CHANGE IN SCHEDULE.

Santa Fe Gives Two Hours in Brady.

A change in the schedule of the Santa Fe trains became effective Sunday at 12:01 a. m., as follows: Eastbound Train No. 54 arrives at 10:50 a. m. and departs at 1:00 p. m.; westbound, No. 53 arrives at 2:10 p. m., and departs at 3:30 p. m.

The change gives passengers more or less time to lay-over in Brady and while it possibly does not otherwise improve the service, it is of great benefit in the way of freight service, as under the present

schedule freight will be received from both the east and the west every day instead of every other day as heretofore, which will be an appreciated innovation to the Brady merchants.

The Donnell & Knox Dairy

BRADY OIL AND GAS CO.

INCORPORATED WITH CAPITAL OF \$100,000.

Company Takes Over Lands and Leases; Immediate Development of Field is Object.

Another fine well was brought in on the Meers tract last Thursday about noon, the well duplicating the last two in the point of oil production and quality, and being likewise free from salt water. This makes the fifth oil well in. F. B. Bannister and D. F. Savage are now trying for a well on the Carl Schmidt lease on the north part of Section 99.

Following this announcement comes that of the issuing of a charter to the Brady Oil & Gas Co., duly incorporated under the laws of the state, with a capitalization of \$100,000, all paid in. The company takes over the 198 acres of land, together with the wells and something over 3,000 acres in leases, and the object of the organization is to further develop the field. The men behind the organization estimate that they have enough oil already in sight to enable them to pay a dividend on their capitalization, provided they could secure a pipe line. They will push developments without delay in order to assure the pipe line, and are arranging for a deep well rigging with the announced intention of drilling until they strike pay oil below the sands in which all their present wells have been brought in.

The officers of the new company are F. B. Bannister, pres.; Lewis Brook, vice-pres.; Tom Bell, secretary; Herbert Meers, treas.; Jeff Meers, general manager. The foregoing, together with D. F. and John Savage, compose the board of directors. That these gentlemen have the energy and ability to make things lively in the field, no one for a minute doubts and, backed by a strong company, rapid development is naturally to be anticipated.

Mr. Bannister, who was first to take up the development of the field upon the present extensive proportions, is more confident than ever that it will one day rival the famous Electrica fields. He was favorably impressed at the first sight of the oil wells, and his enthusiasm has grown with each new well.

NEXT TO POSTOFFICE

Mr. and Mrs. Bannister, since their return from Pennsylvania, have decided to remain in Brady, making this their headquarters so as to be near the field of operations. Mrs. Bannister is equally enthusiastic over the wells, and pleased with prospects, as is Mr. Bannister, and nothing would suit either of them better than to see a pipe line connecting the Lohn oil wells with the markets of the world.

BRADY, TEXAS, Mar. 19, 1912

THE SANTA FE.

Probably a large majority of Brady citizens have but a faint idea of the amount of money and labor that has been expended by the Santa Fe in the development of its depot grounds and right-of-way. Many of them have never given the matter a single thought, or viewed the improvements a single time. On the other hand, a number of our citizens have shown the proper spirit of appreciation for the work being done by this great system, and are not backwards about expressing their praise.

The Santa Fe has the reputation of a town builder, and no phrase could be more worthily bestowed. From the very beginning and throughout the building of the extension through Brady and the improvements that have gone along with it, the Santa Fe has clearly shown that expense was nothing when it came to having the work done right. More than one piece of work has had to be done over for the simple reason that it did not come exactly up to the requirements.

Brady can point with pride to the handsomest depot that ever graced a town of its size; a depot that would do credit to a city of 20,000. And along with it the paved walks, the concrete and brick curbing, the concrete driveways and the pretty landscape parks, combine to make a feature that will do as much to advertise Brady as anything that has ever been done here.

"Will Brady ever have street lights?" This arrived by wireless last night from Satuit. Yes Gwendolyn, not yet, but soon. Here's hoping.

A permanent sidewalk about your property is a permanent asset, as well as a source of satisfaction. Build more sidewalks.

As soon as we have an idle moment we are going to figure out for our many readers the exact number of days until water melon time.

To our mind, since we accumulated that hefty case of spring fever, there is not near as much music in the babble of the brook as in the baiting of the hook, and the bobble of the cork.

The Menard Messenger indulged in Puzzle Picture No. 1 last week, the same being a cut turned topsy-turvy, so that instead of having "Glue Brass" oil dropping on the axis of the earth, and making that planet revolve smoothly and without earthquakes and volcanic eruptions, the south pole of the aforesaid planet was letting fall snow drops on the "Glue Brass" oil can. Perhaps the phenomenon was caused by Callan getting "het up" over the discovery of the south pole controversy.

JUST LOVES BRADY.

Our Uncle Sam loves Brady. Sure, why not? Brady is such a bully old burg that he just can't help but feel proud of it. As an indication of the esteem in which he holds us, we call to mind the fact that but a little more than three months have elapsed since the Santa Fe "come to stay" in Brady, but in that short interval our dear paternal government has unwrapped all the red and variegated colored ribbon which it uses to tie things up with and is going to allow us to get more mail more often by sending part of it via Santa Fe.

It will be clearly seen that Uncle Sam considers us much nicer and better folks than the rusty, crusty, old-timey folks that live in Menard. It took our Uncle S. something over a year to make up his mind that he would soil his hands with the duns, whisky circulars, mail order catalogues and drug cures that go to make up the Menard mail, but when he came to consider the Brady mail, the fact that it was made up largely of remittances, inquiries concerning our oil wells, coal fields, brick shale, etc., together with a fair sprinkling of offers to invest in anything that Brady might have to offer, he made up his mind in less time than it takes to tell that he would handle Brady mail anytime, anywhere anyhow, and be glad of the chance.

ABOUT OUR GROWTH.

At last reports Claude Callan had figured out that the population of Menard had doubled since the time of the first settler in that microscopic village.—Brady Standard.

Menard would grow much faster if we admitted all classes, but none but select people are permitted to reside in the county. Probably a dozen of Brady's citizens could gain admittance by promising to never mention the miserable town from whence they came, but Schwenker is not one of them. A stubborn, cold, dispassioned bachelor who continues at this late day to wear yarn sox and vote the populist ticket is not entitled to live anywhere.

BRADY'S VIEWPOINT.

Menard continues to be the playground of millionaires—like Claude Callan.—Brady Standard.

Evidently Schwenker has heard of our buying that new vest. It doesn't take much to make a Brady man think you are rich. Times are so hard over there that even the bankers over there are wearing home made canton flannel underwear.

Don't mistake the intention of the man who digs out in the garden early in the morn, and late in the evening. It's not Spring gardening; it's fishing worms.

It is a long lane that has no turn, and we've come to the turn (apparently). After all the blustery, cool and disagreeable weather of the past weeks, last Saturday brought as pleasant sunshiny and summery weather as anyone could wish for. And the effect was electrical. The town was crowded with people, everybody was in the best of spirits, and the merchants smiled for "business was good." A good rain, and more sunshiny weather would complete the joy of both farmers and city folks.

Men's half soles sewed on for \$1.00. Both workmanship and material guaranteed. Excelsior Shoe store, Brady National bank building.

A "Whatisit."

I. E. Anderson was here from Katemcy Monday on business, and dropped in at The Standard office to tell of a new product of McCulloch county. He states that A. J. Coots a few days ago killed a cotton tail rabbit which had two well developed horns about three inches in length. Both horns were on the same side of the head, one just under the ear, and the other at the corner of the mouth. Mr. Coots has preserved the scalp as a curiosity.

"It never rains but what it pours." R. B. Sheppard will testify to the correctness of this saying. Last week he received the news of the death of his father, and on top of this grief, he had the misfortune to have one of his best horses badly cut on a wire. Then the breast yoke strap on one of the horses hitched to the buggy carrying his mail to Eden broke letting the tongue fall down, and frightening the horses so that they ran away and succeeded in tearing the buggy and harness up. Mr. Sheppard thinks his cup of bitterness is running over, and everyone can sympathize with him in his troubles.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. UNIQUE NAME.

Many People Cannot Pronounce Name of World's Most Famous Catarrh Remedy.

High-o-me—that's the proper way to pronounce HYOMEI, the old reliable remedy that has rid tens of thousands of people of that vile and disgusting disease. HYOMEI is made of purest of Australian eucalyptus, combined with thymol and other effective antiseptics and is guaranteed to be free from cocaine or any harmful drug.

HYOMEI is guaranteed to end the misery of catarrh, asthma, croup, catarrhal deafness, bronchitis, coughs or colds, or money back.

Breathe it, that's all; no dosing the stomach. Complete outfit, including indestructible inhaler, \$1.00. Extra bottles of HYOMEI, if needed, 50 cents at the Central Drug store and druggists everywhere.

Important Features Necessary To a Perfect Refrigeration

Among users and dealers it is generally understood that next to economy of ice, the most important requisite of a perfect refrigerator is that it be so constructed that it can be kept clean, and that the best of the old style refrigerators are deficient and imperfect in this important feature. As a result they soon become tainted, unwholesome, unhealthy and practically unfit for use. That the leading refrigerator manufacturers recognize this serious fault and admit the necessity of constructing a refrigerator with as many cleanable advantages as possible, is made evident by the literature of the day, as set forth in the catalogs, folders and circulars in which they lay claim to "removable metallic shelves", "cleanable traps, flues, ice racks" etc. An examination of any of the best of the old style refrigerators will show the fallacy of cleaning only part of the refrigerator and leaving inaccessible places exposed to accumulate and absorb vaporous gases and food particles that rise from the provision chamber.

The GURNEY is the ONLY REFRIGERATOR that can be kept ABSOLUTELY PURE and CLEAN for all time, and is Superior in many points.

BENHAM'S SPRING OPENING

Prettiest Display of Millinery Ever Given.

Saturday was ladies' day at Benham's—not that every day isn't a good day for the ladies to visit this popular store, but when the newest creations in millinery are on exhibit, mere man takes a seat in the corner and becomes only an interested spectator.

Nothing could have been more auspicious than was the opening for the gods favored with the first pretty day in weeks and the fashionable parlors were crowded all through the afternoon, everyone in good spirits over the pretty day which permitted them to attend the season's most inviting show.

Nothing can excel Springtime for showing up millinery. There is something in the gay, attractive and altogether charming creations that can be found at no other time of the year. There is a greater range of coloring, of design and of material, and each and every one of these is used to the greatest advantage, by the deft fingers that shape the hats.

Miss Kerley had every reason to be proud of her showing. Not only were the comments on the multitude of hats most complimentary, but her good taste and judgment were displayed in everyone, and the variety was so complete that no one had occasion to be disappointed or to complain that her individual beauty was not enhanced by the hat of her selection. Coupled with this the fact that Easter is early this year, and that every lady is sure to want her hat in time for this occasion, and it can be readily seen why the showing was a success from every standpoint.

Before you buy see our line of new hats. Wm. Connolly & Co.

Take Herbine for Indigestion. It relieves the pain in a few minutes and forces the fermented matter which causes the misery into the bowels, where it is expelled. Price 50c. Sold by Central Drug Store.

Improving.

All the small pox patients are improving nicely is the report of County Health Officer Callan. Mrs. Fraim had a very light case and all the children are well on the road to recovery. The youngest child had a rise in fever for a few days, although from some cause other than the small pox, but is also recovering from this.

At Mercury A. C. Wright, assistant post master, had a light case of the small pox, but has practically recovered.

Died.

Joe Wheeler, the little son of Mrs. Wm. Johnson, died Sunday at the family home at Rochelle of pneumonia. The funeral services were conducted by Rev. D. R. Hardison Monday morning at 11 o'clock, and interment was made in the Rochelle cemetery.

The death is particularly sad, the father, Wm. Johnson, having died just a few weeks ago. The little lad was a bright youngster, the idol of his mother and grandfather, as well as many friends. He would have been three years old on May 25. The sympathy of all is extended the family.

Notice

With The Candidates

Will Ballou.

Will Ballou is a candidate for the office of city secretary, and his announcement appears in our column this week. Mr. Ballou has been known too long by Brady citizens to need introduction, and he numbers his friends by his acquaintances. Since returning to Brady he has established himself in the fire insurance business, which will permit of him giving much of his time to the duties of the secretary's office. That he is in every way capable to discharge the duties and that, should he be elected, he will look after the office in a careful and conscientious manner, there can be no question. Mr. Ballou requests a careful consideration of his candidacy by the voters of Brady.

G. B. Awalt.

G. B. Awalt announces in this issue for the office of Commissioner of Precinct No. 2. Mr. Awalt is one of the best-known and most substantial citizens of McCulloch county. He has been a resident of the county for 29 years, during which time he has proven his sterling

worth as a citizen and as an up-builder of his community. Mr. Awalt, as proprietor of the Bide-A-Wee stock farm at Camp San Saba, has become known for the fine cattle he breeds, and his acquaintance through this means not only extends all over the county, but throughout the state. No better man could be selected to look after the welfare of the citizens of that part of the county and, should he be elected, the voters can rest assured that every detail of the work of the office will be looked after by him in a careful, conscientious and thoroughly capable manner. Mr. Awalt asks the careful consideration of the voters.

THE TOGGERY

Townsend & Ogden,

JUST A REMINDER.

DAINTY AND FASHIONABLE DRESSES FOR EASTER
AND SPRING WEAR—NEWEST NOVELTIES
IN DRESS GOODS AND LACES.

With Spring, the most beautiful month in the year, at hand and Easter but a few weeks off, the new Spring dresses are claiming the attention of the fair sex, and well they may, for never was there anything more beautiful or stylish than the dresses included in the exhibit at Benham's, and some of the cleverest ideas brought out this season are on display.

For style and service nothing can surpass the beautiful wool crash dresses with those unique Bulgarian trimmings, nor could anything be daintier or more becoming than a handsome white serge dress trimmed with green and white silk. Then there are attractive dresses in cotton voiles and percales, summer weight wools and linens; and in lace and embroidery dresses the showing includes an exquisite assortment such as would delight any feminine heart. Nor is there anyone to whom the al-

together novel linen and reversible auto coats would not appeal. These are made in most fetching styles and will prove popular with all.

Possibly the newest dress goods on the market, as well as one of the most charming weaves, is the new Ratine, which promises to become all the rage. The Ratine makes up beautifully and presents a most charming effect. And still another article worthy of more than passing notice is the exceptionally pretty 7-inch Linen Cluny lace, just received. Nothing can surpass this in point of beauty and attractiveness.

But this is but the beginning of the many pretty things to be found at Benham's—the hall will never be told. Your shopping will always be pleasant if you will but make it a habit to drop in at Benham's for a look at the new and pretty things every time you visit town.

Brady Sanitary Dairy.

The above is the style of a new dairy which began making deliveries in Brady Saturday evening. The Sanitary dairy is being conducted by Messrs. Thos. Donnell and F. A. Knox, they having purchased twenty fine Jersey cows from Reed Bros. at Dublin last week, and taken over the dairy business of C. A. Hodges.

Messrs. Donnell and Knox will operate their dairy at the Brady Oil Mill, and their plans embody the most sanitary and up-to-date establishment in West Texas. As soon as their present preparations are completed they will be in position to serve their customers with all the sweet milk, butter, milk, butter and cream desired, and will be ready to give prompt attention to any orders.

Both gentlemen are well known to Brady citizens, and number among our most substantial and progressive citizens. In their new enterprise they have the good will and good wishes of the public.

Citizens of McCulloch county: Counsel with your physicians or see W. S. Shropshire and get vaccine points and shields to vaccinate your family.

At Mrs. Moore's.

Mrs. M. J. Moore entertained her friends and customers Saturday with her showing of Spring hats. Aunt Jane has been in the millinery business for a long number of years, and has become so identified with the business that no one ever thinks of millinery without thinking of "Aunt Jane." Likewise the customers that have made their purchases from her during the past are sure to come back each year, which is a tribute to her popularity and the satisfaction one is sure to obtain. Mrs. Moore's exhibit this year was not below the standard, but all the newest and most fashionable of headgear was to be seen, in all the most pleasing and attractive designs. Mrs. Moore was well pleased with her showing, as well as with the many words of praise received.

RAMSEY SUPPORTERS.

Hold Mass Meeting on Friday,
March 15th.

At a mass meeting of the Democrats of McCulloch county favorable to the candidacy of Hon. W. F. Ramsey for governor held at the court house on March 15th, the following proceedings were had:

At 2:40 o'clock p. m. F. M. Newman was elected temporary chairman and appointed A. G. Walker temporary secretary. On motion duly seconded and carried, F. M. Newman was elected permanent county chairman. On motion duly seconded and carried, J. F. Quicksall was elected permanent county secretary. By a resolution the permanent chairman was authorized to appoint a chairman for each voting precinct in the county, with authority to organize precinct Ramsey clubs to co-operate with the county Ramsey club.

After a few hot air speeches the mass meeting adjourned, subject to the call of the permanent chairman.

St. Patrick's Day.

St. Patrick's Day fell on Sunday this year. The occasion was "Dooley" observed in the wearing of the green by all who were Irish by reason of birth, marriage or sympathy, and many a green badge floated from the coat lapels.

As a reminder of the occasion, there is on our desk a bit of real Irish grown Shamrock, fresh from the "ould sod." The little remembrance was sent Miss Bess Rice by relatives in Ireland, and she in turn remembered us with a bit of the gift. The Shamrock was accompanied by a little verse, printed in the original Celtic, but lest our readers should fail to discern the beauty of its rhythm in the original, we give the translation:

"The Dear Little Shamrock."
"There's a dear little plant
that grows in our Isle,
'Twas St. Patrick himself
that set it;

And the sun on his labor with
pleasure did smile,
And with dew from his eye
often wet it.

It shines through the bog, thro'
the brake, and the mireland
And he called it the dear lit-
tle Shamrock of Ireland."

The dear little Shamrock,
The sweet little Shamrock,
The dear little, sweet little
Shamrock of Ireland."

This Is So.

FELT BAD ALL THE TIME

Shellhorn Lady Suffered a Great
Deal, But is All Right Now.

Shellhorn, Ala.—In a letter from this place, Mrs. Carrie May says: "A short time ago, I commenced to have weak spells and headaches. I felt bad all the time, and soon grew so bad I couldn't stay up. I thought I would die.

At last my husband got me a bottle of Cardui, and it helped me; so he got some more. After I had taken the second bottle, I was entirely well.

I wish every lady, suffering from womanly trouble, would try Cardui. It is the best medicine I know of. It did me more good than anything I ever used."

Cardui is a woman's tonic—a strengthening medicine for women, made from ingredients that act specifically on the womanly organs, and thus help to build up the womanly constitution to glowing good health.

As a remedy for woman's ills, it has a successful record of over 50 years.

Your druggist sells it. Please try it. N. B.—Write for Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

START MAIL SERVICE

AUTHORIZED TO BEGIN ON
MONDAY, MARCH 25th.

Santa Fe Accepts Department's
Offer for Carrying Mail from
Lometa to Eden.

Railway mail service on the Santa Fe from Lometa to Eden is to be established Monday, March 25th. Congressman Jas. L. Slayden is just in receipt of this advice from Joseph Stewart, second assistant post master general, in a letter under date of March 14th, which states that the Santa Fe has accepted the department's offer, and that an order had that day been issued authorizing service from March 25th, 1912.

Credit for the establishing of the service is due Congressman Slayden, who has been active and persistent in calling the matter to the department's attention, having called on the department every week since the first of December. The new service will be a great convenience to the people of Brady, as well as all the towns along the extension, and Mr. Slayden's efforts are highly appreciated by all.

MURDER AT LOMETA.

Finis Hunt Murdered—Brother
Under Arrest.

Finis Hunt, 25 years of age, was shot three times with a large calibre gun and his head battered into a pulp Monday night of last week. Tom Hunt, aged 22, a brother of the deceased, was arrested charged with the murder. The weapon used by the murderer was recognized by the mother of the boys as having been a family possession for a long number of years.

The murder is the first ever committed in the town of Lometa, and has caused considerable stir.

Mrs. Lee Horton Dead.

Mrs. Ed S. Clark received the sad news Sunday of the death of her sister, Mrs. Lee Horton, which occurred at Cisco Friday morning at 2 o'clock. Mrs. Horton had been sick for several weeks with a complication of stomach and heart trouble. The funeral was held Saturday afternoon at 4 o'clock in Cisco.

Mr. and Mrs. Horton are well known to Brady citizens, having made their home here up to a couple of years ago, and Mrs. Horton having visited here last December. Fate has dealt hard with Mr. Horton, he having lost his 7-months old babe less than two months ago from congestion of the brain. In his bereavement, he has the sympathy of all.

The Brady Spirit.

A look about town will convince any observant person that Brady citizens possess the spirit that overcomes all obstacles; the spirit that builds cities, and builds so that future generations will point with pride to the monuments left by the citizens of the present.

What called this article to mind was the near completion of the improvements on North Bridge street and about the new Union depot. Here one of the roughest and most unsightly of places has been converted into a beautiful site, with parked terraces and paved walks, pretty parks and broad concrete driveways. This feat, including the grading of the hill on Bridge street north of the tracks, was accomplished by the D. J. Griffith grading outfit, in charge of W. E. Shotwell, who is now having the finishing touches put on the Bridge street improvements in preparation for the lining of the street on either side with concrete curbing and guttering by the Santa Fe. This grading had all to be done through solid rock, and when the statement is made that all the damage in the way of broken windows or damaged property resulting from the blasting, during the year or more that operations were in progress, amounted to \$6.80, it will readily be seen that Mr. Shotwell understands this phase of the business thoroughly. In fact, he is the only man the Santa Fe would entrust this work to.

Still another remarkable piece of work by Mr. Shotwell is the grading of the lot upon which Mrs. Laura White will erect her handsome \$30,000.00 home. All who remember the appearance of this property before the improvements were begun, will find its present appearance a revelation. Part of Mr. Shotwell's task is the digging of a cistern and a cellar, both through solid rock, the former being 25x30 ft., and 9 ft. deep. Everyone will agree that this is no child's play, yet the work is progressing rapidly. The excavations are being used to fill the lower part of the lot and in turn are covered with black soil which will be parked and sodded, thus converting the place into one of the prettiest building lots in the city.
