He will probably remain over Friday to continue the Diamond sale, but the sale on Brass Goods will last for one day only.

PICNIC AT MELVIN.

W. O. W. Will Have Big Celebration July 2nd.

Arrangements have been completed by the W. O. W. lodge of Melvin for a big picnic to be pulled off in that progressive little city on Thursday, July 2nd, and to be able to attend nate enough to be able to attend are assured the time of their lives.

The event was at first planned as a joint affair between the W. O. W. and the I. O. O. F. lodges of Melvin, but on account of the inability of the Odd Fellows to secure Grand Master W. R. Francis of Fort Worth for a speech they decided to withdraw and allow the W. O. W. to complete arrangements for the celebration.

The committee on arrangements appointed by the W. O. W. has practically completed its work, and announces that there will be plenty of entertainment for everyone who may attend. There will be baseball games by strong teams, sack races, burro dancing, and all forms of amusement usually found at celebrations of this character.

The candidates of the county have been invited to attend, and they will be given an opportunity to present their claims to the voters. As many of the candidates are quite adept at public speaking, it is expected that the announcement that they will make speeches will attract quite a crowd.

If you want to spend an enjoyable day, just lay business aside on July 2nd and mix and mingle with the genial folks of the Melvin country, and your wish will certainly be gratified. These people are among the most hospitable in the world, and they will be glad of the opportunity to have the people of this section as their guests upon this occasion.

HAYES COMPANY HERE.

Popular Theatrical Organization To Be Here All Week.

The Fred and Ethel Hayes Theatrical Co., opened a week's engagement in their big tent theatre on the E. J. Broad lot last night, the attendance at the opening performance being gratifying to the management.

The big tent was comfortably filled, and judging from the frequent bursts of applause from the audience the offering of the Hayes company was well received. "The Tenderfoot" was the bill for the evening, and is an excellent one.

Mr. Hayes has an unusually strong organization this year—a much stronger one in fact than has appeared in Brady for some time—and the people of Brady will be slow to show their appreciation of his efforts to bring a show of this class here.

The bill for tonight is one of the strongest plays in the company's repertoire. It is a drama in which is depicted the extreme measures used by the New York police in extorting confessions of guilt from those unfortunates of that great city who fall into their clutches. In "The Third Degree," such pressure is brought to bear upon their victim that he confesses guilt of a crime of which he is absolutely innocent and the press agent of the police department sees to it that the authorities receive due credit in the press of the city for the great capture. It's a gripping story, and one that you can't forget.

On tomorrow night the offering will be "The Heart of An Indian," and on Thursday night a play without a name. For the most appropriate title for Thursday night's bill Mr. Hayes will give \$5.00 in gold. The play is more than a hundred years old, and has been played in almost every city in the United States under various titles. It has been rewritten and modernized, and is one of the strongest bills to be presented this week.

Saturday Feature.

Manager Levy of the Brady opera house announces as a Saturday feature this week the fifth number in the series of "The Adventures of Kathlyn." This is one of the most exciting pictures ever produced and one that you will always remember. The title of this number is "A Colonel in Chains," and is the story of the adventures of a young American girl in the wierdly mysterious land of India.

Feature night at the opera house has been changed to Saturday instead of Friday as heretofore, and on account of the lengthy programs, only one show will be given on these nights.

Singing at Carroll Colony.

The people of the Carroll Colony community are arranging for an all-day singing at the school house for Sunday, July 5th. Classes from different sections have been invited to participate, and are expected to be present.

Dinner will be served on the ground, and the occasion is expected to be a most pleasant and profitable one.

The general public is cordially invited to attend.

Phone 148 for the best cleaning and pressing. Mann Bros.

WACO HERE THURSDAY

Two Hundred Boosters With Big Band Are Coming.

The Standard is in receipt of an announcement of the itinerary of the trade excursion of the Waco Young Men's Business League next Thursday, June 25th, and also a list of the firms represented in the party.

According to the schedule for the trip the special train will leave Waco at 6:15 Thursday morning, making short stops enroute at Belton, Nolanville, Killen, Copperas Cove, Kempner, Lampasas, Lometa, Richland Springs and Brady, spending from five to twenty minutes at these places. Dinner will be served at San Saba, and the party will remain there an hour and fifteen minutes, leaving for Richland Springs at 2:20, where they will spend ten minutes. They will arrive in Brady at 4:10, remaining twenty minutes leaving at 4:30 over the Frisco for Brownwood. Stops of five minutes will be made at Rochelle, Mercury, Winchell and Brooksmith.

The local Commercial Club is looking after the entertainment of the visitors, and at a meeting of the city council yesterday afternoon, that body voted to co-operate with the club in their effort to make Waco boosters know what a West Texas welcome really means.

The excursionists are accompanied on the trip by Alessandro's Italian band, one of the most famous musical organizations of the South, and they will render a short concert during their stay here.

Brady citizens are urged to be hand to extend a cordial welcome to the visitors.

100 Buggies I have just shipped to Brady, the largest buggy dealer in the State, Brady and Fort Worth. E. J. Broad.

Jolly Fishing Party.

Messrs. and Mesdames R. A. King and R. D. Dyer and families returned last Thursday from Brook ranch on the San Saba river, where they, in company with Misses Elizabeth and Margaret Buchanan of Fort Worth, spent several days on a fishing trip.

They report having caught plenty of fish for the entire party, but their outing was cut short by a big rise in the river Wednesday. Messrs. Ben Moffatt and Jamie Brook spent a portion of the time at the camp with them.

Buried Saturday.

Funeral services over the remains of Mrs. J. W. Embry, who died suddenly Thursday night at 11:00 o'clock were conducted at the Embry home at 3:00 o'clock Saturday afternoon, and was one of the most largely attended funerals ever conducted in this city.

The services were in charge of Rev. I. T. Morris, pastor of the M. E. Church, of which Mrs. Embry has been a member for many years.

Out-of-town relatives and friends here for the funeral were her so, Otis, and wife of Sherman and Mr. and Mrs. A. D. Wright of Gatesville. Wash Fields and Mrs. S. G. Tankersley, brother and sister of Mrs. Embry, are both in a hospital at Fort Worth and were unable to attend the funeral.

AIRDOME RE-OPENED.

Is Now Under Management of Pat McCorkle.

The Airdome re-opened on Friday night under the management of Pat McCorkle, after having been closed for several days to make improvements.

The performance Friday night was of the highest order, the pictures being some of the best ever shown in Brady. In addition to the program of pictures, patrons of the Airdome were treated to a short concert by the Brady Booster band. This was one of the first appearances of the band, and they acquitted themselves most creditably.

Manager McCorkle announces that a benefit for the band will be given on Wednesday and Friday nights of each week, and that the band will render short concerts before the show on these nights. It is also announced that hereafter Saturday will feature nights instead of Friday.

Mr McCorkle has been fortunate in securing one of the best and most widely advertised feature series ever produced in America in "Our Mutual Girl", the first number of the series being shown last Saturday night. For next Saturday night the second number of the series, entitled "Our Mutual Girl Sees the New Spring Millinery," will be shown. Two shows will be given each night.

the first performance starting promptly at 8:30 and the second at 9:30. The price of general admission has been reduced to 5c; reserved seats, 10c.

When you go to buy a Palm Beach be sure that you get the genuine, there is a lot of substitutes and I have the real thing in suits or extra pants. Kirk the Tailor, Nuf-Sed.

I defy any one to show you the same tests on their buggies we can make with the Emerson, absolutely will give you more service than any other buggy made. E. J. Broad.

Sunday School Picnic.

The members of the Baptist Sunday School are enjoying a picnic at Dutton Park today. A big feast will be enjoyed at noon. A feature of the day will be an address to the school by Rev. W. A. Knight of Moodf, a former pastor of the local church who is here for a short visit.

THE AIRDOME

"COOLEST PLACE IN TOWN"

At considerable added expense the management of the Airdome has secured one of the widely advertised and talked of series of motion picture features ever produced. These pictures have provoked more expressions of commendation from pulpit, press and public than any series ever produced before the American theatregoers, and the players appearing in these productions are at the head of their profession. This series is entitled

"OUR MUTUAL GIRL"

and will be shown at the Airdome exclusively on Saturday nights of each week. The number for Saturday of this week—"Our Mutual Girl Sees the New Spring Millinery"—is one of the best of the series. Don't fail to see it.

FACTS ABOUT TEXAS CITIES

(Editor's Note—This is one of a series of articles dealing with Texas cities, their past history, present advantages and future possibilities.)

STAMFORD.

Stamford was officially given place on the Texas map February 1900. It was during this month that the Texas Central pierced the town section and business officially started.

The name of the town is derived from the city of Stamford, Conn. The townsite was laid out by E. P. Swenson of New York and the Texas Central railroad. Their holdings were eventually taken over by the Stamford Townsite Company.

The largest cattle feeding plant in the world is in Jones County, near Stamford.

The population has swelled to 4,000. The taxable valuation is \$2,500,000. The town is well cared for in the way of schools, churches and library facilities.

Several large wholesale houses are located here, while the largest wholesale establishment selling hardware in the West, has its headquarters in the town.

Stamford is much in need of

Some More Mechanical Advantages of the DE LAVAL CREAM SEPARATOR

1st. As will be seen by the illustration at the left the heaviest part of the De Laval bowl is below the point of suspension and it is thus much easier to keep in balance than a bowl attached to a spindle as in the illustration on the right.

2nd. All De Laval bowls, as now made, are detached from the spindle, interlocking with the spindle only when placed in position, the bowl spindle always remaining in the machine. This avoids injury to the spindle in handling the bowl. The operator does not have an oily spindle to wash with the bowl, either.

3rd. No ball bearings to get out of order and necessitate expensive repairs. Perfectly made bearings, perfectly lubricated, give an easy running and a much longer wearing machine.

The new style De Laval is so simple in construction that anyone can put it together or take it apart without any trouble. All parts are strongly made and substantial. Clean skimming and durability are the result of perfect De Laval construction.

Come in any time and look a De Laval over for yourself. It will be well worth your while if you like to look at a well made machine.

CLAUDE CALLAN'S COLUMN "CRACKS AT THE CROWD"

From Fort Worth Star-Telegram.

If you would have your son become a successful miner, send him to West Point where he can secure the proper military training.

With the great steel plant in Texas we can manufacture our steam engines, pistols, bridges, hand-cuffs, street cars and burglar tools right here at home.

Unless peace comes as a result of the mediation conference we shall send those Mexicans another ultimatum, and they may as well expect it.

Why will some men idle instead of going to the fields? If we were out of work we would stay right out with the idlers all summer in an effort to find out.

An economy specialist says that "small extravagances are more difficult to prevent than the larger ones." That certainly is true in our case. With our income it is not difficult to keep from wasting money on a large scale.

The "Home Welfare Department" of the University of Texas refers to the three daily meals as "breakfast, dinner and supper." Now we are more friendly toward the university than ever before, and if the state doesn't adequately provide for the great institution, we may decide to furnish the money ourself.

Rear Admiral Fletcher is to be foreman of the great Atlantic fleet, but it doesn't mean so much now as it did in the old days. There is no particular satisfaction about having to command all those magnificent ships if a fellow has nothing on board to assist him to rejoice and be exceedingly glad.

The Texas wheat crop is estimated at 14,000,000 bushels. This will make at least 2,800,000,000 hot biscuits, or about 700 for each person, but in view of the fact that many of the real young folks use nothing but dairy products, the balance of us will get considerably more than our share. Now if the sorghum molasses will hold out, the grand old state should continue to be the home of peace and contentment.

 The worst cases, no matter how long standing, are cured by the wonderful, old reliable Dr. Foy's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c, 50c, \$1.25.

A Good Match.
 "I never could see," growled the man with the dyspeptic look, "why fond mothers clamor for a good match for their daughters. A good match is nothing but a stick with a head on it."—Judge.
