Horticulturist Advises Cutting Off Injured Part of Tops.

College Station, Texas, April 10.—W. B. Lansam of the horticulturist extension service of the A. & M. college, advises that the Irish potato plants injured by the recent frost be cut off at once, to prevent the injury from spreading to uninjured parts. If only a portion of the top is injured, that part only should be cut off.

City Grading Bridge Street.

The city is gradually getting all the streets in first-class condition, and the work now being done on North Bridge street is being especially favorably commented upon. The block extending from the Walker-Smith building north has been graded up and covered with a coating of crushed rock. The rock for this purpose is being secured from the H. H. Sessions pasture and is being crushed by the rock crusher owned jointly by the city and the county.

Street Superintendent Tom Bodenhamer is now filling in the swag in Bridge street just south of the approach to the bridge, and is also filling in north of the bridge and up to the railroad tracks. The dirt for this purpose is being secured from the excavation being made for the basement at the Commercial National bank. When this fill has been completed the street will also be surfaced with crushed rock. A new crossing by the railroad will complete the improvement of this street and make not only great improvement over its past condition, but will place the street in thoroughly passable condition.

IT CAN BE DONE.

Mr. Hanson knew, for he had carried a similar weight over 300 yards of plowed ground on his farm a couple of miles east of town, just as a test.

He made the trip in his sock feet to avoid misstep or a slip, and trotted the greater part of the distance, making it back to his starting point in three and a half minutes. The distance around the square is 1900 feet, or over one-third of a mile.

Mr. Hanson is a splendid example of physical manhood, and is a giant in strength. He is 45 years old, and says when he was 21 he could have carried the weight from Brady to his home—a distance of a couple of miles.

Carl Hanson Circumnavigates Square With 40-lb. Weight.

Just about the time somebody tells you "it can't be done," someone gets up and does it!

It can be done!

A 40-pound dumb bell was carried around the square Tuesday evening by C. O. Hanson, who made the round trip easily, and without apparently overtaxing his strength and endurance, or becoming physically exhausted.

And thereby he set a record, for Mr. Hanson is the first to succeed out of half a dozen men who attempted the feat. The test called for the carrying of the 40-pound weight around the square in one hand without resting or changing, and altho at the outset the undertaking might have appeared easy, one strain of gripping the dumb bell and carrying the dead weight usually had the contestant's nerves unstrung before the distance was half covered.

Mr. Hanson Tuesday affirmed his belief that he could accomplish the trick. His hearers scoffed at his statement—but

Well Known Remedy Relieves Chronic Case

Important to Dispose of Waste
from the Stomach With
Regularity.

People frequently attribute to failure of the digestive organs conditions that are primarily due to inactive bowels, and apply remedies that from their very nature are more apt to aggravate than to relieve the disorder.

When the bowels act regularly the stomach is in better shape to perform its allotted tasks and can usually be depended upon. To keep the bowels in condition there is no more effective remedy than the combination of simple laxative herbs known as Dr. Caldwell's Syrup Pepsin which is sold in drug stores for fifty cents a bottle.

Dr. Caldwell has prescribed this remedy in his practice for over a quarter of a century and it is today the standard household remedy in thousands of homes. Mr. Thos. DeLoach, with the department of the Interior, Office of Indian Affairs,

MR. THOS. DeLOACH

at Washington, wrote Dr. Caldwell recently, that "Dr. Caldwell's Syrup Pepsin is the best laxative I have any knowledge of and the cleaning up guaranteed by its use relieves every organ."

A bottle of Dr. Caldwell's Syrup Pepsin should be on hand in every home for use when needed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Ill.

Double Header Ball Game Won By Home Team.

Whiteland, Texas, April 12.
Editor Brady Standard:

The expected happened Saturday when our base ball team took both ends of a double header game played on our diamond, from Melvin's team, who came prepared for battle, but who went down like dead birds when facing Allen and Priest. Allen and Priest allowed several hits on account of confidence in fielders, who never failed to "sack 'em." The score in the first game stood 2 to 5 and the second 3 to 8. The visiting team took their defeat good naturedly and invited our team to Melvin for a game next Saturday. Melvin's team played some good, stiff stuff and deserve much credit for it. They are a fine set of boys anyway, and we always like to play them.

ONION GAP HAPPENINGS.

School Closed Monday—Most Successful Term.

Rochelle, Texas, April 11.
Editor Brady Standard:

We had a fine rain last week. It was greatly appreciated.

The farmers are very busy planting corn and other grain.

A fishing party composed of Messrs. H. Anderson, Clayton, Walter and Virgil Mooring and Williamson went to the San Saba river last week. It seemed as though luck was against them as far as the finny tribe was concerned.

Another crowd from the Gap went to the Colorado.

Messrs. Louis Bratton, Gladys Howard, Mrs. Baze and Miss Clark went to the Company tank last Tuesday evening and took lunch, spending the time very pleasantly eating and telling jokes—mostly eating—returning to Mr. Howard's just as the sun was hiding its face in the golden west.

Louis Bratton has just completed a dipping vat on his place a few miles west of the Gap.

Walter Engdahl left Monday night of last week for Tyler, where he will resume his course of study.

Ethel Brown is on the sick list this week.

Mrs. Baze visited Miss Clark from Friday until Sunday.

Our school closed Monday. Everyone was very sorry, as we have had one of the most successful schools this year that was ever taught in the Gap.

Mrs. Baze and Miss Clark have shown by the work accomplished that they are live wre teachers, and if we had more such teachers we would have better schools than some we have heard of this year. We are hoping that we will be fortunate enough to get them back another term.

Miss Clark spent a few days with Mrs. J. K. Baze before returning home to Mason.

Safe Medicine for Children.

"Is it safe?" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic, and may be given to a child as confidently as to an adult. It is pleasant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most effectual in relieving coughs, colds and croup. Obtainable everywhere.

WONDER WORDS.

Wonder, Ore., March 26.

Editor Brady Standard:
"All day the low hung clouds hath dropped

Their garnered fullness down;
All day the soft grey mist hath wrapped

Hill, valley, grove and town."

For more than twelve hours there has been one steady, continuous, unceasing downpour. Nothing that would even so much as preface a water spout, understand, but only just what some call an "Oregon mist"—missed California and hit Oregon.

It is our equinoctial period. A week ago we had lots of frost and ice. And day before yesterday it hailed and sleeted to beat the band. The ground was literally covered with frozen tapioca, while yesterday it snowed the whole day long, and hard, too—flakes as large as your thumb, which looked like the old woman was picking geese. But thank goodness, it melted off as fast as it fell. I hope you people have had a good rain as well as we.

Everybody here seems to be elated over the beet sugar factory going up at Grant's Pass, which will give employment to hundreds of people. But the worst feature connected with the proposition is that Japs are flocking here to take the labor that our citizens ought to have. But the Japs will get the jobs, as they will work for lower wages and do the work better, too, it is claimed.

People here are registering for the primary nominating election—both men and women. Of course, a Republican cannot vote to nominate a Democrat, nor vice versa.

Tax paying time is April 1st. By paying one-half of it we can wait till fall to pay the other half. But if we don't pay any by the 1st of April there will be a penalty attached, and as the time lapses the penalty is increased. The law used to allow a rebate for prompt payments, but that has been repealed. Oh, my! Tax is high! No wonder why. Now, good bye.

FIFE FINDINGS.

Mrs. Beck Dislocated Wrist While Cranking Ford.

Fife, Texas, April 11.
Editor Brady Standard:

The frost of last week failed to do any material damage in this community. Some corn was cut down, but will come out again, and the fruit crop was not hurt.

L. L. Deen and Jim Joy or Doole were here on business Friday of last week.

While trying to wind up her "Tin Henry" last Friday Mrs. J. O. Beck happened to the misfortune of having her wrist dislocated. Dr. McCann was called in and fixed up the injured member and the patient is getting along nicely now.

Singing at A. M. Finlay's Sunday night was enjoyed by all present.

J. O. Beck was at Brady Friday and Saturday of last week as a member of the teachers' examining board of the county.

The heartfelt sympathy of the entire community goes out to the bereaved children, especially Mrs. Killingsworth, with whom she mostly made her home. Editor Brady Standard:

As I didn't come to see you last week on account of the rain and muddy roads, will try and send in a few words.

We had a bountiful rain and all the farmers are busy planting their feed crops.

There is some sickness in our neighborhood. W. B. Gamel is on the sick list, and also the baby of Mr. and Mrs. H. D. Martin.

Power

DON'T overlook this matter of power. It is important. You want an automobile that will carry you through mud, sand and snow, and do it easily. You want a car that will climb hills, that will get away quickly without laboring and straining its every part.

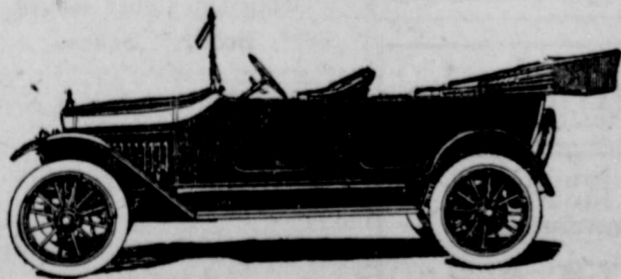

Not all cars can do these things, but you *know* that the Maxwell because you have the proof.

When the Maxwell stock touring car set the World's Motor Non-Stop Mileage Record a few weeks ago, it encountered all sorts of unfavorable conditions—rain, mud and hills, over country and city roads—yet it covered 500 miles per day, day after day, for more than six weeks.

Power, plenty of power, unflinching power, is absolutely essential to such a wonderful performance as this.

Let us give you a booklet telling all the details of this record breaking Maxwell car. And let us tell you about our partial payment plan, by means of which you can make a cash deposit and pay the balance while you use the car. Give us the opportunity and we'll prove our case.

TRADE EXCURSION.

Brady citizens will next week visit practically every point in the county upon a get-together and booster trip. Brady citizens are alive to co-operation between town and country. They know that mutual prosperity is contingent upon mutual understanding and working together in the same harness. As the country prospers, so the town grows, and with the growth of the town the country gains in prominence, in improvements, in advancement and in marketing facilities. A good, live town is the best indication of a good, live country surrounding it.

A good, live country needs a live center for an outlet. The two are inseparable.

It is the hope that the trade excursion may result in better feeling and better understanding between town and country. The two should work hand in hand for their common interests.

UXORIOUS.

Extract from lecture by N. C. O.:

"Your rifle is your best friend, take every care of it; treat it as you would your wife; rub it thoroughly with an oily rag every day."—Punch.

Little by little Brady is making progress cityward.

April showers bring May flowers—and maybe they will help along the era of prosperity and plenty this fall.

Two facts have been developed since the recent rains. Where the roads have been well crowned and the gutters kept open, providing good drainage, the road conditions are reported as nearly perfect. Also where road drags have been used following the rains, the highways are in excellent shape. There is the answer for good roads.

The building and improving now under way and contemplated in the near future is the best evidence that Brady is a live, growing community. Every citizen a booster is a good maxim.

Peace and prosperity beckon in McCulloch land.

McCulloch county cattle still continue to bring top prices.

McCulloch county prosperity means more homes, greater citizenship and increased wealth. Speak a good word for McCulloch on your travels.

McCulloch county can attain fame and "bring home the bacon" in the shape of clinking coin if her citizens will devote time and attention to chickens, turkeys, eggs and dairy products. And plant a few hogs!

A bouquet was pinned on us this morning—literally, as well as figuratively. J. H. White brought to town a beautiful bouquet from his rose garden and said he "was looking for a good man to give the bouquet to." He thereupon presented it to us. If there is anything we appreciate more than flowers, it is the gift of flowers.

Education.

A learned professor was discussing the boy athlete, and announced that he is prone to set athletics far above English, mathematics and history. In conclusion he told of a conversation he had had with a young nephew of his a few days previous.

"William," said I, "I'm glad to hear of your success on the school baseball team, but you must remember that there are other things in life besides baseball."

"Yes, Uncle Will," he answered, gravely, "but hang it all, I'm afraid I'm too light for football or rowing."—Harper's.

HARRISON SHOWS.

Close Two Weeks' Engagement Tomorrow Night.

The Harrison shows close their two weeks' engagement tomorrow night. As always, the Harrison show has won popular approval and has merited the large attendance which has been accorded them. Their plays have been clean, entertaining and interesting, and the range has been from comedy to high-class drama. Not only have the performances been of the highest order, but the members of the company have made many friends here, and have conducted themselves in a manner reflecting great credit upon the theatrical profession.

The bill announced for tonight is "The Nest of Crime." For the matinee tomorrow afternoon at 3:30 o'clock, "A Story of the Hills." The closing performance Saturday night will be "The Turn of a Card."

The Harrisons promise to return to Brady next year, and whenever they find occasion to put Brady upon their route schedule, they will find a hearty welcome awaiting them here.

OLDER BUT STRONGER

To be healthy at seventy, prepare at forty, is sound advice, because in the strength of middle life we too often forget that neglected colds, or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years.

To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-nourishing properties of Scott's Emulsion which is a food, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. No alcohol in Scott's.
Scott & Bowne, Bloomfield, N. J.

A MONTH TOO EARLY

By DEAN CARRUTHERS.

Cleely Meredith re-read the letter from the manager of the Pebble Beach hotel. It informed her that her application for a position as hotel stenographer had been accepted and that the salary would be sixty dollars a month with board.

"Please report for duty May 15," it ended.

The Pebbleton station was perched on a rise of ground and from it a road slanted down to the sea. There was a board walk along the beach and several great caravansaries lifted their bulk above the high-water mark.

"I want to go to the Pebble Beach hotel," explained Cleely to the station master. "Isn't there a stage or a cab to take me there?"

He shook his head. "You can walk it easy, miss. It's that last hotel on your right. There, hear that thunder. You better wait here or run."

"I'll run," said Cleely as she scurried down the road.

She hated thunderstorms and so she fled before this one like a thing possessed of great fear. It was with shortened breath and throbbing heart that she reached the last hotel and ran up on the broad piazza.

A jagged flash of lightning streaked the gray sky to the horizon.

"Merrey!" panted Cleely, her hand on the front door knob. But it refused to yield to her touch, so she hurried around to the western wing of the hotel and discovered another door. The door was slightly ajar and she pushed it wide and then closed it.

She found herself in a small office, desolate and untenanted. The closed desks and the safe were covered with last year's dust. There was a curious feeling of loneliness about the place that frightened her.

"Is anyone here?" asked Cleely. But another crash of thunder shook the building. "Oh, dear," she cried, in a panic of fear; "what shall I do?" While she quivered there, she heard another sound—a sound of footsteps echoing through empty rooms.

She opened one of the desk drawers and groped in its dark interior. Her fingers closed on something cold and hard. It was a revolver. A feeling of security stiffened her courage.

And then the door opened and closed again and another presence entered the hall.

The man stared at her in open-eyed amazement. He was young and trim with a dark, clean-cut face, fine eyes and a humorous mouth.

"I—I'll shoot!" she threatened in a small voice.

"Please don't," he said lightly.

Then she added menacingly, "It's loaded."

"Then don't point it at me," he said sternly. "Don't be frightened. I believe you're the very person I'm looking for. Are you Miss Meredith?"

"Yes," said Cleely, lowering the gun. "I'm Harry Charlson," he explained. "My father's been away from his office for a week and just returned this morning. On looking over his mail, he found your letter saying that you would report for duty here on the 15th of May. You are a month ahead of time and so father sent me down post haste to bring you back. The carpenters and cleaners are in charge at present and some of them are rather rough characters. We were worried about you."

"But," protested Cleely. "Mr. Charlson's letter distinctly stated May 15. Mother and I wondered about it." She took the letter from her bag and gave it to him.

"It's one on dad all right," he grinned. "He meant June 15. When I couldn't find you I supposed you'd discovered your mistake and gone home. I was going around by the station to inquire. I came down in my motor. Where were you hiding?"

Cleely explained her adventures during the last hour and then together they left the hotel, young Charlson locking the door carefully after them.

At the foot of the steps a great motor car was purring. "You will allow me to drive you back to town?" he asked.

"I really should take a train," explained Cleely. "We have given up our flat and mother is staying at my grandmother's in Lindenwood."

"Lindenwood? Oh, that's on the north side about opposite Pebbleton. We'll take the cross-island road and make it in a couple of hours."

During that two hours' ride across the rain-drenched island he told her that he expected to spend the summer in Europe. After that he was to take his father's place as manager of the Pebble Beach in summertime and of their Florida hotel in winter.

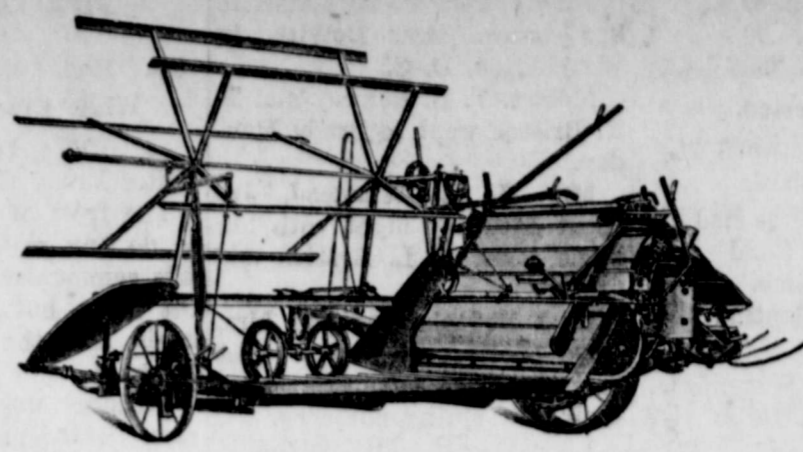

He left her at her grandmother's gate, and with a pressure of the hand he was gone. He motored over occasionally to give Cleely news of the progress of repairs at Pebbleton and one day he said he had decided to act as clerk at the Pebble Beach that summer.

"But I thought you were going to Europe," protested Cleely.

"That can wait," he said slowly. A flush came into his dark face. "I'll save it for a wedding trip—some day."

"Oh!" said Cleely and changed the subject; but his words rang in her ears. The memory of his look thrilled her heart; she only knew that the summer was to be a dream of joy if he was to spend it with her, and beyond the summer she would not look.

The ADRIANCE, or better known as the BUCKEYE, binder is the strongest and most durable, as well as simple and longest life binder on the market today. In all of our experience in handling harvesting machinery, this, the ADRIANCE, or BUCKEYE, line we think is the best of them all.

This binder has fewer parts. It has anti-wind rollers, longer life knottor, simpler timing arrangement, and has a separate drive chain that runs the knottor and packer and eliminates this strain on the small chain that is common to other binders.

In buying the Adriance you will be fully protected in every way. The machine is absolutely guaranteed to do the work equally as well in every respect as other makes, and if you will give us a chance to show you the merits of this binder you will appreciate the fact it is a longer life machine.

Then, too, after you have had the machine a few years it will naturally begin to wear in places and you will need extras. We will always have a complete stock of them and you will be able to get them without delay, which sometimes saves you a good part of your grain.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts Your Liver Without Making You Sick and Cannot Salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

Cattle Shipments.

W. E. Campbell Wednesday shipped 43 cars of cattle to Kihiki, Okla., shipment being made over the Frisco via Fort Worth and the Katy. There were 1350 head in the shipment, the cattle being placed on the range, which is said to be very good in Oklahoma.

It will be a blessing to the young people and ladies of Brady to attend these services. You should be glad to put your children under her instruction and leadership while here. Bloodworth is doing the preaching and all who will come and hear him through his series of sermons will be greatly blessed. A large choir and excellent singing is one of the attractions in these meetings.

The people from the surrounding country are cordially invited to attend. Come, you will be heartily welcomed. Come and get the benefit of this meeting. Services every morning from 10 to 11 o'clock. At night the song service begins at 7:45 and lasts for half an hour. The sermon and other exercises immediately follow. "Come and help us if you can, and if you cannot, then come and let us help you. See." Come because God needs you. Come because we need you. Come because you need the meeting.

LOCAL BRIEFS

A fine girl is reported as having arrived at the home of Mr. and Mrs. Eric Hege in the Melvin community on Wednesday, the 12th.

Deputy Sheriff John Martin returned yesterday from San Antonio where he accompanied Cleveland Placker, who was recently committed to the insane asylum.

G. R. White Monday again topped Fort Worth market with 44 head of steers from his Whiteland ranch. The cattle averaged 1,088 pounds in weight and sold through Cassidy-Southwestern Commission Co. for \$8.35.

The cloudy weather yesterday morning developed a light sprinkle, which did no more than moisten the surface, and which disappeared before the afternoon sun. Continued overcast skies, however, point to more rainfall.

A peculiar case came to light Wednesday in the arrest by Sheriff J. C. Wall of a 14-year-old girl named Clara Lancaster. The girl, whose parents live in Dallas, was visiting her grandparents, named Smith, in Eden, and disappeared from their home some time during Tuesday night. She appeared at daylight in Welview, taking the Santa Fe passenger train to Brady. Here she told a pitiful tale of a dying father in Dallas and attempted to pawn her watch. In this she was unsuccessful, but sympathetic citizens donated the money for a ticket to Dallas. About this time Sheriff Wall received a message asking him to detain the runaway, and the sheriff had no difficulty in locating her. The money contributed was returned to the donors, and the girl was returned to the home of her grandparents.

+ THE PEOPLE'S FORUM. +

I notice the Correspondent from Katemcy had quite a lengthy communication on preparedness. I suppose he is in favor of the Wilson policy of preparing to get into war, whether the people want to or not, while I couldn't tell from his talk just what he did want.

He spoke of not being prepared to capture an old Mexican bandit. Should we have had a million soldiers in Texas, would they have helped matters any? They would have done just like the commander at Columbus—sit down and wait for orders from Washington, and let Villa get four or five days the start of them. It wasn't the lack of large army, but the red tape that is attached to the regulars that gave Villa a chance for his life.

Katemcy denies that we have spent as much on preparedness in the last ten years as Germany has. Yet we are at peace with all nations, while Germany is at war with all Europe. He don't deny that the European powers were better prepared than we are. Yet they are

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

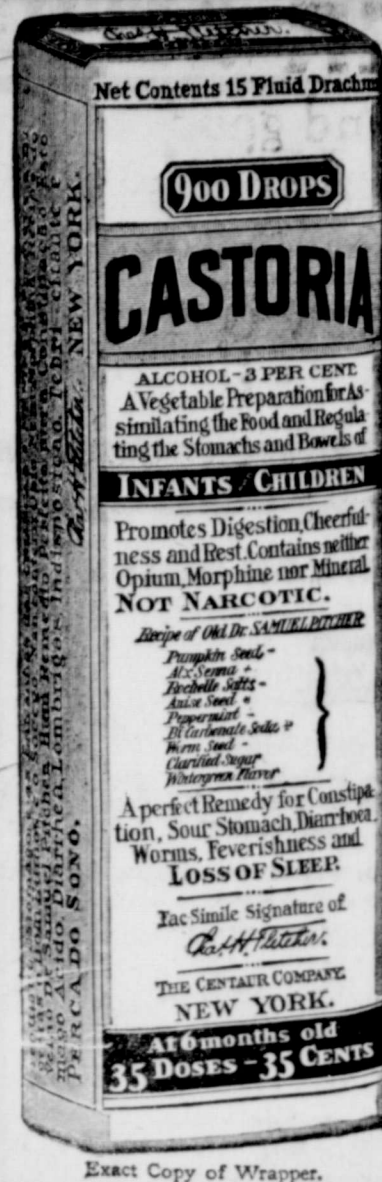

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it.

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlastingly tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Preparedness.

In looking over our dictionary, we find that Webster defines patriotism as "the passion inspiring one to serve one's country."

Who is it then, who best serves it—the one who places his purse as of more value than the life of his fellowman; who puts business profits above the prosperity of peace, who, more suspicious through selfishness and fear, would force a tribute from the farmer with a vast army, an unrivaled navy as a necessary defense against imaginary foes brought into thought through his measuring the nation as he measures himself—selfish, greedy and cowardly. Is this the patriot? Or the American who recognizes the awful wastage of war in human life and of the material wealth of the land and seeks by every effort to make war an impossibility?

History teaches us that our forefathers who fought the war of the Revolution, the war of 1812, the Mexican war, and our late Civil war were the bravest and most patriotic.

Do the preparedness fiends think we have lost our patriotism? All of our wars have been fought with the volunteers who, authorities claim, make the best soldiers in the world.

There is no earthly argument that sustains the militaristic fanatic in his contentions that we are in danger of war with any foreign country. The very fact of the war now raging in Europe is proof of this. Every European country is jealous of the other. Were one of them to try to conquer us he would have a dozen of them on his back at once.

We have no doubt that our patriotic munitions makers are right now trying to stir up war with Mexico. President Wilson says someone is trying it. Could it be anyone else?

Rep. Tavenner, in a speech Feb. 15, in the House, says: "During the year 1912 our entire revenue, not including postal receipts, was \$702,000,000.

Of this, we expended \$654,000,000 to defray the expense of government. \$444,000,000, or 67.88 per cent, was paid out for war and on account of war. Just before the outbreak of the present European war Germany was spending \$394,000,000 for war and on account of war, which was 55 per cent of her total revenue. We had an army of 91,000; Germany, 870,000." These figures were not disputed and we are sure they will stand.

Now, Mr. Preparedness fiend, if we were to build twelve battleships to put us even with some other country, all the other country has to do is to build twelve and she is even with us again. In this way it would only be a question of who gave out first as to who would have the largest navy. The fellow who has put the scare into you is the patriotic munitions maker, who is looking at his own pocketbook only. Take a look at yours. E. Z.

DEATH CALLS A. G. BAZE

POPULAR CITIZEN PASSED AWAY TUESDAY.

Great Throng of Citizens Pay Homage to Memory at Funeral Yesterday Afternoon.

The death of Albert C. Baze occurred at 9:00 o'clock Tuesday night, following an illness of about a year, and which the past two months had kept him confined to his bed. Funeral services were held yesterday afternoon at 3:30 o'clock at the Church of Christ by Elder A. J. McCarty of Killeen, Texas, and interment was made in the family burial grounds at Brady cemetery.

Albert C. Baze was born in Burnet county on August 23, 1874, being aged 41 years, 7 months and 19 days at the time of death, and had lived in McCulloch county practically all his life. Some twenty years ago he was engaged for a few years in the drug business, later making his home in the Camp San Saba community. About twelve years ago he re-entered business circles in Brady as a member of the firm of Scott & Co., grocers, continuing with that firm up to last year when the firm was dissolved. In January he re-engaged in the grocery business for himself. During all these years Mr. Baze was accounted one of the foremost and most beloved citizens. He was a man of kindly disposition, who always had a kind word and a smile to bestow upon his fellowman, and he was universally popular with old and young alike. As a token of the esteem in which he was held by his fellow citizens, Mr. Baze two years ago was honored with the office of mayor of Brady. As in all his undertakings, he threw heart and soul into his work, and under his administration remarkable progress was made in civic affairs. The street work was placed upon a systematic basis; the sanitary department was taken over by the city and is now upon a profitable basis; the fire department was re-organized and equipped the best of any city of this size, with a material reduction in the key rate of the city as a direct result. Likewise the Brady Water & Light Works was placed upon a remunerative basis. Still another thing was the taking over of the Brady cemetery, the plotting of the grounds and the plan of selling lots to provide a fund for the maintenance of the cemetery. All of this was a work of love with Mr. Baze, who little dreamed that he would be one of the first to sleep under the sod of the newly organized cemetery.

His close application to his trust served to bring on a nervous breakdown, and the doctors advised a complete rest. Regretfully Mr. Baze was forced to the realization that he must give up his office as mayor of the city. But although his physical condition did not permit him to longer carry the burden of office, his mind was still active, and the continuance of the street work and plans for sewage disposal and other civic improvements still were given his careful thought and attention. The best of medical aid was summoned for Mr. Baze, but one and all held out no hope for his recovery. He was placed in a sanitarium for an operation which brought only temporary relief, and when he was brought back home his friends and family sadly realized that it was only a question of days until death would bring the relief that no earthly physician could offer.

Mr. Baze lived just long enough to see his successor elected and installed in office, John P. Sheridan having qualified as mayor twenty-four hours before the death of Mr. Baze.

Mr. Baze had been a member of the Church of Christ since he was 15 years old, and was an earnest and consistent christian. In his funeral oration, Elder McCarty, who had been a close friend of Mr. Baze for many years, paid a warm tribute to the many Christian virtues of the deceased. He was also a member of the Masonic lodge, the Modern Woodmen and the Yeomen.

In respect to the memory of Mr. Baze, all business houses were closed during the funeral hour, and the public school was dismissed. The city officers attended in a body and the members of the fire department, with the fire truck draped in mourning, headed the long procession of mourning and sympathetic friends to the grave. Many beautiful and costly floral offerings were heaped upon the last resting place of the dead.

Pall bearers were Messrs. J. S. Abernathy, W. W. Wilder, M. E. Abernathy, H. C. Samuel, W. W. Spiller, George Wilkes. Honorary pall bearers were Mayor J. P. Sheridan, County Judge John E. Brown, Aldermen H. P. Roddie, A. W. Tipton, L. A. Williams, B. A. Hallum and J. H. White.

Mr. Baze was married October 23, 1895, to Miss Mattie Wood, who, together, with three sons—Chester, Wayne and Lyall—and one daughter—Wilma—survive him. His mother, Mrs. J. P. Baze, also survives, and five brothers, Dr. Robert, of Chickasha, Okla.; Dr. Perry of Mason, Texas; Dr. Walter, of Barry, Texas; Garrett, of Blanchard, Okla.; Martin, of London, Texas; and Elmer, of this city; also three sisters—Mrs. H. J. Lowery, of Lubbock, Texas; Mrs. J. B. Kidd, of Camp San Saba, and Mrs. H. P. C. Evers of this city.

Out-of-town relatives present for the funeral services were Drs. Perry and Walter Baze,

Walker Montgomery Dead.

One of the saddest events of the past week was the death last Saturday night of Walker Montgomery, aged 13 years. The lad had been critically ill with typhoid-pneumonia the past several weeks, and his life had for some time been despaired of. He was a bright lad, and a popular favorite at the public school where he was attending.

Walker Montgomery was the son of Lee Montgomery, at present residing at Ballinger. Since the death of the lad's mother a year ago last January, he had been making his home in Brady with his aunt, Mrs. Nona Montgomery, and attending school here.

The body was conveyed to Winchell Sunday and interment was made beside his mother in the burial ground at that place.
