### SCATTERED WOOL SALES REPORTED -MEXICO BUYERS

A slight rift in the cloud that has cast a shadow over the wool industry since the middle of May, due to the collapsing of the market which was then strong, has this week appeared with reports of sales of small lots at Del Rio and Kerrville.

At Del Rio, J. R. Hamilton, Valverde county sheepman, disposed of 100,000 pounds of eight-months wool to Mexican parties, who will ship the fleece to Mexico City. It brought 42 cents per pound, according to information reaching this city.

Captain Charles Schreiner at Kerrville sold some of his short wool to Adams & Leland of Boston, also at 42 cents. The quantity is not known.

Three wool buyers have been in San Angelo this week, but have merely been inspecting the accumulation of spring wool in local warehouses, which is said to aggregate around 4,000,000 pounds. The buyers are: J. H. Caution of Lampasas, S. D. Rainer of Llano, representing the Farnsworth-Stevenson Company of Boston, and Henry D. Allen, buyer for Charles J. Webb & Company of Philadelphia. Mr. Allen has been here several months.

The directors of the Wool Growers Central Storage Company held a meeting at the offices in the Trust building Thursday morning to dispose of routine matters. Sam H. Hill and John S. Allison, vice presidents, made a report upon their recent trip to Washington, relative to the final submission of claims on behalf of 500 customers of the firm for rebates on 1918 long wools commandeered by the government at valuations alleged to have been too low. The wool growers are seeking the return of almost \$233,000.

The 1920 spring wool crop in Texas has been estimated at 20,000,000 pounds, which is said to be the heaviest production in many years, if not in history. Of this amount, between fifteen and eighteen million pounds were produced in West Texas, were of Kerrville and Lampasas. The bulk of the clips remain unsold.—San Angelo Standard.

### THE SCHOOL BOY PROBLEM

A simple test in any schoolroom finds a large percentage of the pupils suffering from defective vision. Some are near-sighted, others have astigmatism—many suffer from weakened eye muscles. School Work Is Hard On the Eyes. Whenever latent eye trouble exists, close application to study will aggravate the condition unless a helpful pair of glasses are worn. Glasses—at the right time—often save wearing them in later years.

### INSURGENT W. O. W. LOSE FIGHT AGAINST HIGHER RATE BUT MAY APPEAL

The local camp of Woodmen has received word that the insurgents, as those who are opposing the recent heavy advance in rates are known, have lost their fight against the increase. The word came from insurgent headquarters at Omaha, where the case was being tried. It is understood that the case will be carried to the supreme court. Though the decision was adverse those who are conducting the fight still believe that their contentions will be sustained by the higher courts.

As it is understood here, the head camp of W. O. W. can not force the members to pay the higher rate but they can charge up the difference between the old rate and the new rate against the policy, and this charge against the policy is carried by the company at five per cent interest, compounded annually. However, in case the policy holder should adopt this plan, and live out the average expectancy of life he will find himself in debt to the company instead of having something to his beneficiary, according to those who have figured on the matter.—Brownwood Bulletin.

### McCULLOCH CO. HOGS CAPTURE PRIZES AT FAIR

McCulloch county hogs, entered for prizes at the San Saba county fair last week, captured three first prizes and one grand championship, thereby stamping the McCulloch county products as among the top-notchers in this section of the state.

First prize in her class was captured by a sow exhibited by Carroll Gray. One of the pigs of this same sow, took first prize in its class.

The boar exhibited by Jas. T. Mann took first prize, and the grand championship over all ages.

Charged With Burglary. Tuesday afternoon Sheriff Willis and his deputy, Henry Cavanaugh, went to Fredonia and arrested Archie Kelso, Clarence Barber, Wm. Buntyn and Howard Holt. They were brought to Mason and placed in the county jail charged with burglarizing the store of T. P. Wood and the garage of Marvin Burns at Fredonia. Bond is being granted each in the sum of \$500 holding them for the action of the Grand Jury. Holt and Kelso made bond Wednesday afternoon and Buntyn and Barber expected to make bond also. The burglary occurred one night the first of this week.—Mason News.

HONEST INJUN.

It Might— "But should some power the giftie gie us To see ourselves as others see us, Methinks 'twould so reduce our chests That some of us could wear our vests Twice wrapped about and still so slack That they would button up the back." —Exchange.

LIGHTING THE STREETS.

Now that Brady at last has a modern light and power plant capable of furnishing lights and power, as well as water, for every requirement of a city many times the size of Brady, the question of lighting of Brady streets is naturally uppermost in the minds of our citizens.

The following proposition has been evolved by those in charge of the light plant and who incidentally wish to serve the best interests of the city and citizens. The Brady Water & Light Co. offers to furnish the current for street lights to the City of Brady at cost, and the city agrees to pay for the lights wherever the property owners pay for the building of the lines and the fixtures required.

To The Standard this appears as a most liberal and attractive offer. Suppose the citizens of Brady want Blackburn street lighted from the square its entire length out as far as South Eighth street. The citizens club together and make up a fund sufficient to cover the cost of building the line and the purchase and installation of the necessary fixtures; then the city and the light plant do the rest. Surely there are enough citizens who use Blackburn street at night who will donate the amount necessary to cover such expenditure. Then if citizens in territory adjacent want their section illuminated, the extension of the lines can be accomplished at comparatively little additional cost.

In order to furnish lights for streets to best advantage, it must be understood that special power lines will have to be built from the plant radiating to whatever points in the city it may be desired to cover.

Let Brady citizens no longer complain about dark streets. They now have within their grasp the means of turning night into day, and dark streets into well-lighted thoroughfares.

COX AND THE LEAGUE.

Governor Cox in his speech accepting the Democratic nomination for the Presidency, took his stand squarely on the Democratic platform with respect to the League of Nations, but he went further and, interpreting that platform, specified the reservations which, if elected President, he would accept.

He named first one that gave America an absolutely free hand and legally notified the other nations that nothing in the treaty or league could interfere with the right of Congress to declare war or with the Constitution itself which he pointed out should not be contravened by any treaty but was the supreme law of the land. In his second reservation the Democratic standard-bearer would insist that America state at the outset that she was entering the league only with the understanding that it was to maintain peace and comity.

This Cox believes, would enable America to remain aloof from any military alliances or other warmaking controversies. Governor Cox endeavored in his speech to show that Senator Johnson and Senator Harding are in absolute accord in opposing the League of Nations and he takes the Republicans to task for abandoning the position they were in when they favored ratification of the peace treaty with reservations.

The difference between President Wilson and Governor Cox, and there is a substantial difference, lies in the willingness of the Democratic nominee to accept an all embracing reservation that would reassure the American people concerning the fears of super-government and loss of sovereignty which Republican orators have successfully spread in the last year of debate. Wilson used to brush those fears aside as nonsensical and would make an academic or legal argument supporting his contention. He never did give formal or outspoken approval to any set of reservations. The impression which opposition speakers implanted was that he wanted the treaty ratified without the crossing of a "t" or the dotting of an "i."

Governor Cox senses this weakness in the Wilson defense of the treaty and says that although the language of the covenant is clear and although "any high school boy" knows that the Constitution cannot be swept aside by any treaty, nevertheless he is ready to include reservations which would absolutely prevent misunderstanding abroad and would carry reassurance at home.

BANKER SAYS HOLD WOOL.

A bankers panic of interest thruout the United States is directly responsible for the present money stringency and is the reason for the lack of the usual market on wools, in the opinion of Charles H. Powell, cashier of the First National bank, who advises wool growers to hold their clips until prices return to a semblance of normal.

"There is more money in the country today than ever before," Reports show that our trade balance for the past four years has been 17 billion dollars, yet money is hard to secure even for legitimate enterprises. "The federal reserve banks are charging the member banks interest rates that amount to usury and I see no reason for it. When a bank's loans exceed normal base amount, or the equivalent of its capital and surplus its bonds, it is charged one-half of one per cent for every twenty-five cents of its capital and surplus.

The restrictions imposed by the federal reserve banks, says Mr. Powell, have been for the purpose of putting an end to speculation and thereby eliminate extravagance and reduce the cost of living. In eliminating the speculators, however, the producers such as the wool men and stock raisers have suffered, inasmuch as they depend upon the speculators to buy their products.

West Texas wools, in Mr. Powell's opinion, should command from fifty to sixty cents a pound, yet advances of only ten and fifteen cents per pound, in some instances representing fifty per cent of the total purchase price, are being offered. This means that wools sold under this arrangement would bring only twenty or thirty cents a pound.

The 1920 spring wool production in Texas, amounting probably to 15 million pounds, is perhaps the heaviest on record. The fleeces are clean, and of high grade and should bring as much money as in 1919, if not more. This is the consensus of opinion among West Texans generally. The wool cannot be handled on warehouse receipts for the barks cannot accept them. This might be done if there were bonded warehouses in West Texas, but there are none. When the woolen mills again have need of raw materials, they will in all probability buy them at the points nearest their plants. Consequently, West Texans would profit by shipping their clips to the north and east, but they are unable to do this, first on account of the dock workers' strike at Galveston, which bars transportation by rail and second, by the car shortage on the railroads.

No improvement in the situation is promised by the fall elections, in Mr. Powell's opinion. The rival candidates for the presidency apparently disagree on no vital issues, other than the League of Nations, and this, says the San Angelo banker, will have no effect on the money market. A further decline in the cost of living generally, to such an extent to convince the federal reserve banks that the necessity for continued restrictions on finances has passed, is looked upon as the only avenue of escaping the present situation, which Mr. Powell says not only is peculiar but is without parallel in his experience in banking.—San Angelo Standard.

Supporting the Nominees. Editor Brady Standard: The following should be read by every voter:

"No man who is not a Democrat can honorably vote in a Democratic primary election?" says the Houston Post. "Every man who votes in a Democratic primary election binds himself as an honorable man to support the nominee of the primary. No Republican can honorably vote in the Democratic primary and vote anything but a straight Democratic ticket in November. A primary election is designated to enable Democrats and Democrats only to select the candidacy of the Democratic party. And the obligation includes the whole ticket from President to constable. The fact that a Republican Americanite or independent may have preferences among Democrats affords no justification of the treachery and dishonor that going into a Democratic primary would constitute. But as treacherous and dishonorable as it would be for non-Democrats to enter the primary, it is still more treacherous and more dishonorable for Democrats, through inducements of any character, to invite these non-Democratic elements in. Regardless of what appears at the head of the ticket or whether any test at all is printed, the man who enters the Democratic primary is obligated in morals to support the whole Democratic ticket from President to constable, and unless he is willing to do that he has no right to participate in the primary, even though he is willing to vote in November for a few Democrats he may favor."—Fort Worth Record.

### LOCAL BRIEFS.

Mr. and Mrs. Autry C. Bumgardner of Menard are the proud parents of an 8 1/2-pound girl, born August 11. It is hard to tell which is the proudest—the newcomer's parents or its grandparents, Mr. and Mrs. Else Reeves. Mother and babe are doing fine at present.

J. C. Clark of Bay City and A. D. Gentry of Austin were among the visitors here the past week, being prospectors in this section. Gentry is a brother-in-law of E. B. Scarborough, and the latter was boosting McCulloch county, and pointing out its many advantages and opportunities so effectively that both gentlemen have just about decided there is no better place to locate than right in our midst.

Mr. and Mrs. Joe Conley and little daughter arrived Monday from Marlin and will again make their home in Brady. For the past year or so Joe has been associated with his father, S. A. Conley, in the conduct of a garage and auto repair shop at Marlin, enjoying a lucrative trade. Recently they sold out, however, Mr. Conley having decided to get back to his first love, the grocery business. Joe at once decided that Brady looked like home to him, and will assist his father-in-law, A. Steelhammer, taking charge of the auto repair department.

G. E. Young, who lives near the Colton ranch, 11 miles west of Brady, was among the visitors in Brady Monday and stated that since the first of the month he had gotten about 15 inches of rain on his place. A week or two ago, when Brady creek came down on a rise, he says practically all the flood waters fell on his place, he having had about 3 inches of rain in the course of a little better than an hour's time. During June and July, however, he was very dry, scarcely a drop of rain falling on his place. On the whole, however, he is very well satisfied, as the two months of dry weather, while stunting the growth of his cotton, nevertheless kept the insects out of it, and now the cotton is growing and maturing splendidly.

I. N. Epps returned Saturday from Ranger, where he had gone to secure a span of horses which had been stolen from him last winter while he was working in the Ranger oil fields. The parties in whose possession the horses were found, had bought them from another party, and the animals had changed hands a number of times. One of the earlier possessors of the team stated, that he had estrayed the horses, but no record of the straying could be found, according to Mr. Epps. He asserts his belief that there was an organized gang of horse thieves operating in the Ranger country, as a number of other horses had been stolen about the time he lost his. When he obtained possession of the horses once more, he found them in hard shape and showing every evidence of abuse and mistreatment.

**Sing to Settle Quarrels.**  
The Eskimos, who live in the ice-bound, barren northland, have a way of settling quarrels which seems very strange and amusing to those who live in a land of policemen and courts of justice. There, when quarrels arise, the man who has a grievance writes a song in which he tells the wrongs that have been done him. When this has been composed to his satisfaction he invites his enemy to come and hear him sing it. This the enemy must do, and he brings with him all his relatives and many of his friends while the singer also has gathered his friends and relatives for the occasion, which is considered something of a general entertainment by the people of the village in which the men live.

Then, while other men of the village pound madly on huge drums, the song of wrongs is begun. When it is finished, if the audience expresses approval, the singer is considered to have won and to have a just cause of complaint. But if dissatisfaction is expressed, that is considered sufficient punishment. After the song evens one daries and the party breaks up in great good humor.—Exchange.

### OSCAR CALLOWAY SPOKE IN BEHALF BAILEY AT COURTHOUSE MONDAY

Oscar Calloway, former congressman, addressed the citizens of Brady Monday afternoon at the courthouse in behalf of the candidacy of J. W. Bailey for governor. While no opportunity was given for extensive announcement of Mr. Calloway's coming here, the court room was fairly well filled by citizens, and Mr. Calloway was given good attention.

While not an eloquent speaker, Mr. Calloway has a convincing method of address, and his speech carried with it conviction. He reviewed many of Bailey's public acts during his career and refuted many of the statements current about the ex-Senator.

It is stated that an effort will be made to have Mr. Calloway return here before the run-off primary in order to enable voters from over the county to be present and hear him.

Announcement is made that J. K. Baker of Coleman, former law partner of District Judge J. O. Woodward will speak here next Saturday afternoon at 2:30 o'clock in behalf of Bailey.

### A. TRIGG ONE OF 304 MEMBERS "HUNDRED THOUSAND" CLUB AT ST. L.

C. A. Trigg returned last Friday from St. Louis, where he had been since Sunday as a guest of the Missouri State Life Insurance Co., this courtesy having come to him in recognition of his splendid services as local representative of that company. Mr. Trigg, in a twelve-month period ending July 25th, wrote something like \$115,000 worth of life insurance for the company, and thereby became one of 304 members of the Missouri State's "Hundred Thousand Club" in the U. S. Representatives of the company from the various districts of Texas were assembled in Fort Worth, from which point they were carried to St. Louis in special pullmans.

Arriving at St. Louis, they were extended every courtesy and enjoyment that the home office could command, including special box seats at the National ball park, trips of interest about the city, an excursion on a big Mississippi river excursion boat, with bands to furnish jazz music for dancing and band music for the guests in general. Not of the least importance were the business sessions at which notable addresses were made by men eminent in insurance circles, and who gave many ideas of value from the standpoint of salesmanship. The Missouri State Life Insurance building is one of the most modern and handsome in St. Louis, says Mr. Trigg. The exterior is of Concord stone, making the seven-story structure one of the most imposing on the street. The interior is finished in marble, and is complete to the last detail. In fact, after the building was erected, the officials found where it could be still further improved and modernized, and another \$100,000 worth of improvements were placed upon it. Among other points of interest visited by Mr. Trigg was the site of the great world's fair, now known as Forest Park Heights, and which still contains a number of the buildings erected for the world's fair.

### FOREMAN TELLS ABOUT TROUBLE

Had Suffered For Twenty Years—Gains Eleven Pounds and Is Restored to Health.

"For two years before I began taking Tanlac my health was so bad I lost two or three hours from work every day, but since taking five bottles of the medicine I am in as fine health as I ever was in my life," said C. H. Melton, construction foreman for the Western Union Telegraph Co., living at 3336 Traly avenue, Kansas City, Mo.

"I had stomach trouble and nervous indigestion for twenty years," he continued. "Five years ago I got in such bad shape that everytime I ate caused me terrible suffering from gas and at times I could hardly breathe. I had a stuffy feeling all the time and was so constipated I had to keep taking laxatives. My head ached sometimes like it would simply burst and I became so weak and run-down it looked like I would have to give up my work entirely.

"A friend of mine had tried Tanlac and recommended it so highly I decided to take it, too, and, believe me, I found it to be a real medicine. In three days time my appetite began to improve and my stomach got better. I kept on improving rapidly and now I eat anything I want, have gained eleven pounds and never have stomach trouble, headaches or constipation any more. I never felt better in my life and it is a real pleasure to recommend Tanlac."

Tanlac is sold in Brady by Trigg Drug Co., in Mercury by J. T. Matlock and in Rochelle by C. W. Carr.

### PERSONAL MENTION

Oscar Thompson was in from the ranch near Eden on a visit this week.

Miss Lucy Cox of Coleman was a guest of Mrs. Wilson Jordan last week.

J. H. King is here from Brown county for a visit with his daughter, Mrs. Ed S. Clark, and family.

Mr. and Mrs. Cal Estill are here from Grapevine for a visit with the lady's parents, Mr. and Mrs. E. E. Willoughby, and relatives and friends.

Misses Mable and Mary Estelle Thompson have returned from a month's vacation spent with relatives and friends in New Mexico and at El Paso, Texas.

Mrs. Frank Wilhelm has, as her guests this week Mrs. Max Marschall and little daughter, Islagay Barber, of San Angelo, and Miss Matha Haby of Lampasas. They arrived Sunday.

Mrs. McCord Harrison and little daughter, Virginia Frances, who have been here from Fort Worth visiting her parents, Mr. and Mrs. J. F. Schaeg, are guests of relatives in Mason.

Mrs. W. D. Simmons and little daughter have been guests here of Mrs. J. S. Anderson, Mrs. W. W. Walker and other friends, while on a visit back to Texas from their home at Eureka Springs, Ark. Mrs. Simmons, accompanied by her mother, Mrs. E. E. Matthews, arrived the early part of August for a month's visit with her brothers, Messrs. Joe and J. M. Matthews, and sister, Miss Christine, at Peg Leg ranch. Mrs. Simmons will also visit her sister, Mrs. Ernest Noble, at San Angelo before returning to Arkansas.

### GOOD PROGRAM ALL THIS WEEK AT LYRIC THEATRE —BIG FEATURES COMING

If the reader will refer to the ad of the Lyric theatre on the front page of this issue, he can readily see for himself the high class of the pictures which form the program for the coming week. There is a pleasing assortment of plays, running from intense and thrilling dramas, to the sheerest and most enjoyable of comedies. Notable among the latter will be seen Mary Pickford in Captain Kidd, Jr., a pleasing and humorous comedy-drama, followed by two reels of the ever-popular Sunshine comedies.

The Fox news features, Current Events, are also shown twice a week, on Monday and Thursday nights, in addition to the regular picture.

The big feature announced for next week is "The Lost City," the most weird, strange and certainly the most thrillingly sensational screen offering of recent years. The mad elephant introduced into one of the many thrilling episodes of "The Lost City" shows a new danger of the jungle to the average spectator, who has been prone to believe that these heavy beasts of burden are very docile and tame. To witness the crazed beast tearing his way through the jungle, overturning the native huts, ripping up trees by the roots, and tramping down barricades, gives one a new insight into the destructive power of these enormous animals. To see this wild beast on its rampaging tour of destruction, will cause the spectators to wonder how it was possible to train this animal to perform these feats with the realism with which they are actually done. But the secret of it all is that the animal is not trained, but is really mad, and will be shot in the latter episodes.

Other big features which will be shown within the near future, and which are already under contract, include: Kathryn Williams and Mary Virginia Lee in "Just A Wife"; Wm. S. Hart in "Poppy Girl's Husband"; Eugene O'Brien in "A Fool and His Money"; Grace Dornand in "Invisible Divorce"; Leah Baird in "Cynthia Of The Manges"; Mary Miles Minter in "Annie of Green Gables"; Mitchell Lewis in "King Spruce"; D. W. Griffith's feature, "The Idol Dancer"; Alice Brady in "The Fear Market"; Constance Talmadge in "In Search of a Sinner"; Louise Glauin in "Lone Wolf's Daughter"; Fatty Arbuckle in "Hayseed and the Garage." Also many others; watch for dates.

**Sure She Did.**  
The story is told of a dowager whose wealth and education were of exceedingly recent acquisition. According to her accounts, the trip around the world she had completed had been most successful. Some of her friends were questioning her about the places of interest she had visited.

"Did you see the Dardanelles?" asked one.

"And the Himalayas?" inquired another.

"Why, certainly," replied the dowager. "I dined with both of them in Paris."

## THIEVES MAKE BIG HAUL OFF CAR-LOAD DODGE AUTOS SHIPPED HERE

STEAL TIRES, WHEELS, CUSHIONS AND BATTERIES AFTER BREAKING SEAL ON CAR—LOSS WILL AMOUNT TO OVER THOUSAND DOLLARS, SAYS F. R. WULFF.

Car thieves made a rich haul off a carload shipment of Dodge automobiles enroute from the Dodge factory. The loss was discovered today when F. R. Wulff, local agent opened the car for unloading. Two of the cars had been stripped of all wheels and tires, while the sedan was found to be minus three tires and two cushions. A couple batteries were also checked missing. The loss evidently occurred at some point in Oklahoma, as the broken seal was discovered and replaced by an agent at some point in that state.

The shipment had been enroute received by Mr. Wulff have these five weeks, or since July 8th, and trace of the car was lost for some time, it having been sidetracked at one point in Oklahoma for some two weeks, and at another place for eight days. Mr. Wulff estimates the loss will approximate over one thousand dollars.

Fortunately for Mr. Wulff, his carrying of an exceptionally large and complete stock of Dodge accessories enabled him to replace the missing articles and put the autos in as good condition as the day they left the factory.

Mr. Wulff has just returned from Dallas where he contracted for the delivery of 60 Dodge cars in addition to his regular shipment of two carloads a month. This additional purchase will give him three carloads or fifteen Dodge autos monthly for the coming year. The Dodge touring sells for \$1420, and the Dodge roadster for \$1370, prices f.o.b. Brady.

An improvement announced is the change in the rear springs of the Dodge, the enlarging of which makes for better riding qualities and greater comfort. All Dodge cars now being

### LOCAL BRIEFS

S. M. Richardson was in Brady Saturday and Sunday, making his customary call upon the local newspaper men as representative of the E. C. Palmer & Co., Ltd., wholesale paper dealers. Mac is well pleased with the road work, but is always glad to get back to Brady and spend a day or two visiting with old-time friends here.

S. A. Benham left Saturday night for St. Louis and Chicago markets, with the intention of purchasing a more complete and more attractive line of merchandise for the Benham store than ever before in his life. Mr. Benham is highly pleased with crop prospects in this county and section and is preparing for one of the best and biggest seasons' business his store has ever had.

J. F. Schaege left Friday for Austin to be with Mrs. Schaege, who Saturday underwent a serious operation in the sanitarium there. A message from Mr. Schaege Sunday reported that she had stood the ordeal splendidly and was getting along nicely. The many Brady friends of the family hope to hear of her continued improvement, and trust she will soon be able to return home.

W. T. Sheppard arrived Monday morning from Fort Worth for a visit with his family here, while recuperating from the injuries received some four months ago, when he was run down and knocked from a 20 ft. trestle, just a few miles out of Fort Worth, by a switch engine. Mr. Sheppard sustained a broken leg and other severe injuries, and has just received his discharge from St. Joseph's hospital.

Mr. and Mrs. J. E. Shropshire and son, Gus, returned Sunday night from a trip and visit on the gulf coast during the past several weeks. Among other points, they visited San Antonio, Yoakum and Port Lavaca, at the latter point enjoying the gulf breezes and the attractions of the beach. Mr. Shropshire reports much of the crops in the coast country as late, although what early cotton they have is fine and promises about half a bale to the acre.

Everyone will concede the right of A. B. Carrithers to be superstitious, especially when they learn that his good right arm is being carried in a sling as a result of an accident that befell him on Friday the 13th. It's the same old story—a balky Ford, and a borrowed Ford at that. The combination of Friday, the 13th, the borrowed Ford and a balky engine proved more than A. B.'s lucky piece could overcome, and a dislocated and broken bone in his forearm was the consequence.

C. H. Vincent returned Monday from market. He reports that while goods are somewhat more plentiful than they have been during the past year, yet the most desirable lines and the best sellers are still scarce and hard to obtain. Manufacturers are slow getting their next season's samples out and what few are to be seen are sent out without any price quotations, which adds to the uncertainty of the situation. Miss Amy Anderson, who is also at market for the Vincent store, will spend several more days there before returning.

"O. I. C. pigs are the best rustlers you ever saw," declares A. W. Keller, Mr. Keller's son, Francis, recently acquired six O. I. C. pigs, and when they were about two months old, proceeded to wean them. The pigs, however, refused to be weaned suddenly, and when they were turned in the lot with Mr. Keller's faithful old Sukey, they proceeded to rustle their dinner from her, four of them nursing the cow, while the other squealed and fought for a chance at the warm meal. The pigs stuck like glue when the Kellers endeavored to separate them from the cow, and all but shed tears at the enforced parting.

The red necked gang boss laughed loud and long.  
"You certainly gotcher nerve with you," he roared. "Notta chance, notta chance. But we might start you in as an architect and let you work your way up."

### J. D. BAXTER PURCHASES INTEREST IN A. R. HOOPER STORE—TO ENLARGE STOCK

J. D. Baxter, who, with his wife and baby, recently located here from Uvalde, has purchased an interest in the A. R. Hooper store, and will be actively interested in the business, which means that he and his family are permanently located in Brady. The new firm will continue in their present stand on the west side of the square, under the firm name of Hooper & Baxter, and announce their intention of greatly increasing their stock and the expansion of their lines of merchandise.

Mr. Baxter was for six years located at Coleman, where he did an extensive business in general lines of merchandise, and was accounted one of the liveliest and most progressive citizens of that community. Two years ago he disposed of his business there, and located in Uvalde, where he engaged in the drug business. Desiring to again locate in West Texas, he sold the drug business a few months ago, and removed to Brady.

As before stated, the lines of the new firm are to be greatly enlarged. In addition to the line of groceries, notions and toilet articles heretofore carried, a complete line of general merchandise is to be added, and the grocery department is to be extended so as to include everything in the way of staple and fancy groceries.

A carload of fixtures has just been received from Coleman and is being installed to take care of the additional lines, and orders have already been placed for the greater part of the new stock. When these goods are received, the Messrs. Hooper & Baxter will be able to boast of one of the most complete stocks of merchandise in the city.

**No Worms in a Healthy Child**  
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

**Hopelessly Grounded.**  
"Is my son getting well grounded in the classics?" asked the millionaire.  
"I would put it even stronger than that," replied the private tutor. "I may say that he is actually stranded on them."—Boston Transcript.

### LONGSHOREMEN AT GALVESTON DEMAND NON-UNION MEN BE DISCHARGED

Galveston, Aug. 16.—The crucial point in Galveston's longshoremen's strike situation may be reached this afternoon.

Leaders of the four longshoremen's locals were making overtures to agents of the Morgan and Mallory lines following yesterday's action of the dock workers, who voted to go back to work pending arbitration of their demands, if the steamship owners will dismiss the nearly one thousand strikebreakers now employed.

The question of whether the steamship companies will agree to the proposal is a much discussed one here. A date for a conference was all that was expected to be announced today, however.

The question of Open or Closed shop is naturally involved in the outcome of this new turn in events, and the decision of the ship owners will be watched with interest.

### MOTHER GAVE IT

Virginia Lady Suffered With Aches and Pains Until Mother Began Giving Her Cardui.

Dublin, Va.—Miss Mary Alice Huggett residing on Route 2, near here, recently told a visitor of her interesting experience with Cardui. Miss Huggett said: "I had been suffering for some time with painful... I was pale, didn't feel like going. Would just drag around, and couldn't rest to do any good. I would suffer once a month with my back, sides and head. My limbs would ache and I didn't know what to do, but I knew I must do something, for I didn't get well by letting it run on."  
"My mother is a believer in Cardui for she saw what it did for others as well as herself, so she began giving it to me."

"It wasn't long before I saw a change. It was just what I needed. It regulated me. I began to eat and sleep, and the pain stopped."  
"Cardui is without doubt the best female tonic made, and I am glad I can recommend it to others."

"If suffering with symptoms such as Miss Huggett mentions, or other ailments peculiar to women, why not begin Cardui at once? Its merit is well established by successful use for more than 40 years."
