#### \* IT'S NOT YOUR HEART IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ills afflicting people today can be traced back to kidney trouble.

The kidneys are the most important organs of the body. They are the filterers, the purifiers, of your blood.

Kidney disease is usually indicated by weariness, sleeplessays, nervousness, despondency, backache, stomach trouble, pain in loins and lower abdomen, gall stones, gravel, rheumatism, sciatica and lumbago.

All these derangements are nature's signals to warn you that the kidneys need help. You should use GOLD MEDAL Haarlem Oil capsules each day, so as to keep in first-class condition and ward off the danger of other attacks.

Ask for the original imported GOLD MEDAL Haarlem Oil capsules immediately. The soothing, healing oil stimulates the kidneys, relieves inflammantions and destroys the germs which have caused it. Do not wait until to-morrow. Go to your druggist today and insist on GOLD MEDAL Haarlem Oil.

After you feel that you have cured yourself, continue to take one or two capsules each day, so as to keep in first-class condition and ward off the danger of other attacks.

Ask for the original imported GOLD MEDAL Haarlem Oil Capsules immediately. The soothing, healing oil stimulates the kidneys, relieves inflammantions and destroys the germs which have caused it. Do not wait until to-morrow. Go to your druggist today and insist on GOLD MEDAL Haarlem Oil.

After you feel that you have cured yourself, continue to take one or two capsules each day, so as to keep in first-class condition and ward off the danger of other attacks.

Ask for the original imported GOLD MEDAL brand. Three sizes. Money refunded if they do not help you.

#### STACY HAPPENINGS.

Reported Lester Cox Has Three Drilling Contracts on Ranch Stacy, Texas, March 10.

Editor Brady Standard: After lingering the past two weeks with flu-pneumonia, Miss Eva May Powell passed away Tuesday night at 2 o'clock. Eva May was well known in this community, having lived here all her life. Had she lived, she would have been 21 years of age the 27th of this month. She leaves an aged father and several brothers and sisters to mourn her death.

Emily Kinman is very ill with miss pneumonia. Mr. Kinman has just recently returned from army service. Joe Neal Brown has returned from overseas, much to the joy of his par-

Quite a number of oil men were out in our community the past week. It is understood that Lester Cox has drilling contracts let on his ranch near Stacy. Oil leasing is rapidly picking up in our community.

Aron Dameny is back in our community now wearing the same old Mrs. Aaron Bowen of Silver Valley, was buried in Stacy cemetery Wed

nesday. Lester Cox and Miller Hammons were in Coleman a couple days this week on business.

The slow, misty rain, now falling is duly appreciated after so much windy "SUNFLOWER."

COW CREEK NEWS.

E. W. Wood Completes School Census.

—Shower of Benefit.

Lohn, Texas, March 11.

Editor Brady Standard:
We had a nice little shower Saturday night which will be of great benefit to oats and all grain planted. Most everyone is through prepar-ng their land and some few have heir corn planted.

Miss Susie Hanley spent Wednesday night with Mrs. John Ake.
Mr. and Mrs. W. S. Young and E.
W. Wood and wife went to Brady Fri-

day.
Mrs. A. L. Plummer spent Friday
with Mrs. J. T. Smith. S. Wyres was a Brady visitor

Friday.

E. W. Wood was taking up the school census for another year; some 23 or 24 children were enrolled. Maggie Petty visited Mrs. Smith

Mrs. John Ake visited her niece Mrs. Cavin, Saturday. Mrs. Ira Killingsworth spent Sat-

urday evening with Otis Young. Tom Mitchell and sons, of the Fife ommunity were at Mrs. Killing-

worth's Thursday.

Miss Fay Woods spent Sunday with
Miss Willie Mae and Gladys Young. Mr. Moody Smart and wife of Pas-

the Cornils home Sunday afternoon. J. F. Moore was a Brady visitor

B. A. Cornils and son, Ernest, went to Lohn Monday on business. Susie Hanley spent Saturday night at the Gary home.

Mrs. Killingsworth and Delta, call-

Wedding Bells Soon to Ring.—New Arrival at Larkin Williamson's. Rochelle, Texas, March 3.

blow, and takes along with it all the dust and sand possible, and we don't the dust swept out from on get ell till there is another one on us surely be glad when March is

We had a nice little shower, acco anied with considerable thunder last Friday night, and we think this may lay the dust for a few days and will also help the wheat and oats, and gardens as well. We feel very akful for the shower as it was beginning to be needed.

Corn planting was the order of th day last week and will be again this week, and until the farmers are a through planting. We hope to have more rain along as it is needed to bring up and keep the crop growing.

Bob Sellman has been on the sick
list this week, but is reported some better at this writing, and we hope

he may continue to improve until in a short time he will be at himself Mrs. R. H. Rogers and children, visited at the home of her parents, J. P. Waddell and wife on Saturday and Sunday. Object of her visit being to see her Auntie, Mrs. M. J. Sewell who is visiting in the Waddell

Albert Rogers who has oeen home on a visit of a couple months, left last week for his home at Lordsburg,

A letter from Vernon Waddell, writ ten at Molheim, Germany, on Feb. 16, says he is well and doing fine over there but has no idea when he wi start home. He has been working o a lumber detail now for over a mon and speaks of the ice bergs and the tall pines being full of ice. He also states it was a most beautiful scene and he is well pleased with his work for U. S.

Tom and Leslie Rogers came to Rochelle this a. m. for their feed oats previously ordered. Feed is certainly high and will cost the farmers a big sum to make a crop, but if they can only have rain when needed will

come out all right yet. Health in this community was never better than at present. new cases of flu, but instead it is rumored that the wedding bells will be ringing in Rochelle again soon. Bro. Harley Smith filled the pul-

pit at the Baptist church again Sunday, and we understand he has been called to the pastorate and care of the church at this place, and we feel it would be hard to fill it with better

material. Mr. and Mrs. Larkin Williamson of near Rochelle are rejoicing over the arrival of a son who came last week to spend an indefinite period of time with them. Mother and child both doing fine. "AMOSKEETER."

For a Bad Cold.

Take Chamberlain's Cough Remedy. It has stood the test of time and can be depended upon.

#### LOCAL BRIEFS

are receiving congratulations over the fine young man, who arrived at their home Friday, March 7th. Father Finlay is just as delighted as anyone

A message received by Mrs. P. A. Campbell stated that her son, Jack Winfrey, was leaving Camp Mills at Hempstead, N. Y., for the base hospital at Camp Travis, San Antonio. Evidently Jack is slowly but surely coming home!

Mr. and Mrs. W. O. Shultz of Paint Rock were visitors in the city the first of the week. Mr. Shultz is confident that they will soon bring in the Shultz well near Paint Rock. The hole has been cleared of all tools and cavings and operations will be resumed at once.

Mrs. Ben Anderson, who has been n a Dallas sanitarium the past couple weeks, returned home last Saturday morning, and her many friends will be pleased to learn that she is convalescing nicely, and hopes to soon effect a complete recovery following the operation for appendicitis.

B. F. Noland came in from Brownwood Tuesday for the purpose of repairing some Frisco cars, so they could be moved out. Mr. Noland expected to complete the job in the course of a few days, but was delayed at the start by having his tools put off at Rochelle, instead of at Brady.

A letter from Chas Fuller to his parents states that he is still in France and will not be home for some time yet, possible not until late in summer. The news was a distinct disappointment to relatives and friends, since it had been thought he would b home in just a few weeks

instrument in operation is privileged to comfort and to guess at, or attempt to explain its

home from Camp Travis Wednesday. was the mud of so-called "Sunny Curtis has been in army service the France." The letter wound up by the JOHN A. ## FACTS FROM THE ENCYCLOPAEDIA

The Use of Flavorings Deter-

The Encyclopædia Britannica says about the manufacture of smoking to-bacco: "...on the Continent and in America, certain 'sauces' are employed ...the use of the 'sauces' is to improve the flavour and burning qualities of the leaves." Which indicates that a smoker's enjoyment depends as much upon the chipyment depends as much upon the flavoring used as upon the tobacco. Your nose is a sure guide in the matter of flavorings. Try this simple test with several tobacco brands: pour some tobacco into your palm, rub briskly, and smell. You will notice a distinct difference in the fragrance of every brand. The tobacco that smells best to you will smake best in your pipe, you you will smoke best in your pipe, you

can rest assured.

Carefully aged, old Burley tobacco, plus a dash of pure chocolate, gives TUXEDO Tobacco a pure fragrance your nose can quickly distinguish from any other tobacco. Try it and see.

HENRY KING SENDS RELICS TO HOME FOLKS-PROMOTED TO RANK ORDERLY SERGEANT

T. J. King and family are in receipt of a number of relics of the great war from their son, Henry, who has been in overseas service for over a year now. The souvenirs include a German gas mask, mess kit, machine gun belt and German time fuse. Masury Paint Writing from Maubege, France, Henry states that he has been promoted to ASTS rank of Orderly Sergeant, jumping the rank of Sergeant of the 1st class entirely. His new rank is the high-E. B. RAMSAY est of the enlisted men, and makes him a staff officer. He was schedulest of the enlisted men, and makes ed to go before an examining board for promotion, but was exempted and given his new rank without any examination whatever. He thinks this will be his last promotion, as since the armistice, they have not been handing out commissions anyway. At that, he is fully satisfied and states he does not care in the least for the rank of econd lieutenant.

MACY & CO.

If you do not want to pinch a Wildcat's tail do not read the rest of this advertisement. JAS. E. FERGUSON.

Five weeks ago I announced that an \$80,000.00 company would be organized to drill for oil on my 6202 acres in Bosque County, Texas.

I asked for 600 people to put up \$100.00 each to be spent in drilling a well. In three week's time there was subscribed over \$85,000.00 or \$25,000.00 more than was asked for, and subscriptions continue to come in.

As a result of my action the oil people have been attracted to Bosque County and business has picked up. It is now plainly evident that a thorough test is going to be made to find Bosque oil. Drilling on my First Wildcat will begin in a very short time, and there are five more wells under contract to be drilled just as soon as the machinery can be put on the ground. Prices of land have jumped up and large tracts of land for leases are now exceedingly difficult to obtain.

Seeing this condition coming, I began ten days ago to secure 5000 acres of land in the immediate vicinity of the 6202 acres upon which my first Wildcat runs, for development in case we were oversubscribed. So now I am organizing an association of \$100,000.00 stock, reserving \$25,000.00 of same and the usual one-eighth royalty goes to the owners of the land; and I am asking 750 people to buy as much as one share for \$100.00 each, making a total of \$75,000.00 to be spent in actual drilling for oil less only the actual expense of advertising and organizing the association.

Liberty bonds taken at face value.

No commissions paid or stock salesmen employed. There is no guarantee that we will strike oil, and you may lose your money, if you invest. Therefore, do not put any more in this or any other oil speculation than you can afford to lose. Any man that guarantees that his company is going to strike pay oil is either a crook or fool.

I guarantee to give my personal attention to the drilling of the well and that each stockholder will have his proportionate interest in any well drilled and all the revenues of the company from every source.

If we have no bad luck we will be able to drill two wells 3500 feet deep and if we hit a gusher on this 5000 acres situated near Meridian, it will be worth ten million dollars and a \$100.00 investment will be worth anywhere from ten to twenty thousand

So if this appeals to you just write me direct at Temple, Texas, or send your money to W. W. Lynch, cashier of Temple State Bank who will act as temporary trustee pending organization of the company. Do not delay as I expect to be drilling by April first. We may organize for \$50,000.00.

This Wildcat is black just like Number One; the same color of the oil and when they begin walking nights and messing in that greasy stuff, really there will be a rattling of dry bones and something doing.

JAS. E. FERGUSON

### JEFF MEERS OIL CO. 1ST ALL HOME CO. ORGANIZED

The Jeff Meers Oil Co. is the first all-home oil company to be organized in Brady and McCulloch county. The company is to be capitalized at \$100,ing at \$1.00 par value.

Mr. Meers recently acquired control of 3,840 acres in Concho county from the Shultz Oil Co., and Mrs. Meers is very sanguine of bringing in Cora Hargroves. This acreage is located 4 1-2 miles Northeast of the Shultz well in Concho county, 4 miles Southwest of the Tidal Miller No. 1 in Coleman county, 6 1-2 miles South of the Gulf Production Co.'s Russell well No. 1 and 20 miles Northwest of pletion. the Lohn shallow field. Mr. Meers is including with this acreage a 40acre offset to C. S. Thomas No. 1 Salt Gap well, and an 80-acre tract out O. D. Mann & Sons.

ious tests in McCulloch county will prove up the other acreage. In the Shulz well, the Lohn sand was had at 1400 ft., and Mr. Meers expects that depth, as the structural conditions are ideal. The report of the geologists on this tract is all that could be asked for, and Julius Fohs' report in one of the leading oil journals, regarding the probable extent of west part of McCulloch county and the Northwest three-fifths of Concho county as being in some of the most likely territory. | Consequently Mr.

The location for the well will be made as soon as engineers can complete the surveying of the tract, and in the meantime the organization of the company will be pushed to com-

of the Hall-Dutton tract and close in. McCulloch County Oil-Leease Ex-

000.00, and is to be operated under a the oil field area, places the Northpast and present operations, The Standard has prepared the following brief history of the McCulloch county oil operations.

Oil operations in McCulloch county passed favorably upon various secdate back seven years, when J. Meers tions of McCulloch county, having and H. Meers bought a tract of 208 found the formation and structural acres near Lohn and began trying for conditions most favorable for the acoil. The tract was part of Survey No. cumulation and retention of oil. Act-1105, and seven wells were drilled by ing upon the reports of the geologists, the Meers brothers, only one of which oil men are now drilling in all parts pleted the printing of a large quantiwas a dry hole. The production from of the county; in fact, it has been ty of advertising material for Law- fields, going out by way of Lohn to the seven wells ran from eight to repeatedly said by oil men visiting rence Miller of Dallas, who recently visit the field there. twenty-five barrels, which tested out here that McCulloch county is getting acquired the J. H. Hill 5,383 acre a very high grade, with paraffine the most thorough test of any under ranch, and which lies four miles south by reason of his remarkable Arctic ex-New Home Sewing Machines. base. However, with no roads, no veloped field in Texas. This is fact, of Brady. Mr. Miller proposes to cut plorations, and also because of his trucks or other adequate means of as is proven by a list of wells drilling this ranch up into 10, 20 and 40-acre claim to having been the first to distransporation, and with no market or under contract to drill, and which, blocks, to be sold at \$15 per acre. The first well to be drilled by the change. Nothing to keep; everything for the oil (oil was then selling for to date, number 24 deep test and 42 The Hill ranch is daily becoming a 70c a barrel) the venture did not shallow tests. Not only are some of better proposition for the investor, Wyoming oil fields, and have only prove a great success. succeeded in interesting C. S. Thomas county, and Prof. Watts mads a seven months' technical survey of the county. In his final report he approved of three tracts of acreage in the coun-

ty for his company-one at Whiteland, the second at Salt Gap and the hird at Cow Gap. Prof. Watts, however, was not alone in his favorable report on McCulloch county. Geologists who have visited here state they have never before seen such splendid structure exposed

as is to be found in McCulloch county. After making a survey of the western part of the county, M. J. Munn of Tulsa, Okla., expressed his opinion of this territory by saying he "would not be surprised to see Mexico production" developed there.

The shallow sands at Lohn have been proven to extend out into the Salt Gap section in the Prairie Oil & Gas Company's test on the Zelle tract, which is drilling on Salt Gap structure. In fact, the whole northwestern part of the county has been proven up as a shallow field.

The structure that is found in the west and northwest part of the county appears to be the major structure of the Pennsylvania area in Texas, from the fact that it has been traced from south of Salt Gap to Ranger, Texas, and wherever drilled, has proven to be productive. The Prairie Oil & Gas location, the Smith & Jergins location, the C. S. Thomas Salt Gap location and the Cooper-Shields location are all on this structure, and as all of the wells drilled on this structure as far south as the Sinclair well and the Bailey well in Brown county, and southeast of Santa Anna in Coleman county, have proven productive great things are being anticipated from all wells drilled on this structure ir McCulloch county.

The reports of the geologists were not confined to this one section, however, and numerous geologists have
