EASTERN RETAILERS.

Discriminate Against Texas Eggs, Say Shippers.

During the recent tour of the county in the interest of Baby Beef, Hog and Poultry clubs, Secretary Grant of the Brady Commercial club, gave an illuminating talk on the subject of Texas eggs, and showed that the practice of packing eggs in cotton seed made them unfit for cold storage, and hence they became unsalable, or at best, brought a price below the market quotation. Mr. Grant advocated the more careful packing and handling of eggs for market, as well as the improvement of marketing facilities. His statements are borne out by the following item reprinted from an issue of the Dallas Evening Journal of last week:

"Eastern retailers discriminate to such an extent against Texas eggs that some shippers have adopted the plan of sending Texas eggs into Kansas and Missouri, then billing them out with Kansas and Missouri labels. Such was the statement made today by W. J. Henry of Philadelphia, who is shipping Texas eggs out of Dallas by the car load.

"He has shipped sixty cars, and expects to ship fifty cars more by the end of the next two months. A car usually holds 144,000 eggs.

"Texas eggs will sell from 1c to 4c under Kansas and Missouri eggs because of the cotton seed on them, Mr. Henry said. At some seasons of the year, the Southern eggs is not so good as the Northern egg.

"The price of eggs will drop in a few weeks, Mr. Henry believes. He was the egg dealer who waged a fight on the alleged 'egg trust' in 1914, and sent the price of eggs down throughout the country. The fight began in Philadelphia, but soon spread.

"Mr. Henry said New York City alone received during 1914 more than 5,500,000 cases of eggs. There are thirty dozen eggs to the case. The egg production of the country varies from year to year, he said."

1914 COTTON CROP.

Estimated to Have Been 15,873,000 Bales.

Washington, March 29. — The 1914 cotton crop of the United States aggregating 15,873,000 running bales of lint, or 16,102,000 equivalent 500 pound bales, the census bureau announced today. The Department of Agriculture December 10 estimated 15,966,000 equivalent 500 pound bales. These figures compare with 13,982,811 running bales, or 14,156,486 equivalent 500 pound bales in 1913; 13,488,539 running bales, or 13,703,421 equivalent 500 pound bales in 1912, and 15,553,073 running bales, or 15,692,701 equivalent 500 pound bales in 1911, the three largest crops prior to 1914. Included in the 1914 figures are 121,000 bales which ginners estimated would be turned out after the March canvass.

Interscholastic Meet.

The following item regarding the Fourth Annual Track Meet and Declaratory Contest, to be held in Brownwood Saturday, April 10th, has been sent out by the Athletic association of Daniel Baker college:

"Present indications are that the 4th annual Interscholastic Track Meet and Declaratory Contest to be held Saturday, April 10th, under the auspices of Daniel Baker college Athletic association, will be a big success. All of the larger high schools of this section have signified their intention of sending teams and new records are expected in a number of events. Handsome gold medals will be awarded winners of first places. Free entertainment will be provided for all teams. Excursion rates have been asked for on all railroads and will undoubtedly be granted. This meet has grown to be the largest athletic event in West Texas and no pains are being spared to make this meet the largest yet held."

MRS. ANDERSON DEAD

END CAME PEACEFULLY SATURDAY AFTERNOON.

Death Due to Complication of Diseases, Superinduced by Attack of La Grippe.

Following an illness of only a few days duration, Mrs. Christina Anderson, wife of C. A. Anderson, one of the most prominent merchants of this city, passed peacefully at the Great Beyond at 3:40 o'clock Saturday afternoon at the home of the family, in the northern part of the city.

Mrs. Anderson has been an invalid for the past year and a half, suffering from a complication of diseases, but her condition was not considered serious until a few days ago. She was forced to take to her bed the first of last week by an attack of lagrippe, and grew rapidly worse until the end came peacefully Saturday, surrounded by members of the family and friends.

Mrs. Anderson was 55 years, 3 months and 3 days old at the time of her death. She was born in Sweden, but came with her parents to the United States, and Texas when about 20 years of age. Her family settled in Travis county, where she and Mr. Anderson met, and, on March 15, 1888, were united in marriage at the Cumberland Presbyterian church in Austin. Rev. Dr. Shaw officiating at the service. The union was blessed with four children, three of whom are living, and are as follows: Mrs. Bailey Jones of Austin and Misses Esther and Ella Mae of this city.

Mr. and Mrs. Anderson continued their residence in Austin for nineteen years after their marriage, Mr. Anderson being engaged in the grocery business, and being one of the most prominent and well known business men of that city. Eight years ago the family moved to Brady and have made their home here continuously since that time.

Funeral services were held at the residence yesterday afternoon at 4:00 o'clock in charge of Rev. T. P. Grant, pastor of the Presbyterian church, of which deceased had been a member for many years, and was attended by an immense throng of sorrowing friends. Following a short service at the home, the remains were conveyed to the city cemetery, where the body was lowered into the grave after the rendition of the beautiful and impressive commitment service said by Rev. Grant. Appropriate music was rendered at the grave by the choir from the Presbyterian church, under direction of Mrs. Jas. H. Baker.

The floral offerings were varied and beautiful, the new made grave being completely covered with wreaths and cut flowers.

Active pall bearers were as follows: Sam, Ben and John Moffatt, J. R. Stone, J. T. Freeman and S. J. Striegler.

The Standard joins with the many friends of the family in extending sympathy to the bereaved ones in their sad loss.

Just received a shipment of Phoenix Hose for ladies and men. So call and see them; in all the new shades. They are known for their wear. Kirk, the tailor. Nuf-Sed.

NO ENTRIES.

McCulloch County Farmers Slow to Enter Industrial Contest.

Information has just been received from the Texas Industrial Congress that no contestants from this county have entered its prize crop contests for the year 1915. In view of the fact that there is no cost whatever attached to entering any of the contests, and not a cent of expense loaded onto the farmers by competing for the prizes, there is no reason whatever except lack of interest or knowledge of what the contests are, to account for this condition.

Ten thousand dollars in gold is to be given to farmers of this state who raise the best crops, cost of production considered, during the year 1915. There are ten classes. The first class is for four-acre model farms, in which the contestants must grow one acre of kaffir, milo or feterita, one acre of cotton, one acre of corn and one acre of cowpeas. The first prize in this class is \$500, second prize \$300, and third prize \$200; \$500 will be awarded to other contestants making creditable showings.

The Texas Corn Club, the Texas Peanut Club, the Pryor Baby Beef Club, the Frank P. Holland Hog Club, the Henry Exall Special Contribution prize and one section of the garden contest are open only to boys and girls between the ages of ten and twenty years on January 1, 1915. In each of these contests except the two last mentioned, first prizes are \$200, second prizes are \$150, and third prizes are \$100, and \$550 is to be awarded to those making creditable showing according to the findings of the committee on awards.

Competition in the forage crop class and the Kleberg Beef club is open to all, and the same is true of the grain crops class and a section of the garden contest. Prizes in these classes are the same as those mentioned above. In all of the contests except those for fattening animals and those for growing gardens, one measured acre of land must be used. The only hard and fast agreement any one must make to enter the contest is to promise to accept the findings of the committee on awards as final and not appeal from its decisions.

Further, the only agreement is to the effect that crops will be measured or weighed according to the instructions of the congress. This is necessary in order to determine who are really the winners in the contests.

Full information as to how to enter the contests may be secured from the Texas Industrial Congress, at Dallas, by simply requesting application blanks. The contests are yet open, and may be entered at any time before May 1. As has been said, there is no expense attached to entering the contest other than a one-cent postage stamp to send for the application blank and a two cent stamp to return it to the congress.

A comparison of the yields of corn, cotton, cowpeas, kaffir and peanuts made by those in the congress contests with the average of the state convinces even the most skeptical of the value of the contest. For during the past year, when the average production of cotton for Texas was very slightly more than one-

FORD

THE UNIVERSAL CAR

The Ford is lighter than any other car of its size and power. Light weight means economy. Economy in gasoline consumption. Economy in tire expense. Economy in repair bills—less than two cents a mile for operation and up-keep.

Yet with all its light weight the Ford is the strongest, sturdiest car that is built. It is the longest lasting car. Vanadium steel is responsible for that. "Antifatigue" steel, scientists call it—the strongest, toughest steel put into automobile construction. Buyers will share in profits if we sell at retail 300,000 new Ford cars between August, 1914, and August, 1915. Runabout \$440; Touring Car \$490; Town Car \$690; Couplet \$750; Sedan \$975; f. o. b. third of a bale to the acre, the average for the contestants in the contests was one and one-third bales. The average yield of corn for the state for four years was 19 bushels per acre, while the contestants' average was 60 bushels per acre.

Bakery Changes Hands.

A deal was closed Saturday whereby M. C. Allman disposes of the City Bakery, located on South Blackburn street, to T. D. Watkins, who took charge of the business at once.

The new proprietor is one of Brady's most popular and enterprising young business men, and is at present employed by Walker-Smith Co., as traveling salesman. Since coming here some two years ago from the Galveston house of this firm, Mr. Watkins has won a host of friends, both in business and social circles of the city by his genial manner and close attention to duty.

Mr. Allman has been conducting the City Bakery here for the past three or four years and has built up an excellent line of trade. He is one of the most competent bakers in West Texas, in addition to being a thorough business man. In disposing of the business he will continue to make Brady his home and expects to engage in the operation of a service car.

Mr. Watkins will not be actively engaged in the management of the business, but will continue with the Walker-Smith Co. He has secured the services of Ulric Carroll, who has been employed in the bakery for the past several years, to manage the business for him.

Studebaker Sales.

Simpson & Co. reports the sale of a Studebaker Light Six to District Clerk P. A. Campbell, the car having been delivered Saturday.

A number of other sales of the popular Studebaker are in prospect, and Manager Simpson is very optimistic of the prospects for a large number of sales during the year.

CAR OF EGGS.

Local Produce Firm Ships Out Sixth Car, Last Week.

H. P. Roddie & Co., local produce dealers, last Thursday shipped out another solid car load of eggs to the New York market, making a total of six cars shipped this spring.

The shipment consisted of 400 cases of 30 dozen to the case. The average price paid to the farmers for these eggs was \$3.50 per case, or a total of \$1400 for the car. Thus, in the past three or four months, a sum totaling \$3400 has been distributed among the farmers of McCulloch county for eggs alone—an average of \$2.62 1-2 for every family.

Aside from the six car loads this firm has also handled an immense number of eggs by express, the amount handled in this way probably amounting to another car load.

This source of revenue to the farmers is fast attaining large proportions, and coming at a time when there is practically no other product from the farm to be marketed, is a great help.

SALE SATURDAY.

The ladies of the Episcopal church will hold a sale of home baking, Easter eggs, etc., on Saturday, April 3rd, at P. W. Williams' tailor shop.

JURY LIST.

For April Term of County Court Which Convenes the 19th.

Following is the list of jurors for the first week of County Court, which will convene on April 19th: J. E. Campbell, J. S. Cathey, W. C. Clayton, A. B. Crump, W. J. Day, N. B. Embury, C. A. Engdahl, H. S. Espy, A. F. Turner, Tom Allen, Geo. Darley, W. F. Miller, T. Altizer, Gaines L. Allen, E. M. Blackwell, A. J. Burk, George Brown.

The list of jurors for the second week is as follows: H. S. Byrd, J. V. Chandler, D. D. Hargrove, W. G. Joyce, Duke Mann, J. Meers, E. H. Floyd, D. H. Campbell, W. E. Lohn, M. L. Bailey, A. J. Adams, E. H. Beakley, A. A. Jordan, J. J. Armor, S. F. Wicker, M. T. Gault, J. A. Cottle, T. J. Beasley.

Both civil and criminal dockets are unusually heavy, and the full two weeks will likely be required to dispose of all the cases set for the term.

AN EXPLANATION.

In the publication in our last Tuesday's issue of Hon. W. D. Cowan's open letter in regard to the Pari-Mutuel bill, we inadvertently omitted the date of the same, which was the "meat" of the matter. Mr. Cowan's letter was dated before the vote on the bill was taken, as well as before any protest against his voting for the bill was voiced here. In other words, Mr. Cowan voted his convictions in the matter. His course during the entire session has been favorably commented upon, both by those who shared his views upon the various measures enacted and by those who opposed, and it is the general opinion that he has acquitted himself in a most creditable manner.

Safety first.

Use persuasion with your children—save your force for the ash heap and the rubbish pile.

Perhaps the 18-months-old Indiana child, which was found to have a half-pound frog in its stomach, is related to the man with a frog in his throat.

There is, according to the Postal Guide, a town near Lacrosse, Wis., which is indexed Waukon. In this little town an ordinance has been passed and is being enforced which might interest the rest of the country. A day is set aside every year designated "Bring-It-Back-To-day." Any one who borrows any of the many borrowable things are supposed to bring it back on this particular day.

A REMARKABLE CHANGE.

The most remarkable change since the time of the Napoleonic wars has come suddenly in the American ship building industry. The last day of December last year, closed one of the poorest years the American ship yards have had in a decade. Today every ship building concern from Bath, Me., down to Newport News, in Virginia, is working to its fullest capacity, says the New Republic.

One of the largest companies has orders sufficient to keep six thousand men employed full time for two to three years. Contracts have been closed for forty-eight ocean vessels, and negotiations are pending for 60 more. Prices have been advanced 15 per cent, although the fact is not significant. A British company has placed an order for the building of two ships in an American yard—a thing never heard of before—and it is likely to order two more.

Apparently the American merchant marine has entered upon another period of expansion. The ships ordered and those for which marine architects are now drawing plans embrace not only passenger vessels for the coastwise trade, but freighters for the Pacific and South American service, big cargo carriers for the transatlantic business and oil tankers to go anywhere and everywhere.

THINGS TO TELL THE BOYS

When you hear a boy or a man complain that he has no chance, take him by the arm and tell him a few things. Tell him that fifteen years ago Henry Ford, the automobile manufacturer, was engineer in an electric light plant in Detroit. Charley Murphy, the base ball millionaire, was a reporter on the Cincinnati Enquirer. Thomas H. Ince, the motion picture magnate, was a comic-opera comedian, glad to get \$50 a week. Charlie Weeghman, owner of the Chicago Federal base ball team and a string of restaurants, was a waiter in a quick-lunch room. This list could be strung out to a column's length. There never was a time in the world's history when there were more opportunities for a young man to push to the front. There never was a time when a little intelligence and determination would provide a man with a competence in a few years, such as this. This is particularly true in the farming business. The young man of today who will take hold of a farm with the earnest idea of making it the best farm in the county, and who will work intelligently for ten years with that idea always before him, will not have to work for the remainder of his life.

CRACKS AT THE CROWD

In the Indiana election fraud case, one man testified that he voted twenty-two times. We cannot approve of fraud, but it certainly would be glorious to go to the polls and cast that many ballots in one day for the great cause of Democracy.

We should dislike to inflict serious bodily injury upon one or more of them. We fully expected to see everything torn up and all valuables gone, but not a thing was touched. We left our every-day suit right where it could be seen from the window, but if any burglar saw it he did not enter and carry it away. On the dresser were two full cards of safety pins, but not a one was taken. Martha worried about her pearl necklace, but even it was safe. The necklace contains more than a hundred pearls and is evidently very valuable. She bought it from a peddler, and he said it was worth many times the amount he charged. After seeing that these things were safe we hurried to the dining-room to see about the napkin ring. It hadn't been touched. We were glad of this, because the ring is practically new. You see it is never used unless we have company. Martha was just sure that everything would be gone, and she gave us a list of the valuable articles. The necklace doesn't look as if it is worth the price she put down, but we

It is none of our business, but if we were England we would quit giving battleships such names as Inflexible and Irresistible. It is true that there is nothing in a name, but still it sounds bad for ships with these names to be sent to the bottom or to come in home with black eyes. It would not seem that an enemy had done much if the destroyed and damaged ships were called Frailty, Cardboard and Egg-shell.

We wish to thank the burglars of the country for not robbing our home while we were away. Of course, if burglars wish to rob the house at all we prefer that they do it while we are out of town. Burglars have feelings just the same as anyone else, and

know nothing about such things. However, if anyone wishes to buy this necklace before she returns we will sell it to him at the price she lists it, and make him a discount of ninety-nine per cent for cash. It is a fine piece of jewelry, but right at this time we are harder pressed for cash than we are for necklaces.

A "Mother Goose" Party.

A famous Newport hostess recently gave a "Mother Goose" party to which the guests were bidden to come representing characters from that most interesting book, whose popularity is undiminished. This scheme is practical for either old or young guests, and "Mother Goose" may bid the assembling of her goslings, knowing full well that the affair will be a success. A huge "Jack Horner" pie makes an appropriate centerpiece, with a row of cute celluloid birds (24 of them) perched around the edge. Tarts should be a part of the refreshment menu; also honey sandwiches in remembrance of the "Queen who ate bread and honey in the parlor. Suggestions for costumes may be found in an illustrated copy of "Mother Goose," one with color preferred. It is an item of interest to know that the author of "Mother Goose" is buried in a Boston cemetery.

City Election.

With the general city election just a week off, there is a conspicuous lack of interest on the part of the citizens of Brady which does not speak well for a town of this size.

At the election to be held next Tuesday three aldermen are to be selected to serve for a period of two years, but up to a late hour Saturday afternoon, the last day for filing applications for a place on the official ballot, there were no avowed candidates for either of the positions.

Messrs. H. P. Roddie and A. W. Tipton, whose terms of office expire this year, after a great deal of persuasion on the part of friends, finally consented to offer for re-election, but Ed Broad, the other retiring member of the council, refused to serve another term on account of pressing personal business affairs. To fill this vacancy, B. A. Hallum was prevailed upon to allow his name to go upon the official ballot.

Kambove

The Longest Railroad In the World

From Cape Town and from Cairo, for years the engineers have been pushing through desert, jungle and forest, over rivers and across lakes, the longest railroad in the world. The dream of the late Cecil Rhodes, this road is by this time almost completed. About a year and a half ago the line was pushed from Cape Town northward 2250 miles in the Belgian Congo.

At that time the terminus was Kambove, the little African village shown in the illustration.

The first train arriving at Kambove was illuminated with

ESTATE LEFT TO PUBLIC.

Bulk of Coggin Estate Bequeathed to Daniel Baker College.

A great many requests have been made to have the will of the late Mrs. S. R. Coggin made public, it having been understood that her estate had been very largely devoted to public interests. In response to these requests Mr. C. L. McCartney has furnished a copy for publication. This copy does not include some formal parts of the will, nor any of the provisions with reference to private donations. It is understood that the private donations among relatives amount to approximately \$40,000.00. Omitting the expected portions, in which the public can not properly have any interest, the following is a summary of her will.

The entire estate is willed in trust to the executor, to be held by him and administered according to the instruction given in the will.

Contracts and acts made during the testator's life are to be carried out to completion, and all debts paid. In this connection it was stated as her wish that she be buried by the side of her late husband, S. R. Coggin.

The executor is directed to have erected on the grounds of Coggin Park a tabernacle or coliseum at a cost of about \$10,000, the building to be tasty and commodious and suitable for the innocent pleasure and comfort of the people; provided that the City of Brownwood shall at all times take care of the building and its grounds.

The executor is directed to have erected on the grounds of Daniel Baker college a memorial chapel to cost between \$25,000 and \$35,000. This building shall be completed if possible within three years after her death, and shall be used for such religious services or other suit-

able uses as may be determined by the board of control of the college.

The sum of \$5,000 is set aside as a cemetery fund for the benefit of Greenleaf cemetery, under the control of a board of trustees.

All the remainder of her property is to be devoted to educational purposes in the City of Brownwood, and to that end the executor is directed, within five years after the probate of this will, to convert the remainder of the estate into cash and transfer and endorse said securities to the board of trustees of Daniel Baker college to be used as a permanent endowment fund for the purpose of maintaining a department of agriculture and domestic science and to provide free scholarships therein, the sum represented by the securities to be kept invested and the interest only used, with the exception that if necessary the sum of \$15,000 shall be available for erecting a suitable building in which to teach these departments.

The usual provision as to contests of the will is inserted. — Brownwood Bulletin.

May Recover Antiquities.

An astonishing discovery has been made by some Greek sponge-fishers at Madhia on the Tunisian coast. Observing a mass of sunken wreckage, they examined it and noticed some statues lying among rotting timbers. The French authorities were quickly interested and sent a tug and two torpedo boats to the spot. The sunken vessel proved to be one of about four hundred tons and loaded with an enormous cargo of ancient household goods and statuary, including a Hermes bearing the name of Boethos. The whole of it has now been recovered and is being examined and classified. Evidently it was a part of the Roman plunder from the sack of Athens, and probably the very ship described by Lucian as having been lost with its precious freight, including, says Lucian, a picture by Xeuxis.

CHARGED WITH ROBBERY.

Two Negroes Arrested Friday by Deputy Sheriff Martin.

Deputy Sheriff John Martin Friday afternoon arrested Robt. Harris and Ed Bradley, negroes, and placed them in the county jail on a charge of robbery.

The crime with which Harris and Bradley are charged is alleged to have been committed Thursday night of last week at Jose Mamoremo's Mexican restaurant, just north of the public square, when they held up a Mexican named Aurelio Rangel and relieved him of a railroad ticket and \$2.75 in money.

Both negroes have police records in several Texas cities. Harris was convicted in city court here last week on a gaming charge, and was working out his fine on the streets when taken into custody by the county authorities on the robbery charge.

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell.

I tried most every kind of medicine, but none did me any good. I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together. My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlastingly tired feeling?
If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

AT THE OPERA HOUSE.

Mysteries Which Sprang Into Being Because God Spoke.

In days such as have fallen upon us, when many are inclined to think lightly of faithfulness, virtue and nobility, and even secretly question the precepts of Christianity, it is like a refreshing shower to fading rosebud, to hear or see testimony to the contrary. Such is the effect of "The Christian," the film in eight reels, which will feature at tonight's show. It is a pictured testimony to uprightness, nobility and Christianity.

Wednesday, Thursday, Friday and Saturday nights "Creation," a magnificent 13-reel film telling in pictures the mysteries of the creation of this wonderful world of ours under the conception of the Almighty. Chaos, under His domination will be seen evolving into the world and universe, as things of such exceeding beauty that humanity, with all its vaunted intelligence cannot even comprehend the beauties of the works of God, among which they live and have their being. A mechanical talking appliance will lecture as pictures pass. Inasmuch as these pictures are free—four the first night and three each succeeding night, after the regular show—the only chance Manager Levy will have to get paid for bringing this pleasure to the people of Brady will be in large crowds each night. It will be a very poor return to him should the public not give him crowded houses for the first show, since it is a sure thing everybody will want to see the second.

CALOMEL DYNAMITES A SLUGGISH LIVER.

Crashes Into Sour Bile, Making You Sick and You Lose a Day's Work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50-cent bottle of Dodson's Liver Tonic, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of play. It's harmless, pleasant and safe to give to children; they like it.
