STANDING A RUN

No bank in the world can pay all its depositors at once, any more than a blacksmith can shoe all of his customers' horses at one time.

A bank's customers not require their money at the same time, not even the same week or month; neither do the blacksmith's customers want their horses shod on the same day.

The bank loans out a part of its deposits as well as the capital stock. The demands of business in banking history prove that 15 per cent of deposits is a safe amount to keep on hand and in banks, and is the amount required of us by the United States Government.

If banks could not loan out a part of their deposits there would be no banks. The men who own the bank stock would loan the money themselves and save the expense of officers' salaries, rent, taxes, books, etc. Then there would be no convenient place for the people to deposit their money.

This bank keeps on hand at all times, cash to the amount of 15 or 20 per cent of its deposits; in addition, 30 to 50 per cent of our deposits are available on short notice in the form of cash in other banks. We keep three or four times the amount of cash required of us by law.

Consider the safeness of doing business with a bank that is managed strictly on the lines of safe banking.

OUR CROP PROSPECTS

Reports Coming in From All Over McCulloch County Are Most Gratifying, Especially as to Cotton.

The Standard is in receipt by mail of a grown boll of cotton of the 5-lock variety, from our good friend, C. Blomstrom, a prosperous farmer of the Melvin community, with the accompanying information that there are thousands of acres like that around Melvin. Reports from Waldrip, Fife, Lohn, Voca and other points, bring equally as good reports of crop conditions.

Ed W. Graves, who spent the first of the week in the Voca country, says he never saw as good prospects for cotton before, and that the bolls are forming rapidly, lots of them being grown. Corn and feed stuffs are also in splendid shape down there, and Mr. Graves says many corn fields will average 25 to 35 bushels to the acre. Similar reports from the Waldrip community are brought to this office, and with the exception of a few dry spots (small spots, too) we learn that the farmers of the county as a whole, will make plenty of feed stuffs, corn, etc., to run them through another year, while their cotton is already as good as a quarter-bale to the acre.

All in all, the prospects for crops this year are very flattering, and if Brady doesn't eclipse her record of 50,000 bales receipts two years ago, it will be due to some pest or calamity to the crop yet to happen.

High Dive Is Fatal.

Lampasas, Tex., July 5.—Saturday afternoon while Albert Fowler and several others were bathing in the Lampasas river, Fowler made a dive from a high point, resulting in injuries which caused his death a few hours later. When he came to the surface he announced that he was fatally injured. Fowler was completely paralyzed from his hips down, but was conscious and explained that his foot slipped as he made his dive.

Household Goods for Sale.

All my household goods for sale. See me at once. Will be sold cheap.

MRS. M. P. MERWIN.

Probably no Brady merchant takes greater pride in having attractive show windows than does Frank Watters of C. B. Watters & Co. This week the display is entirely patriotic, flags, bunting and huge cannon crackers forming the background for an artistic showing of the season's latest novelties in the dry goods line.

The people of Fife are making preparations for the biggest picnic of the season on July 15th, and the candidates are anticipating a grand opportunity of addressing the voters. The people of that end of this good county never do things by halves, and those who attend their picnic will be well repaid for the trip.

Lige Blackburn shipped two cars of fat cattle to the Fort Worth market Wednesday. Matt Capps also shipped two cars Thursday.

Misses Lois and Willie Duke left Thursday night for a visit at Dallas and Ft. Worth. They will be gone about two weeks.

B. F. Bennett and R. A. Rutherford, Jr., spent a few days in Dallas the first of the week on business.

J. T. Wade was here from Winchelle Saturday and reports that Martin Gerrell has let a contract for the sinking of a well to test the field for oil. The well will be 1000 feet deep if necessary, and will be located in the east part of town. Work will begin as soon as the machinery can be placed on the ground.

G. R. White is in Oklahoma this week on cattle business.

Mr. Kirkland, of the Voca community, was in town Wednesday with a wagon load of home grown cantaloupes which he found no difficulty in disposing of to Brady citizens. They were of fine flavor, and illustrate fully the capabilities of the Voca country soil as adapted to truck farming.

Elton Noble went to Brownwood Wednesday on business.

SOME LIVE WIRE FLASHES

BY J. WALKER GREEN

I am a rain-maker! J. Pluvius was with me at Rochelle and Mercury, followed me to the Voca and Katemey country and then came near—very near—drowning me at Lohn last Thursday evening. His faithful persistence in following me around is becoming a little too demonstrative for comfort, and I am hoping for a short dry spell that I may make some headway in the work before me.

Everybody is in high spirits in the Lohn country, and looking forward to a bumper cotton crop and plenty of seed stuff. There is, however, scarcely any fruit in the north end of the county this year, and the ladies are grievously worried over the out-look for winter preserves. In this connection I want to say that numbers of them have asked me if I knew where they could get any fruit to put up, some of them mentioning having read my letters about the Billy Weldon, and the Albert Behrens orchards. But I could give them no definite information as to what fruits these gentlemen now had for sale, because I met one of them (Billy Weldon) in the road some time ago with a two horse load of plums and peaches, on the way to market. Our correspondent at Katemey mentioned the need of a good market at Brady for fruits and vegetables. It was a timely suggestion that some good business man or men should utilize, but in so far as fruits and berries are concerned, an advertisement in The Standard—naming the variety of fruit on hand and prices—would beat it to a frazzle. Country people, as a rule, have little conception of the potentialities of printers' ink. To the people around Holt and West San Saba county, Holt's Valley, Voca and Katemey where fruits and berries are fine and abundant this year an advertisement in this paper will save the hauling to Brady or anywhere else. The people will gladly come to the orchards with their wagons and teams and do their own hauling. One instance will prove that I am not talking through my hat. Mrs. W. E. Lohn of Lohn upon making the inquiry indicated said she would phone to Billy Weldon at once and find out if he had any more fruit for sale. This lady was right on edge to start the "old man" to the Holt country the next day.

The Standard covers the country! Not only McCulloch county, mind you, but reaches far over into San Saba, Mason, Menard and Comcho counties as well; and there is no better medium possible—and I use the word "possible" quite deliberately—to reach the people of the whole Brady territory. Never was there a paper that covered a country more completely, and never was there one that held the confidence and esteem of its constituency with greater unanimity. It is something of which any publisher might be proud and while the writer is only the little end of a big thing, he takes his share of the pride to bed with him every night.

Speaking of Billy Weldon brings his genial face before me as I write; then there is John Little, close by, and one of the finest young men in all the Brady country. Such men have no idea of the blessing they are to the world. Sometimes I meet a big grouch, and the meanness of him, the vinegar of him, the green persimmons of him, just soaks into me whether or no, and then—especially if I'm driving old Sam Hell—I begin to think life isn't worth living, s'all a hollow mockery and a sham, a rolling up the rock of Sisyphus, only to see it roll down again; then I begin to feel for my "mortal cord" that I may shake it

loose and fling it to the deamition bow-wows. Then I see some of these good fellows and the smile comes back to my heart, hope and joy spring anew and it's a bully old world; couldn't be better. This very thing happened to me not more than ten days ago in the Rochelle country. I had just met a big, bleary-eyed gob of misery in breeches, with a God-didn't make-the-world-right, don't-want-to-be-an-angel, whine in his voice, and being of a sympathetic, absorbent temperament I carried away a bigger chunk of his blame fool misery than I could tote, and had just about decided to hang myself on the live-oak up on the hill. But on the way to the fatal spot I spied good old Jack Crews away over in the field much too far for the voice to carry, too far even for the greeting of a hand-move, but I knew he was there four corners square, with his laughing eyes, and cherry voice, and just the thought of him, the mind's eye picture of him, made me feel good to the bone. Ah! no! such men don't know the good they do! And thank God there are lots of them in the Brady country. There is Earnest Poole, W. J. Sansom and J. V. Ware of Mercury; Y. T. Crouch and Standifer Lee of Placid; G. W. Jones and Joe Cottle of Rochelle; Jim Finlay and R. H. Coonrod of Fife; Carl Schmidt, S. M. Young and G. B. Smith of Lohn; Bob Harrell and John Russell of Broadmoor. Then there's C. E. Turner and Dr. Hicks Martin of Katemey; Dave Henderson and J. D. Parker at Voca, and hundreds of others that would require all the space in the paper to name. But no man need tell me that life is not worth living, so long as men like these adorn and brighten the world.

Maey & Co. handle all kinds of grain and feed, and will be glad to have your orders in any quantity.

Notwithstanding the scarcity of ready money J. F. Schaeg still extends credit to the good people of McCulloch and surrounding counties.

Reagor-McShan.

Word was received in Brady the first of the week of the marriage at Brownwood Sunday of Mr. Arthur Reagor and Miss Lizzie McShan. The news came somewhat in the nature of a surprise, and The Standard hastens to join the many friends of the contracting parties in extending congratulations and best wishes.

The bride is one of Brady's most talented daughters and was formerly a teacher in the Brady Public Schools, having recently gone to San Angelo. The groom was for several years manager of one of the largest mercantile firms in the city, and has just taken charge of another similar line of business at Rosebud, Texas, where they will make their home.

Cyclone Davis Spoke.

Cyclone Davis spoke at the courthouse in Brady yesterday afternoon in behalf of the candidacy of Hon. Cone Johnson for governor. Mr. Davis was accorded a warm reception by the Johnson men of the city, was met with the Sweden Brass Band, and was listened to for nearly three hours by a large audience, completely filling the district court room. He was introduced by Hon. Thos. Bell in the latter's usual happy style. After the speaking Mr. Davis was taken to Rochelle by auto where another address was delivered prior to train time.

The newest things in ties—they are proving popular. See the swell line we are showing. Demp, the tailor.

Satisfactory.

The Houston Post carries at the top of its editorial page the following:

The Post has satisfied itself that the charge that Judge Poindexter allowed a saloon to be conducted on premises owned by himself is incorrect. In a word, the Post accepts Judge Poindexter's statement in the matter, and hereby exonerates him from the charge made by a correspondent in these columns.

A line of suit cases that is sure to meet your approval. An opportunity to show you is all we ask. Demp, the tailor.

Lee Vaughan, late of Midland, has moved to Brady and is occupying the Wiley Walker residence.

Fats and Leans.

And now comes the funniest ball game of them all. The bankers and the merchants and the railroad boys have had their turn, but it remains for the fats and leans to give the fans of Brady their biggest money's worth. The big doings will come off at the ball park this afternoon at 4:30, and everybody who misses the game will regret it the balance of their lives.

The game will cost you a quarter and the money goes to the regular ball team which needs your patronage.

Arthur Reagor to Rosebud.

Brady lost one of her best citi-
zens last week when Arthur Reagor
left for Rosebud, Texas, where
he will assume full man-
agement of the McKeehan Hard-
ware Co., one of the foremost
concerns of its kind in that sec-
tion of the state and a branch of
the Brady & Black Hardware Co.
of Temple—a concern with a com-
mercial rating strictly A1.

Mr. Reagor was for six years
connected with the firm of O. D.
Mann & Sons of this city, and
during that time he demon-
strated to the entire satisfaction of
not only his employers but also
every business man with whom
he came in contact, that he is a
thorough business man and a
complete master of the particu-
lar line of business which he has
chosen to follow. As office man-
ager for the Messrs. Mann he
came daily in contact with the
people of the entire Brady coun-
try, and we feel safe in saying
that no business man has ever
made more strong friends than
Mr. Reagor. He leaves Brady in
order to get a change of climate,
as his health has not been hold-
ing up the past year or so.

Mr. Reagor had a number of
flattering offers made him as
soon as his intention of leaving
Brady became known. One of
these was as traveling salesman
for a large St. Louis wholesale
house and was of a very flatter-
ing nature, but he decided that
he preferred to remain in Texas.
The Standard feels that it voices
the sentiment of all Brady peo-
ple when we extend to Mr. Reagor
best wishes for happiness and
success in his new home.

**Laxative for
Women Free**

There is a great difference in the
purposes to which a laxative should
be put. Tablets and pills, salts, etc.,
are usually violent purgatives or
cathartics, and altogether too power-
ful for the average person.

A woman at all times needs only
a mild laxative—in fact, none other
is needed by anyone, weak or strong
though they may be, for the object is
simply to move the bowels, and if a
gentle laxative will do it, what is
the use of a violent one?

Dr. Caldwell's Syrup Pepsin has earned
a well-deserved vogue among women
and old folks—people who must
necessarily be careful of what they
take.

It is a liquid laxative tonic and ad-
mittedly the greatest stomach, liver
and bowel remedy before the American
people. The price is only 50 cents or \$1 a bottle,
as it comes in both sizes, and all drug-
gists sell it. Its pleasant taste and gentle
action make it an ideal remedy for women
in constipation, torpid liver, sour stom-
ach, sick headache, heartburn and such
like digestive complaints. Its use for a
short time will remove the trouble en-
tirely so that future medication will be
unnecessary. Its tonic properties build up
the stomach and intestinal muscles so
that they act naturally again. That this
is so is the experience of many heads of
families, like Mrs. Brannan, of Alvarado,
Va., Mrs. K. L. Stout, of Louisville, Ky.,
and numerous others; in fact, way out in
Williams, Cal., as Mrs. J. E. Blackmore,
of that place, writes, the whole town
seems to be using it.

If the remedy is new to you and you
want to make a trial of it before buying,
send your name to the doctor's address
as below and a free test bottle will be
sent you. Then, if results are satisfactory
you can buy it of your druggist.

If there is anything about
your ailment that you don't
understand, or if you want
any medical advice, write
to the doctor, and he will
answer you fully. There is
no charge for this service.
The address is Dr. W. B.
Caldwell, 500 Caldwell bldg.,
Monticello, Ill.

A 'CURIOUS WATCH.

Made by a Clever Workman on a Chal-
lenge From Royalty.

Some years ago the czar, hearing of
the marvelous inventive genius of a
Polish mechanic, determined to put
him to the test and accordingly caused
to be forwarded to him a few copper
nails, some wood clippings, a piece of
broken glass, an old cracked china cup,
some wire and a few cribbage board
pegs. The box was accompanied by
the request that the Pole should trans-
form these unpromising articles into a
timepiece.

It was a challenge and one that few
watchmakers would have cared to take
up. But it would have taken a harder
task than this to daunt the Pole. He
set to work on the unpromising ma-
terials and out of them fashioned a
watch that was quickly dispatched to
the czar. Just eight hours after he
began his work of transformation the
watch started on its journey to St. Pe-
tersburg, where it arrived safely, to
the great delight of the czar.

It was a most unique timepiece, its
case being made of china and its
works composed of the material that
had accompanied the old cup. Yet it
kept good time and had to be wound
up only once in three or four days. So
pleased was the czar that he sent for
the Pole and conferred upon him sev-
eral distinctions, besides granting him
a pension.—New York Press.

A TRAGIC OLD CUSTOM.

Human Beings Once Walled Up In
Building Foundations.

The practice of putting money under
the foundation stone of a new building
is the shadow of an older tragic cus-
tom. The money stands theoretically
for the ransom of the human being
who by ancient superstition should
have been buried in its place. Other-
wise, it was held, the building would
not stand firm and endure.

There was a time when this particu-
lar kind of human sacrifice had a
vogue extending to most parts of the
world. Even in England skeletons
have been found imbedded in the bases
of castle walls, and there is record of
one German fortress at the building of
which a child was bought from its
mother with hard cash and walled
into the donjon tower, the unnatural
mother, according to the story, looking
on the while. Effigies of human be-
ings are still used in some parts of
Europe as harmless substitutes, and in
remoter and more ruthless places the
old custom crops out from time to time
in all its grim reality. Within the last
century two children, a boy and a girl,
were, it was reported, walled into a
blockhouse by some laborers at Duga,
Asiatic Turkey.—Westminster Gazette.

Millais' Faith in Himself.

The artist Millais, writes J. E. Reid,
was as open and frank as a boy in ex-
pressing his belief in himself. When
the Leyland collection was on view,
previous to its dispersal, Millais went
to see it and openly asserted that his
"Eve of St. Agnes" was the best pic-
ture there. This egotism was part of
his character, a thing it was impossible
to resent on account of the manner in
which it was expressed. Millais never
lost the self confidence of youth. In
this respect, as in many others, he re-
mained a boy to the end. Neither was
the egotistic note confined to art mat-
ters. His public speeches were invari-
ably about himself. His conversa-
tion on all subjects was impregnated
with the essence of a sincere convic-
tion of his own authority to speak.
He liked to be always right, and such
were his grasp of realities and his
power of reasoning that it required
very strong evidence and a very clever
argument to convince him that he was
wrong.—Youth's Companion

Flogging at Eton.

On more than one occasion Dr. Horn-
by, the famous headmaster at Eton, is
said to have flogged the wrong boy by
mistake. A boy thus victimized was
asked why he did not attempt to ex-
culpate himself or offer any explana-
tion. "If you had not been complained
of," said the tutor, "why did you not
say so to the headmaster?" "Well,
sir," he replied, "I thought that if Mr.
— had not complained of me some
other master might have done so."
The young scapegrace was so season-
ed a campaigner that he was prepared
to take a flogging without asking cap-
tious questions, as all in the day's
work.—From "Eton Under Hornby."

The Story of Four Uncles.

"I have four uncles," writes a cor-
respondent, "who are all widowers.
Uncle Sam and his wife used to fight.
Uncle Tom was always flirting, and
Uncle Joe, was ruined by his wife's ex-
travagance. Uncle Martin alone loved
his wife, and when she died he was
broken hearted. Still, he is the only
one who married again. He married a
girl who has all the qualities he used
to proudly boast his wife lacked. Men
are funny and grow funnier as you
know them better."—Athenian Globe.

Under Water.

Howell—They can take photographs
under water, can't they? Powell—I
guess so. I got a negative there once.
Howell—I don't understand you. Pow-
ell—A girl refused me while we were
in bathing.—New York Press.

The Limit.

Worthless Husband—Going to leave
me, are you, Moll? Didn't you take
me for better or worse? Long Suffer-
ing Wife—Yes, but you are absolutely
the worst. I didn't take you for that.

ward when most burdened.

THE NIGGER WON.

Well, the nigger won. Do you feel bad about it? Why so? The prize fighter is the most depraved specimen of humanity we have. The prize fighting white man, or man with a white skin and nigger principles, is the lowest class of the Caucasian in existence today, and only represents the brute force that still exists among us as a class. As a race of people we have taken more pride in our moral courage than in our physical courage which is only the follower of real moral courage. We have fought and won battles. We have overcome obstacles as a Nation. We have advanced socially, morally, politically and intellectually, and extended our boundaries and become a world power through the arts of peace. The nigger is a brute—not the equal of white men of intellectual force and development, and only the equal—indeed the superior (as the late disgraceful contest amply proved) of those who place themselves on his level of brutishness. It was two of a kind with this possible exception, that when two brute devils get together, the worst of them is sure to get the best of the other. Let the nigger be the world champion of brutes. The title belongs to the race. It is all they are—all they will ever be. So, without a pang, a regret or a backward look, let the white man now turn his back on these exhibitions of brutishness forever, and fix his eyes on the contests that confront us as a nation of civilized people.

THE STANDARD wishes to commend the Sentinel's "dog editorial" of last week. If ever there was a town cursed by too many worthless curs it is Brady. It is impossible, sometimes, to pass along the sidewalks in the business section without stepping over or around a number of dogs. Some of these dogs are good dogs; fine bird dogs. Such dogs should be kept at home. Others which are of no earthly use should be put out of the way. If a dog is worth feeding he is worth keeping at home. If he is not worth the trouble necessary to keep him at home, his place is in the dog pound.

JEFFRIES received about \$120,000 for allowing the negro Johnson to knock him out. Johnson's share of the money was about \$117,000. The promoters of the fight cleaned up about \$130,000. All of which indicates that there is still plenty of work for the fool killer in America.

WITH the best crop indications for several years, there is nothing to prevent Grand Old McCulloch from coming to the front strong this fall.

Cleve Jones Hurt.

While running cattle on the J. I. Jones ranch near Nine in this county Wednesday Cleve Jones was quite badly injured by his horse running under a tree with him and dragging him from the saddle. He suffered a broken collar bone and other injuries of a more or less serious nature.

A falling tiny nerve—no larger than the finest sliver of thread—takes from the heart its impulse, its regularity. The stomach also has its hidden or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or falling stomach, heart or kidneys. His prescription—Dr. Shoop's Restorative—is directed straight to the cause of these ailments—these weak and falling inside nerves. This, no doubt explains why the Restorative has of late grown so rapidly in popularity. Druggists say that even those who test the Restorative for a few days soon become fully convinced of its wonderful merit. Anyway don't drug the organ. Treating the cause is the only sensible and successful way. Sold by Jones Drug Co.

Catarrh Can Quickly Be Cured.

A bottle of Hyomei, a hard rubber pocket inhaler, that will last a lifetime, and simple instructions for curing catarrh make a Hyomei outfit.

Into the inhaler you pour a few drops of magic Hyomei (pronounce it High-o-me.)

This is absorbed by the antiseptic gauze within and now you are ready to breathe it over the germ infested membrane where it will speedily begin its work of killing catarrh germs. Hyomei is made of Australian eucalyptol combined with other antiseptics and is very pleasant to breathe.

It is guaranteed to cure catarrh, bronchitis, sore throat, croup, coughs and colds, or money back. It cleans out a stuffed up head in a few minutes.

Sold by druggists everywhere and by Central Drug Store. Complete outfit \$1.00. And remember that extra bottles if afterwards needed cost only 50 cents. Breathe it, that's all.

To break up cold in head or chest in a few minutes, pour a teaspoonful of Hyomei into a bowl of boiling water, cover head and bowl with towel and breathe the vapor.

We make your well casing while you wait. Our stock of iron is complete and all you have to do is phone your order. O. D. Mann & Sons.

A Fake Pure and Simple.

The Bulletin heartily endorses the following from the Bonham News, relative to the purported letter from Christ, which is making life to the newspaper man unbearable. The Bulletin has had its share of requests to publish this piece of absurdity, and has declined to assist in perpetrating so rank a fraud. All of the requests for publication coming to the Bulletin have been from women, who either have a bit more superstition in their makeup than the men, or else have more time to think about such things. The News says:

"For several months past the News editor has received at various times by mail and by personal delivery about a wash tub full of copies of a letter that some fakir has tried to palm off on an unsuspecting public as a production of Christ. We have been importuned to publish this thing, by a score of good women who verily believed that if they did not publish it they would bring down upon their heads the curses that the writer says shall come upon them if they fail to spread the letter abroad.

The News does not publish the letter because it is so palpably a fraud, so plainly blasphemous, and that it is calculated to do much harm and no good. It does not even have the virtue of being an interesting forgery. It is remarkable that anyone who is at all acquainted with the Scriptures or with the purpose or spirit of Jesus Christ should be deceived by it.

It is claimed by the writer that the letter was written by Jesus Christ after his crucifixion, signed by the Angel Gabriel and hidden under a stone at the foot of the cross, where it lay undisturbed for centuries. Just how the discoverer of the letter found out all this is not revealed, as the letter does not reveal it.

Nothing more clearly stamps it as the work of a fakir than the promise that any one having a copy in his possession shall prosper if he publishes it, and that he shall not be hurt by pestilence, nor by thunder nor lightning, but that if he fails to publish it all the plagues and calamities the writer could think of are to visit the unlucky holder.

All those who have sent the letter for publication can quiet their fears by the thought that they have done what they could and are no longer responsible. All the responsibility rests with the editor of the News, and he shall not lie awake at nights worrying over it."—Brownwood Bulletin.

The Standard has also received numerous copies of this letter, all of which were promptly consigned to the waste basket.

means that man and wife have lived to a good old age and consequently have kept healthy. The best way to keep healthy is to see that your liver does its duty 365 days out of 365. HOW TO GET GOOD ROADS.

May Be Built In Systems Miles at a Time.

PUBLIC SHOULD BE TAXED.

Would Remove a Heavy Burden on Farm Property—1,000,000 Miles of Highways Out of 2,300,000 Are Used For Rural Free Delivery and Are Thus Post Roads.

It would save a deal of time, trouble and expense if one state or community would profit by the experience of others in the matter of road building rather than persist in going forward by fits and starts and generally making a mess of it before learning what to do and how to do it. It would shorten the process, and the same end would be the sooner reached. New York began with an appropriation of \$50,000, but in five years voted a bond issue of \$50,000,000 and is expending \$5,000,000 a year. Maryland is expending one-third as much. Pennsylvania is putting millions every year into good permanent roads. Illinois, Iowa, Missouri and other valley states should sit up and take notice.

The split log drag or its equivalent is a very valuable road tool. Its use should be encouraged. We should not, however, deceive ourselves that the road drag is a solution of the good roads problem. Nothing short of a hard wearing surface upon the main roads will meet the need of the age.

The money required to build good, permanent roads throughout the country would reach enormous figures, and if it were an item of expense that must be paid now one might well regard the task as hopeless. However, the situation when understood is not at all discouraging from a financial viewpoint. The only drawback is the reluctance of the public to study the question closely.

If the following points are kept in mind it will aid to a clearer conception of the facts involved in the good roads question:

First.—Every good road built is an asset. It adds to the property value of the country more than its cost. It

GETTING THE ROAD IN CONDITION. (From Good Roads Magazine, New York.)

Increases the value of all forms of property, but farm property most of all. This receives the largest and most direct benefit from good roads. So good roads are an investment as surely as building barns, drainage or any other improvement that adds value.

Second.—The roads ought to be built in systems, many miles at a time. In this way better work can be secured and the cost per mile will be much less. If twenty to thirty miles are built at a time competition will be sharp. Contractors will plan to use the latest and most approved methods, and the result will be a better job at 10 to 25 per cent less money. There is apt to be better inspection and construction, consequently less cost to maintain, than if built in short strips.

Third.—The payment of the original cost of building the roads ought to be extended over twenty or thirty years. There is no valid reason why those now carrying the burden of taxation should bear the whole load. A stone, brick or even a good gravel road if well built will serve for a generation with a moderate up keep expense. Why should not those who come after us and enjoy the benefit help pay the bill? This makes the payment comparatively easy.

Fourth.—The roads belong to the public. Their condition affects the public welfare. They are used to carry the food supply of the world's market and to return a large part of the factory output to the farm. It is equitable that at least one-half the expense of building and caring for good roads should be chargeable to the public as a whole and the other one-half paid by the locality receiving the immediate and most direct benefit. This takes a heavy burden off farm property.

Fifth.—Out of approximately 2,300,000 miles of highways in the United States about 1,000,000 are used for rural delivery and are thus post roads. It is estimated that four-fifths of all the traffic the country over passes over one-fourth of the road mileage. It is these roads with the heavy traffic which should receive the first attention. If 400,000 miles of good stone or gravel roads were added to those already built it would give a complete network of good roads from ocean to ocean and from the lakes to the gulf and would serve from 75 to 80 per cent of all the traveling upon the public highways.

Mrs. John E. Cooke gave an impromptu 4th of July party to some of her matron friends Monday afternoon from 4:00 to 6:00. The affair was of snap shot conception and hurriedly prepared for and invitations were given to such only as could be hastily reached by phone, yet the dozen guests who responded report a most pleasant afternoon. Two contests were had, and the decorations and prizes were of a patriotic nature. Refreshments of apricot cream and nabiscos were served.

A jolly crowd went to the Hudson Branch to spend the fourth and a glorious fourth it was for the entire party. Fishing, swimming and games were indulged in till a late hour. Each lady of the party had prepared a large and most tempting basket for the occasion, consisting of all things good to eat. Dinner was spread and such a lovely one it

was. After enjoying the dinner to the utmost the party engaged in merry conversation and games until late in the afternoon, when some went for a swim, while others went fishing. Time passed so pleasantly that it was supper time long before the crowd expected. Supper was enjoyed and a pleasant evening spent, the party leaving at a late hour for their respective homes. The following were members of the party: Messrs. and Mesdames S. S. Graham, G. R. White, F. W. Henderson, G. V. Gansel and mother, Mrs. Alice Turner, Joe White and family, Lewis Brook and family, A. M. Martin and family, Mr. T. P. Grant and Miss Kate Shaw, of San Antonio.

Any Woman Can Have Beautiful Hair.

Many women do not realize the attractions they possess because they do not give proper attention to the hair.

The women of Paris are famed for their beauty, not because their facial features are superior to those of other women, but because they know how to keep young by supplying vigor, luster and strength to the hair.

Three years ago Parisian Sage could hardly be obtained in America. But now this delightful hair tonic and dressing can be had in every town in America. Central Drug Store sells it for 50 cents a large bottle, and they guarantee it to grow beautiful, luxuriant hair; to stop itching of the scalp. Ask for Parisian Sage.

News Notes of Interest From Our Country Correspondents

WALDRIP WHISPERINGS.

Waldrip, Texas, July 4, 1910.
Editor Brady Standard.

Everybody is celebrating the "Glorious Fourth" by working. The heavy rain that fell Thursday came just in time and as the Fourth came on Monday very few have time to celebrate.

The convention, Sunday, was a perfect success. People came from Elfo, Lohn, Staev, Rockwood and even from out the woods. Everybody brought a basket of good dinner and the singers, as well as the rest, were graciously fed. Over half a dozen "Prof's" were with us and a delightful program of solos, duets, quartets and class songs was rendered.

Melvin has the next convention. Everybody go.

Prof. Randals and wife, of Hico, are visiting Mr. and Mrs. D. C. Randals.

Rev. S. C. Collins, of Brownwood, was handshaking with friends here Sunday.

Miss Lucy Boies, of near Brady, is visiting Mr. and Mrs. J. L. Franklin and family.

Mr. and Mrs. Bob Rate are rejoicing over the arrival of an eight pound boy.

Mrs. J. E. Kelly spent Sunday night with her brother, Mr. Rabe, and family.

The Storm King refused supreme for about one and one half hours, Thursday evening. Those who were fortunate enough to have storm houses sought refuge therein.

Several houses were blown off the blocks, walls blown in, and some damage was done to most every house, however, it was slight in some cases. No lives were lost and no one injured.

The new gin will soon be completed. Don't be surprised any time if you hear the whistle.

If nothing serious happens the Waldrip Singing Class will attend the all-day singing at Rockwood next Sunday.

MELVIN ITEMS.

Melvin, Texas, July 1.
Editor Brady Standard:

It has been some time since I wrote last. I thought I would drop in a few lines and tell the people something about Melvin.

The young people had a dance at the hotel last Monday night and all report a nice time.

Melvin had a fine rain last Friday evening.

The Swedes, of Melvin, had a picnic last Wednesday, all report a fine time.

Best wishes to The Standard and its many readers.

S. W. Hughes.

The name of S. W. Hughes will be found this week in our announcement column as a candidate for the office of county judge, subject, of course, to the democratic primary, July 23. Mr. Hughes needs little mention at our hands, being too well known by McCulloch county people as a man and a lawyer of sterling worth and integrity. He has entered this race only after the repeated urgings of many friends all over the county. He will appreciate your support, and if elected will make McCulloch county a splendid official in every respect.

IF SICK--WHY PAY

Unless Health First Returns.

Here is what should and can be done! Now you would not willingly pay for food that was worthless—would you?

Then why pay for medicine until that medicine first proves to you its actual worth?

Positively knowing what Dr. Shoop's Restorative can do for the sick, I say to all "don't pay unless health first returns". And I back my Restorative with a signed and sealed 30 day "No help, No pay" contract.

I positively pledge to the sick everywhere that "Dr. Shoop's Restorative is absolutely free if it fails". Let others do the same or else pass their prescriptions by.

If you need more strength, more vitality, more vigor or more vim, use my Restorative a few days and note the immediate improvement.

When the stomach, heart, or kidneys go wrong, then test Dr. Shoop's Restorative. I do not do the stomach nor stimulate the heart or kidneys, for that is wrong. Years ago I cast away that mistaken idea in medicine. The books below will best tell you how I am succeeding.

These books also tell of a tiny hidden "inside nerve," no larger than a silken thread. They tell how that nerve, until it fails, actually gives to the heart its power, its tone, its never-ending action or impulse.

These books will open up new and helpful ideas to those who are not well. They tell how the stomach, and kidneys each have their "inside" or power nerve. They tell how the Restorative was especially made to reach and revitalize these weak or failing inside nerves. All of these facts tell why I am able to say "It is free if it fails".

This is why I say "Take no chance on a medicine whose maker dare not back it just as I do by this remarkable offer".

So write me today for the order. I have appointed honest and responsible druggists in nearly every community to issue my medicines to the sick.

But write me first for the order. All druggists sell Dr. Shoop's Restorative, but all are not authorized to give the 30 day test. So drop me a line please—and thus save disappointment and delays. Tell me also which book you need.

A postal will do. Besides, you are free to consult me as you would your home physician. My advice and the book below are yours—sent without cost.

Perhaps a word or two from me will clear up some serious ailment. I have helped thousands upon thousands by my private prescription or personal advice plan. My best effort is surely worth your simple request. So write now while you have it fresh in mind, for tomorrow loved comes. Dr. Shoop, Box 12, Racine, Wis.

A Long Felt Want.

Brady is about to have filled a long felt want—namely, a commodious, first class, moderate priced boarding house for school-teachers, students and others requiring board and lodging. Prof. M. L. Stallings and Wiley Walker have had plans made and will let the contract this week for the erection of a modern fifteen room house on the vacant half block cornering with the public school block on the southeast. The building will not only be handsome as to exterior finish but will be thoroughly modern in all its equipment. The location is most desirable. A capable management will be in charge when the building is completed, and the work of construction will begin at once.

Brady has long suffered for the lack of this very thing. There has ever been a shortage of boarding places for the lady teachers and students from a distance. Many students have heretofore gone elsewhere because there was no convenient place to board while attending school here. This will no longer be the case, and those desiring to attend school here this winter may be assured of the best and most convenient boarding arrangements possible to be had.

The Standard is glad indeed that these gentlemen have decided to put their money into this enterprise, and the town is to be congratulated.

If it wasn't better, we wouldn't have it—The French cleaning method. Demp, the tailor.

S. P. Tucker of Georgetown, has decided to locate in Brady with a marble yard business, and announces that he will have a complete stock of all kinds of marble and granite monuments on hand at all times. See his business announcement elsewhere in this issue.

We still have many values left in our dry goods, clothing, hats, shoes, etc., which we will close out far below first cost. Wm. Connolly & Co., west side.

D. W. Bozeman reports the work of erecting the new drug store at Melvin under way and hopes to soon have the business in full swing. He visited Melvin Sunday and is delighted with the prospects.

The Sweden Picnic.

The picnic at the Severin place Wednesday was one of the most enjoyable of the season. There was a large crowd present, and an abundance of good things to eat. The affair was a Sunday school proposition, and the preliminary steps were taken looking to the organization of a McCulloch County Sunday School Union. Rev. W. A. Knight was elected temporary chairman, and C. A. Trigg temporary secretary. A collection of \$15.15 was taken for the cause. Delegates were appointed who will visit every Sunday school in the county next Sunday week and arrange for the perfection of the organization. Every superintendent, officer and teacher in the county is urged to take an interest in this matter and help push it to a successful culmination. Among the delegates present were Rev. Abner Hanson, Rev. W. A. Knight, E. P. Lea, Mr. Stromquist, Mrs. Carl Hendrickson, Mrs. R. A. King, J. M. McAnally and others whose names we failed to learn.

It is intended to hold a Union Sunday School picnic about the 1st of August, at which time permanent officers will be elected, and other matters pertaining to the permanency of the organization will be attended to.

Spooner Dramatic Co.

The Vendome has secured the Spooner Dramatic Co. for all of next week. Everybody knows Dad Spooner, the popular and favorite comedian, and his talented daughter, Allie. New plays, new specialties, complete change of program each night. Admission 10c. Reserved seats on sale at Central Drug Store.

Dan Garner and wife, of Alabama, are guests in the city, having arrived last week. They expect to spend the summer with their nephew, Ovie Garner, and nieces, Mrs. R. C. Doell and Mrs. Joe Lyle, and will also visit relatives at Mason.

The official census for Abilene and San Angelo has been announced. Abilene is given a population of 9,204 as against 14,000 claimed, and Angelo is given 10,321 as against 16,000 claimed.

J. R. Starkey left Tuesday night with his little daughter for Marlin, where the little girl goes to be treated for rheumatism.

FORGER IN THE TOILS

Man in Jail at San Antonio Who Attempted to Victimize Brady National Bank by Forgery.

Cashier J. F. Montgomery was called to San Antonio last week in connection with the arrest there of a man named Dick Wilson, charged with forgery.

Last Thursday the Brady National Bank received a telegram from San Antonio signed D. W. Hill, asking that \$50 be telegraphed him at that point immediately. D. W. Hill is a prosperous citizen of the Waldrip community, this county, and Mr. Montgomery being suspicious of the telegram, immediately got into telephonic communication with Mr. Hill at Waldrip, and learned that the man at San Antonio was an imposter. The San Antonio bank was then wired the facts, and to issue the draft on presentation of telegram and arrest the forger. A telegram was also sent the imposter that money had been wired and to call at the bank for same. When he called and signed the draft an officer was present and made the arrest.

Mr. Montgomery returned Tuesday and reports that the man confessed his crime. He is thought to be the same party who on several former occasions has attempted to victimize the bank by similar methods. Last March the bank received a telegram from Silao, Mexico, purporting to be from Levi Richards, a brother of President F. M. Richards, calling for \$125. Mr. Richards had the bank telegraph an order to a Fort Worth bank to send the money by express, which was done. Later he became suspicious that it was not his brother and by using the wires found that his brother was at Roswell and had not sent the message. In the meantime the Wells-Fargo company had delivered the money to the impostor and upon being furnished proof that they had been duped made the amount good to the Brady National. Wilson is thought to be the man and the express company will join in the prosecution. There are several other instances of a similar character, and Cashier Montgomery thinks that he has at last got the author of the entire series in charge of the authorities.

Insurance Raters Here.

Messrs. J. C. Roberts and F. O. Long, representing C. B. Roulet, insurance actuary at Dallas, came in Tuesday and will remain for a week making a map of the town, which map will govern our fire insurance rates. They are visiting each and every building, inspecting the risks and making note of conditions in detail. Brady's key rate is 95 cents, which rate will be added to or deducted from according to the report as made by these gentlemen.

That Up-Town Office.

W. Y. Nolley, state inspector for the Western Union Telegraph Company, was here yesterday and completed arrangements for the up-town office which will be located in the lobby of the Queen Hotel. Mr. Nolley says the workmen will be here in a day or two and by the first of next week the new office will be installed.

The Excelsior Shoe Company is Brady's newest institution, and is located in the Benham building on Blackburn street. Messrs. Fred Fowler and C. P. Warman are the proprietors, and they will be prepared to do shoe repairing while you wait. All the late models of machinery for the business will be employed and motor power used. The business will be opened next week. A small stock of shoes will be carried.

The Commercial National Bank is adding about thirty feet more room to their banking house this week by tearing out the rear partition. The present vault will be removed and two others constructed in the rear, after which the bank furniture and partitions will be re-arranged thus giving more room and better facilities for handling the large volume of business.

A. C. Russell of Broadmoor, who is a candidate for commissioner from his precinct, was in the city Tuesday, hobnobbing with his old friend George Sutton, of Coleman county. Mr. Sutton says Mr. Russell was over his way electioneering last week, and he feels sure that he will carry Coleman county by a big majority.

The Socialists of Rochelle, are making big preparations for the three days' encampment to be held there July 18, 19 and 20. Reddin Andrews, Thos. A. Hickley, and Miss Mary O'Riley of Chicago, all noted lecturers, will be there to address the people.

VALUE OF GOOD ROADS.

They Would Tend to Lower the Cost of Living.

The 2,000,000 miles of unimproved roads which the country has to its discredit are as heavy a burden upon the unfortunate "ultimate consumer" as is an excessive tariff. Every pound of produce hauled from the farm to the market bears an inflated price because of the excessive cost of its transportation from the farm to the point of shipment.

For instance, it costs an average of almost 2 cents more to haul a bushel of wheat from the farm to the station nine miles away than it does to ship a bushel of wheat from New York to Liverpool, 3,100 miles away. This excessive transportation cost must be made up by the farmer in charging more for his wheat, by the miller in charging more for the flour, by the baker in charging more for bread and finally, of course, by the "ultimate consumer" in paying more for his bread.

As the farmer and the miller are also consumers, the excessive cost of road transportation really levies a tax upon all. Whatever doubt there may have been about the need for systematic road improvement in the United States facts and figures such as these finally dispel it.

If there was ever any work calculated to fill the proverbial "long felt want" it was the work of the office of public roads.

JUDGE FOR GOOD ROADS.

W. W. Harnden Announced His Improved Highway Policy.

"If there is one thing I am unqualifiedly for," W. W. Harnden, a new county judge in Missouri, said recently, "it is good roads and plenty of them. I believe it is the most important function of the county court to provide them. It is being realized over all this country—and with the advent of the motorcars more than ever—that good roads are the most important asset of any community."

"So far as I am concerned I shall do all in my power to see to it that the rock road system of Jackson county is a model both in the quantity and the quality of its roads. And I believe that these roads should be built primarily with a view to the convenience and profit of Kansas City, which supplies most of the funds."

"It is my idea that we should first see to it that the roads are kept in first class repair and then build more roads. One thing I hope to accomplish, with the co-operation of Judge Patterson, is greater facility in the annual oiling of the roads. It is my idea that enough men should be put on the job to finish the oiling of the roads, say, in a month, so that they would be clean and free from dust during the season when those who drive can enjoy them."

TO FORCE ROAD BUILDING.

Negligent Supervisors Will Be Prosecuted by Altoona Autoists.

Finding that requests and entreaties had failed, officials of the Altoona (Pa.) Motor club have been instructed to take legal steps to compel road supervisors to clear the public roads of loose stones and put the highways in good condition. At a meeting it was decided to ask the district attorney to prosecute all negligent officials. While most of the supervisors have co-operated with the motorists, several of them having charge of two of the most traveled roads in this section have done nothing.

Make the Roads Beautiful.

The National Good Roads association in convention recently recommended that the enlisted men of the army be used in making good roads. How better could they serve the country than by beautifying and making the roadways more serviceable? We remember that wherever Caesar and his legions went good roads followed, and some of those highways are there today to prove that they are the best thoroughfares in Europe. If this order ever went into effect a regiment would consist of about six privates the next morning.

A Unique Improvement Scheme.

Says a recent writer: "I know of a local paper whose editor interviews all the mail carriers when the roads are in good condition to drag after each rain and secures the names of all the men who donate work on the drag. These are then published as a roll of honor. Of course a man doesn't drag roads just to have the good he is doing in that way exploited; but, all the same, one likes to know that the good he does is being noticed, and it certainly is by those who travel the dragged roads whether they read the paper or not."

Build For Permanency.

Land and property, said a speaker at a good roads convention, were valuable in proportion to their accessibility to market or pleasure, and whatever adds to the accessibility enhances values. The history of the country, he stated, bore witness to the most useless and wasteful extravagance in the use of money and labor on its highways, and the lesson to be learned was to build, as did the ancients, for permanency and with the utmost care and thought for the future.

Good Highways Uplifting.

There is nothing that contributes more to rural uplift than good roads. For social and economic improvement communication must be easy. Without good roads it is impossible for the people of rural communities to meet and discuss ways and means of improving rural society.

Begin to Build Sidewalks.

This is a proposition that is now staring the people of Brady in the face. Build sidewalks. Not only in the two or three main streets, but all through the residence section.

The postoffice receipts last year ran something above \$9500. The postal year ends with the 30th of March. The first three months of this year the receipts were unusually light. If they had been in proportion to the three previous quarters, the year's showing would have been easily above ten thousand dollars. And when the postal receipts reach that sum, a town is in line for free postal delivery.

The quarter just ended, April, May and June, shows receipts of \$2268.44. And these three months were the dullest we have had for many a day. Yet the increase over last year for the same period, is a fraction over 31 per cent. To show an increase over last year of this percentage, gives some idea as to the growth of the town.

We have the finest crop outlook now that we have had for years. We have a big lot of railroad activity that will materially increase the business of the place for the coming months. So that it goes without argument that we are billed to keep up the ratio of increase in postal business for the coming nine months.

Last year we lacked only five per cent of reaching the required sum for free mail delivery. The one quarter of this year just closed shows a 31 per cent increase. Keeping up the ratio the receipts will go above \$12,500 this year.

Then for free mail delivery. But—the government then steps in with some requirements. No free delivery until we have sidewalks.

When we are entitled to free delivery, we cannot afford to be turned down. It is the biggest advertisement a growing town can have. No longer a village, but a free mail delivery city.

So when we reach the requirements, let us be ready to demand our free delivery. To do that

we must put down sidewalks. Only nine months off, and sidewalk building cannot be done in a day. Begin now, get ready to go to work on your sidewalks. Put your own property in shape. The added value, the added pleasure, will amply repay you. Then we will be ready to say to the government that we want the free delivery. And we have not said one word about the improved appearance of the town.

Will you do your part?

Three Straights From Granbury.

Brady made it three straights again from Granbury this week. This makes six games played with that team and all of them were Brady victories.

Monday's game was won 9 to 6, Tuesday's victory went to the locals by a score of 4 to 0. Wednesday's was taken by a score of 4 to 2, and was the best game of the series. The visitors returned home Wednesday night and took with them two of Brady's best players, Gordon and Perkins, who will play with Granbury in a three game series with Comanche the balance of this week. Henry Baldrige will play with the Comanche team.

The locals are somewhat crippled just now, principally on account of the falling off in finances. A number of those who promised monthly contributions are delinquent, and as Manager Hall was working on a very close margin, the result is quite evident. Latham has been released and returned home last week. Latham's pitching did not pan out as well as expected. He injured his arm in the first game played and never got into form again. Westmoreland and Kilker were returned to Brownwood until needed again. In the last two games Manager Hall used a couple of local "kid" players—Tipton and Yeager. Both lads are light for the team, but they played their positions manfully Tuesday and Wednesday, and made an excellent showing. Tipton shows up strong at the bat, and secured a couple of two-baggers Wednesday, besides playing an almost errorless game at second.

No other games are scheduled for the present in Brady, but the team will go to Comanche for a series next week. The San Angelo series is still in doubt; for some reason the Longhorns don't seem to desire another tussle with Brady. They have probably heard of the great improvement hereabouts since last they met the Buccaneers. Thurber will be here the latter part of the month.

The baseball team has been a

good advertisement for Brady, and those who are delinquent to its support should come forward now and help keep the team to its present strength. Another pitcher has got to be dug up somewhere. Straub works and wins every time he is called on, and has probably done more and better work than any other pitcher in West Texas this season, but he can't do it all by himself. Help the team. Give it your support and Brady will continue to win.

Soreness of the muscles, whether induced by violent exercise or injury, is quickly relieved by the free application of Chamberlain's Liniment. This liniment is equally valuable for muscular rheumatism, and always affords quick relief. Sold by Jones Drug Co.

HAPPY RESULTS

Have Made Many Brady Residents Enthusiastic.

No wonder scores of Brady citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Brady by Doan's Kidney Pills.

N. B. Gatliff, of Brady, Texas, says: "I was afflicted with kidney trouble for years and suffered from pains in my back, which were more severe when I stooped or lifted. My back ached at night and in the morning was very lame. I became tired easily, felt languid and at times was extremely nervous. Headaches and dizzy spells were common and there was also a blurring of my sight. The kidney secretions were unnatural and so frequent in passage as to oblige me to arise several times at night. Hearing of Doan's Kidney Pills, I procured a box at the Central Drug Store and began their use. The contents of one box gave very satisfactory results. I can say that Doan's Kidney Pills did more for me than any other remedy I ever used."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Saved at Death's Door.

The door of death seemed ready to open for Murray W. Ayers, of Transit Bridge, N. Y., when his life was wonderfully saved. "I was in a dreadful condition," my skin was almost yellow; eyes sunken; tongue coated; emaciated from losing 40 pounds, growing weaker daily. Virulent liver trouble pulling me down to death in spite of doctors. Then that matchless medicine—Electric Bitters—cured me. I regained the 40 pounds and now am well and strong." For all stomach, liver and kidney troubles they're supreme. 50c at Jones Drug Co.
