WHO PAYS FOR FIRES?

Losses are Borne Not by Companies, but By Policy Holders.

When the cotton crop was ready for the market last fall business brains sought to finance it and for a season the South almost stood appalled. Bankruptcy stood face to face with the business men all over the country, and more than one literally quaked in their boots. Even yet many are not out of their fright, and few will forget the trying moments that for a season seemed to engulf them. What was the matter? Not enough funds could be diverted to handle the cotton crop for only a few months.

Last year the fire loss in the United States and Canada amounted to \$235,591,351. This vast sum is more than half of what the entire cotton crop brought last year. For the past thirty-eight years the estimated fire loss of this country and Canada was \$5,866,981,025.

If all the fires that were due to preventable causes had been saved last year it would have amounted to \$176,693,516, and had this amount been loaned to the cotton farmer at 6 per cent interest, not a bale of cotton would have been sold for less than ten or eleven cents.

The fire loss each year is a menace to the land. It represents total destruction.

Losses are not borne by fire insurance companies. It is the insured that pay the bills. During the past several decades the annual fire loss has grown in about the same ratio as the increase in wealth and population. Surely the day has come when the people of this enlightened age will at least give the matter some attention.

We have too long been led to believe that the insurance companies were bearing the loss of our fires. Not a bit of it. They are growing rich on account of them.

We doubt not but they had rather grow rich on large premiums, with a large fire loss than exist on small premiums and low fire loss.

The fire insurance companies are good things, but if it was only necessary to have about one-fourth as many fires, wouldn't it be a great deal better for the people of the land?

We are literally burning up our resources, permitting this lurid tragedy to continually pass before us in panoramic review, and who shall deliver us from this scourge?—From Industrial Record, March 15.

MISS EWING DEAD.

Member of Pioneer Family of County Passed Away Friday.

Miss Roy Ewing, only daughter of the late H. W. Ewing, one of the early settlers of this county, died at noon Friday at the home of her niece, Mrs. R. H. Weesner, following an illness of more than a month. Tubercular pleurisy, from which she had suffered for many years, was the cause of death.

Miss Ewing has suffered from pleurisy following an attack of meningitis in early childhood, but her conditions was not considered serious until about six weeks ago. At that time she suffered an attack more severe than ever before and gradually grew worse until the end came Friday. About three weeks ago she was removed from her home in the southwestern portion of the city, where she has resided the past eight or ten years, to the home of Mr. and Mrs. R. H. Weesner in order that she might receive proper care and attention, and here all was done that loving hands and medical treatment could do to relieve her sufferings, but to no avail.

Deceased was about 46 years of age at the time of death. She is survived by one brother, John V. Ewing, of the Calf Creek community, and several nephews and nieces.

The body was taken to Calf Creek, 12 miles south of this city, Saturday morning and laid to rest beside her father and mother, the burial service occurring at 3:00 o'clock in charge of Rev. I. T. Morris, pastor of the Methodist church, of which deceased had been a member for many years.

The Standard, in common with the many friends of the family, joins in extending sympathy to the bereaved ones.

Coming. We will unload in a few days a car of the famous Hercules Buggies. A high grade buggy that we are selling at very close prices. O. D. Mann & Co.

Mr. and Mrs. D. M. Porterfield are the happy parents of a fine son, born to them yesterday morning.

TOUR IS HIGHLY SUCCESSFUL

Supt. E. L. White, Wm. Connolly of the State Department of Agriculture, Commercial Secretary T. P. Grant and Party Organize Baby Beef, Hog and Poultry Clubs,

E. L. White, County Superintendent of Public Instruction, Wm. Connolly of the State Department of Agriculture, and T. P. Grant, Secretary of the Brady Commercial Club, accompanied by a number of citizens of Brady, last Friday night completed a whirlwind tour of McCulloch county, as well as a number of neighboring points lying outside the county, during which they organized Baby Beef, Hog and Poultry clubs, as well as Co-Operative Marketing Bureaus. They reported having met with the most cordial of receptions upon all hands, and are highly elated over the interest shown in their work by the citizens of the communities visited, and by their success in organizing the clubs in practically every community.

The plan of the campaign was to thoroughly familiarize the boys and girls, and the older folks as well, with the objects and benefits of the clubs. To this end, Mr. Connolly spoke upon the Baby Beef and Hog subjects, illustrating by example what could be accomplished by the proper attention and care in raising a baby beef or a hog, and dwelling upon the necessity of teaching the younger generation the importance of raising less cotton and of giving more time and attention to converting the raw material of the farm into the finished product; in other words, to turn the maize, kaffir corn, etc., into meat by feeding it to beef, hogs and poultry. At the same time Mr. Connolly sought to instill into the hearts of his audience a love for the home life on the farm, drawing a beautiful word picture of the care free and happy farm life as it could and should be made, and proving that it was only upon such a basis that firm foundation could be built by the boy or girl.

Mr. Connolly was followed by T. P. Grant, Secretary of the Brady Commercial Club, who interested his hearers in the egg and poultry line, illustrating the necessity of better and more rapid marketing facilities, greater care in the handling of the produce, and greater production. Mr. Grant presented his arguments in a convincing manner and clinched them with facts and illustrations of what neighboring counties are doing. In organizing the Egg Circles he stated a \$10 prize would be given the boy or girl in each community who made the best showing with his or her chickens. This prize was offered almost invariably by the local merchants and where not so offered, was furnished by the Brady Commercial Club.

Following Mr. Grant, the other members of the party were called upon for impromptu addresses, after which Supt. White got down to the business of organizing the Baby Beef, Hog and Poultry clubs. The ready response from the audience showed the deep interest taken in the work, and was decided encouragement to Mr. White and Mr. Connolly in their efforts.

Following this organization

the Co-Operative Marketing Bureau was briefly explained by Mr. White, who stated that the object of his organization was to keep the buyer and the seller in touch with one another. Briefly stated, this plan was likened unto a telephone exchange, the main central being located at Austin, while the substations are located with the commercial club in each county seat town. When a producer has anything to sell or wants to buy anything, he notifies the secretary of the commercial club of his home county. If his wants cannot be filled there, the secretary passes the information along to Austin, where lists are compiled of the supply and demand from every part of the state. These lists are then sent to the secretary of the commercial club, as well as to the individual members of the association, who are thereby enabled to get exact information of the supply and demand in every community of the state. This plan readily appealed to all the older heads and the Marketing Bureaus were quickly organized.

In conclusion, it should be stated that this tour was taken entirely in the welfare of the citizens in the communities visited. Supt. White, who always has the best interests of the county at heart, and who never fails to take advantage of opportunity to advance its educational interests, organized the trip in full knowledge of the benefits to be derived by the citizens. At a number of places he also gave a lecture, illustrated by stereopticon views showing the benefits of better schools and in advanced ideas on school work and play as well.

Mr. Connolly came here at the invitation of Supt. White and Mr. Grant, because the State Department of Agriculture has realized the importance of this work and has employed him to present it throughout the state. Mr. Grant, representing the Brady Commercial Club, demonstrated the friendship and good will this institution bears toward the citizenship of the county, and in his addresses he dwelt upon the necessity of co-operation between the town and the country. The remaining members composing the party were public-spirited citizens, who were interested in the work, and who desired to lend their influence to the move.

In our Friday's issue will be given a complete list of the clubs organized and the names of the members.

The Brady Commercial club wishes to thank the following named gentlemen for assistance rendered in the Chicken Show, and in the organization of the clubs as well: G. V. Gansel, Jack McGaughey, D. F. Savage, M. S. Sellers, E. L. White, H. F. Schwenker, H. P. Roddie, W. J. Yantis and also Wm. Connolly of the State Department of Agriculture.

False Fire Alarm.

A fire alarm yesterday afternoon shortly before 5:00 o'clock called the fire department to the extreme southern portion of the city. Inquiry failed to locate the blaze, however, and the only damage done was to the feelings of the big crowd which made the long run in order to watch the city's new automobile fire truck in actual service.

Remarkably quick time was made by the firemen, less than five minutes elapsing between the sounding of the alarm and their reaching the vicinity of the supposed fire, which is something near three-quarters of a mile distant from the station.

At Baptist Church.

Beginning Wednesday night, Rev. J. H. Taylor of Greenville will preach at the Baptist church, the services continuing each night through the week. A cord invitation is extended to members and visitors as well to attend. Preaching begins at 7:45.

A fine son was born to Mr. and Mrs. T. J. McAfee of this city Saturday morning at Brownwood. Mr. McAfee was so elated over the news, which he received by phone shortly after the young man's arrival, that he immediately posted a notice of a 75 point advance in the cotton market.

Ranch House Burns.

The large and modern ranch house of S. E. McKnight, ten miles east of Sonora, was destroyed by fire early Tuesday morning. The house was occupied by the ranch manager, B. W. Hutcherson and wife. The fire was discovered about three o'clock a. m. and spread rapidly from the kitchen under the floor. Mr. Hutcherson fought the flames until they got beyond control, when they gave their attention to saving the furniture. They saved everything but the furnishings in the kitchen. Mr. and Mrs. Hutcherson had to ride five miles to the Logan place for protection from the weather. The house was built last year at a cost of \$3,000.00.—Devil's River News.

A Good Show.

Honest Bill's show attracted a large crowd last Thursday evening, and everyone speaks in terms of high praise of the evening's performance. The educated pony was a real sensation, and how he could count, tell the hour by the watch and perform other feats supposed to be possible only to those endowed with intellect, still remains a mystery. Honest Bill can be sure of a crowd should he pass this way again.—Macedonia (Iowa) News.

Afternoon and night show at Brady, Saturday, March 27th.

AT THE OPERA HOUSE.

New Electric Flute-Piano Orchestra Now Installed.

Ten months ago Brady had nothing in the way of an opera house that would not disgrace a hamlet. Now it has one any stock company may well be glad to play in and the public patronize as the lone amusement of the city. The snap, enterprise and hard work of Manager Levy has done this; his latest improvement being the electric orchestra, now playing nightly. What Mr. Levy is giving Brady no one else would venture to do because if he had the experience he wouldn't stay, since he could make more money elsewhere. If he had the money he would not stay, because he would go where he could make more on his investment; and if he did not have the experience and money and stuck to it as Mr. Levy has he couldn't make it pay at all. These are reasons why those who love dramatics and comedy should patronize high-class pictures, since, without one there cannot be the other.

Tuesday night will begin the startling serial "Lucile Love" or the girl of mystery, a play full of mechanical effects and mystery.

One week from Tuesday next the much talked of film "The Christian," eight reels, will be given. Wednesday, the 31st, the "Creation" and the 2nd episode of "Lucile Love." "The Creation" will be shown free four nights that week.

Card of Thanks.

We wish to express sincere thanks to our friends and neighbors who were so kind and thoughtful during the last illness and death of our sister and aunt, Miss Roy Ewing. May God richly reward each of you is our earnest prayer.

The Standard yesterday experienced a visit from a distinguished stranger—"distinguished" by reason of having six legs instead of two. We swatted him with our swatter, and he will visit us no more. In this, we claim to set a shining example, and you can safely emulate us without laying yourself open to suspicion or loss of good reputation. Get out your swatter, and when the first fly of the season buzzes his arrival, swat him hard—also the second, the third, the fourth, etc., ad infinitum.

The Standard welcomes a new weekly paper to its exchange list, the Melvin Rustler. The paper is a live one, and Editor Bourland deserves the support of every merchant in Melvin. With it he will have plain sailing and Melvin a good paper; without, both will be losers.

Attention is being directed to the fact that a great many people who would disdain to steal and who would shudder if called a thief, do not hesitate to "swipe" articles. Stealing is plain English, while the word "swipe" is an Americanism perhaps less offensive in sound, but a difference without any distinction. To "swipe" is to steal, and one who does so is a thief.

When a boy enters a hog club he must remember that he takes some chances and be a good sport if he loses. But it is better to try and lose than never to try at all.—Temple Telegram.

CHICKEN CHARACTERISTICS

Sometimes the poultry raiser desires to break a hen from a desire to set. By tying a nice hairbow ribbon on the hen's neck the trick will be turned. The hen will be so busy admiring herself that she will forget her former desire to set. Isn't that just like a hen?—Temple Telegram.

Undoubtedly straight goods. The handsome young editor of the Temple Telegram is a recognized authority on chickens, both the poultry variety and the other.—Brownwood Bulletin.

Queen Anne front yards and Mary Ann back yards aren't going to harmonize this year with the "Brady Beautiful" plans.

It has been a long, long winter, for this country; but it will be better for us next fall than if we had had a short, dry one.

France placed the prize crew aboard the Dacia. The Dacia is lucky. It must be delightful, in these strenuous times afloat, to be captured by Alphonse and Gaston.—Fort Worth Star-Telegram.

The Standard takes pleasure in commending the work of filling in the low places on the square, and in recommending that the good work continue until the entire square is paved with crushed rock.

Scurry county announce cotton picking will soon be over. That, dear homeseeker, is a sample of our lavish climate and our perennial prosperity. You still have twenty minutes in which to catch the next train for Texas.—Fort Worth Star-Telegram.

A Cleburne man says it was the vibrations of Mars that caused the war, and that the vibrations of Venus will end the conflict during the present year. We thought all the time that there was a simple explanation of the question.—Brownwood Bulletin.

Yucatan, Mexico, has hit upon the right plan for restoring peace. It is willing to declare its territory an independent state under the protection of the United States. By the adoption of such a scheme Mexican peace could be restored by sections.—Temple Telegram.

Returned from a week spent in befriending McCulloch county farmers, and speaking of those who accompanied him on the trip, Supt. E. L. White of the county schools said: "I don't know what we would have done without them." Just like him, to go racing all over the country to benefit somebody, and forget and not say one word about the part he himself has played in helping to form the "Co-Operative Marketing Associations." But others will not forget.

In one form or another it will be noticed several advertisers in The Standard seek to cause readers, when in want of anything in their line, to naturally think of them and their products and by continual suggesting, grow this natural liking for their place of business. To illustrate, one local house says: "We appreciate your good will, as well as your trade." Another: "Make our bank your bank." Still another: "We want your business, your influence and your friendship." Another simply says "Nuf-Sed. Others use attractive prices. This is advertising that pays long after the printed copy is destroyed. How naturally one's mind turns to them when in need of things in their line.

Announcing The Brady Standard's ANNIVERSARY EDITION

The Brady Standard has under preparation a Special Edition of the paper, to be issued within the next few weeks. We believe the present moment affords the best opportunity we have ever had to boost this whole section, and to acquaint the outside world with our bountiful resources and our limitless opportunities. We shall make no overdrawn statements—the truth about this section will reveal a wonderful story of progress and development and of opportunity for greater ambitions.

A copy of The Standard's Special Edition will be mailed to each family in this section, and the officials of both the Santa Fe and the Frisco will furnish the names of persons residing at distant points who have made inquiries about and are interested in this section, to whom we will also mail a copy.

We have engaged the services of Mr. Robert Howard of San Antonio, an expert in this line, and who has spent the past sixteen years in Texas on special newspaper work. Mr. Howard will call and explain the proposition in detail to you. We want you to become interested—for your own benefit as well as for the good of the community.

Mr. Howard will visit and give an exhaustive write-up of Rochelle, Placid, Mercury, Whiteland, Melvin, Pasche, Eden, Menard, Nine, Pear Valley, Tucker, Voca, Camp San Saba, Katemoy, Mason, Fredonia, Richland Springs, Lohn, Fife, Waldrip, Stacy and Broadmoor, as well as the immediate Brady territory.

We will appreciate any and all courtesies shown him, as well as any assistance rendered him in the securing of information of value or of interest.

Very truly yours,

An Open Letter.
Mr. J. S. Wall,
Sec'y Brady Fair Association,
Brady, Texas.

Dear Mr. Wall.—In reply to your wire of the 3rd inst., beg to say that I will have to vote against the Pari-Mutuel Bill. It is a very vicious mode of gambling when its workings are thoroughly gone into. It is bad enough for individuals to bet on horseracing, but when the state, in connection with one of our great educational institutions, goes into the business, I think it is stretching the gambling habit to an alarming degree.

It has an innocent-sounding title. But for that matter when a fellow from the country goes into a city cafe and sees "Bacon and Greens" on the menu card "Pies and Cakes" does in every-

day lingo. This betting machine has a French name, but stripped of its gauzy attire, it is just plain, old-fashioned gambling, where youths who otherwise would not be allowed to place a bet, can take a chance. They say the bill has for its purpose the breeding of fine stock, but I think if you will investigate its sire and dam, you will see that it promotes the exciting pastime of "playing the ponies."

With best wishes, I am,
Your very truly,
W. D. COWAN,
Rep. 120th District.

SICK, SOUR STOMACH, INDIGESTION OR GAS.

"Pape's Diapepsin" Makes Upset Stomachs Feel Fine in Five Minutes.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

"Honest Bill's Show."

"Honest Bill's Show" came, exhibited, and won the applause of the people. This show was put on in San Saba Tuesday night with the promise that if anyone was not satisfied after the show was over the price of the ticket would be refunded. It is a fact that not one went away dissatisfied. In fact, it was the universal opinion that this is about the best show of its kind that came this way in a great while.—San Saba (Texas) News.

HAIR COMING OUT?

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Danderine at any drug store, pour a little in your hand and rub it into the scalp. After a few applications the hair stops coming out and you can't find any dandruff.

Mr. and Mrs. Harry Reasonover, niece, Miss Trudie Hamby, and Dan Ross, spent a few hours in the city yesterday as guests of Mrs. Clara Millerkin, while en route from their home in Austin to Menard for a visit with relatives and friends. The trip was made by auto.

Mr. and Mrs. C. C. Russell and family will leave today for San Saba, where they will make their future home. The family has lived in McCulloch county off and on for many years and they have a host of friends both in the city and county who will regret to learn of their departure, but who will join in wishing them abundant prosperity in their new home.

George W. Meade, who has been spending the past ten days here instructing the fire department in handling the big automobile fire truck recently purchased of the American-LaFrance Fire Engine Co., left last night for Cooper, where he will inspect the equipment in service there. Mr. Meade won a host of friends during his short stay in Brady, and he expressed himself as being most favorably impressed with the city and her up-to-date and wide awake citizenship.

Eight Thousand Miles Without Trouble

Here is some real evidence from a man who knows. Having tried all kinds of products, he chooses the "Made in Texas" products, distinguished by the Red-Star-Green-T emblem.

Stamford Motor Company
Stamford, Texas 2/25/14.

The Texas Company,
Stamford, Texas.

Gentlemen:-

The more I have to do with Texaco Motor Oil the more I become convinced of its superiority over other oils. Last year we sold about one hundred cars and tried all the leading brands of lubricating oils and Gasoline but finally centered on TEXACO. It's good enough for us.

I have in mind one car in particular which has used Texaco Motor Oil and Texaco Auto Gasoline exclusively. This car has been in use seventeen months and has traveled 8000 miles. Yesterday we took the spark plugs out for the first time just to see what condition they were in; finding them remarkably clean, they were replaced without any cleaning. The condition of this motor more than anything else prompts me to write this letter. Most of this car's service has been slow running, which all Automobile people know to be harder on a motor than the country roads.

If all the TEXACO products come up to the high standard set by MOTOR OIL and AUTO GASOLINE you should have no trouble in winning the trade.

Yours truly,
H. W. H. H. H.

All Texaco products are manufactured at the same high standard. They are available for you in your own town. Order from our agent.

WISHED SHE COULD DIE
And Be Free From Her Troubles, but Finds Better Way.

Columbia, Tenn.—"Many a time," says Mrs. Jessie Sharp, of this place, "I wished I would die and be relieved of my suffering, from womanly troubles. I could not get up, without pulling at something to help me, and stayed in bed most of the time. I could not do my housework.

The least amount of work tired me out. My head would swim, and I would tremble for an hour or more. Finally I took Cardui, the woman's tonic, and I am not bothered with pains any more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardui goes to all the weak spots and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who feel as if everything were wrong, and need something to quiet their nerves and strengthen the worn-out system.

If you are a woman, suffering from any of the numerous symptoms of womanly trouble, take Cardui. It will help you. At all druggists.

CALOMEL SALIVATES AND MAKES YOU SICK.

Acts Like Dynamite on a Sluggish Liver and You Lose a Day's Work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it does not make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

SEE IF THE CHILD'S TONGUE IS COATED.

If Cross, Feverish, Constipated, Give "California Syrup of Figs."

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give tea-spoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative;" they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

COLEMAN TEST WELL.

Produces Three Barrels High Grade Oil Daily.

Mr. Lewis Robertson, promoter of oil developments near Coleman, made a test of the oil yield at the Babington well last Saturday and again on Monday, to determine its possibilities. The daily yield, according to Saturday's and Monday's test, does not exceed three barrels daily and is not considered of sufficient quantity for commercial purposes, unless a gas pressure can be developed to force the oil to the surface.

A few weeks ago, in drawing the ten-inch casing the accumulated gas was released and the well spouted oil half way to the top of the derrick and left a pool of oil standing around the well. This caused more or less speculation on the part of the public, which was eager to believe that a real oil gusher had developed. The oil of the Babington well is conceded to be the finest oil ever brought from the earth in the United States, it has a specific gravity of .56 and is almost as combustible as gasoline. In fact, in its crude state it is so light and fine that it could be used with a degree of success as fuel for gasoline engines.

The Babington well has a maximum depth of 2337 feet. At a depth of 1096 feet a stratum of oil-bearing sand 21 feet in thickness, was encountered. At the time of this strike it was announced by Mr. Robertson that the yield of oil was not in commercial quantities, probably 1 1-2 to 3 barrels daily. The oil was cased off and the well carried to a depth of 2337 feet at which depth Mr. Robertson says, salt water was encountered.—Coleman Democrat-Voice.
