

No More Currency Panics

Do you remember the shut-downs, the business depression and the lack of employment which followed the currency panic of 1907?

To prevent another currency panic the Federal Reserve Banking System keeps on hand an immense supply of currency to furnish the banks which belong to the system of which we are one, so that they may at all times meet the currency requirements of their depositors.

Doesn't it appeal to you to get its protection without cost, by becoming one of our depositors?

HAVE RECEIVED SPLENDID RAINS

Although no water has as yet been put in Brady's Water Works dam, we have received a rain which will be most appreciated and of more benefit to the people in general than any received during the past year. Through the courtesy of the West Texas Telephone Co. we are able to give the out of town rain reports: Lohn received light rain; Broadmoor very good showers; 1-2 inch at Melvin; 1-2 inch at Menard; 1 inch at Hext; a 2 inch rain at Voca. Other places in McCulloch county received rain in proportionment, while others report no rain. The coolness of the atmosphere and the clouds still surrounding the horizon lends good

inducement for more rain. Local showers are of much benefit, while a good general rain would brighten the entire face of the globe and a bumper cotton crop could yet be made, as well as of all food and feed stuffs.

North Side Bible Class No. 1.
The North Side Bible class No. 1 met last Friday afternoon with Mrs. Hampton. Quite an interesting lesson was had and good crowd present. One interesting feature was that of Mrs. Evers being able to again be with the class. The next meeting will be with Mrs. A. W. Tipton, Friday August 24th, and will have as the lesson—15th to 20th chapter of Isaiah. Sunday School lesson also will be discussed. A large crowd will be expected at this next meeting; interested visitors have a cordial invitation to attend.

BREAD AND DESERT FROM MESQUITE BEANS

Glory, the West is safe from starvation. A dispatch to the Houston Chronicle from Ballinger states that Mrs. O. R. Griswold of that city has just returned from College Station, where she went to have mesquite beans analyzed and tested out as food for man. Mrs. Griswold exhibited specimens of bread made from mesquite beans also specimens of syrup, jellies, candy and a drink closely resembling coffee. She claims that she has been living exclusively on these products for three weeks and finds the diet to be delicious and strengthening. Mrs. Griswold demonstrated the products before the farmers short course at College Station, and efforts will be made to get an exhibit at the State Fair at Dallas. — Brownwood News.

Was Sherman Right?

We are all familiar with General Sherman's famous definition of war. It has been accepted and stood unchallenged for several years, but recently we have a treatment of the subject by our French ally, which is thoroughly logical, and shows that it is not as bad as it may seem. The treatment, as it appeared in one of the dailies as follows:

You are mobilized or you are not mobilized. If you are not mobilized you needn't worry. If you are mobilized, one of two things is certain, you are in the trenches or you are not. If you are not in the trenches, you needn't worry. If you are in the trenches, one of two things is certain: Either you are exposed or you are not exposed. If you are not exposed you need not worry. If you are exposed, one of two things, one is certain: You are shot at or you are not shot at. If you are not shot at, you needn't worry. If you are shot at, one of two things, one is certain: Either you are hit, or you are not. If you are not hit, you needn't worry. If you are

hit of two things, one is certain: Either you are wounded slightly or you are wounded fatally. If you are only slightly wounded, you needn't worry. If you are wounded fatally, you'll be dead, and then you can't worry.

THE WARNER LENS.

A requirement of the new automobile law, which went into effect July 1st is that your headlights must not throw the rays of light more than four feet high from the road level. Our Warner Lens absolutely stand the test and are guaranteed for the life of the car. They are recommended by every Chief of police in the state as they fully comply with the new law in every respect. Our guarantee stands behind them. The fact that they are being used on all late models of higher priced cars is sufficient proof of their merits.

LIGHTS FOR MOTORCYCLES.

The latest attachment for the motorcyclist is a complete electric generating plant for lighting the headlight, similar to the apparatus used in automobiles. Up to now the heavy weight of such installations has prevented their use on motorcycles, but a light system, consisting of a regulator and generator taking its power from the turning axle, has been perfected. The regulator keeps the voltage constant at varying speeds of the motorcycle. As a result of the new device the motorcycle of the future may be expected to cruise with its own electric lights, freed from the danger of batteries or carbide supply giving out.

ART "PATRON" FAIRLY CAUGHT

English Painter Laid Neat Trap for Friend Who Was Always Too Late to Get Pictures He Admired.

It is said that Peter de Wint, the English landscape painter, was accustomed each year to have a semi-private show of his pictures before sending them to the Water Color society's exhibition. On such occasions his friends frequently bought pictures, which, of course, appeared at the public exhibition marked "Sold."

Among the painter's friends was a wealthy man who wanted to appear a patron of art and at the same time to keep his money. He managed this by loudly admiring the paintings already sold. He was always a bit too late to buy the pictures, that pleased him most, and having seen them, as he was wont to declare, he could never content himself with less beautiful works.

De Wint at last suspected the man's sincerity, and when the next show day came round he concluded to test him. After plenty of time had been allowed for De Wint's friends to make their purchases, the rich man arrived. As usual, his eye soon fell on two "perfect gems," marked "Sold." Turning to the artist, he said, "Now, De Wint, those are exactly the things I should like to possess; what a pity they are not to be had."

"My dear sir," said the painter, slapping him on the back, "I knew you would like them, so I put the tickets on them to keep them for you."

BETWEEN NEIGHBORS

"Say, Blinks, why don't you weed out your dandelions? They're all going to seed, and are sure to scatter terribly."

"Why, I'm simply waiting for you to return the weed-picker you borrowed of me last summer."

"NOT WORTH HIS SALT."

A subscriber wants to know the origin of the expression, "He is not worth his salt." He says he ran upon the expression in a book printed many years ago, and he desires to know if it is an ancient expression. It is, and like many of our expressions, it comes from military sources. At one time in the history of the world soldiers were paid in salt for fighting. Salt was a very precious commodity, and to induce men to fight an allowance of salt was given to them. The pay was known as "salarium"—from the Latin "sal," meaning salt. That is the origin of our word "salary"—it means "pertaining to salt." So if a soldier was not worth his salary he was not worth his "salt." And to this day we use the expression at times to describe a worthless fellow.—Columbus Dispatch.

MOLLY STOPS PAYMENT

By JANE OSBORN.

Molly Bell had intended to keep Brad Simpson in suspense. She would say to him that she had known, of course, that he liked to be in her company, but that he actually wanted to marry her—really the idea was so strange, so novel, so unexpected, that she would have to have time to think it over. That was what she planned to say, but when the moment came Molly, in her excitement, forgot all her plans and told the undoctored plain truth. In a few timid, half sentences, and not with the easy nonchalance she had planned, she told him that she had loved him always, and that now she was the happiest girl in Bennington.

"And isn't it wonderful," she said, "how everything I have dreamed about and waited for comes the same day—May 20—the greatest day of my life?"

"Why the very greatest?"

"Besides this most wonderful day," she said, still forgetting the role she had planned, "there's the—" Then she stopped short. No, she wouldn't tell him the rest. He must know about the check she had received from the magazine that had accepted her little story. "Well, then, besides this," she added, confusedly marking off the events on her fingers, "the first white rose bloomed today, and we got the new vacuum cleaner and the cook left."

Molly had literary ambitions and for three long years she had been working, dreaming and scribbling with her funny little ambition always uppermost in her thoughts.

The next day Molly went to Bradford, the nearest sizeable town, to begin to buy the things for the troussau. She had forgotten to have the check cashed in Bennington before she started, so all her little purchases were sent C. O. D.

When she arrived home after the shopping trip it was two o'clock. Then Molly thought of the purse with the check! Where was it? It could not be found, but where had she lost it? The purse itself was old and it contained little of value but the check, which Molly had foolishly enough indorsed after she had asked Brad the night before how checks should be signed. Brad, she was sure, would know because he worked in Bennington's only bank and knew everything about banking.

First she telephoned all the way to Bradford, to the store she had visited, but she heard no news of her purse. The man who answered her call at the department store suggested that since the check was indorsed she had better write at once to the editor who had sent it and request him to have payment stopped. And this Molly did without, of course, knowing what the words meant.

Once or twice that evening when Brad came to call he accused Molly of being abstracted and surely she was. It was two evenings later that the tables were turned, and when Brad called that evening it was he who was accused by Molly of being abstracted.

THIS WOMAN GAINS SEVENTEEN POUNDS

Tanlac Makes Her Well and Strong After Fifteen Years of Suffering.

"Tanlac has made a well woman of me after I had suffered for fifteen years and had gotten to the point where I didn't believe I could possibly live much longer," was the remarkable statement made a few days ago by Mrs. Lottie Swofford, wife of H. H. Swofford, the popular salesman for the Jewel Tea Co., and living at the St. Charles Hotel, Galveston, Texas.

"Yes, it's true," continued Swofford. "I have gained seventeen pounds on Tanlac and I am stronger and feel better than I have since I can remember. Ever since I was a child I have suffered terribly with catarrh of the stomach and I don't believe anybody could have been in a worse condition than I was for the past few years. I suffered constantly with the most awful pains in my stomach and nearly all over my body and I had such terrible headaches that sometimes I almost went distracted.

"My food soured on my stomach and formed gas that would get around my heart and smother me so I could hardly breathe and my heart would flutter and palpitate until I almost thought it would jump out. I got to where I didn't hardly eat enough to keep a bird alive, but even that little would come right back in my throat undigested and at last my stomach got into such a condition that it wouldn't even retain raw eggs and I had to live on beef tea alone.

"I was so weak that I couldn't walk across the room and when I tried to walk I would get so dizzy I would fall, and would have to be lifted around from place to place. I was as nervous as I could be and the slightest sound would make me jump and tremble all over, and I gradually went down in weight until I only weighed eighty-five pounds. I was an absolute wreck and didn't see how I could possibly ever get well. I tried everything I could find but I didn't get one bit of relief and goodness only knows where I would be now if it hadn't been for Tanlac.

"I began taking this medicine as a sort of last resort and I couldn't tell at first whether it was doing me any good or not, but I stuck to Tanlac determined to give it a thorough trial. Well, sir, when I was on my fourth bottle I began to notice an improvement and from that time on I kept getting better and now after taking eight bottles, I feel as well as I ever felt in my life. I never dreamed or dared to hope that I would feel as well as I do now and I can't begin to tell you how grateful I am.

"All my troubles are gone and my nerves are as steady as iron, I eat just anything I want and nothing gives me a minutes trouble and I now weigh one hundred and two pounds. I sleep splendidly and feel strong and full of energy all the time. Why, it's no effort at all for me to walk from here to the beach and back and that's a distance of two miles, and I feel so fine I just can't help telling everybody I meet about Tanlac. My husband thinks it the greatest medicine that was ever made and he tells all his customers how it brought back my health when nothing else would even help me. *I am glad to give this statement and I hope that lots of other suffering people will read it and get relief like I did."

Tanlac is sold in Brady by Jones Drug Co., in Melvin by Oscar Sellers, in Rochelle by C. W. Carr and in Pear Valley by Ludwick & White.

Struck by Lightning.
Yesterday at about 4:30 o'clock while driving a herd of cattle, in company with two other boys, working on the Richard Sellman ranch six miles East of Rochelle, Bud Crawford, a young man of about 25 years of age was struck by lightning and he and the horse he was riding were immediately killed. He was struck just as he was about to open a gate, and the other two members of the party being in the rear of the herd of cattle received a minor shock, and, upon rushing to the scene found that neither Mr. Crawford nor the animal he was riding had even lived a breath after the blow had been cast.

Young Crawford had been working on the Sellman ranch for some time, and, although he was not a McCulloch county raised citizen, nevertheless had many friends throughout the entire county. His death came as a shock to all, and his body will be entered at the cemetery at Holt, Texas, this afternoon at 4:00 o'clock.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

LOOK AT A CHILD'S TONGUE WHEN CROSS, FEVERISH AND SICK.

Take no chances! Move poison from liver and bowels at once.

Mothers can rest easy after giving "California Syrup of Figs", because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not make the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative". Children love it, and it can not cause injury. No difference what ails your little one—if full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleaning" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrup. Ask your druggist for a 50-cent bottle of "California Syrup of Figs", then look carefully and see that it is made by the "California Fig Syrup Company". We make no smaller size. Hand back with contempt any other fig syrup.

At Lyric Theatre.

Manager Julius Levy gives out the following program at the Lyric for the week and theatre goers will have the opportunity of seeing some of the best pictures produced on the screen: On Tuesday night the five reel drama, "The Payment." Wednesday night "The Painted Lie." Thursday night "Cost of Hatred." Friday night, William S. Hart in the sensational five-act drama "The Square Deal Man." Saturday night the second episode of the serial "The Tatal Ring;" also Fatty Arbuckle in a two reel comedy "Reckless Romeo."

Manager Levy is put to a great expense to give Brady these popular plays, and the theatre going people should appreciate his efforts and give him their support and encouragement. Larger towns charge more for the same features, and those who wish to keep a good place of amusement here should lend Mr. Levy their support.

The prices are only 10c and 15c for all nights except Friday, which is 10c and 25c.

McCulloch County Boy Writes.

The Standard is in receipt of the following letter written by Ben F. Witcher, formerly a McCulloch county citizen, now in the service of Uncle Sam in the Medical department of U. S. army.

"Fort Washington, Md., August 12, 1917.

"Editor Brady Standard:
"Well, as I noticed my other letter was published, I thought I would write another one as I have not gone to France although am looking for a call to start at almost any time. I belong to the Medical department and will try to tell you about my life in Uncle Sam's army. We arise at 6 a. m. and at 6:15 we stand revee which gives us fifteen minutes to prepare for mess that comes at 7:00 o'clock. Then soon after mess we all get busy and police up all around the hospital and on the inside, then immediately after we are thru with policing we get ready for class. We have from the time we get thru cleaning up until 9 o'clock for class. A short time after class we fall in for drill which is about 10 a. m. and we drill for an hour, and by that time it is time for us to come in and repair for mess again. At 1 o'clock we fall out for drill, then after which is another hour and we have the evening to take the lawn mower and cut grass and when we quit, which is about 4 o'clock we come in and repair for mess again and study until mess call at 5:30. We stand and face Old Glory and watch her go down which is call for retreat.
Well, I guess I had better ring off for this time, with best wishes to my old home and McCulloch county friends."

YES! LIFT A CORN OFF WITHOUT PAIN!

Cincinnati authority tells how to dry up a corn or callus so it lifts off with fingers.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezezone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out, root and all, without pain.

A small bottle of freezezone cost very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate.

If your druggist hasn't got any freezezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.

Lightning Furious.

Accompanying the rains of the past week have been violent thunder storms and the lightning has done much detriment. W. H. Goodner reports the lightning of yesterday afternoon of having struck the Texas Co. motor truck, boring through the body of the big truck and killing about a half dozen frying chickens that were resisting the rain by getting underneath the machine.

Another attack of lightning is reported in the Mercury country in which 8 head of cattle were killed from one blow.

Yesterday about 4:30 o'clock the most serious of the whole was when lightning struck and killed Bud Crawford, a young man of about 25 years of age, working on the Richard Sellman ranch near Rochelle.

SHOE CLERK IS MILLIONAIRE

This is Story of Rich Lumberman Who Came to United States From Sweden Without a Cent.

From a position as shoe clerk, a job that brought him a salary of \$20 a month, to millionaire lumberman—that is the life history of Aaron F. Anderson, formerly of Cadillac, Mich., and now a resident of Seattle, Wash., the Detroit News states. Anderson and his associates have just closed a deal in Seattle whereby they purchased 350,000,000 feet of timber, a transaction that involved \$750,000.

Anderson was born in Sweden. Forty years ago he decided to come to America. Being without funds, it was necessary for a relative in this city to supply the cash. Anderson came across the Atlantic in the steerage.

Arriving in Michigan, he began work as a shoe clerk. The \$20 a month provided him a place to sleep, paid for his board and washing and allowed him to save a few dollars every month.

At the end of several years he had saved enough to buy a small tract of timber land. He sold this and bought a larger piece of forest. Within a decade he had become wealthy. Now he is a millionaire.

MUSIC AS PENMANSHIP AID

Waltz and Fox Trot Used With Success as Accompaniment to Studies in Massachusetts School.

Music—waltz and fox trot music—to minimize the agonies of penmanship is the latest expedient to be employed by the Dorchester (Mass.) evening high school. The experiment has been going on for some time and, according to L. M. Rand, an instructor in the high school, has been marvelously successful.

Music by a phonograph, according to Mr. Rand, eliminates the monotony of penmanship exercises, agreeably relieves the mind from the deadening effect of routine endeavor, and is at once a metronome for the gauging of speed and a safety valve to prevent the nerves of the pupils from fraying under the work.

"It furnishes an exact count for the operation of letters and stimulates the mind in a tedious job," says Mr. Rand. "Letters and numbers, particularly capitals, are peculiarly adapted to this. For some letters we play a fox trot; for others, a waltz."

WILL GASOLINE BE MINED?

The latest estimates of the United States geological survey shows that if gasoline continues to be used up at the present rate, all the petroleum fields now in use will be exhausted before 1950. Where, then, will our future gasoline come from? asks the Popular Science Monthly. Billions of dollars are involved in the question. The probable answer is that "mined" gasoline will be used. Colorado, Utah and other Western and middle Western states contain extensive oil-bearing deposits of bituminous shale. Crude oil can be extracted from them and this can be distilled further to obtain gasoline. Enough gasoline could be produced in this way to equal many times the amount obtained from all our present-day petroleum fields.

SOUTHWEST TRAIL MEETING, AUGUST 29TH, 30TH.

Brady and McCulloch county should by all means be interested in the following announcement sent out by the Wichita Falls Chamber of Commerce, to all towns along the route of the Southwest Trail:

Annual Hwy'y Meet Aug. 29-30 To County Judges, Newspapers and Progressive Citizens:

Gentlemen: Pleas'd be advis'd that the Southwest Trail Association will hold its annual meeting in Wichita Falls, August 29th and 30th, inclusive and you are urged to bring a goodly delegation from your city and county.

The Meridian Road Association will hold its annual meeting in this city on the same dates and in view of the fact that the Southwest Trail passes a part of the Meridian road, we deem it wise that a large crowd attend this meeting in order that we may effect a closer relationship between these two important highways.

Please advise the Wichita Falls Chamber of Commerce just how many will attend from your city.

Very truly yours,

Wichita Chamber of Commerce.

Brady Should Be Awake.
The route of the Southwest Trail, one of the most important of the national highways, has been logged and approved thru McCulloch county.

The route through the county has been, or is being, marked with the colors, designating the Southwest Trail, but little if anything has been done toward working the road up to standard requirements. By assuming a dilatory, neglectful attitude in the matter of co-operation with the builders of the highway, it is entirely possible for the county yet to lose it. It should be somebody's business to keep in touch with the builders and see that McCulloch county measures up to its obligations. It will cost little for the county to be represented at the annual meeting to be held in Wichita Falls, August 29th and 30th. To not do so might cost us the loss of this great highway.
