Mann Bros. Ice MELTS SLOWLY

IT IS CUT as nearly as possible, in square, even blocks of "Hot Weather Comfort" that present the smallest surface to the atmosphere and melts more slowly than ice that is cut in an irregular lump. Then, too, the square block fits snugly in the ice box and a larger piece can be used.

That is one reason why "Mann Bros. Ice" is more economical than other kinds, and it is better too. Let us send one of our men to show you how good "Mann Bros. Ice" is. JUST PHONE 125.

Indian Relics.

Our good friend, I. E. Anderson of the Katemcy neighborhood was exhibiting an unusual relic in the shape of a tomahawk which he had picked up on his place. Mr. Anderson says arrow heads and other relics of Indian days are quite plentiful, but this is the first tomahawk that he has ever seen. The weapon was shaped from a flinty rock, and its appearance was suggestive of scalp raising.

J. M. Williams of Nine, who happened in at The Standard office at the same time told of

finding a human skeleton buried in a shallow grave under a rock mound. The skeleton was lying face downward in a short grave, indicating that the body had been doubled over in burying. Around the hole rocks had been stood on end, and over the grave had been erected a rock mound. The bottom of the grave held a number of long flint rock objects indicating that the skeleton was that of an Indian, who had been buried with his weapons of warfare.

WORK IN LOHN OIL FIELD

NOW DRILLING ON THE W. WHITE RANCH.

Wells Contemplated at Fife and on Crockett Ranch—Oil Men See Bright Prospects.

The well on the Meers tract is down to about 800 feet, with two small shows of oil and gas. Drilling is progressing satisfactorily.

The Four Oil Co., lessees of the McCulloch County Syndicate have set 6 3/4 casing at about 750 feet in Well No. 1 on the Roberts farm.

The Cleo Oil Co., lessees of the McCulloch County Syndicate, are drilling at a shallow depth with Well No. 1 on the Johnny White ranch near Whiteland.

F. C. Henderson, lessee of the McCulloch County Syndicate, has all the machinery moved from Mercury to the location for Well No. 1 on Willie White's Bluff Creek ranch, and is about ready to commence drilling.

Messrs. Egan and Kiskaddon will drill Well No. 1 on the E. W. Harris ranch for the Okla. Oil Company, lessees of the McCulloch County Syndicate.

C. P. Brandt and others will drill a second well on land controlled by the syndicate.

M. E. Moore of Muskogee, as lessee of the McCulloch County Syndicate will drill Well No. 1 on the Colton ranch.

Drilling by the McCulloch County Syndicate on the two wells on the Zelle ranch has been delayed on account of fishing for lost tools.

It is an every day sight to see teams on the county roads leading from Brady hauling out large sized oil well casings and drilling supplies.

It is reported that the Lohn Oil Co. has purchased a large-sized drilling equipment to deepen the Waddle and Foster wells.

J. A. Moor of Houston, well known throughout the oil fields of the United States as an experienced operator, is a visitor to the fields.

It is rumored that in case sufficient acreage can be secured to justify the tests, two more wells will be drilled by the McCulloch County Syndicate, one near Fife, and the other near the E. W. Crockett ranch northwest of Lohn.

A representative of the Star Drilling Machine Co., of Akron, Ohio, spent several days here inspecting the work under way and stated that the prospects seemed very bright for a valuable field of oil and gas as a result of the work under way.

BITTEN BY A SKUNK.

Mrs. J. O. Willoughby Attacked at Eldorado.

Tuesday afternoon of last week Mrs. J. O. Willoughby was attacked by a skunk at her home near Eldorado, the animal biting her on the heel. Mr. Willoughby at once started with her for Eldorado to secure medical attention, and at Eldorado they were fortunately met by Miss Hadye Willoughby of Brady, who, together with her sister, Mrs. Willie White, and guests, Miss Lillian Manor of Manor, Texas, and Miss Ora Hurlbut of Brownwood, were just enroute to the ranch for a visit.

Mr. and Mrs. Willoughby were taken in the car to San Angelo, where they boarded the train for Austin in order that Mrs. Willoughby might enter the Pasteur Institute for treatment.

The skunk had been bothering the chickens, and Mrs. Willoughby had been endeavoring to kill it. Shortly after dinner a commotion among the chickens was heard, but the varmint was frightened away before she could get near it. While sitting on the porch steps to await its return, the animal came up from behind and bit her on the heel. So enraged was it that it was with difficulty that Mrs. Willoughby tore herself loose.

The varmint was later killed and its head sent to Austin for examination as to evidence of hydrophobia. A telegram Friday announced that the physicians pronounced it rabid.

The fact that Mrs. Willoughby lost no time in securing treatment at the Pasteur Institute, even before it was known that the varmint had rabies, and the further fact that the wound was cauterized in Eldorado, are much in favor of her speedy recovery, and her many friends here hope that such may be the case.

CONTRACT NEW BUILDING

E. B. Ramsay Secures Contract on Abney & Vincent Building.

Abney & Vincent last week let the contract for their handsome new business block to replace the building burned some months ago. E. B. Ramsay was the successful bidder, and his contract calls for the completion of the building in sixty days. Mr. Ramsay has a force at work this week clearing away the debris and taking the preliminary steps toward the actual construction.

The early completion of the new block will be of great advantage to Abney & Vincent, as it will enable them to occupy their new quarters in time for the opening of the fall business, and Brady citizens will rejoice with them upon the occupancy of their handsome new quarters.

A New Citizen.

W. H. Lake arrived Saturday from Commerce and will become a Brady citizen, having accepted a position as cashier with the Bencini Oil mill. Mr. Lake is a most pleasant and affable gentleman, and The Standard is glad to welcome him to Brady.

Mrs. Lake arrived Sunday, and they will be at home in the Bencini house south of the oil mill.

A. W. Wood, who has been with the Bencini mill since it was first located in Brady, will continue in charge of the business, and with the encouraging prospects is looking forward to a splendid run of business.

PEAR VALLEY PICNIC.

Citizens Will Have Big Celebration July 12th.

Come to Pear Valley Friday, the 12th!

That's the hearty invitation of the good citizens of Pear Valley to the people of McCulloch county, and an invitation that is sure to meet with a hearty response. Pear Valley numbers some of the best and most whole hearted citizens in the county, and the barbecue and picnic on the 12th will be one never to be forgotten.

A good program of speaking has been arranged, and there will be not one dull moment during the entire day, either before, after or during the dinner. Among the speakers will be Hon. T. C. Yantis of Brownwood who will deliver an address on education. Mr. Yantis is well known as an able and interesting speaker, and one whom everyone will hear with pleasure. The candidates will likewise be present to press their claims, and various other forms of entertainment will be had.

If you want a really good time, spend next Friday with the citizens of Pear Valley.

Most complete line of builders' hardware in the city. O. D. Mann & Sons.

W. R. Pence is disconsolate, and the reason is that his brother, D. C. beat him too bad on oats to talk about. Where W. R. made 35 bushels to the acre, D. C. averaged 50, and that is enough to make anyone feel put out. D. C. says what's more, he saved on seed as well, sowing but three-fourths of a bushel to the acre, and says his experience is that it will make more oats. He states that in two fields equally good, and with but a lane between them, he sowed three-fourths of a bushel in one and one bushel in the other, and the former was as good, if not better, than the latter.

BRADY, TEXAS, July 10, 1912

ABOUT FLIES.

"Swat the fly" is the slogan from one end of the United States to the other, and it is a good one. But along with it comes the question of the best method of "swatting."

In this connection we beg to call attention to the fly traps. The fly trap is a wire contraption with a conical opening at the base, permitting of easy entrance by the flies, but once they have entered they find it impossible to make their exit, the small opening at the top of the cone not being easily found.

These traps are simple in construction and inexpensive in manufacture, and the number of flies they will entrap in the course of a day is astonishing. There is at least one trap in operation in the city, and it is doing some good work in diminishing the pest. What could be accomplished by the use of this trap in all parts of the city is not hard to guess. It would mean the practical extinction of the pests in Brady.

It has been suggested that, from a sanitary standpoint, the city should invest in a number of traps, placing them in various parts of the city where they would accomplish the most good. Many of our neighboring cities have already adopted the plan, and report gratifying results. In fact, a diminishing of the pests is noticeable after the traps have been in operation but a short time.

Brady is one of the healthiest cities in the state, and the upkeep of our reputation as such depends almost entirely upon the precautions we take along lines of sanitary measures.

Swat the flies every chance you get.

There is nothing so enjoyable as the cool breezes that blow in Brady.

Another handsome two-story structure is about to become a reality in Brady. Everybody in Brady boosts; every boost is for Brady.

Still waters run deep, and the gum shoe progress of the developments in the oil fields may but betoken the calm before the storm of great things to happen.

Vol. 1, No. 1 of the Coleman County Herald has reached our desk. Messrs. McDaniel & Stephens have taken over the Coleman News plant and are issuing a sprightly paper for Coleman and Coleman county. The initial number contains a nice line of patronage and bespeaks prosperity and success for the promoters.

ET TU, BRUTUS!

One by one are our idols shattered!

Now comes to our knowledge that our erstwhile friend, one Joe A. Adkins, has entered into a horrible conspiracy with our arch-enemy, Claude Callan, of Menard Messenger infamy, to undermine and destroy the great and good influence we have with the voters in general and the Populist party in particular. They allege, Claude Callan being spokesman for the pair, that we have deserted the "peepul's party" and have joined the plutocrats, such as John D. Rockefeller, Pierpont Morgan, et al. 'Tis true, alas, 'tis true, that when pinched for funds, we plutocrats will raise the price of oil a cent or two, advance the price of steel, or bulge the subscription price of The Standard, but all this was a deep and dark secret until Joe Double A betrayed us into the hands of the enemy.

Nevertheless, our great and good influence is not entirely destroyed, and we shall continue to battle for the mighty and the right, you mighty right. And furthermore, vengeance shall be ours. Should the Hon. Joe ever present himself as an avowed candidate for presidential or even gubernatorial honors, it shall be our great pleasure to stomp the country against him, and wield our trenchant (meaning fountain) pen against him and his'n.

As for Claude C., since he has enrolled with the strange alliance to promote the bandanna republic, we have cut him from our exchange list, and shall henceforth weep over him as one who is dead.

Just as fast as the price of watermelons decreases, just so rapidly does the appetite of the ordinary individual for watermelons increase.

Brady has a reputation as one of the best and liveliest towns in the state. Its reputation on moonless nights, however, is somewhat shady. Turn on the light.

Brady's citizens have the building fever. In fact, they never quite recover. Just as soon as they have built themselves a home, they build business houses, and when that is completed they build cement walks, auto garages, stables, additions to their houses, more houses, etc., etc., etc. Come to Brady.

A CALUMNY.

When we read Schwenker's "fanny sayuns" they somehow make us feel that we are in the atmosphere of sauer kraut and limburger cheese, "vare de Doothvons bees." And when we read Callan's rollicking, sparkling wit we feel that we are amid the perfume-laden atmosphere of the hawthorn, shamrock and rose along the green, mossy banks where the river Shannon flows.—Rochelle Record.

None but a deep, dyed-in-the-wool villain would refer to our altogether deep, pithy and lucid remarks as "fanny sayuns." And that we should be submitted to the indignity of having our remarks mentioned in the same breath with the crude and erudite efforts of the Hooligan that knows not the difference between the shamrock and the four-leaf clover—it is to laugh.

Not satisfied with the splendid 20-page aviation edition issued but recently, John E. Cooke goes all previous efforts considerably better by issuing a 24-page special in honor of the forthcoming fair at Rockdale. The edition is one of the prettiest we have seen in a long time, both from a typographical standpoint and the standpoint of local appreciation and support. All told, there is considerably more than twenty pages of advertising. The fair association alone takes a double page, and page and half and quarter page ads are too numerous to mention. The Rockdale fair lays claim to being the best county fair in the state, and with the boosting qualities of John E. Cooke, backed by the support and influence of the business men of Rockdale, it will be an easy matter for Rockdale to maintain that reputation.

The West Texas News of Del Rio bears at its masthead the familiar name of Gaskel Romney as editor, who makes his bow in the last issue as the new editor and associate owner. Mr. Romney is well remembered by Brady folks, having been engaged here and elsewhere in the advertising and publicity business, and his return to his first love—the newspaper business—is quite natural. Here's to his unqualified success.

TOPS THE MARKET.

McCulloch County Pays Biggest Price for Wool.

Over half a million pounds of wool is the record made by McCulloch Co. in the handling of this year's output. Of this amount, there were 325,000 pounds individual sales, while 200,000 pounds were sold out of the warehouse. This company's wool sales this season ranged from 16c and 17c for short wool to 19c basis twelve month's wool.

The distinction for realizing the highest price for any fine wools sold in this section of the state this season belongs to Mrs. J. C. Wilhelm. Her clip of 30,000 pounds was sold for 21c, the wool being received by H. P. Roddie for the account of Goodhue, Studley & Emery of Boston, Mass. It is a well known fact that Brady wool has a reputation of being the longest and best staple on the market, and to this end always commands the best prices, as the above sale will witness.

Who said that wools wouldn't sell in Brady for the highest market value?

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years has supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proved Catarrh to be a constitutional disease, and local remedies are constitutional treatment. H.P. Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Catarrh Cure on the market. It is taken internally, it cures from its source in a few days. It acts directly on the blood and suppresses a flow of the system. There are one hundred names for this cure in the book, send for booklet and a free trial.

Our First.

Now comes one A. A. Carroll, a friend of the editor, who deposits at our door one watermelon of handsome size with the request that we sample a product of San Saba county. Of course we are loath to admit that San Saba could raise a melon anywheres near so good as one grown in Grand Old McCulloch, but nevertheless are bound to admit that A. A. Carroll uses awfully good seed for his melon patch. Mr. Carroll, after enjoying the joy of living in Brady for quite a while, last spring experienced a "back to the farm" fever, and hid himself to a spot near Richland Springs, where he leased a fine piece of land. Just to dispel our notion that fine watermelons was all he raised, Mr. Carroll told us confidentially that he had 15 acres of corn that threatened to make 40 bushels to the acre, and that one of his neighbors was assured of 50 bushels. Then he promised to treat us to some Elberta and Mamie Ross peaches a little later that would make us want to move to San Saba county.

We like A. A. all right, but he mustn't tempt us too far.

Showers Sunday.

Despite the encouraging outlook, Brady failed to receive the much-hoped-for rain Sunday. At Lohn, however, a good shower fell, the water standing after the downpour. Menard also had a good shower, and rain is reported from Eden to Whiteland. Out in the Tucker neighborhood a light shower fell.

The continued cloudy weather and humid atmosphere give encouragement that the rain will yet come, and reports from all parts of the county are to the effect that nothing could be more appreciated or come in better turn just at present.

PERSONAL & LOCAL

M. J. Hutto was up from Waldrip Monday on business.

L. G. Porter, Melvin's popular druggist, was a business visitor here this week.

Miss Helen Elliott has returned from Austin, where she has been visiting several weeks.

Mrs. M. E. Gotcher and Mrs. Maury of Sweetwater are guests of Mr. and Mrs. Q. V. Crump.

Frank Ogden has gone back to his first love—the printing art, and is now engaged in sorting pi at the Sentinel office.

W. H. Seymour, one of the prominent citizens of Melvin, permitted us to separate him from a dollar the other day.

Mr. and Mrs. J. R. Stone, accompanied by Mrs. W. M. Hundley, are spending a week on the Coggin ranch near Brownwood.

Mrs. Jim Bell of Brady has been here this week visiting her parents, Mr. and Mrs. J. T. Scott and other relatives.—Cherokee Herald.

O. B. Preston, traveling freight agent for the T. & B. V., was here yesterday interviewing the merchants on behalf of his company.

W. G. Barnett, editor of the Eden Echo, was in Brady Saturday, returning from a visit at Fredonia, and paid The Standard a fraternal call.

Lee Quicksall returned Monday from a several weeks' visit at Rising Star, Waco and other points, the trip combining business and pleasure.

Mr. and Mrs. Will Davidson left last week for Madison, Ind., where they will spend a month visiting his parents, Mr. and Mrs. W. R. Davidson, Sr.

Mr. and Mrs. J. F. Campbell returned to San Saba last Friday, after a few days' visit with his brother, P. A. Campbell, and wife. Mr. Campbell is cashier of the First National bank at San Saba.

Miss Nona Teague, who has been employed with The Standard and The Sentinel the past three years as compositor, left Saturday for Bonham, where she has an excellent position in a dry goods store.

Mr. and Mrs. G. L. Bledsoe of Dublin are the guests of their daughter, Mrs. J. A. Cameron. Like all others who visit Brady, they are carried away with the place and have none but good words for Brady.

A. R. Carlson and family are spending a few weeks with relatives and friends in their old home at Taylor. Mr. Carlson wants to keep up with the happenings here and so orders The Standard to the address of B. G. Swenson at Taylor.

Mr. and Mrs. S. T. Ballou returned Monday evening from an extended visit to Silver City. S. T. says he did some hard work out on the ranch, and made the younger boys look to their laurels. He is looking hale and hearty and it appears that hard work is the very thing for him.

Judge and Mrs. E. P. Lea returned Thursday from a several weeks' vacation trip, both greatly improved in health and spirits by the outing. Mrs. Lea visited relatives in McLennan, Bell and Falls counties, while E. P. confined his enjoyment to get-

ting fat on fish at Rockport. He says that he saved all the squirrels for his next visit.

George F. Hurley, one of Katemey's oldest and most prominent citizens, was in Brady Monday and refused to permit us to stop his Standard. Mr. Hurley reports everything looking good so far down his way, and says that nothing can beat his community for making crops even if it is dry. He was accompanied by his son-in-law, Prof. E. L. Allison, of Eden who had been visiting him. Prof. Allison was boosting for the big picnic and barbecue at Eden on the 24th of this month, while Mr. Hurley said the event of the season would be the big picnic at Katemey on Thursday, July 18th. Both were extending liberal invitations to all to attend.

Drowned at Corpus.

The following account of the death of Miss Belle Patrick will be of interest to Brady citizens, Miss Patrick being a sister of A. A. Patrick, formerly of this city, and all will sympathize with him in his bereavement.

"Miss Belle Patrick, who was attending the summer normal at Corpus Christi, was drowned last Saturday afternoon while in bathing with a number of other young lady teachers. She and one other of the teachers were caught in an undertow and carried some distance out before they could be rescued, and when they were, Miss Patrick was unconscious and died shortly afterward. Her remains were shipped to Dublin, where she was buried Monday. Miss Patrick taught school at Proctor some few years ago, also at Edna Hill, and her many friends throughout this section will be grieved to learn of her tragic death."

Mr. W. T. Loudermilk, chairman of the sub-committee on cotton marketing of the Texas Welfare Commission, made his report to the Commission in session in this city last week, favoring the holding plan adopted by the Farmers' Union, and suggested that funds be provided for lending money at six per cent on distress cotton, and recommended that the business interests co-operate with the farmers in securing better prices for their products. The plan has been tried out by the Farmers' Union, and its efficiency in regulating prices demonstrated, and with more complete co-operation on the part of the business interests can be made a powerful factor in price-making.

Mr. Loudermilk is a practical farmer, ex-president of the Farmers' Union, and one of the closest students of agricultural conditions in the South.

ROBT. S. LOVETT

THREE RAILROAD MEN OF NATIONAL PROMINENCE WHO, ON INVITATION OF THE TEXAS WELFARE COMMISSION, APPEARED BEFORE THAT BODY AND DISCUSSED TEXAS RAILROAD MATTERS.

A synopsis of their general views follow:

- 1st.—That the stock and bond law be so amended as to make it possible to refund maturing bonds and to make such extensions, improvements and betterments as are needed; the bonds to be issued prior to the expenditure.
- 2nd.—That railroads are not properly compensated for their services.
- 3rd.—That personal injury claims are far in excess on Texas lines of those of other states on any basis of comparison.
- 4th.—Unequal taxation. Railroads are valued by the Railroad Commission at \$210,000,000 and by the Tax Commission at \$409,000,000.
