Changes Locations.

The G. C. Kirk and P. W. Williams tailor shop exchanged locations last week, Mr. Kirk moving his stock to the building on the north side of the square formerly occupied by Mr. Williams, while the latter's stock was moved to the Kirk stand on the east side.

The front of the building now occupied by Mr. Kirk is to be torn out and replaced with a plate glass front of the most modern design and the interior will also be remodeled, and

the old fire-proof vault removed.

When the new improvements are completed Mr. Kirk will have one of the most attractive places of business in the entire city, and one of which he and his many friends may be justly proud.

When you want your fall suit cleaned and pressed just phone 54 and Kirk will be on his way. I have moved, but my phone number is the same. Just say 54. Nuf-Sed.

Directors Held Harmonious and Enthusiastic Meeting.

The directors of the Y. M. B. L. met at the court house last night, and discussed matters of interest to the organization.

The committees on Constitution and By-Laws, Good Roads, Trade Excursion and League Secretary all were granted further time to enable them to make a complete report.

President McCollum was directed to name a committee of five to solicit the support of the business men and merchants for the League, the committee to be named within the next few days.

It was the unanimous opinion of the directors that no effort should be spared toward making the Business League a success from every standpoint, and each and every one pledged his active support and influence.

The next meeting of the League will be held on Monday night at which time matters of importance will be acted upon. It is therefore urged that every member of the board of directors be present, and a cordial invitation is extended the entire membership to attend.

GOAT ROPING CONTEST.

Brownwood Free Fall Fair Will Stage Popular Attraction.

The ability to catch and tie a frisky goat within the shortest possible time will win a new Ford automobile for some Texan as cowboy at the Brownwood Free Fall Fair, October 6th to the 10th. This is only one of the big amusement features which will be staged during the Brownwood Fair, but it is certain that Gun Club Park, where the goat roping will be held will be crowded, with twenty or twenty-five thousand spectators to see the Ford runabout given away to the best goat roper. The roping contest will be open to all and entries should be made before Sept. 15th. It is expected that cowboys from many countries will make an effort to drive the little new Ford car home from the Brownwood Fair.

Ogden-Landers.

At the Baptist parsonage in this city last night at 8:00 o'clock occurred the marriage of John Henry Ogden and Miss Laura Landers, the ceremony being performed by Rev. J. M. Reynolds in the presence of a large number of members of the families of the bride and groom.

The groom is the youngest son of Mr. and Mrs. A. Ogaen, pioneer citizens of Brady, and was born and reared in this city, where he is uniformly popular with all. His bride is a granddaughter of Mr. and Mrs. W. F. Bodenhammer of this city, with whom she has made her home the past several years since the death of her mother, and a young lady of rare beauty and many accomplishments.

Following the wedding ceremony a reception was tendered the happy young couple at the residence of the groom's parents, which was attended by a large number of relatives and friends of this popular young couple.

For the present Mr. and Mrs. Ogden will be at home to their friends at the Bodenhammer residence in the eastern portion of the city.

And cut the weeds.

They say, in point of production the powder plant beats the egg plant.

Don't forget good sidewalks are an added asset to a town—and to your own property as well.

A light frost was reported in Iowa last week. Also the northern papers report wild geese flying south. Pretty good indications for an early winter.

The latest fad in woman's fancies is the roll-down hose. The combination of roll-down hose and short skirt ought to be sufficient to make even the Scottish Highlander take notice.

There are a number of laws on the city statute books that appear "dead letters". One of these prohibits the riding of bicycles on sidewalks, and its primary purpose is to protect the life and limb of the innocent pedestrians. Some day the city is going to awake with a good-sized damage suit staring it in the face if sidewalks and bicycle riders are not separated.

Blackburn street boasts of the best and most continuous line of cement walks in town—but there is one bad crossing that should be remedied. The crossing nearest the Methodist tabernacle is a combination of the sharpest of rocks and the wickedest of little ruts and gullies, all of which are conducive to sprained ankles and broken bones. A couple of men with pickaxe and shovel could work wonders with that crossing in a few hours.

A NEW LINE.

Miss F. Lowe has been in this vicinity the past week introducing a new line of corsets. Several of the young ladies are trying to walk as if they had bought one.—Richards (Ark.) Press.

Pardon us if we appear pert; but how does the editor know it is just appearances makes them walk that way?

MORE ABOUT CHICKENS.

There is a wise writer on the staff of the Dallas News. He is a fancier as well as a naturalist and a philosopher. This is his latest: "There is as much difference between country and city chickens as there is in cry

and country people." Sure. The city chicken paints and powders and patronizes the hair-dresser, the manicurist, the fashionable modiste, the picture show and the ice cream and the soda parlor. These accessories to the chicken business are not found in the country. But a chicken is a chicken, regardless of the feathers. This is the verdict of the sporting editor of The Record, who claims to know all about the bird and its habits.—Fort Worth Record.

We getcha! A chicken may be described as fuzz, feathers and fuss.

EDEN ECHOES

From Eden Echo:

Cotton picking has begun in earnest in Concho county.

Joe Bullion paid Brady a visit last Saturday.

Work on the new gin is progressing and in about ten days it will be ready to gin cotton.

Fire of an unknown origin destroyed Powell Evans barn Wednesday night. A \$60 saddle, some hay and other feed, etc., were lost.

Dr. Jesse Lockhart came to Eden Wednesday and will practice his profession. He visited many towns before coming to a decision, and correctly diagnosed Eden as the best of all. Mrs. Lockhart will join him here in a few days. We are glad to have them numbered as Eden citizens. A train of disorders arising from irregular habits and dissipation usually follow in the wake of a season of prosperity such as Concho now has. But neither climate nor water is to be blamed for the shortcomings and longings of the individual.

J. R. Robbins has the distinction of bringing the first bale of this year's cotton to the gin. He brought it August 20.

Messrs. Henderson shipped six cars of fat cattle to the market Monday.

Dr. J. B. Lockhart of Brady, spent from Friday evening until Sunday in Eden on business. He was the guest of B. A. Dail while here.

About one half an inch of rain fell in Eden Monday.

W. G. Gerrald and family, late of Brady, are now citizens of Eden. They will open up a restaurant, about the first of September, in the building just vacated by Mrs. Felps' millinery store. Mr. Gerrald has been conducting a restaurant at Brady for some months. He is a

very pleasant gentleman and is familiar with the business and will be glad to have you give him a trial order. While he and Mrs. Gerrald are strangers to us we are glad to welcome them, on probation, and are confident they will prove satisfactory.

We Want Good Roads.

Brady people have phoned here asking what Mason wants in the way of road building. This is easy to answer, and they can also be shown if they will make an auto trip from Brady to Mason. We want a good road suitable for running auto trucks over, and if Brady will do her part we will have it. There is not a finer piece of road anywhere than from Mason to the county line on the Brady road, with the exception of a few places that will receive attention, and it will be very much to the interest of Brady to put the

CRACKS AT THE CROWD

By Claude Callan.

A Boston doctor says that in 50 years kissing will be considered vulgar, and this leads the San Antonio Express to remark: "Right now such predictions are considered silly." Yes, and in all probability the kiss will be in use for centuries, unless women commence wearing breeches and beards.

J. H. Lowry, the man who talks about drinking buttermilk, says that on a recent visit to Fort Worth he loaned us \$4. This is a fact, but we see no more reason why he should have told it than we can see reason for us telling where the money came from. He took it from his pocket in four little envelopes. On the outside of one was written:

Our two stallions will make the season at our ranch 4 miles south of town.

McCulloch county end of the road in the same good condition.

Llano county has voted bonds for a bridge over the river at Castell, and besides building the bridge proposes to make the road to Mason through their county first class. Mason will also work the Llano road through Mason county. We propose to have first class roads through Mason county toward the railroad towns, and it will remain for those towns to do their part if they expect our people to go to those towns.

Fredericksburg is also at work on the roads and it will be but a short time until there will be a graded road all the way from Mason to Fredericksburg.—Mason News.

"Contribution of J. H. Lowry for Sunday, July 18." The other envelopes were for the three following Sundays, July 25, August 1 and August 8. It was plain enough that he had prepared these contributions at home, in an effort to please the head of the house, and it was plainer still that when the collection was being taken up Lowry held fast to that which was good

Along with all the other "Days" we are in favor of having a National Debtors' Day. This could be celebrated with picnics where only debtors would be welcome. We could discuss with each other the best methods of standing off bills. It is by an exchange of ideas that favorable results are secured in any line. Take, for instance, the question of buying: There may be many men who are not aware of the fact that wife can buy table supplies for a week after the groceryman has refused husband. No man should become discouraged because the dealer tells him that he can't buy another penny's worth. He should go home and send his wife for the food. Few men can refuse a woman, and the chances are that she will return with ample provisions for several meals. This has been our experience, and in all probability others have had experience that would be of great benefit to us.

To Drive Out Malaria And Build Up The System Take the Old Standard GROVE'S TASTELESS CHILI TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents

He reports his section of the state as having been almost completely devastated by the recent wind storm, the cotton crop in many instances being completely ruined.

Mr. and Mrs. E. B. Ramsay and little son returned Saturday morning from a month's visit in California. They visited both the San Diego and San Francisco expositions, as well as other points of interest enroute, while away, and E. B. is convinced that the wonders of the west do not surpass those of Grand Old McCulloch, and says he is glad to get back home again.

Mr. and Mrs. J. A. Bevans and children are here from the ranch in Menard county this week on a visit to relatives and friends. The many friends of the family will regret to learn of their decision not to make Brady their home this winter, as usual, they having taken up their permanent residence at the ranch, and are shipping out

their household goods this week.

Mr. and Mrs. C. D. Allen, who have been spending the past month at Marlin, returned home Saturday morning. Enroute home they were passengers on the train which was wrecked Friday afternoon at Mart, in which the fireman and another man were possibly fatally injured and a number of the passengers received slight injuries. Mrs. Allen sustained a painful cut on the lip and a slight injury to the knee, but Mr. Allen escaped without a scratch.

Mr. and Mrs. Wm. G. Russell and family spent Monday night in Brady while enroute to Lampasas, where they will visit Mr. Russell's father. They are making the trip from their home in Lubbock in Mr. Russell's Cadillac car, and report a nice trip, although the roads were somewhat rough. Mr. Russell's visit here was all the more notable from the fact that he first came to this country in '74, settling on Indian creek in Brown county and remaining here until up in the '80's, and although this was his first visit back in something like thirty years, he nevertheless met and renewed acquaintance with a number of old-timers, among whom were F. M. Richards, J. W. White, A. C. Erkle and R. A. King. He was greatly impressed with the advancement of the country, and stated that while he had covered a great deal of country, this was the best he had seen. Another point that caught his eye was the splendid breeds of cattle he found here. Mr. Russell is at present engaged in the live stock commission business, and good cattle quite naturally attract his attention at once. Also quite notable is the fact that Mr. Russell's father has arrived at the advanced age of 102, and as Mr. Russell has not seen him for a number of years, the visit promises to be all the more enjoyable.

Succumbs to Heart Failure.

Mr. L. L. Jones of Mills county died suddenly on the sidewalk in Eden last Tuesday evening of heart failure. He had not complained of being sick, only of a slight shortness of breath, and was walking along the sidewalk when he fell. He was immediately carried into Dr. Burleson's office, only a few steps from where he fell and he was pronounced dead.

He was here on a visit to his sons, and one of them was here with him. His other children were notified and were met by A. L. Pfluger at Lightner Wednesday and brought to Eden where the burial took place in the afternoon.

Mr. Jones was 63 years of age and leaves four sons and one daughter to mourn his demise. He had been a member of the Church of Christ for 18 years. Elder T. L. Allen conducted the funeral service.—Eden Echo.

County Dipping Tanks.

It costs less than 50 cents a head to dip the cattle of a county and free that county from quarantine, and enable its cattle to compete with free cattle at the stockyards. But, before the ticks can be cleaned from a county the people in that county, by themselves, or with the aid of the state must build dipping vats which cost from \$50 to \$100 each, and must supply arsenic, which costs about 5 cents per head, to make the arsenical bath that kills the ticks. The people then must join in seeing that every steer or cow is dipped a sufficient number of times to kill all the ticks infecting the cattle, and prevent new seed ticks in the grass from finding a new boarding house. The state department of agriculture will co-operate with a county that is ready to dip ticks by sending its expert field men to supervise the building of the vat, to prepare the arsenic bath and to take charge of the dipping of cattle. The people of a county, however must first come together and realize the financial advantage to them of dipping their cattle, and must provide the small amount of money necessary for the actual dipping.—Ex.

The Only Way.

There was an old geezer and he had a lot of sense, he started up a business on a dollar eighty cents—the dollar for stock and the eighty for an ad brought him three lovely dollars in a day, by dad! Well, he bought more goods and a little more space and he played that system with a smile on his face. The customers flocked to his two-by-four and soon he had to hustle for a regular store. Upon the square where the people pass, he gobbled up a corner that was all plate glass. He fixed up the window with the best that he had, then he told them all about it in a half-page ad. He soon had 'em coming and he never quit, nor he would not cut down on his ad one bit. Well, he's kept things humping in the town ever since and everybody calls him the merchant prince.—Ex.

MENARD MESSAGES

From The Messenger.

Fritz Rau and Fritz Wilhelm, both local artists with the rope met Sunday afternoon and matched for a purse of \$50. Fritz Rau won easily; Wilhelm being unfortunate in his goats which acted badly, while those of his opponents ran slow and to the right, so Rau had only to drop the rope over them. Rau's time for the three goats was 59 3-5 seconds, while Wilhelm was forced to take 104 1-10 seconds.

Architects' Dreams For Most Marvelous of Universal Expositions Coming True—Whole World Interested

By HAMILTON WRIGHT

As the United States has invited the world to an international festivity, an international program will be part of the Panama-Pacific International Exposition. Sporting events of all kinds will be prominent. The crack cavalry and infantry of the United States and Europe will participate in wall scaling contests, remount demonstrations and competitive drills of all kinds. Carrying out this theme upon a larger scale, battleships in the harbor and aeroplanes launched from hangars on the Exposition grounds will contend in mimic warfare. There are assured at the Exposition some wonderfully interesting aeroplane demonstrations. The principal aeroplane manufacturers of England, Germany, Russia, Italy and Switzerland will compete with

and Education. Flanking this rectangular group on the east, but brought into general architectural harmony with it is Machinery Hall. Flanking it upon the west will be the superb Palace of Fine Arts, a building partly circular in form and embracing a great lagoon, in which its classic outlines will be reflected. The huge Palace of Horticulture, Festival Hall, the Service building and other minor structures are set in the south garden. The Palace of Horticulture will be one of the most wonderful buildings ever erected. It will cover five acres and be constructed almost entirely of glass. Its huge glass dome will rise 165 feet. The department of horticulture at the Exposition has offered a prize of \$1,000 to the originator of the finest variety of rose. The merits of this rose

night it will reflect the colors of the rainbow from hundreds of great batteries of searchlights. On the east side of the court will be the great triumphal Arch of the Rising Sun, and upon the west side will be seen the Arch of the Setting Sun. The arches will suggest the note of the Exposition—the meeting of the east and west at Panama. Their sculptural decorations will carry out this theme. Surmounting the Arch of the Rising Sun will be a colossal group of statuary, a great elephant as the central motif, with camel riders, Tibetan priests, Arab warriors, negro slaves, etc., the whole suggesting the spirit of the orient. The group will be forty-two feet in height. The howdah upon the elephant will be 188 feet above the floors of the Court of the Sun and Stars. The triumphal Arch

The structure will be built almost entirely of glass and will cover five acres.

those of the United States. Prizes will be offered for devices or improvements which tend to make the aeroplane safer and to bring it more and more into practical everyday use.

The Panama-Pacific International Exposition will be the first great American exposition of which it will be possible to get a view from an aeroplane. The more venturesome visitors flying over the Exposition in dirigible balloons or in aeroplanes will see stretch out below them the great exhibit palaces, brilliant with the color scheme

will be judged by an international jury. A scientist has written that he feels he is well on the way to produce a black rose.

The finest architectural and sculptural effects will be seen in the great courts, which will divide the Exposition city north and south. In the center of the group will be the Grand Court of Honor, the splendid Court of the Sun and Stars. Here the visitor will behold one of the most magnificent court effects ever presented at an exposition. In dimensions the court will be 750 feet east and west and 900 feet north and south, exclusive of a fore court of opening on San Francisco harbor. The entrance to the court from the main gates will be through the arcade of the Tower of Jewels, a magnificent structure 420 feet in height. By day the tower will stand out as the great dominating architectural feature of the Exposition. By

of the Setting Sun will be crowned with a group expressing western civilization, its main theme a prairie schooner, with Indians and Spanish, French, German and English explorers supporting the central figure.

Passing beneath either of the two great arches one will come respectively into the great west court, the Court of the Four Seasons, designed by Henry Bacon, designer of the wonderful Lincoln memorial to be built at Washington in honor of Abraham Lincoln, or to the great east court, the Court of Festivals, designed by Louis C. Moilgardt, architect of the Fisheries building at Chicago. In these courts will be seen monumental expressions of architecture and sculpture. The sculpture upon an exalted scale will tell the story of the Panama canal and of the high ideals with which America has pursued this greatest of the works of history.

designed by Jules Guerin, the famous artist, who thus describes the effect of the work he is directing: "Imagine a gigantic Persian rug spread down upon the shores of San Francisco bay, with brilliant colors here and there, but melting in soft, glorious tones, and you will have an idea of what the Panama-Pacific International Exposition will look like if viewed from a distance, as from the Sausalito heights across the Golden Gate."

The Exposition buildings will be divided into three huge groups, and when completed the Exposition city will present a marvelous picture. Eight of the palaces in the central group will form parts of a great rectangle. Four of the buildings will face the bay and four face south upon a wonderful south garden. The four buildings facing upon the bay are the Palaces of Mines, Transportation, Agriculture and Food Products. The four facing south are the Palaces of Varied Industries, Manufactures, Liberal Arts
