

## TO THE FARMERS

I wish to say that I have thoroughly overhauled my gin, bought and installed new saws and brushes and other machinery, and that I have everything in first-class condition for ginning your cotton.

My gin is conveniently arranged; I have experienced men to operate every part of the machinery, and you will make no mistake in patronizing me.

I rely upon good service to merit your patronage, and know I can please you.

Machine-made clothes can be pressed into tailor made shape, just as brass can be plated to look like gold. But the coat won't hold its shape, any more than the brass will hold its plating!

### DISTRICT COURT.

Chas. Deans Case Set for Trial  
Next Monday.

In the case of A. J. Cottrell a continuance was granted at the request of the defense on account of the absence of witnesses.

Several other cases were continued and a number of divorce cases were heard, court adjourning for the week yesterday immediately after dinner.

The Chas. Deans case will be taken up next Monday afternoon.

### Wedding Bells.

Judge Walker yesterday made two couples happy, saying the words that united for better or worse Mr. Si Bostick and Mrs. Calhoun, both well known Brady people, and also L. L. Tipton and Miss Hattie Guess, both of San Saba.

W. T. Bumgardner's feed cleaner will be in operation Saturday, ready to thresh maize and re-clean oats.

Always call for a Brady broom made by J. W. Embry. They are the best.

### COTTON GINNED.

Total of 1167 Bales—3090 For  
the Season.

According to the estimate of one of the local ginners, the cotton ginned in Brady this year will reach the 3000 mark as compared with 2600 last year. The universal opinion among the farmers now seems to be that their cotton will make more than was at first anticipated.

The following is the number ginned in Brady:

McAnally & Wells.....	403
Wm. Bauhof.....	336
J. C. Koerth.....	423
Total.....	1167
Cotton received in Brady from wagons is as follows:	
Public Cotton Yard.....	2080
Farmers U. Warehouse.....	1297

### Leave for Aransas Pass.

Mr. and Mrs. W. M. Hundley expect to leave the first of next week for Aransas Pass, where Mr. Hundley will take the agency for the Terminal railway during the next several months, while enjoying a three months' leave of absence here. Mr. Hundley has for some time contemplated going to the coast country in the hopes that a change in climate might benefit his hearing, and if such should be the case, he will probably remain at Aransas Pass permanently. Both Mr. and Mrs. Hundley have many warm friends in Brady who will learn of their leaving with regret. Mr. Hundley has been one of the most accommodating and courteous agents ever in Brady, and has won the good will and well wishes of all who have had dealings with him. Mrs. Hundley is a most charming woman who will be greatly missed by numbers of close personal friends as well as in social circles.

A. J. Graham, at present employed as cashier at the depot, will succeed Mr. Hundley during his absence and will doubtless hold the position of agent permanently in case Mr. Hundley decides not to return. Mr. Graham is a splendid railroad man and has made many friends during his stay in Brady, all of whom will learn with pleasure of his promotion.

H. W. Day of Memphis, Tenn., arrived yesterday to take charge of the local telephone exchange, succeeding W. W. Davis, who has been temporarily in charge and who will return the end of the week to Brownwood. Mr. Day is a most pleasant and agreeable and accommodating gentleman, and as such the citizens of Brady are assured that their dealings with the new management will be most pleasant. Mr. Day's family, who are at present in Dallas, will join him here in the next week or two and will find a hearty welcome from the citizens of Brady.

Both our Notion and Staple departments are chuck full of bargains. Everything you need at a great saving. Wm. Connolly & Co.

A pretty little girl arrived at the home of Mr. and Mrs. W. E. Moore Tuesday night.

### COUNCIL MEETING.

City Dads Hold Regular Session Tuesday Night.

The city council met in regular session Tuesday night, with Mayor Richards presiding and all members present.

The Brady Standard was named as the official newspaper of the city for the year.

The following accounts were allowed and ordered paid:

C. M. Thornhill.....	\$ 3.75
U. S. Express Co.....	4.70
Bowman Lbr. Co.....	24.75
A. Sewer Pipe Co.....	107.20
Ame Press Brick Co.....	310.83
J. M. Anderson.....	2.50

Another matter receiving the attention of the council was the approval of the tax rolls for the year 1912. The rolls show a total valuation of \$1,706,498. The city tax rate is 65c on the \$100 valuation, and is apportioned to the different funds as follows:

General fund.....	\$4,266.33
Bond fund.....	2,045.99
W. W. Sinking fund.....	3,069.06
Street fund.....	1,704.95

The city has an outstanding bonded indebtedness of \$60,000—\$20,000 street improvement bonds which were issued in 1908 and \$40,000 waterworks bonds issued in 1911. The street bonds require \$2,000 a year for interest and sinking fund while the issue of waterworks bonds requiring \$3,000. This city will be in position next year to retire two or three of the street bonds, as they are optional after five years from date of issue, being dated October 1st, 1908, but none of the waterworks bonds can be retired before 1921. Both issues bear interest at the rate of 5 per cent annually.

### FIRE AT ROCHELLE.

Frisco Depot Burned Early Wednesday Morning.

Fire Wednesday morning at 8 o'clock entirely destroyed the Frisco depot at Rochelle. The origin of the blaze is a mystery, but when first noticed the roof was burning, making it appear likely that a spark from a passing engine may have caused the conflagration.

All the freight, express and records were saved. Guy Clark was acting as agent at the time, Lee Jones, the regular agent, being off on a two weeks' vacation.

### Showers Tuesday Night.

A very good shower fell between Lohn and Fife Tuesday night, and a good shower is reported in the East Sweden community. At Eden half is reported to have done considerable damage to crops. At Brady the shower barely laid the dust.

The rain Tuesday night did not put any water in the dam, but Live Oak was running Wednesday morning and filled the hole where the pump is located. There is a good body of water above the dam, the water being about 10 feet deep at the mouth of Post Oak.

Have some windmills and pipe fittings to sell at greatly reduced prices. See me at the gin. Wm. Bauhof.

### METHODIST MEETING.

Stirring Sermons Heard by Large Gatherings.

Large attendance each night is the best evidence that the Methodist revival being conducted by Rev. A. P. Lowrey is a success and that the sermons preached have found response in the hearts of the speaker's audience. Practically everyone you meet on the street has some word of commendation for the able sermons of the preacher. Rev. Lowrey does not mince words, but tells wholesome truths—truths that cannot but strike home with his hearers.

Rev. Lowrey is doing a great mission in Brady, and is ably assisted by all Christian workers, regardless of denomination. The meeting is doing a great work in drawing the churches closer together, and inspiring the members to greater efforts.

This morning a rousing old-fashioned meeting has been announced, and a big attendance is anticipated. It will be such a meeting as all old-timers have been accustomed to, and everyone is cordially invited to attend.

Unless present plans are changed, the meeting will close Sunday. Everyone is urgently invited to attend Sunday and help make it a red-letter day in the annals of church history.

No matter what your wants may be, see us first. We are sure to save you money. Wm. Connolly & Co.

It costs no more to wear a hat that looks well on you bought at Benham's than the unbecoming hat you buy from others.

## WORRIMENTS.

Menard has shipped enough cattle the last month to supply all our luxuries this winter, and the sweet potatoe crop will furnish money for the necessities. What we are going to do with the proceeds from our other crops is a mystery.—Menard Messenger.

Always, always there are worriments in the mind of man. How to get money worries many and what to do with money after they have gotten it worries some. Out there at Menard, where peace customarily broods over the community even as the cat purrs upon the hearthstone, folks are now all wrought up over the question of what to do with the income from the secondary crops. Having secured their luxuries from the cattle sales and their necessities from the sweet potatoe output, they find themselves heckled by doubts as to what to do with the proceeds of their wool and cotton and chufas and mesquite beans. Such problems easily may become oppressive in a country where everybody is well off and there is no room for charity to exercise in. But there are still some outlets for swollen fortunes. There are still foreign missions that may be contributed to; in numerous out-of-the-way nooks and corners there are towns yet willing to accept free public libraries; ever and anon the patient searcher may find a campaign fund not quite full; then there are, we believe, a few organizations of one sort and another whose secretaries may be prevailed upon to accept gratuities for the good of the cause—and there are, all together, probably ten thousand such causes. Finally, there are widows whose barrels are not plumb full of meal and widowers who yearn for automobiles. Furthermore, it may be that your friend, the editor of the Brady Standard, would be glad to have you contribute something toward getting his winter clothes out of pawn.—Dallas News.

There you go, ding it, just as though we had all the clothes we wanted, and some to pawn. By heck, we've got one suit, and we can prove by the whole Brady police force that it is not in the soak.

## COMMERCIAL CORNER

By the Secretary.

In the "Special News Service" of today we find this thought: "Civic Development Should Be the First Step in City Building." We know this to be true by observation. Brady has her natural advantages and can be made a beautiful city, but it will require work, definite plans and money to accomplish this desired end. We have some things that excite our admiration and to which we can point the stranger with some pride. There are some things that make us feel different—we have to keep loaded with some sort of an apology. This is embarrassing. For instance, we have the poorest-kept cemetery that you know of, when you compare it with others of equal size and importance. When you enter the cemetery, you have to wade through weeds and grass almost knee deep. There is no seat of any kind for the bereaved family to sit, the earth left over from filling the graves is left unmoved, no sexton to look after the tools and grounds; all this giving it the appearance of an abandoned grave yard.

The Brady Commercial club has a "Cemetery Committee," but I find there are too many on the committee. We have learned long ago that the best way to get results from committees is to have the fewest possible number to do any certain amount of work.

Now, as there is no sexton to look after the grounds, the tools, etc., no record kept of the lots sold and unsold, no deeds given to those who have lots, we find that we have no protected cemetery in any sense. We suggest, therefore, that our Civic Improvement committee appointed some time ago by the president of the club, take the place of the cemetery committee and look after this very important matter. Here is the list of that committee: Mesdames F. W. Henderson, F. M. Richards, D. R. Hardison, E. E. Willoughby and W. N. White. These ladies would make good with that work and if you have suggestions to make, tell them about them.

## ALL STAR QUARTETTE.

Singing Comedians Again Feature at The Lyric.

The All Star Comedy Quartette, which is playing a return engagement at the Lyric-Vendome this week, is proving as popular, if not more so, than upon their first visit a couple of weeks ago. The boys never fail to bring down the house at the conclusion of their act, and their catchy songs and original jokes make their act sparkle from start to finish.

The boys will conclude their engagement at the Lyric tomorrow night, and if you have not heard them it will be well worth your while to invest in a seat at this popular play house either tonight or tomorrow.

Fred Townsend has just completed a handsome canvas painting which is on exhibition at Polk's barber shop and which has been the subject of much favorable comment. The painting is a reproduction of a water scene and the shading and coloring is so true to nature and so artistically done as to do credit to a professional artist. Fred has for a number of years devoted more or less of his spare moments to scenic painting, but his latest effort surpasses by far all previous ones. Incidentally the picture calls attention to The Toggery's cleaning and pressing, in which Fred is no less skillful than in his painting.

## EVERYTHING IN HARDWARE

From a Dog-collar up

DON'T bother me today, boys, I am in trouble. Jim and Duke made me a present of this fine dog and put a nice collar on him. They told me that Buster Brown always had his dog "Tige" and that I needed one and I for me to take good care of him. Things went fine until yesterday, when I was passing through Lohn the dog catcher got my pup. I talked to that hard-headed man ever so long but he wouldn't give up my dog, but said unless I would come across with a dollar by next Saturday, he would have to keep him. Won't somebody please loan me a dollar until next pay day.

### XIX. PROCRASTINATION

NAPOLEON lost the battle of Waterloo because a division of his army was behind time and he died a prisoner at St. Helena, and France lost her place in civilization. The pages of history are replete with stories of nations that have withered and decayed because their leaders were behind time and the stream of progress lined with the wrecks of nations that lost their opportunity because their leaders procrastinated. There can be no greater tragedy than that of an overtaken horizon.

Let those who would light the signal fires of progress start the road grader on the 140,000 miles of unimproved public highways in the State; plan the construction of 50,000 miles of railroad; lay the foundation for a million factories, and make the wheels of industry spin. Texas needs great men.

## NEWSPAPERS GET ORDERS.

Requiring Publicity of Owners and Operators.

Washington, Sept. 17.—Postmaster General Hitchcock yesterday issued instructions for carrying into effect the newspaper and periodical law, first returns under which must be made by October 1st. The law requires that publishers shall file on the first days of April and October of each year, both with the postmaster general and the local postmaster, under penalty of denial of the use of the mails, a sworn statement of the names and addresses of the owners, publishers, editor, managing editor and business manager of their newspapers and periodicals. Religious, fraternal, temperance and scientific publications are excepted. For a corporation the names of the holders of more than one per cent of the stocks, bonds or other securities must be given, and in the case of daily newspapers a statement of the average paid circulation for the preceding six months is required.

All editorial or other reading matter appearing in a newspaper or magazine for the publication of which pay is accepted or promised must be marked "advertisement" under penalty of a fine of not less than \$50 or more than \$500.

"Although this law was not favored by the postoffice department," said Mr. Hitchcock today, "it will be administered faithfully and impartially. In framing the act, congress doubtless had in mind the leading daily newspapers, but it will affect also nearly 18,000 weeklies. Many of these publications are having a hard struggle for existence and will find the making of returns a considerable burden."

"In my judgment, and I so expressed it to congress, the provision will be harmful, as it will require the continuous use of valuable space in the publications and at the same time be resented as a censorship of the press. One of the greatest difficulties now encountered in the enforcement of the law relating to the second-class mail privilege is that the postoffice department is compelled by law to make inquiry into so many aspects of the private business of publishers. This gives rise to the complaint—ill-founded in my opinion—that the government interferes needlessly with the privileges of the press. My judgment is that it should be the constant aim, not only of congress, but of the postoffice department, to lessen the necessity for supervision of the public press in the enactment and administration of postal laws."

On July 1, 1912, there were 28,144 newspapers and periodicals enjoying second-class privileges. There were 2514 dailies, 17,217 weeklies, 5277 monthlies, 1351 quarterlies and 1785 having other periods of issue. Of these, all except about 1500 exempted publications will be affected by the new law.

Attention is called to the program of the Fifth Sunday meeting of the Brady Baptist Association, which appears elsewhere in this issue. The meeting will be held with the Brady church on the 26th, 27th, 28th and 29th of this month. An excellent program has been prepared and a large attendance and a good meeting is anticipated.

## The Perfect Laxative For Elderly People

Age has its attractions no less than youth in a more serene and quieter life. But it is this very life of rest without sufficient exercise that brings with it those disorders that arise from inactivity. Chief of these are a chronic, persistent constipation.

Most elderly people are troubled in this way, with accompanying symptoms of belching, drowsiness after eating, headaches and general lassitude. Frequently there is difficulty of digesting even light food. Much mental trouble ensues, as it is hard to find a suitable remedy. First of all the advice may be given that elderly people should not use salts, cathartic pills or powders, waters or any of the more violent purgatives. What they need, women as well as men, is a mild laxative tonic, one that is pleasant to take and yet acts without stripping.

The remedy that fills all these requirements, and has in addition tonic properties that strengthen the stomach, liver and bowels, is Dr. Caldwell's Syrup Pepsin, which thousands of elderly people use to the exclusion of all other remedies. Trustworthy people like Mrs. Louis Pawlinski, 214 Mason St., San Antonio, Texas, and Geo. Wilmore, Crockett, Texas, say they take it at regular intervals and in that way not only maintain general good health, but that they have not in years felt as good as they do now. You will do well to always have a bottle of it in the house. It is good for all the family.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 465 Washington St., Monticello, Ill. Your name and address on a postal card will do.

Attention is called to the program of the Fifth Sunday meeting of the Brady Baptist Association, which appears elsewhere in this issue. The meeting will be held with the Brady church on the 26th, 27th, 28th and 29th of this month. An excellent program has been prepared and a large attendance and a good meeting is anticipated.
