## Recommends Prickly Pears for Dairy Cows.

Washington, D. C.—The prickly pear, specialists of the United States Department of Agriculture say, has now been demonstrated to be a good and palatable food for dairy cows. Prickly pears have been fed to cattle to some extent in Texas and Mexico for many years, but their value as a feed has not been fully appreciated. Recent experiments by the Department of Agriculture have shown, however, that this feed can be used much more extensively and can form a much larger proportion of the ration than was believed possible heretofore.

The results of these experiments, says an article in the August issue of the Journal of Agricultural Research, indicate that there is no reason why prickly pears should not come into general use for feed in all sections where they can be readily grown. Under proper climatic and soil conditions the prickly pear is a perfectly practicable farm crop. At Brownsville, Texas, the average annual yield for the first two years' growth from cuttings was about 40 tons, and at San Antonio about 25 tons an acre. After the first two years a yield of 50 to 100 per cent more can be expected. Irrigation is unnecessary and the cost of growing the crop is therefore small in comparison with the tonnage produced.

The prickly pear, it is found, contains approximately 10 per cent of dry matter, the remainder being water. It is assumed that the nutritive values of different kinds of feed vary in direct proportion to their content of dry matter. One pound of sorghum hay equals 15.9 pounds of prickly pears when the latter is fed in large quantities, and 10.1 pounds when fed moderately. One pound of sorghum silage was found equal to 2.6 pounds of prickly pear and one pound of cotton seed hulls equal 5.8.

From 60 to 100 pounds of prickly pear, 3.6 of sorghum and one of cotton seed meal a day made a ration for a Jersey mature cow when dry. If no sorghum hay is available the amount of prickly pear should be increased to 110 pounds and the cotton seed meal to two pounds. Experiments show, however, that it is best to feed not more than from 60 to 75 pounds of prickly pears a day. When 120 to 150 pounds were fed, excessive scouring followed, and in addition the laxative effect of the feed made it extremely difficult to keep the stable in a sanitary condition.

In general, it may be said that cows like prickly pear and eat it with relish. The feed, according to the experiments, causes an increase in the quantity of milk produced, but a slight decrease in the total production of butter fat. This decrease becomes more pronounced as the quantity of prickly pear in the ration is increased. Butter produced on a prickly pear ration is highly colored, but neither its flavor nor the keeping quality of the milk is noticeably influenced. From one experiment it is noticed, however, that cows fed upon prickly pears appear to be more sensitive to "northers" than those which receive a dry roughage.

The greater the quantity of the plant consumed the more the milk production fell off during these storms. On the other hand the feeding of prickly pear appeared to have no influence on the offspring of the cows nor on the condition of the mothers after birth.

The cost of feeding prickly pear will depend naturally on local conditions. There is no great difference between the spiny and the spineless varieties in their values as feed, but the cost of harvesting the latter is less. On the other hand the spiny varieties yielded a larger tonnage to the acre in Brownsville and are not so susceptible to insect depredation. They are also more hardy and can be grown on a much larger area. The cost of singeing the spines off was approximately 50 cents a ton. The most common method of removing them is by singeing with a strong gasoline torch, a machine specially constructed for this purpose being on the market.

## NOTICE.

Every person occupying resident or business property within the city limits of Brady is hereby requested to commence a clean-up campaign NOW, so that the city may be in perfect sanitary condition by March 10. On that date an inspecting committee will make an inspection of the entire resident and business section. Do not wait until that time and be forced to clean up. Especially will the condition of all stables be seen after.

Pile all cans and rubbish so the trash hauler can get to it easily and it will be hauled off without charge. If you fail to have your trash ready when called for, then you will have to pay for the hauling.

## PRAIRIE DOGS.

## Must Be Killed by Land Owners. New Law

The killing of prairie dogs on Texas properties is not optional with the owners of said properties, but is made compulsory by a state law which provides the manner of killing and compels the sheriff or some other officer of the law to kill the dogs at the owners expense, if such owners fail or neglect to rid their lands of the pests.

It devolves upon the county commissioners to see that this work is done and this body urges all land owners to co-operate with the general movements and to work individually for the killing of these animals.

## Good Shower.

A good shower fell in the Brady vicinity the early part of last night. While the rainfall was light, only .15 of an inch being recorded, it was nevertheless refreshing, and encouraged hopes for more to follow. The rain was preceded by bright flashes of lightning, but came evidently from only a small cloud as it was of very short duration, and but light rain is reported from neighboring points.

## Special Campaign Rates.

Until March 1, 1916, we are authorized to announce special political campaign rates on the Fort Worth Record as follows: Daily and Sunday, 6 mos. \$2.10; Daily without Sun., 6 mos. 1.60.

## IMPROVING BLACKBURN.

## City Filling In and Placing Concrete on Thoroughfare.

The city is doing commendable work on Blackburn street, and proposes to place this important thoroughfare in first-class condition. The washouts in the street for a distance of two blocks, from the Methodist church to the Southern hotel, have been filled in, and the two blocks are now being surfaced with crushed rock, the improvements connecting with the improved block at the top of the hill, which was placed in first-class shape some months ago.

While the improvement is far from being perfect, inasmuch as the gutters remain inadequate to carry off the storm waters, nevertheless it is the best that can be accomplished under present circumstances and will, at least, make improved traveling of the street. The lack of broad concrete gutters will necessitate constant repairing and improvement in order to maintain the street in passable condition.

The thorough work that is being done reflects added credit to the street committee of the Brady city council, who have succeeded in placing practically every street in Brady in good condition in spite of the extremely limited funds available for improvement purposes.

With the improvement of Blackburn, there remains only North Bridge street and the square to be improved, and the council stands ready to improve Bridge street as soon as time and finances will permit, and also is ready to improve the square whenever the county commissioners co-operate to the extent of simultaneously improving the county property on the square.

BRADY, TEXAS, Feb. 22, 1916

**CLEAN UP.**

Said a lady from the East: "You have a very pretty city here, and I am delighted with my visit, and with the folks I have met here—but there is one thing that possibly you Brady citizens do not notice, and yet which makes a disagreeable impression at first sight upon the visitor here, and that is the neglected corners and unsightly lots."

There is no gainsaying the lady's criticism. Brady and Brady citizens do not exhibit the civic pride they should. Trash piles and ash heaps; last year's weeds and brush; filth and rubbish, all are allowed to accumulate undisturbed. If Brady should awake tomorrow to find herself being inspected in a "Cleanest Town in Texas" contest—would we not bow our heads in shame?

Spring is here—and the dangers from unsanitary conditions are increased manifold. We owe it to the children of the town, to ourselves, to our civic pride, if to nothing else, to Clean Up.

**DON'T LOOK GOOD.**

Texas built four and four-tenths miles of railroad in 1915. Ten Texas roads are now in the hands of receivers.

This looks mighty bad doesn't it, and there is a reason.

1915 has been generally regarded as a prosperous year. The United States sold a billion dollars' worth more of goods to Europe in 1915 than in 1914, and our state came in for a part of the profits.

What is the trouble? Texas is a big state and large portions of it have not been developed. Railroads are developers; we need more of them.

Do you suppose that the European war which has really given a vast amount of hauling to the railroads, is responsible for this? Would you think that it is on account of the trouble in Mexico?

Or would you guess that politicians had fought these great public necessities to a standstill?

Which do you think is the most valuable to our state—a railroad that builds up its material wealth, helps develop dormant resources and makes opportunities for many people, or a politician who rides into of-

rice by abusing and fighting railroads?

If you can't answer this question now, you must learn to answer it before you will again see any real prosperity in Texas.—Temple Mirror.

Peach trees are in bloom in Brady. Come to McCulloch.

Every citizen should do his duty, individually and collectively, to make Brady a "spotless town."

The Rochelle Record will, in future, be edited and published by Laurence Haddow, who took personal charge last week. Mr. Haddow is well known to the fraternity, having had charge of the Record for a number of years, and a good, live, newsy sheet is assured under his management. George S. Peden will continue with the paper as assistant.

Coleman City has entered the ranks of the progressives by acquiring an American-LaFrance auto fire engine, similar in construction and equipment to that of the Brady fire truck, the main difference being that it has four cylinders, as compared with Brady's six-cylindered truck. In purchasing the auto fire truck a year ago, Brady set an example for her neighbor cities that is spurring them to greatest endeavors to get into her class. There is nothing slow about Brady.

**U. S. GOVERNMENT.**

**To Aid in Prairie Dog and Rat Extermination.**

D. A. Gilchrist and D. D. Stonier of the U. S. department of agriculture, bureau of biological survey, will be in Brady on March 6, 1916, at the district court room at 1:30 p. m. to prepare, free of charge, all the poison that is needed. All persons desiring prairie dog poison at this time, have the following ingredients on hand at the appointed place. For each bushel of grain you wish prepared, bring 2 1/2 ounces strychnine, 1.5 ounce saccharine, and a small amount of gloss starch, soda and syrup. The best grain is milo maize or feterita, re-cleaned, with all the cracked grains and dirt removed if possible. Every bushel of poison will treat 1300 holes. Printed formulas giving full directions for mixing, will be given out at the meeting. Purchase your material at once and take advantage of the government's aid. This is a splendid opportunity to exterminate the prairie dogs of this vicinity.

The extermination of rats will also be demonstrated by the means of poisons and traps. A small amount of both rat and prairie dog poison will be given away at the meeting, to be used as a demonstration in this county. The best rat baits are fish or oatmeal used with barium carbonate. The local drug stores have a supply of poison on hand for this purpose and the results of this meeting should end in a general clean up of the county.

**The Magic Washing Stick.**

"The Magic Washing Stick is the thing—it sure will do the work. It makes the clothes so white and clean," says Mrs. M. L. Beaver, Canton, Texas. We want you to try this article at our risk. "W. A. Vaughn, Wynnewood, Okla., has ten acres of land on the Washita, which overflowed several times last summer and water stood on it till late in July. At that time it was useless to plant anything except kafir, broom corn or turnips, so he planted broom corn and is well satisfied with the results. He planted it the last of July and the first of August. From the ten acres of land he harvested nearly three tons of broom corn, for which he received a check for \$333.17. He believes the farmers of this locality could make more money by growing some broom corn."—Broom Corn News.

**FREE MILEAGE.**

**Merchants Offer Free Transportation to Customers.**

Attention is called to the advertisement of the National Free Mileage Co. in this issue, and to the fact that free mileage coupons are being issued by two of Brady's leading firms—Broad Mercantile Co. and Central Drug store.

The plan is unique—a half mile of transportation on either railroad or steamship is given with every dollar purchase, such transportation being redeemable in first-class fare from any town or city to any point, and being also available for fares on street cars and jitneys. Reduced excursion rates and interurban fares may also be availed of. Then, to make matters still more complete, the unused coupons are redeemable in cash at the rate of three cents per mile.

Of course, everyone likes to travel, especially under such circumstances as being enabled to travel without cost. The plan also recommends itself to the merchants in that interest in it never dies, and the plan is as good one month as another, and one year as another.

The National Free Mileage Co. is thoroughly responsible, it having operated successfully in Mississippi, Arkansas, Tennessee and Alabama for several years. The headquarters of the company are in Memphis, and the Texas branch of the firm was established August 16th. The plan is already in extensive operation in Dallas and is being favorably received wherever introduced.

Any additional information regarding the company and the plan of operation will be gladly furnished by either of the two local firms interested.

**MOTHER! GIVE CHILD "SYRUP OF FIGS" IF TONGUE IS COATED**

**If Cross, Feverish, Sick, Bilious, Clean Little Liver and Bowels.**

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, mother! See if tongue is coated, then give teaspoonful of "California Syrup of Figs," and in a few hours the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a fifty-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

**BIG ROUND-UP TO BE NIGHT EVENT FOR STOCK SHOW**

**WILD WEST ENTERTAINMENT WILL SUPPLANT MANY FEATURES OF HORSE SHOW.**

**NUMEROUS FEATURES**

**Miller Bros. Will Direct Entertainment, Which Will Be of Varied Nature That Will Suit All Classes.**

Furnishing all of the thrills of a Wild West Show, tempered by an exhibition of fine horses, in keen competition, that will attract the usual society crowds, the Big Round-Up, the night entertainment of the National Feeders and Breeders show at Fort Worth, March 13-18, promises to be the most interesting event of the kind ever held in that city.

Miller Bros., owners of the 101 Ranch show, will direct the Big Round-Up, and they have promised dozens of unique and diverting features. Broncho busting and goat roping, two kinds of entertainment that always please and thrill, will be down on the program and experts from all of the big ranches from Canada to Southwest Texas will compete for the ample prizes that are offered.

The world's champion high-jumping horse, ridden by a woman sixty-five years of age, will be one of the special features. There will also be a troupe of trained ostriches, a sextet of educated mules and Miller Bros. famous high school horses. A herd of Buffalo also will be brought down for the night entertainment.

Miller Bros. now are actively engaged in lining up talent for the event that will supplant the regular Horse Show at Fort Worth. In changing the form of the entertainment, the management of the stock show felt that it should offer a show for everybody and expects that the Big Round-Up will draw a larger attendance throughout stock show week than has ever been enjoyed before.

But the Big Round-Up will be only one of the major features of a livestock exhibition that has never been equalled in this section of the country. A prize list of \$18,000 has been offered for the great day show, which draws exhibits of the finest livestock in the Southwest. With the best breeders acting in perfect harmony with the management of the show, there is every prospect that the great exhibit halls in the rear of the Coliseum will hold a greater number and finer array of blooded livestock than ever before in history.

However, the show this spring will be more of an exposition than in the past. In other words, while a display of fine livestock will remain the central feature, there will be many other things to entertain. The management of the show has closed a contract for a big carnival company, which will place a large number of attractions on the Coliseum grounds. It also is negotiating for a splendid array of special free features to be held in the Coliseum arena to divert between the judging of the different classes of stock.

The fourth annual exhibition of the Fort Worth Poultry and Pigeon association will be held in the big poultry hall adjoining the Coliseum building. At least 5,000 of the finest birds in the Southwest are expected to be on hand to compete for the most generous offering of premiums yet made. The Fort Worth exhibition is always the largest in this section of the city and it will be larger than ever this spring.

L. B. Young returned Sunday morning from Austin, where he and his sister, Mrs. J. W. Townsend, had been called by the serious illness of their brother, R. S. Young. Their many friends will sympathize with them in the death of the latter last Friday morning at 8:45. R. S. Young had been employed in the tax collector's office of Travis county for a long number of years, and was widely known, and was highly esteemed. The funeral was attended by an immense throng of friends who came to pay tribute to his memory. Mrs. Townsend will remain in Austin several days, returning to Brady the latter part of the week.

**PERSONAL MENTION.**

A. J. Johnson paid us a visit Saturday and, as usual, was in the best of spirits. He reported conditions very good throughout his community.

The many friends of R. Hutchenreuter are pleased to see him about once more, and able to attend to his studio, after a severe spell of lagrippe and pleurisy.

J. T. Holmes visited us Saturday for the purpose of renewing his allegiance to The Standard and The Dallas News, and says he thinks it hard to beat that combination.

A. F. McCoy is here from Nine and stated that reports from the Nine community tell of a good rain there. Consequently Mr. McCoy is in good spirits, as the rain will be very beneficial to oats.

Our friend, J. M. Smith, dropped in this morning to take advantage of our special campaign offer on the Fort Worth Record. He reported the rain out his way as being even lighter than here at Brady.

J. N. Baxter, a former well known McCulloch county citizen, now living near Dublin, is reported slowly recovering from a severe attack of pneumonia. His many friends here will be pleased to learn of his improvement.

O. P. Deering, one of The Standard's good friends, was in the city yesterday from the Lohn community. He reports farm work progressing very satisfactorily, but says that a good rain would be very acceptable at this time.

B. Simpson returned Sunday morning from Dallas where he went on business Friday night, and reports having been successful in securing another carload of the popular Studebaker cars. The new arrivals are expected tomorrow.

The Standard was in error in reporting Mac Allman as having charge of the E. J. Broad service cars. Mr. Allman will continue to operate his jitney service independently, and Will Warman will have charge of the Broad service. The confusion resulted from the similarity in the names Warman and Allman.

J. W. Griffin, county demon-  
strator, was here again this  
week assisting in vaccinating  
hogs in the Taylorville neigh-  
borhood. He informs us that  
genuine hog cholera is getting  
considerably scattered, and if it  
is not stamped out practically  
all the hogs in the country will  
die. The losses have already  
been considerable, Sidney Cate  
suffering most, he having lost  
more than 80 head. Most all  
the people in that section are  
co-operating with Mr. Griffin to  
endeavor to stop the dreaded  
disease.—Cherokee Herald.

**MENARD MESSAGES**

From The Messenger.

"The Roddie Commission Co.  
lost \$135 worth of their best  
hides Sunday night when thieves  
broke in and carried off the pick  
of their skunk and 'possum  
hides. The back door was forced  
and the thieves took their time  
picking over the furs care-  
fully and taking only the best.  
They evidently were experienc-  
ed trappers or fur men, for they  
knew good hides and took only  
the best ones. Mr. Spiller, local  
manager, places their loss at  
\$135.

R. E. Lindsey closed a deal  
last week with R. L. Byrd and  
Duff Hale, whereby these gen-  
tlemen become the owners of  
the livery stable business. Mr.  
Lindsey will give his attention  
to the Racket Store from now  
on.

Gay Seiker has given up his  
position at the Bank of Menard  
to look after a bunch of goats  
which he has bought. Gay will  
pasture them on the Spitzer  
ranch and he and his wife will  
move out into the wilds at once.  
Gay has named all his goats after  
his friends and says that he  
expects to teach them to talk.  
While his entire experience with  
goats is limited to a knowledge  
of milking a cow we look for  
him to do well. Willie Cannon,  
who has completed a course in  
a Fort Worth business college,  
will take Gay's position at the  
bank.

Mrs. Zidell and daughters,  
Isabel and Sarah, left Saturday  
for Brady, where they will spend  
a few days visiting at the Gold-  
wasser home.

Florent Kiehne made a trip  
to Pear Valley Sunday after  
Mrs. Kiehne and Mrs. Petreda  
Meyers, who are now guests of  
the W. C. Kiehne home.

**MELVIN MENTIONS**

**MASON MAVERICKS**

From The News.

It was learned Sunday that  
there has been someone making  
the Presbyterian church a room-  
ing house, as there were signs  
evidencing someone having been  
cooking on the stove and sleep-  
ing upon the floor in the church.  
The carpet was found torn in  
several places and it was found  
to be in a tornup condition. An  
investigation is being made, but  
it is likely the guilty party will  
not be found, although it will  
be well for whoever is doing  
such tricks to change their pace  
of lodging.

V. M. Loring and son, Rauck,  
left Tuesday for Memphis,  
where the latter will attend  
school. They will likely be ab-  
sent until June.

Ed Lindeman was a business  
visitor in Mason Tuesday from  
Brady.

Henry Hoerster, a cattle and  
hog shipper from the Brady  
section of the country, market-  
ed his fortieth load of swine out  
of Mason county for this season  
Friday. The load consisted of  
sixty-eight hogs that averaged  
287 pounds and sold at the high-  
est price paid on the market for  
hogs this year—\$8.15. The  
George R. Barse Commission  
Co. handled the shipment.

**NO INDIGESTION, GAS,  
OR STOMACH MISERY  
IN FIVE MINUTES**

"Pape's Diapepsin" For Sour,  
Acid Stomach, Heartburn,  
Dyspepsia.

Time it! In five minutes all  
stomach distress will go. No in-  
digestion, heartburn, sourness  
or belching of gas, acid or eruc-  
tations of undigested food, no  
dizziness, bloating, foul breath  
or headache.

Pape's Diapepsin is noted for  
its speed in regulating upset  
stomachs. It is the surest,  
quickest and most certain indi-  
gestion remedy in the whole  
world, and besides it is harm-  
less.

Millions of men and women  
now eat their favorite foods  
without fear—they know Pape's  
Diapepsin will save them from  
any stomach misery.

Please, for your sake, get a  
large fifty-cent case of Pape's  
Diapepsin from any drug store  
and put your stomach right.  
Don't keep on being miserable  
—life is too short—you are not  
here long, so make your stay  
agreeable. Eat what you like  
and digest it, without dread of  
rebellion in the stomach.

Pape's Diapepsin belongs in  
your home anyway. Should one  
of the family eat something  
which don't agree with them, or  
in case of an attack of indiges-  
tion, dyspepsia, gastritis or  
stomach derangement at day-  
time or during the night, it is  
handy to give the quickest, sur-  
est relief known.

**SAN SABA SAYINGS**

From The Star.

K. S. Hull, division super-  
intendent, Wm. Knoud, trainmas-  
ter; J. G. Fitzhugh, freight  
clerk, and J. H. Burger, road-  
master, officials of the Santa Fe,  
with headquarters at Temple,  
spent a few hours here Friday  
of last week, going on to Brady.  
They gave out the information  
that Darnoc, a flag station a few  
miles east of here, is to have a  
section house and that work  
would begin in the near future.  
James H. Baker and B. T.  
Rich motored to Eden yester-  
day on a business visit. Mrs.  
Baker and children accompanied  
them as far as Brady and spent  
the day with friends.

Lum Russell and Ulric Caron  
of Brady were guests in the  
home of the former's parents,  
Mr. and Mrs. C. C. Russell.

Mesdames Agnes Hollie and  
Jack Winfrey of Brady were  
the guests of Mrs. H. D. Calla-  
han Sunday between trains  
while enroute to Temple for a  
visit.

**OUCH! LUMBAGO PAIN!  
RUB BACKACHE AWAY**

Instant Relief With a Small  
Trial Bottle of Old  
"St. Jacob's Oil"

Kidneys cause backache? No!  
They have no nerves, therefore,  
cannot cause pain. Listen:  
Your backache is caused by lum-  
bago, sciatica or a strain, and  
the quickest relief is soothing,  
penetrating "St. Jacob's Oil."  
Rub it right on your painful  
back, and instantly the sore-  
ness, stiffness and lameness dis-  
appears. Don't stay crippled!  
Get a small trial bottle of "St.  
Jacob's Oil" from your drug-  
gist and limber up. A moment  
after it is applied you'll wonder  
what became of the backache or  
lumbago pain.

Rub "Old Honest St. Jacob's  
Oil" whenever you have sciati-

**CITATION BY PUBLICATION.**

The State of Texas, County of Mc-  
Culloch—To the Sheriff or any Con-  
stable of McCulloch County, Greet-  
ing: You are hereby commanded to  
summon L. S. Shannon by making  
publication of this citation once in  
each week for four successive weeks  
previous to the return day hereof, in  
some newspaper published in your  
county, to appear at the next regular  
term of the Justice Court of Precinct  
No. 1 of McCulloch County, to be  
held at the court house thereof, in  
Brady, on the 6th day of March, A.  
D. 1916, then and there to answer  
this suit filed in said court on the  
4th day of December, A. D. 1914, in  
a suit numbered on the docket of  
said court No. 1822, wherein James  
T. Mann and Duke Mann (who com-  
pose the firm of O. D. Mann & Sons)  
are plaintiffs, and L. S. Shannon and  
John Payne are defendants, the na-  
ture of the plaintiff's demands being  
in substance as follows: Suit upon  
a promissory note given by the de-  
fendant, L. S. Shannon, to O. D.  
Mann & Sons, dated April 4th, 1911,  
and due October 1st, 1911, for the  
sum of two hundred and fifty dollars,  
bearing interest at the rate of ten  
per cent per annum from date until  
paid, and providing for an attorney's  
fee of ten per cent on both principal  
and interest then due, in the event of  
default in payment of said note at  
maturity, and if placed in the hands  
of an attorney for collection, or if  
suit is brought thereon. Said note is  
long past due and there is still due  
and unpaid on said note a balance of  
ninety and 45/100 (\$90.45) dollars,  
and plaintiffs have placed said note  
in the hands of their attorney for  
collection, and this suit has been filed  
by said attorney for the purpose of  
collecting said note. And on the same  
day and date of giving said note the  
defendant, L. S. Shannon, in order to  
secure said O. D. Mann & Sons in  
the payment of said note, gave them  
his chattel mortgage lien upon the  
following described personal prop-  
erty, to-wit: A well machine, manu-  
factured by the Rockford Iron Works  
and known as a combined single arm  
walking beam machine, with a 4 h-p  
gasoline engine, auger stem, solid  
rope socket 6-inch club bit and drill  
rope, all purchased from O. D. Mann  
& Sons on the 4th day of April, 1911.  
A copy of said mortgage is filed  
herewith and made part hereof, and  
referred to for all purposes of this  
case.

The defendant, John Payne, is in  
possession of the said above describ-  
ed property, but by what right or  
claim plaintiffs are not informed, but  
whatever claim or right he may set  
up as inferior to and subordinate to  
plaintiff's lien.

Wherefore, plaintiffs sue the de-  
fendant, L. S. Shannon, for the bal-  
ance due on said note, \$90.45, prin-  
cipal and interest and attorney's fee,  
and for interest thereon from Jan-  
uary 4th, 1915, until paid, at the rate  
of 10 per cent per annum, and for all  
costs of this suit. And plaintiffs sue  
both defendants, L. S. Shannon and  
John Payne for foreclosure of plain-  
tiff's mortgage lien, as the same ex-  
isted on the 4th day of April, 1911,  
upon all the property described, and  
for an order of sale directing the of-  
ficer executing said order of sale and  
sell said property as directed by law  
and place the purchaser thereof in  
possession of the same. The above  
described property being of the value  
of one hundred and seventy-five dol-  
lars.

Herein fail not, but have before  
said court, at its aforesaid next regu-  
lar term on the 6th day of March,  
1916, this writ with your return  
thereon, showing how you have ex-  
ecuted the same.

Given under my hand at office in  
Brady, Texas, this 8th day of  
December, A. D. 1915.

T. J. KING,  
Justice of the Peace Precinct No. 1,  
McCulloch County, Texas.

One of the plaintiffs in the above  
entitled cause, being duly sworn,  
says that the defendant, L. S. Shan-  
non's residence is unknown to this  
affiant, wherefore he prays that a ci-  
tation be issued for service by pub-  
lication.

DUKE MANN,  
Sworn to and subscribed before me  
this 8th day of December, 1915.  
R. V. STARNES,  
Notary Public McCulloch County,  
Texas.
