OLDER BUT STRONGER

To be healthy at seventy, prepare at forty, is sound advice, because in the strength of middle life we too often forget that neglected colds, or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years.

To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-nourishing properties of Scott's Emulsion which is a food, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. No alcohol in Scott's.

WAS GREAT SEAL OFFICIAL

"Chaffwax" Was Proud of His Con-nection With England's Official Stamp

The great seal, which Lord Haldane handed to the king on resigning office, is a more elaborate article than most people imagine. It cost about £700 to make, and consists of two heavy silver plates, in one of which is cut the impression for the front of the device; in the other that for the back. When the seal is to be affixed, a lump of wax is softened in not water, then cooled in cold, after which it is placed between the two plates and pressed, emerging in the shape of a disk, with an impression on each side. This is put in a plated case and attached to the document by means of a tag embedded in wax. At one time the great seal had an official attached to it who was quite as proud of his offce as the lord chancellor was of his. This was "Chaffwax," whose sole business it was to melt the wax and take impressions of the great seal when required. And the writer remembers the last of the 'Chaffwaxes," a rosy-cheeked old gendeman, who lived long enough to enjoy the pension which a grateful country granted him for his important du-These are now performed by an unnamed official in the chancellor's ffice.-London Chronicle.
