

Spur is Home of Million Dollar Institution

The Spur Mutual Life Insurance Association, which has for the past eleven years enjoyed a remarkable growth and success, is fast approaching the rank of a million dollar institution. In an interview Wednesday, Fred C. Haile, Secretary and Manager of the Association, stated that from all indication the fall of 1932-33 would be the most outstanding season from an insurance standpoint that West Texas has yet experienced. The Senior Group, a newly organized circle which has recently been offered by the Spur Mutual, is meeting with an unusual amount of popularity, new policies coming in on every train and with every mail; and it is on the success of this new policy together with the steady growth in the number of other policies offered by this company Mr. Haile bases his prediction that within the next ninety days the Spur Mutual Association will have on its books \$1,000,000.00 insurance in force.

Efficiency and promptness and living up to the Spur Mutual slogan of "Service When Service is Needed" is, according to Mr. Haile, the secret of the success of this company. Last week W. M. Bevins, a policy holder in the local company, died at his home in Paducah at 3 o'clock in the afternoon. At 7 o'clock the office here was notified and delivery of a check for \$1500.00 was made to the widow of the deceased at 9:20 the same evening. Mr. Bevins had held this policy for 10 years and a half and during that time his assessments had amounted to approximately \$175.

The service rendered by Spur Mutual Association in the instance of Mr. Bevins' death is not in the least unusual and the amount that his policy had cost is in line with the claims of the association of offering "insurance at cost."

Outlaw Basketball Team Organized At McAdoo

With about a dozen former high school stars working out, the McAdoo Outlaw basketball team, organized last week, looms to be one of the best in West Texas. Marshall Formby has been manager of the league and on the team will be such men as C. P. Auffill, Roy Issac, Chester Clark, Wilbur Issac, "Snowball" Cooksey, Amos Issac, Weldon Cypert and professors Orman and McQuinn.

Any outlaw team desiring games with the McAdoo quintet is asked to get in touch with Manager Formby. The team will be ready to play by November 1.

Crosbyton Meets Bulldogs Today Fair Park Field

The Spur Bulldogs will play their opening game of the season today at 3 o'clock when they meet the Crosbyton team on the local field at the Spur Fair Park. Although the Bulldogs will have to face the disadvantages attendant to a re-organized team, they have been under heavy training by Coach Thad Murley for the past month and are in condition to put up a real battle.

An enthusiastic pep meeting was held on the streets of Spur last night and the big pep squad is in the best of trim to keep up the spirit of the game and make more noise than a steam caliope.

Let's turn out this afternoon and see the Bulldogs pull down the first game. Admission will be 15c and 25c.

The game scheduled for Friday of last week with Dickens was postponed on account of the rainy weather and announcement of the amended schedule will be made later.

W. T. Crops Will Depend on Time Of Killing Frost

The amount of cotton harvested in a large portion of Northwest Texas depends largely on the weather conditions during October and the time of the first killing frost. The following data taken from the meteorological records at the Spur Experiment Station will be of interest.

The average rainfall for October is 2.90 inches. During the past 21 years there has been 4 years with less than an inch of rain, 1917, 1921, 1924, and 1925. There has been six years with over 5 inches of rain, 1914, 1915, 1919, 1923, 1926, and 1930.

The average date of the first killing frost to occur was on Nov. 2nd. The earliest frost to occur was on October 18, 1920 and the latest was on November 27, 1931. (These records date back only to 1911).

The following is the date of the first killing frost from 1911 to 1931; and the rainfall in Oct. of these years:

Year	First Killing Frost	Rainfall in Oct.
1911	Oct. 22	1.03
1912	Oct. 23	1.87
1913	Oct. 27	2.94

Spur Publisher Captures Opossum in Chicken House

Oran McClure Jr., publisher of the Texas Spur, captured an Opossum Tuesday night in the act of robbing his hen house. The nocturnal prowler had entered the house and although was going quietly enough about his business his presence was protested by the chickens who left the place with him and raised a big fuss about it. Perhaps these chickens, which were hatched and raised in West Texas had never heard of a possum and did not know that they made a practice of visiting chicken houses wherever they might happen to be. The capture was made by the simple expedient of grabbing the possum by the tail and popping his head against a post.

Mr. Possum has been turned over to Cecil Fox, local amateur taxidermist, who will give him a nice home with his pet pole kittens until he attains a heavy winter coat of fur and then he will be given the opportunity of gracing somebody's mantle. An opossum, although common in south, east and central Texas is rarely seen in this section.

J. N. Buchanan To Attend State Reunion of Confederates

J. N. Buchanan, of north of the city a few miles, left Tuesday for Paris, to attend the State Reunion of Ex-Confederate Veterans which is to be held there Thursday, Friday and Saturday of this week.

Mr. Buchanan states that so far as he knows he will be the only Confederate veteran to attend the reunion this year from Dickens county.

"OUT OUR WAY" Twin Wells - S. Hill

Several families are beginning to pick cotton out our way but for the most part a good look over the cotton fields leaves a forboding in the minds of those dependent on cotton, as of course, most all farmers are. Recently you could most hear people screaming "worms"; but now we are howling, "rot". Some farmers who planted after the hail even state that they fear they'll never even get to enter their patches this year to gather it. Of course this is a comedown after hopes were so high but we'll have to do this like we do other troubles, "just smile and see it through". It has been proven that in smiling only thirteen muscles are used and sixty-six used to frown, so lets get conservative and not strain those 53 muscles.

Mr. and Mrs. Darwin Callahan of Floydada are visiting her mother, Mrs. L. A. Welborn, this week.

Canning Show to Be Held in Spur October 21 - 22

Dickens County folks will have an opportunity to visualize the actual means employed by the women to "meet the depression" and to review some of the accomplishments this year in the annual club exhibit to be held by the club women and girls in the Sol Davis building, October 21 and 22. Quantity as well as quality is being stressed this year and the exhibit is expected to be the biggest we have had in the county.

It is hoped that the women in town who have been canning so extensively will enter their products in the exhibit, too. All entries must be in by noon, Friday, October 21st.

MISSES HEALD AND REED TO JUDGE

Miss Velma Heald, home demonstration agent of Fisher County and Miss Johnnie Reed, home demonstration agent of Kent county, are to judge the exhibit. They will give a judging demonstration on Saturday afternoon at 2:30. At that time we hope to have a large crowd present to hear the comments. The 61 prizes that have been donated by the Spur business men and women will be awarded at that time also.

A Challenge to American Women

Women have had the right to vote for nearly twelve years; in that length of time comparatively few have availed themselves of the privilege. For this reason women have been severely criticized in some quarters, while others interested in national affairs have persistently urged them to use their political power so as to insure constructive, progressive leadership for the nation.

Recently women have begun to pay more attention to this appeal—they are learning to accept politics as a part of their normal routine and are more anxious to avail themselves of the power conferred by the ballot.

This was demonstrated in the 1928 elections in which the votes of women were a deciding factor. This year also it is conceded that women will be an important factor in determining election results.

Women realize that existing conditions demand that they shall express their interest in national affairs by voting; they are beginning to perceive that political power carries with it a profound obligation.

This explains in part the increasing number of women seeking public office. In 1928, the last presidential election year, 13 women senators were chosen for the various state legislatures; 126 women representatives were elected. Together with the few who held office previously the number of women in the legislatures of the nation totaled 147. Eight women were chosen for Congress in 1928 and many were elected to minor state offices throughout the nation. No exact figures as to the total number of women that voted in the last presidential election are available. It was estimated that ten millions voted in 1924 and it was stated after the 1928 elections that forty or fifty per cent more voted than in 1924.

These figures are scarcely authoritative. However, Dr. Robinson of Columbia University, gives the number of women voters as between twelve and fifteen million; Simon Michelet, Washington statistician, says there are 16,000,000. The U. S. Census Bureau, 1930 figures, says there are 35,000,000 women twenty-one yrs. and over in the United States.

To discharge the obligations of citizenship women qualified to do so must vote; they must vote intelligently; they must vote for the common good of society at large; they must vote to sustain the ideals and principles that have made America strong in the past and that are necessary to its future growth and power.

The need of the nation is a challenge to the women of America!

Ferguson's Name Likely To Appear On Election Ballot

District Judge W. F. Robertson, who last week issued an injunction preventing the printing of Mrs. Ferguson's name on the general election ballots, Thursday ruled that he had found his court did not have jurisdiction over this question. Sterling attorneys have made appeal to the Court of Civil Appeals. As yet no decision has been made by the Supreme Court.

Mrs. Jane E. McCallum, Secretary of State, has stated that she will await the decisions of the courts before taking action in the certification of Mrs. Ferguson's name for a place on the ballot.

Banner Gang Afoot

The Banner gang is getting about via the old fashioned foot route since Thursday afternoon when our car was almost totally demolished in a collision on the Crosbyton-Dickens highway near Duck Creek about four miles west of Dickens. From the looks of the car we judge that it was a No. 1 jam-up, head-on collision.

Randolph Rutherford, who was driving the car, was slightly injured about the chest, one ankle and a knee. The occupant of the other car was uninjured.—Ralls Banner.

Flood Waters Unearth Bones of Pre-Historic Creature

Odessa, Oct. 4.—Flood waters in the Toyah creek, southwest of Odessa, unearthed what is believed to be the bones of some prehistoric animal or reptile. Jas. L. Wright, of Pecos, made the discovery and brought the find to his home in Pecos.

The bones comprise a pair of jaws about fourteen inches long and eight inches deep, with a set of molars of peculiar construction in each. A drawing of the bones has been made, and sent to the University of Texas for identification and to be classified.

Wright stated that he would soon return to the creek and make an extensive search. Plans are being made to form an expedition for this purpose.

LIBRARY NOTES

The Public Library better known as the Delphian Library is in the 16th year and the work is being faithfully carried on. New books are being added each month, both of fiction and non-fiction type.

Membership to the library is \$1.50 per year—or can be paid at the rate of 25c for two months. New books received this week are:

"Four Blind Mice" (fiction) by Donald Joseph, English Professor at University of Texas.

"State Fair" by Phil Strong (fiction). Will Rogers and Janet Gaynor will play in the film production of this popular novel.

Emily Post's book, "Etiquette" (non-fiction, the blue book of usage). Mrs. Post is recognized as the foremost authority on "how to do things" and this book covers everything from a neighborhood party to funerals.

The library is located in the City Water and Light office, one door north of the Palace Theatre.

Dr. Geo. S. Slover To Preach at M. S. Church on Sunday

The Presiding Elder of the Stamford District will preach at 11:00 A. M. The Fourth Quarterly Conference will be held in the afternoon. This will be the last time Dr. Slover will be here before the Annual Conference. At this time officials for the coming year will be elected. It is only five more weeks until the Annual Conference meets in Amarillo. All the members are urged to be at the services Sunday. Visitors are always welcomed.

The pastor will preach at 7:30 P. M.

Mr. and Mrs. C. P. Auffill and daughter, of McAdoo, were business visitors in Spur, Tuesday.

R. M. Hamby, Dickens Pioneer Died Sunday

R. M. Hamby, 71, one of the earliest settlers of this county and for 32 years a resident here, died at his home in Lubbock at 8:00 Sunday morning. Death was attributed to a disease of the kidneys from which Mr. Hamby had suffered several years and to injuries which he suffered a few months ago when a horse fell with him.

Mr. and Mrs. Hamby moved to Dickens county from Benjamin in 1894 and have been most prominent and active in the development of this section from a frontier ranching country to a highly productive agricultural center. On coming to this section Mr. and Mrs. Hamby engaged in the ranching and stockfarming but retired from active business several years ago and moved to Spur where they made their home until 1926 when they moved to Lubbock. They continued to maintain a home here however, and spent three or more months in the county each year looking after their extensive property interests.

Funeral services were held at 3 o'clock Monday afternoon at the First Christian church of Lubbock, conducted by Judge Chas. E. Coombes of Stamford, assisted by Rev. Walter P. Jennings, pastor of the church. Members of the Dickens and Lubbock Masonic lodges assisted in the services. Interment was made in Lubbock cemetery.

Surviving Mr. Hamby are his widow, two neices, Mrs. Ed Grant of Lubbock, and Mrs. Billie Hancock of Jayton; three nephews, R. M. and John H. Wheeler of Crosbyton and R. A. Mills of Lubbock, and a brother, Charles, of Post.

Frost Occured Here Wednesday

Early risers here Wednesday witnessed the earliest frost that Spur section has experienced in many years and possibly its entire history. Although the frost was not a killing one—possibly because of its mildness and possibly as the moon—but it was very plentiful. Rev. Rodgers gathered up more than five pounds of the fleecy crystals as proof to doubters and to demonstrate the sights that are missed by the less industrious.

There is nothing like a little tinge of frost to flavor turnip greens and to make the pumpkins ripen.

Presidential Candidates to Reach Large Farm Audience

Presidential candidates angling for the elusive but important agricultural vote this fall will find at the other end of their microphone the largest farm radio audience in history.

The rapid increase in the number of radios on farms in the last year despite unfavorable economic conditions, gives both the Democratic and Republican aspirants a much better opportunity to reach the rural voter than previous candidates have enjoyed.

Perhaps one explanation of this sudden increase in listeners is the development during the last year of the first satisfactory type of set for homes not served by power lines. The new receivers, known as air cell sets, and made now by all leading radio manufacturers, have at last freed the farmer from the trouble, expense and unsatisfactory reception to which previous types of battery sets subjected him.

The new sets use a revolutionary type of "breathing battery" for "A" current, and are equipped with the latest improvements in radio engineering, such as dynamic speakers, super-heterodyne circuits, and pentode tubes. No storage battery is necessary. Senator Arthur Capper, a radio enthusiast, believes they are the final solution to the farmer's radio problems.

The "breathing battery" lasts for a year, or to be exact, for more than a thousand hours of service, after which they are replaced with a new battery at a fraction of the cost of old type battery power—not to mention the freedom from the inconvenience of recharging storage batteries.

And A Great Time Will Be Had By All

The following notice appearing in the Parrish (Ark.) News, advertises the "closing out sale of the Republican party" as follows:

"After four years of failure in an attempt to operate a nation's business, we, the undersigned receivers of the GOP, will by the authority of the American voters, offer for sale in Washington, D. C., on March 4, 1933, to the highest bidder, for cash in hand, the following worthless equipment ruined in a great engineering experiment:

One wild Jackass, not broken to work in the harness.
 One large political machine, 1921 model, in bad repair and operated the past four years by remote control.
 Several thousand brass and copper stills in good working order, made available through failure of the "Noble Experiment."
 Thirteen thousand stool pigeons just about feathered out.
 Thirteen million dinner pails, all empty.
 Four million soup bowls and other bread line equipment.
 One Federal Farm Board with several broken and warped planks. This was used in 1928 for "farm relief" and has been successful in relieving many of farms and homes.
 Eight thousand closed banks with an abundance of frozen assets.
 All of these articles are the property of the Republican party and are the direct product of the Smoot-Hawley tariff law.
 Lunch will be served on the grounds by members of the Wickersham Commission as honor guest.
 All articles purchased at the sale will be neatly wrapped in a worthless bond of a foreign government. All checks presented by purchasers must bear a charge of two cents.
 Right to reject any and all bids reserved, and bids by cabinet members will not be accepted.
 Please do not forget the place and date, as parking space will be at a premium. It is suggested that American workmen who desire to attend the sale leave one car in the garage.
 You need not bring drinks as "grape concentrates" will be on the grounds.

Interesting Facts About Fires and Auto Accidents

Through the office of Clements Insurance Agency of Spur, the following facts and incidents were obtained:

According to reports of the Pennsylvania State Police, sparks principally emitted from chimneys, flues and rubbish burning, were responsible in one year for 878 fires in Pennsylvania, exclusive of Philadelphia and Pittsburgh.

A new law in Virginia provides for the revocation of operators (Automobile) license and owner's registration in the event of unpaid judgments. Its provisions apply to both resident motorists and those from out of the State.

Statistics for 1931 show that there was an automobile accident every 1-2 minute, and in the 860,000 accidents 34,400 deaths were caused by automobiles.

An accident bureau has been organized in Chicago of 21 policemen especially trained. The report of an accident will bring one of these squads to the scene. First aid will be rendered to the injured, a general survey will be made, the cause of the accident will be ascertained, the responsibility determined, statements taken and, of course, arrests made. A photograph and diagram will be made of the scene. Last year in Chicago more than 1,000 persons were killed in automobile accidents, and 15,000 were injured.
