my eyes and they have not troubled me for five years."

Another Bad Case.

Rev. D. F. Draper, of Sabinal, Texas, formerly of Taylor, who is well known here, wrote the following letter to a Brady citizen: "If I had not met Dr. Moore twelve years ago I would now be blind. I know of many wonderful cures he has performed. I will go Dr. Moore's bond for anything he promises."

Straightened His Eyes.

Howard Gould of Brady, has been

cross-eyed all his life. Dr. Moore straightened his eyes without pain and without any chloroform and he says it did not hurt him at all. He has been around town all the time.

Blind With Cataract.

Mr. F. M. Miller, who was County Treasurer and Sheriff for many years and a pioneer of this county, was blind with cataract and Dr. Moore removed it by an operation and he is able to see again.

Dr. Moore cures all kinds of weak or watery eyes, overflow of tears, granulated sore eyes, cataracts, cross eyes, ingrown lashes, growth on the eyes, etc.

He treats catarrh and deafness, enlarged tonsils and all nose and throat affections. He makes a free examination and if you are incurable he will tell you so and will not take your money.

SINGLE REAR SEAT
DOUBLE REAR SEAT

One Thousand Dollars

Fully Equipped

We have said in the display headlines of this announcement that this is the most significant announcement that has ever been made in the automobile world.

We want the reader particularly to be impressed with this statement.

It is not a mere high-sounding or extravagant phrase; it's the literal truth, and you'll be amply convinced if you compare the specifications with the best car you know of at \$1,500, \$1,800 or even \$2,000. You cannot find anything like or near the Overland at anything like the price; and you cannot get a better car of 25 H. P. at any price.

This car, wherever shown, is conceded the most astounding automobile value of the era.

First Real Car For \$1,000

Including Full Equipment, Lamps, Generator, Horn, Magneto.

The illustration above shows the \$1,000 car with Toy Tonneau. In other words the Overland Model 38, 25 horsepower at \$1,000 is the same as illustrated above, less tonneau. Price of Toy Tonneau is \$100 extra.

We can now make prompt deliveries; select your car so you can have it for the early spring time, as Overlands will be hard to get by that time.

Model 41

40 Horsepower. Planetary transmission, 2 speeds forward, 1 reverse. Close coupled body or 5-passenger touring, 4 or 5 passengers. Price \$1,400.

Model 42

40 Horsepower. Sliding gear transmission, 3 speeds forward, 1 reverse. Close coupled body or 5-passenger touring, 4 or 5 passengers. Price \$1,500.

When We Say

That the Overland Model 38, 25 H.P. car at \$1,000 is the first "real" Automobile ever offered at that price, we mean precisely that and no less.

We mean by "real automobile" a car that embodies in its make-up everything that is acknowledged the world over by the makers of the highest priced cars, the very latest and most approved practice in design, material, workmanship, style and finish. It is a low price car, but distinctly, it is not a cheap car—it could not be a better made car if the price were twice what we asked.

We are absolutely certain that it is the first car built to sell for less than \$1,500 that contains all the latest and best features of the world's best in construction.

It has produced a veritable sensation wherever shown, and from the way in which dealers everywhere have gobbled up the product, it is perfectly evident there won't be enough to go around.

There are hundreds of ways we might have skimped and saved. There are many ways in which we might have reduced the cost of production—but the men back of the Overland began with their standard set high on a pinnacle of "quality"—determined to make the car good all through first and the price afterward.

How well this policy has succeeded can be testified to in no uncertain way by the thousands who are now driving Overland cars, and you see them wherever you go.

With this year's cars the same policy obtains, as it will always obtain here—make the car first; make it as good as a car can be made all through; make the price afterward.

It does not seem possible in comparison with the prices which others are obliged to get for cars of like size and power, and it is not possible for any other factory with less manufacturing experience, less manufacturing facilities or less marketing facilities than those possessed by the Overland Company.

Quality—that is the answer. We are going to build 20,000 of these cars, one exactly like the other, except possibly as to style of body. Every

one of these cars will be running over the streets and roads of our own and other countries between now and the time the leaves begin to fall next year.

And mind you, we would have asked \$1,500, instead of \$1,000, if the production was 500 cars less than 20,000. Our cost accountants, our material buyers, our engineers and our factory producers are figuring the production at its maximum and at its minimum.

The motor-buying public gets the benefit—the first real automobile for \$1,000.

It is not possible to go into details of construction within the narrow confines of this advertisement—how every part is snuggled, how every part is inspected and then inspected and tested again; how every cylinder and every bearing and every moving part is ground and polished so that the fit is accurate to the thousandth part of an inch, but we can say a few words about the

MOTOR—The 25 H. P. Motor in the Model 38 Overland is of the L-head type, with both exhaust and intake valves on one side, positively actuated by cams of generous size. Both intake and exhaust valves are of large diameter in conformity to the latest practice of the world's best makers.

One of the largest foreign factories—a concern which makes automobiles selling all the way from \$8,000 to \$20,000—has just completed a test of motors to determine which is to be preferred from a standpoint of power, fuel consumption and reliability.

Three cars of large size were run under identical conditions, with the three contrasting types of motor, L-head, T-head and Valve-in-the-Head.

The L-head motor (the same as the Overland) came off with first honors by a big majority; the T-head came second; and the Valve-in-the-Head type third.

Every motor is fitted with Remy magneto, which, during the past season, has been pronounced by the drivers who have carried off the most honors in all the big events, absolutely ignition perfection.

The carburetor is unquestionably the most economical in the world, moreover, it is the easiest of adjustment. There is one little button to turn one way or the other to get the desired mixture. A mere tyro can adjust the carburetor on the Overland.

The cylinders are cast singly, 3 1/4 inch bore and 4 1/2 inch stroke. Note the long stroke—the latest practice the world over.

CLUTCH—Just as an example of the thoroughness with which we have built this car, the item of the clutch alone will serve this purpose as well as any. We could easily have adopted the conventional cone clutch, which, of course, is the very cheapest construction, but instead, note that the Overland is fitted with a multiple disc clutch, enabling an easy start without throwing stress or strain on the reciprocating parts; an easy clutch to manipulate; a clutch that needs little or no attention; the type of clutch that is acknowledged by the best makers the world over as the most standard and the most expensive.

TRANSMISSION—The transmission of the Overland is of the planetary type, unquestionably the most simple and most easily operated.

Note the absence of gear shifting levers. It is safe to say that the majority of troubles experienced by owners of new cars, and even old, experienced drivers, is due to faults in gear shifting. This is all obviated in the Overland. Simply press your foot on the pedal and the trick is turned. A child, a woman—any one can do it. No danger of stripping gears; no severe shocks to transmission or engine; everything smooth, silent and sure.

In the building of the Overland the element of safety has been taken into very serious consideration. Study the construction of the running gear thoroughly. You will note the rigid pressed steel frame, reinforced by heavy cross sections; long resilient springs, thoroughly and safely anchored; bearings of generous proportions; and wheels made of the very best second growth hickory.

The steering wheel, steering column, steering knuckles, and all other parts contributing to the guiding of the car, are of generous size, made from the best drop forgings; giving to the driver that confidence which he can scarcely have with many of the make-shift constructions on cars made to sell at a price.

Let us send you all the data on this superb car. Let us send you a complete catalogue, showing all models.

Obituary.

After several weeks of intense suffering our dear beloved Marcus passed peacefully away on the morning of Jan. 16th, 1910.

Marcus Leonard Gattis was the eldest son of William S. and Quilla Gattis. Was born in Franklin County, Tennessee, on the 19th of Sept. 1870. He came with his parents to Round Rock, Williamson County, Texas, in 1888 where he lived until 1903 when he moved again with his parents, brothers and sisters to McCulloch County, where he was married to Miss May Robertson, Dec. 24th, 1905, to which union was born two lovely children, Inez and Harvey. Marcus was ever a kind and dutiful son, a loving, devoted husband and father, and a perfect model of generosity and kindness which won the love and admiration of all who knew him. Too much could not be said of his kindness and loving disposition, for he was kindness itself.

Marcus professed faith in Christ and joined the Christian Church at the early age of 13 and lived an exemplary christian life until his death. His life was one of patience, perseverance and fortitude, fighting the battle of life with a strong will and brave heart, giving words of cheer and comfort to those in need.

We knew he was brave in life, and found him much more so in death. In speaking of death he said he was not afraid to die. On being asked if he was ready to die, he said, "No, Mother, I can't say I am ready. I don't suppose any young person is ready to go. I am very sorry to part with you and would love to live a long time yet. But if I must go it is all right with me and I want you all to give me up as quietly as possible." Oh! Marcus, our darling Marcus, it would be impossible to give you up quietly! May the Lord heal our bleeding hearts and help us to meet you, our precious Marcus. God pity, guide and direct us all and be a husband to the lonely and heart broken young widow and a father and protector to those helpless children.

More About the Overland.

Mr. A. M. Martin.

Brady, Texas.

Dear Sir:

In regard to your inquiry as to whether the Overland will pull in mud or not, I will answer by saying that it did.

There were five of us coming in a Mason car from Coleman to Brady, when we met with an accident and broke a hind wheel. We phoned to Brady and they sent an Overland to bring a new wheel to us.

We were about twenty-eight miles from Brady and while the roads were a little stiff, we did not know how bad they were from the river to Brady. If we had we would have never asked any one to try them.

The Overland, with Mr. Carey and Mr. Welch came on in spite of the night and mud. I was in the Mason when we started back and we had the hardest time I have ever had with a car. It looked as if we would not get in at all. We would run a while and then rest to cool the water and then try it again.

We managed to get to Lohn, about fourteen miles from Brady, and decided we could go no further until morning. The Overland driver was willing to go on as his car was not suffering and he had made it through once, but we finally decided to stay until morning. When we left for Brady the Overland led the way. The Mason had to stop five times to put in more water and once to let the engine cool off, and that little Overland went on through without a hitch, stopping for nothing.

We could not have made it at all if we had not gone through the pastures and around the extra big hog wallows. How the Overland ever got through the night before is a mystery to me, as they had to take it hog wallows and all.

Mr. Welch, who was in the Overland all the time and who was connected with the agency of other cars and not for the Overland, says that the Overland had done that night what he had not believed any car could do.

We have always looked upon the Mason as the best mud puller of all medium priced cars and I am still an admirer of the Mason and she did all you could expect of a car, but I will say that when it comes to the Overland she can out-pull the Mason.

Yours very truly,
THOS. P. GRANT.

J. R. Harkey, of Katemey, was in the city Tuesday and called on The Standard. Mr. Harkey said he would like to correct a wrong impression that has possibly existed in the minds of some regard the report of his son, Otis Harkey, being recently arrested and brought to town, charged with forgery. The true statement of the occurrence, says Mr. Harkey, is that when he learned that his son was charged with the crime, he did not wait for officers, but brought the boy in himself and arranged for bond. Mr. Harkey further states that his son is not guilty as charged, and that when the case comes to trial he will have no difficulty in proving his innocence.

Modest Room Decorations.

Do not make the mistake of trying to make your apartment look like a museum or a collection of bric-a-brac by unwise and indiscriminate buying of plaster casts, vases, and small pieces of so called art studies. A few good pieces well displayed, well chosen and well made are far better than a mass of trash.

There is a decided air of restfulness in the plain, well chosen, modestly arranged room.

In the selection of furniture, buy good pieces that will stand the wear of years, it is far better to have one good chair than a half dozen cheaper ones of indifferent designs.—Ex.

THAT MASON SURVEY

Locating Survey, Brady to Mason, Completed and Depot Grounds Have Been Selected.

Mason people are rejoicing over the fact the Frisco has again taken up the work between Brady and Mason, and the Mason Herald says:

"The crew of surveyors ordered back on the survey between Brady and Mason this week picked up the line a few miles north of town, where they quit off when ordered to the Menardville branch, and finished the final locating survey into Mason Wednesday. The location of the depot will be on the North side of the creek in Gootch Addition near the present site of the Sanders & Zeech gin. Mr. Welch said one of the most practical routes from Brady to San Antonio would be through Mason county, that it was almost a direct route, there being only two small curves between Brady and Mason, and that the road could be operated and maintained at a very small cost. Mr. Welch left Wednesday for Brady and will go on to St. Louis where he will submit a map of the route to the officials and an estimate will be made as to the cost of constructing the road. Mr. Welch expects to return here in about three weeks time. He said construction would probably begin on this line some time this year. He also said contracts were already let for the construction of the road all the way from Brady to Menardville and that he believed trains would be running into Menardville by the first of July."

To have that watch repaired as it should be done, take it to J. V. Searcy, Jeweler, Brady Texas.

Brady Extension Progresses.

C. M. Case, resident engineer of the Frisco in charge of construction on the Brady extension, was a visitor at the Frisco's general offices in Fort Worth Thursday.

"One hundred and twenty-five teams are at work on the extension," said Mr. Case. "Grading is well under way and as soon as some exceptionally heavy work near Brady is completed, steel laying will start in full blast."

Mr. Case has jurisdiction over the first seventeen miles of road. He was formerly chief engineer of the Rock Island's southern district.—Fort Worth Record.

Little Child Dies.

William Lowrance, the small son of Mr. and Mrs. W. D. Cowan, died at the family home in the southern portion of the city at 12 o'clock Friday night, aged 5 months and 21 days. The little fellow was sick for about four weeks, caused by teething, and this, with complications, was the cause of death. The remains were taken to San Saba, the former home of the family, where funeral services and interment took place at 3 o'clock Sunday afternoon. The Standard, with the many friends of the family, extends sympathy to the bereaved ones in their loss.
