The entire trip of 300 miles will be made in one day, the excursionists leaving Temple at 6:30 a. m. and expecting to return by 10:30.

All the bunch will wear uniform caps, and other preparations are being made to make their appearance as striking and effective as possible.

As the excursionists will spend an hour and a half in Brady, arrangements are on foot to entertain the bunch during their stay here, and to make their visit one that will ever bring pleasant recollections of Brady and the Brady people. All citizens are requested to meet at the depot and escort the delegation to the city. It is especially urged

Dodge is gradually waking up. We organized Sunday school last Sunday. The following officers were elected: J. S. Bowels Get Weak As Age Advances.

The First Necessity Is to Keep the Bowels Gently Open with a Mild Laxative Tonic.

Healthy old age is so absolutely dependent upon the condition of the bowels that great care should be taken to see that they act regularly. The fact is that as age advances the stomach muscles become weak and inactive and the liver does not store up the juices that are necessary to prompt digestion.

Some help can be obtained by eating easily digested foods and by plenty of exercise, but this latter is irksome to most elderly people. One thing is certain, that a state of constipation should always be avoided, as it is dangerous to life and health. The best plan is to take a mild laxative as often as deemed necessary. But with equal certainty it is suggested that cathartics, purgatives, physics, salts and pills be avoided, as they do but temporary good and are so harsh as to be a shock to a delicate system.

A much better plan, and one that thousands of elderly people are following, is to take a gentle laxative tonic like Dr. Caldwell's Syrup Pepsin, which acts as nearly like nature as is possible. In fact, the tendency of this remedy is to strengthen the stomach and bowel muscles and so train them to act naturally again, when medicines of all kinds can usually be dispensed with. This is the opinion of many people of different ages, among them Mr. O. P. Miller, Baroda, Mich., who writes: "I am 80 years old and have been constipated for many years. Since receiving your sample bottle I have procur-

MR. O. P. MILLER.

ed two fifty cent bottles, and find that it is the best remedy I ever used and does just what you claim for it to the very letter. I cannot recommend it too highly."
A bottle can be bought of any druggist at fifty cents or one dollar. People usually buy the fifty cent size first, and then, having convinced themselves of its merits, they buy the dollar size, which is more economical. Results are always guaranteed or money will be refunded. Any elderly person can follow these suggestions with safety and the assurance of good results.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

Studebaker

"That's the sixth Studebaker we've passed—the only kind to invest in"

"The only kind—because, as I always say, when a man puts money in a thing he wants to know that he's going to get the worth of it out again."
"That's plain business as I look at it."
"That's why I say the price doesn't tell you anything at all. There's only one thing that talks—except the wagon itself. That's the name of the maker."
"When you buy a Studebaker you're buying a vehicle that has behind it and in its sixty years of experience—sixty years of success—and sixty years of reputation for the square deal. That's why a Studebaker always looks good to me."
"My father used to say that Studebaker honor was as sure as a United States bank note. He was talking after having used Studebaker vehicles since he was a lad, and he told me his father before him said, 'Be safe—get a Studebaker.'"
"Vehicle builders can't hold that sort of reputation now-a-days without delivering the goods. A Studebaker wagon has the best in it. That's why a man gets the most out of it—why it's always an economy."
"Dealers may say to you something else is 'just as good.' But when you buy a Studebaker, you're making a safe investment every time."

CARDUI WORKED LIKE A CHARM

After Operation Failed to Help, Cardui Worked Like a Charm.

Jonesville, S. C.—"I suffered with womanly trouble," writes Mrs. J. S. Kendrick, in a letter from this place, "and at times, I could not bear to stand on my feet. The doctor said I would never be any better, and that I would have to have an operation, or I would have a cancer.
 I went to the hospital, and they operated on me, but I got no better. They said medicines would do me no good, and I thought I would have to die.
 At last I tried Cardui, and began to improve, so I continued using it. Now, I am well, and can do my own work. I don't feel any pains.
 Cardui worked like a charm."
 There must be merit in this purely vegetable, tonic remedy, for women—Cardui—for it has been in successful use for more than 50 years, for the treatment of womanly weakness and disease.
 Please try it, for your troubles.

Brady, Texas, May 29.
 Editor Brady Standard:
 (Too late for last week.)
 Well, it is too wet to work today, after our big rain Sunday. We had some hail, which fell for about ten minutes, but they were small and fell slowly and didn't do any damage. Everything looks fine in this community. Oats are about ready to cut.

 The algerita berries are certainly fine and plentiful this spring, and are ripening fast in the last few days. I hope this will not miss the mail box this time.
 Best wishes to the editor and readers. DAISY.

STACY NEWS.

Stacy, Texas, May 18.
 Editor Brady Standard:
 (Too late for last week.)
 I am here to tell you all about the hail storm and cloudburst which fell here last Thursday afternoon between 2:30 and 3:30 o'clock. Some of the hail stones were as large as hen eggs and came down with such force that they knocked some of the shingles off and nearly every window light in the south sides of the houses were broken, excepting those having screens. It hailed hard and fast for at least forty minutes. When it ceased the rain came pouring down as fast as it could, and some of the farms were just a whole sheet of water. It did a great damage to some of the oats and corn, while some of the cotton will have to be planted over. It was one of the greatest incidents that has happened in this part of the country that was ever known.
 Mrs. C. A. Doose of Ballinger came down to visit her parents, Mr. and Mrs. M. J. Stacy, last Thursday. She was one that was out in the hail storm.
 Mrs. M. Hammons, who has been visiting in Comanche, returned last Sunday. I think Miller was glad to see her. Wasn't you, Miller?
 The young folks enjoyed a party at Mr. and Mrs. Johnson's home Friday evening.
 Bro. Shirley filled his regular appointment here Sunday in the forenoon and evening.
 Mr. Beck Spillers made a business trip to Melvin last Monday.
 Mr. B. Jones was out working on the telephone line Saturday morning. Miller and Doil Hammons were in Brady part of this week. I think Doil got to see some of his old friends while there, especially some of those girls.
 I have never voted for any of the correspondents for the month of April, so will cast the April vote for "Plincy" who writes the Lohn news.
 Mr. Frank Bowlder, formerly a boy of this place, is in Stacy this week from the state of Arkansas. Mr. Bowlder is traveling on his motorcycle all through the state of Texas.
 The Stacy ball team played with Leaday Saturday afternoon. The game ended in Stacy's favor—21 to 6. Don't think Stacy wants to play such games any more.
 "Aunt Susan," I am surprised to see you here again. I think you have been asleep all the while, and have just awakened. I stated once before that the negative side won with two points ahead. Now, I want you to come and hear this one as I have stated above.
 Rev. Burrow went to Waldrip Saturday afternoon to fill his regular appointment there.
 The Doole singing class met with Stacy Sunday afternoon and enjoyed an hour singing.
 Well, I have taken up too much space, and will quit. JERRY.

FELICITATIONS.

Our hearty congratulations to our worthy contemporary, Editor M. S. Sellers of the Brady Sentinel.

Surely Editor Sellers must have been born under a lucky star, for not only has he been unusually successful in his business undertakings, but he eclipses all in his marital affairs. It surely is a great event in a man's life when he wins one of the sweetest and most lovable of McCulloch county's fairest maidens, and in the building of a home, life unfolds its greatest glories.

Again, congratulations! And may your star of good fortune continue in the ascendancy.

When you take that summer trip, take along a good supply of Brady booster material. It's a good policy.

Let us be devoutly thankful that the Temple excursionists will arrive in Brady in the bright light of high noon. Should they have arranged their schedule to arrive here after night-fall, and it became the duty of Brady citizens to escort them to town in the darkness of our unlighted streets—well, honest, we would be glad that that very darkness hid the blush of shame for the lack of even passable illumination.

TEMPLE-BRADY BOOSTERS.

Temple live wires are to be in the city Tuesday—they're coming 200 strong, just to tell us what a good city Temple is!

Had you ever thought of the opportunity presented Brady citizens to boost Brady upon this occasion? The Temple boosters have chartered a train; have provided themselves with some sort of a uniform; are spending about 16 hours on a trip just to have an opportunity of getting acquainted with the cities and the citizens in the Santa Fe western branch line territory.

The Brady citizens can remain right at home; spend nary a cent on a booster trip; use no uniforms; lose no sleep, and still do better boosting for Brady than the Temple live wires can do for Temple.

How? Come out and meet the visitors! Glad hand them! Show them what a substantial city we have; what progressive citizens; what glorious country surrounds Brady. Tell them of the purity of our water; the delightfulness of the Brady climate. Remind them that we have artesian wells in the south part of the county; coal fields in the north part; oil fields in the western, and that cotton and all other crops grow wonderfully well in all parts of the county.

Boost as only a good citizen of McCulloch county can boost. And then tell us that Brady boosting won't outboost the Temple boosters.

BELEATED TRAINS.

Passengers who have had occasion to sit in a cold and cheerless, or a hot (and equally cheerless) passenger station for one to a half dozen hours wondering at the whereabouts of some beleated train after inquiry of the station agent had failed to elicit information, will probably learn with gladness that on and after July 1st agents who fail to post the exact whereabouts of all passenger trains at least an hour before arrival will be subject to a heavy fine.

No doubt the agent has been, in times past, pestered most to death by the inquiries of worried travelers, but on the other hand such a state could have been avoided by providing information such as is now compulsory by law. To say the least, the enforcement of the law will be welcomed by the traveling public.

Be a Brady booster.

Get ready to welcome the Temple boosters.

BREVITY—THE SOUL OF WIT.

Learn to be short. Long visits, long stories, long exhortations and long prayers seldom profit those who have to do with them. Life is short. Time is short. Moments are precious. Learn to condense, abridge and intensify. We can endure many an ache and ill if it is soon over, while pleasures grow insipid and man intolerable if they are protracted beyond the limits of reason and convenience. Learn to be short. Lop off branches; stick to the main fact in your case. If you pray, ask what you would receive and get through; if you speak, tell your message and hold your peace. Boil down two words into one, and three into two. Always learn to be short.

In short, get the best out of life, whether it be pleasure or business.

DOING BIG THINGS.

The average citizen has a faint idea just how "big" things are accomplished, and the easiest and quickest method of enlightenment is to say, it takes money to "turn the trick". Money is required in practically every business transaction, and liberality, wisdom and conservatism liberally besprinkled with progressiveness, all combine to make the expenditure of money successful. Let us quote from the Denton Record and Chronicle how one city has made a judicious investment of, what appears to the average citizen, an immense sum:

"Wichita Falls set the precedent several years ago when it began contributing \$10,000 a year to the support of its commercial club. It prospered so well and strove so amazingly in the face of conditions that in ordinary towns would have caused an immediate outbreak of tightwaditis that the citizens had a chance to see just whence their prosperity was coming. Wichita Falls has grown more in proportion to its size than any town in North Texas. Its public spiritedness and the liveliness of its general citizenship, who work unitedly, are the main reasons therefor."

CAMPAIGN THUNDER.

Quite a unique spectacle involving a former president of the U. S. is being enacted in Michigan this week in the trial of George A. Newett, a newspaper publisher of Ishpeming, Mich., who is being sued by Theodore Roosevelt for \$10,000 damages for libel. Newett published a statement to the effect that Roosevelt "got drunk, and that not infrequently." According to the testimony of Col. Roosevelt and intimate friends, he will experience no great difficulty in proving the falsity of the statements. Newett based his defense upon two points: First, that he had a right to make the statement as political thunder; second, that the statements were to a degree true.

Just why any publisher should resort to any sensational story, much less sensational untruth, to undermine the character of a political aspirant, is hard to understand. Mudslinging in campaigns is rapidly falling into the discard, and we believe that the present trial will still further undermine this bad practice, and help free our elections of that evil feature—the deliberate staining of a man's character.

MAKES NO DIFFERENCE.

To save the faces of some of the elderly dames and middle-aged business men we have seen attempting the "turkey trot," someone in society and in charity ought to get up a "cow slip."—Waco Morning News.

We don't know whether the "cow slip" will be an improvement over the "princess slip," but we are willing to give it a trial. Let the dance go merrily on.

We've caught some of you folks in the act, and you might as well fess your waywardness and buckle down to atonement—you've let the weeds grow on about your premises, in the corners of your fence, alongside your walks and the curbs and gutters. We sentence you to hard labor at the task of removing such eyesores.

See us for that Standard or Case cultivator. O. D. Mann & Sons.

G. W. Vierling, Sr., is in the city for a few days, and is receiving the congratulations of his friends over his escape from what might have been a fatal accident. A team of mules driven by him became frightened, and in attempting to stop them, the wagon tongue was broken, and in the smash-up G. W. was pitched head-foremost into the hard gravel road, inflicting numerous scalp wounds, and requiring about two hours of the doctor's time in removing the gravel and sand from the injuries. Although his head is swathed like that of a Turk's, Mr. Vierling maintains that he is recovering nicely, and his many friends trust no serious effects may result.

MRS. WM. ARCHER

Tells Mothers What To Do For Delicate Children.

"My fourteen-year-old daughter was very thin and delicate. She had a bad cough so that I became very much alarmed about her health. She was nervous and did not sleep well, had very little appetite and doctors did not help her. Having heard so much about Vinol, I decided to give it a trial. It has helped her wonderfully. She can sleep all night now without coughing once; in fact, her cough is gone. Her appetite is greatly improved and she has gained in weight. Vinol is a wonderful medicine, and I will always keep it in the house. I wish every mother knew what Vinol will do for delicate children." Mrs. Wm. Archer, 223 Broadway, Long Branch, N. J.

This delicious cod liver and iron preparation without oil is a wonderful body-builder and strength-creator for both young and old. We promise to give back your money in every such case where Vinol does not benefit. This shows our faith in Vinol. Central Drug Store, Brady, Tx.

FOR BRADY FACULTY.

School Trustees Monday Selected Eight Teachers.

The school trustees in regular session Monday elected eight teachers as part of the faculty of the Brady school for the coming year. The teachers named for grade work are: Mrs. F. A. Knox, Misses Inez Butler, Willie Duke, Blanche Horton, Jewel Caperton, Pearl Graham, Lena Carroll. In the high school department J. O. Wallace was retained as principal for the coming year.

The action of the trustees will doubtless meet with universal approval. With the exception of Miss Carroll, all the teachers selected taught in the Brady schools last year, and their service in each instance was entirely satisfactory. Miss Carroll is a graduate of the Brady high school, and has taught in the McCulloch county schools the past two years, and her many friends will learn with pleasure of her election to a position in the Brady schools.

While all the teachers in the grades have been selected, there still remains to be named four teachers for high school work, and these will doubtless be elected at an early meeting of the trustees.

At a recent meeting of the board the following officers were elected: Lee Jones, president; J. R. Stone, vice president; H. C. Samuel, secretary.

Lee Kitchens was re-elected janitor at the high school at a salary of \$50 per month.

Best Medicine for Colds.

When a druggist recommends a remedy for colds, throat and lung troubles, you can feel sure that he knows what he is talking about. C. Lower, Druggist, of Marion, Ohio, writes of Dr. King's New Discovery: "I know Dr. King's New Discovery is the best throat and lung medicine I sell. It cured my wife of a severe bronchial cold after all other remedies failed." It will do the same for you if you are suffering with a cold or any bronchial, throat or lung cough. Keep a bottle on hand all the time for everyone in the family to use. It is a home doctor. Price 50c and \$1.00. Guaranteed by Jones Drug Co.

Lohn Boy Killed?

Word was received here last week by the Dallas News correspondent that Richard Curtis Smith of Lohn had been killed in a naval accident in San Diego Bay, Calif. Diligent inquiry upon the part of the correspondent failed to reveal any recollection of a Smith of that name residing at Lohn, and the only possible clue to the identity of the victim was the fact that one Worth R. Smith of Lohn had enlisted in the navy; no known relatives of his now living in the county.

GOVERNMENT FISH.

Shipment of About 500 Received Yesterday.

Four barrels of fish were received by local parties from the U. S. Government hatcheries yesterday, the shipments being consigned to W. N. White, Walter Caldwell and W. F. Dutton. Two of the barrels were taken by Mr. White to his ranch, where they were used to stock his tank, the third barrel was used by W. F. Dutton in stocking his tank, while the fourth was placed in W. D. Crothers' dam on Live Oak.

The consignment was made up of black bass and crappie, the former being from three to four inches in length, while the latter were about one and a half to two inches in length.

The order for the fish was placed with the Government hatcheries two years ago, and the long time that has elapsed in effecting delivery is said to be caused by the Government being behind with the orders.

"The System Reliable"

Mr. Farmer

What is of the most interest to you? Upon the realization of what fond hope are you building the loftiest aircastles? You do not have to pause before replying. Your answer comes unhesitatingly, "A good crop." You are right. A good crop means not only prosperity and plenty to the farmer, but to the general public as well, and if the weather man lives up to his splendid beginning this promises to be a banner year.

More prosperity means more work and responsibility. Labor is always scarce in a district where the yield is heavy, but there will always be districts where the farmer is not so fortunate with his crops, and there labor can be had for the asking. How can you reach these districts with the least cost and delay? The answer is easy—a West Texas telephone. OUR UNIVERSAL SERVICE reaches everywhere, and if labor is securable it will get it.

Crop prices fluctuate. A West Texas telephone will keep you in touch with the market and help you to secure top prices for your products.

BROWN CASE AFFIRMED.

Sentence of Ninety-Nine Years in Penitentiary Must Stand.

His attorneys in Brownwood Wednesday received telegraphic advices from Austin stating that the case of George Brown has been affirmed by the Court of Criminal Appeals, after having been before that body since last December. Brown was tried at Ballinger at the spring term of court last year, and the jury found him guilty of the murder of his wife, and assessed his punishment at 99 years in the penitentiary. Since being arrested for the alleged crime, Brown has been confined in the county jail, being at Ballinger since his trial there last spring. On habeas corpus proceedings before Judge Goodwin he was refused bond, and the higher court affirmed this decision. Throughout the case every effort has been made by the best counsel obtainable to secure Brown's release and acquittal, and the case, which rested on circumstantial evidence, has been one in which many interesting points of law and evidence were presented.

Brown was charged with having murdered his wife, Mrs. Sallie Brown, at their home near Brownwood on the night of September 9th, 1911. The woman met her death by being beaten on the head with an iron rod, which was found about the place with blood stains upon it.

A motion for rehearing will probably be entered in the court of appeals, and should this be denied Brown will be taken to the penitentiary to serve his term. Whether or not such a motion will be entered has not been definitely decided by his attorney, owing to other work on hand in district court today. —Brownwood Bulletin.

Dr. J. G. McCall returned Wednesday from Oklahoma City, where he attended the Frisco Medical association in session there Monday and Tuesday. The doctor reports the Oklahoma country in fine shape, with the best wheat and oats he has seen in a long time. Wheat was thigh-high and oats were equally as good. In fact, crop conditions were splendid all along the line of the Frisco as far out of Fort Worth as Granbury. From Granbury to Brownwood they did not look so well, and from Brownwood to Brady they were much better again.

Continue Star Attraction at the Lyric-Airdome.
McDonald & Curtis are making a decided hit at the Lyric-Airdome, and their act is without question one of the best on the road. Their clever playing upon every manner of instrument, coupled with their character stunts, never fail to elicit hearty applause, while their one-act sketches are likewise interesting and entertaining. WEST TEX. IMPROVEMENTS
Connect With West Sweden—To Cable South Side.
Work was commenced this morning by the West Texas Telephone Co. in stringing a circuit to reach the citizens of West Sweden. Heretofore the citizens of this progressive community had to secure their connections through the Melvin exchange, but with the completion of the West-Texas new line, direct connection with Brady will be obtainable.
The construction gang of the company will be brought over here from Brownwood next week, and the placing of all the lines on the south side in cables will be pushed to an early completion. The cable necessary to complete this huge task is already at hand, and with the capable force of workmen on the job it is anticipated that the improvement will be completed in record time.

NEW LAW.
Agents Failing to Post Trains Will Risk Arrest.
On and after July 1 railroad agents in Texas will be haled to court every time they fail to post the exact whereabouts of all passenger trains an hour before arrival.
The last Texas legislature passed the law providing a penalty for violations. "If any such agent," reads the penalty, "shall fail or refuse to perform the duties required of him by this article, he shall be deemed guilty of a misdemeanor, for each time he fails or refuses to perform the duties required of him by this article, and upon conviction, shall be fined not less than \$50 or more than \$100 for each offense."
"The law is the result of country agents failing to keep the country legislator thoroughly posted upon the whereabouts of every train upon his division," is the interpretation placed by a Fort Worth railroad man.
The law makes the train dispatcher a party to the violation should he fail to notify the station agent of the movement of the trains and he is subject to the same fine.

A Pitiful Case.

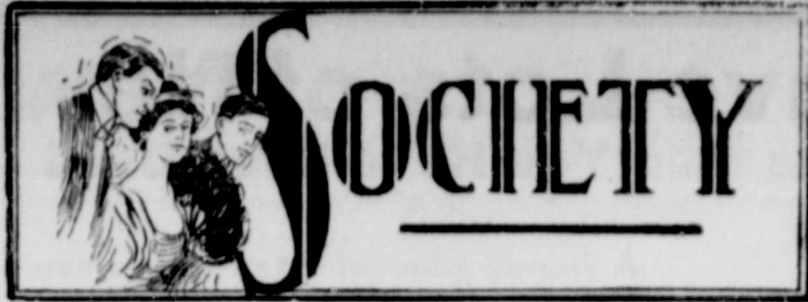

One of the most pitiful cases known in Brady was that of an aged Mexican who was reported to City Marshal J. M. Anderson and Deputy Sheriff John Martin as on the verge of starvation. The Mexican, who is about 75 or 80 years old, was known to have been in almost helpless condition for some time, and yesterday citizens reported to the officers that he had been seen at the dump grounds endeavoring to find food to keep body and soul together. The officers had him brought to town and placed in charge of Pedro Estrada, who will look after his wants, the county paying the expenses.

The excellency of the program reflected credit to the ability of Prof. Robbins as teacher. The work of the little tots as well as the advanced pupils, spoke for his patience and completeness in training.

Again the occasion was indeed a success and the patrons and lovers of music of our little city are only too pleased to have Mr. Robbins with them another term.

At the home of the bride's aunt, Mr. and Mrs. Lee Jones, on Tuesday evening promptly at 8 o'clock Mr. M. S. Sellers and

The wedding ceremony was performed in the parlor of the Jones home, those present being Miss Edna Chadick, sister of the bride, Mr. and Mrs. Lee Jones and family and Mr. and Mrs. W. J. Dawson.

Immediately after the ceremony Mr. and Mrs. Sellers went to their new home on Melton avenue, where they will be at home to their many friends.

WHY NOT GET A GUARANTEE?

Every Article of Merit That Is Sold These Days Is Guaranteed—No Guarantee Often Means Poor Quality.

There is very little excuse for any person to claim that he has been "stung" on a purchase. Fifty years ago the buyer had to look out, but today it is unusual to find a merchant who will not return the money for any article that has proved unsatisfactory.

An excellent example of this kind of fair dealing is shown by the clean-cut guarantee that Jones Drug Co. give on Dodson's Liver Tonic.

These people tell us that any person who pays 50c for a bottle of Dodson's Liver Tonic and does not find it a gentle and most pleasant liver tonic, harmless, but a sure reliver of constipation, and a perfect substitute for calomel, can get his money back just as quick as they can get it out of the money drawer.

Dodson's Liver Tonic has practically taken the place of calomel. It is absolutely harmless, sure in its action and causes no restriction of habit or diet. No wonder the drug people are glad to guarantee it, while other remedies that imitate the claims of Dodson's Liver Tonic are not guaranteed at all.

FRISCO RECEIVERSHIP.

Railroad Unable to Pay Two Million Dollar Debt.

St. Louis, May 27.—Thomas H. West, chairman of the board of directors of the St. Louis Union Trust Co., and B. L. Winchell, president of the St. Louis & San Francisco Railroad company, were appointed receivers for the railroad in the federal district court here late today.

The proceedings were understood to have been decided upon at a conference today of large bondholders of the railway and a number of the directors, including B. F. Yoakum, chairman of the board; J. F. Campbell, James West, W. F. Wade, B. L. Winchell, president of the company, and Murray Carlton.

The petition is based on the inability of the railroad to meet a maturing loan of \$2,250,000 based on short time 5 per cent notes during June.

A director who would not allow his name to be used, said:

"The Frisco has been under a severe handicap for some time. Operating expenses and fixed charges have continued to offset large gains in gross earnings, due to increased wages for trainmen and the high rates prevailing for money. In the south-western floods a year and two years ago the Frisco suffered losses running into the millions."

The total bonded indebtedness is \$327,872,162. The total mileage, including the subsidiary lines, is 7,544.

"The Fort Worth & Rio Grande, the Brownwood North & South, the St. Louis, San Francisco & Texas and the Paris & Great Northern, comprising the Frisco's North Texas lines, will not be affected by the receivership of the St. Louis & San Francisco," said George H. Schleyer, vice president and general superintendent of the North Texas lines, Wednesday. Mr. Schleyer received a telegram from President Winchell late Tuesday saying that the Texas lines would not be included in the receivership.

"The North Texas lines," continued Mr. Schleyer, "are in splendid condition and owe no outside indebtedness. What indebtedness these lines have is held by the Frisco proper. All notes have been met promptly and the interest has always been paid. These roads will be continued in the future as they have in the past and I can say that the best of service will be given the public."

It is understood that the Frisco will make some improvements in Texas and that all of the work planned by its directors will be carried out.

President Winchell also stated in his communication to Vice President Schleyer that the South Texas Frisco lines would not be affected.

Public sentiment should be against it, and we believe it is; there can be no reason why ladies should have to suffer with headaches and neuralgia, especially when Hunt's Lightning Oil gives such prompt relief. It is simply a question of getting the ladies to try it. All druggists sell Hunt's Lightning Oil in 25c and 50c bottles.

Contractor Lee Morgan is making excellent progress with the new residence being erected for C. D. Allen upon his block in South Brady, and has the framework already up and is placing the roof.

The residence will be a six-room bungalow with sleeping porch and the cost will approximate \$3500. Mr. Allen is determined to spare no pains or expense in the comfort and convenience of his new home, and when completed it will be one of the prettiest and best finished residences in the city.

Invitations have been received in the city for the commencement exercises at Douglas Select School at Waco, to be held in that city on Friday night, June 6th. Chas. J. Koerth, a popular Brady boy, and a member of the senior class at Douglas, is numbered among the graduates.

STUBBLE LAND.

Demonstrator Griffin Gives Approved Method of Treating.

I would like to see every farmer in the county who can, and will, try the following method on stubble land.

Take your double disk harrow (pulverizer) and start right in behind the binder, single disking in this way until you get over the field; then turn right back and disk again, throwing the lap in the opposite direction, or double disking. Let the land remain this way during the hot summer months, not breaking until September. If you do not have a disk harrow, use your cultivator to a depth of 3 or 4 inches.

I have a number of statistics from farmers who have so treated their stubble land, and who claim some very satisfactory results, and much greater yields on such land the following year. This is a splendid year to try this experiment, as you will have a good deal of sub-moisture to conserve if you will. You all have doubtless noticed how quickly stubble land will dry out and get hard after the grain is cut, even if there is plenty of moisture at harvest time. This is only the more proof of the old, old story of what the crust on the surface will do. It will take just a few days for the ground to bake and get hard, if let alone.

If you will double disk your stubble in the above manner, a good mulch will be established, which will stop evaporation and put the land in better condition to take up more rain. The moisture will rise up to this mulch and stop, thereby softening the subsoil so it will plough much better.

But never break until fall. At least it is preferable to wait until after the hottest of the weather is past to do your deep breaking. Now, don't say that you know this is good, but— you haven't the time, or something else is in the way. Make some special effort to do this. Swap work with some of your neighbors, and get an extra team or two when your reaper starts. Try at least one day's work on the experiment. Make a little demonstration plot of your own on at least a few acres and note results.

It is a question whether it is wise to grow another crop after the grain is taken off. It is very seldom that it will pay, and my opinion is that it will be better to make sure of a good crop the following year than to take chances on a summer crop, and lose a lot of moisture that you can better store up by treating your land as above mentioned.

Now put in those loose bolts, get your disk harrow ready, see some of your neighbors, go in together and have several plots of land that you can watch and that will be a demonstration to you next year.

There ought to be at least 100 or 200 farmers to try this method, and I will be glad to know how you came out, or what results you obtained.

ODD FELLOWS CELEBRATE.

Ninety-Fourth Anniversary Observed by Odd Fellows.

The following article regarding the anniversary celebration of the Odd Fellows and Rebekahs on the 16th inst. has been contributed:

The Odd Fellows of Brady, with the assistance of Ruthel Rebekah lodge, celebrated the 94th anniversary of Oddfellowship with appropriate exercises. Judge Harvey Walker was toastmaster of the occasion, and after a brief address of welcome, introduced the first speaker on the program, Judge J. E. Shropshire, who made a brief, yet splendid talk.

Mrs. Lizzie Hodges read a very instructive and interesting paper on "The Origin of the Rebekah Lodge." This was followed by a piano solo "Polka des Polka," by Mrs. Ray Lovelace.

Mrs. J. E. Shropshire told about "What We Are Doing," and proved quite interesting in regard to the wonderful progress of the Rebekah lodges in general, not the least being Ruthel Lodge No. 322 of Brady.

Miss Ruth Wood, in her pretty way, rendered "Moon Moths," a difficult piano solo.

An original poem, dedicated to the Rebekah lodge entitled "A True Story," was read by Mrs. Ray Lovelace, and was so well applauded that she followed with another, "St. Peter and the Ruthel Rebekahs from Brady," a burlesque on the local lodge.

This concluded the program, after which the Odd Fellows then served delicious ice cream and cake, which was enjoyed by all present.

There was a large attendance, including many visitors from Rochelle and Lohn lodges, all of whom are loud in their praises of the kind hospitality of both the Rebekah and Odd Fellow lodges of Brady.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system, when entering it through the mucous surface. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is too full to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. It is the only Catarrh Cure in the world that is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co., Trial bottles free. Sold by Druggists. Price, 75c per bottle. Take Hall's Catarrh Cure for catarrh.
