Brady High School Athletes to Be Seen in Action Saturday.

The Athletic Association of the Brady High school is anticipating a great time at their interscholastic Track Meet scheduled to take place at the fair grounds tomorrow afternoon. The local teams have been training for the past several months, are in excellent condition, and some hotly contested events will be seen.

Entries have been made by teams representing the schools at Millersview, Hext, Nine and Calf Creek.

The events are scheduled to begin promptly at 2:30, and a small admission fee of 25c to defray expenses of the meet will be charged. All loyal High supporters should lend assistance in making the event a success.

New Improvements.

A. N. Bryson shows his progressive spirit as a citizen by the addition of about 500 feet of cement walks at his residence on the north side. The work was completed last week and adds no little to the appearance of his commodious home.

Excursion to Brownwood.

An effort is being made to sell enough tickets to Brownwood for the Daniel Baker track meet scheduled for Saturday, April 11th to secure a special train for the accommodation of Brady citizens who will attend. Supt. W. L. Hughes is very anxious to secure the train, and states that at least 100 students will make the trip if the special is put on, but that a comparatively small number will be able to attend if they have to go on the regular train, which would necessitate remaining in Brownwood over night.

The special can be secured for a party of 200, and the rate of \$1.25 has been put on, and it is hoped that this number of tickets can be sold. It will be necessary to sell this number of tickets by tomorrow afternoon in order to make the necessary arrangements with the railroad company.

All who can make the trip should communicate with Agent Freeman of the Frisco not later than noon tomorrow.

Of course you will want some of the new collars—the Standish and Arrow collars. Two for 25 cents. Kirk, the old reliable Nuf Sed.

CRACKSMEN ARE CAPTURED

TWO MEN TAKEN INTO CUSTODY WEDNESDAY NIGHT AT MERCURY—CAUGHT WITH THE GOODS—LODGED IN MASON COUNTY JAIL.

After three days and nights of vigilance on the part of Sheriff J. C. Wall, Deputy John Martin, of this county, and Sheriff P. C. Baird of Mason county two men were captured at Mercury Wednesday night who are thought to be the cracksmen who blew the safe of the Hoffman Mercantile Co. at Fredonia in Mason county at an early hour Monday morning, particulars of which appeared in Tuesday's issue of The Standard. The men are the same ones seen in the vicinity of Fredonia last Saturday afternoon, and the officers are confident that they have the right men.

The trail from the scene of the burglary led the officers to a point on the San Saba river near Voca where all trace of the men was lost. A heavy rain and hail fell in that vicinity Monday morning which entirely obliterated the trail, but it had been followed far enough to show in which direction the men were headed. Sheriff Wall returned to the city Monday afternoon and immediately posted deputies at all railroad points in the county as well as at the bridges over the Colorado river on the north.

Monday night Sheriff Baird went to Mercury, where he remained on watch up to the time of the capture Wednesday night. About 5:00 o'clock Wednesday afternoon Constable J. W. Cole of Rochelle phoned Sheriff Wall that two men answering the description of

Former McCulloch County Citizen Shot in Oklahoma Town.

Word was received here last week of the shooting of A. C. Hurley, a former well known citizen of this county, at his home in Tuskahoma, Okla., on Tuesday afternoon, March 24th, as a result of which it is feared he will lose his life. Hurley lived in the southern portion of the county up to about two years ago, when he removed to the Oklahoma town and engaged in the livery business. He was reared in the Katemcy neighborhood, is a son of G. F. Hurley, and is well known throughout that section, where he was known to be a most peaceable and unassuming man. G. B. Awalt of Katemcy, brother-in-law of Hurley, was here Tuesday en route to Paris, Texas, to which place the in-

FIFE FINDINGS.

Fife, Texas, Mar. 31. Editor Brady Standard: Corn and maize is coming up nicely here on all land that was planted early. Those planting in late plowed ground are complaining of not getting stands. A party from the local Woodmen camp attended the camp at Lohn Saturday night. The entire bunch, composed of the following, Thos. Mitchell, L. M. Farmer, F. M. Rance, John Mitchell, J. M. Doyle and Jas. Finlay rode all the goats the Lohn camp had and as a consequence are hardly able to navigate this week. There is considerable sickness among the children of the community this week. I cast my vote this month for '1914' because she's so young. Robt. Finlay had a runaway Saturday, but no damage done except his buggy, which was

torn up pretty badly. Will Bradley, Dee Willis and Miss Ruby Payne Sundayed at the McKnight ranch. L. M. Farmer was at Brady last week taking in the sights. Chas. LOST CREEK ECHOES.

Voca, Texas, Mar. 28. Editor Brady Standard: Warm spring weather has been slow in getting here, but it seems to be here at last. We are still needing rain here; have had some few showers but not enough for the oats. While they seem to be growing some it is time they had a good rain to rush them out. A good rain just at this time will almost assure a good oats crop. Quite a lot of corn is up and is looking fine. There is considerable sickness about in the country, almost all lagrippe. J. F. Lemons, who has been sick for several days, is no better, and is not expected to live many days, not till this goes to print. His children are all with him except Mrs. Ed Arledge of Sonora, whom they failed to reach by wire. Joe Lemons, Jr. and Mrs. J. A. Davis, of Sonora, are here. W. R. Lemons of Carson City and Mrs. Henry Wilson of Roswell, N. M., arrived Saturday morning. Jim Lemons of Oklahoma has been here for a day or two. BRADY, TEXAS, April 3, 1914.

FOR A TEXAS BUILDING.

Attention is directed to an article appearing elsewhere in this issue of The Standard setting forth the plan by which it is hoped to raise the necessary funds for the erection of a Texas building at the Panama-Pacific exposition at San Francisco next year.

Texas is too big to miss representation at the big show, and Texans are too big to allow such to happen. The efforts of the commission appointed by Governor Colquit to raise this money should—and we believe will—meet with a hearty response from Texas' loyal sons and daughters.

Our guess is that the citizens of Brady don't want a pike road connection with the Mason county capital. That is not a preposterous inference, as no effort is being put forth to secure such a thoroughfare. Why not wake up and do something?

A man by the name of Edward Hoffstetter, neighbor of Hurley, frequently had difficulties with his wife, and she would come to Mrs. Hurley and request her to take her to the home of relatives several miles in the country. Her requests were always complied with and this aroused the enmity of the woman's husband against Mr. and Mrs. Hurley. Mrs. Hoffstetter left her husband again a few days previous to the shooting and was taken to the home of her relatives by Mrs. Hurley. Hoffstetter secured a shotgun, loaded it with buckshot and started in search of Hurley. He came upon Hurley at his stable, where he was engaged in unloading feed. Hoffstetter came up behind his victim, and raising his gun called to Hurley that "he guessed he would take him from his family." As he turned around Hoffstetter fired. One shot broke

FOR TEXAS BUILDING.

Plan For Raising Funds for Building at Exposition.

"Believing that the people of Texas in their patriotism and pride in the advancement and achievement of our great state, realize the necessity of constructing a creditable Texas Building and maintaining suitable exhibits at the Exposition, I, O. B. Colquitt, governor of Texas, hereby call upon and urge all of the people of the great state of Texas to unite in support of this great undertaking, and assist the Texas Commission in every way possible in raising funds with which to construct a Texas Building, and the collection and maintenance of exhibits which will properly advertise to the world the vast resources and commercial importance of this state."

This is a portion of the proclamation issued by Governor Colquitt urging the people of Texas to unite in observing Flag Day, on Saturday, May 2nd, at which time, tags will be sold, the proceeds to be turned into the fund for the erection of a Texas Building.

In every portion of the state, in every county, every city, every town, these tags will be sold in hopes of making Texas, by its building and exhibit at San Francisco, the "one best bet" of the Exposition.

The eyes of the entire United States are upon Texas. There is no state in the Union that stands in the front rank of importance as does Texas. Border troubles have been magnetic. From coast to coast the newspapers of the country are daily carrying dispatches from the Rio Grande cities.

When the Exposition opens, people will flock to the Texas Building to ascertain the progress of the greatest state in the Union. Since the constitution of the state prohibits appropriations for the erection and maintenance of a Texas Building for exhibits outside the state, the patriotism of the people must be called upon.

Two hundred thousand dollars must be raised to do Texas all justice. Other states are expending from \$150,000 to \$500,

000 on their state buildings. Texas will undoubtedly benefit by an exhibit and state building not below the average. The Tag Day, it is hoped, will return enough money to make the choice of a site possible.

New York has given \$700,000; Pennsylvania \$300,000; Illinois \$300,000; Massachusetts \$250,000, etc.

These states are far removed from direct benefit to be derived from the opening of the canal. Texas through its seaports at Galveston and the completion of the ship canal to Houston will double, triple and perhaps quadruple their business, and Texas interests. Texas should have a creditable representation. Flag Day will aid in making this possible.

An organization throughout the counties of the state will be perfected and the matter of local distribution of tags and sale placed in the hands of local committees. These committees have not been chosen at this time but announcement will be made later. Neat tags bearing the Texas flag and colors and inscribed "Texas Building-Panama-Pacific-Exhibition" are being made for distribution on that date—May 2.

The Price She Paid.

The thrills one experiences reading David Graham Phillips' book, "The Price She Paid," are even more strongly brought out in the stage offering of that name which will be seen here at the Lyric opera house on Saturday night, April 4th. It is seldom that this territory gets a genuine treat, such as will be offered by the management of the new attraction when the big New York company of stars visits this city. Heading the list is Miss Shirley Mayberry, who has been favorably compared with Maud Adams in the same kind of work that has made the celebrated Charles Frohman's star so popular.

"The Price She Paid" is a play brought up-to-date. It deals with a designing man of means, a dishonest boy, and a girl who believes in the teachings of her mother as regarding the defense of her virtue. Newspaper critics throughout the country have commented on the play as being very daring, but not one of them has yet failed to place it in its deserved position in the American drama. The play will be seen here for but one performance positively.

Wins Auto.

Willie, the small son of Mr. and Mrs. C. A. Gavit was awarded the automobile given away by Abney & Vincent Tuesday, having secured the largest number of labels from cracker boxes sold by the firm, and is consequently about the happiest young man to be found these days.

The firm offered the prize several months ago to the little boy or girl who brought in the largest number of labels taken from a brand of soda crackers sold by them, and a large number of little folks have been busily engaged for some time in collecting these among their friends. The prize is a real red auto, fully equipped throughout—except that it has no engine—the motorist being required to furnish the power by means of pedals similar to the tricycle.

The prize is one that would be appreciated by any little boy or girl, and Master Willie will likely become an auto enthusiast in a short time.

The Reason Fewer People Take "Salts."

We find the use of salts and other harsh physics is becoming less every year because more and more people are using Rexall Orderlies, which we and they firmly believe to be the best bowel remedy ever made. They taste so much like candy that even the children like them. At the same time they act so easily and naturally that there is no purging, griping or pain. They promptly remove the constipation and, by soothing and strengthening the bowels, make it less liable to occur again. We have the utmost faith in them. We know what they are made of and the pleasant, beneficial results that always follow their use.

You needn't take our word for it. If Rexall Orderlies don't help you—if they don't entirely relieve all your bowel troubles—come back and tell us and we'll give back your money. In vest pocket tin boxes; 10 c, 25c 50c.

The Ladies Tuesday club of this city met with Mr. Soule Tuesday afternoon to consider the proposition, but decided that on account of having no suitable place for holding the sessions that it would not be advisable to attempt to put on the attraction this year. A Glorious Rain.

A heavy rain fell in the section of the county west and northwest of Brady Tuesday morning, the precipitation amounting to something like an inch and a half. The rain was accompanied by considerable wind, and some hail is reported, although no damage was done. The rain fell in torrents for about thirty minutes and then turned to a slow, steady down-pour which lasted for about an hour.

All tanks were filled, and water was reported standing in the roads yesterday afternoon. The rain came most opportunely and will bring up crops and prove of great value to spring oats. The entire county has been thoroughly drenched in the past two weeks, and conditions generally are most flattering.

tank near Placid. Nothing was seen of them, however, at the water tank and he continued on to Mercury, where he got off. A crowd was at the depot when the train arrived, and two young men were standing near the engine when they saw two men board the blind baggage from the opposite side of the depot. They immediately ran back to notify the officers, while the men leaped off the train and ran in a northeasterly direction to a lumber yard. Sheriff Baird ran up the track, going around the engine, while Deputy Martin crossed over, followed by the crowd. Mr. Baird caught sight of the men as they were making off in the direction of the lumber yard and started in pursuit. While Martin took the opposite direction, but soon discovered his mistake and turned back in the direction taken by the men. The chase led through the lumber yard and into a gin lot nearby, where the men were cornered and forced to surrender.

They were taken to the hotel where they were stripped and searched, practically all the money taken from the Fredonia safe being found on them. No trace of the notes has been found, however, and the men refuse to give any information concerning them. Each of the prisoners was armed with .45 calibre Colts revolvers fully loaded and a further search revealed a full set of skeleton keys, files, flash light, a package containing twelve or fifteen dynamite fuses and caps and a pint bottle of nitroglycerine, as well as paraffine wax, soap, etc.

News of the capture was phoned to Sheriff Wall Wednesday night at a late hour by Mr. Martin. The news spread over the city quickly yesterday morning and a big crowd of citizens was at the depot when the 9:00 o'clock train arrived, with the prisoners aboard and in charge of Sheriff Baird and Deputies Martin and Cravens. They were taken to the courthouse, followed by a crowd of several hundred curious citizens anxious to catch a glimpse of a real, live burglar.

When asked if they cared to make a statement they refused to say anything further than to give their names. One gave the name of Thos. Eagan, and his residence Texas, while the other said his name was J. W.

Hall and that his residence was in Missouri. Both refused to state what portions of the states they were from. Hall is a big man, being about six feet in height and weighing 185 or 190 pounds, sandy hair, red complexion, prominent cheek bones, gray eyes with a decided squint. Practically all the front teeth are missing. He gave his age as 50. Eagan is low in stature, being about 5 feet, 7 or 8 inches in height, dark complexion, practically bald, gray mustache, quite heavy, and weighs 140 or 150 pounds. He gave his age as 65. Both denied ever having been in Brady before, but several citizens are positive that they were seen here within the past week or ten days. Deputy John Martin was stopped on the streets one day last week by Hall, who inquired for work, and several other citizens are sure that they saw them here.

\$38.00 in currency was found secreted in the clothing of the men, one having ripped the cuff of his shirt and placed bills amounting to \$18 therein, sewing it back as neatly as could have been done by an expert seamstress. The other man had the two \$10 bills known to have been in the safe secreted in the padding on the shoulder of his coat, \$2.95 in small change and six tobacco sacks filled with silver were found, but the aggregate amount is not known, as the money was not counted.

When requested to pose for photographs the men willingly complied, and were photographed in several different positions, the finished pictures being sold on the streets of the city yesterday afternoon and meeting with a ready sale.

Sheriff Baird left with his prisoners about 10:30 in Steve Jennings' car for Mason where they were lodged in jail.

The work of the local officers in effecting the capture is most commendable, and much credit is due Sheriff Wall and his efficient corps of deputies for the manner in which the search was conducted.

CHARGED WITH MURDER

MR AND MRS. T. B. PATTON ARRESTED MON. NIGHT

Taken to Corsicana to Face Charge in Connection With Death of A. W. J. Weeks.

On a warrant from Navarro county charging murder in connection with the death of A. W. J. Weeks at Corsicana a few months ago, T. B. Patton was arrested at his home in North Brady Monday night about 10:30 by Deputy Sheriff John Martin and City Marshal J. M. Anderson. Patton's wife was taken in custody Tuesday morning and lodged in jail to await the arrival of officers from the Navarro county town.

The murder charge is the result of an investigation of the sudden death of Mr. Weeks, former husband of Mrs. Patton, January 9th after an illness of only a few hours duration supposedly from heart failure. Suspicion was aroused at the time of the death and an investigation was ordered by the district attorney, the funeral services being stopped at the cemetery while the stomach of the dead man was removed to have its contents analyzed by local physicians. They declared that they found no trace of poison, however, but the authorities were not satisfied and sent the stomach to Chicago for a more thorough examination, and it is thought that the charges grow out of the report received from there, although the evidence secured is not generally known, as the matter is before the grand jury now in session at Corsicana.

Shortly following Mr. Weeks' death the widow closed the hotel and removed with her family to this city, where they resided for several years previous to going to Corsicana a few years ago, Mr. Weeks being engaged in the restaurant business on the west side of the square. Patton had been a friend of the family for many years, and was employed in the restaurant here for some time, and was also employed at Corsicana up to a year or so previous to the death of Weeks. A short time after Mrs. Weeks came to Brady Patton followed and a few days later they appeared at the courthouse and were married by Judge Harvey Walker in his office, the wedding occurring March 9th. They immediately took up their residence on the north side near the home of Thos. Bell, and Patton began a search for employment, but never succeeding in securing work.

Sheriff W. L. Pevehouse and Deputy W. D. Seaton arrived here yesterday morning to take the prisoners back to Corsicana, leaving last night via the Frisco.

Neither of the prisoners would make any statement concerning the case, further than to protest their innocence, and to attribute the accusation against them to enmity on the

part of citizens of Corsicana, and seemed confident of the final outcome of the case.

They have many friends in Brady who feel a keen interest in the matter, and will watch developments closely.

An Apology.

My statement in the last issue of The Brady Standard anent the smallpox case, seems to reflect upon our efficient county health officer, Dr. J. G. McCall. I am sorry I used the words "imposed upon" and "not true." Everybody knows, and no one better than I, that Dr. McCall would not impose upon anybody, nor make an untrue statement, knowingly.

The reason why the smallpox case was said to be at Rochelle, was the fact that this is the trading point of the family in which the case unfortunately developed, though said family live five miles northeast of Rochelle.

The statement that the young man "attended several gatherings while broken out," meant only that he was in Rochelle, and of course, met with people on the streets and in the stores. I hope my good friend, Dr. McCall, will forgive me for this seeming reflection upon him—really, I hope that he "passed it over" without taking offense. As soon as I read my statement in cold, black type, I saw my unfortunate selection of words, and hasten to make this amende honorable.

I want to add here that there ought to be a severe law to punish anybody who goes broken out with any kind of contagious disease, especially with supposed chicken pox.

Rabbit Drive.

W. D. Parker of the Pear Valley community was in the city yesterday and reported a big rabbit drive Wednesday at that place. Eighteen of the citizens of that progressive community got together for the drive, and as a result 250 bunnies were "Villalized."

Practically the entire catch was composed of jack rabbits, only a few of the number being cotton tails. Mr. Parker states that these pests are very numerous this year in his locality, and that the farmers are going after them in earnest and expect to have several drives within the next few weeks.

Team Runs Away.

The big team of horses used by S. J. Durnett in sprinkling the streets ran away Monday afternoon, but did very little damage. In crossing a ditch near the Bauhof gin the king-bolt of the sprinkler broke, causing the front of the vehicle to fall onto the axle. The team became frightened and ran away with the front wheels, but were stopped after running only a short distance and without doing any damage.

Mr. Durnett asks that those who stopped the team be thanked for doing so.

Stock of Optical Goods.

I can sure make you see. If your specks are broken, I will fix them. I repair watches like they should be—not like a blacksmith. Ask the ones I have satisfied. Broken jewelry repaired at the very lowest price. A full stock of good jewelry. If you need anything, write me and I will send a nice selection by mail. Repair of any kind sent by mail will receive careful attention. Try me and be convinced. Come to see me.

You can be pleased—you must be pleased
