## GOVERNMENT ASSISTS

### RAT AND PRAIRIE DOG EXTERMINATION.

Experts Monday Distributed Poison for Killing 2,000 Rats and 3,000 Prairie Dogs.

The U. S. government's campaign in exterminating prairie dogs and rats in thirty-five West Texas counties is progressing very rapidly. Everywhere the experts have been they have received a cordial welcome and hearty co-operation.

Messrs. D. A. Gilchrist and D. D. Stonier, representing the government, were here yesterday and met with an enthusiastic reception. The morning was spent in preparing the poison according to the government formula. Enough poison for the killing of 2,000 rats and 3,000 prairie dogs was mixed, and put into small packages, which were later distributed among those interested.

The meeting at the district court room at 1:30 in the afternoon brought out a full attendance, practically every portion of the county being represented. The experts not only gave practical illustration and instructions upon the mixing and using of the poisons, but likewise told what had been accomplished in their work so far, and also told of various extermination campaigns that might profitably be undertaken.

The object of the government is not to exterminate the pests directly, but to demonstrate the best methods and to co-operate with the people in a general campaign of this nature. The poisons have proved very effective, and have given entire satisfaction wherever the instructions for mixing and using are carefully followed.

On account of running short of the printed formulas, the experts were unable to supply all who attended the meeting with the same, but to enable these people, as well as the general citizenship to avail themselves of the government's aid, the formulas have been furnished The Standard for publication, and full instructions for preparing follow herewith:

#### Rat Poison.

Place two pounds of oatmeal or fish in a kettle and sprinkle with 1-2 pint of water.

Then stir in 1-4 pound of Barium Carbonate and mix well with a spoon. It is best to let the poison dry for a short time before using.

To keep the baits away from rats it is best to place the poison in boxes with only a slight opening at the bottom where rats and mice can get in. Greater results will be obtained if the boxes are baited with clean baits for three or four days and then use the same baits poisoned.

The cost of using poison does not amount to but little when compared with the damage rats do in only a short time. It is figured that there are over 20,000,000 rats in Texas and that it costs more to feed them than it does to run the state government.

#### Prairie Dog Poison.

Dissolve one ounce of strychnine in 11-2 pints of boiling water. Add one tablespoonful of gloss starch dissolved in cold water. One ounce baking soda. One and one-half ounces saccharine. One-fourth pint molasses. Mix well. Then pour over and mix well with 13 qts. milo maize or feterita. Dry well before using. If water is hard, add 1-4 pint of vinegar for each ounce of strychnine. For more or less than 13 quarts, use other ingredients in proportion. In bushel quantities, use as above directed 21-2 ounces of strychnine, 1-5 ounce saccharine, 21-2 ounces soda, 11-4 ounces starch, 11-2 pints boiling water and 5-8 pint of molasses.

Scatter poison when food is scarce on a hard clean place near hole, one quart to 40 holes.

Messrs. Gilchrist and Stonier will complete their scheduled visits to the towns in this locality, and will go the first of the month to Arizona, where an epidemic of rabies has broken out among the cattle and horses. Owing to the fact that their presence is needed in Arizona because of this epidemic, they will not be able to campaign this section as thoroughly as was at first intended. However, they state they expect to return here in the fall, at which time a systematic campaign will be undertaken throughout the county. They will visit a number of the school houses and give talks and illustrations of the damage resulting from such pests as rats, prairie dogs and the like, and assist in instructing the citizens upon organized methods of warfare against these pests.

## CLEAN UP WEEK.

With the mercury climbing to the 90 degree point, we are forcibly reminded that springtime is upon us—and as the sun's rays warm the atmosphere, and the earth as well, the piles of refuse that, even though unsightly, were harmless during the cold days and nights of winter, now become hotbeds of disease and infection, not to mention the breeding spots of flies, mosquitoes and other vermin and insects.

For the sake of the children, as well as for your own welfare, it should be the duty of every citizen to clean up and have ready for disposal all garbage, trash and refuse about the premises.

For the sake of comfort during the coming summer months such action should be taken at once.

For the sake of the town's appearance, if for no other reason, this important matter should not be overlooked.

Don't fail to clean your premises because your neighbor has not cleaned his—maybe he is waiting for you to make the start.

Don't fail to clean your premises under any circumstances. And when the inspector calls on you, you can take pride in showing him your tidy premises.

The city starts the work of collecting the refuse March 10th. Be ready!

Preparedness is a good thing to act upon in more things than war.

## DRESS UP.

If you haven't thought about it, begin now!

March 27th to April 5th—  
Dress Up weeks!

And don't you forget it!  
Preparedness!  
That's it!

Clean up time is here.

A peculiar feature of the prohibition elections held the past five years in Runnels county is the proportionately small variation of the anti vote, the smallest vote being 1100 in 1913, and the greatest being 1181 in last Saturday's election. On the other hand, the smallest pro vote was 1195 in 1913, and the largest 1643 in Saturday's election. From the election figures, it appears that as the county prospered and the population grew, sentiment in favor of prohibition increased, and vice versa.

## RIDDANCE OF PESTS.

As towns and communities begin to realize the vast loss resulting from various pests, concerted action is being taken to rid such town or community of the pests. In recent months the killing of rats is being taken up seriously in a number of communities, due, no doubt, to the interest aroused by the government experts who have been sent to this locality. Rat killings are popular diversions.

One of the remarkable achievements along this line is recorded by Mr. Gilchrist as having taken place in Ataseosa county. Acting in conjunction with the State Board of Health the citizens of that county offered prizes to the school children bringing in the greatest number of rat tails. As a result 150,000 of these pests were slaughtered.

A rat is said to destroy 1c worth of property or food each day. Figure the saving to Ataseosa county in a year's time as a result of this campaign—and then remember that the figures would be doubled several times by the natural increase of those same 150,000 rats.

## SWAT THE FLY.

The Daily Bulletin of Brownwood is early on the ground with a campaign of "Swatting the Flies." The Bulletin offers a cash prize of \$2.50 to the child who kills the greatest number of flies between now and March 31st, the flies to be delivered to the Bulletin office, and a member of the city council acting as judge. The Bulletin starts the campaign early upon the very correct theory that an early season campaign will make the control of the nuisance easier.

The Brady Standard heartily endorses the "swat the fly" campaign, and if any member of the Brady city council will volunteer, offer or consent to count the flies, we stand ready to offer as inducement a \$2.50 prize to the boy or girl killing the most flies by March 31st.

## LOCAL BRIEFS.

Dr. Land of Lohn last week acquired the 45 h. p. Buick roadster—the last car of the recent shipment to Brady Auto Co.

Mr. and Mrs. S. W. Simpson of Rochelle are being doubly congratulated, the occasion being the arrival at their home last Friday night of twins—a boy and a girl.

Our friend, Mart L. Williams, the well known turnip king of Voca, was here Tuesday and reported that he raised other big things besides turnips. Mr. Williams had just shipped to Fort Worth market with Kothmann's shipment of hogs a 22-month old Duroc-Jersey and Poland China mixed hog which tipped the scales at 620 pounds. It may be that Mr. Williams feeds monster turnips to make such monster hogs, but whatever his secret is, he refused to divulge it.

W. G. Hampton, who underwent an operation for appendicitis some two weeks ago, yesterday underwent a second operation. Mr. Hampton's case was declared as most serious following the first operation, and the doctors were agreeably surprised at his improvement. Following the second operation, it was hardly thought possible that he would live through the night, but this morning he is reported as resting well and showing every indication and intention of regaining his health and strength. His many friends are pleased to hear of his improvement, and trust he may soon be able to be about again.

Sunday brought the climax to a week's variable weather. Preceded by a temperature of 26 degrees above zero just a few days before, Sunday dawned bright and shiny, and as the sun rose higher the thermometer rose with it, until shortly after dinner a record of 90 degrees in the shade was recorded. Yesterday was another bright, sunny day, the strong west wind blowing clouds of dust during the greater part of the day. Towards evening the clouds began to gather and the sky became quite generally overcast, increasing hopes for a greatly desired rain. A dry norther last night, however, dispersed the clouds and dispelled the hopes of moisture.

law, Carl Stevens, of Dublin.

Forest Adams was here yester-  
day greeting his many  
friends, and expressing his  
pleasure at again being in Brad-  
dy. This was his first visit in  
two years, and his long absence  
made his visit all the more en-  
joyable.

Jeff Hampton is here from  
Dublin attending his son, W. G.  
Hampton, who is very seriously  
ill following an operation for  
appendicitis. The senior Ham-  
pton is city marshal of Dublin  
and one of that city's best known  
and most prominent citizens.

C. R. Alexander and daughter,  
Miss Fay, went to Brownwood  
Saturday night to spend Sunday  
with Mrs. Alexander, who is un-  
dergoing treatment for an affec-  
tion of the ear. Mrs. Alexan-  
der's condition has been quite  
alarming, but her many friends  
will be pleased to know that her  
affection is showing signs of  
improvement.

Messrs. R. K. Finlay, Sr., Sam  
Cridler and J. M. Doyle were here  
Monday interesting Brady folks  
in the new tabernacle to be built  
at Fife. They expressed them-  
selves as well pleased with the  
ready assistance given them by  
the Brady folks, and extend a  
hearty invitation to come and  
join in the singing convention to  
be given when the tabernacle is  
completed.

John Sage arrived last Thurs-  
day from Madison, Ind., having  
accepted a position with Brady  
Auto Co., and will study the  
business from the mechanical  
department to the business end.  
He expresses himself as highly  
pleased with his first visit to  
Texas, and was surprised to find  
Brady more nearly a city in ap-  
pearance than the frontier vil-  
lage he had imagined. Mr. Sage  
is a cousin of W. R. Davidson of  
this city.

**Change in Business Firm.**

The firm of Myers & Myers  
last week succeeded the firm of  
Singer & Myers, Mr. W. I. Myers  
buying out the interest of  
Joe Singer in the last named  
firm and associating himself  
with Joe Myers. The firm will  
continue to do business in their  
present stand, the old West-  
brook place.

Mr. W. I. Myers is recently  
from San Francisco, where he  
made his home the past several  
years, and during the greater  
part of the World's fair exhibi-  
tion there. During the greater  
part of this period he was em-  
ployed as traveling salesman for  
one of the leading firms of that  
state.

Several months ago he came  
to Brady, and finding the town  
and the climate to his liking he  
decided to settle down and make  
his home here. He was for a  
time associated with the firm of  
Myers Bros., but his ambition  
prompted him to engage in busi-  
ness for himself.

Mr. Myers announces that his  
firm will carry a full line of gro-  
ceries, in addition to their pres-  
ent line of fresh fruits and veg-  
etables, candies and cigars. They  
expect to conduct a thoroughly  
up-to-date place of business, and  
invite the public to call on them.

**GINNERS MEET APRIL 20.**

**To Start Fight for Repeal of  
Warehouse Law.**

Dabney White, secretary of  
the Ginnners' Association of Tex-  
as, his issued a call for the gin-  
ners to meet at Dallas on April  
20, and it is understood the pri-  
mary purpose of this meeting is  
to perfect plans for submitting  
the question of repealing the per-  
manent warehouse law. Mr.  
White says that it will be an  
easy matter to get 50,000 farm-  
ers to petition the executive  
committee to submit this ques-  
tion to the voters of Texas in  
the July primaries.

The ginnners will attempt to  
show that the regular warehouse  
law now effective is a better law  
than the permanent warehouse  
law that is in question. Smith  
county owns all of the ware-  
houses in the county, and its  
commission, composed of bank-  
ers and farmers, are operating  
the county warehouses under  
the regular warehouse law.

Mr. White claims the perma-  
nent warehouse law will cost the  
ginnners and farmers \$2,000,000  
next year and, so far, has been  
of no direct benefit to anyone  
except the numerous officehold-  
ers under this department. He  
claims that the permanent ware-  
house expenses are much more  
than the entire expenses of the  
Railroad Commission, also that  
the farmers of Texas are bitter-  
ly opposed to the requirements  
of the permanent warehouse  
law inasmuch as it does not ac-  
complish any direct good to the  
producer.

The regular warehouse law,  
effective before the permanent  
warehouse law was enacted, Mr.  
White claims, is very simple and  
plain, providing that same shall  
be bonded and its receipts are as  
bankable as those issued by the  
permanent warehouse system,  
also that it does not cause any  
extra hardships or expense to  
either the taxpayers or produc-  
ers in its enforcement. This  
law, he believes, can be shown  
to provide ample facilities for a  
warehousing system necessary  
for the handling of the Texas  
cotton crop. The primary pur-  
pose of the permanent ware-  
house law, he alleges, was to  
provide for a marketing corpo-  
ration system, but the law has  
proven so unsatisfactory that  
so far no marketing bureau has  
been perfected under its plan,  
while only about sixty ware-  
house companies have been or-  
ganized under this law, all others  
operating under the regular  
or better known old systems.

Ready, Ky.—"I was not able to do  
anything for nearly six months," writes  
Mrs. Laura Bratcher, of this place, "and  
was down in bed for three months.  
I cannot tell you how I suffered with  
my head, and with nervousness and  
womanly troubles.  
Our family doctor told my husband he  
could not do me any good, and he had  
to give it up. We tried another doctor,  
but he did not help me.  
At last, my mother advised me to take  
Cardui, the woman's tonic. I thought  
it was no use for I was nearly dead and  
nothing seemed to do me any good. But  
I took eleven bottles, and now I am able  
to do all of my work and my own  
washing.  
I think Cardui is the best medicine in  
the world. My weight has increased,  
and I look the picture of health."  
If you suffer from any of the ailments  
peculiar to women, get a bottle of Cardui  
today. Delay is dangerous. We know  
it will help you, for it has helped so  
many thousands of other weak women

**With the Candidates**

**For Commissioner, Pre. No. 2.**

The Standard is authorized to  
announce J. E. (Jim) Spiller as  
a candidate for the office of  
Commissioner of Precinct No. 2.  
Mr. Spiller has been a resident  
of McCulloch county all his life  
—36 or 38 years, and is well  
known to the citizenship. Es-  
pecially is he well known in Pre-  
cinct 2, having been raised in  
the Voca community and being  
one of her leading and most in-  
fluential citizens. Quite natu-  
rally his many friends are inter-  
ested in his candidacy and are  
doing everything possible to ad-  
vance his interests. Mr. Spiller  
has never offered for office be-  
fore. Should he be elected, he  
promises to look after the inter-  
ests of his constituents, as well  
as the general affairs of the  
county in a thorough, business-  
like manner, and will devote all  
the time necessary to serving in  
a most capable manner. He  
asks consideration of his candi-  
dacy.

**A Knight of the Grip.**

S. A. Conley surprised his  
many Brady friends by starting  
out Monday as a full-fledged  
traveling salesman, representing  
the J. M. Radford Grocery Co.  
Mr. Conley says getting back on  
the road after having retired  
for some ten or fifteen years, is  
just like slipping on your old,  
favorite coat. Consequently he  
is wearing a billiken smile, and  
is getting the business. Mr.  
Conley spent a week or ten days  
at headquarters familiarizing  
himself with the line, returning  
to Brady Saturday. His terri-  
tory includes everything this  
side of the Colorado river. The  
Radford Grocery Co. is one of  
the largest and best established  
wholesale grocery houses in the  
state, having ten branches. Mr.  
Conley says the company will,  
in future, have storage in Brad-  
dy, shipping in by carload lots.

**For City Marshal.**

Jeff Meers announces in this  
issue his candidacy for the of-  
fice of City Marshal. Mr. Meers  
has entered the race upon the  
earnest solicitation of many  
friends who are enthusiastically  
supporting him in the race, and  
he is confident of success re-  
warding his efforts. Mr. Meers  
is too well known to citizens of  
Brady to need introduction. He  
is a man of quiet, yet congenial  
disposition, and is a progressive  
and enterprising citizen. Should  
he be elected, he promises strict  
enforcement of the laws, yet in  
no instance to act arbitrarily,  
but to treat all offenders in a  
fair and impartial manner.  
While but a month remains in  
which to make a campaign for  
the office, Mr. Meers expects to  
meet all the voters of Brady and  
endeavor to enlist their support,  
and will heartily appreciate any  
and all favors shown him.

### MELVIN MENTIONS

From Melvin Advocate:

Burglars entered the store of the Welview Mercantile Co. last Wednesday night and carried off several hundred dollars' worth of goods, including bacon, hams, flour, shoes, wearing apparel and jewelry. Officers have several clues and arrests are hourly expected.

C. H. Sandberg has five cows which provide an income of \$10 per week from the sale of butter fat. Dairy cows pay when properly cared for.

Jchnnie Seymore, who has been taking the census, reports 156 children within the scholastic age. It is believed that when the next term of school opens there will be over 200 pupils enrolled.

Lon Clements has moved to Stacy to take charge of the telephone system at that place.

### EAT WITHOUT FEAR OF INDIGESTION OR SOUR, ACID STOMACH

**Instant Relief! "Pape's Diapepsin" Ends Your Stomach Trouble Forever.**

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite food without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

C. J. Danielson and wife were here Friday from their home near Melvin. They made the trip of 50 miles in something like two and a half hours in Mr. D.'s Buick. Mrs. Danielson is a sister to Mrs. Ellebracht, who accompanied them home for a visit.

An impressive ceremony was read by Rev. W. D. Buckner, L. L. D., at the marriage of Miss May Rose Holmes and Mr. Van M. Loring of Mason, Texas, which was quietly solemnized Thursday afternoon at 5:30 o'clock at Calvary Episcopal church in Memphis, Tenn., in the presence of a few intimate friends. Miss Holmes was the adopted daughter of the late Major H. M. Holmes of Mason, and spent her girlhood here, leaving in 1896 for her native city of Memphis. As a professional nurse, she was with the Red Cross in Cuba during the Spanish-American war, and later was for a number of years, a probation officer of the Juvenile court of Memphis, resigning that position last year for a much-needed rest. Mr. and Mrs. Loring will remain in Memphis until the close of school in June.

### SAN SABA SAYINGS

From The Star.

At a meeting held in the court house basement Tuesday night preliminary steps for the re-organization of the San Saba band were taken. Eight or ten of the boys were present, and assurances came from a number of others that they were ready to come in and resume regular practice.

A large audience was out on Tuesday night to take advantage of the initial flow of eloquence and logic incident to the organization of the San Saba Oratorical society. The debate was held in the district court room, and in the audience the approving smiles of a number of ladies greeted the two handsome young knights who matched wits on the question of "Preparedness." J. K. Rector, who had the affirmative, won the decision, but under the circumstances this need not have proved mortifying to N. C. Walker, who took the negative, as the audience was so clearly in sympathy with the position of his opponent that it was apparent from the very beginning that his voice was falling upon ears deaf to his eloquence and appealing to minds too firmly grounded in their opinion to be moved by logic or reason.

The final dissolution of the Brady Fair association, which occurred recently, is in keeping with the fate that usually befalls the small county fair sooner or later. To maintain a successful fair entails a great deal of expense and calls for lots of gratuitous work on the part of public spirited citizens. That the San Saba County Fair has managed to avoid financial breakers for sixteen years and continues to grow stronger and better every year, speaks volumes for the wisdom and ability of the management and loyalty of the people of San Saba town and county.

From The News.

Allison Estep, who accidentally shot himself recently, returned Saturday from the hospital, getting along nicely. The bullet lodged in the muscle of the abdomen and did no serious damage.

A kind letter from Mrs. C. J. Nelin of Rochelle wishes the News and its editor a happy and prosperous year. Mrs. Nelin was formerly Miss Dalma Johnson of Richland Springs and a schoolmate of this editor. We certainly return all the good wishes. In school Mrs. Nelin was one of the brightest and most perfectly deported pupils we ever met. She knew Reed & Kellogg's grammar from river to river. When it came to dtagraming those long sentences in old Reed & Kellogg's Miss Dalma, as we knew her, led the class, and then some. She is now mistress of a prosperous home and has the hearty good wishes of every member of that old class.

### MOTHER! DON'T TAKE CHANCES IF CHILD'S TONGUE IS COATED

**If Cross, Feverish, Sick, Bilious, Clean Little Liver and Bowels.**

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat, or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipated poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

### MENARD MESSAGES

From The Messenger.

Tuesday the school trustees of the Menardville Independent School district met and considered the bids of the various competing contractors for the building of the new school house. Eleven bidders were present, coming from Sinton, Arlington, Fort Worth, Sonora, Del Rio, Brownwood and Alba. J. C. Ray of Alba secured the contract.

The city council has stationed traffic posts at the corners of the four streets entering San Saba avenue. Auto drivers are in the main observing and following instructions as they should. The traffic on our main street has become so heavy that some system is necessary to prevent collisions. The posts in addition to keeping the traffic always moving to the right, makes it necessary for auto speedsters to cut down to twenty miles an hour upon entering our main street.

100-BARREL OIL WELL.

REMAINS DRY.

Brought in By Turner East of Santa Anna

Runnels County Votes Overwhelmingly for Prohibition.

Santa Anna, March 4.—A 100-barrel oil well was brought in three miles east of this place today. The oil is of a very high grade, having a paraffine base, and the strike is considered a very valuable one. The well was drilled on the J. T. Pope farm by Fred W. Turner of this place, and oil was found at 1550 feet, and after considerable delay and reaming and casing the well was brought in and is now producing over 100 barrels.

Santa Anna people are greatly enthused over the strike and a boom is expected, as this town will be headquarters for the field.

Following a spirited campaign Runnels county last Saturday voted to remain in the "dry" column, a majority of 462 being recorded by the prohibition forces over the anti-prohibitionists. The small box of Brookshire, numbering 27 votes, was still to be heard from. Out of 3090 polls for 1915, 2824 votes were cast, 1643 being pro and 1181 anti. This is the third time in the course of five years that the pros have scored a victory over the antis, and the majority is the largest of the three elections.

The following is the total vote recorded at the three elections:

1911 polls, 2969; pro votes, 1498; anti, 1170.

1913 polls, 2604; pro votes, 1195; anti, 1100.
