COTTON GINNINGS

Total For Three Local Gins Slightly Less Than 12,000.

Reports received from the three local gins this week show a total of 11,948 bales ginned up to yesterday afternoon, with the staple still rolling in at a remarkable rate. Most of the cotton being gathered now is what is termed "bollies," and the gins here have been specially equipped for handling the staple in this form.

Following is the report received this week:

Going Fast.

Our car of furniture has arrived and has been unloaded. We venture the assertion that we can now show you the biggest bargains in this line of merchandise you ever saw. You will agree with us, too, when you have seen the goods and gotten our prices. A number of articles were sold before they had been in the house an hour, and others are going fast.

If you are in need of anything in the furniture line, it will be money in your pocket to make your purchases here. Come while the assortment is complete. You will buy when you see.

Mass Meeting Next Tuesday.

Tuesday next, Feb. 2nd, at 10:30 a. m. there will be a meeting at the court house which every farmer, tenant, owner, business man and banker in Brady should attend. Mr. Wm. G. Breg, chairman of the "Let Texas Feed Itself" club, and other business men from Dallas or Ft. Worth will be present and speak on the subject, about which we have all heard so much and upon which the prosperity of next fall depends. It is not unlikely that out of this meeting may come plans that will affect the welfare of every man in McCulloch county. A large attendance is requested.

BUYS LOCAL STORE

B. L. Malone & Co. Purchase Martin O. Curry Co. Stock

Announcement was made this morning of a deal whereby B. L. Malone and Capt. H. W. McGhee, a well known Brownwood citizen, and father-in-law of Mr. Malone, purchased the stock of jewelry of the Martin O. Curry Co. of this city, taking charge of the business immediately. In the deal Mr. Malone disposes of his interest in the Brownwood store.

The local store was opened here the early part of last year, with Mr. Malone in charge. Since that time the firm has enjoyed an excellent patronage, in fact, the business ran far beyond the expectations of the members of the firm, and Mr. Malone has become one of Brady's most persistent and consistent boosters.

Since locating here, Mr. Malone has thoroughly demonstrated the fact that he is an experienced man in his profession, in addition to possessing an unusual amount of business ability. He has the happy faculty of making friends and the ability to keep them, and this attribute combined with his thorough knowledge of business insures the success of the new firm. Capt. McGhee, while interested in the business, will not be actively connected therewith.

The new firm will continue the same liberal business policy as heretofore, will carry a complete stock of the best goods obtainable and will stand back of every article sold by them with a "money back" guarantee.

The optical department will also receive special attention by the new proprietors, they having secured the services of Dr. J. W. Ragsdale, who has been in charge of this portion of the business of both the Brady and Brownwood stores in the past, to look after this department, and he will make weekly visits here, spending each Wednesday with the local store.

Capt. McGhee has tentatively closed a deal for residence property in the southern portion of the city, and will move his family here within the next few weeks to make this their per-

manent home. The family is one of the oldest and most prominent in the city of Brownwood, and will prove a valued addition to the business and social life of this city.

At The Opera House

Friday night's attraction at the opera house will be six reels of first-class pictures, "A Mother's Choice," "Our Mutual Girl," an exceedingly funny comedy, and "The Million Dollar Mystery" making up about two hours of entertainment.

Saturday night "Love, Luck and Gasoline" is the feature, the story of a tomboy who gets into laughable scrapes and at last elopes in a hydroplane, her father pursuing in an aeroplane from which he falls into the

sea. Three other comedy reels will also be shown, making an enjoyable respite from a week full of business cares.

Business men of Brady last fall saw pretty tough times ahead, and expected hard sledding for the next year or two. S. A. Benham was one of these, but has been surprised to find it "not such bad going, after all this year." Read his ad. on page eight of this issue and it will be seen we will not lose one of the best stores in Brady.

We have \$3000 in first vendor's lien notes which we want to trade for a farm near Brady. If you want to sell, investigate this proposition. McCulloch County Real Estate Exchange.

Business Change

A DEAL HAS JUST BEEN CONSUMMATED WHEREBY THE JEWELRY FIRM OF MARTIN O. CURRY CO., BRADY AND BROWNWOOD, DISPOSES OF THEIR ENTIRE INTEREST IN THE LOCAL STORE TO MR. B. L. MALONE, THE PRESENT MANAGER. MR. MALONE ALSO DISPOSES OF HIS INTEREST IN THE BROWNWOOD STORE.

THIS CHANGE IN THE BUSINESS IS MUTUALLY AGREEABLE TO BOTH MESSRS. CURRY AND MALONE, AND WILL ENABLE THEM TO DEVOTE THEIR ENTIRE TIME AND ATTENTION TO THE MANAGEMENT OF THEIR RESPECTIVE STORES.

ALL GOODS WHICH HAVE BEEN SOLD UNDER GUARANTEE OF THE OLD FIRM WILL BE MADE GOOD BY THE NEW ONE, SHOULD OCCASION ARISE, AND THE SAME LIBERAL BUSINESS POLICY WILL CHARACTERIZE THE NEW FIRM.

WE EARNESTLY SOLICIT A CONTINUATION OF THE PATRONAGE AND FRIENDSHIP OF THE GOOD PEOPLE OF BRADY AND McCULLOCH COUNTY, AND PROMISE YOU THE SAME HIGH STANDARD OF BOTH SERVICE AND MERCHANDISE.

OUR OPTICIAN, DR. J. W. RAGSDALE, WILL CONTINUE HIS WEEKLY VISITS, SPENDING WEDNESDAY OF EACH WEEK WITH US, AND WILL BE BETTER PREPARED THAN EVER TO CARE FOR THE OPTICAL NEEDS OF OUR FRIENDS AND CUSTOMERS.

WHEN IN NEED OF ANYTHING IN THE JEWELRY OR OPTICAL LINE, WE SHALL BE PLEASED TO SERVE YOU. CALL TO SEE US ANY TIME.

RE-OPENS CROWN HOTEL.

European Plan Adopted by New Proprietor, Wm. Graham

The New Crown Hotel at Brownwood is opened to the public this week with Wm. Graham, late of Menard, as proprietor, and will henceforth be conducted on the European plan. The hotel has been thoroughly renovated, improved and modernized throughout, and it is Mr. Graham's intention to make it one of the most popular host-eries in West Texas.

That Mr. Graham is capable of carrying out his plans and wishes along this line, there can be no doubt, for his reputation as one of the best restaurateurs in this section will be attested by practically every citizen of Brady and Menard, both of which places have had the pleasure of claiming Mr. Graham as a citizen for a period of several years in the past decade. The traveling public, as well, knows of the fame of Mr. Graham's cookery, and will hail his advent in Brownwood with delight.

As before stated, Mr. Graham is having the Crown gone over from cellar to roof, and from kitchen to parlor, and no efforts will be spared upon his part to make it a pleasure to stop there.

Mr. Graham will cater especially to the traveling public, and while the European plan will be in effect, the dining room will be open at all hours, assuring the weary wayfarer who arrives on the late train an opportunity to refresh himself with a cup of coffee, a broiled steak or any other article for which Mr. Graham is so justly popular.

Mr. Graham extends a special invitation to his friends throughout the Brady section to drop in on him when in Brownwood, and to make his hotel headquarters throughout their stay.

That's a business-like way of going after the trade of women adopted by S. J. Striegler, of the Popular Dry Goods store, in his ad. on the society page of The Standard, when he says in it: "More goods for less money than you have ever bought before."

Generosity Appreciated

In reference to the article on the generosity of Mr. Netherwood, I beg to state that I am one of the beneficiaries of his reduction in interest. The reduction granted me is one hundred dollars. I bought the Netherwood home in McCulloch county in 1908, and since that time Mr. Netherwood has shown me favors from time to time in regard to past due notes and extensions in regard to past due interest. Mr. Netherwood is a citizen of McCulloch county. He immigrated to this country from Yorkshire, England, in 1886 or '87. We claim him as one of our citizens. He has only gone to see his kindred, and we hope to meet him again soon. Such men as Mr. Netherwood need not a monument of marble or stone; his noble actions and deeds will live long after he has passed over the borderland to the much deserved rest. If we had numberless men like Mr. Netherwood in McCulloch county it would be a great blessing and the millennium, or the thousand years of bliss for the working class would be at hand. All you creditors of McCulloch county, especially holders of land notes: Go ye and do likewise!

PEAR VALLEY DOINGS

Pear Valley, Texas, Jan. 25.
 Editor Brady Standard:
 There have been quite a number ill with lagrippe, of whom Mrs. J. H. Marshall has been most seriously affected, but we are glad to say she is able to be about again.
 Teachers at Pear Valley, moved teacher at ePar Valley, moved his family from Brownwood on Saturday. Pear Valley extends a hearty welcome and hopes their stay in our midst will be pleasant and enjoyable to all.
 Jack Ferguson, who several days ago had his hip dislocated and thigh bone broken three inches below the hip joint, is doing nicely, considering the double injury. Jack has been unfortunate. Last November, a year ago, he was operated on at Temple for appendicitis and had not entirely recovered from the operation when the recent accident happened.
 A horse ran away with Mrs. Fayette Kiser a few days ago, turning the buggy over and throwing Mrs. Kiser and her two small children out. Mrs. Kiser sustained several painful bruises, but was not seriously hurt. The children were not injured.
 Mr. Ricks, who has been in poor health for several weeks with bronchitis is reported improving.
 The young folks report an enjoyable time at the singing at Mr. Spragings Sunday night.
 S. J. Howard has the lumber on the ground to rebuild his residence which was destroyed by fire several months ago. Mr. Howard will erect an up-to-date cottage second to none in the valley.
 O. D. Mann was in the valley one day last week looking after business interests.
 Cleve Hill left the valley last week to join his wife at San

Saba, where they will make their future home. Mr. Hill will engage in the automobile business at San Saba.

The Pear Valley school is progressing nicely under the management of Prof. Francis and his two able assistants, Misses Draper and Sherrell. The attendance is around the one hundred mark. Several young men and ladies are attending, which speaks well for our community.

NEW HIGH RECORD

May Corn Higher on Market Than in Over Twenty Years

Chicago, Jan. 26.—New high records in both wheat and corn were scored again today, with the May wheat touching \$1.46 7-8, July \$1.31 3-8, and May corn 80 7-8. These are the highest records in years, and speculative talent is still talking yet higher levels.
 The opening was steady, unchanged to 1-4c higher than the finals Monday night, and soon urgent covering carried prices above the previous high levels. The report demand, war conditions and other bull factors caused a heavy pit demand.
 Although there was a small recession, considering the recent wind fluctuations in wheat, the trade sentiment is still bullish. Traders in the outside markets have hedges in the Chicago markets, which makes some of the options more difficult to trade in. The constant taking off of hedges in the Chicago market is tightening matters and forcing the price upward.
 With cash wheat a premium over May, which is unusual at this season of the year, and with receipts below domestic consumption requirements, the bulls seem to have the best of the situation.
 More interest is centering in the July option, which is being sold on the large acreage and the high prices. With the war likely to last a year or more, bulls say that the prices for the July option should reach higher levels than for years.
 May corn, now 80 7-8c, has not been over 80c for more than twenty years, and only a few times in the last thirty years.

The Studebaker Car is an Impressive Example of What Honesty of Purpose, Square Dealing and Good Manufacturing Can Accomplish in Sixty-two Years

Our fathers and grandfathers knew the name Studebaker. For sixty-two years it has meant American vehicles honestly and sturdily built. For sixty-two years farm and city homes have known Studebaker as the name for dollar-for-dollar value. These sixty-two years Studebaker has grown enormously, in reputation, in production, in prosperity. The little country blacksmith shop of the early fifties has developed into what we believe to be the largest, best equipped automobile plant in the world. The production has grown to more than 1000 motor cars every week in the year. But during all these years of development the original Studebaker ideal of manufacturing honest goods and selling them at honest prices has remained unchanged. Today Studebaker means, in city and country, the acme of comfort and elegance—as well as the acme of money-worth. Undoubtedly—along with the whole country you have been amazed at the prices for the new Studebaker cars. \$985 for a big roomy five-passenger "Four" and \$1385 for a Studebaker "Six" are extraordinary prices. They would be extraordinary prices for just a "good" car. They are truly amazing prices when they carry with them the Studebaker name—the Studebaker Reputation—Studebaker Quality and the Studebaker Guarantee.

Yet they are thoroughly sound, conservative, safe prices—for the manufacturer—safe for the buyer. And they have been made possible for these reasons—*First* there is the huge volume of Studebaker production. More than 55,000 Studebaker cars manufactured and sold during the last eighteen months—with a schedule for the present year calling for a minimum of 1000 cars a week—*Second*—Studebaker cars are manufactured complete in Studebaker plants. Studebaker motors, springs, bodies, tops, drop forgings are all made in Studebaker plants. Special formulae for Studebaker steels are worked out, and the steels are analyzed and tested in Studebaker laboratories. Studebaker gears, axles, transmissions are all manufactured and heat treated in Studebaker plants. And this completeness of Studebaker manufacture means not only better, stronger, longer lasting cars—*But* in addition it means the saving of the parts-maker's profit—the waste and extravagance of the "assembled" or semi-manufactured car. The Studebaker Corporation divides its profits not with parts-makers—but with the buyers of Studebaker cars. That is why Studebaker prices are full \$500 less than you would expect to pay for Studebaker quality.

WORLD SHORT ON WHEAT

High Priced Wheat is Assured for a Year at Least

"As a consequence of Russia's isolation, the exports of wheat from that country since July 1 have been only 12,064,000 bushels, all of which went out before the declaration of war by Germany. During a similar period a year ago Russia shipped 90,916,000 bushels, and two years ago the exports were 69,416,000 bushels. It is said that Russia has between 100,000,000 and 150,000,000 bushels of wheat to spare, and is anxious to ship it. Letters from the interior of Russia have reported wheat selling at 40c to 50c a bushel but since the recent advance in European and American markets the price in Odessa, the chief Black sea port, has risen to \$1.19.

"What are called the Danubian shipments of wheat—principally Roumanian—are also barred from the European markets by prohibition of the Roumanian government and the closing of the Turkish strait. Since harvest the Danubian shipments have aggregated only 2,475,000 bushels, as compared with 29,564,000 a year ago and 37,216,000 two years ago. Owing to short crops, the shipments from Argentine, India and Australia also exhibit sharp deficiencies for the period.

"The United States alone shows any increase. It has shipped about 190,000,000 bushels more than a year ago. The United States and Canada have put out 236,646,000 bushels, as compared with 170,482,000 in the six months succeeding the 1913 harvest. What a fortunate thing for Europe that we were able to respond to her call in the time of dire need!

"But now the surplus from the huge crop of the United States is beginning to wane, and Europe has six months to go until another harvest. The visible stocks over there, including breadstuffs afloat, are only 77,500,000 bushels, or 2,000,000 less than a year ago, and neu-

tral as well as belligerent countries are on short rations.

"Something must be done to keep the bread stream flowing. The normal European import requirements are about 12,000,000 a week, but for some time the arrivals have averaged only 8,000,000 of 9,000,000 bushels, mostly from America.

"Argentine has harvested a good crop of wheat, and will have 100,000,000 bushels or more to spare. The United States and Canada may yet squeeze out another 100,000,000 bushels. Nothing can be expected from Australia, which a year ago shipped 2,000,000 to 3,000,000 bushels a week. That country had a crop failure in 1914. The new Indian crop will not be harvested until April, and the last one was light.

"Therefore it is beginning to be imperative for the importing countries to open the way for Russian shipments. Even with the Dardanelles ajar, it is doubtful if the Russian shipments would more than temporarily relieve Europe's anxiety over the breadstuff supply.

"Exporters in this country have no fear that the Russian shipments would more than temporarily lower the international market.—Kansas City Drovers-Telegram, Jan. 20.

WAR TAX RULING.

Confusion in Regard to Transfers of Vendors' Liens

Herewith is a copy of recent rulings if Judge A. S. Walker, internal revenue collector for the Third district of Texas, relative to the placing of documentary stamps upon conveyance of real estate, transfers and releases of vendor's lien notes, jurats of notaries public and certificates of acknowledgment, etc.:

"The ruling of this office is that a deed conveying land is taxable under the Act of Oct. 22, 1914, only to the extent of the cash consideration or its equivalent. Where vendor lien notes are given in part payment the lien being of course retained to secure them these notes are taxable as promissory notes. To illustrate, if A conveys to B a piece of land for the consideration of \$2,000, \$1,000 in cash and \$1,000 in vendor lien notes. A should stamp the deed to the extent of \$1.00, and B should stamp the notes to the extent of 2c for each hundred dollars in each note.

"In case of a simple release of vendor lien note, the stamp tax has no application. In case of a transfer of vendor lien notes, if the instrument contains a provision under which time of payment of the notes is extended, or under which other persons than the original makers of the notes assume their payment, the transfer if made on or after Dec. 1, 1914, would be taxable on the same basis as the notes transferred.

"In case of a transfer, either by endorsement on the note or by execution of a written instrument to that effect, if the attitude of the maker of the notes is not changed as a result of the transfer, the stamp tax has no application.

"The jurate of a notary public to an affidavit or his certificate of acknowledgement to an instrument is not taxable under the Act of Oct. 22, 1914.

"Respectfully,
"A. S. WALKER, Collector."

Peanuts Beat Prize Cotton

Dallas, Tex., Jan 25.—Another world's record has been broken in Texas. A 14-year-old miss at Henderson, Rusk county, produced 11,294 pounds of merchantable peanuts on one acre of ground. This included both vines and the nuts. The acre produced 4,256 pounds of peanut hay and 232 bushels of nuts.

This acre of peanuts was planted by Miss Emma Stokes in the peanut club contest of the Texas Industrial Congress, and won for her a \$300 cash prize, the capital prize offered by the congress for this class.

Miss Stokes' case is notable for several reasons. In the first place the yield exceeded the record yield heretofore. Then Miss Stokes states the stand was perfect, that there were no blank rows without plants. This is where most people who fail to make a success of raising peanuts have trouble; they are not careful to test and plant fertile seed and see that there are no breaks, no blank spaces in the field.

Another thing of particular interest to Texas farmers at this time is the fact that this one acre of peanuts was one-third more profitable than the prize acre of corn and nearly 40 per cent more profitable than the prize acre of cotton.

Money in Month-Old Chickens.

"Last summer I decided to try a new phase of the poultry business, says a contributor to Farm and Fireside. It was the selling of chicks, not day-old, but one month old ones. I knew there was money to be made, and being made, selling day-old chicks. I knew there were many people who would be glad to pay more to get pure-bred chicks that were already past the danger period, therefore I determined to hatch and raise them to the age of one month, and then sell them. With this in view I started a 140-egg incubator. At the end of three weeks I took 110 nice chicks from the incubator. I continued filling the incubator every three weeks until the 15th of June. In all I put 550 eggs into the incubator and took out 395 chicks. I had a small advertisement inserted in a paper, offering pure-bred one month old chicks at 35 cents each. The inquiries and an occasional order kept on coming for weeks after I had sold all I had."

INTERNAL CATARRH

"Peruna Has Done Wonders For Me. I Was So Weak."

Mrs. M. P. Curry, P. O. Box 615, Petersburg, Ill., writes: "I have been troubled with internal catarrh since my girlhood, and was sick in bed three months. When I was able to get up I was so weak and thin I could hardly walk. What I ate disagreed with me. I had stomach and liver trouble, and my feet and limbs were swollen so I could scarcely drag around. "I took Peruna and it has done wonders for me. My cure was a surprise to my friends for they never expected to see me well again. I just took two bottles of Peruna after doctoring for five months and growing worse all the time."

Continuous Headache. Mrs. Esther M. Milner, Box 191, De Graff, Ohio, writes: "I was a terrible sufferer from internal catarrh, and had the headache continuously. I was not able to do my housework for myself and husband. You recommended Peruna. I took four bottles and was completely cured. I think Peruna a wonderful medicine and have recommended it to my friends."

BIG THINGS FOR THE NEW YEAR

The Year 1914, our first year under the firm name of the McCulloch County Real Estate Exchange, was marked by a very fair degree of success. So much so, in fact, that we are encouraged to try for BIG THINGS during the New Year 1915.

We have ready for distribution a list of a large number of splendid propositions for the homeseeker and the investor and will be pleased to send one, upon application, to anyone who may be interested.

We are confident that our past efforts have established our reputation as Live Wires, and by our future activities we expect to acquire note as the Livest Real Estate Firm in West Texas.

If you wish to buy, let us know the kind of proposition you desire, and we are almost sure to be able to match you a trade. If you want to sell, list with us—we'll get action on your property.

Keep a watch for the new propositions we have to offer from time to time. We are going to have some Red Hot Bargains—you'll have to be quick to handle them—and if hustling wins, then Watch Our Smoke! We stand for Greater Prosperity in West Texas.

WEATHER

When the frost is on the window, and the kitchen pail is froze; when the little icy needles come with every breath that blows; when the chilblains make us groan aloud and cold feet give us pain, it's safe to bet that we all wish for summertime again. For, while we sweat and stew around in breezy summer clothes, it's an easy thing to cool off and forget our earthly woes; but it's different in the winter when the world is full of ice and the weather is as hard to beat as any loaded dice; We may boast about our climate and about our spring and fall, but the balmy days of summer are the best ones, after all.—Howard, S. D. Democrat.

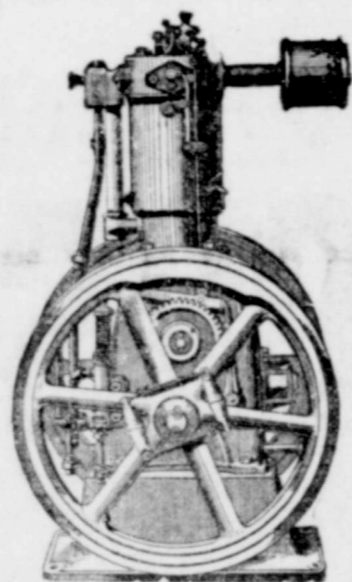

Newspapers promote the interests of the town in which they are published more than can be estimated. No enterprise does so much for the town or citizen as the paper. When battles are to be fought for town or county the editor is always found loyal and ready, frequently without hope of reward. Many other enterprises are encouraged by bonus or concession of some kind, but rarely is a newspaper offered any such help. For these reasons the newspapers of a town and county should receive the encouragement of liberal support from business men and the public at large. When you have anything in the printing line bring it to The Standard.

A southerner is said to be responsible for the following comment anent the campaign to diversify crops in the cotton belt: "The southern farmer gets up at the alarm of a Connecticut clock, buttons Chicago suspenders to Detroit overalls, washes his face with Cincinnati soap in a Pennsylvania pan. He then sits down at a Grand Rapids table and eats Chicago meat and Indiana hominy, fried in Kansas lard, cooked in a Kalamazoo range. He goes to his stable and puts a New York bride on a Kentucky mule fed on Iowa corn, plows a farm covered by an Ohio mortgage with a Syracuse plow. When bedtime comes he reads a chapter from a Bible printed in Boston and says a prayer written in Jerusalem. Then he crawls under a blanket made in New Jersey only to be kept awake by a North Carolina dog. The dog is the only home product. And then he wonders why he does not make money raising cotton."—Fl. Worth Record.

POINTMENT

The home dealer is made more prosperous by the home purchaser. He can in turn help out some other home dealer. The dollar circulating at home increases home business, means more taxable property, more money in one's own town available for all public causes, more funds to employ labor, general prosperity, and advance in the value of all property.—Temple Mirror.

Teaching Agriculture
Prof. J. O. Beck, principal of Fife school No. 1, was in the city Tuesday afternoon for a short time. He reports conditions in that section of the county as being "the best ever" and everybody smiling and happy. In conversation with a reporter for The Standard, Mr. Beck stated that the school attendance had about resumed normal proportions again, following quite a number of cases of illness, and that he was well pleased with the progress being made. Among other things, he said that the subject of Agriculture had been added to the curriculum of the school, and that the boys and girls would soon be learning the fundamentals of the subject. A plot of ground near the school building has been secured for this purpose,

and the pupils of the school have shown an eagerness to get into the subject which bespeaks the highest degree of success for the undertaking. So far as is known to The Standard editor, this is the first of the schools of the county to add this subject to the course of study, and the trustees are to be congratulated upon this progressive step. Prof. Beck was accompanied on his trip by Oma Warren of Goldthwaite, a brother of Mrs. Beck, who is spending a few weeks at Fife as his guest.

"TIZ" FIXES ACHING, SWOLLEN, SORE FEET

How "Tiz" Does Comfort Tired, Burning, Calloused Feet and Corns.

People who are forced to stand on their feet all day know what sore, tender, sweaty, burning feet mean. They use "TIZ" and "TIZ" cures their feet right up. It keeps feet in perfect condition. "TIZ" is the only remedy in the world that draws out all the poisonous exudations which puff up the feet and cause tender, sore, tired, aching feet. It instantly stops the pain in corns, callouses and bunions. It's simply glorious. Ah! how comfortable your feet feel after using "TIZ." You'll never limp or draw up your face in pain. Your shoes won't tighten and hurt your feet.

Get a 25 cent box of "TIZ" now from any druggist, department or general store. Just think! a whole year's foot comfort for only 25 cents.

If a dozen rich farmer, ranchmen and businessmen were to form a stock company and put a cotton mill in McCulloch county, if cotton were selling at 6 cents at one end of the mill it would be selling at 20 at the other end, as finished product. SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell. I tried most every kind of medicine, but none did me any good. I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together. My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it." Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlasting tired feeling? If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century. Begin taking Cardui to-day. You won't regret it. Bible Study Class Postponed.

The Bible Study class did not hold its regular meeting last Friday, owing to inclement weather, nor is one announced for this week.

Mothers and Teachers Club

A most interesting session of the Mothers and Teachers' club was held Monday afternoon at the Presbyterian church. The subject for the afternoon was "The Gracious Gift," led by Mrs. J. A. Snider, the lesson being Luke 19:5-10. Interesting papers were offered by Mesdames Snider and Freeman, and Mrs. C. C. House was selected as the leader of the next meeting, Monday, February 8th.

Woman's Missionary Society

The first meeting of the Mission Study class for the year was held at the Methodist church Monday afternoon. There was a good attendance and the lesson proved very interesting. All members of the

society are urged to join this class. There will be no meeting of the society next week. **FOR SALE**—We have some good mules, horses and some good milch cows for sale at a bargain. Abney & Vincent.

Y. L. M. S.

The Young Ladies' Missionary Society of the Methodist church met at the home of Mrs. Jas. T. Mann, Thursday afternoon, January 21.

This being mission study afternoon, an interesting lesson was had on the first chapter of "The Red Man's Land," the book the society will study this quarter.

The young ladies of this society expect to do more of this work this year than they did the past year.

Five Hundred Club.

Members of the Five Hundred club were entertained last Friday afternoon at the regular weekly meeting at the home of Mrs. J. S. Wall.

The games were enjoyed at three tables, Mrs. Dr. J. S. Anderson winning high score and receiving a beautiful waste paper basket as club prize. Mrs. E. S. Noble received a dainty hot dish mat as guest prize.

Delicious sandwiches, peach salad, olives, candy and ice were served by the hostess to the following guests: Mesdames S. W. Moffatt, J. R. Stone, J. S.

Anderson, J. G. McCall, Hodge Wilson, C. T. White, G. R. White, G. V. Gansel E. S. Noble; Misses Gillie Macy, Lillian Roberts, Rose Stallings.

The club will meet this afternoon with Mrs. C. T. White.

Former Brady Girl Weds

The following item which appeared in the Austin American Monday of last week concerning the marriage of Miss Nell Bryant, will be of interest to Brady citizens:

"Nye H. Clark, a young attorney of this place, and Miss Roka Nellie Bryant of Brady were married at the home of friends in Austin today. They were met at San Marcos and accompanied home by Robert Clark and Miss Annie Houston. They will make Lockhart their home."

Miss Bryant lived here a number of years, and has many friends in Brady who will be pleased to learn of her marriage, and to wish her all happiness.

SENSATION IN POLITICS

Governor of Michigan Charges Plot Exists Against Wilson

Lansing, Mich., Jan. 26. — Governor Ferris has created a sensation before the State Democratic central committee by announcing that some democrat with a well-known national reputation is endeavoring to undermine President Wilson and will be a candidate against him for the nomination.

Governor Ferris refused to name the man, but indicated that he expected absolute proof of the plot within a few days and that there is in existence in Michigan, he had been told, a letter proving it without a doubt. Until he sees that letter, the governor would mention no names.

The startling announcement came after the governor had addressed the meeting for several minutes.

"I want to say," the governor stated, "that I want every Michigan democrat to go on record as favoring the present democratic administration headed by Woodrow Wilson. I know there is now a movement on foot in Michigan and other states to belittle him."

At his office later the governor said a scheme to undermine the president was on foot and his informant was determined to prove it to him.

"I expect to see that letter," said the governor. "And if I do I may tell the leaders of the plot, but until that time I shall say no more."

EGGS CERTAIN TO BE DEAR

Prepare Now for Next Fall by Hatching Early Pullets

If citizens or farmers wish to benefit by the high prices that eggs are certain to bring next fall and winter they should begin to get ready for them at once. Poultry specialists say the way to have eggs late in the year is to hatch pullets early. It is the early hatches from which the early pullets are derived that are the largest money makers for the poultry producer. The early hatched cockrels can be marketed in almost any market when they attain a weight of three-fourths of a pound to a pound and a half each, which they should reach at about six to ten weeks of age, respectively, at a greater profit to the producer than at any other time of their lives. The early hatched pullets, if properly grown, should begin to lay in the fall at the time when eggs are scarce and high in price.

Here are a few facts to remember: Pullets must be well matured before they will lay many eggs. Pullets that lay in the fall before cold weather sets in will, as a rule, lay all winter. It is the early hatched pullets that produce eggs in the fall and early winter, when prices are high.

February, March and April are the months to do your hatching in order to secure early hatched pullets. Yearling and 2-year-old hens do not lay many eggs in the fall, as they are molting at that time, and the feed they consume goes not only to keep up the energy and life of the birds, but also to put on or grow a new coat of feathers.

In properly matured pullets all surplus energy beyond that needed to meet the requirements of the body is available for the production of eggs.

OUTLOOK FOR 1915

With Conditions we Have Passed Through and Their Causes

"If you are a farmer and two of your neighbors got into a terrible row, how would it affect you?" asks Roger W. Babson, whose commercial and financial connections place him in close touch with business conditions. "The answer to this question will give the key to business conditions in 1915.

"The facts of the case are that such a row would affect you in two ways; in one way to your advantage and the other to your disadvantage. Let me explain.

"If your two neighboring farmers got into such a row and began to fight one another, they would soon be raising trouble, instead of raising crops. This would result in a decreased supply in your neighboring markets, with a corresponding increase in prices.

"There is no reason why a row between these two neighboring farmers should in any way decrease your crops. Your crops should be just as large when the conflict is going on as when the neighborhood was peaceful. Hence, you would still have good crops and would be obtaining higher prices for them than ever before.

"In this way our country will benefit from the European war, and especially the agricultural sections. There is nothing in the European situation which should decrease the size of our crops in 1915, and we should receive higher prices, far higher than the average.

"This should greatly help business throughout our great central west and should give an impetus to business throughout the entire country. This is the bright side of the story.

"Up to the time that these two farmers got into their row they were prosperous like yourself. They were not only making money, but their savings were swelling the deposits of the banks in your section.

"As soon, however, as they began to fight, their profits began to decrease and they were no longer able to save anything. Soon they found it necessary to become borrowers at the banks as well as depositors. As they were smashing one another's mowing machines and reapers it became necessary for them even to withdraw the last of their deposits and make further loans.

"Thus, instead of these neighbors depositing money for you and others to borrow, as they did when at peace, this fight resulted in their withdrawing their deposits and making it impossible for you and the other neighbors to borrow from the banks.

"Being a progressive farmer, continually adding to your land, buying new harvesting machinery and developing your farm along the most improved lines, you are seriously handicapped when unable to borrow money from your customary sources. Moreover, the business of many of your customers depends very largely upon their ability to borrow money. When they cannot borrow they are unable to buy.

"This causes a great backing up of work in the factories and mills in your section. Briefly, the result of this is that, although your crops may be plentiful and prices high, yet people are out of work and have little money with which to pay you. Soon you begin to see that the fight between your two neighboring farmers is indirectly harming you by making money scarce, throwing people out of work and upsetting industry generally.

"It is the same with nations. Although these European countries now at war have been our competitors, yet they have also been our bankers. It has been the money of England which has built our railroads and bought the bonds of our states and cities, thus giving us money to spend on rails, locomotives and all other big undertakings.

"It has been the money of France which has financed our cotton and woolen mills, our underwear and hosiery factories. It has been the savings which the peasants of Europe have deposited in their banks that has provided the capital for keeping the railroads, factories and building operations in this country going. Now this supply of funds has been cut off.

"This means that, given good crops, the agricultural sections will prosper on account of the high prices, but the industrial sections will suffer owing to lack of capital and these high prices from which the farmer is to benefit.

"Of course, as soon as there are any signs of peace, business will pick up very rapidly and labor will be in great demand. In

Woman's Health Requires Care

Women are so constituted as to be peculiarly susceptible to constipation, and their general health depends in large measure on careful regulation and correction of this tendency. Their delicate organisms rebel at the violence of cathartic and purgative remedies, which, while they may afford temporary relief, shock the system and seriously disturb the functional organs. A mild laxative is far preferable and, if properly compounded, much more effective.

The combination of simple laxative herbs with pepsin sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin, is ideal for women's use. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 452 Washington St., Monticello, Ill.

try spent Wednesday and Thursday in the city. He was a pleasant caller at The Standard office yesterday morning.

G. W. Russell of Pear Valley spent Wednesday and Thursday in the city looking after business, not the least important of which was to advance his subscription to The Standard another year.

A. J. Ricks and family are recent additions to the citizenship of Brady. Mr. Ricks disposed of his farm in the Pear Valley community and decided to locate here for the benefit of the schools.

W. G. J. Kops of Dallas was in the city yesterday representing the Hobart Manufacturing Co. of Troy, Ohio, and while here was a very pleasant caller at The Standard office.

Miss Catherine Chilton of Dallas, who has been a guest of Miss Lucile Yantis for several weeks, left Tuesday night for Comanche, where she will visit friends for a few days.

Mr. and Mrs. J. L. Burleson, accompanied by Mesdames Dr. Emmett Burleson and Chester Taylor, were shopping in the city Wednesday afternoon from Richland Springs, coming over in the former's car.

Acquitted on Charge

Blue Clark and C. E. Smith, charged jointly with theft of a stove, were acquitted yesterday afternoon, on trial of the case before County Judge John E. Brown.

A jury was waived by the defendants, and Judge Brown promptly liberated the two men after hearing the evidence against them. Judge W. McShan represented the accused, while the prosecution was in the hands of County Attorney C. C. House.

More Encouraging Reports

During the month of December last exports from New York were not only the largest of any other month during the year, but were also much in excess of the preceding December. For the latest week the outgo was \$8,000,000 greater than in the corresponding week last year, and over \$13,000,000 in excess of the imports. Financial conditions reveal increasing strength week by week. French bankers, it is announced, are disregarding the moratorium, (a period when a debtor has a legal right to delay an obligation) which is a distinct gain. The records of the New York Stock Exchange reveal an increasing breadth and strength in the market for securities. Railroad managers, encouraged by the recent rate decision, are displaying more confidence, and several of the important lines are contracting with some degree of freedom for rails and other supplies. Railroad gross earnings for two weeks of January declined 7.7 per cent, but this is a marked improvement over the three preceding months. Reports from the iron and steel trade are of increasing activity, although the total output is still below capacity, and in the structural division far from normal. The textiles are moving with greater freedom and confidence and showing a tendency toward higher prices. More encouraging reports also come from the shoe industry. Building operations are held back by unfavorable weather, but better conditions prevail in coal and there is an increasing output of copper. — Dun's Review, Jan. 23.

GIRLS! GIRLS! TRY IT, BEAUTIFY YOUR HAIR

Make it Thick, Glossy, Wavy, Luxuriant and Remove all Dandruff

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely, get a 25 cent bottle of Knowlton's Danderine from any druggist or toilet counter, and just try it.
