Office and y DR Customers Who Hang On Offi

A bank's customers who remain with it year after year brand that bank as good. The fact is an indication that it will be a good bank for YOU.

Steadfast customers are satisfied customers, which means that the bank renders good service, not only good service now, but it shows also that past service was good. Past and present good service are conclusive pointers to good, future service.

We point with pride to the name of a large number of our present customers whose names have been carried on our books since the bank was organized five

We are also pleased to note that the names of our present customers have remained on our books constantly since their first transactions with us.

And again, we congratulate ourselves that new customers are constantly being added to the number of the bank's patrons, and from the past records of our customers, we have every reason to believe that these new names will remain with us.

We shall render you this same satisfactory service for whatever business you may give us and as long as you wish to receive the benefits.

JEFF F. MONTGOMERY, Cashier

20,000 POUND BLAST

Contractor Hutchins, on the Menard Ex tension of the Frisco, Touches off \$1.500 Blast.

The Frisco and Santa Fe people in building their Brady extension have encountered some extremely hard rock, and enormous quantities of blasting explosives have been used. A dispatch from Menard tells of one blast last week which cost the contractor \$1500, as follows:

A black powder blast out of the ordinary was touched off near here Thursday by J. C. Gallager. powder man for E. D. Hutchins, contractor on the extension of the Fort Worth and Rio Grande railway from Brady to Menard. 20,000 pounds were used, placed in twelve drill holes, twenty feet deep in solid limestone rock and touched off with an electric battery. The blast was at 36 miles station, two miles from Menard, but at this distance the force rattled window sashes in the town. Some idea of the force of the powder may be had when it is known that an apparently solid mass of rock fifty feet wide and ninety yards long was thrown six or seven hundred feet in the air, yet it made but little noise.

Contractor Hutchins says the blast cost \$1,500, but it paid. Several photos of the blast were

A thief visited the Brady wagon yards Friday night, and several sound sleepers were relieved of money and valuables, watches, knives and some money being secured. City Marshal day report him safely behind the name is said to be Green, and he

In the notice of the death of Miss Vernia B. Shield in last therefore submitted:

Vernia B. Shield was the daughter of Mr. and Mrs. R. F. Shield of Cow Gap, east of Lohn. She was born Nov. 29, 1896, and died Sept. 10, 1910. She became ill on the 24th day of last February, and her sufferings were the first of the week. great, but she bore all with patience, never murmuring or complaining. She was a devout Christian, and told her dear ones that all was well with her and that she was only too willing to obey the call of her Sayior. Miss Verina was a noble girl, beloved by all and the idol of her school mates. All that medical skill and the love of parents and friends could do was done for her, but God said, "Come up higher, be- kidneys. loved, and I will give you rest."

BUSINESS NOTICE

TO ALL OUR PATRONS AND FRIENDS! -- Beginning October 1st, 1910, we will place our business on a strictly cash basis until January 1st, 1911. This means that we will self strictly for the cash, accepting no time business. Our reasons are that the present short crops makes a scarcity of ready money, and we must place our business on a good footing so that we will be able next year to arrange to carry on an extensive credit business. We expect next year to do the biggest business we have ever done, and we are beginning this early to get ready for it. We have always done a safe and conservative credit business, and next year we expect to be in a position to offer our friends the best credit accommodations ever offered in Brady. But in the meantime we must prepare the way, which means that all business this winter up to Jan, 1, must be on a strictly cash basis. Also beginning October 1st, we are going to scale down the prices on our merchandise to a point where one dollar in cash will do almost double duty. We are willing to accept the smallest profits possible in order to get the money, and we will be able to offer you a line of high grade merchandise at the lowest prices you have ever seen in Brady-FOR THE CASH.

Thanking you for past favors, and soliciting your cish business for the present and your credit business for 1911, we beg to remain. Yours truly

EXTRA GOOD TURNOUT

Brady Farmer Finds that it Pays to Plant Selected Seed 1265 Pounds Yields 520-lb Bale.

That it pays to plant selected cotton seed has been amply evidenced by R. L. Frankum, a McCulloch county farmer who lives four miles north of town. Mr. Frankum on last Friday brought to the Bauhof gin 1265 pounds of seed cotton which yielded a 520-lb bale. He brought the tickets to this office to prove the statement, and Mr. Bauhof stated that this was the best turnout he had ever seen in Brady, and he has been ginning here for many years.

Mr. Frankum secured the seed for this field of cotton from A. B. Mabian of Lockhart. It is called the Mabian Improved Triumph. He purchased 20 bushels for \$50, and planted 40 acres. The bale ginned Friday was the first picking, and Mr. Frankum says that besides securing more lint this cotton will also make hearly twice as much to the acre as other cotton he planted on the same farm. The improved Mabian is a short jointed stalk and bears a large 5-lock boll. The seed are much smaller than the ordinary cotton seed and are uniform in size.

It takes from 1500 to 1700 pounds seed cotton usually to make a 500-lb bale, and Mr. Frankum thinks that the new brand is the best that can be planted. He will save all the seed from his crop this year, and will have some for sale.
