**My Trip to the State Fair**

(By Lizzie Lou Baxter, Afton 4-H)  
No one can imagine my thrill when I learned that I had won a trip on my garden record. I knew the trip would be full of new experiences for me as I had never been away from home for very long at a time.

I left home Sunday evening and went to Spur so I could leave there in time to catch the train at Stamford. We left Spur about 4:30 Monday morning and met our chaperones, Miss Sue Bonner and Miss Ellen Elliot, at Stamford. There were five of us girls by the time we reached Wichita Falls where we had a five hour wait. This gave us plenty of time to see the town and go shopping. We arrived at Dallas about 10:30 Monday night.

Early Tuesday we started the big day ahead of us. First we went to the fish hatchery. All of this was new to me and I saw several kinds I had never seen. We left the fish hatchery to go to the exhibit hall. The fruit exhibit was the prettiest I have ever seen. We also had our pictures made Tuesday morning.

Tuesday afternoon we went to the zoo. This was my first trip to the zoo so it held several interests for me. Tuesday evening we were guests at the play, "Nina Rosa." It was my first Spanish play, and I enjoyed it.

Wednesday we spent the morning viewing the sights in the Agricultural building. That afternoon we saw the play, "Floradora." Thursday we again studied the exhibits and went through the industrial building.

At each lunch and dinner we had guests whom it was a great pleasure to meet, among them the editor of the Farm & Ranch, editor of the Semi-Weekly Farm News, the president of the Educational Encampment, Miss Beas Edwards, assistant state home demonstration agent and all the home demonstration agents who were present, as well as many others. Some of the girls were selected to preside as hostesses at each table and they

introduced the guests. Then a number of the girls told of their club work.

Friday morning we broke camp and all started for home. I seemed to be the only girl out of 299 who were enrolled in camp that was not ready to return.

We reached Stamford about 8:00 Friday night rather worn but not too tired to tell of our wonderful experiences. Since this trip has meant so much to me I intend to encourage the other girls in our club to work harder so that they may be able to enjoy the things I did. I also intend to start my next year's work with a zeal to do more.

**RED CROSS CLOTHES THE NATION'S NEEDY**

Flour, Bread, Clothing Reach Into More Than Five Million Homes

The greatest task ever undertaken by a relief agency in the history of private charity is drawing to a close with the final distribution of cotton clothing to more than five million families by the American Red Cross.

At the direction of the Congress, beginning eighteen months ago, the Red Cross undertook to convert the wheat and cotton surpluses of the Farm Board into food and clothing for the unemployed and needy. In the consequent operation, this relief agency entered upon a commercial enterprise greater than any single commercial firm has ever undertaken in the same period of time.

In the ensuing months the Red Cross converted 85,000,000 bushels of wheat into flour and bread and gave it to 5,803,000 families. The distribution was through 3,700 Red Cross chapters and hundreds of other charitable agencies. During the severe northwestern drought of 1931 the Red Cross also gave wheat in the form of food for livestock to 184,188 families.

The clothing—dresses, underwear, overalls, jumpers, sweaters and stockings for men, women and children, and even blankets and comforters—was distributed to 5,465,419 families. More than 54,000,000 ready-made garments and 92,000,000 yards of cotton cloth were given to the needy. This clothing came from 844,000 bales of cotton.

The wheat distribution was concluded in June, 1933, and final distribution of cotton clothing is occurring in the fall months.

In handling these tasks voted to it by Congress, the Red Cross will expend from its own treasury \$735,000. At the same time the organization carried on its regular program of disaster relief; of service to the veterans of all our wars; of educational and welfare work through the Junior Red Cross; of health education and public health nursing and of life saving and first aid. Funds for this work come from the membership roll call the Red Cross chapters conduct from Armistice Day to Thanksgiving Day, when every one is invited to join the Red Cross and aid in this vital relief work.

**We Don't Send Our Wheat to the Cotton Gins**

The United States census statistics show that when most young men and women finish their schooling they go into Business. It is right that it should be so. The greatest opportunities today are in business.

But here is another interesting fact. A great many of these boys and girls who do go into business positions, of one kind and another, have taken courses at school and college that are not intended to train them for business careers at all. They go to this, that and the other kind of schools, they take all sorts and kinds of courses—and then they go out and look for business positions.

Not only are they untrained in modern business methods, but they are not even trained in common business discipline.

Our schools should train our young people for the work they are going to do in life. If they are going to be doctors or lawyers they should go to medical or law school. But for heaven's sake let's train our business men and women in the same intelligent way.

We do not mean that every boy and girl should go to Tyler Commercial College and School of Business Administration, but we do maintain that boys and girls who are going into business will be better prepared if they have business educations offered by an outstanding Business School.

The fact that a course at Tyler takes less time and costs less money is not a drawback. It is an advantage. It simply means that a student's effort is turned into profit more quickly.

The courses that are taught at Tyler Commercial College and School of Business Administration are described in the booklet, "Achieving Success in Business," which is mailed free upon request. They are real college courses. A term at Tyler is a real college training—with a lot of waste of time left out.
