

# Sears Director To Meet Here Thursday, 7:30 P.M.

Every citizen in the Bovina trade area is urged to attend the meeting Thursday at 7:30 p.m. in Bovina Schools when the possibility of securing a doctor and medical clinic for the community will be discussed with Norman H. Davis, director of the medical program of Sears Roebuck Foundation.

and clinic. The survey, conducted under supervision of Sears-Roebuck Foundation by the Bovina Woman's Study Club and volunteer workers, was the basis on which the need was determined.

A clinic and doctor, fully approved by the American Medical Association.

The Bovina Community Improvement Committee, of which Mrs. Jess Walling is chairman, has as its major project the one which will be discussed Thursday night. To date, \$5,625.22 has been raised by the various organizations backing the project, including the Study Club, Chamber of

Commerce, Jaycees, Lions Club, Bovina Roping Club, American Legion and G. I. Forum. Several events have been staged as fund-raising means, rummage sales, Christmas card project, a womanless wedding, "Slumtown Symfunny" and the giving away of a saddle. Since this has been a community effort, the results of which will benefit the entire area if successful, all people should attend, Mrs. Walling said.

THE NEWSPAPER THAT WORKS FOR A BIGGER, BETTER BOVINA

WEDNESDAY, MARCH 8, 1967

Bovina, Texas

VOL XI, NO. 36

### WHITTLIN' By DOLPH MOTEN

Farmers' organizations rise and fall in popularity. Some do some good while others accomplish little more than the annual collection of dues from members.

Grain sorghum has come a long way since the formation of the organization supporting it back in the '50's.

Also, the association has been instrumental in "selling" milo in this country and abroad.

It's no secret, incidentally, that Parmer County farmers pay their dues to support the organization as well or better than their counterparts in any other counties in the sorghum-producing area.

At a recent meeting of the Parmer County chapter, it was pointed out that there has been no raise in the rate of natural gas since the association was formed.

Even better than that for members of the association and big users of the natural gas is the fact that competition has now come to the area.

We were amazed to learn that dues in the gas users association in this county is only \$2 per year per well.

It is not our intention to imply that an organization's dues have to be reasonable before it can be effective.

Other farm organizations are successful; the aforementioned seem to be especially that way.

Bovina's annual volleyball tournament, which attracts its share of interest, and then some, is scheduled for next week.

It's a proven fund-raiser for the sponsoring organization, which is the school athletic department, and puts on display the talent, and lack of, of past, present and future athletes.

The sport, which was once considered to be primarily for women and girls, requires all the skills men and boys, too, can muster when it's played right.

Spectator interest in the (Continued on Page 2)

### At School --

## Coach Struck By Vehicle

Darrel Read, basketball coach and teacher in Bovina High School, received bruises when struck by a car on the road going through the school grounds about 11:30 a.m. Monday.

He was taken to Parmer County Community Hospital by ambulance, where fears of broken bones were discounted.

Read stepped from behind the bus barn running in the direction of the field house when an automobile, driven by Mrs.

Fred O'Hair travelling northwest, struck him, and threw him 21 feet from point of impact. However, Mrs. O'Hair was driving slowly, investigating officers said.

A Claborn ambulance was summoned from Friona, where x-rays were made. Bruises were received on the legs and hip.

### Of School District --

# Mrs. Dodson Resigns Tax Collector Position

Mrs. Pearl Dodson, school district tax assessor-collector for the past 10 years, submitted her resignation to school officials yesterday (Tuesday) morning.

The resignation is effective next week -- March 15.

Mrs. Dodson succeeded Mrs. Olan Turner at the school post March 1, 1957. She was hired by the school board February 13, '57.

When contacted by the Blade this week, Mrs. Dodson said she plans "to be a housewife" after

her resignation becomes effective.

"I have enjoyed this job and have appreciated working with, and getting acquainted with, the people here," she said.

Superintendent Otis Spears

has announced that applications for the position are now being accepted. Someone with book-keeping experience is preferred, he said.

At a meeting Monday night, the school trustees approved a general floor plan for the new elementary school building which is slated to be constructed here this year.

Arnold Maeker, Lubbock architect, met with the board. He was given the "go ahead" to draw up specifications for the six-classroom structure which

is to be located on school-owned property west of Ninth Street.

Renewed at the Monday night session were the contracts of Coaches Roger Ezell and Truck Lusk. Each received a salary increase.

Ezell is an assistant coach in high school and Lusk is junior high coach.

Applications are also being accepted by the board for the position of head basketball coach of Bovina High. Darrel Read, who has that post now, has resigned effective the end of the school year.

## Wilson's Winners Named

Twenty shoppers received \$500 in groceries in drawings held at Wilson's Super Market Saturday at the close of the store's 20th Anniversary celebration.

Each basket given away contained groceries valued at \$25.

Recipients of the baskets of groceries were P. D. Barron, Mrs. Joe Pinner, Jewel Tabor, Mrs. A. R. McCormick, Mrs. Fred O'Hair, Myrna Hammonds, Jean Hawks, Myrtle Terry, Jan Heard, P. A. Adams, Frank Pesch, Flossie Rhinehart, Mrs. Vernon Estes, Myrtle McCormick, Lora Sikes, Mrs. Tom Beauchamp, Flossie Knight, Bernice Crump, Mrs. Amy J. Mason and Effie Mae Shepherd.

The event marked the 20th year since Mr. and Mrs. A. M. Wilson opened their first store on Main Street in Bovina. They remained there for 10 years and moved to the Super Market location on Third Street in 1957.

### Weather by Willie

A little moisture this week, but we are still in a drought.

Two-thirds of Texas is dryer than it has been in 42 years.

But have hope! During Noah's flood, we got a quarter of an inch.

### TSTA Meet In Amarillo

Teachers in Bovina Independent School District will attend an all-day meeting in Amarillo, Friday.

No classes will be held on that day.

The annual meeting is for District IX, Texas State Teachers Association.

Teachers will attend the general meeting and the sessions held for their various departments or grades.

### For City Council --

## Citizens Petition Five

Five names were filed by petition before the deadline Saturday night for two places on the

city council, Mrs. Mary Ruth Martin, secretary, has announced.

One of the names, Edward Isaac, an incumbent, appeared on two petitions. He will ap-

pear on the ballot for re-election on April 4. The other councilman whose term expires, C. E. Trimble, cannot run again because of moving outside of city limits.

Also petitioned as a candidate for councilmen were French Crook, Jimmy Ware, Robert Hopingardner and C. R. Elliott.

The election will be held April 4 at the American Legion Hall with A. B. Wilkinson serving as election judge.

Mayor Bedford Caldwell has another year to serve and hold-over councilmen include Owen Patton, Charles Corn and Billie Sudderth.

All five men petitioned as candidates were submitted during the last week before the deadline 30 days prior to the election. The new councilmen will take office at the regular meeting following the April election.

The petition filing the name of French Crook was signed by Earl Richards, Lula White, Emmett Tabor, Edward Isaac, Odie White and Joe M. Pinner. Jimmy Ware's name was fil-

(Continued on Page 2)

CHAMBER OF COMMERCE OFFICERS -- Tom Beauchamp, center, was elected the new president of Bovina Chamber of Commerce and Agriculture Thursday by the board of directors. James Roach, left, will serve as vice president and Mrs. G. D. Anderson, Jr., right, is the new recording secretary.

### By Directors --

## Chamber Officers Elected For Year

Bovina Chamber of Commerce and Agriculture officers for 1967 were named by the board of directors at a dinner meeting held at City Drug Thursday.

Tom Beauchamp was named the new president, to succeed Leon Grissom. James Roach is the new vice president. Mrs. G. D. Anderson, Jr. is recording secretary.

Roach succeeds C. E. Trimble and Mrs. Anderson succeeds Mrs. Bob Estes.

Five new directors were elected by mail-in ballots counted last week. They are Earl Whitten, T. C. Wiseman, Jamie Clearman, Tom Bonds and Nick Trienen.

The new directors met for the first time Thursday with the holdover members to elect the officers for the year. The members remaining on the board from last year are the three new officers, Mrs. Bob Wilson, Trimble, Wayne Spears, Grissom, Otis Spears, Mrs. Estes and Kenneth Cary.

Directors are elected for staggering terms, so that some will remain on the board who have served the previous year.

New featured offered by the Chamber this year is the presentation of gold plaques to business institution members of the organization. Individual members may also obtain a plaque by paying for the cost.

First event held after the new directors and officers take over is the annual Chamber of Commerce and Agriculture banquet to be in Bovina Schools cafeteria Thursday, March 16, when Rev. Kenneth Wyatt of Morton will be the speaker.

Tickets are on sale at \$3 each.

TO BE REMOVED -- Transformers, tall poles and numerous lines on Main Street from a half block northeast of Super Saweway through town is undergoing considerable change. Southwestern Public Service Company has been working on the lines the past few weeks and the results will be a neater appearance on Main Street.

### On Main Street --

## Power Company Improves Lines

When Southwestern Public Service Company completes its "remodeling" job on Main Street in Bovina, poles will be shortened, transformers re-

moved and only one electric line carrying power to service street lights remaining, according to Otis Huggins, manager of the company which services Bovina, Farwell and Texico.

## Light Snow Falls Here

A light snow which resulted in a trace of moisture fell here Sunday night.

The small-flaked snow began falling slowly Sunday afternoon. Moisture-promising weather prevailed throughout the day which featured cloudiness and cooler temperatures.

The trace of moisture accompanying the snow did little to help the overall total of .09 for 1967.

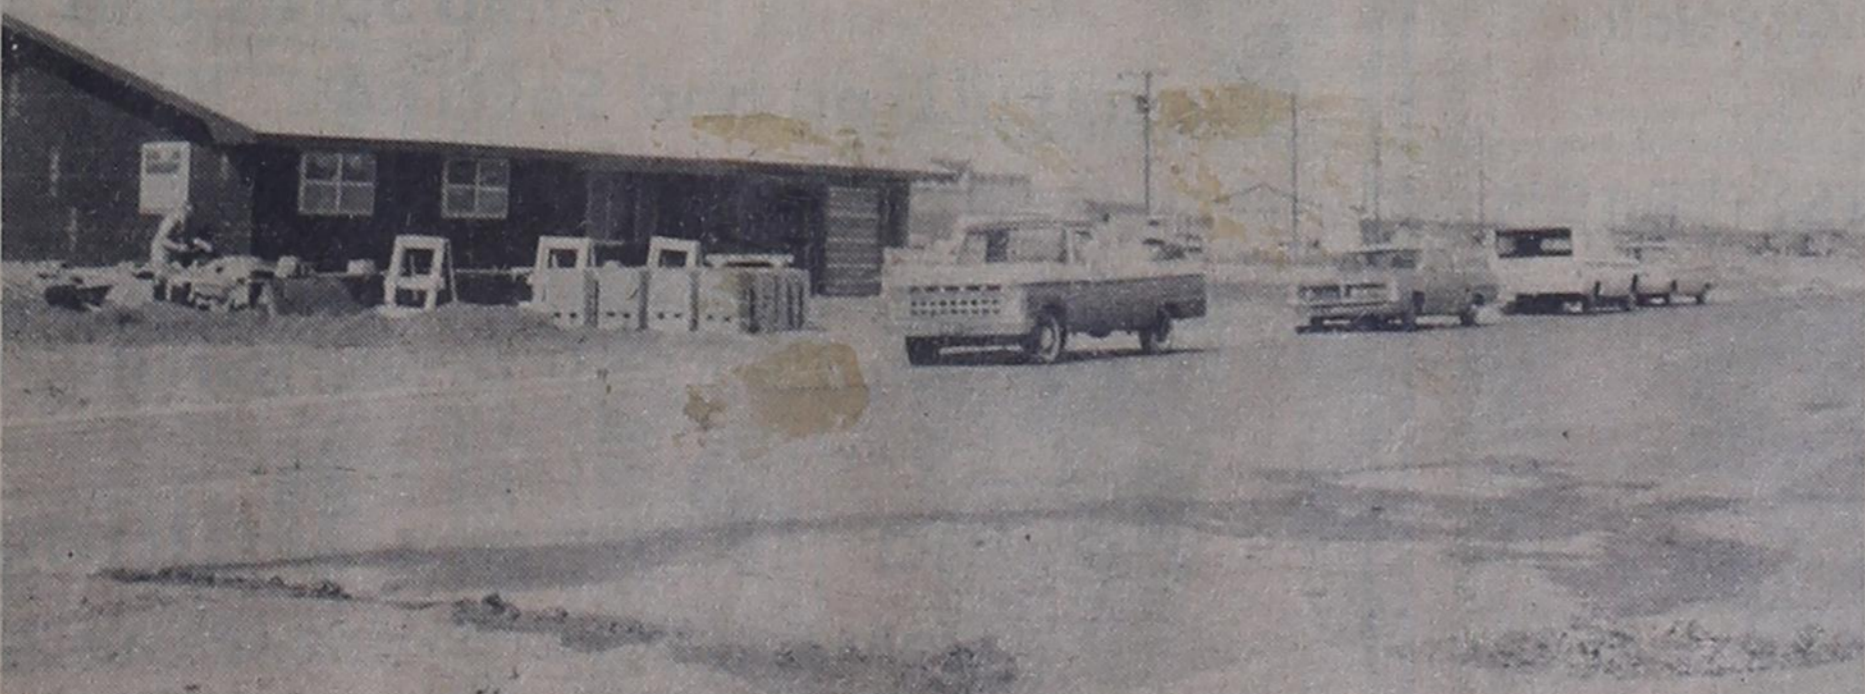

Temperatures warmed Monday and the light snow was quickly melted.

Power that once ran through the lines has been re-routed to other lines recently installed, Huggins said.

Poles along Main Street will be shortened and will be no taller than the street lights extending from them. At the present time six or seven lines are strung along the poles. All but one will be eliminated. Large transformers will also be removed, Huggins said.

The change is being made because the lines and transformers are no longer needed through Main Street.

Southwestern Public Service Company crews have been working on the project in Bovina for some time.

BOVINA'S A 'BUILDING -- Residential construction is continuing in Bovina at a steady rate. Shown here are two of at least three new homes now being built. These two are on the west

side of Ridgelea Addition. At left is the new home of Mr. and Mrs. Ralph Roming. In right background, with construction just beginning, is the new home of Mr. and Mrs. Durward Bell.

# Reflections

From  
*The Blade*

TEN YEARS AGO  
March 6, 1957  
Bovina city commission signed papers at a regular meeting Monday night giving a finance company, First of Texas Corporation, San Antonio, to send a representative here to discuss a paving project with clubs and individuals.

Members of the Bovina FFA Chapter presented the program "Building the Emblem" at a regular meeting of the Lions Club Thursday night in Bovina Restaurant.

Grady Hall and Dub Mayhew, former mechanics at Bovina Implement Co., have opened a new garage in Bovina. The business is located in the McCuan building on North Street. Date of the second annual Bovina FFA Project Show has been set for Saturday, March 16, Roy M. Crawford, chapter advisor, says.

Members of Sunbeams of First Baptist Church met Tuesday afternoon in the home of Mrs. R.G. Sparks for a regular weekly meeting. Their leaders, Mrs. Eddie Ray Hutto, read the group several poems and stories.

Visiting here Monday were Rev. and Mrs. El J. Speegle of Boulder, Colo. They were guests in the home of Mr. and Mrs. Troy Armstrong. Rev. Speegle was pastor of First Baptist Church about seven years ago.

Several singers from Bovina participated Saturday night in an all-night Talent Show at Junior High Auditorium in Clovis. Students of Mrs. Doris Wilson who took part were Mrs. Pat Kunselman, Billy J. Charles, a duet Marilyn Brandon and Janice Leake.

SIX YEARS AGO  
March 8, 1961

Bovina's first annual Chamber of Commerce and Agriculture banquet with a hoped-for crowd of 300-- is slated for tomorrow night at 7:30 in school cafeteria.

An Angus steer owned by Olen Johnson and Duroc barrow exhibited by Buddy Turner were named grand champions at Bovina FFA Sixth Annual Project Show Saturday.

New rectory of St. Ann's Catholic Church on Third Street in Bovina will be dedicated Sunday afternoon at 4.

Mrs. Mel Gunn hosted a covered dish luncheon for members of Bovina Quilting Club Thursday in her home.

"The Sweetest Time of Your Life" was theme chosen for banquet given in honor of the Senior class of Bovina High School Friday evening at First Baptist Church.

Mr. and Mrs. Bedford Caldwell and Mr. and Mrs. Tom Caldwell hosted a social for members of Hammonds Sunday School Class of Methodist Church Thursday evening in fellowship hall of the church.

Mrs. Allan Cumpston presented a program of mission study to members of WMU Tuesday afternoon at First Baptist Church.

Mr. and Mrs. Joe Pinner entertained Church of Christ Young People recently following the devotional at the church.

Miss Janet Gooch was elected president of Altos Lomas Y.W.A. Association recently at a home party at Littlefield.

Mrs. A.M. Wilson was honored with a birthday dinner by the 39ers Birthday Club last Friday evening.

Mrs. Bill Denney hosted a special meeting for several ladies of the St. Ann's Society Sunday morning in her home.

## Revival Planned

Revival services will be held three nights next week, March 15, 16 and 17, at the Bovina Pentecostal Holiness Church, according to the pastor, Rev. Floyd E. Gray.

The Gospel Harmonettes of Amarillo, composed of members of the Walters family, will provide "three nights of good gospel singing and preaching," Rev. Gray said.

Everyone in the area is invited to attend the meetings scheduled for Wednesday, Thursday and Friday nights next week.

## AGRICULTURAL CHEMICALS

--Agricultural chemicals are being used to wage a two-pronged attack on the oldest enemies of man -- hunger and disease. Should the use of pesticides be restricted, says Jack Price, leader for agricultural chemical programs, Texas Agricultural Extension Service, both enemies would get a big boost.

PIG CROP REPORT -- On December 1, 1966 there was 55.1 million hogs and pigs on U. S. farms, 9 per cent more than the number a year earlier, reports the U. S. Department of Agriculture. In Texas, the December 1, 1966 total, according to the Texas Crop and Livestock Reporting Service, was 807,000 head, an increase of 15 per cent over year earlier figures. Texas farmers intend to farrow 8 per cent more sows during the December 1966-May 1967 period than farrowed in the same period a year ago. Nationally, farmers intend to farrow 3 per cent more sows than a year ago for this same period.

TEXAS CROP SUMMARY 1966 -- The Texas Crop and Livestock Reporting Service says 1966 production of sorghum grain, peanuts, barley, rye, soybeans, Irish potatoes and peaches was above a year ago but production of cotton, wheat, rice, corn, oats, hay, sweet potatoes, sugar beets and pecans was lower than a year ago. Sorghum grain production was up by 6 per cent, peanut production was up by 47 per cent with the largest output ever for the state. Cotton production was down 32 per cent; however, per acre yields were 35 pounds above the 1959-64 average.

By Tuloma --

# Hutto, Spears Get Promotion

Ed Hutto, manager of Tuloma Gas Products, for about three years in Bovina, has been named the new manager of the company of District S-1. Wayne Spears is the new Bovina manager. Both promotions became effective March 1.

The district office is being moved here from Hereford and will be located in the Bovina office. Remodeling will be done to provide adequate office space here.

District S-1 includes eight stores at Pleasant Hill, Rhea, Friona, Dawn, Hereford, Hart, Olton and Bovina.

Spears has been a salesman for the Bovina store for about

15 months. Other employees here include Tommy Hamilton, George Douglas and Mrs. Ruth Wilson, office secretary and bookkeeper.

Hutto became manager of the Bovina company when he and J.W. Harris sold their business, Three-Way Chemical Co., to what was then known as Generalgas. The name was changed to Tuloma about the first of the year.

Free textbooks for public school students were first authorized in Texas in 1918.

The Texas State Board of Education consists of 21 persons elected by the people.

# License Plates Available Here

Hugh Moseley, Parmer County tax assessor-collector, will be in Bovina Thursday and Friday, for the purpose of issuing vehicle license plates to owners in this area.

City Hall will be the location of license plates sales the two days, Moseley has announced. The service is offered for those who find it inconvenient to go to his office in Farwell to obtain the 1967 plates.

Deadline for having new 1967 license plates on vehicles is April 1.

Moseley asks those purchasing license plates in Bovina to bring the title to their vehicle and last year's license receipt. Plates have been available in

the communities of Rhea, Black and Lazbuddie.

Moseley has been at the City Hall in Friona for issuance of license plates this week.

TEXAS FARM INCOME -- Texas farmers and ranchers received \$2,128 million during the January-October 1966 period from the sale of all crops, livestock and livestock products. The Texas Crop and Livestock Reporting Service said cash receipts were up 15 per cent from the same period a year ago and that the total for the 1966 period included cash receipts of \$1,152 million from livestock and livestock products and \$975 million from the sales of crops.

## Whittlin' --

(Continued From Page 1)

yearly tournaments here has been good. That's the reason, of course, that the meets have been financially successful.

This year's meet, which will have both men's and women's divisions, begins Tuesday night. No games are scheduled for Wednesday, but play gets underway again Thursday night and continues Friday and Saturday.

For a small amount in admission fees, sports fans may expose themselves to a lot of interesting volleyball games.

Interest in city politics picked up just prior to the filing deadline for candidates for council posts.

About the time we thought there would be no candidates for the positions, five were petitioned.

We know not why the petitions didn't come in before the last week prior to the deadline, but it's nice to have that many good candidates, anyway.

## Petition --

(Continued from Page 1)

ed when a petition was submitted bearing the names of Mrs. Pat Kunselman, Earl Richards, Marie Venable, Ernest Tabor, Bill Denney and Lula White.

The names of Edward Isaac and Robert Hopingardner were submitted by a petition signed by H. J. Charles, L. L. Rhinehart, Oral Kunselman, Jr., Charles Hawkins, Henry Minter and H. R. Denney.

C. R. Elliott and Edward Isaac became candidates with a petition signed by Jimmy E. Ware, Lillian Warren, H. J. Charles, R. L. Hopingardner, O. W. Rhinehart and D. H. Wilkerson.

## COST MORE TO FARM '67

-- Farm production expenses will increase again in 1967 but at a slower rate than in 1966, says John G. McHaney, Texas A&M University Extension economist. The nation's farmers spent about \$33 billion in 1966 for overall production expenses, up 8 per cent from 1965.

RECEIVES PRESS HONOR -- Sergeant Major of the Army, William O. Wooldridge of Brownwood, Texas, was honored by Texas Press Association with its 1967 "Distinguished Service Award" at the Association's Winter Meeting in San Antonio. Wooldridge, shown here with the copper, engraved plaque, presented by TPA, is the Army's Number One enlisted man and the first ever to hold the title of Sergeant Major of the Army, a position created in July, 1966. In making the plaque presentation, TPA Pres. Jim Barnhill, publisher of the Hillsboro Daily Mirror, said "We are most proud to pay tribute to the Sergeant Major for the tremendous service he has rendered our nation and for the fame he has brought to Texas."

## Know The Truth

By Lavern Stewart

Are you in Christ? Do you understand what it means to be in Christ? Notice these passages that contain the expression "in Christ" and by these texts learn that one could not go to heaven unless he is so related to the Lord; I Cor. 1:30, "But of him are ye in Christ Jesus, who of God is made unto us wisdom, and righteousness, and sanctification, and redemption." II Cor. 5:17, "Therefore if any man be in Christ, he is a new creature; old things are passed away; behold, all things are become new." Would you read over these two scriptures again and note the things that one has or else becomes by getting into Christ? How could one go to heaven without being redeemed or being made righteous? But both of these things are enjoyed only in Christ. Further, consider II Cor. 5:21, "For he hath made him to be sin for us, who knew no sin; that we might be made the righteousness of God in him." By his sins man is separated from God (Eph. 2:1) and therefore must be reconciled to God before he can enjoy the bliss of heaven. Seeing that man had no way to atone for his own sins, Jesus died to pay the debt and therefore enable man to come back to God. Now, do you know where one can meet God or be reconciled to Him? There is a place, II Cor. 5:19, "To wit, that God was in Christ, reconciling the world unto himself, not imputing their trespasses unto them; and hath committed unto us the word of reconciliation." Another passage that shows one is reconciled to God in Christ, Eph. 2:13, "But now in Christ Jesus ye who sometime were far off are made nigh by the blood of Christ." Now, comes the big question: How does a man get into Christ? Do you know of some scripture that tells how to get into Christ? There is just one act that the Bible says puts one into Christ: Baptism, Romans 6:3, "Know ye not, that so many of us as were baptized into Jesus Christ were baptized into his death?"

# HUGH MOSELEY

Parmer County Tax Assessor-Collector

Five Candidates --

# School Sets April 1 Vote

As the deadline closed Wednesday for filing as a candidate for trustee of Bovina Independent School District, no additional names had been submitted other than the five already filed, according to Mrs. Pearl Dodson, school tax assessor-collector.

They will join the holdover members, Grady Sorley, Don Murphy, Leon Grissom, Leslie McCain and Billy Marshall.

Bell has served a three-year term on the school board, while Sherrill was appointed to fill the term of Robert Read, who resigned.

Those names which will appear on the ballot, in order as they were filed, include Dean McCallum, Eddie Gayle Steelman, Durward Bell, J. E. Sherrill, Jr. and Lawrence Jamerson.

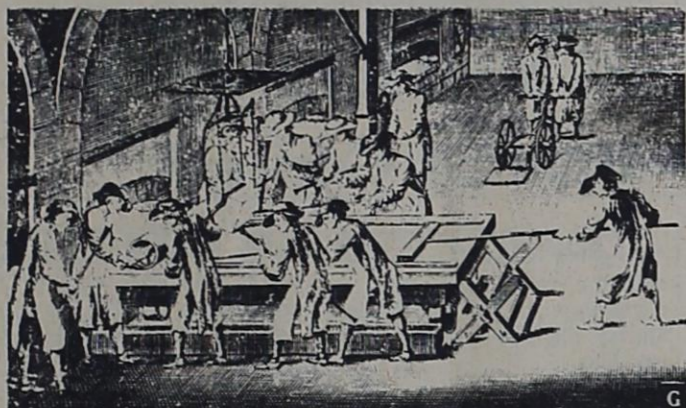

The names of McCallum and Steelman were filed by petition when the required number of qualified voters signed and submitted such to the school board. Jamerson was the last name filed as a candidate.

The terms of Bell and Sherrill expire this spring.

Three of the candidates are farmers, Bell, Steelman and Jamerson, while McCallum is a farmer-real estate agent and Sherrill is owner of a lumber company.

Election is set for April 1, when voters will name two men to the board.

## THE HISTORY OF GLASS

Making plate glass in the 18th century required speed and minute attention from every workman. Here the molten glass is poured onto a large table, where two men move a copper roller over it. Other assistants catch and pluck out any bits of dust which might fall on the still soft surface.

Safety glass in aluminum patio doors is now becoming standard; interestingly, it was only 350 years ago that windows which provided some control over room temperature and ventilation became standard. These were crude devices, usually consisting of 15 to 20 square panes divided by horizontal and vertical lead bars. A wrought-iron frame, hinged on one side, allowed the window to swing open.

When the Romans conquered Egypt, they took back to Rome samples of glassware and secrets of glass-making.

During the Middle Ages, no church was complete without beautiful stained glass windows. The first glass mirrors and crude eyeglasses date from about the 13th century.

Glass, itself, is even centuries older. The first man-made glasses were glazes, used as decorative coatings on stone beads; the earliest known examples, found in Egypt, date from 12,000 B.C. The oldest pure glass object in the world, a tiny blue amulet, is 9,000 years old. To the ancient Egyptians, glass was a luxury item, so expensive that glass beads were considered as precious as natural gems! Glassblowing was unknown. Early Egyptian artisans made glass vessels by winding rods of hot, softened glass around a central core of sand built up on a metal rod.

Plate glass with the clarity we take for granted today, was unknown less than 100 years ago. Today, glass is not only clearer, but safer. Aluminum patio doors which contain safety glass help insure that your youngsters will not be cut should they fall against the glass. If safety glass should break under heavy impact, it crumbles into small granular fragments rather than large, sharp-edged pieces, minimizing the danger of serious personal injury.

Other new ideas in glass include window panes that automatically regulate heat and light. Tomorrow, entire cities may be enclosed in glass domes that can regulate the weather!

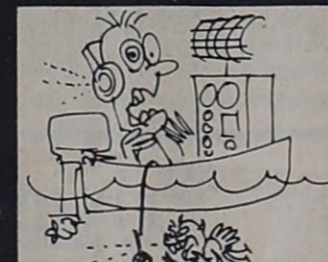

## SCIENCE SKETCHES

MOLECULES OF HYDROGEN can crack hardened steel, reports Alloy Rods Company, York, Pa. If sufficient hydrogen is present in the gas surrounding a welding arc, it enters the steel as atoms that unite to form molecular hydrogen. An atmosphere low in hydrogen provided by iron powder electrodes prevents the faulty welds.

KIDS who usually get their knowledge of space science from books of cereal boxes will now get it straight from the teacher's mouth, reports Northwestern University, where a Workshop in Space Science deals in classroom material for kindergarten through eighth grade.

ZOOPLANKTON, minute organisms that are an important food for fish, are being located by echo sounding. University of Wisconsin limnologists say layers of plankton are detected by a device that emits sound pulses that are reflected by the plankton.

"You mean all those cars outside? We rented them from a used car lot for decoys!"

**BRIDGES OR WALLS**

There exists in our world many things which divide people—geography, language, color, social divisions, ideas, opinions, backgrounds, and so on. One is shocked to review the many reflections of divisions among men everywhere. No wonder that the world is so filled with conflict and rebellion.

Any person who seriously considers his role in the community of man must surely be moved by this state of affairs and caused to seek to make some contribution for the cause of unity and understanding among men. Someone has said that we should all build bridges and not walls. If every person could believe that a better home, a better church, a better community, yes a better world begins with me, what a difference that person's life would make.

The Christian message which is found in the New Testament, which the church exists to proclaim, is a message of unity and brotherhood. It is a message which says that a better world begins with you and me. You and I can be builders of bridges or walls! The choice is ours.

HOUSTON SHOW WINNER -- Larry Mitchell's lightweight Duroc took fourth place last week in the Houston Livestock Show when the barrow competed with 5 animals 4in that class. Larry, a member of the FFA Chapter and a junior in Bovina High School, is the son of Mr. and Mrs. Dean McCallum. (FFA Chapter photo)

At Houston --

# Two Barrows Win Ribbons

Two barrows, projects of Bovina FFA boys, placed in the Houston Livestock Show held there last week.  
Larry Mitchell placed fourth in the Duroc division of the show and Raymond Drager placed 15th in the Chester White division.  
Both animals sold there for 35 cents per pound.  
Also attending were Alan and

Gary Carson, who exhibited in the Angus heifer, Shorthorn heifer and Charolais steer events. However, none of them placed high enough to receive a ribbon.  
Accompanying the group to Houston were Vocational Agriculture Instructor John Paul Jones, Mr. and Mrs. Dean McCallum and Mike, and Mr. and Mrs. C. G. Drager.

4-H PROJECT WORK-- Is it worthwhile?  
How many eleven year old girls do you know that can stand up before an audience of 30 people and demonstrate and tell about the need for milk in the diet? That is exactly what Deborah Harding, a member of the Lucky Clover 4-H Club did in the 6th grade Science class recently. Not only does 4-H provide opportunities for girls and boys to participate by "learning to do by doing," but they develop self-confidence and this gives them a "head-start", over the ones that are

not trained in project work. Parents would do well to investigate the 4-H work and encourage their children to participate.  
NEW ORGANIZATION LEADER  
Farwell 4-H Club has new Organizational Leaders, Mr. and Mrs. Doyle Green, who will take over the duties of this position in September. Mrs. Green will really be the leader and assisted by her husband when his time permits.  
The Greens have a family of four boys and Mrs. Green like others with a family is a busy

# Tractor Fire Burns Worker

Joe Shepherd received possible second degree burns when butane ignited while he was filling a tractor tank last week on the Charles Hawkins farm west of Bovina.  
He is in Parmer County Community Hospital where he is expected to remain two or

three weeks. Shepherd received burns on his stomach, back and both arms.  
He had been plowing and had stopped to fill the tractor. After the butane ignited, Shepherd managed to get out of the tractor and started for help. The fire had been seen by Pete Davies, who was at the Robert Read farm. He picked Shepherd up, and he and Hawkins took the man to the hospital.  
Mrs. Hawkins said this week that Bennie is "doing fine" and was not burned as badly as was thought at first.  
Shepherd is employed by Charles Hawkins.

## McCutchan In Training

SAN ANTONIO, Tex. - Airman Albert L. McCutchan, son of Mr. and Mrs. Elbert L. McCutchan of Bovina, has been selected for technical training at Sheppard AFB, as a U.S. Air Force medical service specialist.  
The airman recently completed basic training at Lackland AFB. His new school is part of the Air Training Command which conducts hundreds of specialized courses to provide technically trained personnel for the nation's aerospace force.  
Airman McCutchan was graduated from Bovina High School and attended Eastern New Mexico University at Portales.

By Mary Whitman  
"Everyone is born with a bird in his heart."  
That was a favorite quote of a famed ornithologist. Many would agree. Boy and man have dreamed of being birds. Early man drew bright bird pictures on cave walls. Biblical references to birds abound. Religions and arts have woven the bird motif into myths and tapestries.  
So we learn from a book called *Birds Everywhere*, part of the World Library series of Whitman Publishing Company of Racine, Wisconsin.  
The big bird book is designed for children, but will charm those over 21 as well.  
Bird watching is a world-wide hobby. Rich or poor, jet or jalopy set can enjoy it. Anybody with a camera, binoculars or an appreciative eye can take up the sport of studying our winged population. There are over 8,000 species of birds in the world. Over 600 kinds can be seen in North America.  
Birds outdo bird-watchers in many ways. The bald eagle, our national symbol, can see a hundred times better than man. Baby penguins go to communal nursery schools. Geese can fly at 27,000 feet and spend winters in India by crossing the Himalayas. A male ostrich is brave, and can also run fifty miles an hour -- not a bad combination. The plover goes nonstop 2400 miles. Swallows never get lost.  
These and other little-known facts fill the book, which can be enjoyed by the whole family. Included in it are migration maps, tips on bird care, background on how birds are banded, and brilliant pictures of birds of many nations.  
Any month is good to begin bird-watching. In April, many birds return. May and June are birdsong months, and a tape recorder can catch priceless melodies. In July, young have hatched. In August and September outward flights begin, peaking in October. In November and December, stay-at-home birds gather at feeders and around picture windows for a winter carnival.  
Want a hobby? This is a good book to give as a gift, and then borrow.

## All Right... Let Us Judge CATHOLICS BY THE BIBLE!

Many sincere people regard the Bible as the sole authority for Christian belief.

And they reject the teachings of the age-old Catholic Church because these teachings and forms of Catholic worship are not mentioned by name in Holy Scripture. "Where," some will ask, "does the Bible say anything about the Mass or Purgatory? And how about confession to a priest, praying to Mary, and those seven Sacraments you Catholics talk about? They're not in MY Bible."  
Although everything contained in the Bible is true, yet the Bible is not the sole source of all truth. For example, we know that Christ established His Church... that the Church existed long before the Bible was completed... that millions lived and died in the Savior's truth without ever having seen a Bible.  
But we are willing to set aside these historical truths for the moment and judge Catholic beliefs and practices by the Bible.  
Take first, for instance, the fact that the Bible does not mention the Mass or Purgatory by name. Well, neither does it mention the word Bible by name. Furthermore, nowhere within its covers is it stated what are the writings which contain the inspired Word of God. The only authority you have for this is the word of the Catholic Church, which preserved and collected the Scriptural writings and put them between the covers of a book.  
The word "Sacrament," meaning a sacred rite, is not used anywhere in the Bible. But Holy Scripture does make clear the sacredness of such Catholic rites as Baptism, Confirmation, the Eucharist, Matrimony, Penance, the Last Anointing, and Holy Orders, the latter rite being the

deputizing of the successors to the Apostles.  
The Sacraments were in possession of the Church and in daily use before a single line of the new Testament was written. People were being received into the Church by Baptism long before there was a New Testament. They were receiving Confirmation, were being married according to Christ's teaching, and praying over and anointing the dangerously sick.  
Christ definitely did establish His Church. He did establish His Apostles, and their successors, to continue His teaching. He did promise that His Church would endure forever, and could not fall into error. But He never did say: "All My teachings shall be in a book. Read and believe nothing else."  
A tremendously interesting pamphlet explaining the Catholic teaching concerning such things as the Sacraments, Purgatory, why Catholics do not eat meat on Friday, why we call it Catholic Church instead of "Roman" Catholic will be mailed promptly on your request, and nobody will call on you. Write for Pamphlet No. KC-28.

**CARROT GRAZING** -- Light steers are grazing a 20-acre field of unharvested carrots on the Jim Seaton farm eight miles southeast of Bovina. This is believed to be the first time carrots have been grazed in this area. The cattle are owned by Norvell and Jerry Strawn. Seaton planted the carrot crop following wheat last year and was unable to get it harvested. The yield of saleable carrots was estimated at 10 tons per acre if the crop could have been harvested. Seaton keeps fresh carrots plowed up for the cattle to graze. Note that they are grazing in the recently-plowed rows at right. At left are rows of carrots still to be plowed up.

**CAMPUS CLOTHING CARE** -- You can get more mileage from your campus outfits if you give them the right kind of care, says Miss Mary Touth, Texas A&M University clothing specialist. Shoppers will want to make sure a garment or material has been pre-shrunk or stabilized before buying it. Check the belt of dresses carefully, for some

expensive garments may have inexpensive paper-backed belts that are not durable. After you have purchased a garment, keep the hangtags. It's a good idea to file these hangtags--which contain important cleaning instructions--at your dorm for quick and handy reference, says the specialist.

**On The Farm In Parmer County**  
By RONNY McNUTT  
County Agent

**REPLANT IRRIGATION:**  
As preplant irrigation begins, we recommend that farmers plan their first watering so they apply only the amount which can be effectively stored in the soil's root zone.  
There are instances where as much as 12 inches are applied when six inches will bring the soil to its field capacity throughout the root zone. Field capacity is the maximum amount of water a soil can retain for crop use. Watering deeper than four feet is usually inefficient and results in considerable losses to deep percolation. Water necessary to saturate the root zone varies with the soil type.  
Hardlands, such as Pullman clay loams, hold an average of 2 to 2 1/2 inches of water per foot of soil. At this rate, it takes eight to 10 inches to fill the four foot root zone. But the intake rate of these soils is extremely low so it is difficult to apply much more than four inches per irrigation.  
Mixed lands, such as Amarillo fine sandy loams, hold about 1 1/2 inches per foot of soil. A six-inch preplant irrigation should bring the root zone to field capacity.  
To estimate the amount of water applied per irrigation, farmers first learn the pumping rate of the well. This gallons-per-minute figure can be converted to acre-inches per hour by dividing it by 450. The acre-inches per hour can then be multiplied by the time per set and divided by the area irrigated to give the number of inches applied per acre.  
For example, this is how you can figure a 700 GPM well pumping on 1.5 acres for a six hour set. (1) The 700 GPM well puts out about 1.55 acre-inches per hour (700/450=1.55). (2) Multiplying the acre-inches per hour of 1.55 times the 6 hours of the set gives 9.3 total acre-inches. (3) This 9.3 is then divided by the area irrigated or 1.5 acres to give 6.2 inches of water per acre.  
Irrigation is not 100 per cent efficient because of such things as ditch losses and evaporation. Average efficiency is estimated at about 70 per cent, with open ditches, so the average amount of water applied per acre in this example is 6.2 inches times .7, which is 4.34 inches.  
Notice that we use the word "average." The water penetration will be greater at the upper end of the furrow and less at the lower end.

**HIGHLIGHTS OF INSECT ACTIVITY**  
Greenbug populations continued to increase this week on wheat in the northern portion of the Panhandle. Although most infestations remain light and non-economical, counts in isolated spots of Swisher and Hale counties ranged as high as 250 GREENBUGS/row foot, necessitating control measures on the part of several farmers in the area. Infestations may be expected to increase until later March or April, especially during prolonged cool weather.

March 18 --

**Parmer Food Show Set For 4-H Clubs**

The County 4-H Food Show will be held Saturday, March 18, at 1:30 p.m. in the Hub Community Center, according to Cricket B. Taylor, County Extension Agent.  
A total of 42 members of 4-H Food project groups are expected to exhibit food, and compete for 4-H County awards. Both Junior and Seniors will exhibit a food they learned to prepare and serve, and tell why the food is necessary for good health. Foods will be exhibited in one of the basic food groups, by each contestant, Mrs. Taylor said.

The exhibitors will be judged on their knowledge of Food and what it contributes to the daily diet, the general appearance, quality, flavor and cost of food. Also, the appropriate table appointments for the food served, color scheme and how exhibitor expresses herself.  
The public is invited to see the display at 3:30 p.m. Adult 4-H Leaders will serve refreshments.

**DRIVING WHILE DRINKING**  
Driving while drinking is involved in nearly 40 per cent of the fatal accidents on the rural highways of Texas, according to records compiled by the Texas Department of Public Safety. "Texans for Traffic Safety" says watch out for the drinking driver and, above all, make sure you're not one of them.

**WATER SPYDER**

The boat that's making waves all over North America is the revolutionary hydrofoil runabout, which skims along at thrilling speeds 14-18 inches above the surface of the water. Manufactured by Water Spyder Marine, Ltd. of Downsview, Ontario, Canada.

**HERE WE GO AGAIN!**

Another planting season will soon be here. And that means fertilizer is again one of your major needs.

When it comes to fertilizer, think first of Cyanamid Farm Supply! Whether it's ammonia or dry materials, chemically mixed or blended goods, bagged or bulk, we've got it.

We've also got the services to back up the products. Soil testing. Crop planning. Delivery and custom application. Follow-up farm calls when needed. These are all part of the bargain when you buy at Cyanamid Farm Supply.

Call us soon!

Cyanamid serves the man who makes a business of agriculture.

**NEW 1660 COMBINE**

**Big 52-Inch Cylinder Capacity**  
**— Biggest In The Field!**

Here's the giant of the grain fields! 52-inch feeding and threshing to handle heaviest yields -- fast! Big 52-inch cylinder with four solid cast heads and massive rubber bars! 50 square feet of separating area... 32 square feet of cleaning area!

And the new Case 1660's big harbest capacity is more than 52-inch-wide threshing-separating.

It's the 100 hp V-8 engine with plenty of reserve for tough going...

It's the 100-bushel grain bin with fast discharge auger that means less time unloading, more time combining...

It's convenient on-the-go controls that let you make feeding and threshing adjustments without stopping...

It's Case built-in quality and strength that keeps drives and cutting parts aligned, keeps you combining when the crop is ready...

All these add up to big harvest capacity measured in extra acres and bushels harvested at day's end. Get the big Case 1660 story from

Here March 22 --  
**Parmer County Sets Grain Sorghum Meet**

Parmer County Grain Sorghum Producers Association will hold its educational and directional meeting at the First State Bank in Bovina at 10 a.m., Wednesday, March 22, with Gene Smith, GSPA director, in charge.  
This is one of a series of meetings scheduled for several counties in the Texas South Plains between March 15 and March 28.  
County GSPA directors and officers will be elected during the business session.

Elbert Harp, a farmer of Abernathy and president of GSPA, said that farmers have done the best job ever in supporting the organization. This is a series of meetings to inform them of the programs and projects currently being worked on by GSPA and to seek added direction on new activities for grain sorghum betterment.  
Y. F. Snodgrass of the GSPA staff will be discussing the possibility of changing county loan rates on sorghum as well

as the new labor laws affecting producers.  
Rudie Tate of the GSPA North Plains staff will talk on current new developments in livestock feeding and processing in the sorghum area as well as possibilities for food and industrial use of grain sorghums.

**THE TEEN-AGE GROOM** -- Little attention is given to the teen-age groom, although volumes have been written about the teen-age bride, points out Mrs. Patsy Yates, Extension specialist in family life education at Texas A&M University. Many young couples find shortly after marriage that they love each other but they really don't like each other. Friendships don't just happen. They are built over a period of time. The teen-age groom will do well to begin making friends with his wife by seeking knowledge and understanding of her as a person, Mrs. Yates says.

Solo, Ensemble --

# Band Members Enter Contest At Lubbock

A large group of Bovina High School band members will enter Texas Interscholastic League solo and ensemble contests to be held at Monterey High School in Lubbock Saturday.

They will enter three divisions of the event. Division I is termed as difficult, Division II, medium difficulty, and Division III as less difficult.

Entrants will receive ratings of I, II, and III in the contest in each division.

Entries include:

Solos

Division I: Mike Grissom, tenor saxophone; David Dixon, cornet; Vickie Hawkins, clarinet; Sharon Hemke, clarinet; Kathy Estes, alto clarinet; Larry Mitchell, tenor saxophone.

Division II: Pam Grissom, flute; Paul Aday, trombone; Nina Spicer, clarinet; Cindy Barrett, clarinet; Sheryl Lane, flute; Candy Wilson, tenor saxophone; Sheryl Moore, string bass; Ronnie Dyer, bass horn; Steven Lane, cornet.

Division III: Deborah Spicer, clarinet.

Ensembles

Division I: Clarinet quartet; Sharon Hemke, Sandra McCauley, Cindy Barrett, Nina Spicer. Cornet trio, David Dixon, Joe Dan Stevens, Eugene Bowman. Saxophone quartet, Bill Caldwell, Meloney Marshall, Mike Grissom, Tommy Spears. Drum quartet, Bruce Caldwell, Mike Beauchamp, Greg Bell, Raymond Quintana.

Division II: Mixed Clarinet quartet, Margaret Venable, Patti Foley, Loy Christian, Carol Jamerson. Flute trio, Sheryl Lane, Deborah Hawkins, Rose Marie Denney. Brass sextet, Ellen Denney, Eugene Bowman, Phil Sorley, Paul Aday, Beth Hutto, Ronnie Dyer. Saxophone quartet, Meloney Marshall, Billy Kesler, Candy Wilson, Larry Mitchell. Mixed clarinet, Denise Clements, De-

bra Kirkpatrick, Kathy Estes, Nancy Mitchell.

Division III: French horn

quarter, Beth Hutto, Judy Sisk, Lajuana Hastings, and Weldon Beardain.

Tournament Here --

## V'Ball Play Set Tuesday

Bovina Volleyball Tournament will begin Tuesday, according to Roy Stone, Bovina High Athletic director. The event will continue on Thursday, Friday and Saturday, he said, but no games will be played on Wednesday.

Deadline for entering the event for both men's and women's teams will be Saturday. Entry fee is \$6 per team. Both entry blanks and entrance fees may be obtained and paid to Stone.

Eight players will be allowed for each team, he said. Trophies will be presented to first, second and consolation in both men's and women's divisions.

Admission will be 25 cents for players and students and 50 cents for all others.

Stone said the gymnasium would be available after school hours to teams for practicing after the entry fees are paid.

## Clinic Held For Coaches

Coaches Roy Stone and Roger Ezell will attend a coaches clinic at West Texas State University this weekend.

They will attend the teachers' meeting in Amarillo Friday and then the clinic Friday evening and Saturday.

Any team, local or out of town, is invited to enter the event to be held in Williford Gymnasium. These may be composed of adults, or students, Stone said.

AIC ROGER SIMMONS

## R. Simmons In Vietnam

AIC Roger L. Simmons, husband of the former Miss Patricia Ann Crook, is currently serving in Vietnam, according to a news release from the 31st Tactical Fighter Wing (PACAF) OI, Tuy Hoa Air Base, Vietnam.

He arrived for duty there on Dec. 6 and was promoted to Airman First Class on Feb. 1.

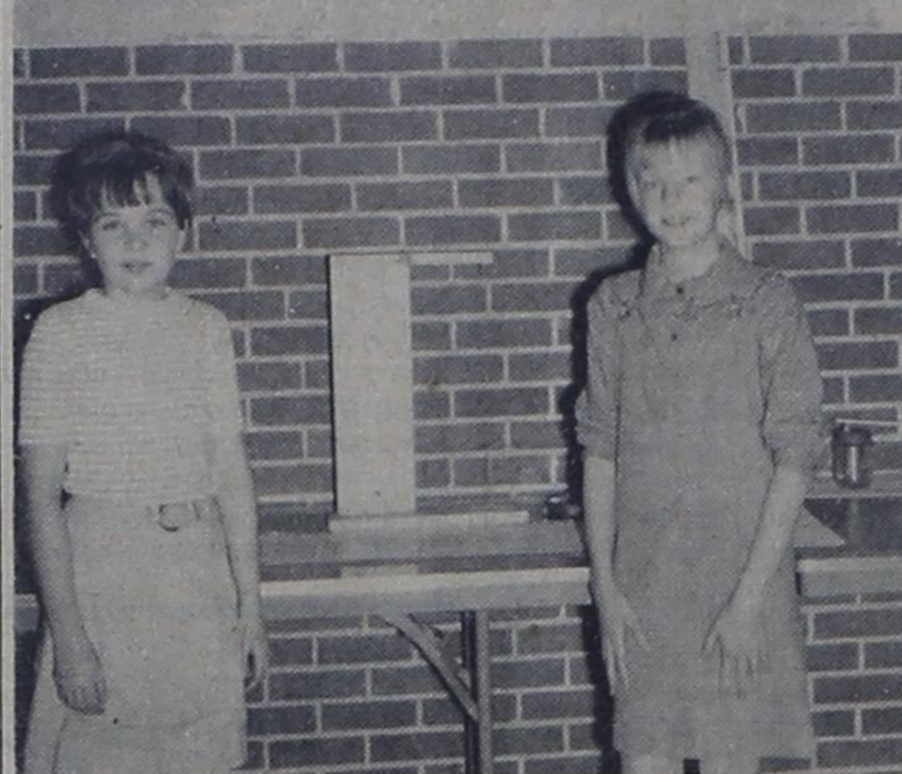

In Vietnam he is administrative specialist of the information office.

Simmons is the son of Mr. and Mrs. James L. Simmons of McNeill, Miss. His wife is the daughter of Mr. and Mrs. F.M. Crook of Bovina.

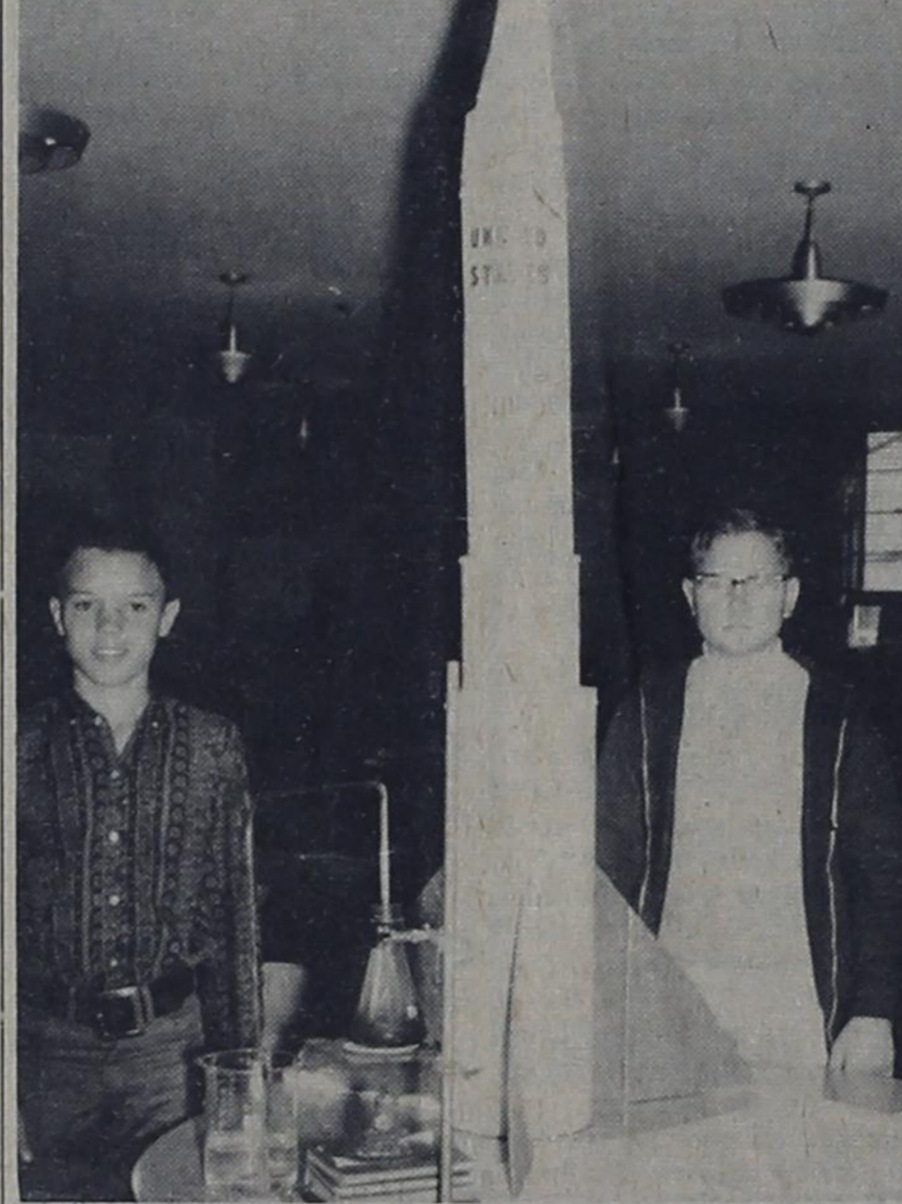

STIFFER PENALTIES NEEDED

A mandatory three day jail sentence for driving a motor vehicle while license is suspended or revoked might have an effect on dangerous, irresponsible drivers, say "Texans for Traffic Safety."

WEATHER STATION -- A portion of a weather station made by fifth grade students for Tuesday's exhibits during Public School Week is this barometer, which teachers say "really works." Rhonda Rhodes and Christie Trimble made their display from wood, gut string and a toothpick. Elementary exhibits were seen in the grade school gymnasium.

MODEL OF ROCKET -- Seventh grade science students Tim Monk and Mike Spears designed and made the rocket model displayed in the library room of Bovina High School during Public School Week, Tuesday, parents were invited to see the displays, which were judged and ribbons awarded. Tim and Mike made the rocket of coffee cans, oatmeal boxes and cardboard.

Exhibits Judged --

## School Marks Special Week

This week is Public School Week and parents were invited to see the science, math and other departmental exhibits on display Tuesday in both high school and elementary wings.

Lunch was served to parents in the cafeteria at noon.

Judging of the displays was conducted Tuesday afternoon and results will be announced in next week's Blade.

School officials pointed out that although Tuesday was emphasized as the day set aside for exhibits, parents are invited to attend classes or visit the school any day of the week.

Seventh through 12th grade exhibits were displayed in the library room in high school, while first through sixth grade projects were shown in the elementary gymnasium.

Displays were also on exhibit in various classrooms, both in grade school and high school.

In-Service Training --

# Workshops Planned For Teachers Here

Beginning Tuesday a series of teacher workshops and in-service education meetings, as required by the Texas Education Agency, will be held for all teachers in the Bovina Schools,

Otis Spears, superintendent, announced this week.

School classes will be dismissed early on the days the meetings are held, Spears said. Tuesday, classes will be dismissed at 2 p.m. and the workshop, which will concern using reference material in the classroom, will begin at 3 p.m.

A second meeting has been set for Wednesday, March 29. Classes will also be dismissed at 2 p.m. that day, with the meeting beginning at 2 p.m. also. Curriculum guides for English from grades one through 12 will be made on that day.

During the possibly 12 in-service meetings, curriculum guides will also be made for math, science, etc.

The additional meetings will be held periodically until school is out in the spring, Spears said.

He pointed out that the Texas Education Agency requires both in-service training for teachers in all Texas public schools, and for curriculum guides in all phases of school work.

Saturday Night --

# Good Crowd Attends Play

A large turn-out attended the annual senior play, "The Magic Touch," Saturday night in the Bovina school auditorium.

The cast, consisting of nine girls and six boys, presented the comedy in three acts.

The event included a style show, with fashions provided by The Smart Shop.

Between scenes during the third act, Mrs. Patricia DiCuff and Tuck Lusk, sponsors of the class and directors of the play were presented gifts from the class by Karen Beauchamp.

Eddi Corn presented gifts to Carl Harris and Gina Clawson. The two provided between-acts entertainment when Carl sang "Dear Lonely Heart," "Co-

rina," and "Unchained Melody," accompanied by Miss Clawson.

Appearing in the class production were Wayne Davies, Karen Beauchamp, Gale Boyd, Carol Jamerson, Candy Fleming, Randy Jones, Kregg Wilson, Larry Dendy, Beverly Pinner, Tommy Crump, Roxie Hutto, Josie Alonzo, Nancy Pewitt, Debbie Edens and Lane Gober. Models, in addition to some of the cast members, were Janice Boothe, Janie Hawkins and Frances Sierra.

Other student assistants were Eddi Corn, Ricky Kunselman, Delbert Lorenz and Alfred Stanberry.

Tuesday --

# Assembly Set On Soviets

Rev. J. Frank Perry, pastor of First Methodist Church in Muleshoe, will present slides and a talk on his trip to Russia in an assembly program at Bovina Schools at 10 a.m. Tuesday.

"A Living Picture of the Soviet Union -- Its Influence and Place in Today's World," is the topic of the program.

Before moving to Muleshoe, Rev. Perry, whose native home is Fort Worth, served as pastor of Trinity Methodist Church in Amarillo, chaplain of Amarillo police department, and was instructor of Bible at Tascosa High School.

His hobbies include photography and stamp collecting and is especially interested in stamps from iron curtain countries.

Rev. Perry is a graduate of

Arlington Heights High School in Fort Worth, Southern Methodist University and Duke University. He received eight letters in high school athletics and two letters in college athletics.

During the past four years, Rev. Perry has given 400 programs concerning the Soviet Union.

His wife, Tempey, is the daughter of Mrs. Emley Kelly of Bovina.

WITHIN the next decade 50 per cent of the steel produced in America will be made by the basic oxygen technique, predicts Charles J. Haines, chairman of Chemetron Corporation, Chicago. At present only 17 per cent of ingots poured in the U.S. are produced by this method.
