CITY PLANNING TO INSTALL MODERN ELECTRIC LIGHT

REMARKABLE OFFER MADE CITIZENS ON INSTALLING OF NEW LIGHT PLANT

SAVING IN FUEL ALONE GUARANTEED TO PAY FOR over the worst of drouths. Without J. H. Taylor. For the past fourteen NEW PLANT IN YEAR'S TIME—WOULD GIVE CITY A FIRST-CLASS, MODERN, LIGHT & POWER PLANT.

With proper co-operation upon the part of every citizen, Brady's light troubles promise to be a thing of the past within the next ninety days. Plans are now on foot to secure a mod-ern, up-to-the-minute light and power plant with which to replace the present worn-out, antiquated system. This plant is to be installed under the positive guarantee that it will pay itself out in twelve months' time merely in the saving of fuel expense over the present cost of operating. About \$15,000.00 will be required to purchase and install the new plant and to convert the present system from the obsolete direct-current to the modern and efficient alternating system. Of this amount, something like \$10,000.00 cash will be required to swing the deal.

The foregoing, briefly stated, is the on the plant and to cover installation proposition laid before the Brady city costs. It is now proposed to raise council and a representative body of this \$10,000 by having Brady citizens M., is responding to the call for re- The Brady Standard 5.00 J. A. The improvements made included the adding You can haul one baie of seed of a shingle roof and other wood but the stone walls of the old fort.

This was the second time the fort burned. Some time after the government abandoned it and the troops had been withdrawn, it was burned, the walls being left in good condition. It stood this way for several years before Col. Odom purchased the prop-

erty from the Mavericks. After deciding to improve the old property and convert the fort into a ranch house, Col. Odom contracted with freighters to haul the lumber from the nearest railroad point, which was Round Rock, in Williamson county. Ox teams were used in hauling the lumber from Round Rock and Col. Odom says that the freight on the lumber amounted to more than the purchase price of the lumber. It cost him about five thousand dollars to remodel the old fort and make it fit

"I had rather lose anything of equal value on the ranch than the old fort," said Col. Odom, when he received notice that it had been destroyed, "and there has been a loss which money cannot replace."
