MASURY

The name Masury means something. It designates QUALITY. Just as the word Sterling stamped on silver indicates fineness and purity, the word MASURY means the best—none other as good. It has taken fifty years' experience to level up the standard of the Masury Paints to the high level where it stands today—absolutely pure pigments, pure linseed oil—“net weight and full measure,” every can labeled giving actual percentage, composition, etc.

E. B. RAMSAY

AT THE OPERA HOUSE.

Lovers of Exquisitely Classical Music are in for a Treat.

Farrar and Farrar, brother and sister, cultured and clever, are at the opera house tonight and tomorrow, in a role that appeals to lovers of artistic violin and vocal melody. The former, Flex Farrar, is a singer who studied four years before putting a foot on the stage. Miss Farrar, petite, vivacious and pretty, is a violinist so artistic her interpretation and intonation are a witchery, a wail, a dream, as she wills. She also delights with the popular ragtime airs of the day. Mrs. Anderson, interested in the clever work of the young lady, kindly consented to accompany on the piano an added pleasure to the crowded house last night. An evening spent with the Farrars is worth several times the tribute paid at the wicket.

Tonight's pictures will be "The Spell of the Poppy" and "The Dodger," drama and comedy in four reels; and the Farrars.

"Ex-Convict 4287" will be the bill Wednesday with the last appearance of the Farrars; and a "Mutual Weekly".

"Her Buried Past" with "Fatty's Chance Acquaintance," a Keystone comedy will be shown Thursday.

Friday night there will be four reels, "The Two Sentences" and a comedy, "Fatty's Fling."

Saturday "The Black Box," "At the Bottom of Things" and "Beating Hearts and Carpets," a comedy; making five reels.

NATIONAL HIGHWAYS

ASSOCIATION TO MEET IN BRADY, AUGUST 13TH.

Four Hundred Delegates Expected; Will be Big Event and Give Brady Much Publicity.

Brady will entertain the Texas Division of the National Highway Association on August 13th, this date having been definitely decided upon. The association was to have met with Brady on July 15th, the barbecue having been arranged with this meeting in mind. However, owing to a misunderstanding, the delegates were not notified, and the meeting had to be postponed.

The following is a letter received by W. D. Crothers from D. E. Colp of San Antonio, secretary of the association:

"Replying to yours of the 15th, I am very glad to know that you had such a splendid success of your celebration on the 14th, and had I known that you were going to pull off this "stunt," in time, I would have taken advantage of the opportunity to visit your city on that date, and contribute what little I could toward the program, but I had another very important date when I learned of the arrangements.

"Now, as to the meeting on Friday, August 13th, will say that we expect to give this quite a lot of publicity from now on to that time, and we are going to do everything we can to make this a great success. Mr. Owen will also start a campaign this week, and Judge Penix of Big Springs will do likewise, and we are really expecting a great time. We expect to have a speaker with us from the National Highway Association, and also one from the office of Public Roads. We will carry a press reporter who will cover the trip thoroughly, and if we happen to have good weather so it can be made pleasantly, it will be a big advertisement for this big loop, and you may expect thousands of tourists every year after the road is put in good shape.

"The road between San Antonio and Corpus Christi is becoming very popular, and is carrying an average of a little more than fifty cars per day. It will easily carry from one hundred to one hundred and twenty-five cars per day as soon as the work is completed, which will only be a few months. We are expecting a great "tourist crop" in San Antonio this winter, and we are anxious for them to have good highways so they will stay down here as long as possible.

"I note what you say with reference to the accommodations at the hotel, and I suppose I had better make arrangements with the nearest towns on each side of Brady to take care of as many as possible. I will send your newspaper men matter for this week's publication, as well as all the newspapers along the Puget Sound to Gulf Highway."

Last year the association reported 200 automobiles in attendance, with some 800 delegates. It is anticipated that there will be at least 100 automobiles in Brady with about 400 delegates. Consequently, extraordinary efforts will have to be put forth to entertain and provide for this large delegation. Arrangements are being made for a big basket

picnic for the occasion, and every citizen of Brady is urgently requested to lend a hand and help make the occasion a success.

Returns From the Wild West.

Lewis Hopkins, son of F. M. Hopkins, of Voca, returned on the 20th inst. from the West, where he has been the past four years seeking fame and fortune. Mr. Hopkins has been located in Pecos county, where he has acquired considerable interests in the cattle business, besides developing into one of the leading and most prominent citizens of that section. Mr. Hopkins expects to visit relatives and friends in this country for some time, but will eventually return to the Pecos country. He is a young man of great ambitions and sees a great future in the far west; consequently he could scarcely be expected to forego the pleasure of seeing his ambitions toward becoming a great cattle baron realized merely for the pleasure and satisfaction of remaining here among friends and relatives. Quite naturally all of Mr. Hopkins' friends are delighted to be able to greet him once more, and trust his dreams of fame and fortune may speedily be realized.

Closes Successful Revival.

Rev. J. W. Shirley of Pear Valley was in the city yesterday enroute home from Camp San Saba, where he had been assisting in conducting a revival meeting the past ten days, the meeting having closed Sunday night. Rev. H. P. Wilsford of Eden conducted the services and was ably assisted by Rev. Shirley, who is pastor of the church.

The church was greatly revived as a result of the meeting, and a total of fifteen additions to the church were had—eight by professions of faith and seven by baptism.

DESTROYED BY FIRE.

Tom Bradley Residence Burned Friday Night.

As a result of a lamp explosion the Tom Bradley residence, located in the southern portion of the city, was almost totally destroyed by fire at 9:00 o'clock Friday night.

The house was occupied by Mr. and Mrs. F. D. Wilmore and family, who lost all their household effects, and in addition Mrs. Wilmore sustained painful burns about the face in making her escape from the burning building.

At the time the fire occurred only Mrs. Wilmore and her daughter, Letha, were at home. A coal oil lamp had been lighted in the bedroom, and both Mrs. Wilmore and her daughter went into another room to dress, preparatory to coming to town. A few minutes later when Mrs. Wilmore opened the door of the bedroom a sheet of flames burst into her face and she discovered that the entire south part of the building was a mass of flames. At about this time neighbors discovered the fire and turned in the alarm, the fire department responding in record time and soon had two streams of water playing on the building. So efficient was the work of the firemen that a large portion of the outer walls was left standing and the floors in some of the

COTTON GROWERS.

The Fort Worth Record champions the cause of the southern cotton growers in a daily series of editorial comment that should have far-reaching influence. The Record in one article says:

"All the foodstuffs of the north meet with ready sales and ocean transportation facilities are unrivaled. Northern farmers are prosperous, northern manufacturers are rushed with orders and northern mechanics are enjoying an era of unexampled prosperity. Southern cotton is threatened with another blockade. Southern farmers are threatened with another season of bankruptcy and privation. They are told that they must not sell their products to the people of neutral countries."

The Record calls attention to the fact that guns, shrapnel, powder, ammunition, wheat and other food stuffs have been purchased or contracted for by the allied nations; that all the passenger ships from New York to British ports are loaded with munitions of war; that there are ships to convey all these orders for supplies and foodstuffs through the war zone; that these vessels will not be seized and searched.

The Record asks, then why should ships loaded with American cotton and consigned to the neutral countries of Europe be seized, and their cargoes thrown into a prize court. It answers:

"All the world is demanding cotton. The allied nations are determined to make it contraband of war, to hammer down its price, to buy it for a song.

"Why should this federal administration of ours permit this discrimination? Aren't southern cotton growers American citizens? They fight for the flag when they are needed. They pay taxes. They support the government. They produce a monopoly plant.

"Again, why this discrimination?"

If all the papers of the South would take the vigorous stand that the Record does, The Standard believes there would result a protest that would make the warring nations respect the rights of neutrals, and thereby

permit the southern cotton grower to reap the benefits he so justly deserves.

TOURIST TRADE.

Many citizens do not realize, or have not given proper thought to the benefits derived from tourist travel. There is scarcely a day passes but what a number of tourists pass through Brady—yet the matter passes unheeded, because they are lost among the number of other strangers who come to town. Said a Paint Rock citizen the other day to a Brady man: "You would be surprised at the number of tourists coming through Paint Rock, and what it means to the town in the way of sales of gasoline, food and supplies. There is scarcely a day but what ten or a dozen tourists are here. Perhaps in a town the size of Brady you do not notice it so much, but we in Paint Rock certainly notice and appreciate the tourist."

Brady is on the great Puget Sound to the Gulf Highway—is on the route because a few of her live citizens fought for the route and overcame opposition

like a lot of rubbish, doesn't it?

Here's the facts. Mason wanted a railroad—has wanted it for a quarter of a century. She has had brilliant hopes—only to see them fade as a rainbow fades. Now she has gotten down to a common-sense practical working basis. Mason is going to have an outlet—in the shape of a good piked highway. She offers to build such a highway to her county line, either towards Brady or towards Llano. No one in Brady or McCulloch county will deny the need of a good road to Mason—but no one appears to be enough interested in the Mason proposition to even give it a second thought.

What has Llano done? They have gotten together there; have pledged themselves to build a road to the Mason county line; have offered to co-operate with the Mason merchants and citizens in any way. Do the Mason folks appreciate the Llano spirit? Only to the extent that they have in turn promised to throw all their business in the Llano direction. Should this plan be carried out Mason and McCulloch counties might as well be separated by a Chinese

NEW INDUSTRY.

Local Citizen Closes Contract for Sale of Marking Ink.

Dr. R. A. Lindley of this city last week closed a contract with George W. King, general superintendent of the National Compress Co., for the sale of fifty barrels of chemical marking ink which will be used in the various plants of the company throughout the state.

Dr. Lindley perfected this ink several years ago, but has never made any attempt to market his product, choosing rather to devote his time and attention to the practice of his profession of dentistry. From time to time he has been putting out small quantities of writing fluid made by the formula, and the quality of the product was such as to attract widespread attention. The distinguishing quality of the ink is its permanency, there being no known chemical which will obliterate it, and this feature is one which has been sought by compress and cotton men for many years.

As an experiment, a small quantity of marking ink was made up last year for use in the public cotton yard of this city. During Mr. King's visit here last week an inspection of the cotton bales on which this ink had been used was made, and the markings were found to be as clear and distinct after from six to eight months' exposure to sun and rain as the day it was put on, and so well pleased was Mr. King that he immediately closed a contract for fifty barrels of the ink.

This sale has stimulated a demand throughout the state for this ink, and letters of inquiry are coming in by every mail.

Already sales of from one to five barrels each have been made to the following compresses: National Compress Co., Dublin, Waxahachie, Hearne, Taylor and Yoakum; Kennedy Compress Co., Kennedy; Central Texas Compress Co., Temple and McGregor; Exporters and Traders Compress & Warehouse Co., Waco, Hillsboro and Marlin; Brenham Compress Co., Brenham; Texas Compress Co., Brownwood and Ballinger; Brady Compress Co., Brady; Southern Compress & Warehouse Co., Galveston. In addition to the above sales made to the compresses, orders have been received from practically every ginner in the county for smaller quantities and both the public yard and the Farmers' Union Warehouse Co., of this city have placed orders for sufficient ink to run them through the coming season.

In response to an invitation from some of the largest firms of cotton exporters in the South Dr. Lindley left this morning for Houston and Galveston, where he expects to close a contract for a large amount of his product.

Do we want the highway? Do we want to put Brady on the map as one of the important points on a national highway? We most assuredly do!

Brady gave thousands of dollars bonus to secure her railroads—and we dare say a good piked road through the county north and south and reaching the heart of the Mason country will be worth as much as any railroad that could be built.

Gained Four Days Out of Nine

Over in Oklahoma one of the business concerns using a great many wagons had been considering the question of axle grease.

Apparently no conclusion could be reached from the statements of competitive sellers of the products, so the company decided to make a test.

Two NEW wagons which had just been delivered to the company were selected for the test. To one wagon a competitive grease was applied on both front and rear wheels, Texaco grease being used on the other.

They were set to work. In five days the competitive grease was done, the spindles got hot and a new application was required.

IN NINE DAYS TEXACO GREASE WAS STILL GOOD, SPINDLES IN PERFECT CONDITION READY FOR ONE MORE DAY.

T. B. Cobb, the Doole ginner, was a Brady visitor Monday in company with D. C. Middleton, and reported everything in his community in fairly good shape. He says, however, that the cotton crop is only about 50 per cent of normal, practically everybody being late with their planting and having been able to give the soil but little preparation. Several of the Doole folks did get the ground thoroughly pre-

pared and have fine crops as a result. The acreage has also been cut about 15 per cent, and no such a big crop is to be expected as was had last year. However, the folks out that way made good oats, fine maize, and the corn was fair; so the prosperity habit comes natural with them.

Hotel Changes.

Mr. and Mrs. M. J. Hutto Monday gave up the Southern Hotel, which they have conducted so successfully the past two years or more, and have taken charge of the Brady hotel. Mrs. Buckler, who has been conducting the latter place, is undecided about her future, but is contemplating going to Brownwood to take charge of a hotel there.

Mr. and Mrs. W. W. Wilder have taken charge of the Southern hotel and expect to conduct it in the same first-class fashion as it has heretofore been operated.

The Other Fellow.

Give him a kindly, brotherly thought at least once in a while. Make him the center of things occasionally instead of yourself. Get into the habit of seeing a few things from his point of view. As you value the best things for which men were made, do not make all life a competition and all humanity a field for your exploitation. Of course, you can get ahead of the other fellow if you try hard enough, and act meanly enough, but the net result of it all is bound to be terribly disappointing. The money in your pocket that ought justly to be in his may not burn a hole and get out, but it may do something very much worse than that; it may burn and scar and scorch your own soul. It is really a rather serious matter living alongside the other fellow. What we do with him may be important from his point of view, but it is very much more important from ours.

Good View Dispelled Love.

A short time ago a servant in Yorkshire gave notice to leave her situation, informing her mistress that she was about to be married. As the time drew near for leaving she addressed her mistress thus: "Please, mum, have you got a girl yet?" "No, Bridget. Why do you ask?" "Because, if you haven't, I should like to stay." "Why, I thought you were going to marry the sweep!" "Oh, yes, mum," replied Bridget, hesitatingly. "but when I saw him after 'is face was washed I felt I could not love him."—London Tit-Bits.

Splendid Gift to Museum.

Ten scrapbooks compiled by Edward Fitzgerald, the poet of "Omar Khayyam," have been bequeathed to the Ipswich museum by his niece, Miss Eleanor Kerrick, to be added to the relics in the Fitzgerald room in Christ Church mansion. The scrapbooks consist of portraits of all manner of notabilities, kings and pugilists, bishops and murderers being pasted side by side. They contain many original pen-and-ink sketches by Charles Keene of Punch, also drawings by John Constable. Some of the drawings are enriched with comments by the poet.

Fleet Couriers.

The best runners in the middle ages were found among the couriers maintained by monarchs and cities. The runners of Tartary, England, Scotland, Italy and the Basque country all acquired reputations, and the histories of the times are replete with stories of their difficult exploits. The "felchs," or Persian couriers of the Turkish sultans, often ran from Constantinople to Adrianople and back a distance of 220 miles, in two days and nights.

AT THE AIRDOME.

Program of Interesting Features Announced for This Week.

Manager W. W. Woodson announces an interesting program of Universal features at the Airdome this week, interspersed with some of the famous Billie Ritchie comedies.

For tonight a very funny comedy entitled "Baseball Fans of Fanville", together with an unusually strong Universal drama in two parts, entitled "A Page From Life" will be the offering.

On tomorrow night the ever popular J. Warren Kerrigan will be seen in a strong Western drama entitled "Smouldering Fires", in conjunction with a sure-fire comedy featuring Eddie Lyons, Victoria Forde and Lee Moran in "When He Proposed."

Thursday night's program will include "The Recoil", a thrilling drama in which two lightweights are shown battling for the championship, and now a girl reporter pleads with her father, who is the county attorney, for their release after the fight. "Bill's New Pal" will be the comedy offering of this program. Billie Ritchie, the man who taught Charles Chaplin how to be funny, is at his best in this picture, and if you want to enjoy a good hearty laugh don't fail to attend on Thursday night.

On Friday night a photo play without a name will be shown. For the best title for the play the Universal company is offering a prize of \$50.00. Don't fail to see this one and then send in your title. You might be the lucky contestant.

SAN SABA SAYINGS

From the Star.

Grandma Mamner, as she was familiarly known, died Wednesday morning and was buried in the Kuykendall cemetery yesterday morning, Rev. Rylander conducting the funeral service. Deceased was up in the seventy years of age and an old timer of Texas, and had been a member

of the Methodist church for 50 years. She was the mother of a number of children, most of whom have preceded her in death. While deceased was being buried news came that her son, Lawson had died that night at his home in San Antonio.

Miss Fay Wall of Brady will be the guest of Miss Annette Moore during the fair.

Miss Lena Spiller of Brady is the guest of Mrs. Mamie Callahan, to remain for the fair.

Mrs. Robt. Simpson died at her home in the western part of town last Tuesday night after a lingering illness. She leaves a husband and two small children and many relatives and friends to mourn her death. She was reared in this county and was universally loved by all who knew her. Her remains were interred in Odd Fellow's cemetery yesterday evening in the presence of a large concourse of sorrowing relatives and friends.

Mrs. V. A. McMillin died at her home in the McMillin community last Thursday night. The deceased was between 73 and 74 years old and had been a resident of this county since 1862. She was the relict of the late Capt. N. D. McMillin, who was a pioneer settler. She leaves eight children, all grown, 50 grandchildren and 16 great grandchildren. She was a consistent member of the Christian church and lived a life of usefulness and was a benediction to those with whom she came in contact. Interment was had in the family burying ground at McMillin.

From The News.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months. I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

COUNTY COURT.

Civil Docket Taken Up Yesterday Afternoon.

The second week of the July term of county court convened yesterday morning at 9:00 o'clock, with Judge John E. Brown presiding.

The morning session was taken up in the trial of the case of the State of Texas vs. George Mooring, charged with carrying a pistol, the case having been passed last week by agreement.

The introduction of testimony and the argument of counsel required the entire morning session, and the case was given to the jury just at 12:00 o'clock. After only a few minutes' deliberation a verdict of not guilty was returned by the jury.

The first case on the civil docket called for trial yesterday afternoon was that of D. J. Malmstrom vs. G. C. & S. F. Ry. Co., suit for damages. The hearing of testimony and argument required the entire afternoon session, the jury returning an instructed verdict in favor of the defendant shortly before adjournment.

Gibbons Asks \$5000 Damages.

A suit for \$5000 damages for personal injuries was yesterday filed in the Twenty-sixth District Court by John Gibbons against the Houston & Texas Central railway.

While traveling with a train-load of cattle on a "drover's pass" for the purpose of looking after his cattle, the plaintiff alleges that he suffered injuries as the result of the conductor's and the engineer's negligence. The petition alleges that at Doyle, Limestone county, the conductor gave him permission to inspect the cattle in the cars, saying that the train would not start for some time. When Gibbons left the caboose the conductor, evidently forgetting the promise made to the plaintiff, gave the engineer the signal to start. Gibbons tried to board the moving train, was thrown from the car and suffered a cut on his head, torn ligaments in his shoulders, in addition to a severe shake-up.—Austin American.

ARRESTED AT MELVIN.

John Hill and V. E. Bourland Charged With Gaming.

Deputy Sheriff J. J. Chamberlain of Melvin yesterday morning brought in John Hill of Stacy and V. E. Bourland of Melvin, both of whom he had arrested Sunday afternoon, and filed charges of gaming against both in Justice of the Peace King's court. A charge of assault with intent to rob was also filed against Bourland.

From the best sources of information obtainable, it seems that a poker game in which the two men engaged terminated in a row. Hill is said to have held the best hands in the game, and consequently Bourland was the loser. At the conclusion of the series Bourland informed Hill that he had to give up the money he had won from him. Hill broke to run and Bourland started in pursuit and is said to have drawn his knife on Hill and made him return \$2.00 of the money.
