VOLUME XXIV

SPUR, DICKENS COUNTY, TEXAS, THURSDAY, MARCH 15, 1934

NUMBER 20

23 YEARS AGO

Taken from the files of the Texas Spur, published 23 years ago this week. Oran McClure, editor and publisher.

New building now going up. The laying of brick in the construction of the Dr. Standifer sanitarium was commenced the later part of the week and the work is being pushed as fast as the material arrives and the workmen can handle it. The contract was let to R. L. Roberts and the building is expected to be completed within sixty days.

City Election Declared—County Judge Gipson recently declared Spur a city incorporated under the commission form of Government with Geo. S. Link Mayor and W. G. Sherrod and E. C. Edmonds as Commissioners with full power to act as legal representatives of Spur in an official capacity. Spur is now in the city class and we predict that she will move along serenely to the betterment of conditions, progress of commerce and prosperity of the citizenship.

Left for dog camp—A big wagon load of boys left town Thursday for the dog camp six miles west of Spur and will be employed in killing dogs in that and other sections of the country.

M. A. Jordan of six miles southeast of Spur was in the city Thursday and was a pleasant caller at the Texas Spur office.

Mace Hunter was in Saturday from his home several miles east of Spur and reports everything in fine condition in his section of the country.

J. H. Edwards was in the city Saturday from his home north of Dickens and reports everything in fine shape.

J. E. Sparks and wife of the Tap country, were in the city Saturday. Mr. Sparks hauled out a load of lumber which indicates that more improvements will be made in the Tap country.

Dickens Will Vote on Beer Sat., March 24

The City of Dickens will hold an election March 24 to determine if the sale of 3.2 beer will be legal in that city.

A petition with sufficient signers was presented and the order calling for the election was issued Monday.

Perry - Pair

Miss Agnes Perry and Philips Pair were united in the Holy bonds of wed lock Saturday evening at 9 o'clock at the home of Rev. and Mrs. W. B. Bennett, with Rev. Bennett reading the ceremony that made them man and wife.

Only a few close friends accompanied them and witnessed the ceremony.

They will be at home to friends at McAdoo where they will make their home.

The Texas Spur extends congratulations.

ATTENDS STYLE SHOW AT LUBBOCK SUNDAY

L. P. Trimble manager of Watson Bros. Dry Goods store and Mrs. Trimble attended the opening of the style show in Lubbock Sunday.

Mr. Trimble reported 218 wholesale concern represented there from all over the United States, from New York to California.

The Trimble's bought and selected some choice members which they will tell you about upon their arrival at the store in Spur.

Mrs. Ed Slough, Misses Johnnie Marsh and Evelyn Richter spent several days in Fort Worth attending the Fat Stock Show and Dallas shopping and visiting.

Messrs. Helms and Graziop of Austin, were in Spur last week in the interest of CWA and Texas Relief works in this section of the State.

City Of Dickens Incorporated And Officers Elected

In an election held at Dickens, Saturday, March 10, it was voted to incorporate the City of Dickens. The election carried by a nice majority and at the same time officers were elected.

City officers elected were; Zeke Fowler, Mayor; D. J. Harkey and F. C. Gipson, Commissioners.

Spur C. Of C. Building Has Been Remodel- ed and Redecorated

The Chamber of Commerce building has undergone quite a change in appearance, the partition has been taken out and new offices with fixtures and furniture have been added.

Horace P. Gibson now occupies the entire west half of the front part of the building having moved his insurance office from the Wendell building and also has management of the Credit Production Association, which office adjoins that of his insurance.

These offices are new and very neat and attractive in appearance as well as most conveniently arranged.

D. H. Sandidge, field manager of the seed and feed loan, will be located in a new and conveniently arranged office on the east side rear adjoining the Home Demonstration Agent, Miss Clara Pratts, office.

Mr. Laine, County Agent, will remain in the same location, as formerly, as will D. L. Granberry, Secretary of Chamber of Commerce, Miss Richter, County Health Nurse will occupy the front office adjoining that of Mr. Granberry.

Marrs, resident Engineer of the highway department will be located on the west side rear, adjoining the suite of offices occupied by H. P. Gibson. When all work is completed the entire building will wear a fresh new coat of bright pain in harmonizing colors.

The floors are new and of hardwood nicely finished.

The entire building will bear a most attractive appearance when completed and will be well ventilated and a pleasant place in which to transact business and pay social calls as well.

Each office head extends the public a cordial invitation to pay them a visit.

Miss Lillie McArthur, teacher of Lower Red Mud school, was shopping and visiting in Spur Saturday.

Presbyterian Church Undergoing Redeco- rations and Repairs

Workmen have been busy the past week or two, repairing, painting and redecorating the Presbyterian Church, located on North Burlington Ave.

T. J. Seals has been doing the carpenter work such as building new steps, repairing screens, etc.

Joe Lee, an expert interior decorator has made the inside to look like new with new paper and a fresh coat of paint and lacquer to both interior and outside and the church now presents a very attractive and pleasing appearance.

The Presbyterian congregation is to be commended on setting such a good example.

HONORABLE JOE A. MERRITT WAS IN SPUR LAST THURSDAY

The Honorable Joe A. Merritt, of Snyder, Representative of the 118 Legislative District of Texas and a candidate for re-election was in Spur Thursday of last week greeting friends and acquaintances and incidentally furthering his candidacy for re-election.

Mr. Merritt says his platform consist of only three words, "Honesty in government," that he stands for everything that is right, votes the moral side of every issue and is making his race for re-election on his record of which he is very proud.

MRS. J. H. GRACE AND FAMILY LEAVING SPUR FOR AUSTIN

Mrs. J. H. Grace, who recently went to Austin with a view of locating there, this week she had her house hold goods hauled over by truck and she and Miss Nina are domiciled in a nice cottage in Austin.

The Grace family was one of the early settlers in the new town of Spur, they have in fact grown up with Spur and to the writer and possibly others the family is in reality a part of Spur and with their removal we loose not only one of our pioneer families, but one who has many friends who joins us in real regret to loose them as citizens of Spur.

Ben Holly Opens Sinclair Station Thur

Thursday (today) Ben Holly is opening the filling station across the street from the Spur Creamery.

Mr. Holly will handle Sinclair products, and accessories. He extends the public a cordial invitation to pay him a visit and respectfully solicits a portion of your trade.

Fred C. Haile For Congress 19th District

FRED C. HAILE

The Texas Spur is this week authorized to place Fred C. Haile's name in the announcement column as a candidate for Congress of the new 19th District.

At this time Mr. Haile has formulated no statement as to his candidacy, but authorized the editor to say that he is making the race on his own volition. He does not claim to have a large petition to make the race, but feels that it would be an exceptional honor to serve the new district in Congress the first time. He was born and reared in Dickens county. He has had a varied experience in his life, having been reared on a farm and ranch. He spent a short time in the world war, and served in the navy three years. He took his A. B. degree at Simmons university at Abilene, gave further study in social science in the University of California at Berkeley, California, and feels that he is fitted for the duties of the office. He is paying his own expenses in the campaign and not relying on help from other sources and interests as many candidates for the higher offices do, therefore if elected he will feel under obligations to no one except the people of his district and his hands will be free to think and act as he sees best for his constituents. Mr. Haile said that men who are elected to Congress can accomplish very little without the cooperation of the people and the administration and when this is given them the greater good may and will result. It will be his aim and effort at all times to further the interests of his district, his state and nation regardless of favoritism, and uphold the constitution, safeguarding every interest of the people. If he is elected, he says he wants to go into

McLaughlin Filling Station Burglarized Last Monday Night

Two men from Lubbock entered the McLaughlin Filling Station near McAdoo on the Spur-Lubbock highway 24 Monday night about two o'clock A. M. and looted the place of merchandise, principally groceries valued at \$175.00.

Sheriff W. B. Arthur of Dickens County traced the car to Lubbock where Deputy Sheriff Baxter Honey aided in the arrest of the men who were in bed at a rooming house on North H and where their car was loaded with the merchandise.

Sheriff Arthur returned the merchandise and brought the men to Dickens County to answer to the burglarly charge.

Southwestern Life Ins. Executives Visit Spur

Richard R. Lee, Vice President, of the Southwestern Life Insurance Company of the Dallas office in company with H. L. Skinner, District Supervisor, of Abilene was in Spur Monday looking after business interests in connection with the advertising campaign which they are putting on at this time.

Mr. and Mrs. Charlie Crosby, of Crosbyton, visited friends in Spur Wednesday.

office hands free that he may be in position of effect the greatest good. Naturally, he says, he would like to represent his district and would do all in his power and to the extent of his ability to accomplish the most he can; at the same time he admits that the salary of \$8,500 a year is appealing and when a man says it is not, he is not playing fair with his constituents, especially a poor man. But he expects to earn it by faithful and efficient service. He is not making any glaring promises, and does not expect to turn the world up side down by any great accomplishments, but if elected he will always be on the job and devote his talents to the best interests of the average man, and the people may rely upon him being faithful to the trust reposed in him. He earnestly seeks an investigation of his ability and worthiness to fill the responsible place, and if after a satisfying investigation has been made, if you can conscientiously give him your support he will appreciate it in the highest degree and never shirk when duty calls him in the discharge of the obligations incumbent upon him as representative from one of the greatest states in the union.

The Texas Spur bespeaks for him your earnest consideration of his claims.

The Fair Store Celebrates Its 1st Anniversary

As will be noted by a double page ad in this issue of the paper and big circulars distributed over the country the Fair Store is celebrating its First Anniversary with a big "Anniversary Sale," with Gentry Sales System here in charge of the sale.

Offering to the buying public a store full of choice new, dependable merchandise at attractive prices.

The Fair Store under the management of Geoge Gabriel with Miss Sadie Gabriel as assistant have an established reputation for fair and honest dealings and in the twelve months they have been in Spur have built up a substantial business having some of Dickens, Kent, Crosby and Motley counties most substantial citizens as regular customers and they extend you an invitation to visit them during their celebration.

There were nine members present, one new member, Mrs. Dodson. Our next meeting will be March 22, with Mrs. Ola Miller. This will be an all day meeting, all members are requested to be present, bring some lunch. Foundation patterns will be fitted and sleeve patterns made.—Reporter.

Work Has Begun on Tech Dormitories

Ground has been broken in actual construction work of the two Texas Technological College dormitories which are to cost \$650,000, according to President Bradford Knapp.

The two structures will be built of brick and concrete in the shape of the letter 'E'. The girls' dormitory will have the long side facing north, and will be located slightly south and between the present home economics building and the home management house.

The boys' dormitory will be across the drive, facing the other structure. "It is hoped" Dr. Knapp said, "that they will be ready for occupation by October 1."

Harry - Lovell

Mr. Willie Earl Harry and Miss Lee L. Lovell were united in marriage last Friday evening, March 9, at the court house, the county judge reading the ceremony.

The bride was an upright young lady and the daughter of Mr. and Mrs. W. T. Lovell of the Wichita community.

The groom is an accomplished young man of San Angelo, Texas.

Shortly after the ceremony they left for San Angelo, where they will make their home.

Everyone wishes them lots of luck and happiness.

SAFEWAY STORE MAKES CHANGE IN MANAGEMENT

R. L. Tolbert, of Dallas, arrived in Spur Thursday of last week to assume management of the Safeway store here replacing.

store here replacing Jack Terry who recently resigned to accept a position with a meat company at Oklahoma City as traveling salesman.

Mrs. Tolbert and two sons will join Mr. Tolbert here as soon as they can arrange to do so.

We welcome Mr. and Mrs. Tolbert and sons as citizens to Spur.

Duncan Flat

We are still thankful to report no serious sickness. Some few have suffered with colds.

Mr. and Mrs. D. P. Smiley and family were called to the bedside of Mrs. Smiley's sister in Clovis, New Mexico, Thursday. They returned Sunday reproting the sick woman in a serious condition, but with some hope of recovery. We hope they have good tidings from her soon.

Miss Hulsey spent the week end with homefolks at Dickens.

This week has seen the farmers really busy. The splendid rains that fell some few days back have made good plowing and every field is occupied by at least one tiller of the soil. We only hope the sandstorms that follow will be of less intensity than we have known before, for there will be plenty of loose dirt to sail with all fields plowed up.

The children at school are making quite a bit of preparation for the county meet.

Mr. Joe Rose attended the board meeting of the new consolidated district Saturday. He reported that plans were being rapidly perfected to carry out the merger of the schools in the neighboring communities with this one. Of course, some uncertainty still exists as to how funds are to be raised, but it is believed that whatever difficulty arises along that line can be overcome.

Mr. Rose asked that everyone who might in any way be interested in schools in this community come to the Duncan Flat School house Tuesday night, March 20. At that

time plans for carrying through the consolidation program will be discussed. It is hoped that there will be a large majority of the voters and patrons present.

Lora Law went to Lubbock Monday for a throat operation. She was accompanied by her mother, Mrs. Fred Henry.

DEMONSTRATOR TELLS HOW TO MAKE TILE

"We have 75 feet of tile made and they are making more this afternoon," Mrs. L. A. Grantham, tile demonstrator for the Red Hill home demonstration club reported to her club members Friday afternoon. "We have enough to lay a line in the garden now but we shall finish the tile before laying any."

"We are making the tile from a sand and one part cement with just mixture of four parts clean, sharp enough water to make a 'dry mixture.' The tiles are molded in a form making tile 18 inches long, then immediately turned out on boards to cure. When cured the tile is ready to be laid in ditches twelve to fourteen inches deep so the tiles are well below the plow level. The tile may be put in the ground three or four days after it is made and allowed to cure there. Each line of tile will water about two feet on each side so that the lines are put four feet apart. Each line of tile has a feed pipe above the surface of the ground. The feed pipes may be connected with a central feed pipe or may be used separately."

Mr. and Mrs. J. P. Caudle spent Sunday in Chillicothe with his Grandmother Caudle, who is in a very critical condition and not expected to survive.

Mrs. Addie Sizemore of Croton, was a Spur business visitor Saturday.

WHAT
A. T. & T.
means
to your
telephone
service

The men and women who furnish your telephone service here could not do their job so well without the help of American Telephone and Telegraph Company, parent organization of the Bell System.

If a better way of doing a job gives better telephone service on the Pacific Coast, it may work equally well in the cities and towns of this state.

Staff experts of American Telephone and Telegraph Company, parent company of the Bell System, search constantly for these economies and improvements... test them... study them. The perfected result is offered to aid the 24 Bell operating companies... of which the Southwestern Company is one... give a nation-wide telephone service, uniformly good, at a fair price.

This is a fundamental policy of the Bell System. It is based upon the belief that what is best for the telephone user is in the end the policy that will bring us the surer, more enduring measure of success.

CLEM BARTON MEDFORD

Clem Barton Medford born near Atlantic, Georgia February 5th, 1869 died at the home of his nephew Price Medford, March 6, 1934 age 65 years 1 month and 1 day. His father was a Methodist preacher, Rev. Parker Medford. His father transferred to Texas when he was about five years old and settled in Gonzales County there he grew to manhood.

He was married in his young manhood to Miss May Paddock and two children a girl and a boy. The daughter died about a year ago. His son Parker survives and makes his home in Lawton, Oklahoma.

He has made his home with his nephew for the past eleven years, the last four being in this community.

He was happily converted and united with the Methodist Church at Moran in 1928. Those who are nearest and dearest give sufficient testimony to the sincerity of his religious experience.

Funeral was at McAdoo Methodist Church Wednesday morning A. O. Hood, Pastor officiating assisted by Rev. Jno Isbell, Pastor of Baptist Church.

WEST TEX MINISTER, EDITOR AND EDUCATOR DIED, ABILENE

Dr. J. W. Hunt, widely known educator, founder and president of McMurray College, died at his home in Abilene, Monday evening about 8 o'clock.

Death was a direct result of an apoplectic stroke suffered Saturday evening following a heart involvement of an indefinite period of time.

Funeral services were held from St. Pauls Methodist Church, of which he was a former pastor, Tuesday afternoon at 4 o'clock with Dr. O. P. Clark, pastor and Bishop Hiram A. Boaz, presiding official of the North Texas Methodist Conference officiating.

The body lay in state at McMurray Chapel from 10 o'clock Tuesday morning until time for the funeral.

Dr. James Winford Hunt was of Quaker parentage, born on the Kaw reservation Indian Territory, July 9, 1875.

At the age of 5 he moved with his parents to Estacado, the staked Plains of Texas.

At the age of 17 he went to Denver, Colorado to learn the printers trade, returning to Texas he purchased and published the Texas Press at Estacado, also owned and edited the Leader at Lubbock, and later at Plainview, The Texan Press.

Dr. Hunt was a descendant of Rev. Robert Hunt of England, an Episcopal minister, who came to America with Captain John Smith.

The famous poet, Leigh Hunt and Helen Hunt Jackson were relatives.

He was an ardent supporter of prohibition and engaged actively in the campaign against repeal of the Eighteenth Amendment.

Mrs. Hunt, three sons and two daughters survive.

In the passing of Dr. Hunt the cause of education and the Methodist Church loses one of their most valued supporters.

GIRLS LEARN TO MAKE BEDS

Sheets three yards long are more economical for they wear much longer than shorter ones," Miss Pratt home demonstration agent, told the McAdoo 4-H club girls Tuesday morning when she demonstrated making the bed correctly. "The springs and mattress should have covers that can be laundered often and thus protect the bed from dust and wear."

"Every week the mattress should be turned end for end and top for bottom. The first sheet should be made smooth and straight by tucking under the mattress well at the ends and mitering the corners. The second sheet should be turned back over the blankets at the head to protect them from soiling. The spread may cover the pillows too, tucking under the pillows to give the bolster effect."

To make the bed correctly 25 times is one of the goals of the co-

A New Kind of Farm Relief

MICKEY MOUSE is now working for the farmer.

Just as every comedian is supposed to yearn to play the part of Hamlet, Mickey, it seems, has also wanted to take a more serious role, so now he has enlisted to help stop the foreclosing of farm mortgages, save thousands of cows from becoming pot roast, and incidentally improve the health of American youngsters.

This is not play-acting on Mickey's part, but a really serious effort to help the farmer. Mickey is in a literal sense working for millions of farmers. He is doing this as the leading character in a drive to increase the consumption of fluid, or bottled, milk.

As America's best-known and most-loved actor, Mickey exerts a great influence upon American life. This is especially so with children, who regard Mickey Mouse as a being second only to Santa Claus. To the children, then, Walt Disney's comical little creature is now appealing to help the farmer and themselves by drinking more milk.

It is generally known that once children reach the age of five they drink less milk than when younger. Seeing adults drinking other beverages, youngsters wish to imitate them and in doing so neglect "the most nearly perfect food."

This condition is hoped to remedy with the assistance of Mickey, aided and abetted by Minnie Mouse and Pluto, their dog. Occasionally, the Big Bad Wolf and the Three Little Pigs also lend their assistance, but Mickey and Minnie have the leading roles in the drama.

For the past few months a number of the milk companies of National Dairy, throughout the country, have been distributing to their customers a Mickey Mouse Magazine. Designed to interest children, it contains pictures, stories and puzzles. As a magazine it is somewhat unorthodox, since

Mickey, who apparently is the editor, is also the chief correspondent, and the hero of almost every story. In addition his picture appears at least once on every page. Probably no other editor could give himself as much publicity as Mickey and get away with it. Mickey's ability is such, though, that the magazine's circulation is now well over the half-million mark and steadily growing. A feature that further makes it differ from the usual magazine is that it does not carry any advertising except for mention of the company distributing it.

Mickey and his magazine have a real job ahead. Much more milk than can be consumed is being produced at present. This oversupply of milk has meant that the farmer receives an unsatisfactory average price for all of his product. The highest price is paid him for milk to be sold as fluid, or bottled. When the market cannot absorb sufficient fluid milk, the remainder must be made into butter, cheese and even such things as paint and poker chips. Milk used for such purposes, of course, does not return to the farmer nearly as much as milk sold as fluid.

It is thus Mickey's task to increase the demand for fluid milk to meet the supply, and he is exerting his vast influence to do so. In spite of the prime subject matter of the magazine being milk, the children are intensely interested in it. National Dairy milk companies' executives are reporting that this interest is developing less resistance on the part of children to drinking their daily milk supply. This in itself is a distinct achievement and should shortly be followed by an increased consumption in those homes where the Mickey Mouse Magazine is going regularly.

Within a reasonable length of time this all should mean more milk into bottles and a consequent betterment to the farmers' average price.

IF MAN COULD SEE VICE VERSA GENERALLY

If man could see as clear ahead As he can when he look behind He would not have so many snares to dread Nor so many pitfalls to mind.

If man could see as clear in front As the things that are left in the rear He would not have to bear such a violent lenunt From the opposite sexes so fair.

If man could see the kind of a mate to choose To walk by his side through life It occurs to me more men would use More caution in choosing a wife.

If man could only see just when to stay at home And humor his little wife He many, many times a better man would be And keep down family strife.

I guess its just as well That a man can't see The things that are down lifes road For if he could many more men would be Without a permanent abode.

I don't know that a man ahead ought to see Or future event to tell

For if he could more od bachelors would be With no one to raise Old Billy—Oh well

What difference does it make?

Home Demonstrator Improves Her Yard

"We have moved the fence to enlarge the yard, terraced the yard, set part of the shrubs for the foundation plantings and are ready to plant the grass roots for the lawn," says Mrs. Forest Martin, yard improvement demonstrator in the Peaceful Hill home demonstration club. Already it looks so much better with the yard larger and terraced. We are using native shrubs and vines, with crepe myrtle and brides wreath to add color, following a planting plan drawn for me by the home demonstration agent. We are putting Chinese elms to the sides and back of the house to give a background and frame for the house. The whole family is working on the yard."

When You Discuss Electrical Appliances

What are the most important operations of your home?

Modern homemakers all agree on these!

REFRIGERATION . . . You need constant refrigeration the year round, and you will enjoy the money-saving, health-guarding superiority of electrical refrigeration.

WATER HEATING . . . You need hot water many times each day. The modern electric water heater gives you a surplus of hot water, and for good measure adds safety, cleanliness, health, dependability, comfort and convenience.

COOKERY . . . Nothing so important. This inexpensive "Electric Cook" is worth immediate investigation. Electric cookery is simple—yet accurate, clean and economical.

LAUNDRY . . . Very necessary—but dreaded each week. Enjoy a "happy" washday by installing a combination washer and ironer. Cut washday to a fraction of the time usually required the old way.

THESE WILLING, INEXPENSIVE SERVANTS—the electric range, refrigerator, water heater, and washer and ironer—will improve your home by doing your work better, and save time, health, money and clothes. Don't consider these modern and efficient automatic electrical servants as longed for luxuries! . . . They are all dividend-paying necessities. They pay for themselves. Take advantage of these appliances at our convenient terms and prices—and take advantage of the lower step in electric rates. A representative will be glad to call and discuss them with you.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and operating costs amount to but a few pennies a week?
