Johnnie Craddock Drowned in Tank At Highway Home

The entire community was sorrowed Wednesday of this week when it learned of the accidental drowning of John R. Craddock, 32 year-old son of Mr. and Mrs. W. A. Craddock of 14 miles west of the city. Johnnie, as he was familiarly known among his many friends here was reared in this community, graduated from Spur High School, and spent practically his entire life in this section.

While attending the State University at Austin, Johnnie was injured in an athletic contest that left him an permanent cripple and for the past eight years has suffered from partial and at times complete paralysis. Early Wednesday morning he went to the well for a drink of cool water and was later found by members of the family in the storage reservoir here had evidently fallen and was unable to recover himself.

Funeral services have been delayed pending the arrival of a brother, Walter Craddock who is a doctor in charge of a hospital in Alpine, and a brother, W. A., and a sister living at Austin. It is thought however that services will be held here Thursday afternoon.

The Texas Spur joins the community in extending sincere sympathy to Mr. and Mrs. Craddock and family in their bereavement.

Mr. and Mrs. Henry Alexander, who returned last weekend from large commercial centers where they have been on a marketing tour to buy merchandise for their store here, state that they took a few days off to visit the worlds fair at Chicago and found it most interesting and worth while.

Among other things Mrs. Alexander relates of having heard Relief Administrator Hugh S. Johnson make a talk giving details and expectations of the N. R. A. and attending a banquet of the National Retail Association.

Everywhere, she states, people are much interested and highly enthused over this new governmental move and in her opinion its success will mean much to the economic condition of the nation. She also has many interesting things to tell of the "sights" at the fair.

At one of the earliest if not the earliest date in the history of Spur its "first bale" was ginned here Tuesday, August 22, the fortunate farmer bringing in the new cotton being J. H. Smith of the Girard community.

Geo. Sloan, manager of the Citizens Gin where the bale was turned out states that the cotton was of good length staple and was of excellent color and quality. It weighed 1470 pounds in the seed and the bale weighed 505.

A sum of something like \$25.00 in cash and merchandise was made up by local merchants as a premium for the first bale. The bid however of 8.75 was turned down, Mr. Smith preferring to hold the cotton for a possible better market.

Marine Corps Has Room For Recruits

During the month of September there will be a few openings for young men in the United States Marine Corps, provided they have the necessary qualifications, mental and moral, and can pass the rigid, physical examination required of all men enlisted in this branch of the service.

Any young man graduated from a high school, who is interested, should write Major P. D. Cornell, officer in charge of recruiting, District of New Orleans, 535 St. Charles Street, New Orleans, La., who will furnish full information regarding the service and the duties of a marine, ashore, afloat and in the air, in this, and in foreign countries. The rigid requirements for enlistment also will be explained in detail, for this branch of the military and naval service which is recognized here and abroad as one of the finest in the world, and is the most difficult to enter due to its high educational, moral and physical standards.

Twenty-four divorce cases have been listed on the docket of the present term of district court which is now in session at Dickens.

Mrs. E. C. Edmonds left Monday for Ft. Worth to spend a week or ten days visit with her mother, Mrs. G. H. Connell.

Fred Haile Takes Lead as Anti-Pro. Candidate of 19th.

Fred C. Haile, secretary and manager of the Spur Mutual Insurance Association and a candidate for Congress from this district, last week in addition to his other duties, accepted the chairmanship of the Texas Liberal League activities in this section.

In an interview Monday Mr. Haile stated that the primary purpose of this organization was to promote the cause of real temperance and to guarantee the inherent liberties of the people of Texas. It is opposed to prohibition, he stated, because it believes this to be an obstacle to temperance as well as the cause of many of the evils confronting the American people today. Going further, Mr. Haile stated that it was his personal opinion that prohibition was a most "successful failure" and had caused a situation in which prohibitionists were linked with and would vote with organized crime.

One thing, he stated, that the Texas Liberal League was anxious to make clear before the August 26th election, was that a vote for repeal of the 18th amendment would in no way affect the Dean law of Texas. And being a devout Democrat, Mr. Haile said he was proud to add an appeal to that of President Roosevelt for the people to take this, their first opportunity in a decade, to bring back States rights. And to support an administration that is laboring under the greatest obstacles to correct the mistakes of past administrations.

Let's make no mistakes Saturday.

West Texas Utilities Joins The N. R. A.

Abilene, Tex., August 23—Signing the N. R. A. code for the 161 West Texas cities and communities in which it operates, the West Texas Utilities Company yesterday at the local postoffice pledged its support and cooperation to the program and plans of the National Industrial Recovery Act.

Pledges also were signed locally in each of the towns in which the company operates. Changes in personnel and hours are being made at the present time, and all provisions of the agreement will be placed in effect as rapidly as possible, it was learned.

Price Campbell, president of the West Texas Utilities Company, in commenting on his company's participation in the Blue-Eagle program said:

"The West Texas Utilities Company feels that the N. R. A. program actually will increase purchasing power in an amount sufficient to stimulate general business. While it adds a large new responsibility to our already heavy payroll, due to the hours required to give continuous service, we feel that the communities we serve desire that we try to carry this additional burden, together with the summation of the extra 3% tax payments to be taken off the collective shoulders of our consumers and placed on our single shoulders.

"This and other added taxes, together with the increased payroll and increased cost of supplies creates such a very large additional burden that it can be carried only by increased income from increased consumption or increased rates. So we issue a plea to our customers to help by taking increased service, at least to the extent of the 3% decrease in cost of service by which customers will benefit when we take over the payment of the tax.

"Much of such service on the low steps of the rate schedules, and must occur quickly as we have only until the first of September before taking over this tax and the other additional burdens.

"The Department of Labor reports that living costs are nearly 25% above normal, or above 1913 prices while electric rates instead of being above the normalcy line of 1913 are between 40 and 50% below that line—and nearly 70% below average living costs. General

They leave soon for a trip thru the eastern part of the country and will return here to make their home.

living costs now are increasing, so the family expense soon will be far greater than at the present time.

"Few customers realize that our present rate schedules are so arranged that they can increase their service several times with only a very small addition to the total bill. The problem we must meet at once is to have our customers see this important fact, and realize the comforts and conveniences this increased service will provide at very low rates."

D. 1932. Plaintiff prays the court that defendant be cited to appear and answer this petition, and that on final hearing hereon she have judgement dissolving the marriage relation existing between plaintiff and defendant, and that she be restored to her maiden name, Miss Beverly Moore, for costs of suit, etc.

Herein fail not, but have you before said court on the said first day of the next term thereof, this writ, with your return thereon showing how you have executed the same.

Simple Lunches to Tempt Fickle School Appetites

By JOSEPHINE B. GIBSON Director, Home Economics Dept., H. J. Heinz Company

PLANNING luncheon for the children—and having it ready when they come home hungry from school—is a problem that constantly confronts millions of women. And about this time of year the task becomes even harder, since fresh Spring fruits and vegetables are not yet procurable in most markets, and children are tiring of the foods served through the long winter months.

The school-day lunch is a most important meal, too. While little surprises—in the way of new dishes, or old ones dressed up a bit—are invaluable in making it a bright and happy occasion, the menu must be well-balanced, and should include a generous amount of the milk so necessary for growing children.

Below are a number of easily prepared lunches that have been worked out with busy mothers in mind. And they have been carefully planned to appeal to the children, too:

- Cream of Tomato Soup Buttered Toast Pineapple Pinwheel Salad Rolls Milk Creamed Eggs on Toast Apple Butter Muffins or Rolls Milk or Cocoa Cooked Spaghetti in Tomato Sauce Waldorf Salad Brown Bread Sandwiches Made with Sandwich Relish Milk Creamed Tuna Fish Sandwiches Baked Apples with Currant Jelly Cookies Peanut Butter Cutlets Hot Rolls Lettuce Salad with Russian Dressing Sliced Oranges with Coconut Drop Cookies Milk Pineapple Pinwheel Salad: 12 slices pineapple; 1 small jar Peanut Butter; lettuce.

Spread a slice of chilled pineapple with Peanut Butter and cover with a second slice. Cut into quarters, and arrange on a bed of lettuce to form a pinwheel. Place a cherry in the center and garnish with Mayonnaise Salad Dressing mixed with a little pineapple juice.

Creamed Eggs on Toast: 4 hard eggs; 2 tablespoons butter; 2 tablespoons flour; 1/2 teaspoon salt; 1/2 teaspoon Worcestershire Sauce; 1 cup milk; 2 tablespoons Tomato Ketchup; 1/4 cup buttered crumbs. Melt butter, add flour and stir until well blended. Then add salt, Worcestershire Sauce and milk, and cook until thick. Add Tomato Ketchup and pour over the eggs. Serve on buttered toast.

Creamed Tuna Fish Sandwiches: 1 cup tuna fish; 2 tablespoons butter; 2 tablespoons flour; 1/2 teaspoon salt; 1/2 cups milk; 3 tablespoons Preserved Sweet Gherkins, chopped; paprika; dash of Worcestershire Sauce. Steam fish over hot water until heated. Melt butter, add flour and salt, then milk. Cook until thick, and add the chopped gherkins. Spread buttered toast with a layer of fish, cover with sauce, a second layer of toast, and more fish and sauce. Garnish with paprika and slices of pickles.

Peanut Butter Cutlets: 1 cup Peanut Butter; 1/2 cup hot milk; 1/2 teaspoon salt; pepper; sliced bread. Mix Peanut Butter with hot milk and seasonings. Drop slices of bread into this mixture and fry in 2 tablespoons hot fat. Garnish with Pickles or Stuffed Spanish Olives.

Drop Cookies: 1/2 cup shortening; 1/2 cup flour; 1/4 teaspoon soda; 1/4 teaspoon ground cloves; 1/4 teaspoon nutmeg; 1/2 teaspoon cinnamon; 3 tablespoons sour milk; 1 1/2 cups Rice Flakes; 1/4 cup nuts; 1/4 cup raisins. Cream shortening with sugar, and add well beaten egg. Sift flour, soda, ground cloves, nutmeg, cinnamon, and add alternately with sour milk. Then add Rice Flakes that have been crumbled with a rolling pin. Add nuts and raisins. Drop by teaspoons on a greased baking sheet and bake in a hot oven—425 to 450 degrees F.—for 8 to 10 minutes. This makes about two dozen cookies.

WHAT IS A VACATION?

Every year there is a break in the regular routine of daily work—this we call a vacation. To most of us it is a wonderful chance to "get away"—to rest—to relax and forget about the worries of everyday life—if you want that experience, if you want this vacation to be the most enjoyable and worthwhile you ever had, come this year to the CRAZY WATER HOTEL - Mineral Wells, Texas.

Incidentally, this year the rates are the lowest in history.

Please send me free of charge full particulars concerning a health vacation at the Crazy Water Hotel. It is understood that I will not be obligated by this request.

Billions of Dollars To Be Spent on Recovery

Out of the three billion, three hundred million dollars to be spent by the Federal Government in order to restore prosperous times, a large portion of it, of course, will be spent for its administration. Or, to put it another way millions will be used to pay for office workers, such as bookkeepers, accountants, stenographers, clerks, office assistants, etc.

The far-sighted young people will see in this plan the dawn of a new day for office workers, and will at once prepare themselves accordingly. If you have finished your high school course, communicate with us and let us tell you just how we can help you in your plans. We will give you the benefit of our years of experience in helping young people plan their business career. For those who can pay their tuition in cash, but who do not have the funds with which to pay their board, we have a very unique plan to assist them in their finances. It is our information that we are the only business school that offers aid to students in their boarding problem.

We publish a beautifully illustrated catalog to mail to the serious minded young people. If you contemplate a business training, we would be glad to place your name on our mailing list and furnish you with the desired information about our school.

Four your convenience, fill out the coupon below and we will mail you one of these catalogs immediately.

A BIRTHDAY PARTY

Mrs. A. T. Bural of Gilpin entertained Wednesday afternoon honoring her mother, Mrs. W. B. Bennett, on her birthday. Mrs. Bennett once lived in this community for years and has a host of friends here. Her influence for good and the uplift of the community in every way has been so great that every friend was eager to show their appreciation by their presence and gift. All of this came as a surprise to Mrs. Bennett and when the huge basket loaded with gifts was presented to her by Mrs. Evans, her heart was so full and overflowing with love thankfulness and surprise that she could hardly talk. However, when compassed she thanked us in her gracious and beautiful way. As each gift was unwrapped she had some appropriate word for the giver. The personal message with each gift was read also a telegram from a distance from a sister. Then a game, writing telegrams to Mrs. Bennett, each one using the letters in their own name as the initial letter for each line. When these were read it was found that Mrs. Bennett had a variety in telegrams, good, comic and beautiful. A plate of delicious cake and grape juice or iced tea was served to the honoree and her many friends. Mrs. Bural is a pleasant hostess and we are wishing for another party soon.—One who was present

These "Goodies" Are Good For Sugar-Hungry Tots

By JOSEPHINE B. GIBSON
Director, Home Economics Dept.,
H. J. Heinz Company

DESSERTS and other sweets given to children should be chosen carefully, for, although sweets ought to be included in every child's diet, they must not be overly rich.

Cereal puddings and cookies, which add valuable cereal cellulose to the diet, are excellent sweets for children. Baked fruits and brittle candies also are welcomed by mothers who want to guard their children's health by choosing their food carefully. A variety of simple, nourishing desserts help to make meals more interesting to the little ones, and do away with the necessity of coaxing them to eat things just "because they are good for you".

You will welcome the following recipes—and any of these sweets will be most enthusiastically greeted by the children, too!

Nursery Pudding: 1/2 cup uncooked wheat; 2 1/2 cups milk; 1/2 cup seedless raisins; 1/2 teaspoon salt; 2 eggs; 1/3 cup brown sugar; 1/2 teaspoon vanilla extract.

Scald milk, add cereal and stir constantly over hot water until the mixture thickens. Add salt, sugar and flavoring to the eggs, and stir into the cereal mixture. Add raisins and pour into a pan set in hot water. Bake in a moderate oven—350 degrees F.—from 30 to 40 minutes.

Delicious Custard Pudding: 2 eggs; 1/2 cup raisins; 1/2 cup sugar; 1/2 teaspoon vanilla; 2 cups Rice Flakes; 2 cups milk; grating of nutmeg, if desired.

Beat eggs and add Rice Flakes and raisins. Add sugar mixed with milk. Add vanilla, and nutmeg if desired. Pour into a greased baking dish, place in a pan of hot water and bake in a moderate oven.

Brown Sugar Ice Box Cookies: 1/2 cup butter; 2 cups brown sugar; 2 eggs; 1/2 tablespoon vanilla; 1 teaspoon soda; 1 teaspoon baking powder; 3/4 cups flour; 1 cup Rice Flakes; 1/2 cup nutmeats.

Add sugar, vanilla and melted fat to beaten egg. Then add flour sifted with soda and baking powder. Last add Rice Flakes and nuts. Pack into a pan lined with waxed paper, and chill. Slice thinly and bake for about five minutes in a hot oven—425 degrees F.

Filled Cookies: 1/2 cup butter; 1 cup milk; 1/2 teaspoon vanilla, or 1 1/2 vanilla and 1/4 of almond; 3/4 cups pastry flour, or 3/4 of bread flour; 1/2 teaspoon salt; 4 teaspoons baking powder. Cream butter, add sugar and cream well together. Add beaten egg and vanilla. Then add alternately the milk and the flour sifted with salt and baking powder. Roll 1/8 inch thick and cut in medium sizes. Place teaspoonful of filling on each cookie, cover with another cookie and press together. Bake at 425 degrees F. for 12 to 15 minutes. Use these filling recipes: Filling No. 1: 1/2 cup Pure Apple Butter; 1/2 cup nutmeats; 1/2 cup raisins. Filling No. 2: 1/2 cup Pure Apple Butter; 1/2 cup dried coconut.

Rice Flake Macaroons: 2 cups Flakes; 1/2 cup sugar; 1/2 cup coconut; 2 egg whites, stiffly beaten; 1/2 teaspoon vanilla.

Add sugar gradually to egg whites. Fold in coconut and Rice Flakes, and add vanilla. Drop on waxed paper, and bake in a moderate oven for 10 minutes.

Baked Apples with Currant Jelly: 9 apples; 1 cup sugar; 1 cup water; Currant Jelly. Mix sugar and water and use to bathe apples every five minutes while cooking at 375 degrees F. for half an hour. Remove from oven and sprinkle with granulated sugar. Return to oven until sugar melts. Before serving, place a spoonful of Currant Jelly in the center of each apple.

Rice Flake and Peanut Balls: 1 package Rice Flakes; 1 cup peanuts; 1 cup white sugar; 1 cup brown sugar; 1/2 cup corn syrup; 1/2 cup water; 1/2 tablespoon butter; 1/2 teaspoon Pure Vinegar.

Boil together the white and brown sugar, corn syrup, water, butter and vinegar, until mixture forms a soft ball when dropped into cold water. Cook at 244 degrees F. Cool slightly, flavor with vanilla and pour gradually, stirring gently, over the Rice Flakes and peanuts. Form into balls when cool.

Correct Home Canning

Do you can at home? Then you will be interested in the results of experiments made on foods commonly canned at home, by the Bureau of Home Economics of the United States Department of Agriculture. These experiments, made to help you to preserve foods safely at home, as they are preserved in the canneries, represent ten years of experimental work in home canning, and the examination of more than 4000 containers of food canned in experimental laboratories.

Cannery Method Urged

The Bureau urges especially that, as a matter of economy, as well as a precaution against food spoilage, the steam pressure method used by commercial canners, be used when canning meats and non-acid vegetables at home. Discussing these experiments, a recent release from the Department of Agriculture says:

"Since meats, fish and corn, beans, peas, and other vegetables, except tomatoes, give most trouble in home canning, the department ran many series of comparative tests with these foods. Repeatedly it tried out the water-bath method with both continuous and intermittent periods of processing, and again and again the high percentage of spoilage showed this method wasteful and dangerous for nonacid foods.

"The water-bath method produces a temperature about equal to that of boiling water but no higher. This is not high enough to kill in a reasonable time the bacteria that cause spoilage in these nonacid foods.

"The steam-pressure method, however, quickly runs the temperature in the containers up to 240 degrees or 250 degrees. These high temperatures destroy harmful bacteria in a short time."

The other day while strolling around Oklahoma City with Clyde Roseberry, editor of the Shawnee News and Star, looking at the big buildings over there, and after we had looked over the new postoffice building, the Oklahoma Gas and Electric, and new bank building, Mr. Roseberry said, "let us dine." Now it's nothing new for him to want to eat for he both "lives to eat and eats to live."

I said, "Why the word 'dine'?" "Well," he said, "I know of a place where we can dine." I said, "Let's go! It's been a long time since I have really dined."

He took me to the dining room of the imposing new 26 story Oklahoma Biltmore Hotel. It's a wonderful place with well selected appointments, spotless table linen glistening with its usual complement of silver, glassware sparkling like crystal, and with service that is real service. The food served was the best money could buy, carefully prepared and thoroughly cooked.

As we left I remarked to Mr. Roseberry that I was coming back again some day, remove my hat, give the place a salute and salaam and dine again.

There are places in every city where you can really dine. Look over the advertisements in your newspaper and go and dine.
