

Clarence Brown Is Given Life At Murder Trial

Jury Out 5 Minutes And Follows Recommendation of Attorneys

Clarence Brown plead guilty in a district court at Lubbock Monday for the murder of Sheriff W. B. Arthur and was assessed a life sentence. The trial was brief, lasting only a little more than an hour and a half and the jury spent five minutes deliberation on the case.

Prosecuting attorneys Alton B. Chapman, district attorney of this district, Daniel A. Blair, district attorney of Lubbock district and his assistant, Burton S. Burks in a joint agreement with defense attorneys, recommended a life sentence to the jury. Brown was not considered the "trigger man" or actual murderer in the jail break. Stalkup, Brown's partner in the escape is in the death cell at the State penitentiary awaiting execution.

Spur Boy Writes Letter From Cuba

By Marshall Formby

HAVANA, the city of revolutions and many presidents, is quiet and peaceful as this is being written. Here where only a few weeks ago, bombs burst in the streets, there reigns peace and quiet today. And your correspondent hopes it stays quiet until I get out of town.

Americans are treated nicely here, but only a few are visiting here now. The recent small attempt at revolution scared them all away. Most of the boats quit coming here and now only one boat, the S S Cuba, sails from the southern Florida coast. The boat this writer came over on, the Cuba, was not loaded. Less than 100 rode the big steamer which can carry 1000 or more.

We docked at the Havana port at night. Well lighted Havana is a beautiful sight from the ship after dark. All the passengers were on dock viewing the city. Immigration officers check your boat ticket and look through your luggage. Dozens of hotel representatives are there to take you to their hotel.

Your American dollar is worth the same here. Merchants take your U. S. money and give you change with Cuban money.

A steak costs you 25 to 35 cents. Bread is five cents; so is butter, coffee is five cents, but it's so strong you can't drink it. Everything has a peculiar taste and is not satisfying to your appetite. Even the water doesn't taste right.

The streets are narrow, 12 to 25 feet wide. They are full of American made cars, all makes and classes. There are plenty of policemen to direct the traffic.

The several theatres show American shows, with the words written in Spanish on the films. I saw the "Merry Widow" the other night. Cubans thought it a very good show.

Today I saw a crowd of soldiers and policemen gathered. I eased up close to see if a new revolution had started. It was a funeral for a policeman killed yesterday when his sub-machine gun went off. Eight uniformed soldiers and policemen followed the hearse to the cemetery. They take their funerals seriously here.

President Carlos Mendieta seems to have the government under safe control. He has had a stormy career. From the days President Machado was ousted on Aug. 12, 1933 until Mendieta was made president in Jan. 1934, Cuba had a number of rulers, all unable to stand the demands of the revolutionist. One man, Alberto Rivera, had the honor of being president exactly one hour. President Mendieta is a member of the Nationalist party and will probably be head of the government for a while long make so many revolutions; they er anyway.

Cubans don't know why they are just naturally against those who are in. The present government has from 12,000 to 30,000 soldiers, all ready to get in action, so it'll take quite a little battle to overthrow the government now in power.

HERE AND THERE This is the city where really good cigars are made. Good cigars are cheap and most all cigars down here are good—The market places and many of the stores smell like they are selling something rotten—There's a bar room on every corner and in most hotels—Apartment houses look small, crowded, not very clean, and dark—They're all surrounded by narrow streets—Down one of the streets today I saw a little Cuban boy about four years old walking down the sidewalk with no more clothes on than he was born with—The most peculiar sight is these negroes talking nothing but Spanish. It just doesn't seem right—You can mail a

National Music Week Will Be Observed Here

"Conserve Our Musical Assets," is the slogan which has been taken for National Music Week. May 5th to 11th marks the National observance of this event. It is for the purpose of promoting a greater love and appreciation for the best in music that this observance is inaugurated.

This is the second year Spur has observed National Music Week. The City Federation of Womens clubs of Spur have sponsored the observance of this event this year and a splendid group of programs have been arranged.

National Music Week beginning Sunday May 5th gives the churches the opportunity to open observance of this occasion, and it is to be hoped the churches of Spur will stress their musical services on that day.

The evening programs for music week will be given in the main auditorium of the Methodist church. These programs are free of charge and the people of Spur should take this opportunity to hear the best musical talent of our city.

The program on Monday night, May 6th will be given by the Federated Womens Clubs, on Tuesday night May 7th by the schools and Wednesday night May 8th will be "Church Night". These programs will begin at 8 p. m.

It will add to the observance of National Music Week if the Rotary Club and all organized groups will include "Music" in the programs for the week May 5th to 11th. Give more thought to music—Conserve our Musical Assets."

Bony Scott, of Kalgary, underwent an operation for appendicitis at the Lubbock Sanitarium, Monday and while his condition at that time was considered serious he is reported as getting along nicely.

J. C. Crouch returned from a recent visit to his parents Mr. and Mrs. J. W. Crouch and family of San Antonio, and while in that section he also visited his sister Mrs. Chas. Martin and family of Yoakum; and where Mr. Crouch reports to have seen tomato plants mature and loaded with half grown fruit, and other crops in splendid condition.

Mr. and Mrs. W. W. Garner and daughter Miss Dorothy, and three small sons and her mother, Grandma Peters, are spending the week in Brownwood visiting Mr. and Mrs. W. M. Peters and family.

Carroll Lillard, a student in Hardin Simmons University spent the Easter holidays with his parents, Mr. and Mrs. C. E. Lillard of Dickens.

Mrs. George Gabriel left Monday for an extended visit with her parents at Wenoka, Oklahoma.

Mrs. Sarah English McDonald, of Stamford, art teacher at the Pitchfork Ranch and rural school in that section spent several days last week visiting at the Ranch and having the closing program of the Art school for the present term.

letter from Cuba to Texas for two cents, which is, as you know, a penny cheaper than you can mail a letter in the U. S.—I envy the man I met coming down on the boat. He is starting on a trip around the world. I'd like to go with him. They have dial telephones here—At some of the filling stations here they bring the gas out to your car and pour it in with a funnel—When we sailed into port we came over the place where the battleship Maine was blown up in 1898. That, as you remember, was what started the Spanish-American War—They have 20 and 40 cent money pieces here—A Cuban dime looks like a Cuban penny and I tried to pass a penny for a dime today—By the time you read this I'll be bark under the good old Stars and Stripes, chasing news for the Miami Daily Tribune, provided, of course, I don't get bombed before then.

THE CHURCH

It is the intention of the editor of this column to write several articles on the subject of the Church. Many people are confused as to the true meaning of the Church, hence, through the pages of the Texas Spur, we wish to give a thorough study of the same. This writer has no thought of offending anyone, but merely wants the truth to prevail. Should anyone believe him mistaken he stands ready to defend every statement.

As we discuss the subject under consideration we have reference to it in its general sense and not as a local congregation. When we speak of the church we mean that institution that is in the world today and of which all Christians are members, the one that Christ said, "I will build" (Matt. 16:18) It was God's purpose in the ages to establish a kingdom and place his Son on the throne to reign, for we read the words of the prophet as he says, "The Lord God shall set up a kingdom which shall never be destroyed" (Daniel 2:44) Then in Heb. 1:8 we read, "Thy throne O God is forever and ever." This is a prophesy of God's only Son and has reference to the kingdom that should be his. Then when we read in Matt. 16:18, that Christ is to build his Church we know it has reference to the kingdom that God was to give His Son, for "Church" and Kingdom as used in this connection are indicative of the same idea and means one and the same. This should be clear to all. The question that bothers most people, is, When did Christ establish the Church? Let the Bible answer for us—We know the church was not in existence at the time Christ said, "I will build my Church" For "will build" is in the future tense and denotes that something is to be built in the future. We read in Isa. 2:2-3, "It shall come to pass in the last days, that the mountain of the Lord's house shall be established in the top of the mountains and shall be exalted above the hills, and all nations shall flow into it, and many people shall go and say, Come ye, and let us go up to the mountain of the Lord, to the house of the God of Jacob; and he will teach us of his ways, and we will

walk in his paths; for out of Zion shall go forth the law, and the word of the Lord from Jerusalem." In this we find three things—"the last days"—"all nations"—and "out of Zion shall go forth the law, and the word of the Lord from Jerusalem." When we find this scripture fulfilled we must find these conditions. Was the Church set during the life time of Christ or after his death, and Was it fulfilled in the City of Jerusalem? All Bible students agree that, "The Mountain of the Lord's house" and the Church mean the same thing. Our question is, When was the Church established? Was it set up in the days of John the Baptist? Some people hold to this theory. The Church could not have been set up at that time for the word of the Lord did not go forth from Jerusalem during the life time of John the Baptist? hence, the Church could not have been established at that time. We read in Matt. 3:2 that John the Baptist preached: "Repent ye, for the kingdom of Heaven is at hand" The expression "At Hand" means "near by." The Church had not been set up but was merely near by. Then those people that hold to this theory are unable to prove their contentions, for such a theory is not found in the Word of God. Others believe the Kingdom came into existence at the time Jesus went upon the mountain and was transfigured before his disciples. This is not true for at that time Christ had not died. The death of Christ was necessary for the establishment of the Church. Before His death it would not have availed a person anything to be a member of the Church had it been in existence, for it takes the blood of Christ to take away sins. That Blood was not shed until Christ died, hence, the church could not have been established until after the death of God's Son on the Cross.

CLUB ACTIVITIES

CLUB MEMBER DOES WELL WITH CHICKENS

"We raised 194 chickens from the 198 we received February 6. The temperature of the brooder house was too low the first night or we probably never would have lost any. Common sense, good feed, pure water, and clean quarters mean dollars in the pocket book when growing chickens," says Mrs. J. L. Hagins of the Duck Creek home demonstration club.

"The temperature should be 90 to 95 degrees for the first week; then lower 5 degrees weekly until the temperature is 70 degrees. The brooder house should be kept the same temperature day and night. The thermometer should be on the floor about two and a half feet from the brooder so that you know the temperature where the chicks stay."

"Two-thirds of the floor of our brooder house is covered with hard ware cloth tacked on 1x4's set

edgeways. This makes it easy to keep the house clean. Sharp sand covered the remainder of the floor. The cleaner the house is kept the healthier the chicks will be. The water fountains were washed and scalded every day.

"Our chickens weigh 1 1/4 pounds when six weeks old and 2 1-2 when two months old. Of course they were of good stock for we paid fifteen cents for the chicks. There aren't any culls among the 94 pullets and we are keeping all of them for layers this fall. We have sold the 100 roosters as fryers, except a dozen we kept for our own use, for 40 and 50 cents. The money we received from the sale of the roosters has more than paid for the feed for all of them. The value of the pullets we would not sell them for 75 cents each, is more than double our original investment so we feel that it has been worth the time and work we have given them. After a few weeks laying this fall the pullets should clear their feed bill from now until then and their first cost."

GIRL MAKES SLIP BY HAND

Carolina Ornelas, 13 year old member of the Espuela 4-H club, is not going to let a little thing like the lack of a sewing machine to use keep her from achieving the goals in clothing work. Carolina has completed her collar and slip making both articles by hand. Her stitches are neat and even and the slip is as well made as if it had been stitched on the machine. She plans to start her school dress the last goal in the clothing program, right away so she will have it completed for the club style show. "I made two dresses by hand last summer," she smilingly reported.

Carolina has two brothers and her mother does much of their sewing by hand.

Miss Elizabeth Powell spent the day in Spur Saturday, visiting with friends and shopping.

Mrs. Bell Martin, of Red Mud community was shopping and visiting in the city Saturday.

CLUB MEMBER DOES WELL WITH CHICKENS

"We raised 194 chickens from the 198 we received February 6. The temperature of the brooder house was too low the first night or we probably never would have lost any. Common sense, good feed, pure water, and clean quarters mean dollars in the pocket book when growing chickens," says Mrs. J. L. Hagins of the Duck Creek home demonstration club.

TEXAS, OUR TEXAS

Houston is the largest city in Texas and is noted for its sea port. The Bluebonnet is the Texas flower and "Texas, Our Texas" is the State song. Club members present were Mrs. H. A. McLaurin, Mrs. J. L. Hagins, Mrs. D. G. Simmons, Mrs. E. E. Hagins, Mrs. C. R. Bennett, Mrs. I. S. Clower, Mrs. R. J. Griffin, Mrs. J. Matlock, Mrs. J. L. EDGAR WILLIAM BROWN

Little Bill, as he was known to his friends and relatives became ill in February while his parents were living near Artesia, New Mexico. Everything that medical skill could do was done for him. As a last resort he was brought to Spur to Grandpa Browns. He was immediately placed under a physicians care. Little Bill gradually grew worse, for weeks he suffered untold agonies.

Little Bill was three years of age last September, and was always a cheerful little fellow. Everywhere he went hearts were made glad because of his sunny

disposition. No one knows how we will miss him and yearn for his childish laughter and prattle. Yet God knows best, and we bow submissively to the all-wise Power that called Little Bill to dwell with the Angels.

"We cannot feel that he is far, Since near at need the Angels are And when the sun set gates unbar, Shall we not see him waiting stand All white against the evening star The welcome of his beckoning hand?"
