

DOES A BILLIARD PARLOR BENEFIT A TOWN?

It means a building occupied and rent paid.
It means that the state, county and city derive benefit from taxes paid.
It affords a place where anyone can indulge in clean scientific sport at a trifling cost.
It provides a place where the visitor from the country or out of town can rest under cooling fans and enjoy his fill of ice-water without a cent of cost, and whether he plays a game or not.

There Can be No Objections to a Clean, Well Conducted Billiard Parlor.

FARMERS' DAY AUGUST 2ND

Program Includes Col. Henry Exall, Hon. H. H. Williamson and Other Noted Speakers

Saturday, August 2nd, has been officially designated as Farmers' Day in Brady, and an excellent program has been arranged for the occasion. Upon this day the McCulloch County Boys' Corn club will be the guest of the Brady Commercial club, and a big dinner will be tendered the members.

At 10:30 o'clock at the court house, Judge Joe A. Adkins will welcome the farmers, citizens and members of the corn club in his own characteristic style.

Heading the program of speakers is Col. Henry Exall of Dallas, president of the Texas Industrial Congress, and one of the foremost leaders in the building of a Greater Texas. Mr. Exall is devoting his time and money in the work of educating the farmers of Texas in the growing of bigger and better crops, and has undoubtedly done more for the people of Texas along this line than any other man in the state. Mr. Exall is the moving spirit of the Texas Industrial Congress, which offers \$10,000 in prizes to the farmers of Texas for the best crops raised. A message received yesterday from him announces that he will arrive on the morning Frisco train and will be ready to address the citizens at 11 o'clock a. m.

Another speaker of prominence is Hon. H. H. Williamson, state agent boys corn clubs, who will deliver an address to the corn club boys, but which will be of interest to every farmer and citizen.

M. T. Payne of the Federal Agricultural department and

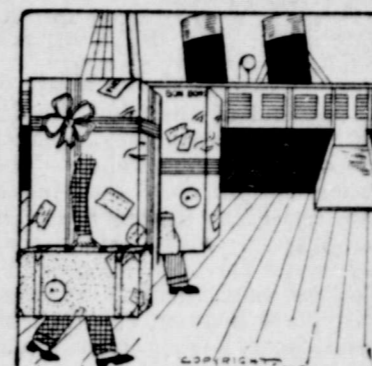

one of four superintendents in the state who oversee all county agents, will also be on hand and address the body.

Commissioner of Agriculture Ed R. Kone, has advised that he will send R. H. Taylor to take part in the program. Mr. Taylor will also spend the following week in McCulloch county completing the organization of farmers institutes. This work was undertaken in the spring by J. W. Neill, who succeeded in organizing the north part of the county, but his time was too limited to permit of organizing every community. It is planned to have a session of the McCulloch County Farmers Institutes on Saturday for the purpose of more thoroughly organizing the institutes and enlarging upon the work. All members are earnestly requested to be on hand and lend their assistance. The farmers institutes were originated by the late S. A. Knapp, and have been of untold benefit to the state and individual communities.

Plans will also be laid during the meeting for a big agricultural display in the fall, and the co-operation of all the farmers will be enlisted in the work.

The meeting will convene at 10:00 a. m. at the court house, adjourning at 12:00 o'clock for dinner and re-convening in the afternoon. The ladies of the Methodist church have arranged a dinner for the occasion, and all who have ever attended a Methodist dinner know that there will be an abundance of good things to eat, and no need fear of not getting his money's worth.

BRADY, TEXAS

COUNTY COURT.

Jurors Dismissed Wednesday—Three Cases Tried.

The jurors for the first week of county court were dismissed Wednesday, three cases on the criminal docket having been disposed of.

In the case of T. S. Parker, charged with simple assault, the defendant was acquitted. The charge grew out of the correction of a child during the last term of school while Mr. Parker was superintendent at Rochelle.

The case of R. L. Baxter, charged with aggravated assault, also resulted in an acquittal.

The cases against several parties charged with assaulting an Apostolic minister were dismissed.

The case of Dink Burrell, charged with carrying a pistol, was probably the most interesting of the week, the testimony on both sides being so varied and confusing as to be ludicrous. Burrell set up the claim that he had picked up the pistol during a fight at the crossroads of the Fife and Santa Anna roads. No one was found who would claim ownership of the disputed pistol. The jury returned a verdict of acquittal for Burrell, and the county attorney confiscated the pistol for the benefit of the high sheriff.

The civil docket of the county court will be taken up next Monday, court convening at 1:30 p. m.

Come in and inspect our furniture stock. We have one of the largest stocks in the city, and we can fill your desires. Our prices are right, our terms are liberal and we will appreciate a call when in the market. Broad Mercantile Co., down on the square.

BRIDGE BURNED.

Santa Fe Trains Are Detoured Via Brady.

Six Santa Fe trains a day is the schedule for Brady since Thursday, the change resulting from the burning of a bridge Wednesday night between Lometa and Brownwood. Thursday three main line trains came through this way, two of them destined for San Angelo, while the third was enroute to Temple. Until the bridge is replaced four trains a day, in addition to the two regular passenger trains, will be the schedule in Brady.

Klean-Up Klub.

Notice is hereby given that there will be a meeting of the Brady Klean-Up Klub Monday night at 8:30 o'clock in the court house. All members of the club are requested to be present, and all religious, fraternal and social clubs and societies are requested to send representatives. In addition a general invitation is extended the citizenship of Brady to attend. Come out and help us plan the continuance of the campaign for the "Cleanest Town in Texas."

JOE A. ADKINS, Chm.
R. E. LUHN, Secretary.

Only a few left—white canvas slippers at \$1.25 and \$1.85. Abney & Vincent.

Buys Brady Residence.

H. N. Potter of Sherman, Texas, has been in the city the past day or two investigating conditions and opportunities with a view to locating among us. Mr. Potter last week purchased the J. W. McCrackin residence in the south part of town, and will very likely occupy the residence in the near future should he decide to make his home here.

BRADY CLEAN UP CAMPAIGN

Splendid Progress Being Made. City Will Be Ready for First Inspection in August

The Clean-Up campaign is on in full force, and already the appearance of the streets and alleys of Brady has been improved at least one hundred per cent. The work will continue until every section of the city has been covered, and in the meantime the citizens will be expected to get their property in first-class sanitary condition in readiness for the first inspection in the Hollands Magazine "Cleanest Town in Texas" contest, which will be made the early part of August.

During the first three days' weed cutting campaign, the force of ten workers under the efficient supervision of A. W. Tipton had covered seventy-two running blocks, cutting, gathering and burning the weeds along the route and removing the rubbish and debris along the streets and alleys.

Supplementing the \$150 donated to the Klean-Up Klub by the Brady city council, the Brady Commercial club directors at

their meeting last Monday afternoon subscribed another \$150 to the same fund, and which will assure the continuance of the campaign for some weeks. The pleasure of raising the fund subscribed by the Commercial club was placed in the hands of three committees, the first being composed of W. D. Crothers and D. F. Savage who solicited funds in the north part of town; the second, A. H. Broad and J. T. Mann, who circulated a list in the west part of town; the third, Jack Nussbaum and Rev. T. P. Grant, who enlisted the aid of the residents and business men in the south part of the city. The committees so far report excellent success and encouragement, and feel confident that the full amount subscribed will be raised.

In addition to the two aforementioned bodies, the Episcopal church and the Episcopal guild are on the honor roll, having already contributed their full pro rata to the clean-up fund. Other

churches and societies are expected to follow the good example and contribute their apportionment to the fund.

In connection with their consideration of the clean-up and other moves beneficial to the city, the Brady Commercial club took occasion to give a vote of sincere thanks to A. W. Tipton for the services volunteered by him and the interest he has taken in the clean-up move.

The following are the rules of the inspection to be made by a representative of Hollands Magazine:

Inspections of the towns entered will begin August 1, 1913, and will be continued until all the towns entered in the contest have been inspected and scored. To decide between towns making close scores second and even third inspections may be made.

No information will be given as to the date on which any town may be visited by inspectors. All towns must be ready for inspection without warning on and after August 1.

No protest relative to the entry or classification of any town will be considered unless received by July 27. No fees of any kind for any purpose will be required at any time during the contest.

Each town entering the contest will be inspected and scored on the following points:

Conditions of streets, parks and alleys.

Water, water supply and drainage.

Collection and disposal of garbage.

Removal and disposal of sewage.

Condition of vaults and privies (if no sewer system.)

Condition of vacant lots.

General appearance of homes.

Ventilation and care of public buildings and semi-public buildings.

Public conveniences, especially those for schools.

Presence of flies, mosquitoes and other disease-carrying insects.

Handling and exposure of meat, fruit, pickles, ice, milk and milk products, and other food products offered for sale.

Such special conditions as may directly affect the health or cleanliness of a town.

All inspections will be made wholly at expense of Hollands Magazine and will be under the personal supervision of Dr. M. M. Carrick, medical director in charge.

To the town making the best score in each class a sanitary

drinking fountain for each of the public school buildings within its corporate limits.

Nice Exhibit.

The Commercial club rooms are adorned with several exhibits of extra good looking samples of McCulloch county products, among them being some fine corn raised on the farm of D. A. Hurd. Mr. Hurd has ten acres in corn, and will make a splendid yield. L. D. Ferguson of Pear Valley has some white maize on exhibition that would take the prize at any fair, and G. T. Gattis of Lohn has a remarkable showing of fetereta, a new product said to be superior to the white maize. It is only in the past few years that the culture of white maize has been taken up in McCulloch county, and much credit for its introduction is due to the farm demonstration work. The white maize thrives exceedingly well in this country, and is one of the finest feed crops that can be grown.

Church Sale Tomorrow.

The ladies of the Episcopal church have arranged an apron sale and sale of home baking which will include such articles as bread, cakes, pies, etc., for tomorrow (Saturday), the sale to be held in the building formerly occupied by H. P. C. Evers, and known as the Brady National bank building. Everybody is invited to attend and help the ladies in a worthy cause.

A large line of mattresses. Broad Mercantile Co.

Thos. S. Wood has an eye-opener for folks who pass by the store of Scott & Co., being a stalk of corn containing three ears of unusual size, each being some twelve or thirteen inches in length, the cob being filled out completely and without a blemish to be seen. The corn was grown in Mr. Wood's garden without attention, it being his custom each year to sow a handful or two of seed corn in his bean patch.

Released on Bond.

Luis Sanchez, the Mexican who recently was held in \$700 bond for the killing of Raphael Marco, another Mexican, on the ranch of Amel Fahnstrom in the Colton community, was released the latter part of last week good and sufficient bond having been made for him by J. R. Ward and Green Lee, two of the most prominent citizens of Concho county.

Perhaps once in a while I will write just to let you all know that I still exist. In June I was ahead of all the correspondents in the contest. I do not know how I stand now, but I want to thank you one and all for your votes cast for me, and the nice compliments also.
Come on, all you good-writers, with long, newsy letters. I enjoy reading them all.
I must say also that it has been a pleasure to me to write, and that I have displeased anyone. If at times I do not know how I stand now, but I do not know how I stand now, but I want to thank you one and all for your votes cast for me, and the nice compliments also.

Heat Very Trying on Women's Nerves

They Neglect Their Bowels and the Poisons Vitiate the Blood.

Hot weather has a weakening effect on women. They are too languid to exercise, and as a result have appetites only for foods that seem light and tasty, such as salads and other cold concoctions. But these frequently produce indigestion, and with it comes constipation.

It is especially in hot weather that women should keep up the highest standard of health, for it is necessary to have strength to resist the heat. The first essentials are good digestion and regular bowel movement, and then good red blood and steady nerves will follow. The best way to obtain these is not by an over-indulgence in fruits, which often are not ripe, or over-ripe, and hence are dangerous, but in the use of a gentle and pleasant-tasting bowel stimulant like Dr. Caldwell's Syrup Pepsin. Use it tonight and your constipation, indigestion and sick headaches will vanish by morning.

Families wishing to try a free sample bottle can obtain it, postpaid, by addressing Dr. W. B. Caldwell, 418 Washington St., Monticello, Ill.

Chicago, uses it herself and gives it to her children, and Mrs. A. C. Caldwell, Denver, Colo., was once pale

and sallow-looking, but now has a pretty complexion, and naturally they are great believers in the value of Syrup Pepsin as a reasonable laxative tonic. It can be obtained of druggists at fifty cents and one dollar a bottle, the latter size for family use. Its tonic properties make it an ideal laxative for women and children. You will never again use strong cathartics, purgatives and salts after trying Dr. Caldwell's Syrup Pepsin.

Beneficial Stimulant.
 The coca leaf is highly prized by the native of Bolivia as a stimulant. He chews it like tobacco, but with a better excuse, since by its use he can perform great feats of endurance and go many hours without food. With a pouch of coca leaves and a small bag of parched corn he can run fifty miles a day. Fleet-footed Indians constitute the telegraph service of the country.

Somewhat Ambiguous.
 A missionary stationed in a land where the natives were cannibals, wrote for assistance as follows: "Our small force of brethren seems to be unable to cope with the distress which prevails in the dark and benighted land. Please send a few more missionaries."—Sunday Magazine.

HELPLESS AS BABY

Down in Mind Unable to Work, and What Helped Her.
 Summit Point, W. Va.—Mrs. Anna Belle Emey, of this place, says: "I suffered for 15 years with an awful pain in my right side, caused from womanly trouble, and doctored lots for it, but without success. I suffered so very much, that I became down in mind, and as helpless as a baby. I was in the worst kind of shape. Was unable to do any work.
 I began taking Cardui, the woman's tonic, and got relief from the very first dose. By the time I had taken 12 bottles, my health was completely restored. I am now 48 years years old, but feel as good as I did when only 16.
 Cardui certainly saved me from losing my mind, and I feel it my duty to speak in its favor. I wish I had some power over poor, suffering women, and could make them know the good it would do them."
 If you suffer from any of the ailments peculiar to women, it will certainly be worth your while to give Cardui a trial. It has been helping weak women for more than 50 years, and will help you, too.
 Try Cardui. Your druggist sells it.

A. Conley and Hannah Conley, with whatever interest thereon has accrued up to the time of payment in each case, at the office of the Ely & Walker Dry Goods Co., in St. Louis, Mo., then this conveyance shall become null and void, and these presents shall be released in due form at grantor's expense.
 If default shall be made in the payment of all or any portion of the above mentioned indebtedness when the same shall be due and payable, then the said V. E. Oehler, Trustee, or his successor in the trust shall be, and he is hereby authorized and empowered with request so to do by the Ely & Walker Dry Goods Co., after such default to sell the said property at public auction for cash at the door of the county court house in McCulloch County, State of Texas, after having given notice of the time and place of such sale as now prescribed by the statutes of the State of Texas in making sales under deeds of trust and after such sale to make the purchasers thereof a good and sufficient deed in fee simple to the premises so sold with the usual covenants and warrants, and to receive the proceeds of said sale, which shall be applied as follows: First, to the payment of all necessary costs and expenses incident to the execution of said trust, including an attorney's fee of 10%, estimated upon the amount realized on said sale. Second, to the payment of the unpaid principal and accrued interest (it being understood that when default shall be made in the payment or a failure to pay any state, county or city taxes assessed upon said property after the same by law becomes delinquent due the grantee herein shall at once become due and payable at the option of the said Ely & Walker Dry Goods Co.) E. Oehler.
 And it is further specially agreed by the parties hereto that any deed or deeds given by any trustee or

substitute duly appointed hereunder, any and all statements of fact or other recitals therein made as to the non-payment of the money secured, or as to the request to sell, the time, place, terms of sale, the property to be sold having been duly published, or as to any other act or thing having been duly done by any trustee or substitute, shall be taken by any court of law and equity as prima facie evidence that the said statements or recitals do state facts, and are without further question to be accepted, and we, the said grantors, do hereby ratify and confirm any and all acts that the trustee or substitute or his successors in this trust may lawfully do in the premises by virtue hereof.

E. Oehler, and, whereas, the said Ely & Walker Dry Goods Co. are the legal owners and holders of the indebtedness secured and provided for in the foregoing deed of trust, of which there was on the 11th day of January, 1913, and still is long past due and unpaid the sum of \$3,413.20, together with the interest thereon from January, 11th, 1913, at the rate of 6% per annum until paid and an attorney's fee of 10% on such amount as the property above described may sell for at the sale thereof under this trust, provided for in the above described deed of trust, and, whereas, I have been requested by the said Ely & Walker Dry Goods Co. to enforce said trust, I will offer for sale between the legal hours thereof, to-wit: Between 10 o'clock a. m. and 4:00 o'clock p. m., at public auction to the highest bidder, on the first Tuesday in September, 1913, (the same being the 2nd day of said month) at the court house door in the town of Brady, in McCulloch County, Texas, the following described property, to-wit: Beginning at the northwest corner of Block No. 4 in Brooks addition to the town of Brady. HARDWARE

Our stock of Shelf Hardware is complete. We are agents for the Mitchell Wagon and Sharples Cream Separators. We have only the best and stand behind every article we sell.

The only machine made by which turning the crank in one direction the pin wheel (shown) moves in four directions—forward and back, up and down. Both clothes and water are agitated more thoroughly than is possible by any other method, which means a decided saving in labor and time, compared with other machines. Has two speeds, high and regular. The high speed for light soiling, the regular speed for blankets, etc. Speed changed instantly. Gearing is enclosed in ribbed globe—absolute safety. Noiseless in operation. Best grade of silver white pine tub. You'd be surprised how simple this machine is controlled, and yet how quickly it disposes of your day's washing. BRADY, TEXAS, July 25, 1913.

IN BRADY'S FOOTSTEPS.

Inquiry was recently made of local parties by Joe Wilmoth, a prominent banker of Ballinger, requesting information as to the method of securing a farm demonstrator for Runnels county. The request was referred to the commercial club secretary and the information furnished, with the result that the Runnels county commissioners have made an appropriation necessary to assure the securing of a farm demonstrator for the coming year.

This is the second or third instance where McCulloch county's precedent has resulted in

benefit to her neighboring counties, and we have every occasion to be proud of the fact that McCulloch was the pioneer in farm demonstration work in West Texas, and that the results obtained here have been so gratifying as to elicit interest and inquiry from other counties.

MEUM AND TEUM.

It seems as if the United States is blamed in a large measure for the Mexican revolution. The Monroe Doctrine covers considerable territory and is interpreted by other nations to mean that Uncle Sam assumes full responsibility for pacifying all West Continent belligerents.—Corpus Christi Caller.

Those European nations which have hinted and whispered dissatisfaction with Uncle Sam's policy as to Mexico are, noticeably, refraining from taking an active part in the wars of the Balkans. Of course Uncle Sam, Monroe Doctrine or no, would not permit Europe to come over here and shake up Mexico. No more would Europe permit Uncle Sam to go over there and yank the Bulgars or the Serbs around. This side of the ocean is his territory, yon side theirs. And after they have succeeded in letting the Balkan warriors settle their own internal difficulties probably Uncle Sam will have succeeded in permitting the Mexicans to settle the Mexicans'. There is a lot more to war than the hurrah business.—State Press in Dallas News.

Two prominent railroad officials who visited in Menard one day this week were much taken aback by the fact that Kernel Klaude Kallan invited himself to drink but once with them. Alarmed at this seeming neglect they made diligent inquiry among the citizens of the burg,

only to receive the information that it was publication day at the Menardville Messenger office, and that it was customary for Kernel K. to hide out until after the hubbub occasioned by the appearance of his paper had subsided.

Monday will be the regular "Trades Day" in Goldthwaite, which reminds us that "trades" and "sales days" are proving drawing cards for any community and that Brady should inaugurate a regular day for this purpose without delay. Let's get together on the proposition and make Brady the center of

commerce for all the great Brady Country.

The rains and the wind and the sunshine are responsible for a big crop in Menard, and according to advices received in Brady that crop consists chiefly in sand and dust and poke weeds. Menard is fitting herself for entry in the "Deserted Village" contest with excellent chances for capturing first prize.

With the information at hand to the effect that married men live longer than single men, a contemporary is mean enough to suggest that possibly it only

seems that way. This statement stamps the aforesaid contemporary as an ardent anti-suffragette of the Henry Peck type.

COULDN'T GET A DRINK IN BRADY.

Jones (newcomer in Brady) — "Say, what ails you merchants?" Smith (old Bradyite) — "Why?" Jones — "Nothing much; but I believe if water was salable, and the Apostle Paul was hungry and thirsty and wanted a drink on credit he'd get turned down." Smith—"Oh that's reputation. Our merchants have lived here a long time and know our people pretty well."—Brownwood Bulletin.

Having thus discoursed upon Brady's 99 per cent pure and abundant supply of water, the editor of the Brownwood Bulletin will now explain the cause and effect, direct and indirect, of the arrival of thirty-seven casks of beer in Brownwood last week upon one train. Then, too, it might make interesting reading if he would pen a few lines upon Brownwood's cleanest hogs.

Demonstration Wednesday.

V. E. Custer of Waco conducted a most interesting demonstration Wednesday afternoon at Abney & Vincent's grocery department, wherein the superior merits and conveniences of Heniz' 57 varieties of pickles, catsups and sauces were impressed upon visitors.

In the demonstration Mr. Custer served the most appetizing of cream tomato soup, as well as baked beans, pickles and sauces of every variety, and the excellence of the goods enhanced their popularity with all who attended. Mr. Custer was well pleased with the attendance accorded his demonstration and expressed himself as well repaid for the time spent in our city.

The gathering almost daily of lowering clouds brings encouragement to the farmers and citizens of McCulloch county, and hopes are raised that we may have a good downpour within the next few days. McCulloch County's Fertility.

Mart L. Williams and two daughters were in town Tuesday from Voca, and as usual M. L. was enthusiastic about his crops, even if a rain would prove beneficial. He says he has one plot of land on his farm that has been in constant use for thirty-five years, and which ordinarily would grow corn not more than waist high. As an experiment he fertilized the land this year, and planted it in corn. The result has been marvelous, and the corn has grown almost out of sight, from one to three ears adorning each stalk, and some of the ears are growing higher than his head above the ground.

Mr. Williams also has a plan of marketing his surplus hogs that may prove of interest to other farmers. He raises his hogs largely on skim milk and scraps from the kitchen, and fattens them on corn that is too smutty to use otherwise. Instead of trying to raise enough hogs to market in carload lots, he locals them to Fort Worth without waste of time. By this method he netted \$26 clear on the last porker he shipped, which would indicate that hog raising even on a small basis is a decidedly profitable occupation.

Patient Doing Well.

Innis Woods, the young man who was so seriously injured in the runaway accident Monday night, is reported doing very well. While he is suffering considerably from the cuts and bruises and general soreness, it is thought that he escaped any serious internal injuries, and that his recovery will be the matter of only a few days.

When you have trouble with your stomach or chronic constipation, don't imagine that your case is beyond help just because your doctor fails to give you relief. Mrs. G. Stengle, Plainfield, N. Judge E. P. Lea has a homemade ink eraser on his office desk that raises a question every time it is spied by a caller. The eraser is fashioned from a knife that has evidently come down from the days of long ago. The knife is a heavy and awe-inspiring instrument, and while it is but about four inches in length, the blades are of such unusual width as to stamp it a curiosity. The larger blade is nearly an inch wide, while the smaller blade is five-eighths of an inch in width. Just a scrap of the handle remains, but enough to indicate that it was once adorned with a heavy bone handle. The judge does not recall how the knife came to be in his possession, but it was discovered among other relics just the other day, and was doubtless at one time the property of a real, "sure-enough" wild west cowboy.

Commendable Enterprise.

It has just been brought to our attention that Fellowcitizen A. W. Tipton has volunteered his services for one week in overseeing the clean-up work now being done, of his own free will and without a cent of remuneration.

If one citizen can take such praiseworthy interest in the general welfare of our city, there remains no further excuse for any citizen to neglect his share of the work. Brady's 2669 inhabitants could make Brady a spotless town in a jiffy if but each one would emulate Mr. Tipton's example.

Surprising Cure of Stomach Trouble.
 When you have trouble with your stom-
 ach or chronic constipation, don't imagine
 that your case is beyond help just because
 your doctor fails to give you relief. M. G.
 Stengle, Plainfield, N. J., writes, "Over
 a month past I have been troubled with
 my stomach. Everything I ate upset it ter-
 ribly. One of Chamberlain's advertising
 booklets came to me. After reading a few
 of the letters from people who had been
 cured by Chamberlain's Tablets, I decided to
 try them. I have taken nearly three-fourths
 of a package of them and can now eat almost
 everything that I want." For sale by all

There is no excuse for anyone
 to buy a wagon that is not up to
 the standard for wagons are as
 staple as anything sold. You
 have been here long enough to
 know the good from the bad for
 you know the good of anything
 will always win. Take the Bain
 wagon for instance. This wagon
 has been sold in this section for
 the last fifty years, and you never
 see a bad one—we defy you
 to show us one single instance
 of a complete fall down of a
 Bain wagon. Of course you
 possibly will have to pay more
 for a Bain—say \$5.00 more than
 other wagons—but what does
 this amount to when they will
 last you at least ten years longer
 than most other makes of
 wagons. Give us a chance at
 you when buying a wagon for
 we know there is no better wagon
 than the Bain. Broad Mer-

New Manager Arrives.
 Walter Gallemore arrived
 Monday morning from Dallas
 and will take charge of the Al-
 falfa Lumber yard here on the
 first of August, he having been
 appointed manager succeeding
 N. B. Embry. Mr. Embry, who
 has had charge of the yard for
 the past four years, recently re-
 signed his position to devote his
 entire time to his newly purchas-
 ed gin. Mr. Embry was highly
 successful in conducting the af-
 fairs of the Alfalfa Lumber Co.,

 he will meet with like and even
 better success now that he has
 engaged in a line of business
 for himself.

Mr. Gallemore will make a
 valuable addition to the citizen-

 assures his success in the man-
 agement of the local yard. Mrs.

DON'T DELAY.

Some Brady People Have Learned That Neglect Is Dangerous.

The slightest symptom of kidney trouble is far too serious to be overlooked. It's the small neglected troubles that so often lead to serious kidney ailments. That pain in the "small" of your back; that urinary irregularity; those headaches and dizzy spells; that weak, weary, worn-out feeling may be nature's warning of kidney weakness. Why risk your life by neglecting these symptoms? Reach the cause of the trouble while there yet is time—begin treating your kidneys at once with a tried and proven kidney remedy. No need to experiment—Doan's Kidney Pills have been successfully used in thousands of cases of kidney trouble for over fifty years. Doan's Kidney Pills are used and recommended throughout the civilized world. Convincing proof follows:

W. E. Gideon, 201 Mosquete St., Coleman, Texas, says: "I was troubled by severe pains in my back. My kidneys were weak and there was an almost complete retention of the kidney secretions. I tried several remedies, but found Doan's Kidney Pills better than anything I had ever taken. Should the trouble ever return, I will know what to do." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

A Clever Forger.

Local banks and the local officers have been warned to look out for one John H. Kline, a clever forger known by this name as well as many other aliases, and a reward of \$400 is offered for his arrest and conviction. Kline has an original method of obtaining money under false pretenses, as will be noted from the following statement sent out with a description of the fugitive from justice:

"This is his method of working: A short time after arriving in this county he called upon a banker in a small town about twelve miles from this city, knowing that very likely there would be a notary public there, and he asked him if he knew where he could purchase a good farm.

"He was told of a good farm for ten thousand dollars, and that being about what he wanted went to see same. The next day he made arrangements to meet both parties, and while in conversation he asked the banker if he was a notary public, saying that he wanted to send the power of attorney to a friend. After signing, his signature being sworn, he asked the farmer to sign as a witness, thereby obtaining the signature of the man who owned the farm, and the signature of the notary public, also a copy of the seal.

"He then obtained the farmer's deed to his property or farm saying that he wanted to look over the abstract.

"Kline then came to this city and called at a real estate office saying that he had purchased a farm for ten thousand dollars and that he wanted to borrow three thousand dollars, and give a mortgage on the farm for that amount, as he would need that amount for the improvements he wished to make.

"The real estate man made arrangements with one of his clients that he had in mind. After meeting this party Kline took him out to see the farm, and being so impressed with it he decided to let him have thirty-five hundred dollars. On arriving in this city the real estate man was instructed to draw up a mortgage. The next morning they met at the real estate office and both parties went to the Register of Deeds' office and Kline placed on file a forged warranty deed complete with a notary public's signature and seal and the signature of the man of whom he had bought the farm, also the mortgage that had been drawn up at the real estate office. This being done, they went to one of the local banks, and the thirty-five hundred dollars was paid over to Kline, and that is the last that has ever been seen of Kline."

J. H. Drinkard Threatens Prosecution for Non-Delivery.

J. H. Drinkard, ex-Bradyite and subscriber to The Brady Standard, is vexed because his Standard is delayed in reaching him. At least this is our inference of the cause of the trouble between Mr. Drinkard and Lon Barkley, postmaster at Fort Worth. Mr. Drinkard has threatened to prosecute the post-office authorities for failure to deliver mail to his "rural" box. Postmaster Barkley says "He should worry." But The Standard goes up to Fort Worth just the same.

The trouble had its beginning in the moving of the Polytechnic post office. A number of citizens, including Mr. Drinkard, who had been receiving their mail at the Polytechnic post office opposed the moving, and declared their intention of boycotting the office and having their mail delivered on the rural route. Postmaster Barkley said well and good—anyone residing farther distant than one-half mile was entitled to receive his mail by rural carrier. Mr. Drinkard, however, lives but 2,700 feet and the mail carrier ignored his "rural" box. Mr. Drinkard threatened prosecution of the post office authorities for failure to deliver his mail, claiming that the Polytechnic office is a sub-station and not a post office. Barkley says "Incorrect; sit down." And there you are.

Our good friend, E. A. Marshall, of Lohn wants The Standard continued to the address of Mrs. T. C. Marshall at Tahoka, which is pretty good evidence that the paper is appreciated even at that distance from Brady.

EASY RELIEF FROM CONSTIPATION.

The Remedy That Replaces Calomel—Causes No Restriction of Habit or Diet.

It is a mistake to take calomel when your liver is lazy and needs toning up. Hundreds of people in this section have discovered that Dodson's Liver Tone is a thousand times better and safer and its action is just as sure. There are none of the bad after-effects of calomel to Dodson's Liver Tone and no danger of salivation.

For attacks of constipation or biliousness one or two spoonfuls of this mild, pleasant tasting vegetable liquid are enough and Jones Drug Co. gives a personal guarantee that every bottle will do all that is claimed for it. Money back in any case where it fails.

Dodson's Liver Tone costs only 50 cents for a large bottle. Remember the name because there are any number of remedies sold in imitation of Dodson's claims. Some of them have names very similar to Dodson's Liver Tone—and are in same color package. These imitations are not guaranteed and may be very harmful. Go to Jones Drug Co. and you will surely get the genuine.

What is the Correct Per Cent of Profit to Charge on an Article?

Some go on the theory that as long as a customer is satisfied it is all right, no matter what profit is added. We do not think so. We try to make a live and let live profit on everything we sell and not be exhorbitant on anything.

When a merchant tells you he is selling you at cost, maybe he is—what it costs you, but not what it costs him. If he is, he is either going out of business or baiting you. Make a profit he must, for if he did not he could not stay in business. He has selling expenses, clerk hire and his own expenses to meet. The least a bank will charge you for money is 10 per cent. A merchant is entitled to that on his investment, so you see if he did not make some profit he could not stay in business.

Our motto has always been "Live and Let Live." In our eleven years of merchandising we have tried to be consistent. We have believed in giving one hundred cents in value for every dollar spent and treat our customers as we would want to be treated.

We will soon be moved into our new business home. We have spared no pains to make this building attractive and it will be a place where it will be a pleasure for you to trade. Then, too, we will have a large stock of the best goods the market furnishes. We will have bargains in every line and to those paying cash—they will be able to do better than they supposed. If you have stock to trade, we'll trade with you, and if you want credit, we're here to take care of you.

WE APPRECIATE YOUR GOOD WILL AS WELL AS YOUR TRADE.

Cotton Grades.

The attention of the farmers is called to the complete set of cotton grades on exhibition at the Commercial club rooms, and to the fact that these grades were sent out for the use and benefit of the farmers in the grading of their cotton. The U. S. government has provided complete sets of cotton grades and is prepared to supply every commercial club and every farm

demonstrator in the south, and the government is exceedingly anxious that full use be made of them.

LOANS FOR SILOS.

Hundreds of Farmers Will Accept Banker's Proposition.

Omaha, July 12.—At a recent meeting of group four of the Nebraska Bankers association there was a general discussion relative to silos, and while on this subject George F. Sawyer, president of the Nebraska Bankers association, who was present, announced that wherever farmers were good he would take their notes drawing six per cent interest, providing they would use the money borrowed in the building of silos.

Mr. Sawyer told the other bankers that if they would loan the farmers money to build silos and that if they did not feel able to carry the loans he would take the notes off their hands and carry the makers.

It is believed that this move on the part of the bankers will result in from 200 to 500 silos being erected in Southwest Nebraska within the next ninety days.
