Notice to Republicans.

At a regular called meeting of the Republican Executive Committee for McCulloch County Texas, held in Brady, July 9th, 1910, it was ordered that Precinct conventions shall be held in each precinct of McCulloch county, by the regular precinct chairmen of their respective precincts on July 23, 1910, at 2 o'clock p. m., for the purpose of electing a precinct chairman in each precinct, and electing delegates to the County Convention, which is hereby called to meet in Brady, McCulloch County, Texas, at 2:30 p. m., July 30th, 1910. The precinct conventions will also vote on the names of any persons that may come before them as candidates for county chairman or for places on the county ticket.

Special attention is called to the penalties of the law which forbids any person from partici-

pating in the precinct conventions or primaries of more than one political party, and republicans are urged to attend their own conventions and assist in the upbuilding of their own political party. All voters not satisfied with the present condition of affairs politically, in our state, are invited to participate with us in our effort for a better government.

By order of the committee.

LAST FRIDAY'S FIRE OFF FOR ROAD TRIP

Ten Room Tenant House of S. A. Benham Almost Completely Destroyed. Bad Flue the Cause.

About 2:00 o'clock Friday afternoon fire was discovered in the 10-room rent house belonging to S. A. Benham and situated on Blackburn street in the edge of the business district. A strong south wind was blowing at the time and the chances seemed extremely good for a while for a disastrous conflagration.

The fire department responded promptly but had difficulty in making connection with the nearest fire plug and finally had to string the second line of hose from a block further down the street. Then it developed that a small rock had become fastened in one of the nozzles and this delayed the work still further. Finally these handicaps were removed and the department made quick work of the flames, not only confining the fire to the building in which it originated but actually saving a considerable portion of the building itself. The water pressure was good, and the fire boys worked splendidly—a combination which is calculated to win out.

The house was rented by Mr. and Mrs. J. W. Norris, Mr. and Mrs. C. W. Shaffer, Mrs. Will Vaughan and Mr. and Mrs. J. W. West. The fire originated in the kitchen where Mrs. Norris was ironing and was caused by a defective flue. Mr. and Mrs. Norris' lost practically everything they owned, while the goods and chattels of the other tenants were safely carried out. None of the tenants carried insurance and Mr. Benham had only \$1000 on the building.

Situated as this building was, the wind blowing directly towards the business section and the fire department's handicaps being considered, it is little short of wonderful that the blaze did not spread. The fact that the fire was subdued is a strong endorsement for Brady's fire department and for our excellent water service. The fire insurance rating board has never given Brady credit for having any water works or fire protection whatever, and it is a matter of congratulation that this fire was witnessed by the two gentlemen representing the board and who are now inspecting the risks in Brady with a view to giving us a correct rating.

Brady Baseball Team Left Monday Night For a String of Twelve Games at Comanche and Granbury.

Manager Hucks Hail and his Buccaneers left Monday night for Comanche where seven games will be played with the Comanche Indians in five days during the big reunion. Next week the locals will jump over to Granbury for six games in four days, returning home Friday. Friday and Saturday of next week are open dates and Mr. Hail asks The Standard to hereby extend a cordial invitation to the newly organized Mason team to come over for two games on those dates. Mason, we understand, has a good team, and is winning everything in that bailiwick.

The next scheduled games on the local lot are with the crack Taylor team on July 25, 26 and 27. Then Angelo has promised to be here for three games on the 28th, 29th and 30th. On the 2nd, 3rd, 4th and 5th of August the Buccaneers go to San Saba where a strong team has just been organized.

The locals now have a record of 39 games played, 27 won and 12 lost. Everything except Angelo has been taken into camp, and Mr. Hail and all his men promise to take a fall out of the Longhorns when they get them over here.

The team will go to Comanche in good shape. Gordon and Perkins are with them and Westmoreland and Kilker will join them at Brownwood. A new pitcher from Fort Worth will also probably join the locals at Comanche. His name is Pate and he has a strong record. Blackwell, of Rochelle, will also accompany the team on the road trip.

Manager Hail expects to win a majority of the games played and when Angelo has been subdued the championship of West Texas will be claimed. That Angelo can be defeated is firmly believed by everyone who has been keeping up with the dope sheet, and the Longhorns had as well prepare for the worst.

WEST SIDE SQUARE

The Spooners Are Here.

The Spooner Dramatic Company opened last night for a week at the Vendome, and it is decidedly the best attraction which Brady has seen for several seasons. The Spooners are favorites all over Texas, and especially West Texas. There's a reason. First, it is composed of a clean set of people whom it is a pleasure to know. Second, every member of the company is an artist. Everybody knows "Dad" Spooner and Miss Allie and Mike, and wherever known their work is recognized as first-class.

The entire company received the glad hand Monday night in the opening bill, "A Panic on Wall Street." The acting was natural, unaffected, and the humorous situations spontaneous, while the climaxes were dramatic and thrilling, the applause after each act requiring the lifting of the curtain again.

Where there is so much merit it

is futile to specialize, and The Standard will not attempt it, but will advise every lover of the drama to make it a point to attend the performances during the balance of the week. Mr. Sidney Pitman is the musical director, and his work on the piano is by no means the least feature of the program. The specialties Monday night by Miss Allie and Mike Spooner were the catchiest of the season, and one re-call failed to suffice the applauding audience. Each was called back again and again, and each song was better than the last. It was the best satisfied audience we have ever seen when the curtain finally rung down.

An entire change of program each night with new specialties will be given, and the prices are popular—10c, 25c and 35c. Reserved seats on sale at Central Drug Store.

The Menard Messenger wants to know why we refer to the Rochelle Record as "she." Because, Claud, you can't think of Editor Adkins without thinking of a pretty girl or an old maid. It's catching, Claud, and Herbert has the disease bad. The Record is a good old girl and the only one that Herbert has, therefore will remain "she" until he spunks up courage enough to provide the editorial paragonage with the real thing.

A good country road is always to be desired and is a source of comfort and convenience to every traveler. Good roads attract population, as well as good schools and churches. Good roads improve the value of the property, so that it is said a farm lying five miles from market, connected by a bad road is of less value than an equally good farm lying ten miles away from market connected by a good road. A larger load can be drawn by one horse over a good road than by two over a bad one. Good roads encourage the greater exchange of products and commodities between one section and another.

PRICES on wool are not only unsatisfactory, but even when a sale is made it is almost impossible to obtain the figures in the deal. The San Angelo Standard last week reported the sale of 460,000 pounds in that city at prices from 12 1-2 to 15 cents per pound. The buyer publicly denied the price, and at the same time refused to give the Standard the correct price and forbade the reporter ever mentioning the fact that he refused to divulge the price. As might be expected of a high class newspaper, the Standard boldly printed the entire correspondence and interviews, showing the buyer up in a light not calculated to endear him to the producers to say the least. The Standard represents a large clientele of wool producers all over West Texas and the stand taken by the paper will be appreciated by them.

The foolishness of cheapness in the construction of public buildings has just been illustrated at Brownwood. The school board is now having torn down the high school building erected a few years ago, using concrete blocks, because the walls have become dangerous. The building will be constructed of brick. In erecting school buildings, courthouses, jails, etc., it pays to issue bonds in a sum sufficient to construct a permanent building, ample in size, as well as strength and lasting qualities.—Brady Standard.

Cement is a good and economical building material when the quality of the compound and the manner of its employment are first-class. But faulty cement and inexperienced workmanship combined, or one of them alone, invariably result in costly failure. Experience in the use of concrete is being gained steadily, and the buildings of the future are quite likely to be composed principally of that material.—Dallas News.

There is a lesson in the above that will be valuable to the people of many towns in this state, and it is well that public attention has been called to it. Cheap

building material is a very important item in the future growth of Texas.—Fort Worth Star-Telegram.

All is not gold that glitters, neither is every rug what some claim them to be. You can get just what you want at home, and the price is far below the other. O. D. Mann & Sons.

Mr. Aubry Wolf who has been here the past two months working for the New Home Washing Machine Co., left Tuesday for his home in Brady where he will spend a few days with his mother, after which he will go to Dallas where he has a position as city salesman for a wholesale grocery house. Mr. Wolf made many friends while here and we regret very much to see him leave.—Richland Springs Eye-Witness.

The Samson wind mill is still pumping, and you can't stop it. If you have a well and want water at a cheap price, just let us know and we will place a Samson for you. O. D. Mann & Sons.

Jack Coe has bought the street sprinkling outfit, including the pumping plant and assumed charge Monday. Mr. Coe has an extra good team for the work and he promises to keep the dust down as well as it can possibly be done.

Day, S. Z. Kirk, Charlie Ballard, Joe Davenport, Otto Armor, R. J. Walker, J. H. Musick, and Dr. Hudson, all of Eden, and Dr. Neal, and Secretary of the Business Club Stephens, of Eola, arrived in San Angelo the morning of the Fourth of July, to meet the Chamber of Commerce of San Angelo, and talk over plans for getting a railroad built from San Angelo to Eden. The San Angelo people present were W. T. Bartholomew, Sam Crowther, T. C. Wynn, George Hagelstein, Edgar S. Hamilton, F. H. Gohlke, and C. H. Tupper.

Plans were discussed by the Eden, Eola and San Angelo folk, and a considerable amount of enthusiasm marked the discussion. Editor Broyles of the Eden Echo, was the chief spokesman for his delegation from Eden, and explained the purpose of the Edenites' visit, and announced the willingness of the Eden people to do their share in getting a line to San Angelo.

The meeting adjourned about 1 o'clock and the sub-committees, consisting of Dr. E. W. Neal and C. W. Stephens of Eola, and G. Y. Lee, D. C. Broyles and T. B. Drinkard met with Judge T. C. Wynn, for the San Angelo railroad committee, at 3 o'clock Monday afternoon. Plans were gone

over in a hurried way to get rail connection for Eden from San Angelo.

And, the Santa Fe or some other system will have it put up to them to take advantage of one of the greatest opportunities ever presented the railroad captains.—San Angelo Standard.

Because we offer to buy anything back at the price paid, if you can get it any cheaper any where, quality considered. We have made this offer many times, but as yet have never bought back an article. O. D. Mann & Sons.

A gentleman who was here last week with a view to making investments has been connected with the Santa Fe railroad, and from his conversation it is believed that the Texas North & South project is a Santa Fe proposition. He also stated plainly that he believed the H. & T. C. would build from Llano to Mason in a comparatively short time.—Mason News.

You will soon want that new wagon, and have you promised yourself to use the Peter Schuttler? If you haven't don't lose another minute of your time until you have settled that question for all time to come, and when you once use the Schuttler, you will have no other. O. D. Mann & Sons.

Obituary.

MILTON COLUMBUS CAWYER, the subject of this sketch, was born January 15th, 1857, in Newton county, Mo., and departed this life July 7th, 1910, at Mercury, Texas, aged 53 years, 5 months and 23 days, surrounded by his family, relatives and friends. When at the age of 35, Brother Cawyer professed faith in Christ and was baptized into the fellowship of the First Baptist Church of Joplin, Mo. In his 19th year he was married to Miss Willie Ann Johnson of Jasper county, Mo. To this union was born twelve children, of which only three survive, James Franklin, John Roy, and Ethel Lee, all of Mercury, Texas. He is also survived by the wife of his young manhood, whom he married in the 16th year of her age, and who has been his faithful companion for more than 35 years.

Brother Cawyer engaged in business for some years in Webb City, and in Joplin, Mo., in connection with farming. He came to Texas in 1895, and after residing in Brownwood for a while, he purchased the Burns ranch in McCulloch county, near Milburn, and moved on it. He was one of the first settlers of Mercury, Texas, and one of the men who made Mercury what it is. He established the Cawyer Mercantile Company, the State Bank of Mercury, of which he was president at the time of his death. He also established the Key Stone Hotel, the only hotel in Mercury, which he also owned.

Brother Cawyer was a consistent member of the Missionary Baptist Church from the time he first joined until the day of his death, and to him is largely due the building of the splendid church building now owned by the Baptists, and the only church in the town of Mercury. He leaves a large circle of relatives and friends to mourn his absence. Funeral services were held on Friday, July 8th, at 1 p. m., in the church he had helped to build, by his friend, Jas. W. Staton, of Brownwood, assisted by Rev. W. D. Vinson, the pastor. His remains were interred in the Cox cemetery at 4 p. m., July 8th, there to repose until the resurrection.

"Sleep on dear one,
And take thy rest,
God called thee home,
He thought it best."

His old pastor,
JAS. W. STATON.

Notice to the Voters.

The report that I have withdrawn from the race for Sheriff and Tax Collector has been circulated, and I take this method of informing the voters that I have not withdrawn, but am in the race to the finish, and solicit the support and influence of all law-abiding citizens of McCulloch county.

C. B. Watters, of San Antonio, is here this week looking into his Brady mercantile interests. Mr. Watters is well pleased with the progress made by both the town and his business since locating here, and has plans maturing for a substantial increase in investment. He says the Watters store is going to be a factor in fall business. He is especially interested in Brady's commercial club and says we are on the right track.

LAUGH AND GROW FAT

Fat Men Good Naturedly Wallop Leans in Last Friday's Game to the Tune of 24 to 12.

It was a shame the way they did it. No one would have thought it. That the doughty "Leans" who so proudly trod the diamond at the opening of the game should be so humbled in the course of an hour or thereabouts, and at that by the meek and retiring "Fats." Again we repeat, it was a shame.

The "Fats" had the best of the game from the start, not because "Bill" Crothers happened to be fat and also umpire at the same time; not because the "Leans" didn't play the game, but simply because of the out-doing playing on the part of the heavyweights. Their playing was something more than brilliant—it was classy, and at times threatened to become spectacular. The slender gentlemen ball players did not lack for material, and their pitching staff included everyone who laid any claim whatsoever to being a twirler of the horsehide. But it was no use. The ball looked like a balloon to their opponents, and the way the latter slammed the ball made the affair look like a game of ping pong.

Bennett opened the game in the box for the "Leans" but the "Fats" had no trouble in finding him and losing the ball, and before the former knew they were in the game the latter had stacked up three runs. The "Leans" tried manfully in their half of the inning to overcome the lead but only succeeded in getting two scores. In the second inning each side got another run apiece. In the third the "Fats" secured three runs, and the "Leans" two.

In the fourth Steve Duke went in the box for the "Leans" and their hopes rose high, only to fall again with a dull sickening thud. It was a slaughter. The "Fats" batted once around and two men over before they consented to be retired from the field. Then they proceeded to make matters worse by handing the "Leans" a goose egg. Score, 15 to 5.

The Anti-Fats got their revenge in the fifth by allowing but two runs and then taking a bat around themselves netting six runs. In the next inning they lived up to the game by making the only double play, tagging Noble out at second and throwing Keeler out at first. The "Fats" retaliated by placing Jim Mann in the box. Now Jim's appearance didn't look good to the grand stand and they had no hesitancy in saying so, they even hinted that his pitching looked "sissy", but the "Leans" couldn't knock the ball past him.

By the time the seventh inning had been played the "Fats" were feeling fine, having run around the bases just the right number of times to get them warmed up to the game. The "Leans" however were so fatigued from chasing the ball that they decided not to press the matter any farther, and accordingly withdrew leaving the enemy in full possession of the field. Final score: "Fats", 24; "Leans", 12.

NOTES OF THE GAME.

Dick Dyer may not look very fast, but he does his darndest and gets around the bases just the same.

He doesn't look it but he plays like an ex-leaguer.—Sam Graham. Bennett died fighting hard, but it couldn't be helped.

In the second inning Graham makes star catch of Duke's high fly. (Applause).

Just like dropping the ball in a sack to knock it toward Arthur Noble—he's always "there".

Moffatt plays first like an old timer, and tags 'em out too.

Rutherford ought to have had a 3-bagger in the third, only the ball beat him there. Likewise

The Standard was misinformed when we stated in our last issue that Mr. A. Reagor and Miss Lizzie McShan were married in Brownwood. The wedding occurred in San Angelo Sunday evening at the home of the bride's sister, where she has been visiting. They went to Brownwood, and from there to their future home at Rosebud.

SOCIALIST ENCAMPMENT

AT ROCHELLE, TEXAS, WILL BE HELD

JULY 18th, 19th and 20th, 1910

No effort has or will be spared for the comfort and entertainment of young and old. We hear of many fifty miles and more away who will be here, and you needn't be surprised if you see the largest crowd that ever assembled in McCulloch county. May get excursion rates from Fort Worth and intermediate points.

Dr. Reddin Andrews

Socialist Candidate for Governor

Thomas A. Hickey

The Western Miner

Miss Mary O'Riley

of Chicago

and others of note will address the people.

Comrade Andrews will show you that there are other and more vital issues before the people of

Texas and the world at large today than anti and prohibition.

Comrade O'Riley will be here only two days, the 18th and 19th. Don't fail to hear this gifted woman orator.

Comrade Hickey wrote the Montana end of Thos. Lawson's "Frenzied Finance", and can tell you how to be a millionaire if you have the pull.

A joint discussion is desired if any old-party politicians want to "butt in" and demolish Socialism.

THE Menard Messenger wants to know why we refer to the Rochelle Record as "she." Because, Claud, you can't think of Editor Adkins without thinking of a pretty girl or an old maid. It's catching, Claud, and Herbert has the disease bad. The Record is a good old girl and the only one that Herbert has, therefore will remain "she" until he spunks up courage enough to provide the editorial parsonage with the real thing.

A GOOD country road is always to be desired and is a source of comfort and convenience to every traveler. Good roads attract population, as well as good schools and churches. Good roads improve the value of the property, so that it is said a farm lying five miles from market, connected by a bad road is of less value than an equally good farm lying ten miles away from market connected by a good road. A larger load can be drawn by one horse over a good road than by two over a bad one. Good roads encourage the greater exchange of products and commodities between one section and another.

PRICES on wool are not only unsatisfactory, but even when a sale is made it is almost impossible to obtain the figures in the deal. The San Angelo Standard last week reported the sale of 460,000 pounds in that city at prices from 12 1-2 to 15 cents per pound. The buyer publicly denied the price, and at the same time refused to give the Standard the correct price and forbade the reporter ever mentioning the fact that he refused to divulge the price. As might be expected of a high class newspaper, the Standard boldly printed the entire correspondence and interviews, showing the buyer up in a light not calculated to endear him to the producers to say the least. The Standard represents a large clientele of wool producers all over West Texas and the stand taken by the paper will be appreciated by them.

The foolishness of cheapness in the construction of public buildings has just been illustrated at Brownwood. The school board is now having torn down the high school building erected a few years ago, using concrete blocks, because the walls have become dangerous. The building will be constructed of brick. In erecting school buildings, courthouses, jails, etc., it pays to issue bonds in a sum sufficient to construct a permanent building, ample in size, as well as strength and lasting qualities.—Brady Standard.

Cement is a good and economical building material when the quality of the compound and the manner of its employment are first-class. But faulty cement and inexperienced workmanship combined, or one of them alone, invariably result in costly failure. Experience in the use of concrete is being gained steadily, and the buildings of the future are quite likely to be composed principally of that material.—Dallas News.

There is a lesson in the above that will be valuable to the people of many towns in this state, and it is well that public attention has been called to it. Cheap

building material is a very important item in the future growth of Texas.—Fort Worth Star-Telegram.

All is not gold that glitters, neither is every rug what some claim them to be. You can get just what you want at home, and the price is far below the other. O. D. Mann & Sons.

Mr. Aubry Wolf who has been here the past two months working for the New Home Washing Machine Co., left Tuesday for his home in Brady where he will spend a few days with his mother, after which he will go to Dallas where he has a position as city salesman for a wholesale grocery house. Mr. Wolf made many friends while here and we regret very much to see him leave.—Richland Springs Eye-Witness.

The Samson wind mill is still pumping, and you can't stop it. If you have a well and want water at a cheap price, just let us know and we will place a Samson for you. O. D. Mann & Sons.

Jack Coe has bought the street sprinkling outfit, including the pumping plant and assumed charge Monday. Mr. Coe has an extra good team for the work and he promises to keep the dust down as well as it can possibly be done.

WANTS ROAD TO ANGELO

Eden and Eola Citizens Confer With San Angelo Chamber of Commerce on the Subject.

A committee consisting of Editor D. C. Broyles, W. A. Ballard, Joe Lee, H. G. McLean, Lee Pfluger, I. E. Porsise, D. F. Rudder, E. T. Frieble, J. B. Wallace, W. T. George, Henry Hughes, I. B. Drinkard, J. W. Evans, J. M. Ward, Jimmie Scott, Baker, Tom Perry, Wylie Baxter, G. Y. Lee, Z. T. Cave, Neil Jefferson, W. T. Carpenter, Evans Nail, R. G. Armor, Fred Hoskins, R. B. Nail, J. F. Day, S. Z. Kirk, Charlie Ballard, Joe Davenport, Otto Armor, R. J. Walker, J. H. Musick, and Dr. Hudson, all of Eden, and Dr. Neal, and Secretary of the Business Club Stephens, of Eola, arrived in San Angelo the morning of the Fourth of July, to meet the Chamber of Commerce of San Angelo, and talk over plans for getting a railroad built from San Angelo to Eden. The San Angelo people present were W. T. Bartholomew, Sam Crowther, T. C. Wynn, George Hagelstein, Edgar S. Hamilton, F. H. Gohlke, and C. H. Tapper.

Plans were discussed by the Eden, Eola and San Angelo folk, and a considerable amount of enthusiasm marked the discussion. Editor Broyles of the Eden Echo, was the chief spokesman for his delegation from Eden, and explained the purpose of the Edenites' visit, and announced the willingness of the Eden people to do their share in getting a line to San Angelo.

The meeting adjourned about 1 o'clock and the sub-committees, consisting of Dr. E. W. Neal and C. W. Stephens of Eola, and G. Y. Lee, D. C. Broyles and T. B. Drinkard met with Judge T. C. Wynn, for the San Angelo railroad committee, at 3 o'clock Monday afternoon. Plans were gone

over in a hurried way to get rail connection for Eden from San Angelo.

And, the Santa Fe or some other system will have it put up to them to take advantage of one of the greatest opportunities ever presented the railroad captains.—San Angelo Standard.

Because we offer to buy anything back at the price paid, if you can get it any cheaper any where, quality considered. We have made this offer many times, but as yet have never bought back an article. O. D. Mann & Sons.

A gentleman who was here last week with a view to making investments has been connected with the Santa Fe railroad, and from his conversation it is believed that the Texas North & South project is a Santa Fe proposition. He also stated plainly that he believed the H. & T. C. would build from Llano to Mason in a comparatively short time.—Mason News.

You will soon want that new wagon, and have you promised yourself to use the Peter Schuttler? If you haven't don't lose another minute of your time until you have settled that question for all time to come, and when you once use the Schuttler, you will have no other. O. D. Mann & Sons.

Obituary.

MILTON COLUMBUS CAWYER, the subject of this sketch, was born January 15th, 1857, in Newton county, Mo., and departed this life July 7th, 1910, at Mercury, Texas, aged 53 years, 5 months and 23 days, surrounded by his family, relatives and friends. When at the age of 35, Brother Cawyer professed faith in Christ and was baptized into the fellowship of the First Baptist Church of Joplin, Mo. In his 19th year he was married to Miss Willie Ann Johnson of Jasper county, Mo. To this union was born twelve children, of which only three survive, James Franklin, John Roy, and Ethel Lee, all of Mercury, Texas. He is also survived by the wife of his young manhood, whom he married in the 16th year of her age, and who has been his faithful companion for more than 35 years.

Brother Cawyer engaged in business for some years in Webb City, and in Joplin, Mo., in connection with farming. He came to Texas in 1895, and after residing in Brownwood for a while, he purchased the Burns ranch in McCulloch county, near Milburn, and moved on it. He was one of the first settlers of Mercury, Texas, and one of the men who made Mercury what it is. He established the Cawyer Mercantile Company, the State Bank of Mercury, of which he was president at the time of his death. He also established the Key Stone Hotel, the only hotel in Mercury, which he also owned.

Brother Cawyer was a consistent member of the Missionary Baptist Church from the time he first joined until the day of his death, and to him is largely due the building of the splendid church building now owned by the Baptists, and the only church in the town of Mercury. He leaves a large circle of relatives and friends to mourn his absence. Funeral services were held on Friday, July 8th, at 1 p. m., in the church he had helped to build, by his friend, Jas. W. Staton, of Brownwood, assisted by Rev. W. D. Vinson, the pastor. His remains were interred in the Cox cemetery at 4 p. m., July 8th, there to repose until the resurrection.

"Sleep on dear one,
And take thy rest,
God called thee home,
He thought it best."

Notice to the Voters.

The report that I have withdrawn from the race for Sheriff and Tax Collector has been circulated, and I take this method of informing the voters that I have not withdrawn, but am in the race to the finish, and solicit the support and influence of all law-abiding citizens of McCulloch county.

C. B. Watters, of San Antonio, is here this week looking into his Brady mercantile interests. Mr. Watters is well pleased with the progress made by both the town and his business since locating here, and has plans maturing for a substantial increase in investment. He says the Watters store is going to be a factor in fall business. He is especially interested in Brady's commercial club and says we are on the right track.

LAUGH AND GROW FAT

Fat Men Good Naturedly Watlop Leans in Last Friday's Game to the Tune of 24 to 12.

It was a shame the way they did it. No one would have thought it. That the doughty "Leans" who so proudly trod the diamond at the opening of the game should be so humbled in the course of an hour or thereabouts, and at that by the meek and retiring "Fats." Again we repeat, it was a shame.

The "Fats" had the best of the game from the start, not because "Bill" Crothers happened to be fat and also umpire at the same time; not because the "Leans" didn't play the game, but simply because of the out-doing playing on the part of the heavyweights. Their playing was something more than brilliant—it was classy, and at times threatened to become spectacular. The slender gentlemen ball players did not lack for material, and their pitching staff included everyone who laid any claim whatsoever to being a twirler of the horsehide. But it was no use. The ball looked like a balloon to their opponents, and the way the latter slammed the ball made the affair look like a game of ping pong.

Bennett opened the game in the box for the "Leans" but the "Fats" had no trouble in finding him and losing the ball, and before the former knew they were in the game the latter had stacked up three runs. The "Leans" tried manfully in their half of the inning to overcome the lead but only succeeded in getting two scores. In the second inning each side got another run apiece. In the third the "Fats" secured three runs, and the "Leans" two.

In the fourth Steve Duke went in the box for the "Leans" and their hopes rose high, only to fall again with a dull sickening thud. It was a slaughter. The "Fats" batted once around and two men over before they consented to be retired from the field. Then they proceeded to make matters worse by handing the "Leans" a goose egg. Score, 15 to 5.

The Anti-Fats got their revenge in the fifth by allowing but two runs and then taking a bat around themselves netting six runs. In the next inning they livened up the game by making the only double play, tagging Noble out at second and throwing Keeler out at first. The "Fats" retaliated by placing Jim Mann in the box. Now Jim's appearance didn't look good to the grand stand and they had no hesitancy in saying so, they even hinted that his pitching looked "sissy", but the "Leans" couldn't knock the ball past him.

By the time the seventh inning had been played the "Fats" were feeling fine, having run around the bases just the right number of times to get them warmed up to the game. The "Leans" however were so fatigued from chasing the ball that they decided not to press the matter any farther, and accordingly withdrew leaving the enemy in full possession of the field. Final score: "Fats", 24; "Leans", 12.

NOTES OF THE GAME.

Dick Dyer may not look very fast, but he does his darndest and gets around the bases just the same.

He doesn't look it but he plays like an ex-leaguer.—Sam Graham.

Bennett died fighting hard, but it couldn't be helped.

In the second inning Graham makes star catch of Duke's high fly. (Applause).

Just like dropping the ball in a sack to knock it toward Arthur Noble—he's always "there".

Moffatt plays first like an old timer, and tags 'em out too.

Rutherford ought to have had a 3-bagger in the third, only the ball beat him there. Likewise

The Standard was misinformed when we stated in our last issue that Mr. A. Reagor and Miss Lizzie McShan were married in Brownwood. The wedding occurred in San Angelo Sunday evening at the home of the bride's sister, where she has been visiting. They went to Brownwood, and from there to their future home at Rosebud.

A. D. Stevens returned Thursday from Rochelle, where he has been looking after the depot during the agent's absence on his honeymoon, and is again at the Frisco depot.

H. L. Adkison, of Lovelady, Texas, arrived last Thursday to take charge of the prescription department for the drug firm of J. V. Searcy Company. Mr. Searcy now has his new drug business under full headway and has one of the prettiest stores in West Texas.

A Card of Thanks.

We desire to extend our thanks to all of those who contributed to our needs following the fire of last Friday which destroyed all our possessions. Such acts of brotherly love and kindness should be deeply appreciated by those favored, and we do appreciate what was done for us. Especially do we desire to thank Messrs. D. Doole, Jr., C. W. L. Texas Live Stock

Texas has more live stock than any other state in the union. We have 1,312,000 head of live stock, valued at \$125,000,000 by the Federal Government Agricultural Department on Jan. 1st, 1915. We have four head of horses in production of cattle and hogs. Illinois and Iowa lead us in hogs and we stand third in hogs. We raise the vast majority of our live stock. We raise the goods, improve the condition and increase the market price.

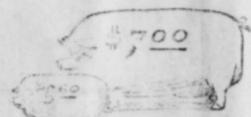

Texas has 1,312,000 head of horses valued at \$24,132,000. The average price of an Illinois horse is \$189 and the average price of a Texas horse is \$18 as shown in the cut below.

"Comparative Value in Texas and Illinois."

This difference in price is largely due to the grade of horses. By improving the grade we can sell about \$40,000,000 in live stock values of horses. This is equal to \$29 per head and would be necessary to the farmer to increase his profit to raise a good horse than to raise a poor one.

We have 1,312,000 head of hogs valued at \$125,000,000 while Illinois hogs are valued at \$7,931,000 as shown in the cut below.

"Comparative Value in Texas and Illinois."

We have 1,312,000 head of sheep valued at \$24,132,000. The Illinois sheep are valued at \$4.50 per head. This difference is due to the difference in grade and accessibility to the market. By raising the grade of the live stock of Texas to the Illinois standard we can increase value \$20,000,000 per annum, says the Commercial Secretaries' Association.

The spirit of progress that makes the farmers want better public highways, more factories, more railroads will stimulate them in improving the grade of live stock.

Farm and Factory

Texas has 8,794,000 head of cattle, valued at \$130,231,986. It is a remarkable fact that Texas has the best grade of cattle of any state, but for economic reasons fails to realize their value. It is possible that the Texas farmer may not exceed the Illinois farmer in grade of cattle but our ranches show up exceedingly well in the matter of grade of stock.

In Illinois the cattle are worth \$28.02 per head and in Texas \$14.79 per head.

"Comparative Value in Texas and Illinois."

It cost approximately \$5 per head to ship cattle from Texas to the Chicago packing houses and the remainder of the difference in price is accounted for by the fact that Texas cattle are taken off the ranches and pastures and shipped to corn countries where a few bushels of corn are fed to them and \$10 added to their value. If we had enough packing houses in Texas to utilize our supply of live stock and did our own feeding we would add \$15 per head to our cattle, says the Texas Commercial Secretaries' Association.

Packing houses sufficient to meet the present needs of Texas would add \$43,000,000 to the value of our cattle, which is more than the packing houses would cost.

Added Value to Texas Cattle by Texas Packing Houses.

By bringing the packing house to the farm we reduce economic conditions and the increase in value of live stock goes to the producer without increasing the price of meat to the consumer, without increasing the expense of the packer. The farm and the factory go and in that prosperity of either is dependent upon the other, and no clearer example of this fact could be presented, than that of the packing house and the increase it at once brings to the farmer in the value of his cattle.

A Card.

To the Voters of McCulloch County.

My large crop prevented my campaigning for re-election to the office of Representative in the 88th district. The best I can do is to attend all public gatherings possible. I wish I could see every voter face to face and tell how I stood on every proposition that came before the last legislature, and how I stand on every issue in the present campaign.

The people trusted me and I believe none of them regret it. I hope those I fail to see will take the will for the deed. If you trust me with the responsibilities of this office I will do my dead level best to serve you right.

I beg my friends to beware of misrepresentations and campaign falsehoods that may be made by my enemies. Anybody who cares to do so can examine my record and see that it is all right.

Let all my friends go to the polls and vote July 23rd and I have no fears of the result.

J. T. HAMILTON.

WE HAVE FOR SALE

1508 Acres of Land in the Famous Deep Creek Valley, of McCulloch County

This land is within eighteen miles of Brady, three miles of Placid on the Frisco, and seven miles from Mercury. The soil is black mesquite land, and very productive. The land in cultivation will show what can be grown on this fine land. We will sell this land in a body or will cut into small tracts, give good terms. If you are interested in securing you a home in one of the best farming localities of McCulloch county, see us about this land. Water can be had at a shallow depth.
