

TEXAS OIL AND REFINING CO. WELL LOOKS LIKE PRODUCER

J.F. CREW, EARLY SETTLER, PASSES TO HIS REWARD

Last Friday afternoon marked the passing of one of McCulloch county's most highly respected and pioneer citizens, J. F. Crew, who succumbed to heart failure in his office at Rochelle. Mr. Crew had not been in good health for a year or more, but nevertheless led an active life up to the last, looking after his extensive business affairs, driving his own car and making occasional visits to Brady up to within a week or two ago.

The body was shipped to Brady on Sunday morning's train, arriving here about 11:00 o'clock, and the funeral procession, forming at the union station, proceeded to the Brady cemetery, where the body was laid to rest beside that of his wife, who preceded him into the Great Beyond in 1907. Many Brady citizens, as well as old-time friends from various parts of the county, were present to pay their last respects to the deceased. Funeral services were conducted by the Rev. J. S. Wilson of Rochelle.

Mr. Crew was born at Chester Hill, Ohio, nearly 73 years ago. All his life he had been engaged as a stock dealer, being one of the most extensive shippers of Ohio, and shipping horses and stock to Eastern markets every year. In 1885 he purchased Senator Smith's ranch on part of which the town of Rochelle now stands and after closing out his interests in Ohio, he took up his residence on the ranch. Later he sold a considerable part of his holdings, including the ranch purchased by E. E. Willoughby, and when the Frisco built their extension from Brownwood to Brady, he gave every alternate section to the railway for a townsite, upon which the present town of Rochelle was located.

Despite warnings of friends that he would be sure to sustain heavy losses from Texas fever, Mr. Crew shipped a carload of registered short-horn cattle from Ohio to his ranch in 1894, and later shipped in a second car. The first year he lost over half his herd from fever, but he persisted in his efforts, and finally succeeded in establishing what was probably the first herd of registered shorthorns in this section. His son, Jack, came to McCulloch county about the same year, and Mrs. Crew joined them here in 1898.

In addition to fine cattle, Mr. Crew loved fine horses, and his big iron gray horse, "Don," which he brought to Texas and which has been owned by him for the past 28 years, is known to almost everyone in the county. Despite his age, the horse still retains a great degree of his younger spirit and looks, and was driven by the master almost to his dying day.

Mr. Crew was a member of the Methodist church, having joined in his younger days in Ohio, and also had joined the Odd Fellows lodge in that state. While taking no active part in either church or lodge work since locating in Texas, he was nevertheless a friend and supporter of Christian work and charity; and was free and open-hearted in his gifts to the cause. Withal, he was a shrewd and careful business man, and kept faithful and accurate record of all his business transactions, from the least to the greatest.

For years he had made his home with his daughter, Mrs. Grace Smith, at Rochelle, and his every want and care were attended to by his children. Surviving are his son, Jack, and daughter, Mrs. Grace Smith, of Rochelle, and another daughter, Mrs. E. E. McGrew of Dassel, Minn.

DAY WELL ON DUTTON TRACT HAS OIL SANDS AT 863 FEET—OIL RISES TO WITHIN 5 FT. OF TOP

OIL MEN UNANIMOUS IN OPINION THAT WELL IS BEST CHANCE YET FOR REAL PRODUCTION—ACREAGE IN DEMAND.

With every indication pointing to real production in the Texas Oil & Refining Co. test on the Dutton tract (J. H. Gibson Survey No. 1) and with local oil men unanimously of the opinion that the well offers the best bet yet for an oil well, McCulloch county promises shortly to take rank among the real producers of Texas. Oil was struck last Thursday at a depth of 863 ft., and upon orders of O. L. McShan, acting superintendent in the absence of Thad O. Day, the well was closed down late Thursday evening. The drill barely entered the oil sands, and although drilling was in progress with a hole full of salt water, the oil steadily rose in the well until it now stands about 5 ft. below the surface, and samples may be readily secured by lowering a bottle into the hole with a string. The oil shows up as high grade, and is somewhat lighter than the oil found at the Leonard Petroleum Co.'s well on the Waring ranch in Concho county.

While oil sands were anticipated at about the 900 ft. level, the well came in unexpectedly at 863 ft. depth. At 730 ft., 12 1/2-inch casing had been set, without cutting off the salt water, however, and drilling was proceeding with a hole full of water. Further operations now await arrival of a packer, when 8-inch casing will be used to shut off the water and test out the well. No accurate test of the production can at present be made. As before stated, the oil stands within 5 ft. of the top of the hole, and a weighted bottle let down a distance of 15 ft. in the hole by P. C. Dutton was drawn out full of oil and without any indication of water. With the hole full of water, it is estimated

that not less than 300 lbs. per foot pressure would be necessary to force the oil through to the surface.

Thad O. Day, who is drilling the well under the name of the Texas Oil & Refining Co., has been in Kansas the past two weeks, having been called to Cherry Springs by the illness of Mrs. Day. He was advised by wire of the oil strike, and is expected to return with Mrs. Day tomorrow morning. It is possible that he will be enabled to secure a packer in Kansas and bring it here with him, in which event a test of the well will be made within a few days.

The Day well is located on the P. C. Dutton tract, about 11 miles almost due north from

Brady. The present hole is the third test to be drilled by Mr. Day. The first two were abandoned because of crooked holes, and last February Mr. Day shipped in a brand new standard rig to replace his first rig. The rig was completed and the present test was spudded in Monday night, March 17, at 10:00 o'clock. Ill luck apparently continued to dodge Mr. Day's efforts, and various mishaps made for slow progress in the operations. A few weeks ago all difficulties were apparently overcome, and in between spells of bad weather, Driller Jim Roberts and his crew have been making excellent progress.

Offsets to the Day well are owned by the Prairie Oil & Gas Co., Cosden Oil Co. and the Empire Gas & Fuel Co., and should the well prove up the anticipated production, it is a foregone conclusion that these big companies will at once begin offset wells. The Prairie Oil & Gas Co. holds the lease on a part of the Hall tract lying west of the Day well, and would probably be first on the ground with an offset well, inasmuch as the star rig used for drilling the shallow tests on Survey 89 could be moved onto their holdings.

Whatever the results may be, it is certain that the utmost confidence is being manifested in the Day well proving up. Leases close in to the well have been eagerly snapped up, and quotations on these tracts have doubled and trebled in price. Inquiries are pouring in from parties all over the state, and many interested oil men from other points have been coming in for first-hand information concerning the strike.

As stated in last Friday's issue, this well, being located in the North-Central part of the county, gives McCulloch county oil territory mighty good play. Further, the oil strike at the Waring well in Concho county makes the territory intermediate look better than ever.

You can haul one bale of seed cotton in the ton size Matco Trailer behind any car. Get one at F. R. WULFF'S.

Silkine Thread, white or colors, 10c. A. R. HOOPER.

INCREASED PAY GIVEN EMPLOYEES OF POST OFFICE

Local postoffice employees, as well as Postmaster A. E. Reagan himself, are highly pleased over the announcement that they are due for a raise in salaries, congress having adopted the conference report of the bill for higher pay. This is the second raise to come to postoffice employees this year, the first raise having been made in February, when postoffice clerks were given a raise of \$100 per year, and the assistant postmaster received \$200 a year raise. Postmaster Reagan, however, did not share in this first raise. In fact, the forthcoming advance in salary is his first raise in five years. As is the rule with post-offices of the second class, the postmaster's salary is based upon the receipts of his office, and is increased or lowered in accordance with the increase or decrease in postoffice receipts.

According to the state papers, the following is the announcement of the increase in postoffice employee's salaries:

An increase in pay has been voted by the adoption of conference report by congress to third-class postmasters and assistants, clerks and postmasters of the first and second classes, and to certain rural route carriers. In postoffices where the present pay is between \$1,000 and \$1,200 the increase is \$200 per year, and by graduation those receiving between \$2,000 and \$2,500 are to receive an increase of \$100 per year. Carriers in the village delivery service and others paid from a lump sum appropriation receiving less than \$1,000 are to receive an increase of 20 per cent.

Rural carriers are increased from \$97.50 to \$150 per year, according to mileage of the route. Fourth-class postmasters are given an increase of 15 per cent. Substitutes and auxiliary clerks and letter carriers at first and second-class offices are to receive 60c an hour.

While not opposing adoption of the report in the House today, Representative Plack of Texas called attention to an apparent deficit in the postal receipts of about \$25,000,000. Until this year the department has shown a profit under the administration of A. S. Burleson, but a \$40,000,000 increase was voted in February, and the bill adopted today carries an additional increase of \$35,000,000. Owing to the prosperous condition of the country, Mr. Black explained, the postal receipts for the fiscal year would be about \$413,000,000, an increase of about 12 per cent, which will be \$25,000,000 less than the expenses. In view of the deficit Mr. Black told the House a repeal of the second-class zone postal law ought not to be considered.

The increases voted today, Mr. Black added, was as far as Congress could go at this time. He said that a commission of ten members of the House and Senate had been named to take up the question of reclassifying postal salaries, and would report in December.

BRADY, TEXAS, Oct. 28, 1919.

HONEST INJUN.

To those disgruntled ones who have twitted this helpless editor about our "milyon dollar rains," we wish to remark that we have just had four million dollars' worth of sunshine and clear weather—a million a day.

SAN SABA ON THE JOB.

West Texas live wires will have to take off their chapeaux to Miss San Saba, who has just made her debut as the belle of this section. The General Publicity committee of San Saba county appears sponsor for Miss San Saba's appearance in the limelight, and while their duties have not yet been very clearly announced, it is evident from the results already obtained that the committee is very much on the job. To begin with, Miss N. Hilary Harrison was induced to leave her home in Fort Worth and come to San Saba as publicity expert. The result of this move now appears in almost every issue of the daily papers, which give considerable space to San Saba's crops, public enterprises and various activities.

Most noteworthy of all, however, is the standing offer of the Publicity committee of a \$20,000 prize to the head driller who brings in San Saba county's first oil well. Wherein the aforesaid P. C. show unsurpassed sagacity—they are gambling on a sure thing—they can't lose!

San Saba's live wires are long-headed. They deserve the publicity they are getting, and, vice-versa, are getting the publicity they deserve. Here's hoping they will some day have to pay that \$20,000 prize!

Information Wanted—Who ordered this damp, wet norther?

HERE'S OLD H. C. L. AGAIN.

As per announcement in the Bangs Enterprise, the veterinary surgeons and physicians of that city have learned of Old Man High Cost of Living, and are going more than half way to meet the old robber. They have adopted a new schedule of rates, and if you have occasion to call on them, note that it will cost you just \$2.50 additional to drag them out of their warm bed and to the phone at night. Note also that it costs as much, or more, to have old Fido treated as it does to inject a little elixir of life into old Dobbin. Better let old Sukey get sick—it costs less to dope her up. Chickens with or without the sorehead will be treated at prices not yet announced. Look over the schedule—it will enable you to pick out something just "y good—but not so expensive."

"Owing to the continued increase in the high cost of living and in line with other professional announcements, we find it necessary to advance our charges for professional services as follows: Visit to see sick cow, day, \$4.00; night, \$5.00. Visit to see sick horse, day, \$5.00; night, \$8.00. Mileage over two miles at the rate of, day, \$2.00 per mile; night, \$5.00 per mile. Telephone talks day time, \$2.50 each; night, \$5.00. Other branches of our practice costs accordingly. We are prepared to treat anything from soreheaded chickens on up thru the highest branches of our profession.—Veterinary Surgeons and Physicians of Bangs, Texas."

Corpus Christi, Texas.

Brady Standard
Brady, Texas
Dear Sir:—

On behalf of Mayor Gordon Boone and the citizens of Corpus Christi, we desire to acknowledge the message of sympathy and receipt of contribution made by you.

The loss of life will be over a thousand with four or five thousand homeless and destitute. Financial aid is sorely needed to take care of the immediate demands. Your timely help is greatly appreciated.

Sincerely,
CLARK PEASE,
Chairman Finance Committee.

ED F. WILLMAN, SUBSTITUTE CLERK AT POSTOFFICE—GETS REGULAR APPOINTMENT

Ed F. Willman, who has been substitute clerk at the local postoffice for the past year, has received appointment as regular clerk, in which capacity he will continue his connection with the local office. Postmaster Reagan, has for some time, been endeavoring to secure permission from the U. S. postoffice authorities at Washington, to add a man to his regular force, and finally was given permission, which resulted in the appointment of Willman to the place. This act gives Willman a fixed status as a civil service employe, entitles him to two weeks' vacation each year with pay, and puts him in line for promotion.

The appointment came just in time to keep Willman in the local office, as he had about completed arrangements to transfer to the Eastland postoffice, where he had received an advantageous offer.

New Dress Goods and Ready-to-Wear coming in every day—you can't afford to buy your fall and winter wear without inspecting the prices we are offering on these goods. H. WILENSKY.

McCULLOCH COUNTY GINNINGS OF SEPTEMBER 25TH LESS THAN LAST YEAR'S

Despite the fact that the year 1918 recouped the shortest cotton crop in the history of McCulloch county crop production, the ginnings up to September 25th were greater than those for this year at a corresponding time. In view of the bumper crop made this year, the cause, naturally, must be attributed to the wet weather which made it impossible to gather or gin any great amount of cotton so far this season.

According to the report to the Bureau of Census, the following is the comparative number of bales ginned up to September 25th in 1919 and 1918, respectively, in McCulloch and adjoining counties:

County	1919	1918
McCulloch	184	256
Bell	5,447	17,315
Bexar	2,911	9,640
Brown	746	714
Coleman	661	108
Concho	115	...
Denton	1,842	12,214
Erath	457	1,371
Hamilton	827	2,502
Lampasas	109	688
Llano	50	328
Mason	58	379
Runnels	722	736
San Saba	147	2,325
Travis	5,692	25,102
Williamson	10,218	40,166

Scratch Pads. The Brady Standard.

TABLOID TALES.

In Fort Worth Star-Telegram.

How Time Flies.

One April day in the year 1898, a young woman of foreign extraction applied at the Landmark home in answer to an advertisement for a cook and maid of all work.

"Are you perfectly honest?" asked Mrs. Landmark. "Did you ever steal anything or were you ever suspected of stealing anything, or did you ever think of stealing anything?"

"Oh, yes," indeed. "No indeed, no indeed," replied the applicant, answering the questions in their proper order.

"Are you strong?" went on Mrs. Landmark. "Can you move the piano from room to room when it is necessary? Can you carry barrels of ashes up from the cellar without spilling them about? Will you do all the washing and ironing and whitewashing and promise never to have any visitors and be satisfied with an afternoon off every month?"

"Oh, yes'm, yes'm, yes'm, yes'm, yes'm, yes'm!" eagerly replied the foreignly extracted young woman to the six questions.

"Very well," said Mrs. Landmark, "the salary will be \$3.25 a week." Chapter Two.

One April day in the year 1919, a young woman of foreign extraction applied at the Landmark home in answer to an advertisement for a woman to do light cooking.

"Are you perfectly honest?" she demanded of Mrs. Landmark. "Were you ever backward in comin' forward with a girl's wages, or did you ever think o' doin' such a thing? Will I be allowed to play the pianny for me company in the parlor four nights a week and have every other day off? Can I sleep till nine in the mornin' and send me wash out with the family laundry?"

"Certainly, certainly!—I agree to all of that!" palpitated Mrs. Landmark eagerly.

"Very well," said the applicant. "The salary will be twenty-two dollars an seventy-five cents a week to start with."

TEACHERS' EXAMINATIONS FOR ALL GRADES CERTIFICATE ON NOVEMBER 7-8TH.

garten Association. They will appear weekly in these columns.

TRAINING LITTLE CHILDREN.
By MRS. MANA CLARK JACKSON.

If I were a Fairy Godmother, I would wave my wand and say to all mothers, "Love what you have to do." Children's wants are so numerous and a mother has such constant demands made upon her that she needs to retire within herself often and, no matter how tired she may feel, repeat again and again, "I love what I have to do." Then suddenly she will feel better, and it becomes easier to go on with the task of caring for and training the children. It pays in dollars and cents, as well as in peace of mind and satisfaction of spirit, to devote much thought towards starting the children right.

What are some of the simple ways in which we can help our little ones? Let us begin the day happily, no matter how we feel, and never be discouraged, nor allow the children to become so. Together, mothers and children can learn to be honest, obedient and faithful.

It should not be forgotten that all virtues thrive best in a healthy body. Therefore, give the child plenty of fresh air, have him sleep in a well-ventilated room, wear clean, whole clothes, and eat simple food.

Let Little Ones Help at Home. Let the children take hold and help about the house a little. At 4 to 2 years old they can wash dishes, and they love to do so. An oilcloth apron will keep them dry. They can also help make beds, brush up crumbs and do many other things. But we must not nag the children at their tasks, remembering that interest in useful work may be most successfully developed by keeping it in the realm of the play spirit.

We have churches and schools to help in our work with our children, but it comes back every time to the parents and the home to develop in the children the simple practices which lead to right and happy living. We must be patient in answering questions, and if we do not always know the answer, let us try to find out with the children. Fun is as natural as breathing to most children. Try to laugh with them at their simple jokes.

E. E. POLK HAS ODD HOBBY—HAS COLLECTED FUNERAL NOTICES SINCE '38
Most every man has a hobby—but E. E. Polk of this city has what is undoubtedly the most unusual of hobbies, and it is hardly likely there is another man in the world who can boast of a collection similar or equal to that of Mr. Polk's. Since 1898, or for over two decades, Mr. Polk has religiously saved a copy of each funeral announcement printed or distributed in Brady. He files the announcements away in alphabetical order, and whenever the date of death of any former citizen is in doubt, he can supply the information in a moment's time. Not only is the collection a novel one, but it is a valuable record as well, and could serve as a means of identification should the grave stones or markers in the local cemetery be destroyed or obliterated.

No Worms in a Tiensthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

WHY NOT OWN A FARM?

And Sour Stomach Caused This
Lady Much Suffering. Black-
Draught Relieved.

Meadorsville, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable, I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before. I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape."

I cannot say too much for Black-Draught for it is the finest laxative one can use. Theford's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects, it has won the praise of thousands of people who have used it. **NO. 125**

SAYS DOCTOR ADVISED IT

Memphis Woman Is Relieved Of Twelve Years Trouble By Taking Tanlac

"I have received more benefit from Tanlac than any other medicine I have ever taken," said Mrs. C. R. Wreford, wife of well known ex-steamboat captain, and who lives at 881 N Seventh street, Memphis, Tenn. "For ten or twelve years," she continued, "I suffered from an awful case of indigestion, I had been troubled with a weak stomach from the time I was a girl and often suffered agonies from gas on my stomach, and twice I had terrible attacks of acute indigestion that nearly killed me. For weeks everything I would eat hurt me and even water would burn me like fire. Then I had an attack of the grip from which I recovered so slowly that I ask my doctor about trying Tanlac. He said Yes, try it; for it can't do any harm."

"I had no appetite at all and was scarcely eating anything, but after taking two bottles of Tanlac my appetite picked up and I continued to improve right along, eating anything I wanted without any inconvenience afterwards. I have never had the trouble with my stomach like I did before taking Tanlac, and it certainly has helped me wonderfully and I can't help believing it a great medicine." All Druggists sell Tanlac

Pig Club Members Attention.
The pigs that I bought at Bartlett, Texas, will arrive in Brady, Saturday morning, November 1st and I earnestly beg each big club member in McCulloch county to come to Brady to see these pigs, and to hear the instructions that will be given regarding feeding balanced rations, and the prizes that are being offered to all club members, who will keep their record books in good shape until the end of the contest which will be the first part of December.

I want all the boys and girls who are interested in this work to meet me at the Commercial bank at 11:00 o'clock on that day. All club members are urged to watch next week's papers for complete prize list of all the club work. Some very attractive prizes are being offered by the Brady Chamber of Commerce, to the boys and girls winning in these counties. **B. D. BLACK,** County Agent.

Cotton has been coming in at a lively rate following the several days of pretty weather, and the gins are kept running early and late. Total ginnings in Brady to date are 1006 bales. Ginnings as follows:
Planters Gin 310
Embry Gin 405
Koerth Gin 291
Total 1006

SUN-DANCY WELL IN COLEMAN COUNTY FLOWING AFTER BEING CLEANED

The Sun Company's Dancy No. 1 is flowing after being cleaned and has the appearance of being the best producer in the Gray field. The hole stands full of oil and flows by heads. The boiler has been moved back since cleaning and it is likely the sand will be drilled deeper. The well has 1,000 feet of open hole and is producing from the 3280 to 3320-foot level.
The baler has been drilled up in Dibrill No. 1 of the Jim Ned Company and the well is capped waiting on a string of 8-inch casing, which is in the yard here but cannot be hauled out on account of muddy roads. Drilling will be resumed, it is stated, as soon as the roads permit traffic to get over them.

Mitchell-Brewer (gasser) waiting on tools.
Mitchell-Gray No. 6, setting 8-inch casing around 1790, after fishing.
Magnolia-Elizabeth, Morris 8, drilling 781 feet.
Magnolia-Elizabeth, Morris 9, rig.
Roth et al, Overall, fishing for bit.
R. Thomas, Dibrill 2, placing material and making excavation.
Continued wet weather has made the roads of the county practically impassable and but little scouting has been permitted. This paper has no reports from other wells drilling in the county—Coleman Democrat-Voice.

SAN ANGELO FAIR, CARNIVAL AND RACE MEET OPENS TODAY (OCTOBER 28TH).

Everything is in readiness for the opening of the San Angelo Fair, Carnival and Race Meet today and which continues to November 1st, inclusive. Special rates will be offered on railroads and record-breaking crowds are expected. No postponements of the opening is to be made, regardless of weather conditions.

Over one hundred race horses have been entered for the \$6,000 in purses that is offered. Exhibits in all departments are to be full and complete. Cattle sale conducted by Col. Earl Gartin of Greensburg, Ind., on Friday, October 31st.

No expense is spared by the Association to furnish amusement at the fair. Aeroplane flights, comedy acts, goat roping, broncho and bull riding, etc. will be on the program.

VERILY, PERSISTENCE IS THE RULING PASSION IN AN OIL MAN'S LIFE

George F. King, who has been spending the past week here, reported his company in Wyoming as spudding in for the fifth time on their well, having had to abandon their fourth test because of iron and a crook in the hole. For dogged persistence, his story of the efforts of his company to drill a well, holds a record. The first and second attempts to drill the well had to be abandoned because of striking boulders; the third, because of a crooked hole, and the fourth because of iron and a crook in the hole. The fifth attempt, they are all hoping will be successfully completed. Mr. King and his associates hold a lease on about 4,000 acres near Laramie, Wyoming, and adjoining the dome on which the Ohio Oil Co. recently brought in a 3,000 barrel well. They feel their well will be another big producer, if they can complete it; hence their persistent efforts.

WHY NOT OWN A FARM?

If you want a farm, see me.
If you want to sell, see me.
If you owe on your farm, see me.
Money at 5 1/2 per cent, see me.
If you want money to hold cotton, see me.

LOCAL BRIEFS

Born—To Mr. and Mrs. Elijah Jowers of the Carroll Colony community, Monday, October 28th, a boy.

Ben Smith of Nine Monday came to our rescue, and said he was willing to testify there was gravel on McCulloch county roads. He saw the gravel as he came to town—three of them—lying right alongside the main rut in the thoroughfare.

The many friends of Duke Mann, who was operated on last Thursday following a sudden attack of appendicitis, will be gratified to learn that he underwent the ordeal nicely and is making an excellent recovery. All hope to see him able to be about within the next few weeks.

Ben Anderson, who has been confined to his bed the past three weeks, is making a slow but gratifying recovery, and expects soon to be able to be out again. His many friends miss his cheery face about the downtown streets, and are hoping with him for an early recovery.

Mr. and Mrs. Albert Hennersdorf and little daughter, Imogene, returned Saturday from a two weeks' visit in Fort Worth and Dallas.

J. T. Storey of Lockhart came up yesterday on a business trip and is looking after his property interests here. Mr. Storey owns one of the best farms in the Dodge community, and expects some day to take up his residence here.

Mrs. J. F. Biggs was visiting in the city a few days the latter part of last week, and stated that the family were removing from Lufkin to Sweetwater, where Mr. Biggs will again be with the Walker-Smith Co., traveling in the Sweetwater territory. Cecil Biggs will also join the family there, and will be employed as shipping clerk with the Walker-Smith Co.

Sidney Meers returned Sunday from Abilene, where he completed a business course in the Draughan business college. With his customary application and thoroughness, Sidney completed the course in record time, and with high honors, and was awarded his diploma last week. All his friends are pleased with the record he has made, and are glad to learn of his success.

E. B. Elliot was among the Voca visitors to Brady yesterday, and reports that for the first time in his life he got stuck in the mud on the Voca road. Mr. Elliot had about 1000 lbs. of cotton seed on his wagon at the time. The excessive rains, have melted the bottom out of West Texas' roads, and what little sunshiny weather we have had has served to dry them partly, but leaves them rutted worse than ever known.

Max Borschow arrived Sunday and has been greeting his friends in the city. Mr. Borschow is now located in El Paso, where he is engaged in the mercantile business, and modestly admits that he is making a living. He states that his entire family is with him, Sam Borschow, who was commissioned a lieutenant, and who has been stationed for a year or more at the Raritan arsenal at Metuchen, N. J., having returned only a few weeks ago. They all like El Paso fine. Mr. Borschow is here as a witness in a suit in county court, in which he is interested.

Do You Live With Your Family?
The Youth's Companion is published for those families who purpose to live together, work together, play together and read together. The editors believe that a united family means a united nation.
It is surprising how many stories—over 250—are printed in the 52 weekly issues. Every member of the family will enjoy reading Charles B. Hawes' serial, The Son of a "Gentleman Born," in 10 chapters, beginning in an early issue, and the 8 other serial stories by Elsie Singmaster and others.

New subscribers for 1920 will receive:
1. The Youth's Companion—52 issues in 1920.
2. All remaining weekly 1919 issues.
3. The Companion Home Calendar for 1920.
All the above for \$2.50.
4. McCall's Magazine for 1920, \$1—the monthly fashion authority. Both publications for only \$2.95.

THE YOUTH'S COMPANION, Commonwealth Ave. & St Paul St., Boston, Mass.

OIL NEWS AND DEVELOPMENTS IN MENARD COUNTY FOR THE PAST WEEK

Leonard Petroleum Company on the Waring ranch shut down for new underreamer which is being shipped in. Cochran & Stuart on the Brandenburger ranch are drilling past the lost bit at 1510 feet.

Lea Oil Company on the Ball ranch have been shut down for fuel oil at 475 feet.
Quaker Oil Company on the Grandstaff well shut down.

Home Oil & Refining Company on the Ellis ranch have spudded in a new hole.
Home Oil & Refining Company on the Job Fisher well shut down at 200 feet.

Thomas & Ludlow on the James Russell ranch shut down for fuel. Will use both wood and oil hereafter.
Thomas & Ludlow on the Meers ranch spudded.

Thomas & Ludlow on the Russell & Bevans have material on ground for rig.
Thomas & Ludlow on the Kothman hauling pipe and fixing water lines.

Home Oil & Refining Company on Mudge & Bolt is a location.
Delvatec Oil Company will operate the Benedum-Trees wells on the Beasley and Patterson ranches, both being shut down for supplies.

Devenish et al, on the W. P. Bevans is a location.
Bad roads have made it absolutely impossible to haul supplies, causing all wells to shut down.—A. G. Holmes, in Menard Messenger.

THE NEW OVERLAND LIGHT FOUR.

Let us book your order now for the new Overland Light Four, and be sure you will get your car in your regular turn. The demand for this popular new model is taxing the present capacity of the Overland plant, and the cars we will be able to secure will fall short of the demand. You can protect yourself by placing your order at once.

If you haven't tried out the new Overland, you can't imagine what riding comfort over rough roads means. Call on us for a demonstration; pick out the roughest streets in town—then observe the wonderful riding comfort that has been built into this car. Phone 57, or call on us.
MANN-RICKS AUTO CO.

Stamp Pad Ink—in sizes from 25c to \$1.00. Brady Standard.
Don't wait until winter is here—phone your order for coal to 295. Macy & Co.

Catarrah Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrah deafness, and that is by a constitutional remedy. Catarrah Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrah, which is an inflamed condition of the mucous surfaces. Hall's Catarrah Cure acts thru the blood on the mucous surfaces of the system.
We will give One Hundred Dollars for any case of Catarrah Deafness that cannot be cured by Hall's Catarrah Cure. Circulars free. All Druggists, 75c.

Camel CIGARETTES

18c. a package

CAMELS supply cigarette contentment beyond anything you ever experienced! You never tasted such full-bodied mellow-mildness; such refreshing, appetizing flavor and coolness. The more Camels you smoke the greater becomes your delight—Camels are such a cigarette revelation!

Everything about Camels you find so fascinating is due to their quality—to the expert blend of choice Turkish and choice Domestic tobaccos.

You'll say Camels are in a class by themselves—they seem made to meet your own personal taste in so many ways! Freedom from any unpleasant cigarette after-taste or unpleasant cigarette odor makes Camels particularly desirable to the most fastidious smokers. And, you smoke Camels as liberally as meets your own wishes, for they never tire your taste! You are always keen for the cigarette satisfaction that makes Camels so attractive. Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

Compare Camels with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

"The 52 Biggest Problems of the Average Southern Farmer"

EVERY member of The Progressive Farmer staff has had actual farm experience—most of us are running Southern farms now—and from our own experiences, and from the multitude of farmers' letters that come to us every year—we believe we have figured out a pretty nearly perfect list of these "fifty-two biggest problems" of the average Southern farmer, and we are going to treat him in next year's Progressive Farmer.

We are going to treat them, too, in order of timeliness, just as far as possible. For the aim of The Progressive Farmer, always, is to tell the subscriber just what he wants to know, just when he wants to know it, and in as few words as possible.

Here's the list of big problems we shall treat during the fall months, and the date on which each discussion will appear:

November 1.—Financing the Farmer: (Personal and Short-term Credit; Long-term Credit for Land Purchase; Avoiding "Time-prices," Utilizing National Farm Loan Associations, etc.)
November 8.—Systems of Farming—Affecting Soil Fertility, Money Profits, Prosperity and Permanence of Rural Life.
November 15.—Arranging and Erecting Fences; Relative Values of Different Systems, Materials, etc.
November 22.—How to Reduce Land-Washing to a Minimum. (Terracing, Ditching, Filling Land with Humus, Proper Use of Steep Hill-sides, etc.)
November 29.—What Changes are Needed to Insure Better Health for Men, Women, and Children on the Farm?
December 6.—Winter Care and Feeding of Horses, Mules, Cattle and Hogs.
December 13.—Getting Rocks and Stumps off the Land.
December 20.—How Farm Neighbors May Work Together for Greater Profits and Happiness.
December 27.—Business Methods on the Farm; (Inventories; Records; Accounts; Banking; Cost-keeping; Advertising; System in Correspondence and Making Sales, etc.)

The above subjects are of vital importance to you and alone are worth the price we ask, and remember The Progressive Farmer carries many other big features not mentioned above.

The Progressive Farmer
Dallas, Texas
