McCULLOCH CO.
GINS TURN OUT
OVER 10,000 BALES

McCulloch county ginning for the present season show up remarkably well, the total up to October 18th being over four times greater than the ginnings of last year for a corresponding period. According to the census taken by Arthur Wood for the U. S. Department of Agriculture, 9,999 bales had been ginned in McCulloch county up to October 18th, 1920, as compared with 2,375 bales ginned up to October 18th, 1919.

The month or more of pretty weather gave farmers a splendid opportunity to gather the fleecy staple, and they made the most of it. The fields were white with cotton, and many of them are still awaiting the coming of pickers. Thousands of pickers have come into the county in the past few weeks, and with continued clear and sunshiny weather, McCulloch county will go on record as having made and saved another bumper cotton crop.

We are again selling EUPION OIL—and the price has been reduced to the same as ordinary coal oil—20c per gallon. PIERCE OIL CORPORATION, Phone No. 40. J. H. OGDEN, Brady.

NOTICE
After Nov. 1, all patrons of the ice plant phone your orders to 125. MANN BROS. ICE CO.

Be sure to See the Brownwood and Coleman Rodeos in Moving Pictures at the Strand Theatre, Monday night, November 8th.

REV. COWAN ASSIGNED TO
CHURCH AT GRAND PRAIRIE
—NEW MINISTER HERE THURS.

The Rev. J. W. Cowan returned Monday from McKinney, where he had been in attendance upon the meeting of the North Texas Methodist conference, he having been transferred to the North Texas from the West Texas district at the meeting of the latter body in San Marcos a week or so ago. Bro. Cowan advises that he was given the appointment at Grand Prairie, located on the interurban between Dallas and Fort Worth, and about 27 miles from the latter city. He is well pleased with this location, since it enables him to be near his daughter, Miss Alma, who is attending T. W. C. at Fort Worth. In fact, he sacrificed the opportunity for a far more remunerative appointment in order to secure a place in proximity to Fort Worth. Rev. and Mrs. Cowan are now making preparations for their removal to their new home, and expect to leave Brady about tomorrow.

The Rev. S. C. Dunn, newly-appointed minister of the local M. E. church, is expected to arrive in Brady with his family Thursday.

The Turkey Law Changed.
The Legislature which has just adjourned changed the turkey hunting law from March and April to November and December, which becomes effective at once. This makes the open season on deer and turkey the same. We think this change will be a great help in multiplying the turkey game, for in March and April we find they are laying and setting and the change will give them time to raise more young—Junction Eagle.

Turkey pickers wanted. MAYHEW PRODUCE CO.

TREATMENT FOR
STOMACH WORMS IN
SHEEP AND GOATS

Get a stone vessel, to hold 3 or more gallons of water. Better mix 3 gallons at a time for fear the medicine may deteriorate. Get Blue Stone, put up in one-half pound packages. Get a small copper pipe 6 or 8 inches long to pass into the animal's throat. Attach to this pipe, proper size rubber tubing about 2 feet long and attach to the upper end of the tubing a small funnel, and use all as a conduit to pass the liquid into the stomach of the animal. Dose each animal according to age, as follows:

Dissolve the blue stone in water as follows: one-half pound of blue stone to 3 1-6 gallons water, and give six month olds 1 ounce. Year olds, 1 1-2 ounce. One and one-half year olds, 2 ounces. Two years and up, 3 ounces to the dose. Dose every other morning till you have given 6 doses to the animal. If you want to dose every 6 to 10 days instead of every other day till you administer the six required doses, then administer the following doses: Six month olds, 1 1-2 ounce. One year olds, 2 ounces. One and one-half year olds, 2 1-2 ounces. Two year olds, 3 ounces.

This prescription was given me by an experienced stockman of Kimble county—Mr. A. B. Hodges, and is said to be a very effective and safe remedy. If timely and properly used, your stock will not die from stomach worms.

J. E. SHROPSHIRE.

Be sure to See the Brownwood and Coleman Rodeos in Moving Pictures at the Strand Theatre, Monday night, November 8th.

HOGS SURE ENEMY
TO COTTON PESTS
CROP IS 100 P. C.

When his attention was called to a report that a farmer in Brown county, near Blanket, had solved the boll weevil problem by running hogs in his cotton patch, C. C. French, Industrial Agent for the Fort Worth Stock Yards, went to Blanket and made a personal investigation, and after making a thorough investigation on September 27th, he reports the conditions he found somewhat as follows:

In an adjoining field consisting of twelve acres from 85 per cent to 90 per cent of the bolls were punctured and the entire twelve acres would not make more than two bales of cotton. On the experimental plot of twenty-three acres where the hogs were allowed to range, the cotton will make a half bale to the acre and probably more. Mr. French states that he took up one stalk of cotton with fifty-two bolls, none of which were punctured. The herd of hogs consists of 3 sows, 6 gilts and 14 pigs. They have been running in the patch ever since the first punctured forms have fallen.

As a further evidence of the value of the pigs running in the cotton field, Mr. French found that where the pigs slept at night near the barn and their watering place, there were practically no punctured bolls; out in remote parts of the field where the pigs ranged less frequently, the punctures were more numerous. The cotton was in no way damaged by the hogs. Mr. Starling, the owner of the farm, has been conducting this experiment for the past six years, and has found that

it has given him uniform results every year.—Ballinger Banner-Ledger.

DON'T FORGET :: COMING, MONDAY, NOVEMBER 8

A great special Attraction **Ormer Locklear in "The Skywayman"**

—A STORY OF LIFE AND THRILLS ABOVE THE CLOUDS—

Ten per cent of all the profits from the exhibition of "The Skywayman," Lt. Locklear's last picture, which is to be shown Monday, November 8, is to be given the families of Locklear and his pilot, Lt. Milton Elliott, a crusader for science. Lt. Locklear has appealed to the imagination as no other airman has done. He will live in history as the first flyer to go from one airplane to another in mid-air—a feat which first thrilled the world and then opened the eyes of scientists and experts of the new possibilities of aircraft. So highly were his experiments appreciated that the United States Army gave him the free use of its flying fields. "The Skywayman" is more than a thrilling picture. It contains a record of all that Locklear has done. It will show future generations what manner of man was this young American air explorer who taught the world so much. Don't miss this picture—your first and last chance to see it. Two shows will be given to handle the crowds, first show starting at 7:15 P. M.

<p>Wednesday, Nov. 3 GEORGE WALSH —In— SINK OR SWIM 5-REEL COMEDY DRAMA Story of a two-fisted Westerner's experience abroad. A rattling, snappy, gingerly comedy. "Sink or Swim" is a rapid-fire comedy full of spirited action—two-fisted action—some of it, lively humor and situations that cause both thrills and laughter. George Walsh is thoroughly at home in this picture. It gives him abundant opportunity to display his cleverness and speed in battling with adventures in a foreign land. A most unusual love romance runs through this play to accompaniment of fistic battles and of villainous conspiracies. Also— "LOST CITY" 2-Reel Serial</p>	<p>Thursday, Nov. 4 ALICE BRADY —In— SINNERS 5-REEL DRAMA "Sinners" is based on the remarkable play by Owen Davis and Miss Brady does the best work of her career in interpreting the difficult role of Mary Horton, the little Country Moth whose wings were all but singed in the city's flame. "Judge not, lest ye be judged," Chas. Spurgeon, the great English preacher said; "only one Judge is just, for only one knoweth the hearts of men, and hearts alone are guilty or guiltless." Surely a wise comment, and one apparently made to fit the character in this fine screen version of Owen Davis' great play "Sinners." Don't miss this one. Also— FOX NEWS 1-Reel Current Events</p>	<p>Friday, Nov. 5 CHARLES RAY —In— GREASED LIGHTNING 5-REEL COMEDY DRAMA Full of life and simple good humor essentially American, and for the most part effectively so, with a dash of melodrama thrown in for sauce, showing how Yankee ingenuity and persistence win out under difficulties. Charles Ray, in the role of inventive Blacksmith in this picture. How did the village get the best of the bank robbers. See this picture for an answer. He swapped a potato peeler for an otty-mobile which broke down, but he won out in the end. Also— GIRLS AND GUNPOWDER 2-Reel Sunshine Comedy</p>	<p>Saturday, Nov. 6 VIVIAN MARTIN —In— MIRANDY SMILES 5-REEL DRAMA Fine drama of American home life, delightfully acted. How happiness and wealth came to a sunny dispositioned Cinderella. Mirandy smiles and everybody in the neighborhood rejoices. Vivian Martin has a delightful role in this charming photo-drama. Also— "LIGHTNING BRYCE" 2-Reel Serial</p>	<p>Monday, Nov. 8 The Great Special— ORMER LOCKLEAR —In— THE SKYWAYMAN 5-REEL DRAMA A story of life and thrills above the clouds. The greatest flyer ever known in the greatest air romance ever filmed. The story of a man who knew no fear. "The Skywayman" is the last and finest picture Locklear made. It sums up his life's work for into it he put the fruit of all his years of experience as a flyer. It is a special production in every sense of the word. It abounds in excitement and its thrills not only because of its spectacular appeal but because of the personality of Locklear himself. Also— FOX NEWS 1-Reel Current Events</p>	<p>Tuesday, Nov. 9 SHIRLEY MASON —In— MOLLY AND I 5-REEL DRAMA A tensely human drama. "Molly and I" represents the essence of human interest and the quaintness of downright, irresistible appeal. It is a cross-section of life with the dull part left out; yet tremendously convincing. It makes all mankind kin; its universal appeal to eternal emotions. It is a love story of the most wholesome variety, because the keynote of its sentiment is unselfishness and sacrifices. It is a play where every character is etched with an admirable realism that makes him or her live in memory. Don't miss this picture. Also— SONS OF SALOOSKIN 1-Reel Adventure Scenic</p>

BRADY, TEXAS, Nov. 2, 1920.

HONEST INJUN.

Now that the election is out of the way and the country is once more saved, we may look ahead to four years of business and prosperity.

1921 TEXAS PRESS MEET.

The Texas Press Association is to hold its 1921 meeting in McAllen, a Rio Grande border town, which has been on the map only about five years but now boasts a population of more than five thousand people. And better still every one of the five thousand and more citizens is a booster of the first water. As an indication of their boosting ability, one firm in the town offered as an inducement to get the editors to visit McAllen, a complimentary train of Pullman cars from Dallas and intermediate points, another firm contributes free hotel accommodations to all editors and their wives, and a third will provide a trip to Matamoros, Mexico, and taken all in all no town or city in Texas has within the past ten years given anything like the inducements offered by McAllen to get a convention of the editors of the state. If Brownwood had a set of boosters like that we would be in the twenty-five thousand class within the next five or ten years.—Brownwood Bulletin.

GRATIFYING STATEMENT.

The monthly financial statement of the Brady Water & Light works, as published in Tuesday's paper, makes mighty good reading for every Brady citizen. It proves that those who advocated the installation of the new municipal power plant were fully justified in their claims of doubling the city's net income from this source. According to the statement, the total income for the month of October was \$3,785.08, while the total expense ran to \$1295.00, making the month's returns \$2,490.08 net. This wonderful financial statement means that the municipal plant is not only being speedily placed upon a firm financial basis, but that Brady citizens may look forward to reduced rates, should the present splendid showing be continued.

SYRUP.

The Brady Standard carries the following item of interest:
"One of the most interesting facts developed at the McCulloch county exhibit the past week was the record production of syrup made by O. E. Hurd of the East Sweden community. Mr. Hurd made 110 gallons of ribbon cane syrup off a half-acre cane patch. At \$1.50 per gallon, and anybody will concede that is a low price, that half acre tract produced \$165 worth of syrup."
All farms and climates are not adapted to the raising of ribbon cane for syrup, of course; but the McCulloch county farmer has rendered his neighbors a service by demonstrating that the cane can be grown there. If he can repeat the process successfully for two or three years, his neighbors will be inclined to go and do likewise—provided there is money in it. If the crop cannot be raised successfully, then nobody will seriously agitate its introduction.
The McCulloch county farmer, therefore, may be rendering his neighbors a greater service than he imagines—and the very privilege of sipping pure ribbon cane syrup is something not to be overlooked.—Temple Telegram.

WEARING EUROPE'S RAGS.

Some interesting sidelights on the woolen trade is contained in the following article from the Wichita Eagle:
"Just now, the world beholds a perfect deluge of virgin wool in storage and more coming on. This condition has been growing worse for the last two years. Yet the textile manufacturers of the United States used 113 million fewer pounds of wool last year than in 1918, according to figures of the National Sheep and Wool Bureau of America.
"The thing is accomplished by the use of shoddy. Shoddy is wool reclaimed from old rags. The wool Trust has compelled the trade to accept shoddy goods instead of virgin wool goods, despite the unprecedented supply of wool, and furthermore has forced tip-top prices for this shoddy goods from the trade and the consumer. Object? Profits, of course.
"Meantime, the Woolen Trust is shipping in shiploads of rags from Europe and Americans actually are being forced to wear clothes made of old rags gathered at rock-bottom prices in Germany.
"Wool men say the people of the United States were sold less than 3 pounds of virgin wool garments per capita."

IT'S TIME

Print paper is selling at a high price and it is going to continue to sell at a high rate. That high price may not be the peak the market has reached at times during the past year, but it is going to be a price that is easily twice the price of three or four years ago.

Labor is selling at a high price and it is going to continue to sell at a high price. All men engaged in the mechanical departments of a newspaper are today receiving from 80 to over 100 per cent more in wages than they did three or four years ago, and while conditions of the future may bring that price down to a small extent it will not come down to anything like it was three or four years ago.

Everything that enters into the making of a newspaper, or any product of a printing office, has increased in price in the same proportion that is true of print paper and labor and these prices are going to stay up because all other commodities are going to stay up.

It is time that every man engaged in the newspaper business, or any other form of the printing or publishing business realized these facts. Those who do not do so are going to the wall, and a sheriff's notice will be posted on the door.

The day of the 10 cents a week daily, or the \$1 or \$1.50 a year weekly is over, and if the publishers of such papers do not know that they cannot continue such prices they had better get out of the business and so save what they can of their investments.

The day of 10 and 15 cents an inch advertising is over, and will never return. The cost of setting the type from which the advertising is printed, the cost of the paper on which it is printed, the cost of the ink with which it is printed, the cost of the coal for the power supply, and the cost of every other item that enters into the service to the advertiser, has doubled or more than doubled. If the publisher does not realize these things he is going to find himself out of business by the bankruptcy route.

The time-worn wail that "the public will not pay more," is out of date and of no consequence. The public simply must pay more if the newspaper is to continue at all, and no apologies for an increase are needed.

Thousands of red-blooded, clear-eyed publishers have not hesitated to meet existing cost conditions, and have made their prices in proportion to present-day costs. These publishers are succeeding. They have money in the banks. They are discounting their bills. They are in no danger of a visit from the sheriff.

But there are hundreds of publishers who are afraid to meet conditions as they exist. Hundreds of them who are watching their plants depreciate, their savings of previous years dwindle, their credit going by the boards. They are anxiously waiting for that change in conditions that is to bring prices back to what they were a few years ago instead of accepting conditions as they are and meeting them on a business basis.

It is time such publishers awakened to their own condition. It is time they took an inventory of their business. It is time they believed in their business. If they do not do these things, and do them quickly, they will find themselves on the rocks of financial disaster.

The time to act is now, and the act does not call for any apology to the public.—The Publisher's Auxiliary.

WHAT WILL McCULLOCH DO?

Once upon a time there was a little boy, who was one of some two hundred grand children of a fairy god-mother. Now, this little boy was very fond of apples, and more especially those beautiful golden apples that grew high upon a stout old tree far back in the forest of trees that surrounded the habitat of the fairy godmother. These apples were not only good to look upon, as they glistened and glittered in the sun, but their beauty was excelled by their flavor and appeal to the palate. So, when this little boy came upon the great old apple tree with its shining fruit, he sorely desired at least one of the beautiful apples. The problem that confronted him was, must he risk tearing his Sunday pants in order to scale the gnarled and knotted trunk of the apple tree; or must he merely stand by and watch others try for the golden fruit. Surely the apple was worth many times over the value of the torn pants—but then there was the effort to be made. What should he do? What would you have done, Dear Reader?

In Austin today there is an immense tree bearing golden fruit. It is located in the forest of Federal Good Roads Aid. It bears an apple for McCulloch county that is worth \$35,000 in gold. The apple has long hung on the tree, awaiting McCulloch county's coming—but the frost is not far off, and that frost will shrivel up the apple, turn its golden, glittering appearance into a dull, rusty brown, shrivel its juicy, fragrant meat and when it drops from the tree nothing will remain but a worm-eaten hull that no one would stoop to pick up.

The time is short in which McCulloch county must make the effort to get the fruit—and it will take a \$35,000 pole to knock it off the limb. Is it worth the effort? Is 100% sufficient returns on the investment? Highway No. 9—the Puget Sound to the Gulf—is entitled to receive this \$35,000 apple if the citizens of McCulloch county will devote \$35,000 of the county's money for the improvement of this highway. What an opportunity!

What are the citizens of McCulloch going to do about it?

***** SNAP SHOTS *****

A West Dallas widow says that the latest proposal she has received was from a washing machine agent, who said if she was his wife he would sell her a machine at half price and let her have all his washing.—Dallas News.

Catarhal Deafness Cannot Be Cured
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarh, which is an inflamed condition of the mucous surfaces. Hall's Catarhal Cure acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarhal Cure. Circulars free. All Druggists, 75c.

GOOD HEALTH HINTS

Oklahoma Farmer Gives Sound Advice on Avoiding Sickness.—Used Black-Draught 30 Years.

Cameron, Okla.—"I have used Theodor's Black-Draught for about thirty years, and certainly ought to know by this time what a good medicine it is," says Mr. T. L. Bostler, a well-known farmer of this place. Mr. Bostler has passed his three-score-and-tenth year, but declares his health still is good, "and I can say Black-Draught did its part."

"Where there is a lot of malaria, a fever medicine is a necessity, and I have never found one better than Black-Draught," continues the Oklahoman. "It is one that I know to be reliable. I sure use it for the liver, stomach, constipation, indigestion, and it has done me a world of good. We use it for the family, and it gives satisfaction."

"Most trouble, or sickness, comes from the liver, and if taken in time can be avoided. That is why I use Black-Draught as I do. I am much pleased with results obtained."
Theodor's Black-Draught is purely vegetable. It acts on the bowels, gently stimulating the liver, and helps increase the normal flow of bile into the intestines. It assists in the digestion of food, and relieves constipation in a prompt and natural way.
Ask your druggist for a package today. Insist on Theodor's. NC-129

COULDN'T PUT IN FULL WEEK'S WORK

Harding Gains Twenty-Eight Pounds and Works Every Day Since Taking Tanlac.

"I have gained twenty-eight pounds all my old-time strength and energy have returned since I began taking tanlac," said George L. Harding, a well-known longshoreman of 914 1-2 James street, Seattle, Wash.

"For two years," said Mr. Harding, "I had indigestion so bad everything I ate seemed to act like poison to me. My stomach would cramp so I would double up like a jack-knife and I suffered constantly with headaches, constipation and dizziness. I had the rheumatism in my hips and legs so I could hardly lift anything—although I have been used to hard work all my life. Finally my troubles got so bad I could not work more than two or three days a week and I knew I couldn't keep going at all much longer. One night as I was sitting in the Union Hall, all doubled over with cramps in my stomach, one of the boys advised me to try Tanlac and sure enough it began to relieve my troubles right away. Now I eat anything I want and lots of it; the rheumatism has left me entirely and I work with the best of them every day. I hardly ever felt better in my whole life and Tanlac has set me so firmly on my feet it is a pleasure to give in my endorsement."

Tanlac is sold in Brady by Trigg Drug Co., in Mercury by J. T. Matlock and in Rochelle by C. W. Carr.

MEXICAN LION KILLED IN JOHN BRANDENBERGER PASTURE NEAR MASON

The News is informed that Mr. Willie Itz and son, Beno, killed a big Mexican lion in the pasture of John Brandenberger, on Shep creek, last Saturday. They came up on the lion while out hog hunting and when first discovered he was having a feast on a big fat hog which he had killed. The animal dressed 130 pounds; measured 7 feet in length and 2 feet, 7 inches in height. We are informed that Mr. Itz thinks there are more of these lions in the country from the circumstances and indications he found in connection with the killing of this one.—Mason News.

If your digestion is bad, you bowels constipated and you don't eat or sleep well, you need Prickly Ash Bitters, the remedy that men use for cleansing the system. It purifies and invigorates the vital organs, restores appetite, energy and cheerful spirit. Price \$1.50 per bottle. Trigg Drug Co., special agents.

The largest stock of Aluminumware ever displayed in this section of Texas. Every kind of a utensil for kitchen or household use. Attractive, durable, sanitary. O. D. MANN & SONS.

BALLINGER BARBER CLAIMS HE BREAKS THE RECORD—\$111 WORK IN TWO DAYS

Jim Freeman claims the record for barbering in this part of the tonsorial world. Jim says he clipped hair and shaved whiskers to the tune of \$111 in two days, the two days being the last two Saturdays. Last Saturday he clipped off \$55.40 and the Saturday before he did twenty cents better, he says. All things being equal he expects to do even better next Saturday. In addition to showing that Jim is a swift man with the razor, this indicates that the country is in pretty good shape, don't you think.—Ballinger Banner-Ledger.

Colds Cause Grip and Influenza

JURY RETURNS VERDICT FOR BORSCHOW IN CASE AGAINST RADFORD GRO.

The case of Max Borschow vs. Radford Grocery Co., suit for damages, was tried last Thursday before F. M. Newman, who had been appointed special judge in the trial. The case was submitted to the jury on special issues, and resulted in a verdict being returned in favor of Borschow. The suit resulted over the purchase of a bill of goods, Borschow claiming failure of defendant to make delivery of goods for which he had contracted purchase, because the goods had advanced in price before delivery could be effected.

Have a big stock of Iron Beds, in all grades from the very moderate in price to the more elaborate styles. We want to sell you. O. D. MANN & SONS.

Turkey pickers wanted. MAYHEW PRODUCE CO.

WEST TEXAS STREAMS WILL SUPPLY MUSSELS FOR BUTTON MAKERS

Austin, Oct. 19.—Pearl hunting and mussel shell gathering on Western Texas streams promise to be a new industry for Texas, according to representatives of two large pearl button factories of Iowa, who held a conference with J. R. Jefferson, game, fish, and oyster commissioner. Accompanied by Commissioner Jefferson they left for the San Saba, Llano and Concho rivers. The first stop will be made at San Saba. Complete outfits to operate the business have been shipped there.

The value of the shells vary from \$50 to \$170 per ton, depending on fitness for making pearl buttons. The larger mussels usually have pearl of widely varying size and value.

Under the new law the State owns the mussel and the shells. A tax of \$10 is levied for each operator or person working by permit and Jefferson will collect a royalty of \$1 per ton on shells salvaged.

Pearl hunters operating in previous years have heaped a number of shells on the banks and these are marketable. The best, however, are the fresh shells. The small mussels are to be returned to the waters.

Mussels are growing scarce in this country and the streams of the Middle West have almost depleted. Pearl button makers are now looking to Texas for shells.

Turkey pickers wanted. MAYHEW PRODUCE CO.

We have some very ornamental and attractive Bed Room Suites—the same high-class articles that you find in the big cities—and our prices are most moderate in comparison. We want to sell you your furniture. O. D. MANN & SONS.

Be sure to see the Brownwood and Coleman Rodeos in Moving Pictures at the Strand Theatre, Monday night, November 8th.

Have a big line of Cook Stoves. Don't delay buying any longer, but get the good wife a good cook stove now—she'll appreciate it, and so will you. O. D. MANN & SONS.

PINE GOLD WATCH
IS FOUND IN A BALE
AT THE COMPRESS

Brownwood, Tex., Oct. 22.—Just as
the compress was coming down on a
bale of cotton today, a negro employe
of the Brownwood Compress com-
pany saw something bright in the
edge of the bale and told the fore-
man about it. The block was run up
and a fine gold watch was found
mashed flat as a book back. On the
chain of the watch was a pendant
which bore the name of Otto Shearer,
Mason, Texas.

LOCAL BRIEFS.

Mr. and Mrs. W. M. Allen are here
from Junction greeting old friends,
while Mr. Allen is completing arrange-
ments for the marketing of produce
and hides through the Mayhew Pro-
duce Co. Since locating in Junction
a few months ago, Mr. Allen has en-
gaged in the produce and hide busi-
ness, shipping through the Brady firm.
He reports the turkey crop as being
magnificent in Kimble county and he
expects to ship several thousands to
Brady before the Thanksgiving sea-
son. His son, Leslie, is also in busi-
ness in Junction, having acquired a
vulcanizing establishment there, and
he, like the elder Mr. Allen, is enjoy-
ing a flourishing business.

Joe Love was in Brady the past
week and stated that he was moving
from the Doole community to Grit,
Mason county, where he had purchas-
ed an 80-acre orchard and truck patch.
Joe says he is going to have plenty of
peaches, grape, berries and watermel-
ons, and expects to make frequent vis-
its to Brady when these products are
ripe. Best of all, though, he says he
has a fine water well—in fact, he
gives that as his reason for buying the
place. Of the 80 acres, 50 acres are
in cultivation, and he has about 200
peach trees. He expects to remain in
McCulloch county long enough to har-
vest his crop on one of the Gansel
farms, and declares he really regrets
to have to leave the Doole communi-
ty, but that water well proved too
strong an inducement.

EAT APPLES IF YOU
WOULD BE HEALTHY.
SAY THE GROWERS

Of all the edibles of the earth there
are no viands more delectable, more
nutritious and more various than
fruits. Think of meats, milks, eggs
and vegetables. The very sameness
about them all in color and taste make
them monotonous. Fruits, however,
by their fragrance and combination
of taste, are not so limited. Even so
lowly and humble a species as the ap-
ple exhibits itself in the hues of the
spectrum and the odors of the orient.
The public has passed through the
siege of the nothing-but-food fans and
the 100-chews to a bite advocates, and
now the apple, with one fell sweep
demolishes the hopes and expectations
of the dentist, the doctor and the
beauty specialist.

According to the apple growers, the
apple is "it" as it contains medicinal
and food values so highly praised by
diets. "An apple eaten at night,"
they assert, "is a splendid scourer of
the teeth." And to the sufferer from
pains and aches they generally say:
"Eat apples, for the magnesia con-
tained in the raw apple will prevent
rheumatism by purifying the blood."
Apples contain phosphorus, sul-
phur iron, magnesia and lime. Life
cannot exist without phosphorus, and
there is a full dose of this excellent
tonic in its most soluble form, phos-
phoric acid, in the apple.

For just the right dose of iron eat
apples. For there is enough to keep
a sufficient number of these import-
ant little red corpuscles in the blood,
without which the blood cannot do its
work. The iron found in apples is
more easily taken into the blood in
this form than that purchased from
the druggist.

Apples are good for the complexion.
As the sulphur in them has an espe-
cially beneficial effect upon the skin
it is good for skin diseases.

Rickety children should by all
means have plenty of apples to eat.
They form nourishment for the bones
and the teeth. The lime and phos-
phoric acid contents of the apple make
an ideal dose for this sort of trouble.
To aid digestion, clear the voice,
obtain a beautiful complexion, relieve
insomnia and reduce the high cost of
living, depend upon the apple.

NEW 1920 MODEL BUICKS.

We are expecting a full car-
load of '20-45 model Buicks with-
in the next few days, and will

PERSONAL MENTION

Mrs. J. Q. Swim of Newton, Kans.,
arrived Saturday morning and will
spend the winter here with her son,
C. P. Swim, and family.

Mrs. H. W. Lindley and little daugh-
ter, Alice Lucille, returned last Friday
from a visit of several months during
the summer with home folks in New
York City.

Chas. Broad, who is traveling for
a large harness and saddlery house,
with headquarters in Dallas, came
down Saturday to visit relatives and
former friends for a few days.

Miss Willa Mae Dilliard has resign-
ed her position as bookkeeper with the
F. R. Wulff garage and will spend
several weeks with her parents in the
Cow Creek community before going
to one of the cities to take up work
there.

Mrs. L. Brook left the past week for
Battle Creek, Mich., where she will
spend several weeks with Mr. Brook,
who has been at this health resort the
past month or two. Jamie Brook, who
has been with his father there, returns
to Brady this week.

Mrs. H. M. Harrison left Sunday
for her home in Abilene, after a two
weeks visit with her daughter, Mrs.
C. P. Swim. She was accompanied by
her son, Harry H. Morrow of Dallas,
who has also been a guest of his sis-
ter, Mrs. C. P. Swim, the past week.

Fire screens for stoves or fire
places—a necessity in every
home. O. D. MANN & SONS.

JURY SERVICE AND
HOUSEWORK FAIL TO
MIX—CALL IN THE MEN

Chicago, Oct. 26.—Having read how
women in Indiana were successfully
mixing jury service with the house-
work and handing down verdicts be-
tween club and social engagements,
Police Magistrate John F. Boyer of
Evanston yesterday attempted the ex-
periment. It was a failure. The Ev-
anston women, he found, may like to
vote, but when it comes to discharg-
ing civic duties by sitting in a musty
courtroom on a sunny October after-
noon—the very idea.

Magistrate Boyer had planned for
some time to impanel a jury of women
and the opportunity presented itself
when Steve Thimios brought legal
pressure upon one Peter Tutules to
force him to release a mortgage. It
was a question that dealt with the
home, the magistrate figured and
therefore of vital interest to women.

He called Constable William Gill
and sent him out to get six women.
Two hours later the constable return-
ed alone. He had pleaded, urged,
threatened and politely requested 20
women to serve, he said, without suc-
cess. He had visited their homes,
gone into stores and offices, and stop-
ped them on the street. Here were the
20 answers he reported.

- 1.—"The very idea. Can't you see I'm busy!"
 - 2.—"Impossible. I've got to go to the city to take tea with friends."
 - 3.—"I don't have to go do I? Why I'm going out of town. It's none of your business where I'm going."
 - 4.—"The laundress is here today and she's too precious to lose."
 - 5.—"I consider this quite import-
nent. Why don't you get men."
 - 6.—"Me dragged into all this scen-
dal? I should say not."
 - 7.—"If you don't mind it would be
much more convenient for me to serve
some other time."
 - 8.—"Is it that divorce case? No?
Oh, I don't know anything about
mortgages."
 - 9.—"It's just dear of Justice Boyer
to invite me, and I'm so sorry. I
can't accept."
 - 10.—"I'll mention it to my husband
this evening. If he thinks it's all right
I'll serve."
 - 11.—"No."
 - 12.—"I'm going golfing this after-
noon."
 - 13.—"The baby is cutting a tooth
and I've no one to leave him with."
 - 14.—"Why I've never been in court
in my life."
 - 15.—"I'd be glad to help you out,
but the club meets this afternoon."
 - 16.—"Mercy no. Mother would not
like that. She'd have a fit."
 - 17.—"The boss is out golfing this
afternoon, and I've got to mind the
office."
 - 18.—"The butler, 'Madame is in-
disposed!'"
 - 19.—"Who gave you my name? I'll
bet that awful Mrs. Blank put you up
to this."
 - 20.—"Some kidder. Peddle your
papers next door. Do I look like a
juror?"
- "Get out and get some men," order-
ed the magistrate, when the constable
made his report.
Gill returned in ten minutes with
six male jurors.—Houston Chronicle.

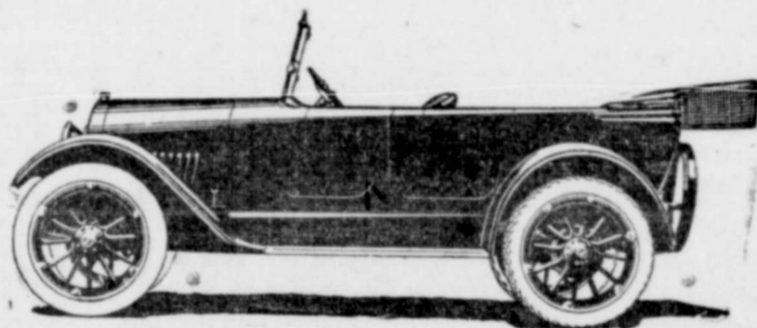

TURKEYS! TURKEYS!! TURKEYS!!!

We are now slaughtering Turkeys for the
Thanksgiving trade. Will pay highest market
prices for your turkeys; hens weighing 7 pounds
and over, toms 11 pounds and over.

In our opinion turkeys sold for the Thanksgiv-
ing trade will bring the highest prices, our
opinion being based on the decline in other
things.

The Special
Six

SERIES 20

Studebaker

CARS

The Light
Six

A five-passenger car of 112-inch wheelbase, weighing
only 2400 lbs., six-cylinder, 3 1/4" x 4 1/2"; aluminum de-
tachable head; 40 horsepower; new type motor with valves
set at an angle of 20 degrees, silently operated by belt
crank construction; complete cord tire equipment.

YES, they are here—both touring and roadster, these most popular of all fine cars—
ready for your careful inspection.
And we want you to see these series 20 Studebakers at your earliest opportunity.
You, like countless others, will surely marvel at their beauty of line, roominess, complete-
ness of equipment and graceful poise.
Only by driving the SPECIAL-SIX or LIGHT SIX yourself can you fully appreciate
the mechanical perfection of these cars. Hills have no menace, mud and storm and crowd-
ed streets no obstacles for which the Series 20 Studebakers are not prepared!
We invite you to sit at the wheel of either of these motor cars—to test them by your
own methods and in your own way.

FORMER DALLAS WOMAN WRITES ABOUT AUSTRIA—LOW PRICES PREVAIL

A handsome apartment in Vienna, Austria, rents for \$38 a month, cooks and maids are paid \$1.10 a month, seats at the best operas cost 40c to 60c, and 35c for a good light opera, private lessons in foreign languages cost the student 11c an hour. Such is the experience of Mrs. Robert Beecher, formerly Miss Fern Hobson of Dallas, who is spending the winter abroad with her husband.

All that remains of Vienna, writes Mrs. Beecher, is its royal palaces and several large opera houses. The State Opera, directed by Richard Strauss, and another opera, under the direction of Felix Weingartner, are the two most prominent at the present time. At the time of Mrs. Beecher's letter, September 16, Carmen was being played at the State Opera and the best seats could be had for 40c or 60c.

The people of Austria are very poor, Mrs. Beecher writes. A few wealthy families and the foreigners have all the money, and conveniences that there are. She spoke of visiting one of the Hoover's kitchens, where food is prepared daily for 160,000 children from 8 to 14 years of age. A beautiful woman was in charge of this kitchen. It developed that she was the wife of a former colonel on the general staff, but could no longer support both of them, so she was forced to work. Many people well off before the war were doing manual labor for their daily bread. The streets were full of old men and women begging, and no relief is in sight for the winter.

INTERESTING FACTS ABOUT UNITED STATES—NEW DATA ISSUED

Washington, Oct. 16.—The farthest east, west, north and south points on the United States mainland have been determined by the United States Geological Survey which announces that the easternmost point is West Quoddy Head, near Eastport, Maine; the westernmost point Cape Alva, Washington; the farthest north, a small detached land area of northern Minnesota ending in latitude 49 degrees, 23 minutes and longitude 95 degrees, 9 minutes, the southernmost point Cape Sable, Florida, while the Florida keys extend further south.

Data determined and compiled by the Geological Survey contains some interesting facts not known generally. Some of these are:

The gross area of the United States is 3,026,789 square miles. The land area is 2,973,774 square miles.

The water area, exclusive of the Great Lakes, the Atlantic, the Pacific and the Gulf of Mexico, within the three-mile limit, is 53,015 square miles.

From the easternmost point, West Quoddy Head, due west to the Pacific Ocean the distance is 2,807 miles.

The shortest distance from Atlantic to Pacific, between points near Charleston, S. C., and San Diego, Calif., is 2,152 miles.

The Canadian boundary is 3,898 miles long.

The Mexican boundary is 1,744 miles long.

The Atlantic coast line is 5,560 miles long.

The Pacific coast line is 2,730 miles long.

The Gulf of Mexico coast line is 3,640 miles long.

Cuba, if transposed directly north, would extend from New York City to Indiana, with Havana further west than Cleveland.

The Panama Canal is due South of Pittsburg, Pa.

Nome, Alaska, is farther west than Hawaii.

Turkey pickers wanted. MAYHEW PRODUCE CO.

Can You Answer Them?

Here is a list of question for the wide-awake boys. Can you answer all of them? You can any day see a white horse, why do you never see a white colt? How many different kinds of trees grow in your neighborhood and what are they good for? Why does a horse eat grass backward and a cow forward? Why does a hop vine always wind one way, and a bean vine another? Where should the inside of a chimney be bigger, at the top or bottom, and why? Can you tell why a horse when tethered with a rope, always unravels it while a cow always twist it into kinky knots? Why do leaves turn upside down just before a rain? What is the length of a horse's head—is it as long as a flour barrel? What animals have no upper teeth in front, and why?—Ex.

Mrs. M. A. Crenshaw Passes Away.

Sunday morning, October 31st, at 3:40 o'clock the spirit of Mrs. M. A. Crenshaw took its flight and returned to its Maker. The death of this sainted old lady occurred at the home of her daughter, Mrs. J. C. Wall, with whom she had made her home for the past thirty years. At the time of death, Mrs. Crenshaw was 90 years and 8 months old.

Mrs. Crenshaw was born in Tennessee, but had lived in Texas practically all her life. Since a child, she had been a devout member of the Methodist church, and she continued strong in that faith until the end. Her husband preceded her to the Great Beyond 55 years ago, passing away in Colorado county, where they then made their home. Mrs. Crenshaw had been in feeble health for a number of years, and during the past twelve months she had never left her room. To the body, worn and tired by the weight of years, death came as a welcome relief.

Surviving are two daughters, Mrs. J. C. Wall of Brady, and Mrs. M. A. Windrow of Austin, and one son, O. B. Crenshaw, of California.

Funeral services were held at the Wall home Monday afternoon at 3:30 o'clock, the Rev. J. W. Cowan, assisted by the Revs. J. H. Taylor and S. H. Jones, conducting and interment was made in Brady cemetery. Coming here for the funeral were Mrs. Winrow and also Miss Myrtle Wall of Temple, grand-daughter of deceased, C. T. Sargent of Orange, grand-son, arrived too late for the ceremony, and O. B. Crenshaw of California could not be reached until too late for his coming for the last sad services.

Brady citizens mourn the passing of this noble woman, and extend heartfelt sympathy to the surviving relatives.

Death of Mrs. Mary E. Polk.

The death of Mrs. Mary Elizabeth Polk, mother of E. E. Polk of Brady, and well-remembered by older citizens as a former resident of Brady, occurred at Laurel, Miss., on Sunday, October 31st, at the advanced age of 87 years. Her demise followed a paralytic stroke, which she suffered about a week previously. The body, accompanied by her son, M. L. Polk, and wife, with whom she had been making her home, arrived in Brady this (Tuesday) afternoon at 2:55 on the Santa Fe train. The funeral procession formed at the depot and proceeded to the Brady cemetery, where services were held by the Rev. J. H. Taylor, and the body was laid to rest beside that of her husband.

Mrs. Polk was born in Rankin county, Mississippi in 1833. She was twice married, her first husband having been killed during the Civil war. Following her marriage to John Polk, the family moved to Texas in 1892. From about 1893 to 1904 or 1905 they made their home in Santa Anna, then came to Brady, and made this their home until the death of Mr. Polk in 1911. Following the death of her husband, Mrs. Polk made her home with her son, M. L. Polk, at Laurel, Miss. Despite her advanced years, she was blessed with good health until the time of her fatal stroke, but for a number of years had exhibited no interest in the life about her, nor in the happenings of the day.

Mrs. Polk had been a consistent member of the Baptist church since early childhood, and her life was an inspiration to her children, as well as to all who knew her. She was the mother of eight children, four by her first husband and four by Mr. Polk. Of the first, but one survives, Hiram Laird of Volga, Texas. Three of the children by Mr. Polk mourn her passing, viz: M. L. Polk of Laurel, Miss., E. E. Polk of Brady, Texas, and Mrs. W. T. Faulkner, of Washington, D. C.

Out-of-town relatives attending the funeral were the Misses Laird of Santa Anna and Mrs. Dick Russell and little daughter, of Novice, granddaughters of Mrs. Polk and daughters of R. H. Laird, deceased, formerly living at Santa Anna, Mr. and Mrs. M. L. Polk of Laurel, Miss., and J. D. Polk, a step-son, of Tuscola, Texas.

A large concourse of sympathizing friends of the family attended the funeral and accompanied the body to its last resting place.

If you are subject to attacks of heartburn or indigestion, it may do you good to learn that Prickly Ash Bitters is a prompt and efficient remedy. It strengthens digestion, relieves heartburn, tones up the stomach, and by its agreeable cathartic effect, it empties and purifies the bowels. Try it. Price \$1.25 per bottle. Trigg Drug Co., special agents.

Much Easier.

"After I wash my face I look in the mirror to see if it's clean. Don't you?" asked the sweet little girl of Bobbie. "Don't have to," said Bobbie; "I just look at the towel."

NEW PILGRIM HALF DOLLARS APPEAR IN BRADY—ISSUE IS VERY LIMITED

The first of the new Pilgrim half dollars made their appearance in Brady this morning, Bill Ogden having the distinction of buying the first. While the new coins have a face value of only 50c, the U. S. government is putting them in circulation at a price of \$1.00 each—probably the first time in history that the government has demanded 100% premium on its own coin.

The new coins are designed to commemorate the landing of the Pilgrim fathers on the shore of the U. S. in 1620, and their coinage is to be extremely limited, only 300,000 being put in circulation. The object of the government in asking a 50c premium on the coins is to secure funds for the erection of a monument to the Pilgrims. The obverse of the coins bears the bust of a Pilgrim father, with prayer book under arm, and surrounding it the words, "United States of America," "Pilgrim Half Dollar." The words "In God We Trust," appear in small type alongside the head. The reverse bears a representation of the good ship "Mayflower," surrounded by the words "Pilgrim Tercentenary Celebration, 1620-1920."

But 30 of the coins have come to Brady, being consigned to the Commercial National bank. They found ready sale, and, doubtless, within a few years will be in great demand among collectors of odd coins.

We are again selling EUPION OIL—and the price has been reduced to the same as ordinary coal oil—20c per gallon. PIERCE OIL CORPORATION, Phone No. 40. J. H. OGDEN, Brady.

Well Fixed.

Ollie James, the gigantic and genial senator from Kentucky, was in conversation with a Washingtonian, when the latter made certain inquiries with reference to a mutual friend whom he had not seen for a number of years.

"And how does Colonel Prescott spend his declining years?" he asked.

"Beautifully, sir, beautifully!" answered James. "He has a fine farm, sir, and a string of trotters, sir, and a barrel of whisky sixteen years old—and a wife of the same age, sir!"—Saturday Evening Post.

TWO LADY CLERKS ASSIST IN HOLDING GENERAL ELECTION IN BRADY

For the first time in history, the aid of ladies has been enlisted in the holding of a general election in the city of Brady, Mrs. V. B. Deaton and Mrs. Roy Wilkerson being the two so honored. Henry Miller is judge of the election, with Tom Elliot, J. R. B. Fairchild and Dr. B. L. Craddock assistant judges. Mrs. Wilkerson, Mrs. Deaton, Irvine Marshall and Harold Deaton are clerks of the election. After their experience today, the ladies confidently expect to qualify in the next general election as judges. A light vote is being cast in Brady, only about 200 citizens, including ladies, having exercised their right of franchise up to noon today. Ladies who have not paid their poll tax are not permitted to participate in the election.

The Nature of the Brute.
"Is it true that the average man worries more about his own health than he does about his wife's?"
"If he doesn't," replied the cynic, "it's because there's something radically wrong with him."—Ex.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or diaspel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.
