SPUR, DICKENS COUNTY, TEXAS, THURSDAY, FEBRUARY 3, 1938

NUMBER 314

ERIC OUSLEY IS CANDIDATE FOR COUNTY CLERK

TO THE VOTERS OF DICKENS COUNTY:

After seriously studying the matter and discussing the same with as many of you as possible in all parts of the county, I have decided to ask each and every one of you individually for your vote and influence in the coming primary election for the office of County Clerk of our county.

I am mindful of the fact that the office belongs to you as tax paying individuals and the officer is the employee of the majority of the tax paying voters of the county, and I further realize that the county clerk's office bearing the records of our county dealing with your individual property titles and property rights is one of the most important offices of our county, and I believe I am capable of serving you as custodian of same. I came to Dickens County in 1918 with my parents and have been living among you since, serving you in various capacities. I believe most of you know me, know my personality and my ability, in fact, know my life as it has been lived within your midst.

I am at this time 38 years of age, came to Dickens County 20 years ago, married a Dickens County girl have reared my family, which consists of three boys and one girl. Just a few words to refresh your minds as to my experience dealing with the public and serving my fellow man, I began work as bank clerk at the Spur National Bank at the age of twenty and served as such for 6 years, then became employed by Dr. P. C. Nichols, and worked for him 2 years, decided to go into business for myself and selected the insurance business for my field of work and continued in same in this county and adjoining counties until April, 1937, at that time returned to my old employer, Dr. P. C. Nichols, and have been so employed since.

I believe my experience in serving the public, my experience with books and records and realizing the importance of a written instrument will amply qualify me for county clerk of our county. My life lived among you will speak for itself. It is true that I have not accumulated very much of this world's goods, but I believe my life will bear me out as being honest, trustworthy, and dependable. After thinking the matter over, if you think I am deserving, then I solicit your vote and influence for the job I so desire.

It is my intention to see each of you and personally solicit your vote and influence before the primary election in July, but if for any reason it should not be my privilege and opportunity to see you, please accept this as a personal solicitation for your vote and influence, and if I am elected to said office, this is to assure you that I will appreciate it as much as any one could, and will show you of my appreciation by always being on the job and greeting you with a smile, realizing the office and the records belong to the people and the officer is only custodian of same, and that you will always look upon my administration with pride and never have cause to look at it with regret.

Upon the above principals and personal service, I personally solicit each and every one of your votes in the coming primary election to be held in July.

Respectfully, Eric Ousley.

W. F. Foreman In Race Re-election As Commissioner

In answer to a surplussage of current comment that Walter Foreman would be a candidate for the office of Sheriff and Tax Collector of Dickens County, he paid the Texas Spur a visit Tuesday and gave out his own statement, and to effect that he was entering the race for reelection to the office of Commissioner of Precinct three.

In regard to rumors that he would be in the running for sheriff's place, Mr. Foreman said that he had been solicited by many friends to come out in that capacity, but that he had never considered seeking the place. He says he believes he is well qualified to serve the people as Commissioner, stands on his record as recommendations to the people, and requests that voters consider his name at the July 23rd Primary, when the Democrats gather for hiring help for the coming terms.

BOY SCOUTS LAY CLAIM TO WEEK OF FEBRUARY 6-12; RULE ONE DAY

Though Spring isn't here, Scout-hood is in flower, as is evidenced by elaborate programs being planned for and with local scouts for the week of February 6th to 12th. National activities are thriving, but of course Dickens County eyes center on home scouts and activities.

Full program has been planned here for the boys, with fine support coming in with the sponsoring group of the two troops, and their Masters, Cecil Fox and Blackie Wadzeck.

Sunday is Scout Day in the various churches, the morning hours claiming them as ushers to portray the polite scout nature for associates and elders. Sunday night union services will be held at the Baptist church and all churches will cooperate in presentation of a scout program.

Monday the Scout Parade begins at 4:00 p. m., including High School band and sponsors for the troops, American Legion and Rotary Club members.

Tuesday the scouts will be in school assembly programs, as follows: Junior High, 10:30; High School, 11:15; and East Ward, 1:00. At a signal given by O. C. Thomas

between the hours of 6 and 7 p. m. both troops will assemble at a certain place where special programs will be conducted. Special broadcasts are to be made KFYC announcing the time it took various troops to mobilize. Dr. F. B. Malone, Council President will make a brief address. Following his address President Franklin D. Roosevelt will address the Scout membership of the entire nation over the National hook-up. Special awards are to be given the fastest mobilizing troop in each District and in the entire Council.

Wednesday the Scouts will take charge of civic affairs, elections being held in each of the troops 35 and 36.

Thursday a Father-and-Son Banquet will be held in the basement of the Methodist Church, beginning at 6:30 p. m. The Banquet will be followed by the Court of honor in the auditorium of the church, and for this regal occasion Geo. W. Dupree, of Lubbock, will be chief speaker of the evening. The following five scouts will receive the badge award for their station as Eagle Scouts: Bill Laine, V. C. Smart, Lloyd Barber, Raymond Ince, and Fike Godfrey.

Support Growing For Lunch Room Operation In Spur

With the primary distinction of being the first Lunch Room of its kind instituted in the state, and now seconded with the record support following understanding of its scope and benefits, the Lunch Room of East Ward High School is gaining ground daily in operative methods and expansion, plus popularity among Spur citizenship.

The Lunch Room was created by efforts of the East Ward Parent-Teacher Association, and in its early stage required much labor and sacrifice of time and money from a very small group, but of whole-hearted support has justified the endeavor, as well as lightening the load to some extent of the pioneering few.

Liberal support is given thanks from the group to business men and Spur in general. Merchants, recognizing the merits of the program have furnished much of the food at cost, and Spur Bakery cooperates with reduced bread and pastry prices. Other donations are likewise helping the cause. The Baptist Church is credited with a \$7.50 gift; Church of Christ, \$5.00; Methodist Ladies Missionary Society, \$5.00; 20th Century Club, \$5.00; Hobart Lewis, \$2.00; Mrs. E. J. Cowan, \$1.00. The group will welcome other donations if public enthusiasm means anything.

Miss Evelyn Richter, director of professional and women's projects, spent most of Monday here with the sponsoring group over details of the new project.

Too much praise cannot be given to people of East Ward and Junior High for this noble beginning, and it marks a star for Spur in the crown of state achievement.

First Band Concert Of Year Applauded

Carrying out a well planned program in varying types of music, from the lighter to the more serious, the Spur High School Band, directed by R. E. Fielder, presented its first free public entertainment of the year Tuesday night of this week. East Ward Auditorium was the scene of the well attended affair.

With an efficiency that has continued to climb since many school patrons have heard the work of the band group, the third year musicians have attained a place that marks both student interest and patient training. Enthusiasm is out of bounds since the fine performance.

Promise is given, with hopes from the public, that a once-a-month program will be given by the band, and efforts are being made by the director to please the music loving people here. Following this performance, an increased attendance is predicted for the performances, and a program approaching professional reditions is apparently habitual with the group.

"Martha," an opera number on the program, is pronounced as "unsurpassed in merit" for the young bandsters, and the lighter numbers likewise received favorable comment.

The Fair Store Is Burglarized Sunday Morning

After breaking glass of a display window in the front of the building, The Fair Store, of which Geo. Gabriel is the proprietor, was entered at an early hour Sunday morning and burglarized, losses being estimated at approximately \$118.00 in merchandise.

Local officers went to work on the case immediately, and one arrest has been made, Raymond Fitzpatrick, 19, being taken into custody for questioning Monday after arresting officer, Fitzpatrick justified arrest by a signed statement following apprehension.

Recovered goods include a pair of high-priced boots, an overcoat, two suits of clothes, Stetson hat, suitcase, and several other small articles.

Fitzpatrick is being held in the County Jail at Dickens, and officers report that triple charges growing out of the signed statement include charges for car theft Saturday night about 11:30 from Charlie Lambert, the vehicle being parked near the Spur Inn, and also another burglary charge in connection with entry into the Speer's Variety Store about the middle of last month.

Supposition by Mr. Barber is that the car was abandoned with the belief that it was out of gas, as on recovery he was unable to start the car, though it had sufficient fuel.

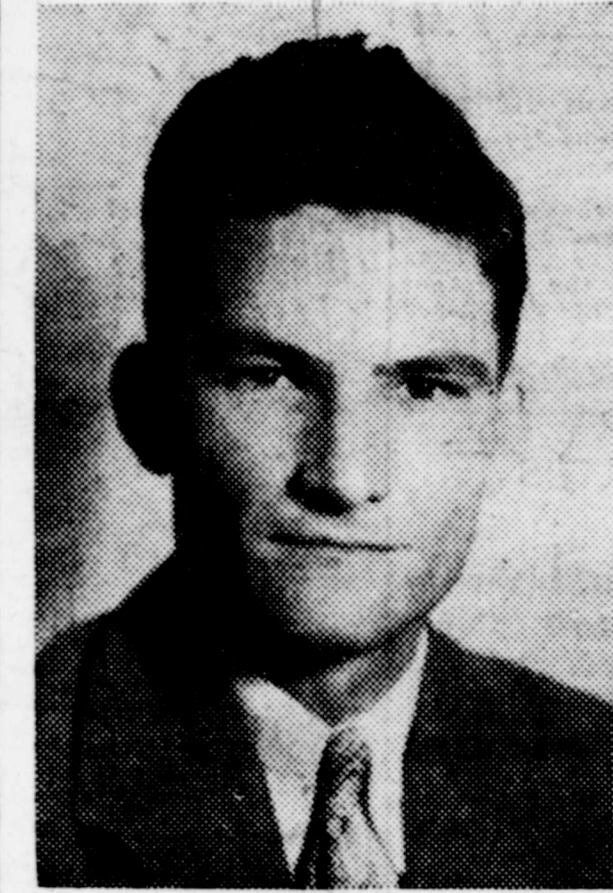

Fitzpatrick's home, it is stated about eight miles northeast of Spur, and it is stated that he is at present under suspended sentence of two years from Durant, Oklahoma. He waived examining trial Tuesday afternoon, and was bound over to action of the Grand Jury. Bonds of \$750.00 in each case have been set, totaling \$2,250.00, and had not been made late last night.

W. A. Johnson In Running For Prec. 3 Commissioner

I am a candidate for County Commissioner from Precinct No. 3 in Dickens County, on the Democratic ticket. I have always voted the Democratic ticket and none other. I live 4 1/2 miles north west of Spur, in the Dry Lake community. Having had experience in road work and building, I feel I would be qualified to serve my Precinct, looking after and maintaining its roads. If elected your commissioner I will faithfully discharge the duties of the office, and will handle your county affairs in a business like and economical manner. It shall be my purpose to treat every citizen with courtesy and consideration, and when you appear before your commissioners court with your business matters you will be made to feel welcome and will be given a respectful hearing. I solicit your vote and influence.

Yours sincerely, W. A. Johnson

For District Attorney

JOHN A. HAMILTON

TO THE PEOPLE OF DICKENS COUNTY:

In announcing my candidacy for the office of District Attorney I wish to say that I am 28 years old, live at Matador, Texas, and am a native of West Texas.

I was appointed to the office of District Attorney by the Governor of Texas last May to finish the unexpired term of Hon. Alton B. Chapman, who was appointed to the office of District Judge to fill the unexpired term of Judge A. J. Folley of Floydada, who was appointed to the Court of Civil Appeals at Amarillo.

I have tried to, and believe I have to a great extent, familiarized myself with the duties of the office, and feel that I am better qualified now to serve the people as District Attorney than I was when I was appointed.

It is usually customary for a person to be elected for a full term to succeed himself when he has been appointed to an office, and I feel that this time honored custom should be accorded me.

As to my qualifications: I graduated from the Law School of the University of Texas, in June, 1934, and was elected County Attorney of Motley County in the same year, and have been regularly engaged in the practice of law ever since my graduation.

There are four counties in this Judicial District, and it will, of course, be impossible for me to personally meet every voter in the District and at the same time perform my duties as District Attorney. I, therefore, wish to take this means of earnestly soliciting the vote and active support of every voter in this district, and to assure you that I will ever strive to make a competent and faithful officer if I am elected.

Yours sincerely, John A. Hamilton

Ward Buys McCelvey Partnership In Funeral Home First Of Week

A deal was consummated in the early part of this week whereby V. H. Ward, co-owner and director of the firm of McCelvey & Ward Funeral Home, became sole owner of the business. W. W. Willard, of Fairfield, Texas, has accepted a position with the firm which will be called the V. H. Ward Funeral Home, and will in the future be identified as a member of the directing personnel.

Mr. McCelvey will go from here to Houston, and it is his probable intention to locate there, though definite plans were not completed on his removal.

Corner Garage Is Sold To Grizzle; Personnel To Remain The Same

Another business transaction of the current week is the sale of the Travis Grizzle. The personnel of the Corner Garage by C. V. Allen to Grizzle has formerly been Travis Grizzle and Virgil Thomas, under Mr. Allen's ownership, and Thomas will continue to be associated with the firm.

For the past month, The Corner Garage has made special prices to car owners here in an attempt to have safe brakes on all cars, and carry advertising on another page, stating that at the request of many who missed getting this special service are continuing these prices through out this month. If your car brakes are deficient, you'll be treated much nicer by these boys than a "Safty Lane Meeting."

HARVEY HINES IN RACE For COUNTY CLERK'S OFFICE

TO THE VOTERS OF DICKENS COUNTY:

I am this week announcing that I am candidate for the office of County Clerk of Dickens County. This is of course, subject to action of the Democratic primaries this summer.

I first came to this county in 1920 and have made my home here permanently for the past 10 years. I am 40 years old, married and the father of two daughters. One daughter is in high school at Spur. For a number of years I farmed on the plains in this county and during the past several months I have been engaged in the wholesale oil business in Spur, serving stations all over the county.

I feel that I am qualified for the office of County Clerk. Much of my life has been spent in dealing with the public. After completion of high school, I took a special business course and feel that I am familiar with the duties that will be required of your next County Clerk.

Four years ago I made the race for County Clerk and am grateful for the large number of votes I received at that time. When I made that race I was little known in this county at the beginning, and I appreciate the help my friends gave me then, and also the encouragement they have already given me this year.

I feel that years ago, George Washington established a Democratic custom that should be followed in the manner of holding office, especially elective county offices. Washington held his office two terms and stepped down and out. The present county clerk defeated me four years ago and I hold no ill feelings toward him or the people who supported him. I have stayed out of the race for four years to give him his two-term tenure of office, however, and I feel that I would like to serve the people in that capacity.

I hope to see personally each and every voter before the July primary and solicit your vote. If I should miss any of you, though, I want to take this means of personally soliciting your vote and influence for the office of County Clerk of Dickens County.

Respectfully submitted, Harvey Hines

F. L. Byars Is Out For Commissioner Of Precinct Two

F. L. Byars, resident farmer and prominent in affairs out in the East Afton district, came in Monday and informed The Texas Spur that he had decided, as we had been previously given understanding that he was being urged by some of his friends, to pitch his hat in the ring as a candidate for the place of Commissioner in Precinct Two.

Referring to his announcement, he makes the statement that "I am a candidate for the Democratic nomination for Commissioner of Precinct Two. If you favor me the position, I will do my best to make you a good Commissioner, under the prevailing conditions.

"Your vote and influence will be appreciated, and I solicit your support in my campaign."

WHEN WILL LITTLE JULIUS GROW UP?

The sacrifice of human lives on our highways seems to grow, rather than diminish, as "safety schooling" is publicized. Only last week-end two men were killed a few miles from Spur, near a neighboring city. This is not transportation's big advancement price—most wrecks could be avoided by careful driving. Precautions would leave unchiseled many headstones.

For two cents Little Julius can be hired to be good for a day—well, for an hour if not for a whole day. The question in mind is, just when is Little Julius going to grow up?

It is interesting to note that many of the large insurance companies have decided he isn't ever—to be a grown man and cease to require hiring for his behavior's sake.

In the past, motorists have paid the same price, based upon the accident experience in the localities where they live and the type of car they drive, for Automobile Bodily Injury and Property Damage Liability Insurance. This has penalized the careful motorists—though he might operate his car year after year without a mishap, his insurance costs him as much as it did the driver who was periodically involved in accidents. Now member companies of the National Bureau have decided to write insurance on entirely new basis.

The new basis is the "safe driver reward plan," which guarantees to automobile policyholders a fifteen percent return of their annual premium provided no claims are brought under policies during the twelve months after the effective date of the plan. The reward will be payable thirty days after the expiration of the policy year through the agent or broker. All private automobiles covered with bodily injury and also property damage insurance by the member companies will be eligible, with the exception of those which are subject to the automobile fleet plan, the experience rating plan, or some other special plan.

It will be highly interesting to watch the effects of this new plan on the accident rate.

FARMERS WOULD LIKELY CONSENT

Now that Congress has a tense moment, it is quite fitting to break the monotony by hunting a manner of diversion. The cotton farmer is much of a problem, they undoubtedly think—but Congress is something of a problem to the cotton farmer as well. Millions of farmers, in Dickens County the averages can be totaled, are wondering if Congress is wondering what farmers are wondering. It is just "maybe."

This breaking of the monotony is the fact that Congress has spied another job. If it will help to get that 2c a pound penalty out of mind, most any farmer would be willing for the whole show, House and Supreme Court not excluded, to trail off to capture the gregale of Malta.

It is proposed that Congress the workings of the Tennessee Valley Authority, with a number of leading senators, of both parties, supporting the proposal. Irregularities in operation is rumored a the charge, along with waste and in efficiency. Since the public pays the bills, it is entitled to know about it—and only 10,600,000 bales of cotton at five or six cents a pound won't stand much waste The South may be forced to sign notes for her share.

Under any circumstances, it will be interesting to see how the senators vote if and when a resolution for investigating the TVA is offered. Congress has already been more than willing to investigate and condemn the private utility industry, and often on the flimsiest pretexts. It has done this, according to pokesmen, in the public interest. Will it be as zealous of the public interest when it comes to disclosing the truth and the whole truth about its own creature, the TVA?

MAKING A 49th STATE—?

Another secession move is up in Texas. Four counties, Cameron, Didalgo, Star and Willacy, would unite to make a state of "South Texas."

To begin with—tax reform, unicarmal body, and simplify governing power. State-controlled liquor stores would be in evidence, track betting, and under its law a divorce could be granted in thirty days.

It's possible that it could mean a new state—but it would appear more like they are trying to nullify the results of the war of 1836.

Jaqan, land of silk, seems reluctant to make reparations to the United States for the Panay life and property losses. Fortunately we have plenty of cotton—as most any farmer can tell you.

IN THE SHADOW OF THE STATE CAPITOL

By BOYCE HOUSE

Hotel lobbies are always interesting—and the Hotel lobbies of Austin are probably the most interesting in the state. Just watch long enough and you'll see nearly everyone whose name gets into Texas papers.

One of the most distinguished-looking figures any time he's in the lobby is Tom King, state auditor. He's six feet, three; weighs around 240 pounds; has classic features and hair that's beginning to gray. A bachelor, he's nearing 40; was born in Tennessee, has a delightful Southern drawl and a sense of humor so refreshing that one wonders how he has preserved the quality—dealing, as he does, with cold statistics.

Equally tall and perhaps equally striking in appearance is W. W. (Bill) Sterling, former adjutant general and famous Ranger. He's slender, wiry, handsome; wears boots and a big white hat in combination with a business suit.

Just about as towering (you have to be tall to stand out in a crowded hotel lobby) is Congressman Lyndon Johnson. The young lawmaker, serving his first term, came back recently to make a speech in favor of improved housing conditions for Austin's less fortunate.

Most beautiful building (not, however, the most massive or magnificent) in the capital city is the Public Library. White and Grecian,

it crowns a hill overlooking the deep, grass-covered bowl of Woodridge Park, where the political rallies are held.

Behind the library are two little courtyards with wrought-iron benches and walls of mosaic from which water gushes into basins, truly poetic spots.

Just west of Woodridge Park is a mansion with white columns and broad porches in the "before the war" tradition. A fort Worthian (remembering last summer's Casa Manana) expects to see Harriet Hector come floating into view and hear Everett Marshall sing "Gone with the Dawn" at any moment.

"Time," the noted magazine, comments that the lieutenant-governorship is a "political graveyard." Come to think of it, no lieutenant-governor of Texas seems ever to have been successful when he attempted to go higher—except, of course, the one who became governor when the chief executive was impeached—though many have tried for promotion. Ralph Yarborough, of Austin, candidate for attorney general, is a student of history and it's a good guess that he chuckles when he recalls that his most-talked-of opponent is the present lieutenant-governor. "Political graveyard"—?

They tell this one on Mark McGee, genial Fort Worth attorney and former adjutant general:

An attorney was boasting to him: "I guess that I and the firm of Blank, Blank and Blank", naming the biggest law firm in the state, had more business last year than any other two groups of lawyers in Texas."

"Fine," Mark is reported to have said. "I had a good year financially myself; I expect that Guy Waggoner and I have more money in the bank than any other two men in the state."

What Think You?

The boys and girls of today ask a lot—not the least of which are "brains" and "personality"—when they go hunting for their ideal in the opposite sex.

That, at least, seems a fair conclusion to The Skiff, Texas Christian University newspaper, after a campus survey.

The boys, in sketching their feminine ideal, sum it up about like this:

"The ideal coed should possess both brains and personality. She should be reasonably good looking, know how to wear clothes attractively, know a bit about the political situation and have a philosophy of life. She should dance well, know how to order a meal, understand sports, and not think it her object. She should know when to have a in life to spend all a man's money, good time and when to be serious."

The girls, in turn, specify for their ideal boy-friend:

"He should know his way around, have personality plus a sense of humor, be clean, considerate and friendly. He need not be handsome but should be definitely masculine and know how to dress well. He should be able to carry on an intelligent conversation as well as dance. Above all, he should not get the idea that he owns a girl just because he takes her out some evening and spends a little money entertaining her!"

Little Spurs

We take note of the fact that a new queen mounts the auxiliary pedestal of the throne of Egypt, the second to be thus stationed since Lady Cleopatra. Gray beards of her day probably prophesied Cleopatra's name would reach a long way.

We have the smartest dog! Ever since little Freddie Fribb passed by leading his mother with a chain our dog has been trying to walk on his hind feet.

Zeeba Snoke's city cousin came out to the farm yesterday, and says while here she intends to gather data on doubletrees for her book on "Southwestern Plant Life."

Slim Streamline was up from his Fishback Ridge home Saturday, and boasted that he made the thirty-five mile drive in 20 minutes. He made it halfway home last night in—well, maybe less than 10 minutes.

Dispelling The Fog

By Charles Michelson

Director of Publicity, Democratic National Committee

I see the poor old Democratic party is on the rocks again.

From various well known newspaper columnist engaged in the customary surveys of the political situation at this phase of the moment, we glean that rifts and dilemmas are confronting the majority party here, there and everywhere, so deep and bitter that the aggregate of these alarming views suggests an antemortem bulletin by doctors from the bedside of the distinguished patient.

It appears that the brilliant young Governor of Kentucky is dallying with the idea of tilting with Senator Alben W. Barkley, the party's majority leader in the upper house, for the Kentucky Senatorship. Now those of us who have something to do with the national organization and are supposed to keep in touch with all party activities thought that this incident was just one of the ordinary political perturbations that always come at this time in a Congressional election year. In fact, I have some difficulty in recalling any similar period during which one or more ambitious Democrat has not indicated his aspiration to take the place of some outstanding member of the House or Senate.

Curiously enough, no suggestion of party shipwreck or other terrific calamity has accompanied these manifestations.

In the ordinary course of events,

when the conventions or the primary in any indicated case has recorded the verdict of the Democrats of that section, the Democratic National Committee has supported the victor and, in nine cases out of ten, the defeated candidate has promptly stepped into the ranks and worked loyally for the election of hte victor.

Just how my fellow columnists are able to figure that because one Democrat is trying to succeed another Democrat in a position of influence and honor it should cause any party embarrassment is rather difficult to understand. Perhaps the answer is that my fellow word-painters and situation surveyors see no sensational headlines in the mere fact of a primary or a convention contest, so they build up these towering structures of deep significance with a ort of pep impulse.

Contests a Healthy Sign
Actually, the circumstances of clashing ambitions is a symptom of health and not of 'disintegration in any successful party. You rarely hear of such conflicts unless nomination is conceded to be a practical guarantee of election. It would be something new to find men striving for the glory of being a loser.

Pretty much the same situation exists in Florida, where a number of turdy Democrats have the idea that it would be a nice thing to sub-

PATTON SPRINGS 4-H CLUB GIRLS MEET

Gardening has become a fascinating subject to 4-H Club girls in the county with a growing popularity of the frame garden. These frame gardens are small protected areas which are being planted to such vegetables that are in constant demand for daily meal planning and that need a certain amount of protection during various seasons. They

are not intended to take the place of the larger garden, but are being used to supplement it.

All of the 4-H club garden demonstrators are biding frame gardens and planting them to green, leafy, and yellow vegetables. The vegetables which are most popular are carrots, English peas, lettuce, spinach and Chinese cabbage.

"I have two rows of English peas and one row of lettuce already planted in my frame garden," remarked Bobbie Randolph, garden demonstrator of the Patton Springs Senior club. "My garden is six by thirteen feet and is covered with a cheap grade of brown domestic cloth."

Other 4-H girls who have frame gardens are: Mildred Neaves of the

Espuela club; Eloise Sharp of the Dickens 4-H club; Leota Joplin and Edrie Henderson of the McAdoo club and Mary Helen Draper of the Dry Lake club.

Working plans and specifications for the house illustrated here can be obtained through the local lumber dealers from the National Plan Service, Inc., at 1315 West Congress Street, Chicago, Illinois. The design is No. 1027-C.

Attractive And Efficient!

Here's a big little house! Spacious, attractive, but without an inch of waste space, the interior offers all of the advantages of a home many times the size of this little place. The front entrance opens directly into the large living room, which contains a natural fireplace, French doors leading to the private porch (which might be enclosed to form an extra Room), and doors leading to the rest of the house.

A short hallway separates the two bedrooms and bath from the living room, and at the other side of the house the dinette boasts built-in china cabinet and an attractive bay conveniently planned to provide the window. The kitchen is small and work tables, cupboards, refrigerator and range and sink. A grade entrance at the rear gives access to the basement and kitchen. Both of the bedrooms have cross ventilation, as has the living room.

Adequate closet space is provided in each of the bedrooms, the living room and the hall. Hall space, ordinarily wasted in a small house, is here cut to minimum, although for the purposes of privacy and quiet the bedrooms are carefully separated from the living rooms, an advantage usually associated only with houses having more than one floor.

The plan lends itself equally well to either of the two elevations illustrated. Whether the English or the colonial exterior is selected, the stock millwork and fixtures can be selected to harmonize perfectly with the architecture. Special attention should be paid to the handling of the roof line, the attractive porch and the deep embrasure at the front entrance.

Outside dimensions of the main building are 27 by 30 feet. Ceiling heights throughout the house are 8 feet and 4 inches, and the total cubage (from which the local building costs can be estimated) is 14,000 cubic feet.

A variety of exterior finishes may be used on a home of this type. While it is shown in shingles and wide siding, brick or stone veneer or stucco would prove equally as attractive and in keeping with the architectural style. The first cost of some of these latter finishes might prove somewhat higher, although the upkeep would probably be less.

Planting should be carefully considered to retain the low lines that make the elevation of this house so attractive. With the exception of one or two spots, horizontal lines should be emphasized in the landscaping.

MRS. HILL PERRY RETURNED FROM VISIT WITH SON

Mrs. Hill Perry returned to her home in Spur last week from an extended visit with her son, Jimmie, who is making his home in Los Angeles, California. She was accompanied on the trip by her sister and nephew, Mrs. J. L. Emerson and John L. Jr., of Hobbs, New Mexico.

Mrs. Perry reports that Jimmie, who has been in California the past two years is making splendid progress in his chosen work of designing. He is at present associated with a leading firm of designers and interior decorators and his original designs have received considerable commendation, several of which have been accepted by the most discriminating in taste, thereby netting his firm very nice profits.

HOLLYWOOD ROUNDUP

"Hollywood Roundup" starring Buck ones under the Columbia banner is an unusual Western drama in that it is an interesting, thrilling story of Hollywood and a Hollywood cowboy actor. Coming to the Palace Theatre Saturday, it gives Butch and his almost equally noted horse, Silver, refreshing new opportunities to entertain both adults and youngsters. Helen Twelvetrees, Grant Withers and Shemp Howard play important supporting roles.

J. A. KERLEY LOSES A PAIR OF PORKERS

Saturday of two weeks ago, J. A. Kerley, of the Red Hill community was in town to purchase supplies from Spur merchants and shaking hands with friends, and while here bargained for two small black pigs—which he had already pictured as filling lard cans and weighting down the meat box this year-end.

Having a barrel of water in the wagon, which he is forced to haul on account of a dry tank, his view of the pig crate in the rear of the wagon was cut out. However, he saw the porkers immediately after they escaped, but they were too fleet-footed for him. Now he is getting anxious about the swine, and says "Catch 'em, boys, and claim the reward!" They escaped near the Duck Creek bridge, and have been seen around there since getting loose.

MEN... if You Promised a Penthouse, stay out of the Doghouse by giving her Electric Cookery

Men, if your wife had illusions of grandeur when she married you . . . worshipped you as a super-man . . . then remember this: *A disillusioned feminine heart is more to be feared than a woman scorned!*

If she expected a penthouse, you're apt to land in the doghouse . . . unless . . .

All-electric houses no longer are illusions. And they're grand! Penthouses, of course, are rare in West Texas. Instead, we have electrified homes. They're better. And, fortunately, any home has all the grandeur of a penthouse if equipped with the right kind of servants . . . Electric Servants. Electric cookery, refrigeration, dishwashing, water heating, sweeping, entertainment, food mixing, coffee making, sun tanning and clothes washing—all make every home equal to the luxurious penthouse . . . a feminine dream born of fiction and suppressed desires. So, men, don't disillusion your wife by condemning her to another year, midst hated kitchen drudgery.

WOMEN... Why Wait Until 1960 to Cook Without a Fire?

It was recently predicted that "cold" or "magnetic" heat would be practical for general cooking purposes about 1960. It was demonstrated how an egg can be fried without fire by using high frequency current magnetically transferred to the skillet from an electric coil. That is "cold" or "magnetic" heat.

And that, ladies, is merely another form of *Electric Cookery*, which today is practical and available in every home already having the many other advantages of Electric Service!

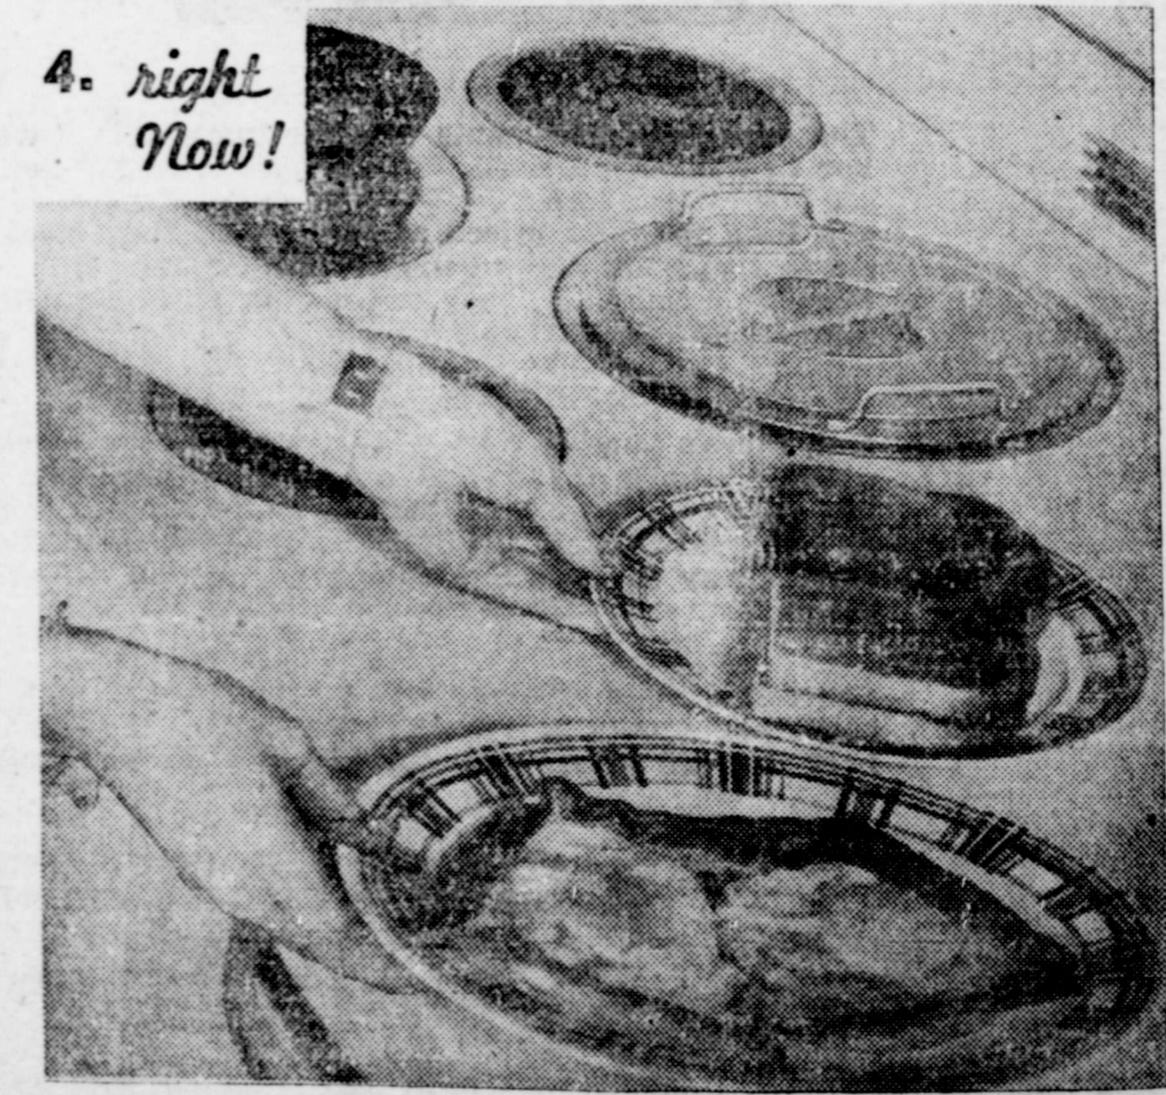

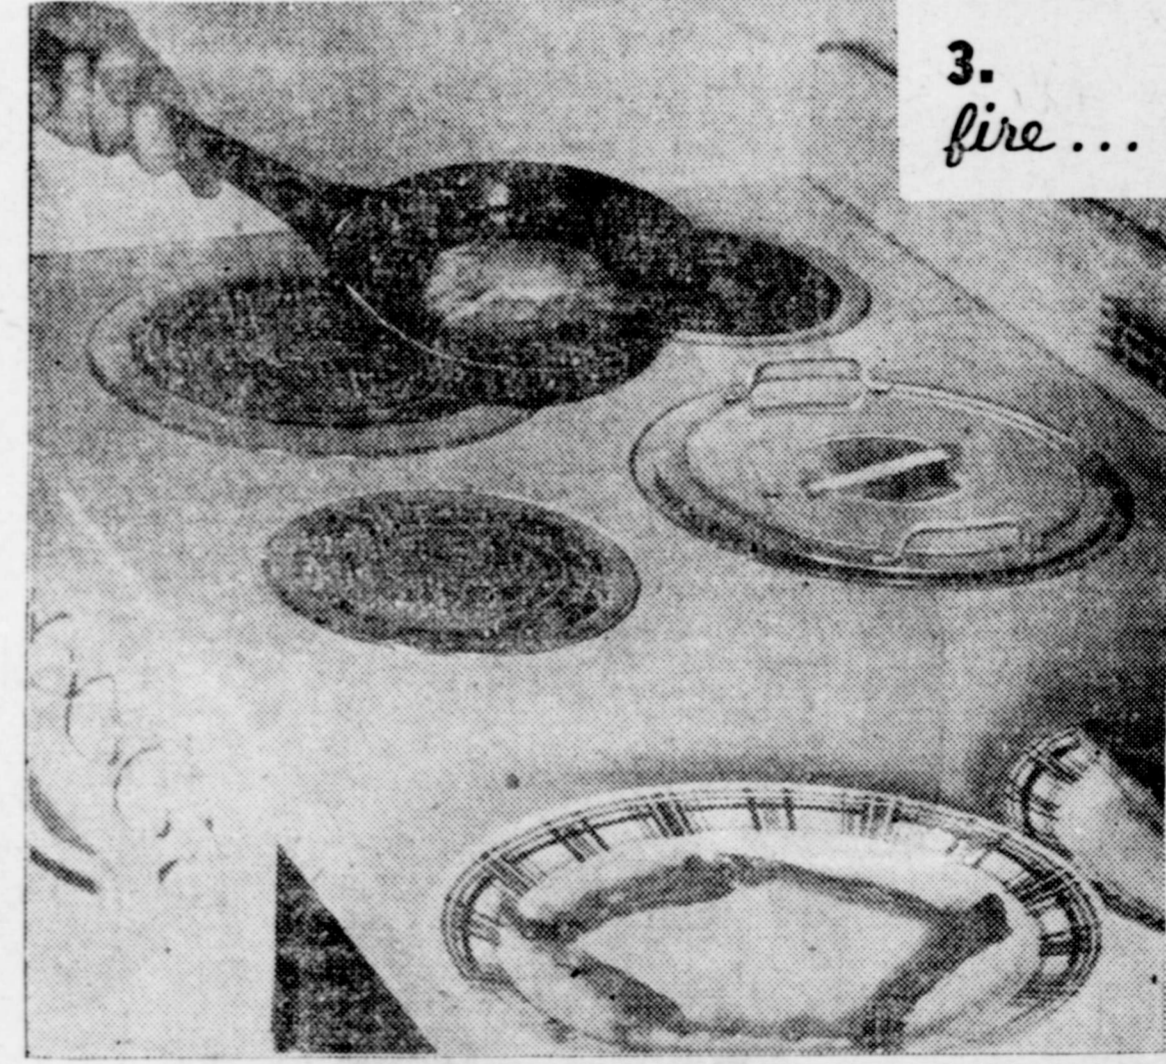

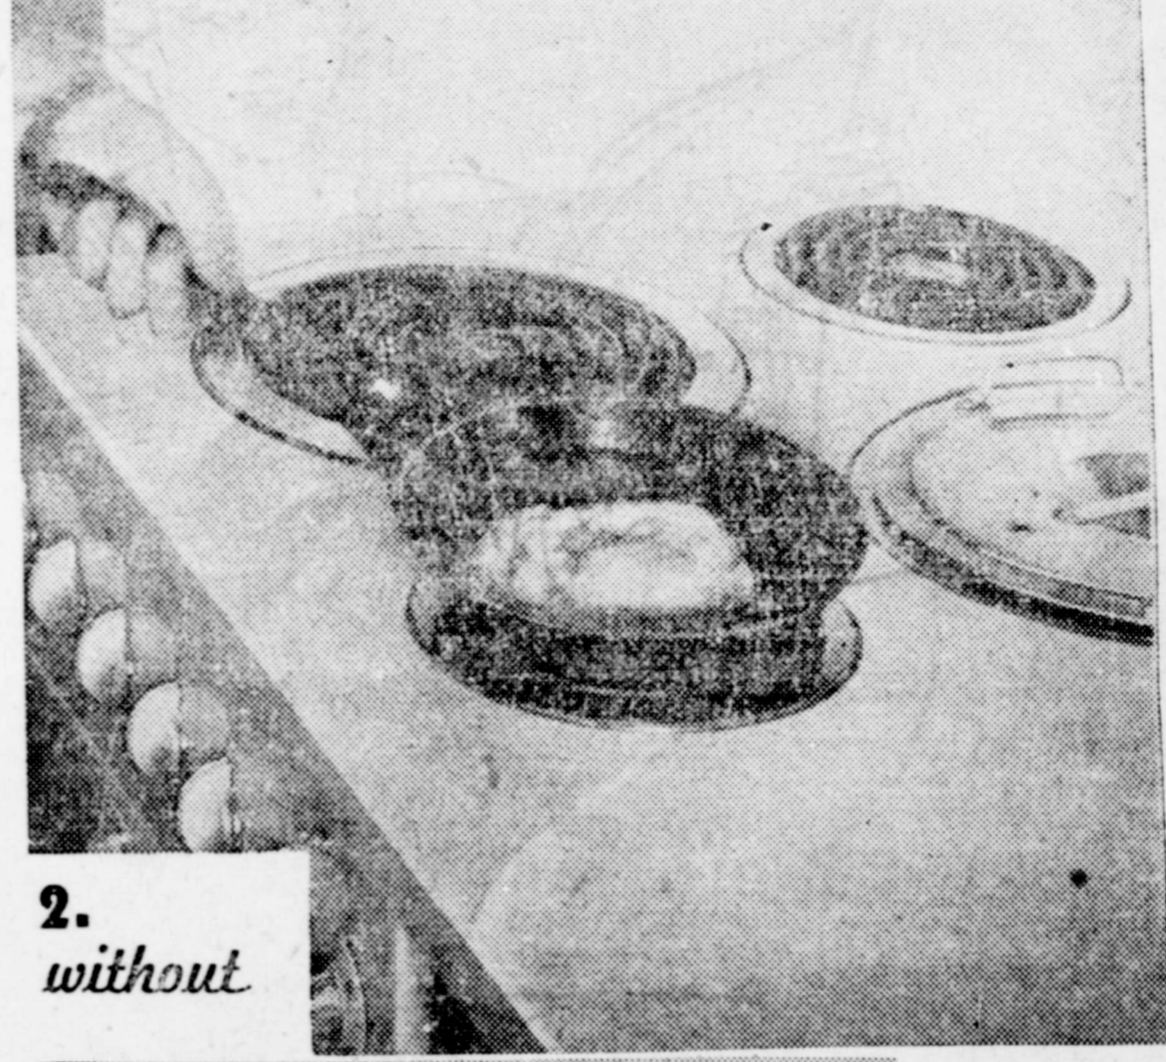

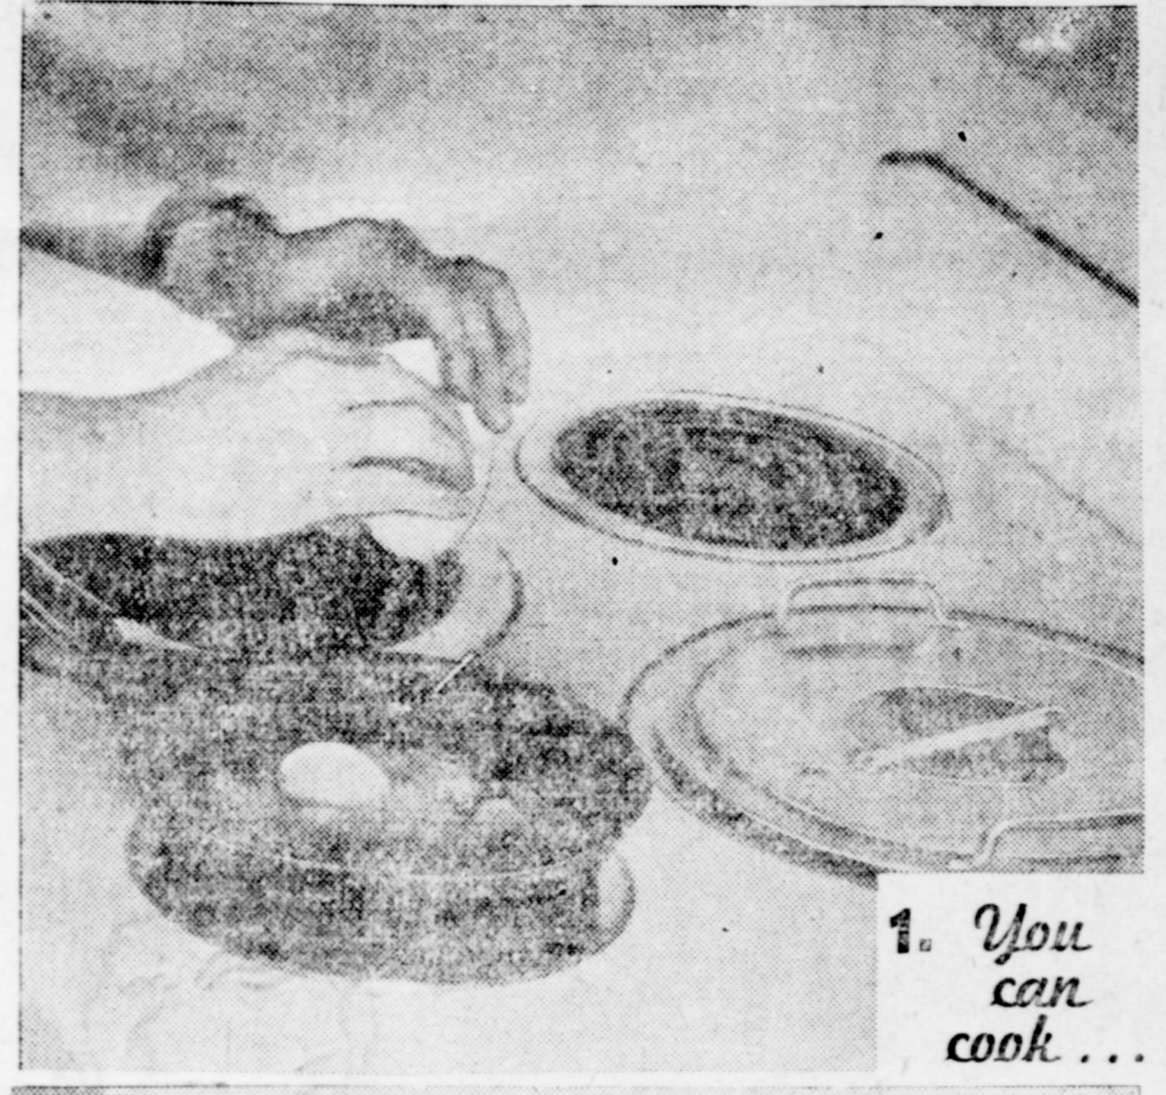

CALROD is the name of Hotpoint's patented metal-sealed flat-top cooking coil that has revolutionized electric cookery. It has brought new speed, new cleanliness, new economy and longer life to electric ranges.

In the Pictures: With an electric range, a bacon-egg-toast-coffee breakfast can be prepared in less than 10 minutes. Fix bacon and toast in oven while eggs fry and coffee percolates. Electric fuel for this type of breakfast costs less than three cigarettes.

1. You have five cooking speeds in 1938 models. Use *super speed* to heat skillet. 2. Turn switch to *ball speed* for trying . . . or for fast boiling. 3. A second egg may be fried with switch turned to *quarter speed* . . . an ideal heat for steaming fresh vegetables. 4. A delicious breakfast without smoke or fumes in kitchen or dining room! For other meals, you have two other *low speeds* for economical cooking of foods.

Out-of-Towners Mingle With The Locals At Gala President's Ball

Probably one of the most successful balls honoring the President's birth anniversary, from the financial standpoint as well as the merry-time content, was staged Saturday night at the Spur Inn that has been sponsored in this area since inauguration of the annual benefit.

Many out-of-town people were in attendance, and a genuine spirit of fellowship and well-wishing for a good cause prevailed throughout the evening. A large number of town's-people brought the number in attendance far above all former balls given for the benefit of sufferers of infantile paralysis over the nation—and even to build funds for other charitable uses both locally and territorially.

Schipt for the benefit was \$1.50, and the sum of \$134.00 was realized for the evening, two-thirds of the total remaining in the hands of local committees for use in Dickens County as a fund for welfare work.

Guy Carr is chairman of the local committee, and is to be congratulated with the committee body in bringing about the high interest shown by local people, as well as drawing patronage from farther afield.

The woman who BUYS!

You'll meet her every week in the pages of the Texas Spur

The successful merchants of Spur know this woman! They see her in the morning with a food basket under her arm . . . they see her coming in on her lunch hour for three pair of full-fashioned silk hose specially priced at \$1.60 . . . they meet her in the afternoon trying on Chanel model dresses from which price tags have been removed . . . they see her on Saturday afternoons shopping for furniture with her husband!

But, there's another part of this woman they rarely see! That's the woman in back of the woman who buys! She's one of the many who buy year after year The Texas Spur for keeping tab on What's What on the local Bargain Counter! She's the woman who has learned the correct way to shop. She does her shopping before ever spending a Penny.

Successful Spur merchants value this woman as their customer . . . that's one reason why they're successful. Would YOU like to meet her? We can arrange an introduction for you immediately.

In commenting on the cotton situation in Dickens Monday of this week, the County Agent's department gave representatives of the Texas Spur information which, with reference to placing signatures on worksheets, amounts figuratively to the tooling of a curfew in Washington quarters for farmers who have not as yet come in for subsidy-payment requirements.

The Capitol information, forwarded to Dickens County farmers through the County office, in substance states that all farmers who have not signed 1937 worksheets must do so immediately in order to set up base production figures for subsidy payment, and also in compliance with the 1938 Crop Goals. The matter should be taken up with the nearest, or the local community committeeman, or else taken directly to the county office.

Viewing the matter from a financial standpoint, farmers will materially benefit by being prompt in classifying in harmony with the rules. Detailing the information, the county department shows approximately 24,000 bales to be the base production figures, and further points out that 65 percent of this volume, or about 16,700 bales, will come in for this 3c subsidy payment. Eligible poundage for the county would entitle agriculturalists to approximately \$250,000.

PROSPECTS FOR DAIRYING
The nation's dairy farmers, according to a survey published by the Dairymen's League News, are looking forward to 1938 with a spirit of optimism that is mixed with uncertainty.

The principal disturbing factor is, of course, the general business situation. The encouraging factor, according to most of the experts whose opinions the News sums up, is the increasing enthusiasm farmers are showing for cooperative marketing. In the dairy industry, the marketing co-ops have made especially notable strides. They have been on the firing line in many disputes, and have represented the farmer ably and honestly. They have been an undeviating influence for fair, profitable prices, progressive and economical production methods, and more stable markets. It is a safe forecast that in 1938 their service to farmer and consumer alike will be even greater than in the past.

National Director For Chevrolet Gives Some Pointers On Driving In Winter

Tires play a greater part than is generally recognized in promoting the safety and satisfaction of winter driving. For upon their condition, to a considerable extent, depends the driver's ability to come to a straight, sure stop when there is ice or snow on the streets.

Safety in driving, at any season, is mainly a matter of control. The prime requirement is the ability to stop in the clear space ahead. When a car slides or skids, it is out of control, and the prevention of sliding and skidding involves the tires, as well as the brakes, which have already been discussed in a previous article.

The only safe way to stop is to apply the brakes in such a way that the wheels continue turning at a steadily-decreasing rate until the stop is accomplished. There must be no slippage between them and the ground, for the moment that occurs the car is out of control. On a dry pavement, control is easily regained; but on snow or ice, the safest procedure is to avoid losing it at all. And tires with good tread are a major factor here, for they retain a firm grip on the road and resist the tendency to slide.

When the streets are a glare of ice, it is sometimes expedient to let a little air out of the tires for the sake of the better traction obtained by increasing the tire area in contact with the ground. But the tires should be re-inflated as the emergency has passed, because the constant over flexing of the sidewalls, which occurs when they are under-inflated, will shorten the life of the casings.

Amusement Zone Of New York Fair Biggest in History

NEW YORK (Special)—An amusement zone designed to accommodate at one time the entire population of cities the size of Akron, Atlanta, Birmingham, Dallas, Denver or St. Paul will greet the millions of visitors to the New York World's Fair 1939. Grover A. Whalen, president of the Fair corporation, announces.

By far the largest entertainment structure ever constructed, it will contain enough shows, devices, restaurants, villages, shaded rest spots, secondary streets and plazas to handle more than 250,000 fun-seekers.

One huge theater-restaurant alone will have seats for 5,000. Another music auditorium will seat 2,500. An amphitheater to contain huge crowds will be built by the state of New York at a cost of \$1,600,000; erected at the head of one of the lakes it will be the scene of operas, aquatic exhibitions, pageants and other extravaganzas.

The visitor to the Fair will walk about two miles merely to pass through the amusement section which will be laid out in the form of an oval loop with no "dead end" streets.

The 200-acre tract will be divided into at least thirteen villages or zones and every concession will conform in design and atmosphere to the particular zone in which it is located.

An example will be the "Little Old New York" village, where the theater will be a replica of the famous old Park theater, the principal cafe will duplicate Steve Brodie's saloon and the attendants will dress in character. All architecture will be attuned to that picturesque period. Admission to the zones will be free.

WATER WORKS MANUAL BEING RELEASED BY HEALTH DEPT

Announcement was made this week of the printing of the Manual of the Texas Water Works Short School, to serve as a guide for water work personnel over the State. Twenty authorities in the Texas waterworks field are contributing authors of chapters on specialized fields in water work. The Manual, now in the hands of printer, will be released shortly as the first in Texas of its type.

Printing of the Manual is the latest in a series of steps taken by the Texas Water Works Association to raise the standard of quality of water supplies over the state. For some years the Association has sponsored a school each year to give its members the benefit of new finding in the field.

WPA EXPENDITURE FIGURE REACHES \$7,829,902 IN 1937

SAN ANTONIO, Jan. 15—Materials, supplies and equipment for use on Works Progress Administration projects in Texas were purchased at a total cost of \$7,829,902 during the calendar year 1937, it was disclosed today by Stearns S. Tucker, deputy state administrator.

Purchases of textiles for use in WPA sewing rooms, cement to be used in construction work, and lumber products were items upon which the largest amounts of money was spent.

Mr. Twaddell is reported as very much improved and convalescing rapidly.

More Than 200,000 Texas Farm People Work With County Agricultural And Home Demonstration Agents In 1937

More than 200,000 Texas farm people carried on work in cooperation with county agricultural and home demonstration agents during 1937, according to Miss Mildred Horton and Jack Shelton, state agents and vice-directors of the Extension Service of A. & M. College. Figures from the annual reports of field agents, new being compiled at headquarters of the Extension Service, show that 214,639 Texas farm people carried demonstrations under the direction and supervision of Extension workers. Home demonstration agents worked with 7,805 demonstrators and 60,330 cooperators during the year, Miss Horton said. The most popular demonstrations had to do with home improvement, and 2,273 farm women and 4-H club girls established demonstrations, while all other wo-

men and girls in home demonstration clubs effected some improvements. There were 1,946 home food supply and 558 yard improvement demonstrations, and again each club member carried on certain parts of the demonstration.

County agricultural and home demonstration agents carried on together 217 whole farm demonstrations. This new type of work, which includes the activities of the entire farm and all phases of the home, was inaugurated in 1937.

Various phases of agricultural engineering, including terracing and trench silos, accounted for 8,401 demonstrations, Shelton said. Emphasis on the improvement in quality of cotton resulted in the establishment of 8,803 demonstrations in this field.

Miss Horton and Shelton pointed out that these figures as applied to demonstrators and cooperators included only demonstrations on which complete records were kept. Figures on the total number of farm Service will be available when tabulation on annual reports is completed, they said.

Tenant-Owner Relations Is Aegis Big FSA Drive

A new drive is being launched to improve relationships between landowners and those tenants who are being financed by the Farm Security Administration (formerly Resettlement), it was stated by Allen A. McKimmey, county supervisor.

Recommendations of a committee of supervisors are now being printed for guidance of all county officers in Texas and Oklahoma. The 45,000 farm tenant families in these two states who are being financed by Farm Security can blaze a trail for the remainder of the 147,000 Texas and Oklahoma tenant families, the supervisor said.

The committee report recommends that leases be prepared at a conference between landlord, tenant, and county supervisor. The lease should always be in writing, it was suggested, because "distrust frequently exists, and because of the human element of forgetfulness as to what agreements have been made." A long-time lease was recommended, in place of the one-year lease now commonly used. Cancellation clauses were suggested, for use by either party, for reasonable cause, at least ninety days before expiration of any lease year. "Where it is absolutely impossible to obtain long-time leases, we feel that one-year leases should be automatically given notice sixty to ninety days before expiration", the committee said.

Each Farm Security borrower is working under a long-time plan, and it was recommended that the lease encourage him to make improvements which will aid in carrying out that plan. Improvements which he makes should be considered the property of the tenant, and he should either be allowed to remove them at expiration of the lease, the report said, or an understanding should be included in the lease as to how the tenant should be compensated.

Present division of crops, on the "third and fourth" basis, was declared inequitable. "On good land it is usually to the disadvantage of the landlord, and on poor land, to the disadvantage of the tenant", the report declared, urging that "a fairer distribution should be made, based upon the respective contributions of the landlord and tenant". However, the committee condemned the "bonus" or "privilege rent", now being used in many counties of Texas and Oklahoma. It recommended that payment for special privileges be made in labor. It was also recommended that county Farm Debt Adjustment Committees act as conciliation boards, to settle landlord-tenant differences.

PRESBYTERIAN CHURCH

There will be Sunday school at ten o'clock in the morning, Sunday, February 6th.

This is the only service of the day in the Presbyterian Church due to the pastor's benign in Conway, Arkansas on that day.

Presbyterians are urged to attend the Union Service which is to be held in the Baptist Church in honor of National Boy Scout Week. This service will be at seven-thirty in the evening, Sunday February 6th.

The regular mid-week Prayer Service will be held at seven-forty-five on Wednesday, February 9th.

HERE'S A JOB FOR EUGENE SUE'S WANDERING JEW

"Wheels" weekly organ of the Amarillo Rotary Club, gives some figures-*ni-fact* for your own calculation, if by chance it is not satisfactory as your mathematics go.

There are more than 4,450 Rotary clubs today located in 82 countries or geographical regions throughout the world with approximately 188,000 members. While this number may not seem so large at first thought, if one were to consider paying a visit to each club and it were possible for him to reach five clubs each week, it would take him a total of more than seventeen years to complete his visitation to all clubs.

New clubs are being formed at the rate of one a day. With the formation of each new club another wheel becomes a part of the great Rotary organization which has as one of its basic objects the advancement of understanding and goodwill.

Spur Pioneer Woman Dies

Mrs. Mary Swearingen, a pioneer citizen of this section died at the home of her daughter, Ida, in Stamford at an early hour Sunday morning.

The body was brought over-land in the Kinney Funeral Home ambulance to Dickens, Monday morning where funeral services were held at 3:30 o'clock in the afternoon.

Her pastor from Stamford, Rev. O'Brien, assisted by the local Methodist pastor, Rev. Kitchen and Rev. Bilberry, a pioneer neighbor and a friend of long standing to the family, conducted the funeral services.

Pall bearers were M. L. ones, Fred Arrington, Frank Spear, Forest Edwards, E. S. Thompson and Lee Payne.

The flower bearers were pioneer neighbors and friends.

Mr. and Mrs. T. C. Sandlin and children were shopping with Spur's progressive merchants and visiting with other Saturday shoppers.

BOOKS

BOOKS JUST ADDED TO THE CITY LIBRARY

BIRDS OF AMERICA, prepared under the auspices of the University Society.

"The most beautifully illustrated and competently written book on the subject of the birds of this country ever published. Every picture and every word of text is the work of a recognized authority. Designed both for study and for leisure reading, its gorgeous color-plates are particularly attractive to young readers and help make this not only the most lovely and complete book on the subject but also the one of the most universal appeal."

THE BOOK OF OLD SHIPS, by Henry B. Culver and Gordon Grant.

"This book, first published in a limited and highly-priced edition several years ago, has already achieved extraordinary fame among all lovers of sailing ships. The early customs and superstitions of sea faring folk, strange fragmentary records of lost ships, and curious details of life on the roiling waters of many seas are added to the mass of informative material that makes this the comprehensive and fascinating record it is."

MEXICAN INTERLUDE, by Joseph Henry Jackson.

Josephus Daniels, U. S. Ambassador to Mexico says, "Mexican Interlude" has none of the guidebook dullness but is illumined by descriptions of people and scenery and by the human touch. Mr. Jackson must have pleasure in his story. Certainly he has written a delightful book."

CHILDREN'S READING, by Terman and Lima.

The book is divided into two parts; the first covering the wide field of "The Reading Interests of Children"; the second gives "Suggestions for Children's Reading."

YOU CAN'T HAVE EVERYTHING, by Kathleen Norris.

"In this book Kathleen Norris again reveals her unerring genius in the portrayal of those perplexing problems which so frequently enter into marriage."

THE PRISONER OF ZENDA, by Anthony Hope.

"This thrilling romance—a glorious tale of swift action and stirring love—is one of the most popular of modern stories, a personal favorite whose appeal never diminishes."

NEVADA, by Zane Grey.

"This story of 'Nevada's' fight to regain honor and happiness is one of Zane Grey's finest stories."

FRIENDSHIP CLUB MET

The modern kitchen must have adequate ventilation and light, easily cleaned surfaces and plenty of storage space. Also running water, said Miss Jean Day, Home Demonstration Agent in a meeting with the Friendship Club Wednesday. The correct diet to feed invalids and precautions to take to prevent colds were other things discussed in a meeting at the home of Mrs. C. L. Smith.

Refreshments of fruit cake and spiced tea were served to the following: Mesdames Noble Hunsucker, Walter Grist, Buddy Allen, Nola Wooley, O. L. Holmes, A. G. Fox, C. Gollihar, C. Fox, I. H. Moore, George Archer, Pete Allen of McAdoo, Mrs. Conley of Los Angeles, California and Jean Day.

The next meeting will be February 8, at the home of Mrs. Noble Hunsucker. Officers will be elected at this meeting.

BROWN-HOLLY

Miss Billie Brown, daughter of Mr. and Mrs. Ivy Brown of five miles west of McAdoo, was united in marriage to Elvis T. Holly, eldest son of Harvey Holly of Spur Saturday night at the home of Mr. and Mrs. Fred Kinney, Rev. G. A. Dunn, Jr. read the marriage service. Miss Mildred Collier, Mr. and Mrs. Fred Kinney, and Mr. and Mrs. Harvey Holly were witnesses. The young couple left at once for Lubbock and Seagraves where they visited relatives.

Miss Billie was a popular student and graduate of the McAdoo school and has been employed for some time in the office of Dr. Bob Alexander.

Elvis is a graduate of the Spur Schools, and is now employed at Sanders and Chastain Pharmacy.

Both young people have a host of friends here and the Texas Spur joins in extending congratulations.

The Vanity Case

YOUR BEAUTY BOX

My, but this is a grand world for a woman to live in. Hair dressers are becoming so varied that there's a becoming one for every face: fat or thin, young or old.

Time, money and labor are expended upon the care and glorification of the feminine topknot, and never was there a better investment. Coiffures have attained a high standard of chic, charm and becomingness, and every little girl has one all her own.

To keep the hair in form, have it beautifully dressed. There should be three permanent waves a year. Every ten days or two weeks the shampoo and fingerwave are on the beauty calendar. Then the cheapest and most important of all is the home work, which calls for a scalp friction every night and putting the fingerwave to bed in a little cap so it will last a little longer.

Fitting the hat to the hairdress is every woman's job. The hat is the most important detail of dress, the right one can make a girl look topping; the wrong one turn her into a caricature.

HOUSEHOLD HINTS

To remove iodine stains from clothes or linen, rinse in cold water and hang out to dry. Repeat if necessary.

Paste a paper plate on the bottom of a paint can to protect against dripping and to provide a place for the wet brush.

Cheese can be kept fresh if wrapped in a cloth soaked with vinegar.

To remove a scratch on your furniture, moisten with iodine, then rub with furniture polish.

Mattresses should be turned frequently to insure even wear.

MIND YOUR MANNERS

What would you do if you had filled a tray at a crowded cafeteria and could find a place only at a table where someone else is already eating?

(a) Quietly seat yourself at his table?

(b) Say "Do you mind if I sit at this table?"

(c) Say "well, I guess there's no place else to sit."

Answer: No.

Beware of the hurry habit. An excited manner breathless words and an air of impatience don't indicate efficiency, but simply that you manage your time badly. More can be accomplished in ten minutes of sober consideration than in half an hour of frantic fussing.

DRY LAKE 4-H CLUB GIRLS MEET

"In order to have a table supply of leafy, green, and yellow vegetables the year round, I have built a frame garden which will protect the vegetables during the cold, the spring winds, and the summer heat," Mary Helen Draper, Garden Demonstrator for the Dry Lake 4-H club, told her cooperators at the planting demonstration.

"My little frame garden is six by twelve feet, and the frame is made of scrap lumber and the cover over the top is of gunny sacks. Before I built the frame, I spaded the ground about twelve inches deep and fertilized it, and then watered the garden well before planting."

Mary Helen, assisted by her cooperators, planted English peas, lettuce, radishes, and onions in rows only nine inches apart. The cover of gunny sacks will be kept over the garden to protect it from winds and dust.

Dispelling The Fog

By Charles Michelson

Director of Publicity, Democratic National Committee

stitute themselves—or one of themselves—for Senator Pepper's place, and I dare say that there might be a half-dozen episodes of the same sort in process of development throughout the country.

It is no part of my job to venture on the sea of prophecy in regard to Democratic candidates. Usually, but of course not always, the incumbent comes out on top.

It is not difficult to recall that the late Senator Robinson, Albin Barkley's predecessor as majority leader, was always being menaced. Whenever it happened it provided more food for hostile writers to elaborate their cheering thought that Democratic party chaos lay just ahead. I doubt if there is one among these eminent journalists who could recall off-hand even the name of the aspirant who was supposed to be threatening Senator Robinson's prestige and position, and thereby periling the old party of the Democratic party.

It might also be brought to mind that a couple of years ago that sturdy and distinguished Senate veteran, Pat Harrison, was presented as facing an alarming situation in Mississippi. And yet Senator Harrison is still on his job and as distinguished and efficient as ever, and the old Democratic ship did not even rock because of the alleged gale that was to sweep Mississippi. Local Virility—Not Party Disruption

Pre-primary fights and ante-con-

vention struggles may kick up quite a ruction at home, but they are merely local disturbances which ordinarily pass with no great party effect.

If the incumbent returns, it is regarded as merely a logical outcome that was to be expected. It also serves for a text on the dictatorial weight of Administration pressure. If the incumbent loses, the hostile commentaries shrilly proclaim the happening as an administration defeat.

Actually, neither picture can approach correctness. Obviously an administration is happier when the ranks of those who have shown sympathy with and loyalty to the administration are retained in office. Just as obviously, if a new man comes in—that is a man of the same political complexion—there are bound to be sentimental regrets, but that is about all.

State elections are determined by many things that have little to do with national policies. Local political complications, superiority in campaigning, or a thousand other such things not infrequently determine the results of local elections.

The only important thing is the circumstance that even if personalities change, the party line-up remains unbroken. And I have yet to see or hear it suggested that any Democratic Senator or Congressman will be succeeded by a Republican next November.

W. J. Collier was transacting business affairs in Spur Saturday from his home in Afton.

East Ward Getting Ready For Coming League Meet Here

The Interscholastic League meet, scheduled this year to be held in Spur on the 11th and 12th of March, will see a very enthusiastic group entered from East Ward School circles.

With plans all set to make a high mark in the Story Telling and Choral Singing departments, East Ward has already begun its routine work to classify. Honors, however, will not be walked away without some stiff competition as both Dickens and McAdoo entries will come in for good showing in this department.

Exhaustive Survey For Raw Supply For Cheese Factory Is Favorable

Running now in its second week in making a survey for source of supply for the manufacture of Cheese in Spur, the Spur Creamery reports that practically one-half of the entire territory has been covered, and that obtained are very favorable.

In commenting on the view in facts that Spur is likely to be a manufacturing point for cheese products, officials of the company stated that unusual interest is being shown in the project everywhere, and that full cooperation is the usually offer. It is further stated that many farmers, living in the territory to which the survey crew are yet to reach, are coming in asking for information relative to the project.

The survey is likely to be complete within the next fortnight if weather permits full working activities.

Consumers, as well as the producers, are the more enthusiastic when the intelligence is conveyed that the manufactured cheese products are to be companion sellers to the popular "Espuela" brand butter and ice cream made and distributed by Spur Creamery.

A branch house is maintained at Lamiasa for distributing the complete manufactured lines.

WIFE OF WPA CHIEF

PASSES AWAY

Mrs. Bessie Walker Rodenhiser, wife of L. A. Rodenhiser (District WPA chief) died Monday afternoon at 4:52 o'clock following a short illness of flu and pneumonia. Mrs. Rodenhiser was born at Versailles, Mo., October 19, 1878, grew up in that locality and came to Texas in denhiser November 1, 1926, at 1920. She was married to Mr. Rodenhiser in 1927. They have made their home in Spur since late in September, 1937. Mrs. Rodenhiser has been a devout christian for the greater part of her life and was affiliated with the Methodist church. Mr. and Mrs. Paul F. Ringle of Wichita Falls, friends for many years, came at news of Mrs. Rodenhiser's illness and reached her bedside a few minutes before death claimed her.

A brother, H. L. Walker of St. Louis, Mo., and a sister, Mrs. D. M. Miller arrived Tuesday afternoon. Following a short and touchingly beautiful service at Campbell's Mortuary Wednesday morning, the body of the deceased, accompanied by the husband, brother and sister, was taken to Wichita Falls, where they will entrain for Detroit, Michigan, where interment will be made.

O. L. KELLEY SAYS HE HAS REACHED A DECISION

O. L. (Oscar) Kelley was in town the first of the week, and tipped The Texas Spur off that he had come to a decision about his political plans. Other business is claim-most of his attention, but he says in a very few days he'll put his name on the list as a candidate for County Superintendent of Public Schools.

MORE RUMERS AFLOAT

When the political arena looms ahead, every coterie wants to lay its claim on its own man. Complimentary remarks go the rounds that friends of Willie Hindman are urging him to enter the race for Com-talk likewise mentions H. C. Foote missioner of Spur precinct. Street and A. C. Sharp both as probable candidates for the candidates for the place of Superintendent of County Schools.

East Ward P.-T. A. To Hold Bakery Sale With

In an attempt to build the fund used to operate the Lunch Room for underprivileged children in Spur Schools, the Parent-Teacher Association of East Ward has planned and will execute a Bakery Sale Saturday at the Foodway Store here. Hours of the sale have a beginning at 9:30 a.m., and will extend to the business day's end.

The Finance Committee of the East ward Association will be in charge of the sales event, and look forward to the earnest cooperation of the public in making a successful financial addition to the much needed funds for operation of the School Lunch Room.

SPUR BOYS TEAM TAKE HONORS IN DEBATE

Contrary to reports in the Sunday Lubbock Avalanche, Spur Boys' debate team captured the honors in division two of the invitation meet at Lubbock Senior High School Saturday. It was reported that the Snyder boys lead the division.

AFTON AND ROARING SPRINGS METHODIST CHURCHES

Eugene Naugle, Pastor.

The weather has been very severe over the week-end, but our congregation did not fail us entirely last Sunday at the Afton services. Especially was the night service well attended, considering the inclement weather.

The presence of our visitors was appreciated by all of the members. Welcome back to worship with us.

SENIOR CLASS HAS ENJOYABLE EVENING

The Senior class of Spur High School spent a very enjoyable evening in the home of Wynell McClure Friday. The party was well earned. It had been promised us as soon as we got ninty percent of the Seniors to subscribe to the Rowell, our school paper.

A Senior was placed at the door to take up dimes to pay for refresh-

ments. Games were played and fortunes were told. Everyone reported an enjoyable evening.

HOW OFTEN CAN YOU KISS AND MAKE UP?

NEW husbands can understand why a wife should turn from a pleasant companion into a shrew for one whole week in every month. You can say "I'm sorry" and kiss and make up easier before marriage than after. Be wise. If you want to hold your husband, you won't be a three-quarter wife.

For three generations one woman has told another how to go "Smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."
