IRWIN'S ENGAGE TEMPORARILY IN RESTAURANT BUSINESS AT GORMAN—RETURN MAR. 1

T. & L. Irwin yesterday left for Gorman, Texas, where they will temporarily engage in the restaurant business, pending completion of the new R. Wilensky building on the east side, and where they expect to re-open their Brady restaurant March 1st. Mr. and Mrs. Irwin have shipped a complete set of restaurant fixtures to Gorman, where they have secured a splendid business location, and they expect to develop a good business there during the next two months. It is their intention to dispose of the Gorman proposition upon their return to Brady.

Death of William E. Benson.

Death yesterday morning at 5:20 o'clock closed the earthly career of William E. Benson, well-known and most highly esteemed citizen of Brady and McCulloch county. His passing, while not unexpected, nevertheless brought sorrow to his countless friends, all of whom had been hoping against hope for his ultimate recovery. Stricken Tuesday morning at 3:00 o'clock with apoplexy, followed by paralysis of the right side, Mr. Benson never regained consciousness, and the Death Angel mercifully closed his eyes to pain and suffering.

For several years Mr. Benson had not been in the best of health, and last Fall he spent some weeks at Christoval seeking relief from eczema, a result of uremic poisoning. He returned home the latter part of December, but his stay at Christoval did not bring the relief he had sought. However, he continued able to be about until Tuesday night, when his sister, Mrs. Belle Taylor, who made her home with him, became alarmed at his labored breathing and found him unconscious. Medical skill and the tender nursing of relatives and friends failed to restore him.

Mr. Benson was born in Refugio county August 15, 1855, and was, therefore, 67 years, 5 months and 10 days old. He was one of the pioneer settlers of McCulloch county, coming here with his brother, J. D. Benson, in 1882, and making his home here almost continuously, with the exception of a year or two spent in California. Of jovial, cordial and sincere disposition, he numbered his friends by his acquaintances, and none but what admired him and held him in highest esteem for his sterling worth and integrity. For over a third of a century he had been a member of the Methodist church, and he also was a charter member of the Brady Masonic lodge.

For the past four or five years, Mr. Benson had made his home on the P. C. Dutton place, nine miles north of Brady, but the first of the year he moved to the Rohde Bros. place, four miles east of town. Mr. Benson had never married, but his sisters, Mrs. Belle Taylor and Miss Emily Benson, had made their home with him.

Funeral services will be held tomorrow afternoon, the cortege leaving his late residence at 1:00 o'clock and proceeding to the Methodist church, where Rev. I. T. Morris, for the past thirty years or more a close personal friend of the family, will have charge of the services. Rev. Morris will be assisted by Rev. W. L. Wall of Rochelle and Rev. C. L. Browning, pastor of the local church. Interment will be made in Brady cemetery.

Surviving are one brother, J. D. Benson, and three sisters, Mrs. Mollie Finigan of Fife, and Mrs. Belle Taylor and Miss Emily Benson of Brady.

NEWS FROM THE STATE CAPITOL

Representative Finlay Discusses Legislative Acts.

Taking a chance that my last letter escaped the waste basket, I will try to tell you what has happened this week.

The text book award is still under fire but has died down some. Every move made to try to investigate the award is held up somewhere in order to give them a chance to explain. They have now had two weeks and still are quiet. I look for the whole thing to blow over and all that will be done will be to pass laws so that it will not occur again. I think that all we can do is to take our medicine and remember who had a hand in it hereafter.

Several bills, having for their purpose the raising of revenues for schools, have been introduced. One taxing gasoline one cent per gallon looks as if it has a chance to pass. Another, by Mr. Patman, is a bill taxing the intangible values of all public corporations, which will get some six or eight million dollars and will more equally distribute the tax burden, which is now paid mainly by land.

I think the next best way to raise more money is to cut out needless appropriations and reductions of salaries. I hope we can do this, but if the Third House has its way, there will be nothing doing.

Our check law was introduced on the 15th but was withdrawn for re-writing and will be ready again soon.

A bill to make theft of poultry a penitentiary offense passed today and will soon become a law, so look out, colored folks!

Death of Mrs. Sansom.

The death of Mrs. Mary Sansom, wife of J. W. Sansom, occurred at the family home in the Placid community last Thursday night, following a brief illness. Funeral services and interment was at Mercury cemetery Friday. Death resulted from pneumonia, following upon the death of a new-born babe, which ordeal and shock served to weaken her constitution.

Mr. Sansom and family are highly esteemed citizens of Placid, and Mrs. Sansom was beloved by all who knew her. The sympathy of a host of friends goes out to Mr. Sansom and children in their bereavement.

W. I. MYERS TO CLOSE LAST GAP IN SIDEWALKS EAST SIDE BLACKBURN STREET TO SIXTH

W. I. Myers is preparing to have laid a cement walk alongside his property on South Blackburn and South Sixth street, and which will close the last gap in the continuous string of walks on the east side of Blackburn street from the public square to the top of the hill on South Sixth street. Incidentally the walk will be completed in front of his house and his rent house adjoining, making the walk continuous as far as the Baptist church corner. Mr. Myers will also have walk laid within the yard, leading to his house, and will have his lot curbed, parked and sodded, so as to make this prominent corner most attractive.

The members of the Baptist church are also imbued with the beautifying spirit, and are having the parsonage lot filled in and graded, and will surround the house with sod and ornamental flower beds. With the removal of the fence, the appearance of the parsonage and premises is greatly enhanced.

ROCHELLE WINS SATURDAY FROM BROWNWOOD TEAM

One of the most interesting athletic events of the season was staged at Rochelle last Saturday in the basket ball game between Rochelle, undefeated champions of this section, and the Brownwood high school teams. The game was fast and close, although Rochelle plainly held the advantage, despite the fact that her crack team was badly handicapped by reason of the fact that two of her players, Wesley Gainer and Mark Mitchell, were just recovering from an attack of the flu, and Arch Gainer had a bad knee as a result of an injury of a few days before. The final score was 16 to 14 in favor of Rochelle.

At the start, Rochelle made ten points in succession, following which Brownwood made eight points in succession, the score at the close of the first half standing Rochelle 10, Brownwood 8. In the second half, the playing was intensified on both sides, and the half ended with each side scoring six points. The splendid showing made by the team is a distinct compliment to Coach J. D. Conner, who is to be commended upon the wonderful team he has built up.

Rochelle Wins from Calf Creek.

The Rochelle team added another victory to their list Wednesday afternoon, when they defeated the Calf Creek basket ball team on Calf Creek grounds by a score of 16 to 0. A return game is scheduled between Rochelle and Calf Creek on the former's ground Saturday afternoon at 3:00 o'clock. This game and a game with San Saba is all that remains to be played by Rochelle to entitle them to represent this district at the district interscholastic meet to be held at Comanche in February.

**CHRIST OF THE
ANDES—A WON-
DERFUL LESSON**

It is devoutly to be desired that all nations find a way of escape from the grip of Wars. We cite the wonderful possibilities of escape mirrored in the act of Chile and Argentina.

After years of hostilities and the expenditures of millions in defense, in 1898, Chile and Argentina agreed to submit their oft-recurring boundary dispute to arbitration, and as a result King Edward VII of Great Britain, was made arbitrator. His decision was accepted, and so pleased were the peoples of the two countries that they proposed to make it impossible for them to ever go to war again. Therefore, they agreed to erect on the boundary line of the two nations a great statue of Christ, the Prince of Peace, as a symbol that disputes should be settled in the Christian way as well as a memorial to their common faith.

Here let Prof. E. C. Brooks, in his little book called "Stories of South America," finish the story:

The statue was cast at the arsenal at Buenos Aires from cannon taken from an old fortress near the city.

The site selected for the statue was Cumbre ridge, which is hardly a quarter of a mile across. The spot was one hallowed both to Argentinians and Chileans by its historic associations. There, at a high altitude and in intense cold, one may stand and look down westward into Chile or eastward into Argentina. On the level summit of this pass was erected the heroic figure of Christ, a bronze statue twenty-six feet high, standing on a pedestal rough-hewn from the natural rock of the mountains, twenty-two feet high, which in turn rests on a huge base of stone.

March 13, 1904, was the date set for the unveiling. Thousands of men, women and children from Chile and Argentina came to witness the ceremonies. Many were weeks making the trip, and hundreds camped below on the mountain side for days preceding the dedication.

"On the appointed day the crowd was separated. Argentinians were arranged on Chilean soil and Chileans were grouped on Argentine soil. Between them was the great statue of Christ, facing northward and guarding the peace of both countries forever. His left hand supports the cross, while the right hand is outstretched as if in the act of blessing the multitude. On the granite base are two tables, one presented by the working men's union of Buenos Aires, and the other by the working women. One gives a record of the making of the statue; on the other is inscribed these words:

"Sooner shall these mountains crumble into dust than shall the Argentinians and Chileans break the peace which they have pledged at the feet of Christ the Redeemer."

"The statue was dedicated to the whole world as a practical lesson in peace and good will. Immediately afterward Chile sold her warships for \$1,000,000,000, a sum sufficient to pay her debts and make some needed improvements. The next year a dispute with Bolivia was settled in the Christian way. Moreover, a much-needed railroad was built across the mountains from Chile to Argentina; this is the Trans-Andean railway connecting Valparaiso and Buenos Aires, one of the world's wonders in railroad construction. The peace of the two na-

tions watched over by the Christ of the Andes is a fine example of a Christian and patriotic purpose to end strife and promote good will."—Texas Commercial News.

PETALUMA, THE WORLD'S EGG BASKET

By H W KERRIGAN

Altho' the explorer and the tourist have led the vanguard along the beaten paths of the old and new world, and have marveled at the world's seven wonders it was left to an agriculturist to discover and develop the largest poultry center in the world—Petaluma. Here a feathered kingdom, to be sure—a world all its own. A chicken world with millions of chickens and hundreds of millions of eggs. A place so distinctive in the industry it represents that nearly every civilized nation is sending its commissioners and experts seeking to learn its methods of production. Petaluma, that magic word, who has not heard it? Whose very name symbolizes chickens, eggs and prosperity. Where the atmosphere literally throbs with the activity of the poultry industry.

What strikes one particularly in this Fairy Egg Land, where poultry farms circling the city form a veritable coliseum, are the beautiful eucalyptus groves, cypress hedges, modern homes, rural schools, and an endless sea of farms and yards of the red crowned, snow white leghorns dotting the landscape. And these farms topping the rolling hills, or in the valleys with their broad acres of chicken yards, barns and green kale patches, shaded by the green foliage and touching each other in neighborly fashion, have an individuality all their own.

At the depot the first thing one sees is Chanticleer, a giant snow white hen symbolizing Petaluma, the accredited mother and guardian of all the flocks in this vast chicken world. On every hand one sees stores, mills, warehouses and factories catering to and dependent on the poultry industry. The railroad yards congested with freight cars, the depot and docks crowded with chicks, chickens and egg cases, the river alive with steamers and barges transporting, loading and unloading poultry products and feed, and the business center fairly bustling with trade. The highways leading in from all points crowded with old Dobbin, trucks, autos and trailers going to and from the market places.

Petaluma, Sonoma County, is the home of six million chickens, in the center of four thousand poultry farms; representing a \$21,000,000.00 investment, is said to be because of the success of the poultry and dairying industries, with 6226 people, the richest agricultural city per capita in America.

Independent of the giant poultry industry in Petaluma is the Dairying industry. More than five million pounds of butter is produced annually, Petaluma's dairy products were valued at six million dollars last year.

The above article is submitted for the information of the McCulloch County people. Poultry experts say that McCulloch County, due to its climate and mild winters, would make the best poultry country in the world.

The Brady Chamber of Commerce is going to devote a great deal of time to promoting the poultry industry, and is now creating an organization to loan money to farmers to get them started in the pure bred chicken business; the requirements necessary to get money will be that the party must join the Chamber of Commerce at six dollars per year, and then he can make application for a loan.

The Chamber of Commerce is busy at the present time getting prices from various places in the State on pure bred poultry. In addition to the necessity of the farmer being a member of the Chamber of Commerce, he must consent to go into the business according to the instructions of the County Agent and the Home Demonstrator. It is our intention to place ten thousand chickens in the county this Spring. McCulloch County should be the egg basket of Texas, and it can easily be done if we will co-operate. It has been clearly demonstrated that the poultry business is the most profitable part of agriculture, for whoever heard of a community in a cotton center showing any great signs of wealth?

One mistaken idea that many people have in regard to the poultry industry is, that they must go into the breeding business to make any money, and yet no one has ever gotten very far in that line, while the market egg business has made people wealthy all over the Nation.

Everybody who is interested in chickens or turkeys should be a member of the McCulloch County Poultry Association and the Brady Chamber of Commerce. We expect to have our plans completed within the next few days to begin loaning money to farmer members of the Chamber of Commerce. If you want help, don't wait—join at once.

**HOUSTON LAND BANK A
GOOD INVESTMENT FOR
STOCKHOLDERS—PAYS 18%**

Tom Elliot, secretary of the Lohn National Farm Loan association, calls attention to the following statement of the wonderful success achieved by the Houston Land Bank. The article will be read with interest by everyone who has experienced the benefits of such an organization.

Houston, Texas, Jan. 20.—All National Farm Loan association stock outstanding since 1917 will receive a special dividend of 10 per cent and a regular dividend of 8 per cent from the Federal Land Bank of Houston for the fiscal year 1922. Eighteen per cent for one year is a boosting record for Farm Loan Association stock. Prior to this year the Federal Land Bank has paid a regular dividend of 6 per cent and 8 per cent per annum since it organized.

The announcement of the Federal Land Bank of Houston of the payment of a special cumulative dividend of 2 per cent per annum of all national Farm Loan Association stock since the beginning of the first dividend

period of the bank in 1917 will be interesting news to this community. Every borrower from the Federal Land Bank is a stockholder in a National Farm Loan Association which receives dividends from the Federal Land Bank. Each borrower is required to take 5 per cent of his loan in stock. Stockholders are numbered by the hundreds among our farmers.

The Federal Land Bank has already sent out its regular dividend and is now disbursing a special dividend. Farm Loan Association stock issued in 1917 will receive 10 per cent; 1918 stock 8 per cent; 1919 stock 6 per cent; 1920 stock 4 per cent; 1921 stock 2 per cent. In addition to these dividends, the Federal Land Bank has paid its regular 6 and 8 per cent dividends so that stock issued in 1917 has now been paid a total of 42 per cent.

The remarkable record made by the Federal Land Bank speaks well for the business success of the farmers' organization and the administration of the Federal Land Bank of Houston. The bank has closed 25,000 loans, approximating \$75,000,-

000, saving the farmers of Texas about \$2,500,000 in interest per annum. The bank has earned, as shown by its statement, \$1,504,775.37, which has been paid out to farmer-stockholders and used to build up a healthy reserve—and undivided profits account.

The statement of January 1, 1923, issued by the Federal Land Bank, shows a sound condition and a service to farmers heretofore unparalleled. The Farm Loan System has not only been the agency through which interest rates have been reduced and farm loans made unburdensome, but it has furnished farmers with a good, safe and sound investment in Farm Loan Association stock.

Any county clerk can furnish names of secretary-treasurers authorized to take applications for Federal Land Bank loans.

FOR YOUR SOLITUDE.

A successful man is one who has tried, not cried; who has worked, not dodged; who has shouldered responsibility, not evaded it; who has gotten under the burden, not merely stood off, looking on, giving advice and philosophizing on the situation. The result of a man's work is not the measure of success. To go down with the ship in storm and tempest is better than to paddle away to Paradise in an Orthodox canoe. To have worked is to have succeeded—we leave the results to time. Life is too short to gather the Harvest—we can only sow.—Elbert Hubbard.

THE LAW AND THE PEOPLE.

A correspondent of the Dallas News writes: A man passed and the crowd howled at him. He was the hangman. Another man passed and the people took off their hats with respect. He was the judge. "Why do you despise me?" inquired the hangman. "Because you kill," answered the crowd. "I execute the judge's sentence. It is he, not me, that you should scornfully despise." The judge objected, saying: "Were there no laws inflicting penalties, I could not pass any sentence, consequently do not protest against me, but against the law." The law said: "If you had not formulated me, I would not exist; do not blame me but yourselves, who gave me existence." The crowd dispersed silently, thinking that probably they were the guilty ones as the hangman was only the tool of the judge, the judge a tool of the law, and the law a tool of the people.

"Your taxes start with the sound of your alarm clock in the morning. Your shaving and bathing materials are taxed, so are your linen and suit of clothes. Go to the breakfast table and you swallow a tax with every bite you eat. The gas that cooked your eggs, the electricity which browned your toast, the cream and sugar in your coffee, and even the glass of water you drink has its tax—the last named through the swarm of little taxes that went into the hundreds of materials in the water plant. The rug beneath your feet is taxed and so is your morning newspaper. Your motor at the door, or the trolley car, whichever you prefer, is taxed. Of course your home is taxed. Your fuel has carried a good tax right back into the mine and so on through the day you bump into a tax at every turn. Your pay envelope is taxed and the railroad which carries the scores of daily wants has been taxed and being no philanthropist generously passes the taxes along to you, Mr. Consumer. Death and taxes are said to be the two sure things, but death comes only once, whereas a tax comes with every tick of the watch."—Philadelphia Inquirer.

A Compromise.

One of the few really good stories which are new is the one of a Northern man who was very quick to slam the South at every chance.

Once while in Arkansas, he was spouting forth his abuse of that state to a group of natives. On this occasion he referred 'specially to the bugs, mosquitos and other pests which infested that locality. When his abuse became too strong one of the natives objected and he said:

"You all ought to be able to stand it. We folks live here all right."

"Do you call it living all right to sit round and slap bugs all day?" the Northern man retorted.

"Shucks, we don't slap bugs all day, and you know it," came quickly from the native.

This put the proposition squarely up to the man from the North. To back up his claims he bet the other fellow that he could not sit where he was for five minutes with his hands folded in his lap. It was a go, and the Northerner took up his position behind the native who was to make the test.

There were plenty of bugs of various kinds, but our friends from the North decided not to rely entirely on his assistance to win his bet. He took a magnifying glass from his pocket and focussed the rays directly on the back of the native's neck.

Pretty soon the red hair on the neck began to curl up and smoke, and a about a minute more the skin underneath began to squirm and twitch. The native gritted his teeth and held in as long as he could. Finally he said between his clinched teeth: "Say, Colonel, Ah don't want to hedge or soften, but if you'll let me whack that ring-tailed hornet on the back of my neck, I'll compromise for two dollars and a half."—The Point of Contact.

BRADY RADIOFAN MEMBER RADIO TRUTH SOCIETY

To Dr. Wm. C. Jones, pioneer radio fan of Brady, has come the honor of being designated as the initial Brady member of the Order of Radio Truth society, established by the Star-Telegram broadcasting station at Fort Worth. Immediately upon receipt of the handsomely engraved certificate of membership, Dr. Jones proudly exhibited it to A. B. Carrithers, Joe Lyle, W. N. White and other local radio bugs, and the doctor's pride swelled almost to the bursting point when he found that none of them had been so honored.

Wondering at their covert smiles, but realizing all the while that their actions were prompted solely through jealousy, Dr. Jones examined more closely the certificate of membership, which read thusly:

This certifies that DR. WM. C. JONES

is a member in good standing of the ORDER OF RADIO TRUTH SOCIETY the "soul" object of which is to purify the air and make this a more healthful country for its citizenship, and its constitution. He swears continually to protect the Truth, both day and night, from abuse and overwork.

(Signed) HIRED HAND, O. R. T. S. of W. B. A. P. The Star Telegram SEAL Done this year in the Boiler Room. Sealed and Singed.

And thereby hangs a "tail." The "Hired Hand" is the substitute for the regular announcer at the Star-Telegram station, and he has developed the ways of a comedian to the nth degree. For instance, Dr. Jones says that the other night the "Hired Hand" related the story of the man who was chased by a bear, and who took refuge in a barrel, where, by adroit maneuvering, he was enabled to catch hold of the bear's tail, draw it through the bung hole of the barrel, and then tie a knot in it. Thus handicapped, the bear was unable to pursue the man farther, and the latter made his escape. A year later the man again encountered the bear, encumbered with the barrel into which its tail was still securely tied. But imagine his astonishment at seeing some four or five cubs following the she bear about, each of the cubs trailing behind a tiny barrel in the bung hole of which its tail was securely tied.

When other local radio bugs complain of static, and inability to get connection with stations or get a clear report on various programs, Dr. Jones comes to town the following morning all smiles, reporting the tuning in on various programs without a hitch, or the connecting up with new stations, or the listening in on stories told by the "Hired Hand" such as above related. All of this causes jealousy on the part of the other fans, who, in revenge, concocted the plot to have the amiable doctor given membership in the O. R. T. society.

But Dr. Jones accepts these honors with becoming dignity, especially since he is already a member of the Night Hawks of Kansas City and the Red Apple club of Detroit.

As a runner-up for the honors of O. R. T. S. membership, the local fans are now proposing Ed Jacoby, one of the newest most enthusiastic and most successful of radio operators. Ed has just installed a Kennedy set at his residence in South Brady, has equipped it with a Magnavox loud speaker and is developing an expert's in tuning in on radio programs all over the United States such as is putting some of the older operators to shame.

The many friends of Harry Broad, brother of Edd and Howard Broad of this city, will learn with regret that he suffered a stroke of apoplexy Tuesday noon at his home in Brownwood, and that his condition is pronounced very grave. Mr. Broad had for some years suffered with Bright's disease, which brought on the attack. Mr. and Mrs. Edd Broad and also Howard Broad left Tuesday evening to be at the bedside of their brother, and E. J. Broad was summoned from Fort Worth, and Mrs. Edd Jackson, a sister, arrived from Houston. Two other brothers, Will and Chas., also were notified. Edd Broad, who returned yesterday, reported no improvement in the stricken man's condition. Since the attack, he has been paralyzed on one side, and also suffers hemorrhages of the brain. He has never regained consciousness. Mr. Broad is 63 years of age, and by his jovial, who's-souled disposition has made a host of friends throughout this section, all of whom are hoping for his eventual improvement and recovery.

LOCAL BRIEFS

Fred Otte was here from the Camp San Saba neighborhood Wednesday and reported Sunday and Monday's rain as sufficient to make the moisture meet and put the ground just right for plowing. The sandy land had formed a hard crust or top surface during the dry spell, making farming operations difficult; consequently, the rain was greatly appreciated even though it failed to put out much-needed stock water.

Burt Priddy has just closed a deal with T. T. Reynolds of Junction for a 320-acre farm located 3 miles northwest of Eden. The farm has 180 acres in cultivation, two good sets of improvements, including concrete storm house, wolf-proof fencing, 7-wire pasture fence, and other splendid improvements. Since purchasing the place, Mr. Priddy has had a three-inch rain there, which makes him feel mighty good. However, Mr. Priddy

it, and brought it out so rapidly that by Wednesday it had greened to where the earth was completely hidden from view.

Judge Joe Matthews was over from Menard Tuesday, modestly accepting the congratulations of his many friends upon his recent appointment by the Menard commissioners as Judge of that county. Possibly no greater compliment could have been paid Mr. Matthews than the naming of him as the successor in office to the late Judge J. D. Scruggs, one of the foremost, most universally popular and most able Judges any county ever boasted. Judge Matthews is free to admit that he appreciates highly the compliment so paid him, and it goes without saying that he will fill the office with credit and distinction both to himself and to Menard county. Mr. and Mrs. Matthews will take up their residence in Menard in the near future, but Judge Matthews has promised to

make frequent visits back to Peg Leg ranch—sufficiently so to keep his brother Jim from overworking, and also timely enough to point out the best fishing spots to his Brady friends.

Mr. and Mrs. W. S. Shropshire are receiving congratulations upon the arrival of a fine grand-daughter, who arrived at the home of Mr. and Mrs. Harvey St. Clair in Yoakum, Texas, on December 27th. Mrs. Shropshire has just returned from a visit with the new arrival and from attending her daughter, who is remembered here as Miss Sybil Shropshire.

Domestic Science Class.
Breakfast was served by Lillian Holland and Ina Mae Braly of the D. S. Class of the Brady High school at 12:00 o'clock Monday. Each Monday this will be repeated by the two other groups of girls until all groups have served a breakfast.

The color scheme was carried out beautifully.

The following menu was served: Oranges, cream of wheat, fried eggs, bacon, biscuits and hot coffee.

The guests were Prof. Smith, Mr. Hart and the other members of the class, Misses Ebba Carlson, Oma Willoughby, Vivian Smith and Hattie Wilensky.

The object of having this is to learn how to plan menus and also how to serve correctly.

Vivian Smith and Hattie Wilensky will serve breakfast next Monday, inviting three guests and the members.

After serving breakfasts, we will serve dinners and buffet luncheons.

Honoring a Christmas Bride.
The following belated account of a complimentary tea, given by Mrs. W. E. Lyle for her sister-in-law, Mrs. U. R. Carroll, at their home in Lubbock, has just come to the attention of the editor. It is reprinted from the Lubbock Avalanche of Thursday, December 28, 1922.

An unusually pretty affair of the week was an afternoon tea given by Mrs. W. E. Lyle at the home of Mrs. John Bacon, honoring the sister-in-law of Mrs. Lyle, Mrs. V. R. Carroll. The entire house was most attractively arranged with holiday motifs. Chandeliers were draped and caught with crimson cord holding small Christmas bells, while at the windows holly sprays were used effectively.

In the living room was the receiving line of Mesdames John Bacon, W. E. Lyle, U. R. Carroll and M. L. Price. Mrs. Guy McAfee and Miss Blanche Bacon, were among those in the house party, conducting the guests to the dining room. At the dining table Mesdames Warren Bacon, S. P. Robbins, A. W. McKee and H. E. Miller served tea, coffee and sandwiches, placing flower favors of sweet peas on each plate. Misses Willette Waters, Frances Conley and Pauline Trippet assisted in serving the guests. The centerpiece of the table was very pretty with red lighted tapers surrounded with grey moss and holly berries. Mrs. S. L. Miller conducted the guests from the dining room to the reading room where each registered, assisted by Mrs. W. B. Atkins and Miss Irene Lowery, members of the house party. Among those present for the afternoon were:

Mesdames Guy McAfee, A. W. McKee, H. E. Miller, M. L. Price, S. L. Miller, S. P. Robbins, W. A. Bacon, W. R. Spencer, Joe Boyd, Joe Ballenger, H. A. Davidson, H. J. Lowery, L. A. Pierson, R. H. A Kansas editor announced he would try for one week to print the truth, and he is still in the hospital. The following item appeared in Monday's issue and now the boys are getting out the paper. This is what he said:

"Married, Miss Sylvia Robbe to Jas. Cannaman, last Sunday evening at the Baptist church. The bride was an ordinary town girl, who didn't know any more than a rabbit about cooking and never helped her mother three days in her life. She is not a beauty by any means and has a gait like a duck. The groom is an up-to-date habesheer, living off the fat of the land all his life, and don't amount to shucks nohow. They will have a hard life while they live together."

"Every Day in Every Way, We Are Getting Better and Better"

That is the thought that has actuated the publishers of

THE BRADY STANDARD

in building a better, more readable and more likable paper for Brady and McCulloch county. Essentially a HOME NEWSPAPER whose efforts have always been devoted to building town and country and make this a better place to live, The Standard has felt that its mission has been to cover the local news field thoroughly, efficiently and effectively. Through its semi-weekly editions, it has been enabled to give the news while it is new, thereby giving REAL SERVICE to its subscribers and readers.

Autocaster Service

In enlarging its scope, The Standard on September 1st last inaugurated the Autocaster service by means of which it has been enabled to present in pictures, timely news events, cartoons upon live topics of the day, comic strips, as well as providing illustrations for both news and advertising such as make for a really readable paper. This has served to keep The Brady Standard up in the march of progression with the big dailies, none of which offer more timely or newsy features than The Standard presents in its Autocaster Service.

Another Big New Feature Next Month Eight-Page Magazine Section

Starting with the second week in February, The Standard will offer its subscribers and readers another valuable feature in an eight-page Magazine section, which becomes a regular monthly feature. Heretofore the magazine feature has been exclusive with the Sunday dailies, which have not been available to rural readers because of their having no Sunday mail deliveries. Not only are many interesting magazine features thus denied the rural population, but the ever-popular colored comics are also lost to these readers. The Standard's Monthly Magazine section will, to a great degree, overcome this deficiency. Here is what we offer our readers in the magazine section—

A FULL-PAGE COLORED COMIC — DEPICTING THE ADVENTURES OF "PETE AND PINTO," THE COWKIDS OF O-JOY RANCH. THIS COMIC IS NOT DUPLICATED BY ANY DAILY NEWSPAPER AND IS AN EXCLUSIVE FEATURE OF THE BRADY STANDARD'S.

HISTORICAL FEATURE—TALES OF THE EARLY DAYS IN TEXAS. STORIES OF ACHIEVEMENTS AND SACRIFICES BY THE PIONEERS WHICH ARE CERTAIN TO THRILL EVERY READER.

THE RESOURCES OF TEXAS—A FEATURE SUPPLIED BY THE VARIOUS DEPARTMENTS OF THE STATE UNIVERSITY, AND ONE WHICH WILL OPEN THE EYES OF ALL TO TEXAS' WONDERFUL POTENTIAL RESOURCES.

OTHER DEPARTMENTAL NEWS INCLUDES — AUTO HINTS, TEXAS FARM NEWS, STORIES FOR BOYS AND GIRLS, WOMEN'S DEPARTMENT, HOUSEHOLD HINTS AND MANY OTHER FEATURES.

BRIEF TEXAS NEWS—A CAREFUL SELECTION OF INTERESTING ITEMS CULLED FROM THE NEWS FEATURES OF THE GREAT STATE OF TEXAS.

A LITTLE FUN—A COUPLE COLUMNS OF JOKES THAT WILL DRIVE AWAY THE BLUES AND MAKE THE WRINKLES OF YOUR FACE TURN INTO SMILES.

AUSTIN CALLAN'S COMMENTS—AS A HUMOROUS WRITER, AUSTIN CALLAN IS SECOND ONLY TO THE VERSATILE CLAUD CALLAN, AND HIS COLUMN WILL BE SURE TO BE READ WITH INTEREST.

CURRENT COMMENT—BY J. H. LOWRY, ONE OF TEXAS' WELL-KNOWN AND WELL-BELOVED PHILOSOPHERS AND WHOSE QUAINT WRITINGS HAVE DELIGHTED HUNDREDS OF THOUSANDS OF ADMIRERS.

SUBSCRIPTION PRICE

There will be no increase in the subscription price; on the contrary, the price will be lower. For the coming year, the subscription price to The Brady Standard in Zone 1 will be only—

\$1.50

All subscriptions will be payable strictly Cash in Advance, and the paper will be stopped when the subscription expires.

THE REASON—During the past two years, The Brady Standard has been \$2.00 per year. With unfavorable conditions, collections have lagged, with the result that we now have between \$1,000 and \$1,500 delinquent subscriptions on our books. There is no profit in subscriptions at best, the subscription price only covering cost of paper, ink and printing. Consequently, we figure we have been falling about \$750 short each year during 1921 and 1922 of meeting costs on subscriptions. The reduced price of \$1.50, paid in advance, will net us more real money, eliminate bookkeeping, and give the subscriber the greatest possible value at the lowest possible figure.

LONG SANDMAN STORY

WOOD RATS' ARMY

"SOMETHING must be done at once," announced Mrs. Wood Rat to her husband one day. "Ever since we had the picnic for the children, and Tabby Cat from the farm saw us, life has not been worth living."

"But, my dear," replied Mr. Wood Rat. "Tabby is not afraid of me—or you, either, so what can we do but be careful?"

"I've been thinking it over," said Mrs. Wood Rat, "and I think Tabby could be frightened away for good if only there were enough of us. An army of wood rats would be too much for her to face, I am sure."

"Y-es," answered Mr. Wood Rat slowly, "but with all the rats in this part of the woods there would not be enough to frighten her away, I am afraid."

"Perhaps not," said Mrs. Wood Rat, "but each one of us has a shadow, and at night, when the moon is shining, we could manage to run about so that our shadows would run with us and that would make Tabby see just double our number, don't you see?"

Mr. Wood Rat argued for a little while with his wife, but in the end he

Back and Forth Went the Rats.

put on his hat and went out to tell all the neighbors the scheme that Mrs. Wood Rat had planned.

"Now, all of us must get to the corn crib today and each must bring away an ear of corn," he explained; "then tonight, before the moon is up, you are all to come over to our big rock and hide. Of course, bring your ear of

corn with you and Mrs. Wood Rat will tell you just what to do after that."

If Tabby had been watching that day she would have seen a strange sight, for back and forth went the wood rats to the corn crib and instead of eating the corn every one carried away a full ear, the largest one he or she could carry.

But Tabby Cat did not see them; she was peacefully sleeping behind the kitchen stove to be ready for the frolic she intended to have that night in the woods, with no other cat about to share in the fun.

When all was still that night and the moon was peeping over the tree tops, off ran Tabby Cat to the woods toward the rock where lived Mr. and Mrs. Wood Rat; but just before she reached it out from the rock came the rats armed with an ear of corn.

Tabby was so surprised she stopped for a second, but she wasn't afraid of a few rats. Of course, not. So she ran toward them, and then she saw there were not a few, but a very large number, for she saw all the shadows as well as the real rats, you see.

Then just as Tabby was beginning to think there were too many for her to manage, each rat threw the ear of corn it carried and all the shadows did the same, of course.

Tabby Cat turned and away she ran without once looking behind her and she did not stop until she was safe under the steps of the farm house where she lived.

Such a frolic as the wood rats had that night, for they picked up the ears of corn as soon as they saw Tabby running for home, and there in the moonlight they danced and ate corn until broad daylight.

"My dear," said Mr. Wood Rat to his wife the next morning, "I never knew how clever you were until last night. How did you ever happen to think of such a plan for getting rid of Tabby?"

"You are really the one that made me think about it," answered clever Mrs. Wood Rat. "You showed me my shadow one night in the moonlight, or I would never have thought of the plan."

"What's in a Name?"

By MILDRED MARSHALL

Facts about your name; its history; meaning; whence it was derived; significance; your lucky day and lucky jewel

CORA

CHARMINGLY youthful is Cora, modern derivative of ancient Greek. Many feminine names in Greece were merely men's names with a feminine termination in "a" or "e," irrespective of their meaning, and this is true of Cora, which, quaintly enough, signifies maiden.

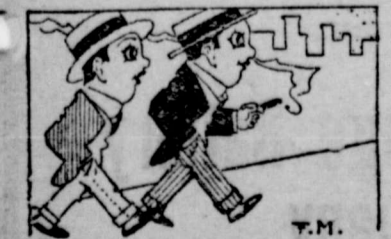

However she is derived, Cora is the most feminine of names, and was given to some of the most alluring heroines of romance. Originally the name was taken from Persephone's title, "Kore," a maiden, the Boetian poetess who won a wreath of victory at Thebes. Corinna was the next step in the evolution of Cora, and she came about through the literary habit of reviving old Greek names, a fetish with enterprising writers in search of a fresh title for a heroine.

Madame de Staël named her brilliant Corinna after the Boetian poetess, above mentioned, and that established her fame forever in France, where she has been handed down from one French maid to another through generations of poetic fancy. In Italy she becomes Corinne through the "Hengist," a chronicle of the Middle Ages. Lord Byron makes her Cora in his famous poem, and through him her vogue is unquestionably established in England and America.

Modern writers favor her, both as Corinna and Cora. She is the capricious heroine of many a modern story, the most memorable example perhaps being the Cora of Booth Tarkington's book, "The Flirt." Poets have never neglected her, especially the poets of the pastoral age. Her significance and the youthful charm invariably associated with her through her evolution, made her almost a synonym for rural maiden, just as Sylvia is a general term for shepherdess. "When my Corinna goes a-maying" is one of the most charming lyrics of that age, and familiar to all.

Cora's jewel is the diamond, which promises her protection from danger. Saturday is her lucky day, and 3 her lucky number. The daisy, signifying innocence, is the flower assigned to her.

THE ROMANCE OF WORDS

"TURNCOAT"

HISTORY, which has played a leading role in the formation of many words which are familiar to us today is directly responsible for the epithet "turncoat" as applied to a traitor or anyone who deserts one cause in order to join the opposing party.

This word owes its origin to Emmanuel, one of the first dukes of Savoy, whose dominions lay between the two contesting houses of Spain and France, and who was, accordingly, forced to temporize and fall in with whichever power appeared to be in the ascendancy. Being so frequently obliged to change his allegiance, the duke had a coat made which was blue on one side and white on the other, and might be worn either side out. Where in the interests of diplomacy he thought it best to represent the Spaniards, the duke would wear the blue side outermost, while when he was working with the French, his coat would appear to be white. It was for this reason that he gained the surname of "The Turncoat," to distinguish him from the other dukes of the house of Savoy, also named Emmanuel, and the term has come down, unchanged, to the present day.

FARM BUREAU MEETING LAST SATURDAY—BIG POULTRY MEETING NEXT SAT., JAN. 27

The McCulloch County Farm Bureau held its annual meeting at the court house Saturday afternoon, January 20th. Although the attendance at the meeting was rather small, those present were representative of the different sections of the county. Mr. Dan Zimmerman of the Dodge community, who was the official delegate sent from here to the Texas Farm Bureau convention held at Dallas Texas, January 17-18, gave a detailed account of the proceedings of the convention. Mr. Henry Davis of the Fairview community, who also attended the Dallas convention told the meeting some things he had found out about the workings of the cotton association. Judging from his talk, Mr. Davis must have come home filled with a good bit of old time Farm Bureau religion. He said that if a delegate went to Dallas willing to learn he would surely be a busy man the few days he was up there, and that the Farm Bureau as we now have it at Dallas is one of the biggest things he has had an opportunity of rubbing up against and especially of owning an interest in. He told the meeting that one thing that impressed him especially was the fact that the Bureau had this year sold ten thousand dollars worth of just trimming off the cotton samples or floor scraps as they are termed. Mr. Davis believes that the Bureau is now being operated efficiently and that the thing the farmers need to do back at home to make it a salvation for the cotton farmer is to give it his moral support. Mr. M. A. Leddy of Voca who also attended the meeting made a talk on the convention and touched on and brought out some points which the other two gentlemen omitted. He made it clear that those members who breached their contracts this year would be brought to an accounting at the earliest moment possible. The delegates were informed that it was only a matter of time until the Supreme Court decision was given on the contract and that then action would be taken against violators of the contract. Mr. Leddy told the meeting that it was worth any member's time and money just to go to Dallas and see what a wonderfully big organization the farmers of Texas had built up in two years.

After the talks made by the gentlemen the next business to come before the meeting was the election of officers. Mr. J. E. Campbell made a motion that under the present circumstances it would be better to retain the old force of officers than to elect new ones. His motion was seconded and the old officers unanimously re-elected. The following is a list of the officers:

H. J. Huffman, Brady, president.
Dan Zimmerman, vice-president.
R. E. Williams, Brady, secretary-treasurer.
Henry Davis, Brady, director.
J. H. Smith, Pear Valley, director.
M. A. Leddy, Voca, director.
N. T. Gault, Placid, director.

After their election the officers asked the membership to not violate their contract and that if they did they were henceforth put on notice that they felt it their duty as officers of the association to see that they were turned in to the proper authorities and that they hoped they would not feel hard towards them for the performance of their duty.

While the Farm Bureau convention was in session at Dallas the delegates had the pleasure of noting the sale of several lots of Bureau cotton. One lot of five hundred bales of No. 5 cotton was sold on the 17th for \$3.99 while on the 18th another lot of four thousand bales of middling cotton was sold for \$9.50. The delegates were very much elated over the prospects of the price which the Bureau would likely obtain for the cotton this year as some forty-four thousand bales still remain to be sold and with the prospects of a continued rise in the price of cotton the loyal members will be well paid for their faith in the organization.

Next Saturday, January 27th, all poultry raisers in the county are requested to meet at the court house at 2:00 o'clock, for the purpose of completing the organization of a poultry association for the county. Anyone who raises any poultry at all should be interested in the organization of this association. There are various benefits which will come from the organization and in a county where as much poultry is raised as there is in McCulloch county there is a great need of an organization of the producers. The association hopes to promote the production of more and better poultry in the county and also hopes to hold an annual poultry show. Being organized will place the poultry

This is not a marketing association contemplated but a producers association which will help the farmers and poultry raisers in the methods of feeding and caring for poultry. Let us have a big attendance and put McCulloch county on the map as one of the leading poultry producing counties of the state. We are ideally located and nature has made this an ideal poultry producing section if we will olive here will do our part. Everyone be present.

MR. AND MRS. WILSON D. JORDAN RETURN FROM STAY IN NEW YORK AND BOSTON

Mr. and Mrs. Wilson D. Jordan and little daughter, June, returned Wednesday morning from New York City and other eastern points, where they had been the past two months or more, while Mr. Jordan acted as eastern representative for the Mayhew Produce Co. Mr. Jordan was in New York City the greater part of his stay, but also spent some time in St. Louis, Chicago, Boston and other eastern points both in the U. S. and Canada. While it was originally his intention to return here for Christmas, he found his eastern stay so essential towards the advantageous disposal of carlot consignments of poultry from Mayhew Produce Co., that he was prompted to continue his stay until the middle of this month, and in the meantime, Mrs. Jordan and little daughter joined him in New York City.

Upon the whole, they report a most pleasant and enjoyable stay, although they got mighty homesick for Texas and Brady. Returning, they found Boston filled to overflowing by reason of the national convention of Automobile dealers, but were fortunate in securing rooms at one of the hotels, where Mr. Jordan promptly took down with a case of the flu, and was followed by Mrs. Jordan and little June also contracting flu. Mr. Jordan was down eight days, and for five days required the services of a nurse. Their homeward journey was marked by innumerable delays enroute due to trains running late, the service being badly affected by reason of the shopmen's strike, and which has resulted in rapid deterioration of railway equipment. Fortunately, however, they made the trip home safely, although feeling the effects of the long journey coming right on top of their illness.

Mr. Jordan reports much cold weather in the north, and says snow had fallen all through Oklahoma and down into Texas upon their return. Needless to say, their many friends are delighted to have them again with us, and are rejoiced at the safe return.

DR. JOE WHITE RETURNS TO NEW YORK TO ENGAGE IN PRIVATE PRACTICE THERE

Dr. Joe White, who came here to spend his first Christmas with his parents, Mr. and Mrs. J. H. White, in the past ten years, returned Wednesday night to New York City, where he will engage in private practice. Dr. White has been confining himself very closely to his studies, and latterly to his chosen profession of surgeon in the big metropolis, and consequently was prepared to enjoy his five-weeks' outing here to the fullest extent. Numerous places in this section of West Texas were visited by him, and he learned to appreciate the great out-doors of Texas more than ever.

Since completing his studies at the College of Physicians and Surgeons in New York City, and where he was an interne for some time, Dr. White has spent two years at St. Luke's hospital and for the past six months has been house surgeon in the children's hospital, where he gained much added valuable experience and knowledge of surgery. In returning to New York City, he will be associated with an old and well-established surgeon, and who is one of the foremost of his profession in New York. Quite naturally, home folks, and all his many friends, are proud of the splendid achievements of Dr. White, and predict for him success and attainments that should give him rank with the leaders in his profession.

SPEAKER OF HOUSE NAMES REP. JAS. FINLAY MEMBER 2 IMPORTANT COMMITTEES

According to press reports, Hon. Jas. Finlay, representative of the 93rd district, was named by R. E. Seagler, speaker of the House, as a member of the Game and Fish committee and also the Stock and Stock Raising committee. Mr. Finlay is the author of several bills which have been presented in the house, one of which has as its purpose the regulating and licensing of the trapping of fur-bearing wild animals; another pertains to the creating of the Richland Springs Independent School district and the third is in regards to the granting of pensions to Confederate soldiers, sailors and their widows, and the levying of a 7c tax to provide funds for the payment of such pension.

Through courtesy of Mr. Finlay, The Standard is in receipt of copies of the House proceedings, which may be inspected and read by any of our citizens at The Standard office.

The following are the bills introduced in the House by Representative Finlay:

H. B. No. 44, A bill to be entitled "An Act to preserve and protect the wild fur-bearing animals of this State; declaring wild fur-bearing animals to be the property of the State; providing for the issuance of trapper's licenses, and the disposition of the license fees; defining offenses and prescribing penalties for the violation thereof; and making it the duty of the Game, Fish and Oyster Commissioner and his deputies to enforce the provisions of this Act; repealing all laws in conflict herewith, and declaring an emergency."

Referred to Committee on Game and Fisheries.

H. B. No. 123, A bill to be entitled "An Act creating the Richland Springs Independent School District in San Saba County, Texas, and defining its boundaries and providing for the election of a board of trustees to manage and control the public free schools within said district; investing said district with all the powers, rights and duties of independent school districts formed for free school purposes only, and providing that said board of trustees shall have such authority as is now or may be hereafter conferred by the general laws of the State of Texas upon boards of public school trustees of independent school districts, and declaring an emergency."

Referred to Committee on Local Educational Bills.

H. J. R. No. 9, proposing an amendment to Section 51 of Article 3 of the Constitution of the State of Texas to provide that the Legislature may grant pensions to Confederate soldiers, sailors and their widows, who have been citizens of Texas prior to January 1, 1900; providing that all soldiers, sailors and their widows eligible under the provisions hereof shall be entitled to be placed upon the rolls and participate in the pension fund created hereunder; levying a tax of seven (.07) cents on the \$100 valuation of property in this State for the payment of such pension; providing that the Legislature may reduce the rate of pension for such purpose, fixing a time for the election to be held on such amendment, and making appropriation to pay the expenses thereof.

Referred to Committee on Constitutional Amendments.

Do the right thing at the right time. Act quickly in time of danger. In time of kidney danger, Doan's Kidney Pills are most effective. Plenty of Brady evidence of their worth. Ask your neighbor! Mrs. J. Coopender, Brady, says: "I was annoyed by kidney complaint for some years. My condition was diagnosed as uric acid poisoning. I always felt heavy and depressed and had had attacks of rheumatic trouble. I was nervous and frequently headaches came on. I used different remedies for this trouble but can honestly say that Doan's Kidney Pills gave me far better results. I procured this medicine at Jones Drug Co."

FOUR YEARS LATER, Mrs. Coopender said: "Doan's Kidney Pills gave me a cure that has been lasting and I am now enjoying the best of health."

Attachments to Telephones— And Why We Object to Them

The rules of the telephone company prohibit the use of special devices attached to the telephone or "cut in" on the telephone line.

The general use of such attachments—as, for instance, special mouthpieces, hook-switch locks, patent ear-pieces, receiver holders, special switches and other appliances—would so complicate the upkeep and operation of the telephones in the exchange that uniform and satisfactory service would be impossible.

In the interest of uniform and dependable service for all alike, therefore, we must adopt the policy of ourselves specifying and providing all equipment used on or connected with our lines. We cannot be responsible for the upkeep or operation of telephones or lines to which outside devices, not standard equipment, are attached.
