Jury Clears Man of Murder Charge-First Trial Resulting in Hung Jury.

Word received here this morning from Burnet announces an acquittal for Jim Turman, who has been on trial there this week, charged with the murder of Will Kettner at Mason on July 4th of last year. Turman's first trial at Llano a month ago, resulted in a hung jury.

The case was taken up at Burnet, and the lawyers finished with the witnesses Wednesday. Arguments by lawyers occupied Thursday, and the verdict was reached by the jury that night.

TIME IS THE TEST.

The Testimony of Brady People Stands the Test.

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and Mrs. T. H. Alexander's mother misrepresentations are made, and merit alone will stand the test of time.

Brady people appreciate merit, and many months ago local citizens pub-licly endorsed Doan's Kidney Pills; they do still. Would a citizen make the statement which follows unless convinced that the article was just as represented? Below is testimony such as the sufferer from kidney ills is looking for. Mrs. B. P. Brown, Brady, says:

My back ached a great deal, especially when I was on my feet or after over-exertion. My kidneys didn't act right at all. Two boxes of Doan's Kidney Pills, bought at the Central Drug Store, soon cured me of these roubles."

OVER THREE YEARS LATER, Mrs. Brown said: "I haven't had any return of kidney complaint since using Doan's Kidney Pills. I still recing Doan's Kidney Pills. I still rec-ommend this medicine very highly." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Brown has twice publicly rec-ommended. POISIONING SYSTEMS Auto-Intoxication is Foundation

NUMBERS SLOWLY

of Most Diseases and Ill Health Says Noted Authority.

Advanced medical authorities assert that auto-intoxication is the foundation of most of the ills and diseases to which the human flesh is heir. "This condition," says L. T. Cooper, who has made an exhaustive study of the subject, "is nothing more nor less than the slow self-poisoning of the vital organs, produced by the excessive mental and physical strain we are forced to endure, which renders the rgans lame and inactive and permits toxins-actual poisons -to be generated within one's wn body.

"In the process of digestion a number of poisonous substances are produced, which, although absorbed in the alimentary canal are prevented by the liver from entering the circulation. As a result of overwork, fatigue products, sarcolastic acid and prolonged spasms may lead to auto-intoxication. Excess of aric acid in the blood s associated with high arterial pressure, headache, and nervous irritability, and is an indication of imperfect metabolism (malassimilation) and auto- inoxication is the result as shown by the fact that marked improvement occurs by suitable liet and treatment.

"Symptoms of auto-intoxication may be associated with various nervous phenomena. Bile in the blood may be attended by stupor and mental depression and the term melancholia, signiimportance which has long been Ludwick & White. attached to the liver as an organ, the derangement of which causes nervous depression.
