RESOLUTION BY THE COUNTY COUNCIL OF DEFENSE UPON FOURTH LIBERTY BOND LOAN

At a call meeting of the directors of the County Council of Defense the following resolution was passed:

"In view of the fact that McCulloch county's quota of Liberty bonds is \$69,800, the campaign for the Fourth Liberty Loan bond sale is on, and every citizen in the county who is able to do so, is expected to buy bonds at once. Do not wait longer than October 19th.

Any bank or postoffice will take your subscription.

SHALLOW WELL IS SHOT—OIL AND GAS EXCITE NATIVES

There is much of importance to occupy the attention of those interested in the oil developments in and about McCulloch county. The striking of oil sands in the Shultz well near Paint Rock and the big gasser developed in the Russell well near Leeday have caused considerable speculation and have widened the extent of the proven oil field considerably. Parties who visited the Shultz well Sunday report a fine showing of oil. A tub full of slush showed up about one-quarter of a light green color. Developments at this well are being anxiously awaited, but so far nothing further has been received.

The Russell well near Leeday in Rannels county is reported as having blown oil all over the vicinity of the well, the oil being of a dark green color. Then it settled down to a flow of about a million and a half feet of gas. Later a cave-in occurred in the well and last Sunday's visitors said this would have to be drilled out before the well could be brought in.

In the Lohn shallow field, A. W. Cooper and Bob Littleman drilled into the oil sands at about 214 feet. The Illinois Torpedo Co. of Brownwood sent a man over Wednesday and the well was shot at about 5:00 o'clock that evening with 10 quarts of nitro-glycerin. The oil was standing 100 feet in the well, and the shot scattered the oil all over the field. As soon as the well can be cleaned out, a test will be made. J. B. Moore of Van Alstyne arrived here Sunday to look after the well, representing the Tucker Oil Co., owners of the field.

M. W. Eiser Sunday announced the location of the well he will drill in the East Sweden community as in the North middle of Survey 1134. This places the well on the O. G. Dahlberg land, 300 ft. north from Youngdale's north line, and 300 feet west from E. W. Cabe's west line. Mr. Eiser purchased his derrick in Coleman county, and the material was hauled over Monday, five trucks being employed to transport the same. The rig builders were already on the ground and work of building the rig was begun without delay Tuesday. Mr. Eiser himself left Sunday night for Fort Worth to purchase the rig irons, and two strings of tools are now enroute from Kansas. Mr. Eiser hopes to be ready to spud in within another couple weeks, and will start with a 15-inch hole.

A. W. Cooper came in Sunday from Burkburnet with special tools for removing the broken bit from his well, and it is hoped soon to be drilling again.

The Prairie Oil & Gas Co. Sunday unloaded one car of material, and Monday a second carload was unloaded. The shipment included a boiler and a carload of casing. This will put the Prairie in shape to begin drilling on the Zelle tract.

Bowen-Day are at a depth of 736 feet, and were drilling in brown shale, when head sand was struck. A cave-in, however, has made necessary under-reaming the well, and Thad O. Day left Tuesday night for Tulsa to secure under-reaming tools. This sand has been pronounced the Brownwood sand, and according to the log of the well drilled on Survey Nos. 1105 and 1106 at Lohn in 1912 by Meers Bros., pay sand should be reached at 889 feet. As soon as the under-reaming is completed, the casing will be set, and drilling will proceed until the pay sands are found.

COUNTY GOES "OVER THE TOP" WITH QUOTA OF CLOTHING FOR RELIEF OF BELGIANS

McCulloch county went gloriously "over the top" with its contribution of clothing for the relief of the Belgians the past week. Not only were the people of Brady most liberal in their donations, but from all parts of the county the response was hearty and prompt. The quota allotted to McCulloch county was 1,000 pounds, but Mrs. R. A. King, who had charge of the relief shipment for the Red Cross reports 2,313 pounds as having been shipped out last Wednesday.

BOARD CLASSIFYING REGISTRANTS 2 ASK NO EXEMP'TN

The local board has been busily engaged this week in classifying the 443 Questionnaires which have been returned by the 1918 registrants between the ages of 19 and 36. So far the board has found but two returned by married men who claimed no exemption. These two patriotic citizens are O. Duke Mann and Victor Wolf.

The board asks that widest publicity be given recent advice received from the adjutant general's office that all parties who are experiencing trouble in getting their allotments from soldiers, should take up the matter with Royal R. Watkins, superintendent of the War Risk bureau at Dallas, giving the name of the soldier and his company. This will assure prompt action being taken in the matter.

The board Saturday noon entrained — Wright of Waldrip for Camp Travis. Wright was originally placed in Class 4, but was moved up to Class 1 and entrained under the Work or Fight order.

Death of Miss Loise Bradley.

News of the death of Miss Loise Bradley at Sherman, Texas, was contained in a message received early last Saturday morning by Mrs. W. M. Dean, sister of Miss Bradley, and proved a shock not only to Mrs. Dean, but to all of the many friends of the deceased. Mrs. Dean left at once for Sherman, Mr. Dean carrying her as far as Fort Worth in his car. Henry Bradley of Waldrip, cousin of Miss Bradley, also left Saturday night for Sherman to attend the funeral.

Miss Bradley had been ill only a week. Word was received the latter part of last week that her condition showed improvement, consequently the fatal message was entirely unexpected. Death occurred at a sanitarium in Sherman, and was caused by pneumonia. The body was carried to the home of her parents, Mr. and Mrs. T. J. Bradley, six miles out from Sherman, and funeral services were held Sunday afternoon, the body being laid to rest in the cemetery at Sherman.

Miss Bradley was born in McCulloch county, and had lived here practically all her life, having removed to Sherman only last May. She was employed the past several years as assessor and tax collector for the Brady Independent school district. Her cheerful disposition and kindly and sympathetic nature, coupled with her extensive acquaintance throughout the county, made her a universal favorite and her death will bring gloom in many a home.

Miss Bradley was a member of the Christian church.

BRADY THEATRE TO SHOW "MY FOUR YEARS IN GERMANY" TWO NIGHTS, OCT. 25 AND 26

Julius Levy announces having secured the famous dramatization of Ambassador Gerard's great book, "My Four Years in Germany," for presentation on two nights, Friday and Saturday, October 25th and 26th. The picture will be shown complete on both nights. Advance seat sale will be opened next Monday at the Jones Drug Co. and everyone wishing to see this famous picture should purchase tickets early, as the house is sure to be filled to capacity on both nights. Prices of admission will be 25c and 50c general admission, and 75c for reserved seats.

Beginning next week, Mr. Levy will run three nights a week—Tuesday, Friday and Saturday. The opening feature of the Tuesday night show will be the great play, "Thais," in six reels, starring Helen Gardner. Admission will be 10c and 20c.

Mr. Levy is planning to give Brady theatre-goers a series of great pictures if the patronage justifies. Arrangements are now being completed for the play, "Italy's Flaming Front," a picture direct from the Italian battle front showing actual scenes from the world war. This picture is endorsed and recommended by the U. S. government.

McCULLOCH COUNTY JUNIORS ASKED TO HELP 4TH LIBERTY LOAN, AND COLLECT SEEDS

School has started. Once more bright faces are on their way toward multiplication tables and the mysteries of the "ie" in "believe" and "receive." Last term the work of the Juniors of McCulloch county was far beyond all expectations and we must now begin again to help "Uncle Sam" in all his war work.

We must help in every way we can "The Fourth Liberty Loan." I have just had an appeal from headquarters to the Juniors asking for their help.

We are asked now to gather peach seeds and nut shells. The carbon from these are used in gas masks, and we all know how very essential these masks are to our boys "over there." Let each school auxiliary take charge of the seeds and shells gathered in their school district.

DALLAS DISTRICT MUST RAISE 2 1-10 PER CENT OF LOAN

Washington, Sep. 25.—The American people are asked to subscribe in the three weeks beginning next Saturday the greatest loan in all history. The Treasury Department announced last night that the amount of this, the Fourth Liberty Loan, is \$6,000,000,000. The bonds will bear 4 1/4 per cent interest and will mature in twenty years with the Government reserving the right to pay in fifteen years if it elects.

In making public these final details of the loan, the Treasury also gave out the quotas each Federal Reserve District is expected to subscribe and from which will be figured the share of each State, county, city and hamlet.

Dallas, partly because of recent droughts in the Southwest, is asked for only 2 1-10 per cent. Following are the quotas and percentages of the whole by Federal Reserve Districts:

District	Percentage of total	Amount.
New York	30	\$1,800,000,000
Chicago	14 1-2	870,000,000
Cleveland	10	600,000,000
Boston	8 1-3	500,000,000
Philadelphia	8 1-3	500,000,000
San Francisco	6 7-10	420,000,000
Richmond	4 2-3	280,000,000
St. Louis	4 1-3	260,000,000
Kansas City	4 1-3	260,000,000
Minneapolis	3 1-2	210,000,000
Atlanta	3 1-5	192,000,000
Dallas	2 1-10	126,000,000

Oil Sand Punctured on Meers Tract Tuesday by Cooper and Littleman.

Fife, Texas, Oct. 2, 1918.
Editor Brady Standard:
The fall rains have not paid us their long expected visit yet and most of us are getting blue again.

J. J. Wright is at Beville on business this week.

H. F. Bratton was a business visitor here from Waldrip Tuesday. Mr. Bratton recently returned from Ranger and says it's the busiest place he has seen since 1908.

The first shallow well on the Meers tract was drilled in Tuesday by A. W. Cooper and Bob Littleman. The sand was punctured at 214 feet. The well will be shot this week by the Illinois Torpedo Co., of Brownwood when it is thought the well will make 15 or 20 barrels per day.

A. W. Cooper came in Sunday and is busy trying to remove the broken bit from the test well here, but is unsuccessful so far.

Mr. and Mrs. F. M. Ranne are entertaining a new soldier boy born on Sept. 28th.

C. M. Conrod and family visited relatives at Gouldbusk Sunday.

Messrs. White and Lowe of Santa Anna, were here Tuesday buying mules.

W. R. Sneed made a business trip to Brady Tuesday.

Mrs. J. L. Jordan and nephew, Lewis McCoy, visited with her daughter, Mrs. Jas. Finlay, here Saturday.

A letter from Chas. Mitchell in France says he is up at the front now and the German shells sound like tubs rolling in a Texas sand storm. He and Pete Lemke are together and are doing fine.

E. B. Kennedy was down from Waldrip Tuesday to tell us that he was going to get a bale of cotton in spite of the drought.

H. D. Bradley went to Sherman Saturday to attend the funeral of his cousin, Miss Loise Bradley, who died there Saturday morning. Loise leaves many friends in this community who regret her untimely end.

S. F. Tedder and family returned Tuesday from Lampasas where they visited relatives the past week.

We are glad to see The Standard is on the right side of the homestead law proposition and hope it will keep it up as we are going to need its help to defeat any change in our present homestead law.

David W. Allen, Squadron E. M. S. E. Ft. Sill, Okla., is visiting his sister, Mrs. Jno. Liverman, here this week. Dave is in the aviation branch of the service and says he likes it fine.

Mrs. B. D. Dillard Operated on Monday for Appendicitis—Doing Fine.

Brady, Texas, Oct. 1, 1918.
Editor Brady Standard:
Messrs. Walter Browning, M. Fowler Croft and Elton Hemhill shipped their teams and left for Granada, Texas, last week to work at rice hauling.

Miss Helen Bryan of Brady, an old-time friend of Mesdames W. A. and J. W. Newton, is spending a few weeks with them.

Mrs. B. D. Dillard is at the sanitarium at Brady. She was operated on Monday for appendicitis and is getting along fine. Her daughter, Mrs. Woodard of Houston, came to be with her.

Mr. and Mrs. Gus Robinet carried their little daughter, Bernice, to the sanitarium Sunday and had her tonsils and adenoids removed.

Mr. Hemhill left for Corpus Christi Saturday to get his boys who have been at work there for the past two months.

Mrs. B. Purdy and daughter have moved to the Shaver house.

B. D. Dillard came home last week from East Texas to be with his wife who was operated on.

Our school started Monday morning with 10 pupils present. We think if it begins raining there will be more to move in and others come back home.

NO WORMS IN A HEALTHY CHILD

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

Good work is a habit we have formed—and never forget. See "Callie" at our store.

Oil Leases Selling Higher as Result of Russell Well Near Leeday.

Stacy, Texas, Sep. 30, 1918.
Editor Brady Standard:
Mrs. Pink Hinds visited relatives near Santa Anna a few days this week.

Miss Agnes Burrow left last week for Amarilla where she will attend school this year.

Miller Hammons and Lester Cox left the latter part of the week for Orange, Texas, where they shipped some cattle and horses.

Guy Hammons of Brownwood, visited home folks here Sunday.

Mrs. Will Robinson and little daughter, Martha Louise, of Brownwood, are guests of Mr. M. Hammons this week.

John Brown returned this week from Midland where he has been with some cattle. He reports grass fine in that section.

Oil news in our community this week has been quite good and leases seem to be climbing higher. The Russell well near Leeday, having struck oil is the cause of the excitement. 100 barrels per day was the report here from the Russell well.

Word was received here from Doil Hammons at Camp Dix, New Jersey,

that his company was under quarantine there for three weeks on account of Spanish influenza. Quite a number of soldiers had died from the disease. However, he was well and doing fine and was anxious to go over seas before the war was over.

Jim Williams Dies at Camp Travis—Buried Tuesday Near San Saba.

Fredonia, Texas, Sep. 30, 1918.
Editor Brady Standard:
It is very dry in our community again. All the young gardens and small grain that was planted since the recent rain is suffering badly. We had a little frost Saturday night in low places.

This entire community was shocked and grieved last Monday morning when the news came that Jim Williams had died suddenly at Camp Travis. Quite a number of relatives and friends accompanied the family to San Saba Tuesday where they met the body and laid it to rest in China Creek cemetery near San Saba. Jim was always a good, honest and honorable boy and had several months ago volunteered his services to Uncle Sam and his country. He had undergone two operations and had been in the hospital for some time, but was thought to be doing fine and was expected home in a few days when the sad news came. Our heart goes out to all the bereaved.

Mr. R. M. McMillan has been very sick but is better at present.

Mr. Henry Leach returned home Saturday from Brownwood where he had been to stand examination in the military school.

Mr. and Mrs. E. M. Bratton and Mrs. J. S. Wilson have gone to Mason today on business.

Mr. Fred Miller moved last week to his home in Oak Grove.

Mr. and Mrs. E. D. Brown and family, Mr. and Mrs. T. P. Wood and family visited at Charlie Longley's Sunday.

Mr. and Mrs. George Entertaining a New Son Since Last Week.

Placid, Texas, Oct. 1st.
Editor Brady Standard:
I have just been waiting until some of the folks would come back that went away to hunt work, so I would have something to write about.

There was a singing at the home of Mr. and Mrs. E. H. McCluskey last Sunday night. Those who attended were Mr. and Mrs. Lowell Smith, Mr. and Mrs. J. W. Price and daughter, Pansy, and Misses Una Jordan, Lucy and Annette Kimbrough, Myrtle and Nina Hurd, Ona Lee George and Lelia Gault. A most enjoyable time was had by all present.

Word was received here last week that Lee Shafer, who is now in France, was killed. Some seem to think that this was a false report.

Mr. and Mrs. George of Placid, are entertaining a fine baby boy which made its arrival last week.

Mr. and Mrs. Oscar Scoggins attended church at Rochelle Sunday.

Mr. Jim Segrest of Blanket, paid our busy little burg a visit last Tuesday.

Mr. and Mrs. S. L. Hurd and daughters, Myrtle and Nina, were guests of Mr. and Mrs. R. B. Spears last Sunday.

Everything is awfully dull here. We don't have anything but northers and dry weather.

ED CAMPBELL SEES A FOUR-WHEELED WAGON IN FRANCE SOME RICH MAN IS OWNER

Ed Campbell has seen but one four-wheeled wagon since he landed in France, and promptly decided some rich man must own that. Ed is with Co. E, 111th Ammunition Train, American Expeditionary force, and in writing home to his parents, Mr. and Mrs. F. M. Campbell, he tells of his experiences over there. Note that, in common with all other soldier boys, he longs to see the home paper, and asks that The Brady Standard be sent him:

"I guess you have begun to think that I was never going to write home. I am well and am having lots of fun, and seeing lots of sights. This sure is a beautiful country, but it's 'way behind in times to what America is. Where I am now, the people wear wooden shoes mostly through the week days, and on Sunday they put on good leather shoes. The people work oxen and horses to two-wheeled carts. I haven't seen but one four-wheeled wagon that didn't belong to the government. I guess it was some rich man that owned it.

"We sure have all the blackberries that we want to eat. They grow wild here. I sure have seen lots of sights since I have been over. The Behrens boys and John Dean are still with me. They are well, and are having lots of fun.

"I wish you would send me The Brady Standard every once in a while. It would be old news by the time it reached us, but it would be news to us. I saw an American paper the other day that was 43 days old, and I read everything that was in the paper.

"I sure did enjoy my trip over here. John Deans and one of the Behrens boys has just come to where I am writing, and John said to tell Marion Dean that he was all right and having a good time and Behrens said to tell his dad that he was all right, and Walter also, and that they were seeing lots of sights and having lots of fun.

"Well, it is getting late, so I must close."

Kidney Troubles Attack Brady Men and Women, Old and Young.

Kidney ills seize young and old. Often come with little warning. Children suffer in their early years—can't control the kidney secretions. Girls are languid, nervous, suffer pain.

Women worry, can't do daily work. Men have lame and aching backs. If you have any form of kidney ills You must reach the cause—the kidneys.

Doan's Kidney Pills are for weak kidneys— Have brought relief to Brady people.

Brady testimony proves it. Mrs. J. T. Ogden, Brady, says: "A younger member of my family was troubled by kidney weaknesses and she had frequent headaches. She used two boxes of Doan's Kidney Pills, which I got from the Jones Drug Co., and they relieved the symptoms of kidney complaint and proved beneficial in every way. Since then, her kidneys have been normal."

Battery improvements are every-day affairs.

Important improvements come only once or twice in a decade.

Experts agree that the most important battery improvement in years is the perfection of Threaded Rubber Insulation by Willard—the invention that indefinitely postpones the need of battery insulation.

We carry a full stock of Bone Dry Batteries—every one as brand new as the day it left the factory. You're protected against delay in getting a battery—and against getting one that isn't in every sense brand new.

Ask for a copy of the booklet "196,000 Little Threads." It tells the story of this remarkable battery.

WHAT ARE YOU GOING TO SAY TO THE KID?

Jimmy Allbright is a fifteen-year-old bugler in Uncle Sam's Marines.

Jimmy was at Chateau Thierry with the boys.

The little beggar threw away his bugle, seized a bayonet, and went after Germans.

He stuck one, too---and the blade broke in the Boche.

What did Jimmy do?

Stood and howled, with tears running down his face, because he couldn't stick any more Huns.

What are you going to say to the kid?

"Can't afford it," or are you going to buy

BRADY'S THE PLACE.

W. H. Dodd was here Tuesday and dropped in The Standard office for a short chat. Mr. Dodd lives in Mason county, but says he comes to Brady to do his shopping because experience has proven to him that he can buy much cheaper here than any other place.

Last year we had the same kind of a report from citizens living in Coleman county. Brady's reputation as a good trading place seems to be making progress in all directions.

CAVALRY TROOP OFFICERS TO LEON SPRINGS FOR 30 DAYS OR LESS TRAINING

Ernest McMurry is home on a furlough from San Saba, where he is a member of Cavalry Troop H. He reports that all the officers of the troop have been summoned to camp at Leon Springs, where they will go in training for a period of 30 days, or less. The cavalry troop was left in charge of the top sergeant, during the absence of the officers.

FIRMS AND INDIVIDUALS GIVE PATRIOTIC EXAMPLE IN PURCHASE OF BONDS.

As everyone knows, the sale of the Fourth Liberty Loan bonds opened last Saturday, September 28th, in McCulloch county—as well as in every city and hamlet in the United States. McCulloch county's quota has been placed at \$69,800. This is a very small quota, and was placed low because of the drought conditions here. Every effort will be put forth to realize this quota.

The first Liberty bond of the new issue to be sold in Brady was a \$1,000 bond purchased by the Magnolia Petroleum Co., J. E. Wiley, local agent, having received authorization to make the purchase upon the company's behalf. Mr. Wiley states that each agent of the Magnolia company has received similar instructions, and as the company has an agent in practically every county in the state, it can readily be seen that the total subscription will reach an immense figure.

Mr. Wiley, himself, purchased the second bond, of \$100 denomination, which gives him a bond of each of the four issues.

Waples-Platter Grocer Co. is also doing its part towards swelling the total sales of bonds, having authorized the local house to purchase a \$1,000 bond of the fourth issue. The purchase was based upon the volume of business of the local house, and each of the Waples-Platter branch houses has been authorized to make purchases in ratio to the business done by the branch. L. B. Young, traveling representative of Waples-Platter Grocer Co., states that the head of the house is one of the most patriotic of American citizens, and places the entire business subservient to the needs of the country. Their purchases of the 3rd Liberty loan totaled \$28,000, and the total purchases of the 1st and 2nd issues equaled a like amount.

LOCAL BRIEFS

Mr. and Mrs. Alvin Parker are receiving congratulations upon the arrival of a fine son at their home Wednesday, October 2nd.

Mrs. S. J. Howard is making a splendid recovery from her recent operation for the removal of her tonsils.

E. T. Jordan has been confined to his home the greater part of the past week by an attack of muscular rheumatism. His many friends hope to see him soon on the road to recovery.

Mrs. B. D. Dillard was operated upon for appendicitis at the local sanitarium Monday. Latest reports are that she is doing nicely. Her daughter, Mrs. Ferris Woodard, and little grand-daughter, Mary Christine, arrived Sunday from Houston to be with her during her illness.

Henry Bradley, who returned Wednesday morning from Sherman, reports fine crops in that section, there having been splendid yields of oats, corn and wheat, while alfalfa and all feed crops were also fine. The cotton crop is also making a good turnout, and the farmers there are enjoying a great degree of prosperity.

"Grandma" Northeutt, who has been ill at the home of her daughter, Mrs. J. B. Cottrell, north of Brady, the past seven weeks, is reported very low. Grandma is 86 years old, and her advanced age makes her recovery very doubtful. Her niece, Mrs. Arthur McCoy came here last week from Orama to visit her.

There is sunshine and shadow both in the home of Mr. and Mrs. Julian F. Behrens—sunshine because of the arrival of twin daughters Wednesday, October 2nd, and shadow because of the loss of one of the little ones. Both mother and babe are reported doing nicely, and the many friends of Mr. and Mrs. Behrens trust the little visitor may ever bring happiness and sunshine into their lives.

Mrs. A. W. Woods, accompanied by her two sons and two daughters, left Tuesday night for Texarkana, where they join Mr. Wood in making their home. Mrs. Wood, in leaving, wished to express the gratitude of the family to friends and neighbors for the assistance rendered them during the long illness of their son, Vester, and also at the time of the fire which destroyed their home a week or so ago. The kindness will always be remembered by them, and their best wishes go out to the people of Brady.

Word was received here last week of the death at Camp Dix, New Jersey, of Greer Hunnicutt. Mr. Hunnicutt is well known in Brady, having lived here for a number of years, during the greater part of which he was in the employ of A. W. Keller. He was a most likable young man and had many friends here who will learn with regret of his untimely end. Greer was in training at Camp Dix, and it is presumed he was one of the victims of the Spanish influenza epidemic which is quite prevalent at that camp. His death occurred the early part of last week, and the body was shipped to El Paso, where his wife lives, for interment.

A cablegram received from Marine headquarters in France by Joe McCall the first of this week, stated there was no truth in the report that Boyd Rainbolt, brother-in-law of Mr. McCall, had been killed in action over there. This report was contained in a letter sent by Collis Campbell to his parents Mr. and Mrs. W. M. Campbell, at Waldrip. The letter was written August 31st, and postmarked September 7th, and was received by Mr. Campbell on September 21st. It contained the simple statement, "I guess you have noticed in the casualty lists that Boyd Rainbolt was killed." The message occasioned great anxiety here, especially since no official word to that effect had been received. Full details were requested from Washington, and resulted in the cablegram announcing the information as erroneous. Both Campbell and Rainbolt were gassed in the same drive, although it does not appear they were ever near one another in the hospital, and so it is presumed Campbell was incorrectly informed as to Rainbolt's condition.

D. H. Henderson of the Lost Creek community has a cotton stalk on exhibition at Broad Mercantile Co. that shows up a wonderful top crop. Mr. Henderson picked just three bolls off the stalk from the first output, and now the top growth has about fifteen well-formed bolls, besides some squares. Farmers who have looked at the stalk, say the bolls are sure to develop and give a good yield. Mr. Henderson has quite a nice-sized patch of this cotton.

The city is continuing the street work inaugurated several weeks ago by grading and building up the block from the Brady National bank to the postoffice corner. This street has been in bad condition for a long time, and its improvement will bring commendation from all citizens. Considerable of a fill is required to bring the street to proper level, following which it will be surfaced with crushed rock. The street committee, with Alderman N. T. Cook in personal supervision of the work, has been building first-class thoroughfares at a minimum cost, and are deserving of great praise for the good accomplished.

NEWS FROM HOME IS WHAT THE SOLDIER BOYS CRAVE, SAYS THIS WRITER.

The editor has received a letter from Dudley Kennedy, Jr., who is now stationed at Camp Travis, Texas, with the 39th Co., 10th Training Battalion, 165th Depot Brigade. Kennedy was formerly traveling salesman for the West-Cullum Paper Co., of Dallas, is a hale fellow, well-met, and will be remembered by many Brady citizens with whom he met on his visits here. His letter is full of characteristic pep and enthusiasm, and contains so many interesting side lights on life in the army, especially from the viewpoint of the new recruits, that we have taken the liberty to print extracts therefrom.

The letter reads:
"Believe me, I'm some soldier. Been here a little over a month now, and haven't done anything but write letters and work. I'm a little late in getting out into West Texas with a letter, but, honest, I've thought of all of you ever so many times. My last trip

to Brady has been the source of many, to water. Only disappointment I've been down here.

"I'm taking to this life like a duck to water. The only disappointment I've suffered is, I'm destined to remain here for some time, I think, and I wanted to go to France so! Just my luck, though, to be selected as one of 16 out of 325 in the company to remain here as permanent personnel. You know this is a replacement camp, now, since the 90th Division left. Recruits are sent here for concentration, examination and inoculation. Their qualification records are made also. Then for from two to three weeks they are taught the rudiments of camp life, training and discipline and sent away.

"I came in the 9th increment. Nearly all of them are gone. Some to France and others to various parts of the Nation for further training.
"I, with some others and some older men, was given some intensive training, to qualify as instructors for the 10th increment which began to arrive last week—and you ought to see me drill them. I'm some commander! It's lots of fun to get hard-boiled. You don't tell a man to do anything but once it's the army. Usually you have your bluff in to begin with, but sometimes one gets to the point to where he's a little slow, then the fun begins. I'm getting my fun now to make up for the fun they had out of me when I got here.

"You'd be surprised to see how utterly ignorant and awkward some of them are. You have to talk to them just like they were 6-year-olds, to make them understand. Totally helpless and no initiative whatever. It's some task. I found little trouble in adapting myself to conditions, but some men who have never been away from home find things so totally new to them that they don't know which way to turn.

"It's surprising to see how slow they are to move. In the army 'make it snappy,' 'put some pep into it' and 'do it smartly,' are in constant use in teaching. And nothing short of either will do.

"I expect to be given a non-commissioned office and later recommended for an officers' training camp. Six of our men leave this week for Camp Pike to go into training for officers. I shall exert every effort to get in, and then try hard to make good.

"My Top Sergeant is from Mason, as are two or three other fellows in the company. The Commander in charge of the company is one Lieut.

Alfred Petich, who formerly lived up in that country somewhere.

"I've written so much tonight I'm tired. It requires from four to six a day to keep up. My friends have been nice to me. Have received many letters from people who found out my address. Of course they had to be answered.

"Letters are a great consolation to a soldier and everyone who knows a 160 acres cultivated; two set good turn by writing him. I have stood by the box when the mail comes in, around which would congregate a crowd of expectant, anxious and joyous men. Perhaps they were just in from the drill field, wet with perspiration, hair tousled, and tired. All this was forgotten, however, in the keen desire for a letter. If the letter comes their delight was unbounded—but, on the other hand, in the crowd there'd be some who failed to get one. Then is when one sees personified, absolute dejection. It's a sight that can't be described and too pitiful to think about. Many's the time when I'd wish I could turn over to some fellow one of the letters I had received. It would have done more to relieve him than a good home-cooked meal. That's saying a whole lot.

"I'm tired and am going to quit. Give my regards to everyone. Tell my friends that I expect to be back in Brady some time. In the meantime, remember me."

If You Live Within a 100 Mile Radius of Brownwood You Should Trade in Brownwood---The Logical Trading Center.

The Best Service---The Biggest Values---The Most Reasonable Prices---Are Offered You by Every Dealer in Brownwood

The Stocks are Largest---The Roads are Good---The Train Schedule is Convenient

HERE IS AN EXAMPLE OF WHY PEOPLE ARE COMING TO BROWNWOOD TO TRADE:

One of the many families who shopped in Brownwood last week was asked why they came to Brownwood to trade. The head of this family said: "We live quite a distance from Brownwood. Heretofore we have gone to the large cities in Texas to do most of our buying — of course, we buy in our own small town all our needs that they can supply — but having read and heard about the condition of Brownwood's stocks and the preparation that the dealers have made on account of the "oil boom," I talked it over with my family, and we decided to see for ourselves what Brownwood had to offer.

"It took us only a few hours to drive to Brownwood. Understand me, my family and I came to Brownwood to first look, and then, if it suited us — to buy. We shopped pretty well over the city and became convinced that your values were good, the prices as reasonable as could be hoped for — and that in every place we visited we were made to feel welcome. Your stocks are large, and, as far as we are able to determine, seem to cover every family need. THERE IS NO DOUBT IN MY MIND THAT WE HAVE SAVED CONSIDERABLE MONEY BECAUSE OF THE REASONABLE PRICES ON THE THINGS WE HAVE BOUGHT TODAY.

"You people in Brownwood have a group of nice garages; I made no choice in storing my car for the day, but drove into the first one I came to on the street that led me into Brownwood. Judging from the service I received at this Garage, Brownwood's Garage Service is the best I have ever found. We had a good dinner at one of your eating places — the service was good, the food was well cooked and nicely served, the prices reasonable. After we had finished our buying we saw a good show. We were surprised to find the most recent productions in moving pictures produced so soon after they were being advertised as being shown in the real large cities.

"We are really glad we came to Brownwood to look — and buy. The cordial attention we received here made us feel at home and made our shopping pleasant. We're coming back a little later for our real winter needs we've been looking with this trip in view, and find you have everything we need.

Mr. and Mrs. Wallace Price arrived the first of the week and will make their home in Brady, Mr. Price having accepted a position as cleaner and presser with G. C. Kirk. Mr. Price is a Rochelle boy, but for the past year or more has been engaged in the tailoring business in Dallas. He comes highly recommended, and Brady citizens will be glad to welcome him and Mrs. Price to citizenship.

SOCIAL NOTES

Celebrates Second Birthday Anniversary.

Little Miss Drusilla Davidson observed her second birthday anniversary by entertaining a number of little friends at her home last Thursday afternoon. The guests included little Misses Sidney Richard Hall, Nance Bauhof, Mary Campbell, Vernon Cabanis, Virginia Schaege, Phoebe Graham, Imogene Hennesdorf, Alva Lee Cooke; Masters Truman Cabanis, David Hall, Lewis Brook, Fred Wulff, Yantis McCollum, J. B. Abernathy, John Ogden, Francks Mann. Assisting Mrs. Davidson in caring for the little folks were Mesdames W. D. Crothers, F. R. Wulff, John F. Schaege, S. S. Graham, Albert Hennesdorf, L. P. Cooke, Sam McCollum, James T. Mann, John Henry Ogden.

The afternoon proved very enjoyable, and at its conclusion the little folks were served ice cream and cake at a prettily decorated table set out in the open and upon the center of which was placed the birthday cake with two candles marking the two milestones in little Miss Drusilla's life.

The occasion was made a memorable one for the little hostess by the many beautiful gifts left by her admiring friends.

RECEIVES ACKNOWLEDGMENT OF GIFT OF CIGARETTES AND TOBACCO

Walter Ake of Brady is just in receipt of a post card acknowledging tobacco sent by him to the boys at the front many months ago. The acknowledgment is the second that has been received by McCulloch county donors to The Standard's Tobacco fund. The card received reads as follows:

"Received your cigarettes and Bull Durham, and was damned glad to get it, too. Am in a hospital, so you can see how I feel about it. Excuse shortness of this note. Yours, Chinkie England."

THE TEXAS OIL FIELDS

A WORD WITH THOSE WHO OWN AND OPERATE THEM, or who wish to become identified with them—HOW CAN WE CO-OPERATE in our mutual interest? Permit us to suggest—

HOUSTON has the TEXAS, LOUISIANA, MEXICAN, OKLAHOMA and KANSAS PETROLEUM FIELDS, from which to draw. THE COTTONSEED, PEANUTS and CASTOR BEANS of the same zone, and the COCONUTS of the TROPICS—HER GREAT SHIP CHANNEL furishes unsurpassed sites for REFINERIES, OIL MILLS, STALL FEEDING PENS, AND PACKING HOUSES. HER SHIP CHANNELS PUTS HER IN TOUCH WITH EVERY PORT ON EARTH, by tide-water. HER GREAT RAILWAY SYSTEMS will ultimately connect her with EVERY RAILWAY STATION ON THE CONTINENTS OF THE WESTERN HEMISPHERE. GREAT PIPE LINES are being constructed to CONNECT HER WITH THOSE FIELDS.

HOUSTON CAPITALISTS have been long enough identified with the oil industry to know its great wealth producing possibilities, and are ready to aid in financing those of real merit. THE REPRESENTATIVES OF THE LARGEST OIL INTERESTS OF THE GLOBE are gathering to her for headquarters. What other port on earth can offer such an array of facts to ENTERPRISE and CAPITAL, to make of it THE WORLD'S OIL CENTER? HERE IS THE PLACE TO MAKE YOUR CONNECTIONS.

If you wish to engage in the oil industry, we can furnish you SITES FOR REFINERIES AND OIL MILLS, LANDS TO DRILL, PRODUCING OIL PROPERTIES, PRODUCTION ROYALTIES. Draw your papers and obtain your CHARTERS FOR YOU, under THE LAWS OF TEXAS, and secure CAPITAL TO AID ANY LEGITIMATE OIL INDUSTRY that has made sufficient development to demonstrate that it possesses real merit, the owner of which is willing to give capital an equitable division in the profits. If you wish to EXAMINE THE MAPS of the different fields, or the counties in which they are located, we have them.

If you want to BUY IN, or SELL OUT, an INTEREST in any property, and do not want to be known in the transaction, if we are situated so as to permit us to take the business, we will give it our best capacity.

If you are a LAND OWNER, you will find it to your interest to COMMUNICATE WITH US.

Can Now Eat and Sleep in Comfort.

If troubled with indigestion or sleeplessness you should read what Miss Agnes Turner, Chicago, Ill., has to say: "Overwork, irregular meals and carelessness regarding the ordinary rules of health, gradually undermined it until last fall I became a wreck of my former self. I suffered from continual headache, was unable to digest my food, which seemed to lay as a dead weight on my stomach. I was very constipated and my complexion became dark, yellow and muddy as I felt. Sleeplessness was added to my misery, and I would awake as tired as when I went to sleep. I heard of Chamberlain's Tablets and found such relief after taking them that I kept up the treatment for nearly two months. They cleansed my stomach, invigorated my system and since that time I can eat and sleep in comfort. I am today entirely well."

LIENT. CHARLIE W. CARTER WRITES HE IS LEAVING FOR FRONT LINE TRENCH

Writing his god-mother, Mrs. Chas. Broad of Menard, Lt. Charlie Carter, of Co. M., 160 th Infantry, American Expeditionary force in France, writes as follows under date of Sept. 2nd:

"This is to let you know that I landed in France all o. k. Stayed in rest camp for a day or two, then made a very weary trip to the central part of France, where we were billeted for a few days, and the company is still there. I was billeted with a very fine French family, who wanted to do everything in their power to make me feel at home. Really get along better with my French than expected, and they had a girl who had had three years' English and spoke very well, so she was teaching me French until I left. They sure hated to see me go, but yet wanted me to go to the front.

"Have told my old company officers and men good-bye, and am leaving to-morrow for a regular army unit, which is at the front. They have done some wonderful fighting and are in the front line now. So I think it quite an honor to be sent to them. Have always said that I was coming back, but if you see my name in the casualty list, do not be excited, as I am going up against the Boches soon. Sure hated to tell my old unit good-bye, but am proud to be going."

CORPORAL SIMON J. GAY IS ANXIOUS TO LEARN TO PARLEZ-VOUS FRANCAIS

Corporal Simon J. Gay of Co. M., 144th Infantry, American Expeditionary force in France, writes his sisters as follows:

"I will write you a letter after some length of time. I am doing fine and am perfectly well, and am having a good time. We have good houses to live in where we now are. We are in a small village—just our company is all. The other soldiers are in small towns close around. The houses here are all rock and very old. The village reminds me so much of the Old Fort in that way. The people are friendly, but none of them speak our language. I have quite a time talking to my neighbors. I have a French dictionary and a map, and get along very well. Their talk is very much like the Mexicans. I think I can learn enough to get by with in a few months but it would take me a long time to learn to speak it correctly.

"The people have real old-time ways in farming. They use every inch of land, and do most of the work by hand. The turning plows are the only tools I have seen to plow with, and the wagons have two wheels only. They work two horses, one in front of the other, and instead of driving them, they walk and lead them. They raise mostly wheat, but raise a little of everything. The country is the prettiest I have ever seen.

"If I could only understand the language and the ways of the people, I would have a swell time. I haven't seen but two towns of any size—the port where we landed and one we passed through, coming from there here. We have been at this place for some time, and guess we will be here for some time yet.

"Should you happen to hear or read that the American soldiers in France were not getting enough to eat, or in any way not getting enough of attention, do not believe it, for we really get much better food here than we did in the states, and you know we were not ill-treated there. Everybody is doing fine, and there is not a man in the company but what is proud we are here."

COME AND SEE THE GUNS CAPTURED BY OUR BOYS AT CHATEAU THIERRY

FRENCH "SEVENTY-FIVE," AERIAL TORPEDO, DEPTH BOMB AND OTHER WAR TROPHIES MAKE UP INTERESTING EXHIBIT.

BLOOD-STAINED AND BULLET-RIDDLED UNIFORM OF HUN KILLED BY AMERICAN SOLDIER WILL SHOW YOU HOW OUR BOYS ARE TAKING CARE OF YOUR INTERESTS AT HOME—GAS MASKS USED BY OUR BOYS AS PROTECTION AGAINST THE DEADLY MUSTARD GAS.

Perhaps no other battle waged in the great World War will ever be as deeply impressed in the minds and hearts of the American people as that one fought at Chateau Thierry, when the American soldier covered himself with glory fighting fearlessly—courageously, as Americans always fight. Here the counter-attack of the American forces turned the tide of war in favor of the allies and since that time our forces have steadily pushed their line forward.

Your boy may have been with the American forces that started that never-to-be-forgotten repulse of the German shock troops on the spot that has been the scene of many a titanic struggle since the time of the ancients. Maybe it was your neighbor's boy or some other boy from your home town. He may have been one of the group who captured a machine gun crew of the enemy troops.

At any rate it will not be difficult for you to visualize the activities of your home town boys in that great American victory when you inspect the

Minnenwerfer, or Trench Mortar Gun, captured by the Marines in that engagement, which is attracting more attention than any other object on the Liberty Loan War Relic Train, making a tour of the Eleventh Federal Reserve District in connection with the Fourth Liberty Loan Campaign. Second in interest is

The Great French "Seventy-Five,"

the big gun used first at Verdun, where it "gave the German the surprise of his life," as a returned war veteran puts it. It bears the marks of camouflage as it was used in that terrific drive of the Hun, which the French armies met and held at that famous spot which will go down in history as one of the world's great battle grounds. It was at Verdun that the vision of the "White Comrade" spurred the tired and war-worn soldiers of France on to fiercer resistance against the foe, and where with their backs to the wall they fulfilled their vow. "They shall not pass."

Another object of particular interest at this time is

The Depth Bomb, which is included in this exhibit.

This bomb is playing an important part in the transportation of United States troops overseas. It is carried on the torpedo boat destroyers which act as convoys to the troop ships, and are used in warfare against the German submarine. This weapon has been responsible for the sinking of more than one submarine which has attempted to frustrate the moving of United States troops.

Aircraft has become an important factor in modern warfare. Some of the most splendid and daring exploits of young Americans who are defending the principles upon which this nation was founded have been made possible by means of the aeroplane. Can you picture a heavy battle plane, equipped with a Lewis machine gun and carrying several aerial torpedoes, each weighing as much as 250 pounds, and a crew of five or six men? The Lewis machine gun which is used to a great extent in aerial warfare is among the interesting features of the war relic train, as is the aerial torpedo.

Captured German Rifles, Grenade Throwers and a Grantewerfer show the material which the Hun uses when he launches his conquest for world domination.

A Chauchat auto rifle machine gun, along with its magazine, ammunition carrier and other accoutrement of the French infantryman displays the sort of firearms used by the "Blue Devils."

Uniform Worn by Boche Bears Evidence

of good marksmanship of American doughboy. This uniform, blood-stained and showing the wicked slit of a bayonet thrust, will be exhibited along with the field equipment of the German soldier. These objects will be shown in conjunction with the outfit of the United States soldier, and will give a comprehensive comparison of the two, showing the superiority of the American fighting man, in the matter of equipment as well as a fighter.

That "an army fights on its stomach" is fully recognized when an inspection is made of the methods by which the soldier carries his rations. Food and ammunition are the two greatest factors toward the successful outcome of a military expedition. And these, or a portion of these, the soldier carries with him as he moves from position to position along the new line of battle.

There are other exhibits on the train that appeal to the patriotism of all American citizens. Every man, woman and child should make it a point to see these war relics. The week before the trains were made up in Dallas hundreds of people visited the building in which the objects were being assembled, and viewed the trophies. The Minnenwerfer gun was placed on display outside the headquarters of the Dallas Liberty Loan Committee and had about it a group of interested spectators every hour of the day. The greatest enthusiasm is being manifested throughout the district regarding the visit of the War Relic train. An efficient corps of speakers and attendants accompany the train which will be made up of four cars. There are two flat cars, carrying the large gun, trench mortar, etc., an automotor car to show the smaller relics and a sleeping car for the cars and attendants.

INFLUENZA IN CAMPS DELAYS DRAFT CALLS

Washington, Sept. 26.—Because of the epidemic of Spanish influenza in army camps, Provost Marshal General Crowder tonight cancelled calls for the entrainment between Oct. 7 and 11, of 142,000 registrants.

In cancelling the calls for the entrainment of the draft registrants early next month, General Crowder acted upon instructions from General March, chief of staff. Every State and the District of Columbia had been assigned quotas and the men were to have gone to practically all the camps in the country. The men probably will not be entrained until after the influenza epidemic has been checked.

ARIZONA MINE BOSS LAY HELPLESS WHEN WIFE GOT TANLAC

Was Six Feet Tall and Got Down to Where He Weighed One Hundred and Sixteen Pounds.

"I lay helpless when my wife ordered our first bottle of Tanlac from El Paso, Texas," writes Harry E. Scott, of Dragoon, Arizona, in telling of his remarkable recovery.

Mr. Scott's letter was addressed to C. F. Moss, a well known druggist of Benson, Ariz., who has the Tanlac agency for that town, and was forwarded by Mr. Moss to the Tanlac offices in Atlanta. His letter follows:

Dragoon, Arizona.
 Mr. C. F. Moss,
 Benson, Arizona.

Dear Sir:—

"As you expressed a desire to hear more about my case, I will try and tell you part of it. I was down and out nearly all the time for two years with rheumatism and stomach trouble, and went to eight doctors, two of whom were osteopaths. Three of them refused to take my case, saying it was incurable, and others might as well have done so, as they did me no good. I guess I have taken a barrel of medicine internally and externally. I also went to Hot Springs and out of all that was done, I never got over one week's relief at a time.

"After going down to one hundred and sixteen pounds—which is very light for a six-footer—I kept getting worse until I couldn't move, even to feed myself, had no desire to eat and couldn't sleep more than two hours a night. Some of the officials of the mine, of which I am foreman, would call to see me, and then go out and say, 'poor old Scott, I guess he has fired his last man.' My wife thought I would never get out of bed alive and she knew my condition better than anyone else.

"At last when I lay helpless, my wife ordered a bottle of Tanlac from El Paso, Texas, which was the nearest place we could get it at that time. One evening about four days after I began taking Tanlac, I ate a fair meal and enjoyed it, the first in many months. By the time I had taken half of the first bottle, I thought I had a good appetite but when I finished my second bottle I could hardly eat enough to satisfy me. Well, I have just finished my ninth bottle, have gained eighteen pounds and am back on the job every day.

"I have converted lots of sufferers to the 'Tanlac Route,' and it affects them all as it did me—their stomach trouble, nervousness and rheumatism all yield to Tanlac. Mrs. Scott and myself are willing to go before a notary and make affidavit as to the truth of every statement in this letter, which you are at liberty to publish and use for the benefit of others.

Yours very truly,
 Harry E. Scott.

CASUALTY LIST CONTAINS NAME OF MASON COUNTY BOY—THOS. H. STRONG

The name of Thomas H. Strong of Pontotoc, appeared in the casualty list which appeared in the daily papers last Friday. His name came under the head "Wounded, degree undetermined." His people at Pontotoc believe this to be the wound he received in July, as they received an official message only about two weeks ago which was dated July 6, saying Tom was wounded. They had received word direct from him before saying he had been wounded but not serious. A later letter said he would go back on the firing line in a few days. This information from him all came prior to the official telegram.—Mason News

Mrs. R. A. King, chairman of the Conservation committee, requests the assistance of every school child, as well as every grown-up in McCulloch county, in the saving and collection of fruit seeds and pits. These are to be collected during the next few weeks, and will be forwarded to the proper destination by the Red Cross. The collection is being made at the request of the U. S. government, and the object in view is best set forth in the following explanation sent out with the request:

"Only the best gas masks will save our boys from painful death. These masks cannot be made without good charcoal. Wood charcoal has proven deficient. The necessary charcoal can be made from the pits and shells named below. Enormous quantities of these are needed at once. The government needs every stone and pit, and must have them immediately. We ask you to save them, but under no circumstances must any other pit or

shell be deposited than the following:
Peach Stones Date Seeds
Prune Pits Brazil Nut Shells
Plum Pits Walnut Shells
Apricot Pits Hickory Nut Shells
Olive Pits Butternut Shells
Cherry Pits

Bronchial Trouble.

Mrs. A. E. Sidenberder, Rockfield, Ind., states: "For an attack of bronchial trouble which usually assails me in the spring I find Chamberlain's Cough Remedy the only thing that gives me relief. After using it for a few days all signs of bronchial trouble disappears."

DR. JACK RAGSDALE, NOW IN FRANCE, WRITES INTERESTING LETTER TO THE "BUNCH"

The following letter, written by Sgt. Jack Ragsdale and addressed to "the Bunch," has been received by B. L. Malone. The letter was dated "On the Front, Aug. 21st." Dr. Ragsdale is well remembered here, having been a regular weekly visitor here from Brownwood, as optometrist for B. L. Malone & Co., consequently his letter is of especial interest. Jack is in the 21st Field Artillery Band.

His letter reads:
"I wonder if you fellows can begin to picture a nice, lovely, quiet spot out on the Bayou under a great, big shade tree; a gang of twenty-five fellows grouped around on benches, each with their instrument, trying to rehearse 'The Dixie Volunteers,' while just above your little heads anti-aircraft shells are bursting with a roar that even deadens the bass drum's noise, and while in your mind the thought is moving around that you are just as likely to get hit as the fellow down the road. (Anti-aircraft shells are shrapnel, and when they explode, the steel and junk they have in them is supposed to knock the wings off of an airplane, or else cripple it so it will have to descend). Such was our experience just this morning! Not only that, but for several mornings past. Perhaps you ask why do the fools stay out there where they are in plain sight of the enemy? In the first place, it is not an enemy plane they are shooting at. It's one of ours. In the second place, there is the fact that as long as we are on the front we are just as safe under a shade tree as we could be anywhere else—unless it is an underground dug-out. They are only to be found near the battery positions. We have our concerts to play, and we have to rehearse for them just like the old Brownwood band rehearsed for the 4th of July. These are cool, clear facts that I am handing out to you. I can see right here from this position two shell holes that were caused by bursting shrapnel within the last twenty-four hours."

"You may ask, why this sudden bombardment? Well, here is the whole story in a nutshell, from beginning to end, as it happened to me: Last Friday noon I was called away from my dinner to report to regimental headquarters. I was immediately put in the colonel's car, and, with him, taken to the headquarters of the artillery brigade. There I was told I would act as liaison agent from this regiment until relieved. Not knowing where I was going, I did not wait to get my mess kit, nor my blankets. I was told upon reporting to the general, to find a comfortable chair and be at ease until he saw fit to use me in my official capacity. By midnight I had managed for a horse blanket and was stretched upon the floor of that room just dozing away into the land of sweet dreams. Near four o'clock I was rudely awakened by an officer and told to report to the general, for they were about ready to start the fire works. Looking out from a good observation point, the sight that I saw was enough to make the bravest kind of a country boy weaken at the knees. Not that I was scared, but the realization that I was gazing upon the most horribly beautiful sight that human hands and minds can conceive and produce. It was nothing more than wholesale manslaughter, accompanied by the most terrible-looking rain of fire, steel and gas that our batteries could shoot over to those dirty Huns. Advancing behind this was the dough-boy regiment of our division with the sole purpose of capturing that line of trenches held so long by the Germans; to bring back with

them two German prisoners alive, and to send the rest of them to the happy hunting ground, where German auto-cruacy will soon be sent. I wish that I were better able to describe those zig-zagging flashes, leaping from great balls of fire that illuminated the heavens to such an extent that it looked like a great arm of dawn reaching out in that black, pitchy night. It was simply a wonderful sight, and a terrible thought that held us as we gazed upon the work that we have traveled so far to accomplish. Little did we think about the German shell that might come crashing through the roof above our heads, if they should see fit to attack our position. I wish that I could further describe the sight we witnessed. When I tell you that for the first forty minutes the artillery alone fired thousands upon thousands of shells upon those trenches and in making that barrage fire, you can picture in your own mind partially the scene that I gazed upon that night.

"For seventy-six hours I stayed in that one room, answering any question that the general might see fit to ask in regard to my regiment. I did manage to sleep a little, and now and then grab a sandwich as they came by. Such a thing as taking off your shoes when we steal a map was unheard of during that time. It was nothing more nor less than simple, cruel war. The final report on the attack that was staged was that the Americans had made their first offensive on this front; had gained their objective and had had very little losses. The newspapers all over this country gave us nice write-ups upon our work, and editorials upon one of the strongest fortified positions that the Germans held. We captured one town that the Germans have been holding since the first of the war.

TERRIBLY SWOLLEN

Suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Theodor's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theodor's Black-Draught."

Theodor's Black-Draught will help you to keep fit, ready for the day's work. Try it! NC-31

For Our Soldiers

Soldiers Want Newspapers.
(Associated Press Dispatch)
London, July 10.—"More home newspapers" is the constant appeal from the American soldiers in the camps and hospitals in Great Britain, says an American Red Cross report made public today.

And This is What a Personal Friend Writes Us:

"You ought to see the rush of the boys when the mail comes in. But the heart-breaking scene is when some soldier fails to get the mail he has been so eagerly expecting. Many a time would I have gladly given part of my mail to some of these disappointed ones, who looked as though they had not a friend on earth. Every patriotic citizen should write the home soldier boys, or at least send them a card or the home paper."

Through the Thoughtfulness of Relatives and Friends

Forty-two McCulloch county boys are now receiving The Brady Standard each week, and of the forty-two papers, sixteen are going overseas—to our boys in France.

Don't you know there is a world of pleasure to these boys and their comrades in the old home paper?

crash through the trees and bury themselves into the paved road that is immediately in front of our billet. Such is La Guerre, as the French say, so we should worry. 'Tis a happy-go-lucky bunch, and we have to take a fatalistic view of this business and be 'bumped off' when our time comes. If not then, you can rest assured that I will be the very first one to reach Brownwood with a great, big happy grin on my face, and a heart full of gratitude that I have been spared and am able to face my friends and loved ones once more.

"While Vaughn Ray and I were looking over some battery positions last week we ran right square into Taber Turner. Did not have an idea that he was within a thousand miles of us; nevertheless, was mighty glad to see him. He is in a doughboy regiment and in the same division that we are in. From now on we will be pretty close to one another, and can swap a little home town gossip occasionally. It sure is great to meet an old pal when you are seemingly a million miles away from home. After all this world is not so large.

"If you want to get some good, real hot dope about this war, don't fail to read George Patullo's articles in the Saturday Evening Post. I have just read his 'Horrors of Moonlight,' and 'Luck of War,' appearing in the June and July issues. About the middle of the month issues, I think. They seem to fit our position as well as his. The only difference is that he is a doughboy, and we are in the artillery; and we have made our first offensive, while he had not accomplished as much the last I read of his doings.

"Don't forget the boys in the trenches, and especially this one."

Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, etc.
