WHITTLIN'

By DOLPH MOTEN

Milo harvest, 1967, is turning out to be of the bumper variety. The reported yields are higher than ever before and are in many cases they are twice what was considered an ample production per acre just a few years ago.

Why is 1967 such a good year for milo?

The most-often answer to this question is that good rains this summer fell "just right" for the maize plants to produce to the fullest. The rain wasn't spectacular from the standpoint of total moisture, but it turned out to be timely and of the greatest benefit to the crop.

We understand that maize goes through critical stages for need of water. If it gets it at that particular time, the yield will be boosted considerably. It's difficult to provide this moisture with irrigation at the most opportune time. It can be done, but it's much easier if the rainfall takes care of part of the irrigation for the farmer, in other words.

The rains last summer turned out to be ideal even though they didn't create a great deal of excitement at that particular time. Then, it was hard to determine just how much good the moisture was doing. It wasn't until the crop had reached the mature stage that many farmers realized they had produced record-shattering yields.

Yields of 10,000 pounds per acre -- that's five tons -- aren't commonplace this year, but they're not unheard of, either. Several farmers have reported yields in the neighborhood of those figures on "patches." Overall yields in the range of 7,000 to 9,000 pounds per acre seem to be in the accepted class this year and stories about such have ceased to raise eyebrows.

Milo is considered the ideal crop for this area, of course, but this year it has outdone even itself. There's something about the Plains area, other than the abundant irrigation water, that makes for fine milo production and always has, we understand, even back in the days of dryland farming.

A combination of natural things contribute to the success of milo in this area, we're sure. Cotton, for instance, really does better in sections which have a longer growing season than this immediate area usually does. Wheat, too, can often be produced better in other areas of the country.

But when it comes to milo, we're pretty hard to beat and this year makes that statement doubly true.

We were discussing the abundant yields of this year with J. T. Hammonds, who sells seed. He says that this area is probably as good for corn production as for milo even though corn has pretty well remained in the background during the area's farming history. He expects more and more acres to be planted to corn in years to come.

His reasoning is that the price of corn is higher than that of milo and everything else is about equal -- yield, amount of water needed, farming practices, etc.

Harvesting of corn has been somewhat of a problem in the past, but this can be overcome when and if there's sufficient acreage planted to justify it. Corn needs water more critically at a certain stage in the plant life than does milo, he admits, but this can be taken care of, too, with proper management.

Hammonds says one thing that is presently holding back, if you can imagine, the production of grain sorghum is that the leaves don't allow enough sunlight to reach the overall plant. Research is being done now, he told us, to develop a plant with leaves which grow in a way to allow more sunlight to be made available to the overall plant. Now, according to the seedman, we're getting maximum production, or thereabouts, from the water and fertilizer. More sunlight is the thing needed to kick yields even higher.

Still higher yields are hard to imagine this year, we'll admit, but who's to say that milo pro-

(Continued on Page 2)

Homecoming Scheduled Here Friday

Mustangs Meet Favored Farwell In Grid Battle

The Bovina Mustangs attempt to do here Friday night what they haven't been able to do in the past 12 years -- defeat the Farwell Steers, cross-county rival, on the gridiron.

The District 3-A game will be played on Mustang Field and will begin at 7:30.

As usual, the Steers will be heavily favored to win the game, but that doesn't keep the Bovina team from making dedicated efforts to upset the blue and white-attired boys from the county capitol.

The Steers, coached by Toby Booth, are figuring the Bovina game is another step on their way to the district championship. They are presently 2-0 in district competition with wins over Springlake-Earth, 20-0, and Kress, 22-0.

The Mustangs, on the other hand are winless in conference play. They've dropped three, to Sudan, 33-7, Springlake-Earth, 20-13, and Kress last week, 15-7.

The Steers enjoyed an open date last Friday night before playing their two final district games, this week against the Mustangs and next week against the Sudan Hornets in the game which is now expected to decide the 3-A championship. The Hornets also are undefeated in district action.

The last time the Mustangs defeated the Steers was in 1954. Since that time, the Farwell team has come out on top 12 consecutive times. Bovina came closest to winning in 1962 when the score of the game was 14-18. During the 12-year drought for

the Maroon and White, three 0-6 games have been played. The last of those was in '65, Farwell won last year, 28-12.

Farwell has a record of 3-3-1 for the season. In addition to the two district wins, the Steers also downed Tucumcari. Losses have been to Friona, Plains and Seagraves. The tie was with Dimmitt.

This will be the final district game of the '67 season for the Mustangs and also will be the final home game. To conclude the present campaign, the Ponies go to Seagraves Nov. 10 to take on the highly-rated Eagles in a non-district tilt.

Mustang Coach Roy Stone says his team will be in good physical condition for the tilt. Coach Stone rates the Farwell (Continued on Page 2)

Parade, F'Ball Coronation Highlight Day's Activities

Amid a parade, bonfires, football queen and hero coronations, pep rally, and the football game itself, homecoming activities at Bovina High School will be held here Friday sponsored by the Student Council.

Kicking off the celebration will be a bonfire east of the baseball field at 7:30 p.m. Thursday.

A pep rally will be at 10 a.m. Friday, followed at 2 p.m. by the homecoming parade.

The 1967 football queen and football hero will be crowned at halftime activities of the Bovina-Farwell Class 3-A game, which starts at 7:30 p.m.

Following the game, at least two organizations will provide entertainment for teenagers attending homecoming celebration.

Candidates for football queen this year will be Zelda Donaldson, LaNelle Christian, who are both seniors; Eva Jo Clawson, junior; and Debra Kirkpatrick, freshman. They were chosen by members of the football squad.

Pep Club members named candidates for football hero, Lynn Murphy, Daryl Kirkpatrick, Tommy Sisco and Carl Harris, all seniors.

Identity of those selected for the honors will be revealed when the coronation ceremony is held. Bovina High School band will make a heart formation and play "Moon River."

Queen candidates will enter the field in automobiles, and floats entered in the parade by school classes will also be paraded at the ball game.

ball game, Sharon Plerson will sing the "Star Spangled Banner" accompanied by the High School Band.

The parade will begin at 2 p.m. on Main Street, continue down Third Street and travel past the schools, according to Gary Cox, high school principal.

School will be dismissed at 1:30 p.m. for the parade, but all elementary students will be required to remain on the school grounds. After the parade is over, elementary students will be released and school buses will run, Cox said.

Entered in the parade will be floats entered by the school classes. The Student Council will award prizes of \$25, \$15

Three Recently --

Deserted House Fires Checked

Investigations are underway into fires which have resulted in three deserted houses being destroyed in the Bovina area within the past two months, according to Deputy Sheriff Henry Minter.

The latest fire occurred Monday night on the Freda Finley place five miles west and one mile south of Bovina when an old farm home was burned to the ground for no apparent reason.

When Bovina Volunteer Fire Department arrived on the scene, the house had already burned to the ground, according to Pat Kunselman, fire chief.

"Three such houses would burn for no reason," Minter said. None were wired or had butane connections. He stated that he does have a few leads on the possible causes.

A fire in a box car at Bovina Gin Company brought out the Fire Department Saturday night which resulted in loss of furniture inside. No one was living in the box car at the time, Kunselman said, but the interior was gutted.

Last Thursday a car caught fire in the alley behind Paul Jones Service Station. A vehicle had died and was being filled with gasoline when it backfired causing the gasoline to catch fire. The blaze started a grass fire, which was extinguished by the Fire Department.

Department arrived on the scene, the house had already burned to the ground, according to Pat Kunselman, fire chief.

Mrs. Cumpston Leads --

Smith Picks 10 Football Games

Mrs. Bobby Cumpston continues her lead, now by five points, in the Bovina Businesses Cotton Bowl Football Contest with 62 correct predictions out of a possible 80, for an average of .775 per cent.

Closest contenders are at 57, including her husband, Allen Cumpston, Mrs. Bill Malcom of Tulia and a newcomer among the leaders, Leroy Lance. At 56 are Albert Johnson of Farwell and the leader's son, Rex Cumpston. Mrs. Cumpston held a six point lead last week.

Winning the eighth weekly contest with a perfect score of 10 correct was Billy Smith. He correctly guesses all 10

winners and was the only contestant this week to do so. Smith received the \$5 first place check.

Second place prize of \$3 was won by Leroy Lance while Mrs. Lou Nuttall won the third place \$1 award. Both guesses nine winners, along with five others. Lance was eight points off the tie-breaker and Mrs. Nuttall was 13 points off.

Others correctly picking nine winners, in the order of their tie-breaker accuracy, were Kay Stone, Dorothy Harris, L. L. Hanna of Lubbock, Barbara Griffith, and Leon Grissom.

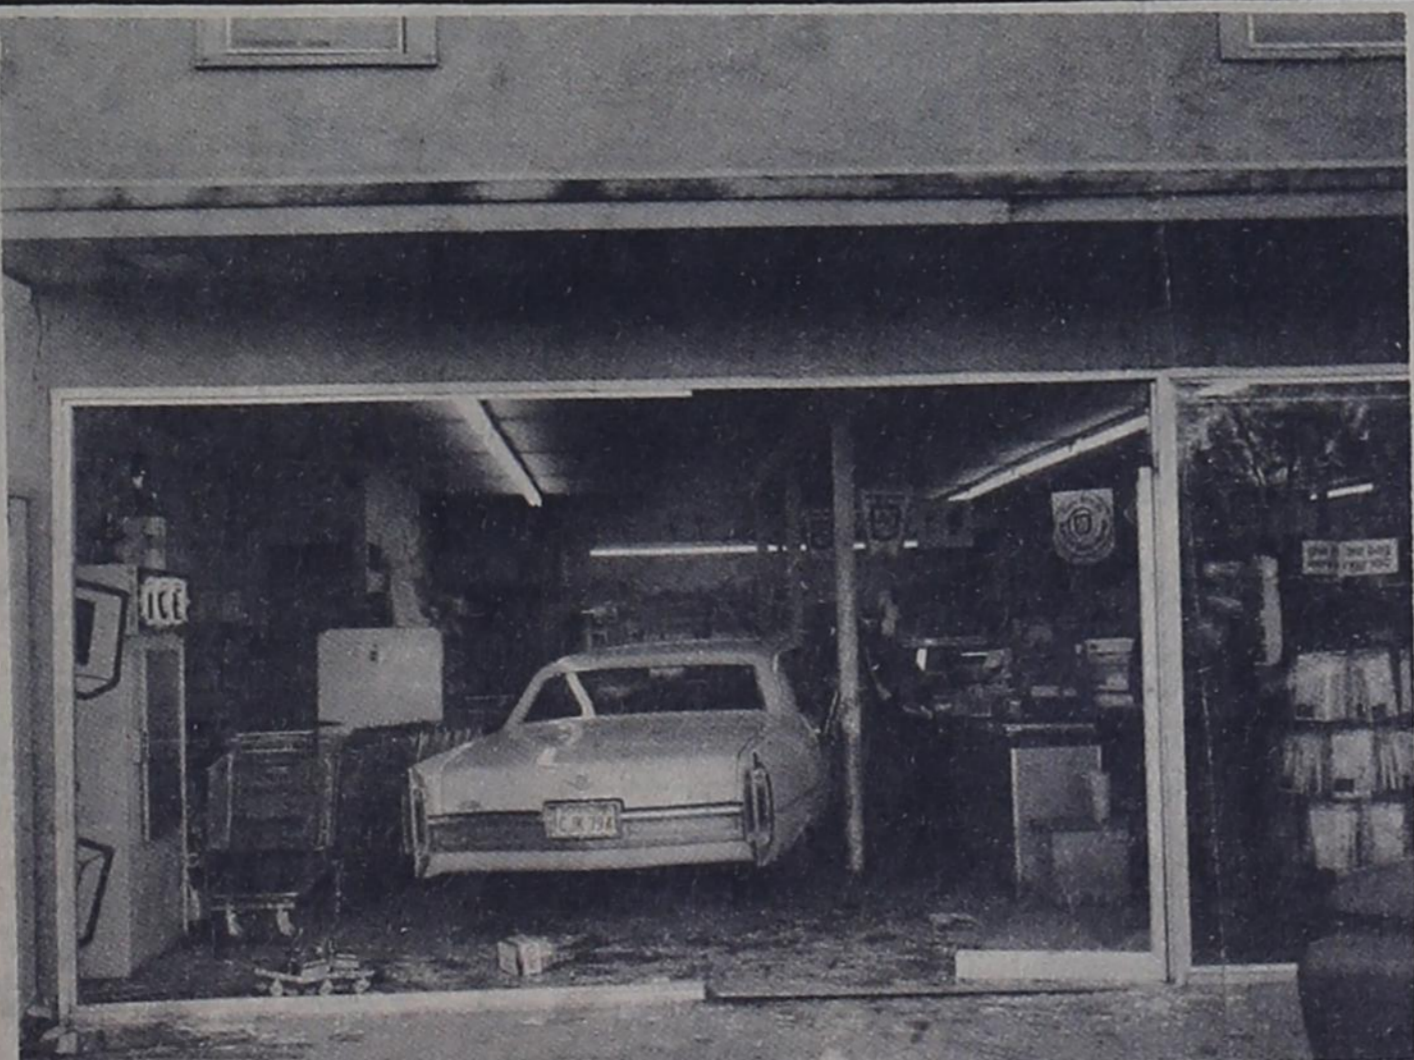

A total of 14 entries named eight teams winning their games. Wayne Peterson, Wess

Smith, Terry Sherrill, Pat Sherrill, Jay Sherrill, Wendell Garner, Allen Cumpston, Henry Spicer, Joyce Read, Johnnie Hugh Horn, Janie Sudderth, Carrol Foster, Larry Mitchell, and Little Al Kerby.

Thirty-two contestants named seven winners; 24, six; 21, five; 10, four; and two picked three.

Winner at the end of the 13-week contest will receive an expense-paid trip for two to the Cotton Bowl game in Dallas.

This week a total of 110 entries were received by The Blade. A total of 235 people have entered the contest during its first eight weeks.

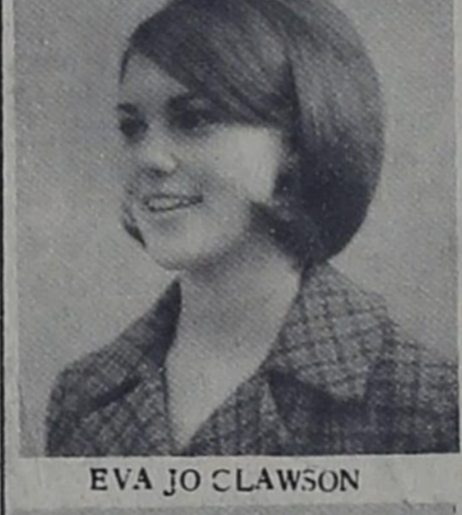

DRIVE-IN STORE? -- This car, owned by A. J. Barton, co-owner of Super Sawey on Main Street in Bovina, crashed through the plate glass windows and double doors at the grocery firm Monday morning. Barton said he had the car parked at the curb in front of the store "warming up" when it started creeping forward. The auto was several feet inside the building before it was halted by fixtures and merchandise. Damage to the building was estimated at \$1000. The car was also damaged in the spectacular accident.

For Construction --

Medical Clinic Plans Adopted

A recommendation to build a new medical clinic in Bovina was adopted by the temporary executive committee here Monday night at a meeting of the group with the building committee, according to Bedford Caldwell.

Also adopted were a few changes in the plans of Sears Roebuck Foundation for the medical clinic building.

The building committee, composed of Caldwell, chairman, Grady Sorley and Mrs. Bob Estes, has been studying plans and blueprints of the proposed structure here. Several changes will be necessary to comply with the West Texas

climate and area, members said.

The building committee recommended a new building be constructed. The proposal was accepted by the executive committee, which is made up of Leon Grissom, chairman, Bob Estes, secretary, B. L. Marshall, Mrs. Jesse Walling, Sorley and Caldwell.

The building committee will try to put the plans into the hands of contractors during the next week, to be returned to the committee by Nov. 17. Hopes are that five or six contractors will bid on the construction of the clinic. However, the committee reserves the right

to refuse any or all bids, Caldwell said.

A representative of Sears Roebuck Foundation is expected to be in this area around Nov. 17 to go over the bids with the committee here.

If a contract is let, construction will be on the lots donated the Bovina Clinic Fund by the Joe Lang family.

A total of \$43,000, including the donated loss, cash and pledges, has been raised in Bovina for the construction of a medical clinic and securing a doctor for the town. Bovina was approved by Sears Roebuck Foundation for assistance after a survey proved the need for a doctor in the area.

First Freeze --

Cathie Trimble Contest Winner

Cathie Trimble, daughter of Mr. and Mrs. C. E. Trimble, and a fourth grade student in the Bovina Schools, is the "Champion First Freeze Predictor of 1967" and the recipient of the \$5 award.

The contest ended Tuesday morning Oct. 31, when the judge of the contest, W. E. Williams, declared that the first killing freeze of the year occurred that morning when the temperature dipped to 30 degrees in Bovina.

The contest was sponsored by Williams and the Bovina Blade. A total of 45 entries was received here before the deadline on Oct. 15.

Five entries had submitted Oct. 31 as the date of the first killing freeze, but Cathie's was the first one received. Her entry was turned in Oct. 3. Others predicting that date were Vera Stewart of Fort Worth, Bill Ellis and Carol Ellis of Friona and George Baca.

Williams, in ruling Oct. 31 as the first killing freeze, said that Bovina had about four light freezes before that date, but none were considered of the "killing" variety.

Cathie becomes the third champion predictor in as many

years. Mrs. E. L. Cochran was the winner last year with her prediction of Oct. 15. The first

year of the contest, 1965, Charles Smith was the winner, predicting Nov. 27.

FIRST FREEZE WINNER -- Cathie Trimble receives a \$5 check from W. E. Williams after she correctly predicted the first killing freeze of 1967 would be on Oct. 31. She is a fourth grade student and the daughter of Mr. and Mrs. C. E. Trimble.

Weather by Willie

Everything was frozen stiff Tuesday morning. Mostly clear, cold nights. --Willie

Reflections From The Blade

TEN YEARS AGO
Oct. 30, 1957

Celia Berry was crowned 1957 football queen of Bovina High School in halftime ceremonies during Friday night's game. Jerry Burnett, star Mustang back, was named football hero by members of the pep squad.

Also, Dixie Hartzog was crowned grade school football queen and Carrol Burnam was grade school football hero.

Plans for remodeling Bovina's post office jumped off the drawing board and started becoming a reality Monday morning as Hubert Ellison, who was awarded the contract for the improvement, began work.

W. E. Williams, local Mason, was made a Knight Commander of the Court of Honor by the Supreme Court of Scottish Rite Masonry Oct. 22 in Washington, D.C.

An estimated 200 people visited Bovina Methodist Church Sunday afternoon. They attended the formal openhouse of the new educational section of the church and also viewed the recently remodeled original part of the building.

The 1957 Boy Scout financial drive, under the direction of Gene Ezell, chairman, was conducted Tuesday. Late that afternoon, Ezell reported "over \$500" had been turned in and he estimated the total would be near the \$750 mark before work is complete.

Jack Frost finally put an end to area farmers' anxieties over when the first freezing weather would come to the Plains this year, when he dipped down for three successive early mornings and snuffed the life from all field crops.

Cotton and grain sorghum are major money-makers in the Texas Panhandle but a third commodity looms on the horizon whose possibilities are just now being explored. That commodity is cultivated grass.

SIX YEARS AGO
Nov. 1, 1961

Cotton Producers Institute, a plan based on a business approach to greater cotton markets and acreage at a profit, will be topic of discussion at a meeting Thursday in Bovina School cafeteria.

Riding crest of a four-game winning streak, including three district wins, Bovina Mustangs go to Vega Friday night to take on the Longhorns in what could be termed "District 2-B Championship Battle."

Texas Highway Commission has agreed to join with City of Bovina in widening State Highway 86 from west city limits to east city limits, a press released from state office announced this week.

Erith Hawkins continued his domination of first place in Bovina Business Cotton Bowl Football Contest last week. In fact, he increased his scant, one-point margin of a week ago to two points over his nearest competitors.

In the weekly contest, three people, A. M. Wilson, Randy Jones and Ronnie Isham, tied for first place and divided \$5 in prize money.

Bovina Methodist Youth completed their campaign for Christian Rural Overseas Program Monday evening. According to Mrs. Dean Hastings, youth director, the group collected \$189.12.

Continuing their fast-moving onslaught on District 2-B opposition, Bovina's Mustangs raced by Lazbuddie three Friday night 54-6, for their third consecutive district win without a loss.

The County 4-H Council has made plans for the Annual County 4-H Achievement Awards Program to be held Saturday evening, Nov. 4, in Oklahoma Lane Community Center. Eighty-one 4-H Club boys and girls will receive achievement awards or project completion year pins.

Mr. and Mrs. Earl Richards hosted a family reunion for members of his family last week end.

County, Community --

ASCS Election Names Committee

Announcement has been made by Prentice L. Mills, county office manager of Parmer County ASCS in Farwell, of the results of the recent 1968 county and community ASCS election, when committeemen were named by farmers.

A total of 576 ballots were cast, Mills said.

In "A" Community, W. D. Buske was named chairman; Ernest Anthony, vice chairman; and David Grimsley, regular member. "B" Community elected J. T. Mayfield, chairman; Robert L. Jones, vice chairman; and Henry L. Ivy, regular member. "C" Community will be headed by Lloyd Gober, chairman; Tom Beauchamp, vice chairman; Lawrence Jamerson, regular member.

On the ASCS County committee, Archie Tarter will serve as chairman; John McFarland, vice chairman and Louis Welch, regular member. Tom Beauchamp is first alternate, Robert Schueler, second alternate.

In other announcements, Mills said that no information has been received as yet concerning the 1968 feed grain program.

About the 1968 cotton program, Mills made the following statements:

As you know, the cotton program for 1968 will be somewhat different from the 1967 program. The principal changes are:

1. The required (minimum) diversion for a participating farm will be 5% of the regular allotment. It was 12 1/2% in

1967. The payment rate will be at 10.76 cents per pound.

2. A participating farmer will have the opportunity to divert an additional 30% of his farm allotment. The payment rate on the additional acreage diverted will be at 6 cents per pound.

3. The rules for measuring cotton planted in a skip-row pattern has been changed.

4. A price support payment will be made as in 1967. The rate of price support payment will be at 12.24 cents per pound. (Higher than 1967.)

As you can easily see, cotton program payments for your farm will be smaller than in 1967 because of the program changes. Another thing that will cause smaller payments for 1968, on most farms in Parmer

County, is the reduction in the projected yield for the county. We have had a couple of poor cotton years in a row and this is sure to cause the county projected yield for 1968 to be less than what we had in 1967. Just

how much less, we would not care to predict.

We will have a referendum. This is to be held early in December.

The loan rate for 1968 remains at 20.25 cents per pound

for Middling 1-inch white cotton at average locations.

We will accept applications during the month of December, 1967, for practices to be carried out during the first 7 months of 1968.

In Bovina --

Gas Rates Hike November 15

Gas used for domestic and commercial purposes after November 15, 1967, will be billed at a new rate by Pioneer Natural Gas Company. In June, the Company applied for an 11.5 per cent increase in rates in the West Texas service area, and by late September all of the cities and towns had approved the new rate.

Bovina city commissioners granted Pioneer a rate raise here Sept. 7 after considering the request for several weeks. Since it began serving the area in 1928, Pioneer has applied the same rate in the West Texas service area, and this new rate will become effective in all cities and towns simultaneously.

Pioneer Natural Gas Company will commence paying additional taxes to the cities and towns at the same time. The new tax will be three per cent of the gross receipts, rather than the two per cent which had been paid previously. This tax is in addition to local ad valorem taxes, and sales taxes and the gross receipts tax paid the State.

Domestic and commercial customers in rural areas will also be billed at the new rate after the November 15th date. The Texas Railroad Commission approved the rate for areas

outside the city limits on September 26, 1967.

There will be no change in rates for gas used for irrigation or other classifications of consumers.

In hearings preceding the granting of this rate increase in the various cities and towns, Pioneer showed that its operating costs per customer had increased by 17.1 per cent since 1961 and its investment per customer had gone up 12.5 per cent. Under the new rate, the average cost of gas per MCF will be approximately 70 cents, which is well below the 87 cent average for the State of Texas as shown in 1965 figures.

As population increases the greater grows our pollution problem.

This is true of our outdoor areas, as well as our municipalities.

There was a time when we gave little thought to pollution around a lake. We built septic tanks with not too much caution. But then our nearest neighbor lived miles away.

Today that condition has changed.

Around most of our lakes today we have large communities. Sewage disposal is one of the biggest problems. Many communities are located in rocky country, where the run-off is not too good. The refuse finds its way into the lake.

Texas has no long, consistently flowing rivers or streams. There are times of the year when some of them are powder dry at many points. When these streams are down we have an opportunity to observe the type of pollution that takes place.

During a recent dry spell we had occasion to observe the condition of several stream beds. Old automobiles, refrigerators, worn out tires and many other kinds of debris were in the river beds and along the banks. These were dumped there by thoughtless citizens who wanted to rid their premises of the cluttering mess.

Most municipalities can put a stop to this type of pollution with existing ordinances. Unfortunately the higher courts are badly crippled by our state laws governing pollution and many of these laws are practically useless.

Apparently that won't be the case much longer. Now there is federal legislation which will permit the government to step in where local authorities fail to act.

The fight against pollution is basic. It affects all of us, not just those who hunt or fish, but every living person is within its sphere of influence.

When our streams pour contaminated water into the Gulf of Mexico it is harmful to our marine resources and costs us millions annually in loss of marine life. When our cities pour overflow of their sewer system into the streams, they are harming every person who is affected by that stream.

For the most part heavy industry is attempting to solve its pollution problems. Our paper mills, big refineries and others are taking precautionary action wherever possible to prevent polluted substance from getting into our lakes and streams.

Some of our smaller industries, however, are not so interested in the health and welfare of the people. A glaring example of that is within sight of the capitol dome in Austin. Here sand dredging companies run their wash water back into the Colorado.

Much of the time, the Colorado river water is the color of sand from Austin almost to the Gulf. Many downstream cities must use this water... and fish need oxygen to survive.

Our State Health Department and our Parks and Wildlife Commission work together to stop pollution in many places. Game wardens take numerous samples of water from many streams and the health department makes the analysis.

But the courts continue to be the stumbling block in many cases because the laws do not have enough teeth. And the legislature continues to bypass proposed bills that could rectify this problem.

This is a project local sportsmen's clubs and Chambers of Commerce might well promote. With enough local clean-up projects, the program could spread statewide and we could eliminate a great deal of the pollution that is harmful to every living thing.

Pickup, Truck In Wreck Here

An accident Thursday night six miles south of Bovina on the Oklahoma Lane farm-to-market road resulted in minor injuries to three Bovina boys.

The three were treated and released at Parmer County Community Hospital.

A pickup driven by Mike McMeans, in which Greg Bell and Bruce Caldwell were passengers, hit the back of a grain truck driven by Mrs. Troy Christian at 9:40 p.m., according to Highway Patrolman Wayne Pierce, who investigated the accident. Mrs. Christian was not injured.

Damage to the pickup was estimated at \$900, Pierce said, and damage to the truck at about \$100.

G. Beauchamp In California

Gary W. Beauchamp, son of Mr. and Mrs. Tom Beauchamp, returned to San Diego Wednesday of last week after spending a two-week furlough in Bovina.

A member of the U. S. Navy, Beauchamp is assigned to the Marines as a medic with the intensive care unit.

Meet Farwell --

(Continued from Page 1)

team as "real quick" with better than average speed, "Their quickness and their aggressiveness are their strong points," Stone says.

The Steers feature a good quarterback in Lewey Bradshaw, who runs well and is a good passer. Fullback Al Phillips is a power runner expected to deal Mustang defenders misery. In addition, Phillips is a threat as a field goal kicker. He has had unusual success this season in kicking long three-pointers.

In regard to his team's 15-7 loss to Kress last Friday night, Coach Stone said, "We played a good game or we would have been slaughtered."

He praised the performances of Jackie Hall, Phil Sorley, Ronnie Dyer, Steve Pierson and Kent Stanberry. "Our defensive effort was good," the coach pointed out.

Scores of Bovina-Farwell games for the past 12 years, all in Farwell's favor, have been 0-6 in '55, 0-13 in '56, 12-33 in '57, 8-39 in '58, 12-36 in '59, 12-44 in '60, 0-6 in '61, 14-18 in '62, 0-46 in '63, 0-21 in '64, 0-6 in '65 and 12-28 in '66.

The natural rivalry between the two schools is expected to attract a good crowd for the tilt.

Homecoming --

(Continued from Page 1)

and \$10 to the classes entering the best three floats.

Businesses and organizations are also urged to enter the parade. Plaques will be awarded by the Student Council for the two best ones. Bovina Roping Club has expressed intention of participating in the parade. Also appearing will be the Bovina High School and bands.

Cox said that those planning to enter should notify him before 9 a.m. Thursday.

The bonfire features a contest between the four high school classes this year. Each class will be trying for the largest pile of wood. Cox says the size will help determine which class receives the "spirit stick" this week for the best school spirit. Also to help determine the winner will be the pep rally on Friday morning in Williford gymnasium.

Game Football Given Friday

The Junior Class will give away the football used in the Farwell-Bovina game Friday night during halftime.

Donations of 50 cents will be accepted at the gates from spectators attending the game who wish to participate in the event.

Proceeds will go to the Junior Class fund.

Whittlin' --

(Continued from Page 1)

duction is as high as it can go? Not us.

Don't look now, but the Fightin' Texas Aggies are in first place in the Southwest Conference.

The season has three or four more weeks yet to run, we know, and a lot of things can happen and probably will. Ironically, there's not a team in the field which hasn't lost a conference game.

At this point, it appears that a tie for the championship is not unlikely.

Texas Tech fans, who have

Cotton, Grain Meeting Set

A meeting to discuss the 1968 feed grain and cotton programs will be held in the Bovina School cafeteria at 7:30 p.m. Thursday, according to Prentice Mills, office manager of Parmer County ASCS.

Details of the programs will had the wind knocked from their sails somewhat since the second game of the season when Their Team upset the Texas Teasips, can take heart in the fact that their team has as good a chance as any to win the conference flag at this point.

The same thing can be said, though, for A&M, Texas, and Rice.

be explained, Mills said. The meeting is being sponsored by the Parmer County Cotton Producers Association.

In addition to the discussions, officers of the Cotton Producers Association will be elected.

Mills says that all persons interested are invited to attend and all farm operators are urged to attend.

On The Farm In Parmer County
By RONNY McNUTT
County Agent

NEW WINTER-HARDY OATS AVAILABLE FOR PLAINS AREA

Norwin, a new variety of winter-hardy oats, has been developed by the Texas Agricultural Experiment Station. This is good news to farmers and livestock producers in the High and Rolling Plains areas of the state where Norwin has performed commendably in trial tests.

Under irrigation at Bushland, average yields for a three-year period were 115.1 bushels per acre compared to 108.3 bushels for Cimarron and 98.4 for Bronco. Norwin was also the highest yielding variety over a four-year period in dryland trials at Chillicothe, averaging 26.4 bushels compared to Cimarron with 24.4 bushels and Wintok with 21.2 bushels.

Norwin produces forage for winter pasture rather quickly after seeding due to its erect growing seedlings. The new variety topped all others in forage production at Bushland and Chillicothe locations. Its test weight is equal to the present commercial varieties of oats in the Rolling and High Plains.

Although an early variety, Norwin headed four days later than Cimarron and at about the same time as New Nortex. It produces relatively short plants with moderately strong straw, averaging 28 inches in height at Bushland under irrigation. This compares to 31 for New Nortex and 35 for Bronco.

Norwin is about as winter-hardy as Cimarron and Bronco but much more so than New Nortex. Although the new variety is susceptible to both leaf (crown) and stem rust of oats, conditions in the plains area will probably allow it to escape damage most seasons because of its earliness.

Seed for this new winter-hardy variety may be obtained from the Foundation Seed Section, Texas Agricultural Experiment Station, College Station, Registered and certified seed may be obtained from growers and commercial seedsmen after the 1967 harvest.

Norwin was developed by the Station's Small Grains Section. Otis Spears of Ruidoso, N.M., former Superintendent of Bovina Schools, is in Methodist Hospital in Lubbock undergoing treatment for a crushed disc in his back and pinched nerves, according to his brother, Wayne Spears. He entered the hospital Friday and hopes to be released Saturday.

In cooperation with the Crops Research Division, USDA.

TELLS OF BRAZIL -- Rev. Dewey Horton of Amarillo, told of his travels in Brazil when he spoke to the Bovina Woman's Study Club Thursday afternoon. Mrs. Buck Ellison, left, introduced the speaker and Mrs. J. R. Caldwell was one of the honorees during the Golden Age citizens' meeting. They are standing before a map of Brazil.

'Travels In Brazil' Presented At Woman's Study Club

Rev. J. Dewey Horton, pastor emeritus of the Hillcrest Baptist Church in Amarillo, related statistics and showed films about Brazil at the Bovina Woman's Study Club meeting Thursday afternoon.

Mrs. Buck Ellison introduced the speaker.

Golden age citizens of Bovina were guests at the program.

Rev. Horton has made three missionary journeys to Brazil to preach in 1963, 1965 and 1967. He said the population of Brazil is 80 million people but only 40 per cent of them can read. Wages average \$21 a month in comparison to the U.S. average, which is \$346. Five per cent of the population owns Brazil.

Brazilians also have inflation. It takes \$2700 Brazilian currency to equal one U. S. dollar, according to Rev. Horton.

The average life span is 32 years, as compared to 67 years in America. He says the older people are noticeably absent from church services, since there are few living.

Curios from Brazil were on display at the meeting, including a Portuguese Bible, Portuguese is the only language spoken in Brazil and Rev. Horton used an interpreter for all his sermons. In one revival, Rev. Horton had 113 conversions. Slides showing Baptist churches, missionaries, Christ of the Andes monument, Sugar Loaf Mountain and other places of interest were shown.

Out of town guests were Mr. and Mrs. E. S. Williams of Farwell, Golden age citizens present were Mrs. Margaret Caldwell, Mrs. Pearl Hastings, Mrs. J. H. Steelman and Mrs. J. R. Glover.

Members present were Mmes. Earl Stevenson, Billie Sudderth, Bob Caldwell, Travis Dyer, Arlin Hartzog, Charles Ross, Amos Steelman, Reagan Looney, Clarence Jones, Rouel Barron, J. R. Caldwell, Buck Ellison, I. W. Quickel, Earl Whitten, W. E. Williams; an honorary member, Mrs. A. C. Hardin and a new member, Mrs. Jimmy Clements.

Hostesses were Mrs. A. E. Crump, Mrs. Jesse Walling, and Mrs. Ovid Lawlis. Refreshments of orange punch, pimento cheese sandwiches, chocolate cookies were served from a table decorated in the Halloween theme. A white lace cloth over orange covered the table, which featured a black owl as the centerpiece. Candy cup witches were favors.

HONORED WITH SHOWER -- Mrs. Truman Trim, second from left, was the honoree at a bridal shower here Saturday. Other special guests were, left to right, Mrs. Robert Murray, Mrs. Lewis Stone and Mrs. J. W. Holt. Mrs. Trim is the former Miss Barbara Stone.

Bridal Shower Honors Mrs. Truman Trim

Mrs. Truman Trim, the former Miss Barbara Stone, was honored with a bridal shower Saturday afternoon in the community room of First State Bank.

J. W. Holt, grandmother of the bride. Guests were served, cake, nuts and yellow punch from crystal appointments by Misses Barbara Fletcher and Marlene Beavers.

The serving table was laid with a white lace cloth over yellow and centered with an arrangement of shades of yellow and white baby chrysanthemums. Corsages of yellow and white chrysanthemums were presented the honoree and special guests, Mrs. Lewis Stone, mother of Mrs. Trim; Mrs. Robert Murray, mother of the bridegroom; and Mrs.

Homecoming Dance Set

"The Chords" of Amarillo will furnish the music for a dance, sponsored by the Teenage Club, following the homecoming football game here Friday night.

Admission will be \$1.25 each.

Mums On Sale For Homecoming

Seniors of Bovina High School will continue their sale of homecoming mums through Thursday night, according to Gina Clawson of that class.

Mums are \$3.50 and \$5. Those who have ordered mums may pick them up on Friday afternoon immediately following the parade in Room 115, high school science lab, Miss Clawson said.

Davies Home From Navy

Wayne Davies is home on leave from the U. S. Navy after completing boot camp at Great Lakes, Ill. After visiting relatives and friends here, he will report to Newport, R. I. about Nov. 10.

Dyer Improves At Hospital

Travis Dyer suffered a heart attack Tuesday morning and was admitted to Parmer County Community Hospital in Friona. A report from the hospital Tuesday afternoon was that he is doing "just fine."

Of Interest To THE WOMEN

Baptist Church Groups Hold Enlistment Tea, Installation

An Enlistment Tea was held for the WMU recently in the First Baptist Church here when Mrs. Carmaleet Truitt of Friona, formerly of Bovina, was the speaker.

Installation ceremonies were conducted for GA girls by Mrs. Ovid Lawlis, GA counselor. Following the ceremony the girls sang the GA song, "I've a Story To Tell To The Nation."

Mrs. Don Murphy, WMU president, gave the welcome. A presentation of the WMU emblem was made by Mmes. Dickie Steelman, A. L. Glasscock, P. A. Adams and Tommy Williams.

Mrs. Truitt's topic was "A Perfect Woman." She gave excerpts from poems and Biblical passages.

Mrs. Lawlis, who has been president of WMU for three years, was presented a WMU gavel from the organization in appreciation for her service. Mrs. Truitt was presented a book, "Words of Life." Both women were given corsages of baby mums with orchid ribbons furnished by Mrs. P. A. Adams.

The serving table was centered with an arrangement of chrysanthemums, also furnished by Mrs. Adams. Hot spiced tea and white cake decorated with orchid, carrying out the WMU colors, were served by Mrs. Bob Bartley and Mrs. Keith Garner.

Hostesses for the tea were Mmes. Jamie Clearman, Glasscock and Williams of the enlistment committee; Mrs. Bill Smith, social chairman; Mrs. Adams, mission chairman; Mrs. Steelman and Mrs. Arnold Hromas, circle chairmen.

As officers of GAs were installed, their counterpart in WMS stood beside them. Mrs. Lawlis presented various colors of streamers to the officers, creating a rainbow.

Officers installed were Darlene Murphy, Intermediate GA president; Kathy Shook, Junior president, 11-12 years; Rita Nuttall, Junior president, 9-10 years; and Mrs. Don Murphy, WMS president.

Jane Russell, Junior vice president, 11-12 years; Sheila Barbee, Junior secretary, 9-10 years; Mrs. J. B. Barrett, WMS vice president.

CROP Drive Totals \$295

Methodist Youth Fellowship in Bovina collected a total of \$294.91 for Christian Rural Overseas Program, Monday night when members conducted a "trick or treat" campaign.

Those who were missed may contribute to CROP through this Sunday. Expectations are that collections will surpass \$300. Adult workers who helped with the campaign were Mr. and Mrs. Durward Bell, youth leaders, Mrs. Dean McCallum, Mrs. A. M. Wilson and Mr. and Mrs. D. D. Hastings.

Following the campaign in Bovina, workers served the young people a pizza supper at the church.

Pam Grissom Wins Contest

Pam Grissom was named "Miss Majorette" in the First Annual Halloween Twirling Contest held in Amarillo at the National Guard Armory Saturday.

Director of the contest was Bonnie Gaye Black. "Miss Majorette" was judged on the basis of poise, personality, appearance and grace. Pam also entered the solo contest at the event.

She received a trophy as winner of the "Miss Majorette" contest.

Hospital Notes

Mrs. Inez Gober, longtime resident of the Bovina area, suffered a high stroke at her home Sunday night and was admitted to Parmer County Community Hospital. She was reported to be improving Monday.

Rhonda Barbee, Junior secretary, 11-12 years; Rhonda Nuttall, Junior secretary, 9-10 years; Mrs. W. W. Wilcox, WMS secretary.

Rhonda Barbee, Junior stewardship, 11-12 years; Tammie Russell, Junior stewardship, 9-10 years; Mrs. A. L. Glasscock, WMS stewardship.

Jane Russell, Junior program chairman, 11-12 years; Caroline Espinoza, Junior program chairman, 9-10 years; Mrs. Tommy Williams, WMS program chairman.

Honey Mast, Junior mission action, 11-12 years; Beverly Myers, Junior mission action, 9-10 years; Mrs. P. A. Adams, WMS mission action.

Vivian Hise, Junior mission study chairman, 11-12 years; Mrs. Keith Garner, WMS mission study chairman.

Jana Barrett, Junior prayer chairman, 11-12 years; Karen McCrell, 9-10 years.

Debra Sorley, Junior forward step chairman; Mrs. Dorothy Sorley, WMS and GA reviewing council.

Darla Hawkins and Regina Kelly, Junior social chairman; Mrs. Bill Smith, WMS social chairman.

CONSUMER EDUCATION WEEK -- November 6-10 will emphasize Extension's role as a continuing source of consumer information in Texas.

Watch and listen for special consumer information during that week in news and over radio. "Hat's Off To Consumer" Week will be a special feature of Extension Service in your county.

It's time again to think of your Thanksgiving Dinner - how time marches on! Do you know how much turkey to buy for your dinner? Here are a few suggestions:

Size of the ready-to-cook bird may range from 4-24 pounds and larger-from fryer-roaster to large toms. Practically all turkeys are young (3 to 6 mcs.) because they are quickly grown these days. They are suited to broiling, roasting and frying. Even halves or quarters are available in some areas.

When buying whole-ready-to-cook turkey under 12 pounds, allow 3/4 to 1 lb. per serving. For the larger bird, add 1/2 to 3/4 pound per serving.

In most cases, large turkeys are more economical and are excellent for use in future meals.

Remember this - Thawing turkey at room temperature is not recommended - unless they are put in large paper bags and closed tightly during thawing.

It's better to thaw them in the refrigerator, in original wrap, on a tray. Another method is to thaw the bird in the original water-type wrap under cold running water or immersed in cold water, changing the water frequently. This takes 6-7 hours.

Be Informed - Be A Wise Shopper -- Be informed about which foods give you most for your money.

For example, not all "Convenience" foods are more costly than home prepared. Foods such as cake mixes, frozen orange juice, some canned soups, canned or frozen vegetables such as peas, and spinach are cheaper than home prepared.

"Not too many years ago the moon was an inspiration to lovers and poets. A few years from now it's just going to be another airport." - Robert Lee, Woodward (Okla.) Journal.

Know The Truth

By Lavern Stewart

God does not overlook ignorance, Acts 17:30, "And the time of this ignorance God winked at; but now commandeth all men everywhere to repent." Further, John 15:22, "If I had not come and spoken unto them, they had not had sin; but now they have no cloak for their sin." God does not overlook ignorance because man must believe and obey to be justified before God, and everyone knows that man could not "believe" nor "obey" the will of God if he had never learned it.

We must not be mentally lazy and expect someone else to do our studying for us. We have a command to learn God's will concerning us, Ephesians 5:17, One man could no more keep this command for another than he could do the other person's praying. If we allow another to study for us he might lead us into the ditch. Remember, Jesus said if the blind lead the blind both will fall into the ditch, Matthew 15:14, To prevent this from happening, the Bible says, I Thessalonians 5:21, "prove all things."

One group was praised for searching the Scriptures, Acts 17:11, "These were more noble than those in Thessalonica, in that they received the Word with all readiness of mind, and searched the Scriptures daily, whether these things were so." If one has an open mind, and is willing to do what he learns to be his duty, then by searching the Scriptures he will learn the truth, through which he will be made free from the condemnation of sin, Notice John 8:32, "And ye shall know the truth, and the truth shall make you free."

Engagement Announced

Mr. and Mrs. Lee Hardy of Sudan announce the engagement and approaching marriage of their granddaughter, Candace Jean Flemings, to Lloyd Lane Gober, son of Mr. and Mrs. Lloyd Gober of Bovina. Wedding vows will be solemnized at 7:30 p.m. Jan. 13, 1968 in the First Baptist Church of Sudan. All friends and relatives of the couple are invited to attend.

'Haunted House' Visited By High School Students

Teenagers were entertained following the football game Friday night at a "haunted house" after being served refreshments at The Spot.

Sack lunches and soft drinks were served at The Spot, where about 150 high school students gathered after the game.

From there, they were taken by car loads to an "authentic ghost house", according to Mrs. Betty Hawkins, sponsor.

Those attending were taken through the house by Zombi guides, Debra Hawkins, Sharon Hemke and Toni Pinner.

During the tour, students were met by Frankenstein, Larry Grissom; Clyde the Chopper, Mike McMeans; 1,000-year-old mummies, Nancy Mitchell and Bobby McMeans; Happy Butcher, Alan Carson; the hunchback, Bill Caldwell; the werewolf, Galen Hromas; Darcula, Bruce Caldwell; and the witch fortune teller, Mrs. Hawkins. Noise makers were Loy Christian and Pansy Clawson.

The event was said to be a huge success.

This Friday night following the football game, a big turnout is expected for the film, "The Haunting," to be shown at The Spot. There is no admission charge, Mrs. Hawkins said.

Bovina Area Churches Welcome You!

Church Chuckles by CARTWRIGHT

© CHAS. CARTWRIGHT 818

"His faith seems pretty good; between slumps, periods of doubt, and letdowns."

The Gospel According to You?
Read Matthew 5:13-16

It was a modern paraphrase of the Sermon on the Mount, one created by a committee of young people—that first stirred my imagination . . .

"You are the salt of the world. But if the salt loses its unique qualities, of what good is it except to be thrown on walks and melt the snow? And you are the light of the world. A searchlight that scans the sky cannot be hidden. No one in his right mind would light a flashlight and put it under a pillow. He would let it shine without anything in front of it so that it would dispel the darkness. And you, like the flashlight, shed light openly among your friends so that if there is one who has lost his way, he may find it through you and, with you. . . ."

I wondered. In a world crying out for people who are willing to become involved, who are willing to "flavor" life with a witness to Christian faith . . . in a world calling for "searchlights" that aren't afraid to dispel the darkness, what is the gospel written day by day in your life and mine?

1968 Grain Program Announced, Discussed

The 1968 Feed Grain Program is almost identical to the 1966 program, according to Prentice Mills of Parmer County ASCS. A producer must divert at least 20 per cent of the feed grain base for his farm in order to earn price support payments. There is no payment on the first 20 per cent of the base diverted.

Producers will be afforded the opportunity to participate in the program and divert an additional 30 per cent of the farm base, or as much as 50 per cent of the farm base. A diversion payment will be paid on the acres diverted in excess of 20 per cent of the base. In order to be eligible for diversion payments, the underplanting must be of feed grain acres. There is no diversion payment for underplanting wheat. Producers who are thinking about substituting wheat for feed grain or vice-versa should be sure they understand the substitution provisions and how their plantings can affect their payments.

The diversion payment rate will be computed (this is approximate and very close to correct) by multiplying the farm normal yield for grain sorghum by 53¢. For example: Farm with normal yield of 97 bushels would have diversion payment of 53¢ X 97 = \$51.41 per acre. Mills said, "Let us look at how the program will work on an average farm in Parmer County. We will assume that the farm has a 100 acre grain sorghum base, with a 100 bushel yield, and a 100 acre wheat allotment."

Example #1, Farm is signed up in wheat and feed grain program. Maximum diversion of 50

per cent of base under feed grain program.

Acres diverted, 50; Acres planted to Grain Sorghum, 50; Acres planted to wheat, 100. In this case the farm will earn a diversion payment on 30 acres at \$53.00 per acre for a total of \$1590.00. The price support payment will be computed on 50 per cent of the grain sorghum base as it was in 1966 and 1967.

Example #2, Farm is signed

up to divert 50 per cent of feed grain base.

Acres diverted, 50; Acres planted to grain sorghum, 60; Acres planted to wheat, 90. Diversion payment would be earned on 20 acres (feed grain was only under planted by 40 acres) at \$53.00 per acre. This would amount to \$1060.00.

Example #3, Farm is signed up to divert 50 per cent of grain sorghum base. Acres diverted, 50; Acres

planted to grain sorghum, 100; Acres planted to wheat, 50.

There would be no diversion payment in this case as there is no underplanting of grain sorghum. In this example (#3), the producer might just as well have signed up for the minimum (20 per cent) diversion.

"Let us suggest that anyone having specific questions, relating to individual farms, contact the ASCS Office for their answer. Questions from anyone are always invited," Mills said.

After Hurricanes --

Threat Posed By Screwworms

The fall screwworm outbreak -- aided by rains, winds and floods triggered by Hurricanes Beulah and Fern in the Southwest United States and Northern Mexico -- continued to threaten Texas livestock producers, according to Ronnie McNutt, county agent.

Many of the cases are situated in the Hill Country - Edwards Plateau area of the state and southward and eastward in the overwintering area of Texas, posing an additional threat to the entire Screwworm Eradication Program.

"This means trouble ahead for next year," McNutt said. Still another factor of major concern, is the possibility that Southwest Screwworm Eradication Program officials at Mission may not know just how serious the situation is in the southern tip of the state, where high waters, a month after Hurricane Beulah, still make it impossible

for many ranchers to check their herds for screwworms.

The week ending October 21 was the biggest one, case-wise, thus far in 1967, with a record 170 positive cases confirmed in Texas. The previous week, 133 new cases had been confirmed. In 1966, the peak week was that of October 8, when 197 cases were confirmed. A downward trend was seen after that time last year, however, and cases declined rapidly.

It is not known yet if the peak of this year's outbreak has been reached. Case numbers are still zooming upward, so it's important that every rancher continue on the alert for screwworms.

The members of the Parmer County Livestock Committee are asking all producers to continue their vigilance against screwworms, and use good management practices such as spraying herds, doctoring all

CAN WE HELP?

QUESTION:
Is a town or city given a credit or a penalty on their fire insurance premium because of their good or bad fire record?

ANSWER:
Yes. Bovina has a credit of 25% at this time because of a good fire record. A fire record, good or bad, is determined by an established ratio over a five-year period of fire premiums written and fire losses paid within the municipality. A new fire record credit or penalty is figured annually. The maximum credit is 25% and the maximum penalty is 15%.

Football CONTEST

You May Win Weekly Prizes Of \$5-\$3-\$1 PLUS THE GRAND PRIZE! Of An Expense-Paid* Trip For Two To The Cotton Bowl!

★ Expenses include two tickets to Cotton Bowl game, paid hotel reservations for two and \$55 for food and traveling expenses.

It's Fun - It's Easy - You May Win! Enter This Week And Every Week -

All You Have To Do Is Pick The Winners. There's Nothing To Buy!

Contest Rules

1. There are 10 high school and/or college football games listed in ads on this page.
2. Pick the team you think will win in each game and place the WINNER'S NAME beside same advertiser's name in the contest entry blank at bottom right of this ad.
3. Pick the score of the tie breaker game and place your guess in the appropriate blanks on the entry. The tie breaker game will not count on your won-lost record. It will be used only in case of a tie.
4. Winners will be named by the Monday following the contest deadline each Friday and they will be named by Saturday, if possible. Cash prizes of \$5 for first, \$3 for second, and third prize of \$1 will be awarded.
5. Tabulations of individual entrants will be kept all season and at the end of the season a grand prize winner will be named. Grand prize winner will receive two free tickets to Cotton Bowl game plus hotel, food and traveling expenses to Dallas and the January 1, 1968 football classic.
6. There is nothing to buy. No requirements other than to bring the entry blank, filled out, to The Blade office by 5 p.m. or postmarked by 5 p.m. Friday.
7. Only one entry blank may be submitted per individual. If more than one blank is submitted by an individual, all will be disqualified.
8. Tabulations will be available for public inspection. Members of Blade staff will serve as judges for contest.
9. Contestants must be 10 years old or older.
10. Everyone, except employees of this newspaper and their families, is eligible to enter.

District 3-A Game --

Kangaroos Hop Over Mustangs By 15-7

The Bovina Mustangs struck for a first quarter touchdown and then battled valiantly the remainder of the game before dropping a 7-15 decision to the once-powerful Kress Kangaroos here Friday night.

The loss was the Mustangs third in District 3-A action and their sixth of the season against two wins.

The Kangaroos evened their season mark at 1-1. They had previously lost to Farwell, the Mustangs' opponent this week. Fumbles highlighted the game as both clubs had trouble hanging onto the pigskin in the biting cold weather. Bovina got the advantage of the fumble breaks, however, as they recovered five of seven Kress miscues while losing possession of the ball only one time in six.

The determined Mustangs would possibly have won the game with a stronger passing attack. They managed only four completions for a total of 37 yards. The ground game was the secret of the success the Ponies enjoyed and accounted for the opening period touchdown.

Bovina's score came with 2:20 remaining in the first stanza on an 11-yard blast by Halfback Stuart McMeans, who bombed through the right side of the line to pay dirt. The scoring play climaxed a 17-yard drive which included a fumble exchange and carried from their own 44, Rex Cumpston, Mustang place kicker, boomed the conversion squarely through the uprights for a 7-0 BHS lead.

Kress, which was picked in pre-season polls to repeat as the 3-A champion, got on the scoreboard late in the second quarter on a one-yard drive by Halfback Kenneth Sjogren, his team's most dangerous threat during the tilt. The TD was set up on a 27-yard pass from Quarterback Charles Harris to Sjogren which moved the ball from the Bovina 30 to the three. Sjogren got the score then on his second consecutive carry from that point.

Roosevelt Jackson carried over the double extra points for the Kress squad to give the visitors an 8-7 margin which turned out to be enough for the win.

For insurance, though, the Kangaroos added another seven points in the third period. Harris got the six-pointer on an 11-yard run with 2:45 remaining in the third 12 minutes. The TD came on the ninth play of a 53-yard drive which was made entirely infantry-style. Phil Bohner kicked the extra point to complete the scoring at 7-15.

The Mustangs success in recovering five of Kress' fumbles

was a great aid in halting the Kangaroo offense, but they were unable to turn the good fortunes in to scoreboard numbers.

Bovina was unable to get its offensive machine in gear during the second half. The Mustangs longest play of the game, however, came in the fourth period on a pass from Lynn

Murphy to his brother, Rodney Murphy for 20 yards. The pass was completed via an interference call against Kress.

Lynn Murphy and McMeans paced Bovina's ballcarriers. Murphy made 43 yards in 12 tries and McMeans netted 36 yards in 11 attempts. Fullback Carl Harris carried the mail

eight times for a total of 14 yards. Tommy Sisco made 12 in five runs and Phil Sorley gained a yard in each of two calls.

Junior High --

Kress Winner Of Two Games

Although defeated by two Kress football teams, Bovina's Junior High Colts played two of their best games here Thursday afternoon, according to their coach, Bill Nitcholas.

The eighth graders lost 26-0 against a team that had "just too much speed." Kress scored in every quarter, but Bovina threatened at least three times. The Colts got down to the six inch line only to lose the ball on downs, and penetrated to the 10 and 12 yard lines at other times.

Quarterback Tommy McCormick completed four of seven passes, one to Bobby McMeans which was good for 50 yards.

Defensive standouts were Middle Linebacker Hugh Rogers, End Raymond Hise and End Ken Jamerson, who played his best game of the year.

The seventh graders were defeated 16-6 in a game which also saw a lot of action. Half-time score was Bovina in front 6-0 after Tackle Glen Hise caught a blocked punt in the air and ran 55 yards to score. Kress came back to score

eight points in both the third and fourth quarters.

Defensive standouts were Middle Linebacker Kim Rundel and Tackle Weldon Beardain.

Coach Nitcholas says that the boys are "up" for the Farwell games to be played there Thursday at 5 and 6:30 p.m. He expects these to be the best games of the year.

MARGARET JO VENABLE

Miss Venable Leads Band

Margaret Jo Venable has been named Bandsman of the Week by members of Bovina High School Band.

She is drum major of the marching band this year and "has been doing a fine job."

In addition to her drum major duties, Margaret Jo plays the bass clarinet. She has been a member of the high school band for four years.

The daughter of Mr. and Mrs. Elton Venable, Margaret Jo is a senior in Bovina High School and is 18 years old.

More than 14 million out-of-State and foreign visitors toured Texas by car in 1966, the Texas Highway Department reports.

Pie Supper Friday

Night After Game

Mustang Boosters Club will hold a pie supper in the school cafeteria Friday night immediately following the Bovina-Farwell homecoming football game, according to members of the organization.

Pie and coffee will be served for 25 cents and 10 cents, respectively.

Members of the organization will furnish homemade pies for the event.

Roping Club

In Parade

Bovina Roping Club will participate in the Homecoming parade here Friday at 2 p.m., according to Margaret Jo Venable, secretary of Bovina High School Student Council.

She was informed of the club's intention by R. T. Harbour, spokesman of the organization.

Those participating in the parade will begin lining up between 1 and 1:30 p.m. on Main Street.

Businesses and organizations are also invited to enter floats in the parade, with plaques being awarded the top two entries.

Those wishing to enter the parade should inform Gary Cox, high school principal, by 9 a.m. Thursday.

Morris Ends

Patrol School

Delbert Morris, formerly of Bovina, graduated Friday from the Texas Highway Department of Public Safety School in Austin, according to his mother, Mrs. Virginia Morris.

He has been attending the school for four months. Morris was previously employed at Bonds Oil Company in Bovina.

He has been assigned to Tulla and Morris and his wife, the former Miss "Tish" Limbaur, have already moved there. He begins duty there Thursday.

Morris is a 1963 graduate of Bovina High School.

CLASS FAVORITES -- High School students elected their class favorites last week to be featured in "The Mustang," school yearbook. Left to right are Lynn Murphy and Margaret Jo Venable, seniors; Martha Adams and Rodney Murphy, juniors; Candy Wilson and Stuart McMeans, sophomores; Brenda Newbrough and Manuel Quintana, freshmen.

BEST ALL-AROUND -- Students named the best all-around boy and girl in each class of Bovina High School in election last week. They include, left to right, Carl Harris and Linda Rejmo, seniors; Bobby Redden and Eva Jo Clawson, juniors; Carrol Foster and Pam Grissom, sophomores; Becky Jacobs and David Dixon, freshmen.

SHORT AND SWEET

When the conversation at the black-coffee klatch turns to weight control, the problem being discussed is almost always how to take off unwanted pounds. That's natural, because there are about four times as many people who are overweight as underweight. But the fact is, more than 15 million Americans are underweight.

Failure to gain weight may be just as frustrating for skinny people as the battle of the bulge is for the obese. And the skinny guy or gal needs to gain extra pounds for just the same reasons that the overweight one wants to lose them... for a more attractive appearance, to get clothes to fit properly, and to maintain better health.

You put on weight the same way you take it off, usually, by taking a little something extra with each meal... only to take it off you take it before meals, so you don't eat so much, and to put it on you take it afterwards, so you actually consume extra.

JUNIOR HIGH FAVORITES -- Mike Ware and Debra Sorley, seventh grade students (seated), LaVerne Hambrick and Randy Chison, eighth grade students (standing), were named favorites of their classes in elections last week held in Junior High and High School here.

CHOO CHOO!

The world's busiest railway junction is Clapham Junction on the Southern Region of British Rail with over 2,070 trains every 24 hours!

Announce '68 Grid Schedule

Bovina High's 1968 football schedule is complete with five "new" opponents, Coach Roy Stone announced this week.

Only one of six non-district foes from the 1967 season has been returned to the schedule for next year. That team is Happy, a long-time Mustang rival.

Newcomers to the non-district schedule are Amherst, Lazbuddie, Nazareth and Friendship, Vega, which has been added to District 3-A, will also be new on the schedule. The Mustangs meet the Longhorns in the final game of the season.

The five non-district opponents include one Class A team, Frenship; one Class A, Happy; and three Class B clubs, Amherst, Lazbuddie and Nazareth.

Teams on this year's schedule which the Mustangs won't play in '68 are Cooper, Friona, Claude, Plains and Seagraves.

First game of the '68 season will be Sept. 13, Coach Stone announces. The Mustangs will play 10 consecutive weeks with no open date.

Two-year contracts were signed with the non-district teams. Nazareth will play here each of the two years.

The Old Timer

"The way they're charging, they ought to be called super-markups."

QUALITY COTTON

On a farm operated by Mr. Bill Boggs, who farms 6 miles north of Plainview and one mile off FM 400 on the Providence pavement to the east, you will see a field of fine cotton, which not only gives promise of considerable quality but also of high production. This is a field of Gregg 25V one of the newer cottons for the Plains. The seed of this cotton is glandless, free of gossypol making it possible to use the meal in the feeding of poultry and swine, and also can be used as a high protein diet in human nutrition. Gregg 25V was specifically bred to resist verticillium wilt, however, a majority of those who have planted it this season have done so, not because they have a wilt problem, but because of the other good qualities which it possesses, such as better micronaire, better grades (being a smooth leaf it cleans well), a little longer staple, and a better grade of seed. (Yes, Mr. Boggs managed this cotton according to special instructions.)

You are invited to drive out and see this field of cotton, or if you prefer just come to our place two and one-half miles east of the courthouse on the Lockney Highway, and we will not only show you Mr. Boggs' cotton, but also several other good fields of 25V. Gregg Seed Farms, 2700 Lockney Highway, Plainview, Texas. (Adv.)
