## Notice to advertisers, correspondents

The Winters Enterprise would like to remind our advertisers and news correspondents that the deadline for items to be printed in *The Enterprise* is 12 noon Tuesday of the week of publication. This deadline applies to classified advertising, display advertising, special announcements, features and news stories.

Material submitted for publication after the noon Tuesday deadline will be held for publication the following week.

## Blizzards drop season opener by one touchdown

The Winters Blizzards lost a thriller last Friday to the Ballinger Bearcats. In a game where the lead exchanged back and forth several times before Ballinger scored late in the final quarter to take the lead to stay, the final score was Ballinger 27 and Winters Blizzards 20. Both teams played hard-hitting, enthusiastic football.

Ballinger scored first in the game to take a lead of 7-0, but a good kickoff return by Dwight Hubbard and several good runs by Jeff Butts set up the first score for the Blizzards. Dwight Hubbard

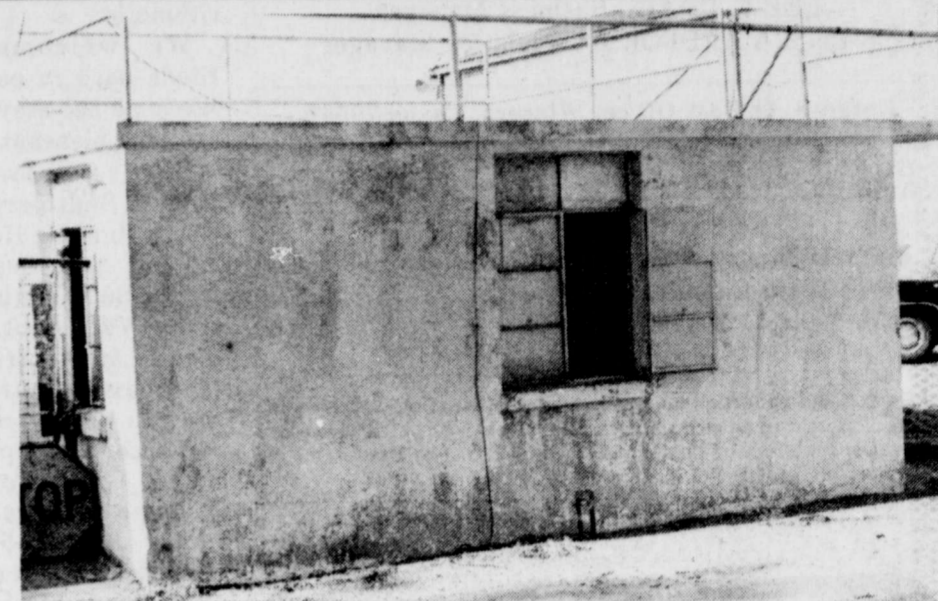

scored on an eleven-yard option pitch from Jeff Butts, and Ronnie Lujano added the extra point.

Ballinger scored again in the second quarter, but missed their extra point to lead the game at half-time by a score of 13-7. Just before the end of the first half, the Blizzards pushed to the Ballinger 20, but could not punch the ball over the goal-line before running out of time.

The second half began with Winters scoring on their first possession, Jeff Butts had a 45 yard kickoff return to begin the scoring drive. The Blizzards took the lead with a 6-yard touchdown pass from Dwight Hubbard to Perry Bedford and Ronnie Lujano added the point after. When the third quarter ended, the Blizzards were leading by one point. Ballinger's Bearcats started the final period off by adding another touchdown and taking the lead once again.

With the score standing at 19-14, Ballinger leading, Jeff Butts broke loose on a 98 yard quarterback counter and the Blizzards again regained the lead. Ballinger then lucked out of a third and 20 situation to drive down and score the winning touchdown with two and a half minutes remaining on the clock.

Defensive player of the week goes to Dwight Hubbard who blocked one pass, made seven tackles, and assisted on seven other tackles. Just behind Hubbard was Don Kvapil, who blocked two (See Football page 10)

## To be considered

The Winters City Council this week is discussing possible uses for the old city jail. The building, located behind the City Hall, has not been used for a number of

years. City officials are talking about using the jail as a holding facility while the Salvation Army has suggested the building might house indigent travelers.

## Stacy Dam permit upheld by court

The 3rd Court of Appeals in Austin has denied a re-hearing of its decision upholding the Stacy reservoir permit granted to the Colorado River Municipal Water District.

The Lower Colorado River Water Authority, long-time opponents of the proposed new lake in south Runnels County, has 30 days in which to file an appeal to the Texas Supreme Court.

In handing down its decision the 3rd Court of Appeals said that unused water was considered as

unappropriated water, subject to rights of prior permittees.

The Stacy Dam, as proposed, would be built near Leaday, in south Coleman County, and would back water up nearly to Ballinger. The project has long been opposed by the LCRA, which argues that such a lake would adversely affect the "Highland Lakes" stretching from Buchanan Dam through Austin.

O.H. Ivie, general manager of the Colorado River Municipal Water (See Stacy page 10)

## Rodeo Assn. cancels local barrel racing

The Winters Rodeo Association will hold a meeting Monday, Sept. 13 at 7:30 at the rodeo arena.

The jackpot barrel races held on Thursday nights will not be held for the next few weeks.

## Winters City Council to set budget hearings

The Winters City Council was scheduled to meet Tuesday evening this week due to the holiday Monday.

City Administrator said that the council would consider setting the date for a public hearing for the 1982-83 proposed budget, the 1982-83 proposed Revenue Sharing

budget along with other related items.

Also to be considered by the council was a petition submitted by Freddie Gardner seeking annexation of Lots 1 & 2, Block 1 of the Cook Addition. The council was also slated to hold an on-site hearing for the annexation of several parcels of property along Penny Lane.

The old city jail, behind the City Hall, was also to be a topic of discussion. The city began looking into the possibility of using the building to house some city prisoners for a short period of time rather than transporting them to the county jail in Ballinger. The city is checking with the Texas Commission on Jail Standards about the possibility and what would have to be done by the city to use the facility.

Since the discussion about the old jail began, several ideas have surfaced about other uses of the building and among those ideas to

be discussed by the council is that of using the building to provide some shelter or overnight housing for indigent travelers that might be stranded in Winters. The idea was presented by Ted Meyer, who heads the local unit of the Salvation Army.

The next meeting of the council is set for Monday, September 20, in the Council Chambers at City Hall.

## SS reps plan September visit

Garland Gregg and John Willis, Social Security representatives for the San Angelo Social Security office, have scheduled their September visit to Winters.

They will be at the Housing Project office on Monday, Sept. 27 from 9:30 to 10:30 a.m.

Anyone who wishes to file a claim for benefits, get information, or transact other business with the Social Security Administration may contact them at this time.

## Chamber of Commerce sets up fund for trees at new lake

The Winters Area Chamber of Commerce will be accepting donations to a fund set up to buy trees for the new W. Lee Colburn Park at the new city lake. Any organization or individual wishing to contribute to this fund, may do so by coming by the Chamber office at 118 W.

Dale or by mailing their donation to Winters Chamber of Commerce, Box 698.

If anyone wishes to contribute the sufficient amount to purchase a certain kind of tree, they should specify their wishes along with their donation.

## One injured

Debris scattered over a large section of FM 53 east of Winters early Saturday when a New Mexico man lost control of his pickup and overturned several times. The pickup was heavily loaded with nearly everything imaginable, including the kitchen sink and a bathtub. Authorities also found a leather glove among the debris containing \$1400.00 cash.

## Four injured in accidents over Labor Day weekend

Authorities throughout Runnels County said that the Labor Day holiday was one of the quietest ever with very few incidents being reported.

Four persons were injured in two crashes Saturday morning around Winters. The first crash sent a Jal, New Mexico man first to North Runnels Hospital and then to an Abilene hospital while the second injured two Goldthwaite residents and one from Austin.

The first accident occurred about 2 a.m. Saturday some three miles east of Winters on highway 53. A pickup driven by Henry L. Gafford of Jal, New Mexico apparently missed a slight curve in the highway and overturned several times. Highway Patrol Trooper Tom Barkley said that the

pickup, which was east-bound, ran off the north side of the highway before overturning three or four times and coming to rest in the middle of the roadway.

Gafford was rushed to North Runnels Hospital for treatment and then transferred to Hendrick Medical Center in Abilene. Officers summoned the Winters Volunteer Fire Department to the scene of the crash to assist in cleaning up the debris and to wash down spilled fuel from the vehicle.

A large amount of goods being carried in the pickup were scattered over about 100 yards of the roadway. Included in the load were chairs tables, a bath tub, a kitchen sink, several hundred pounds of frozen meat, canned and bottled beverages, and tools.

The second accident occurred just after 11 a.m. Saturday at the intersection of Highways 53 and 83 in south Winters. Police said that a car driven by Jerry Bill Walker of Goldthwaite apparently failed to stop at the intersection and collided with a tractor-trailer tank truck driven by Johnny Bob Broadus of Clyde.

Three persons in the car were taken to North Runnels Hospital for treatment and then transferred to a Goldthwaite hospital. Injured were Jerry Bill Walker, Louise Walker, and Bonnie P. Arnold, of Austin. Police Chief L.C. Foster said that none of the injuries appeared to be serious.

Officers said that only a few routine calls were handled by officers during the holiday period.

## Minor damage

Winters firefighters quickly doused a fire in the engine compartment of this car. The driver of the car said the fire apparently started as he was driving

through downtown Winters. Officials speculate the blaze was caused by a gasoline leak on the engine.

**First Automobile Honeymoon**

With all the weddings in the news recently and one of them involving our family when a niece, Susan Poe, was married to James Goodwin Saturday, I recalled a story that was related to me about the first honeymoon ever taken in a car.

Honeymoons by auto are so commonplace now that it is hard to believe they were once unheard of and the first one ever attempted attracted a great deal of attention. The *Chicago Tribune* carried an article about the inventor of the honeymoon tour by automobile which took place in 1907.

While visiting relatives in Arizona, I heard this story from Orrel A. Parker, a 90-year-old man, who spent his winters at Cactus Forest, south of Florence. He had been coming to the Arizona desert every year for 20 years to escape the rigors of Ohio winters.

Mr. Parker could look back on a lifetime of activity that rivaled the Horatio Alger stories of the past. He enjoyed reading the *New York Times* which recalled to his mind the Spanish-American War when on a business venture to Puerto Rico, he turned newspaper correspondent and filed dispatches for the Associated Press.

After graduation from Princeton in 1895 and two years of law school, Parker became a practicing attorney in New York where he continued until fire destroyed the building in 1912 which held his law office and library.

Always interested in the automobile, Parker was making plans to drive in the Glidden Tours, which were conducted by the manufacturers to prove the worth of an automobile.

As early as 1907, Orrel had become president of the Newmastic Tire Company. The idea of inflating a tire with a substance other than air was not new, but Parker invented a new rim that overcame the difficulty of having to send tires to the factory in order to have them inflated with Newmastic. He managed to trade his "mobile" steam car in and buy a seven

**Nursing Home News**

Our "Back to School" program on August 31 was almost as exciting to us, as to those young ones who started to school for the first time in our local public school. The teacher used the old-fashioned hand bell, slates, chalk, and the old blue-back speller. We sang, and studied readin', ritin', and rithmetic.

We welcome Julia Hinds back in our home. We hope her stay with us can be a pleasant one.

Sarah Brown and Melissa Smith are still in North Rannels Hospital. Plans have been made for the Sept. birthday party on Wed., Sept. 15 at 3 p.m. Ladies from the Methodist Church will provide the refreshments and entertainment. Those being honored are Arlene Hodge, 10th; Pitzer Hays, 15th; and Mae Belle Shelton, 16th. Friends and relatives are invited to join with us.

The Winters String Band will be here Friday evening at 7 o'clock. We enjoy the music of these people who give of their time and talent.

**United States Coast Guard Academy nationwide competition**

The United States Coast Guard Academy has announced that it is now accepting and processing applications for appointment as Cadet, U.S. Coast Guard, Class of 1987. Applications are being accepted from both men and women. Appointments as Coast Guard Cadets are tendered solely on the basis of an annual nationwide competition with no congressional appointments or geographical quotas. Applications for appointment must be submitted to the Director of Admissions, U.S. Coast Guard Academy, prior to December 15, 1982. Candidates must arrange to participate in either the College Board Scholastic Aptitude Test (SAT) or American College Testing Assessment (ACT) prior to or including the December 11, 1982 administration for the ACT and the December 4, 1982 administration for the SAT. The competition for appointment as Cadet is based on the candidate's high school rank, performance on either the ACT

or SAT, and leadership potential as demonstrated by participation in high school extracurricular activities, community affairs and/or part-time employment. Most successful candidates rank in the top quarter of their high school class and demonstrate proficiency in both the mathematical and applied science fields.

To qualify for the competition, an applicant must be unmarried at the time of appointment, have no legal obligations resulting from a prior marriage, and must have reached the age of 17 but not 22 by July 1, 1983. All applicants must be assured of high school graduation by June 30, 1983. Applicants must have completed three units in English, and three in mathematics to include algebra and plane or coordinate geometry or their equivalents, and must fulfill basic physical requirements.

**Work now toward a better spring lawn**

Hot summer weather has taken its toll on home lawns — and homeowners throughout Rannels County. But there's still more work to be done to insure a weed-free winter lawn and good recovery of the lawn next spring.

Lawn insects, including chinch bugs, white grubs and armyworms, must be controlled during late summer and fall, says Allen Turner, County Extension Agent. Where these insects damage the lawn, winter weeds rapidly invade the weakened turf and spring recovery is often poor. Timely applications of insecticides such as diazinon or chlorpyrifos (Dursban) will control most lawn insect problems.

According to Turner, fall fertilization is another requirement for maintain-

ing green color and promoting early spring green-up of lawns. A dense, vigorous turf produced by proper fertilization also keeps winter weeds from invading lawns. He recommends applying a complete fertilizer with a 3-1-2, 4-1-2 or similar ratio of nitrogen, phosphorus and potash at a rate of 1 1/2 pounds of nitrogen per 1,000 square feet of lawn. This would be 10 pounds of 15-5-10 fertilizer per 1,000 square feet. Straight nitrogen fertilizers and fertilizers high in phosphorus (the middle number in the fertilizer analysis) should not be used for established lawns. If winter weeds have been a problem in past years, apply a pre-emergence herbicide (chemical weed killer) for additional

**Crews**

Some people give and forgive. Others get and forget.

We had a good time, delicious meal and 84 games weren't bad Saturday night at the gym with Mr. and Mrs. Dale Dugan and Mr. and Mrs. Sam Faubion as hosts. Next supper will be the first Saturday night in October.

On Friday, we had from a sprinkle to 1 2/10 inches of rain.

I just heard Mr. and Mrs. Burley Campbell are back in their Ballinger home and doing okay after being with their daughter, Cleo Martin in San Angelo.

Mrs. Noble Faubion is home after tests in St. John's Hospital. Mrs. Coleman Foreman will go for tests when she hears from her doctor.

Lonnie Foreman and son Jason of Denton, Charley Foreman and son, Joey, and Clifton Foreman of Dallas all came to hunt at the Coleman Foreman's over the Holidays.

I attended the Bill Hoppe Labor Day picnic Sunday evening along with a good crowd.

Mr. and Mrs. Noble Faubion, Mr. and Mrs. Sam Faubion, and Mr. and Mrs. Jim Webb and their daughter, Charlotte Monroe and her children, Shane and Shelly, spent Sunday with the Carl Faubions at their Talpa Lake Home.

protection against weeds. Materials containing atrazine, benefin, bensulide and dacthal provide preemerge control of many winter annual weeds. Some preemerge herbicides are available in formulations with fertilizer, which simplifies application.

Mr. and Mrs. Marion Wood had as usual, over 50 people out from Fort Worth, Temple, Sonora, Big Spring, Giddings and Winters over the Labor Day to hunt. Doris Wood also celebrated her birthday.

Mr. and Mrs. L.C. Fuller had her niece, Mr. and Mrs. Paul White and baby, Aaron of Elfrido, Ariz. over the weekend. Then on Sunday they had these other guests for dinner: Mr. and Mrs. Lawrence Jacob, Mrs. Lena Ernst, and Mrs. Anita O'Dell.

Spending the weekend with the Wilbert Alcorns were Donald, Dona and Lisa Alcorn of Ballinger. The Alcorns spent Sunday in Copperas Cove and San Saba with relatives. Joanie Mathis had lunch with them on Monday. She's from Abilene.

Mr. and Mrs. Gaston Ernst and girls of San Antonio were up to see her mother, Mrs. Effie Dietz, while Gaston was in Abilene with his dad, Adolph Ernst, who is in the hospital there.

Mrs. Althia Self of Talpa visited Mrs. Effie Dietz.

Odie Matthews has been with Mable who is real ill in the nursing home in Abilene. I hear she's some better.

"Happy Birthday, Doris!"

Dewitt, Frances, Lelon, Doris, Brent and Dawn Bryan and J'Dan Miller all came out to see the Doug Bryans Saturday. The Bryans visited with the Bob Booths in Ballinger Sunday.

The Danny Phillips family are down visiting relatives and friends from Abilene.

Alta Hale and Ozella Stacy played 42 with Arnold and Mona Watkins down at Hords Creek Lake.

MRS. JAMES TERRELL GOODWIN, III

### Double ring ceremony unites Miss Poe, Mr. Goodwin

Susan Kay Poe, daughter of Mr. and Mrs. Clifton O. Poe of Winters, and James Terrell Goodwin, III, son of Mrs. Jean Williams of Austin were united in marriage at 11 a.m. Sept. 4 at the First Baptist Church in Winters.

The double ring ceremony was performed by the Rev. Cliff Poe, pastor of First Baptist Church of Eden, and narrow bandeau covered in shiffley, accented by seed pearls held the veil in place.

She carried a cascade bouquet of white roses with English ivy and baby's breath, with tiny apricot bows and love knots atop a white Bible.

Maid of honor was Linda Craig of Las Vegas, N.M. Bridesmaid was Keva Green of Houston.

The bride's attendants wore identical apricot formal length dresses with front shoulder pleats, forming a soft cowl neck with semi-circular sleeves accented with apricot and gold braid belts. They each carried baskets of apricot flowers and baby's breath.

Best man was Bill Goodwin of Houston, brother of the groom.

Groomsman was John Goodwin of Tyler, also a brother of the groom.

Serving as ushers were Kyle Poe of Midland, brother of the bride, and Jeff Palter of Austin.

A reception was hosted by the bride's parents in the Fellowship Hall of the First Baptist Church. Serving at the bride's table were Lisa Johnson of Cleburne and Barbara Lovett of Gautier, Miss. Serving at the groom's table were Tracy Williams of Austin and Allison Goodwin of Tyler, and serving brunch were Lisa Morinello of Dallas and Maggie Best of Austin, both cousins of the bride. Others assisting were Mrs. Lee

### United Methodist Women met Tuesday

The United Methodist Women met in general session at the church on Tuesday morning, with Billie Middlebrook presiding.

The meeting was opened with a prayer by Willie Lois Nichols.

After the business meeting, the program, "Europe Dimensions - Must Walls Divide" was given by Margurite Mathis, assisted by Marie Neely and Willie Lois Nichols.

The meeting was closed with the Lord's Prayer.

Members present were: Willie Lois Nichols, Aleene Mapes, Odessa Dobbins, Addie Beth Stanley, Ozie Stanley, Billie Middlebrook, Margurite Mathis, Marie Neely and Dorece Colburn.

### Woman's Club to host supper

The Woman's Club of Winters will host a Chicken Spaghetti Supper, with serving from 5 p.m. to 7 p.m., Friday, Sept. 10, at the high school cafeteria.

Tickets may be obtained from members of the Woman's Club, or may be purchased at the door.

### COKE PARTY

The Winters Junior High Cheerleaders were honored with a coke party Saturday in the home of Mr. and Mrs. John B. Bedford.

Mrs. Stan Greer was presented flowers from the girls in honor of her continued help with their summer practice and work sessions.

Each girl was presented a bud vase with a carnation and baby's breath arrangement.

Those attending were Mrs. Stan Greer and Tammy, Mrs. James Griswold, Mrs. Gary Ledford and Angie, Camille Lancaster, Gina Nesbit, Karen Davis, and Mrs. John B. Bedford and Libby.

Harrison, Mrs. Horte Joyce, Mrs. Betty Byrns and Mrs. Dennis Poe.

The bride is a graduate of Winters High School and Texas Tech University. She is presently employed with Southern Union Gas Company of Austin.

The groom graduated from West Lake High School in Austin and the University of Texas in Austin. He is employed by Crutcher Resources.

After a wedding cruise to Bermuda, the couple will make their home in Austin.

### Young Homemakers to hear presentation on coupon clipping

The Winters Young Homemakers will meet Monday, Sept. 13 at 7:30 p.m. in the Homemaking Cottage on the school campus.

The program, "How To Save Money With Coupons and Refund Forms" will be presented by Gail Rynders of Abilene, president of Classy Clippers Club.

The yearbook is ready and will be passed out to members.

The Young Homemakers area convention is to be held in Stephenville Sept. 25 at the high school.

This year's officers include president, Linda Mitchell; vice president, Leta Pritchard; secretary-treasurer, Shirley Minzenmayer; and reporter-historian, Brenda Brown.

### Miss Davis, Mr. Walker to be married Sept. 17

Lue Jean Davis, daughter of Mr. and Mrs. O.G. Davis of Raymondville, Tx. announces her upcoming marriage to Bill Wayne Walker, son of Jerrell Walker of Wingate.

The wedding ceremony will be Sept. 17 at 7 p.m. at the Southside Baptist Church.

Family and friends of the couple are invited to attend.

### Runnels RTA to meet Monday

The Runnels County Retired Teachers Association will begin the 1982-83 year with a meeting at 2:30 p.m. Monday, Sept. 13, in the educational building of St. John's Lutheran Church in Winters.

Lila Masson of San Angelo will speak on "The Best Damn Teacher", based upon a true experience.

Well-known in this area for her ability as a speaker, Ms. Masson was educated in Ireland and taught there. Her presentation will include details about the Irish school system.

Yearbooks will be distributed at the meeting, and Eula Mae Kruse will give a report on proposed legislation of interest to the RTA.

Hostesses for the social period preceding the program are Margurite Mathis, Myra Dorsett, Pearl Jackson and Eva Kelly.

All former educators now living in Runnels County are invited to attend this session.

### R. Underwood graduate of Texas Tech

Randall Underwood, son of Mrs. Marva Jean Underwood, graduated August 19 from Texas Tech University with a Bachelor's Degree in Architecture.

While at Texas Tech, he was affiliated with the American Institute of Architects Association, a group of upperclassmen who work along with the chairman of the Department of Architecture.

Underwood plans to begin his apprenticeship at Dallas in October.

### Blackwell Homecoming planned Sept. 25

The Blackwell School Homecoming will be held Saturday, Sept. 25, with registration beginning at 1 p.m., and the homecoming parade at 3 p.m.

A barbecue supper sponsored by the senior class will be held from 4:30 to 6:30 p.m. with tickets for adults, \$3.50, and meals for children under 10, \$1.75.

A pep rally will be held at 6:00 p.m. At 6:30 there will be a business meeting held by all exes in the school cafeteria, with election of Coming Home King and Queen. Everyone is urged to attend this meeting.

At 8 p.m. Blackwell will play against Moran in football, with halftime activities including the crowning of the Football Sweetheart and Hero, and the presentation of the Coming Home King and Queen. Classes to be honored are 1922, 1932, 1942, 1952, 1962, and 1972, and the Coming Home King and Queen will be chosen from these classes.

Officers for 1982 are president, Cecil Ray Self; vice president, Sonny Bartee; secretary-treasurer, Gwen Ware; publicity, Betty Cole, Hulene Conradt, Wanda Saunders, June Hicks, Leva Self, and Joyce Roland.

To reserve homecoming corsages contact: Blackwell Junior Class, Blackwell School, Box 505, Blackwell, Tx. 79506. Deadline for ordering corsages is Sept. 17.

### Former Hatchel resident dies in California

Anna Marie (Henniger) Cederholm, 65, of Santa Monica, Calif., formerly of Hatchel, died Tuesday, Aug. 31 in Santa Monica.

Memorial services were held at 10 a.m. Thursday, Sept. 2 at Mount Olive Lutheran Church in Santa Monica, with burial at Santa Monica Cemetery.

Born Nov. 2, 1916, in Hatchel, she married Wallace Cederholm. She had lived in Santa Monica, Calif., for many years.

Survivors include a daughter, Jo Ann Picher of San Jose, Calif.; a brother, Irwin Henniger of Norton; two sisters, Emma Henniger of Hatchel and Helen Onken of Winters; and two grandchildren.

### Mother of Winters man died Aug. 30

Ada May Casey, 69, of Ranger, mother of M.J. Casey of Winters, died at 11:30 p.m. Monday, Aug. 30 at Western Manor Nursing Home.

Services were held at 2:30 p.m. Thursday, Sept. 2 at Edwards Funeral Home, with burial at Merriam Cemetery.

Born Feb. 11, 1913, in Freestone County, she married John B. Casey July 23, 1926, in Eastland. He died Sept. 27, 1981. She was a housewife.

Survivors include nine sons, John T., Clinton C., Arlie C., Mac C., and Billy, all of Ranger, Frank of Longview, Hansel of Colorado, Donnie of Abilene, and M.J. of Winters; three daughters, Mornine Hatcher, Laura Murdock, and Louise Wheat, all of Ranger; two brothers, Clarence Langford of Odessa and Leonard Langford of Colorado City; four sisters, Lela Reynolds of Comanche, Lillie Allen of Grand Saline, Ella Bates of Azle, and Veda Berry of Fort Worth; 37 grandchildren; and 22 great-grandchildren.

All parents are urged to attend.

Plastic vegetable bags make good shoe bags when you're packing.

### Cub-O-Ree planned in Abilene

The Chisholm Trail Council, Boy Scouts of America, will hold its first annual Cub-O-Ree Saturday, Sept. 11, at Scarborough Park, near Reagan Elementary School in Abilene.

Designed as a fun day for Cub Scouts and their families, Cub-O-Ree will feature contests and competition from 1 until 3 p.m., midway games from 3:30 until 6:30 p.m. and a pack picnic at 6:30 p.m. The day will close with an awards ceremony and campfire at 8 p.m. Chief Akela, traditionally known as a leader, will present the awards and preside at the campfire.

Cub-O-Ree chairperson Bernice Wolfe said the day of activities "kicks off the new year of Cub Scouting in the Chisholm Trail Council."

"We encourage parents of boys ages 7 thru 10 to enroll in the Cub Scout program. It is one of the best programs today to teach boys to become men," Mrs. Wolfe said. "The purpose of Scouting is to promote, through organization and cooperation with other agencies,

**PEANUT BUTTER CHIP FRUIT BARS**  
 3 eggs  
 1 cup sugar  
 1/2 teaspoon vanilla  
 1-1/4 cups unsifted all-purpose flour  
 1-1/2 teaspoons baking powder  
 1/2 teaspoon salt  
 2 cups Reese's Peanut Butter Chips  
 1 cup raisins  
 1/2 cup chopped marshmallows  
 1/2 cup confectioners' sugar  
 1-2 tablespoons milk

In a large mixer bowl, beat eggs; gradually add sugar and vanilla, beating well. Combine flour, baking powder and salt; add to egg mixture. Stir in 1-1/2 cups peanut butter chips, raisins and cherries. Spread evenly in greased 13x9 inch pan; bake at 350° 25-30 minutes or until lightly browned. Cool. Spread with white glaze made by combining 1 cup confectioners' sugar with 1-2 tablespoons milk until glaze is desired consistency. Sprinkle with remaining 1/2 cup peanut butter chips. Cut into 2x1-inch bars. 4 dozen bars.

About half the meadowlark's diet is insects harmful to man, and the other half, weed seed.

the ability of boys to do things for themselves and others, to train them in Scout crafts and to teach them patriotism, courage, self-reliance and kindred virtues."

### PUBLIC NOTICE

Notice is hereby given that the City of Winters, a Municipal Corporation of Runnels County, Texas, will hold a public hearing on its proposed budget for the 1982-83 fiscal year. The hearing will be at 6:00 p.m. September 20, 1982, in the Council Room, City Hall, 310 S. Main Street, Winters, Texas. A copy of the proposed budget can be reviewed in the City Administrator's office, Monday through Friday, from 8:00 a.m. to 5:00 p.m., through September 20, 1982. (September 9, 1982)

### PUBLIC NOTICE

Notice is hereby given that North Runnels Hospital District, a government entity of North Runnels County, will receive bids in the office of the administrator at North Runnels Hospital, Hwy. 53 East, Winters, Texas until 11:30 a.m., Friday, September 17, 1982 for construction of a storage building. Specifications may be secured in the office of the hospital administrator. All bids must substantially comply with specifications. The North Runnels Hospital District reserves the right to reject any or all bids and to award the bid considered most advantageous to North Runnels Hospital, Winters, Texas. (Sept. 9, 16, 1982)

**(NO sales before 9 a.m.)**

### PUBLIC NOTICE

To all owning or claiming any property abutting upon the hereinafter mentioned portions of streets in the City of Winters, Texas, and to all owning or claiming any interest in such property: The City Council of the City of Winters has ordered that the hereinafter described portions of streets be improved by excavating, raising, grading, filling and paving with a base of caliche having a topping of asphalt and stone in two courses, all in accordance with plans and specifications prepared by the City of Winters, Texas. The portions of street and avenues to be improved, together with the estimated costs of the improvements for each portion or unit, and the amounts per foot proposed to be assessed against the abutting property and the owners thereof, on such portions of streets, are as follows:

200 & 300 Blocks of Redtner (Between Grant & Rogers) Total Front Footage: 1,654 Total Cost: \$31,076.90	Assessment to Individual Property Owners \$4.00 per foot curb & gutter \$17.49 per foot paving
400 Block South Rogers (Between Broadway & Redtner) Total Front Footage: 805 Total Cost: \$13,362.50	Assessment to Individual Property Owners \$4.00 per foot curb & gutter \$15.99 per foot paving
500 Block of Albert (Between Magnolia & Frisco) Total Front Footage: 597 Total Cost: \$12,826.00	Assessment to Individual Property Owners \$4.00 per foot curb & gutter \$15.25 per foot paving

A hearing will be held by and before the City Council of the City of Winters, Texas, on the 13th day of September, 1982, at 6:00 p.m. in the City Hall, in said City, when and where all owning or claiming any such abutting property or any interest therein, shall be fully heard concerning such improvements, the cost thereof, the amounts to be assessed therefor, the special benefits to the respective parcels of abutting property, the means of the improvements on the portion of street upon which the property abuts, and concerning any matter as to which they are entitled to hearing under the law in force in the City and under the proceedings of the City with reference to said matters. Following such hearing assessments will be levied against abutting property and owners thereof, and such charge against the true owners of such property at said date assessments when levied shall be a personal liability and a first and prior lien upon the property so provided by the law in force in the City and under Article 1105b, Vernon's Revised Civil Statutes of the State of Texas.

The improvements on each said portions of streets, constitute an entirely separate and distinct district or unit of improvement, all to the same extent as if entirely separate and distinct proceedings had been taken with reference to the improvements and assessment therefor in connection with improvements on each such portion of streets, and the assessments against the property abutting upon any unit or district shall be and are in no wise affected by any fact or circumstance relating to or connected with the improvements in other units or districts.

Of all said matters and things, all owning or claiming any such property or any interest therein, as well as all others in anywise interested or affected will hereby take notice of same.

Done by order of the City Council of the City of Winters, Texas, this 20th day of August, 1982.

ATTEST:  
LaMoyn Moore  
City Secretary

W. Lee Colburn, mayor  
(Aug. 26, Sept. 2, Sept. 9, 1982)

### PUBLIC NOTICE

Notice is hereby given that the City of Winters, a Municipal Corporation of Runnels County, Texas, will hold a public hearing on the use of Entitlement Period XIV, Revenue Sharing Funds, for the 1982-83 budget. The hearing will be at 8:00 p.m., September 20, 1982, in the City Council Room, City Hall, 310 S. Main Street, Winters, Texas. A summary of the proposed budget is as follows:

Street Department: Heavy Equipment Reserve Fund	\$6,000
Street Department: Replacement Pickup	8,000
Street Department: Minor Street Repairs & Asphalt Administration: Codification of Ordinances	7,000
Civil Defense Sirens	5,500
Animal Control Shelter Repairs	1,000
Christmas Lights	2,000
Contributions	2,600
Contingencies	1,172

Comments regarding the proposed Revenue Sharing Budget will be accepted, both written and orally, at the hearing. A copy of the proposed budget can be reviewed in the City Administrator's office at City Hall Monday through Friday, from 8:00 a.m. to 5:00 p.m. through September 20, 1982. (September 9, 1982)

### Opening the doors

Mayor Pro-tem Ted Meyer cuts the ribbon officially opening one of Winters' new businesses, Flowers, Etc. On hand for the ceremony were owner Brenda

### West Texas Fair & Rodeo opens this Saturday

The 76th West Texas Fair & Rodeo gets underway when the exhibits open at the Expo Center at 11 a.m. Saturday following the 10 a.m. downtown parade. Participation in all aspects of the fair is bigger than ever.

Fair admission is \$4.00 for adults and \$1.50 for children and that includes

the free tent show entertainment and general admission to the PRCA Rodeo, Sept. 11-15. There is no parking fee this year.

This year's free entertainment will be offered in a large tent between the Round Building and the Modern Living Mall. This will offer a retreat from the weather and provide better performing conditions for the groups.

Appearing Sunday, Sept. 12 will be country singer Red Steagall at 6 p.m. Beginning Sept. 13-18 will be the group, Mason Dixon. On Monday, Sept. 13, the San Marcos cowboy, George Strait will be the featured performer at 7 p.m. Wednesday, Sept. 15, Con Hunley will appear at 7 and 9 p.m. On Thursday, Sept. 16, Rex Allen Jr. will entertain at 7 and 9 p.m. Friday and Saturday beginning at 7 p.m. will be the big Tractor Pull.

With everything from sheepdog trials in the new horse barn to livestock and modern living and crafts and aquarium and commercial exhibits added to the rodeo and entertainment and midway, there's something for everyone at the West Texas Fair & Rodeo, Sept. 11-18.

### Shorthand now offered at TSTI

The Technical Office Training Department of TSTI-Sweetwater is offering three shorthand courses at night, beginning Sept. 9.

Classes in Shorthand I, II, and III will meet Monday, Tuesday and Thursday evenings from 6 to 9 p.m. Each twelve week credit course costs \$43.00.

Anyone wishing to enroll in Shorthand II and III who has not previously taken Shorthand I at TSTI should take a placement exam. The minimum speed requirement for Shorthand II is 40 words per minute. The minimum requirement for Shorthand III is 60 words per minute. Also, a brief form test is required to place out of Shorthand I.

These placement exams will be given the first day of class; however, anyone

### Paying off loan early may not save much

Before you sign an installment loan contract — or decide to pay off such a loan early to save most of the finance charges (interest), understand the contract fully, advises Beverly Rhoades, a consumer information specialist.

Even if you're told the loan can be "paid in full" at any time without prepayment penalty, the interest dollars you save with an early pay off can amount to fewer than you might think, she says.

Most importantly read the entire contract carefully. It may spell out exactly the amount of finance charges (interest) you will be refunded in case of early loan pay off.

On the other hand, your contract may contain terminology you don't understand. If this is the case, ask your loan officer for an explanation. If he or she cannot adequately explain the words or phrases, get a satisfactory explanation before you sign the agreement.

Look for words such as "sum of the periodic balance".

If your contract says this is the method your refund will be figured by, it means the refund will be computed by a formula commonly referred to as the "Rule of 78", Rhoades says.

This formula, provided in the Texas Credit Code, figures monthly payments with more of your interest loaded in the earlier installments and less in the later installments.

So, when you pay off a loan early, you still may have already paid most of the total finance charge (interest) that was originally computed.

Even if you pay off the loan after only a few months, you may avoid paying just a small percentage of the finance charge (interest), Rhoades says.

Remember, interest is who is unsure of which course to take should contact the Technical Office Training Department at TSTI.

All other business courses offered this fall will meet on Monday and Thursday evenings from 6 to 9 p.m. The courses were previously listed as meeting on Tuesday and Thursdays from 7 to 10 p.m.

For further information on any business or office skills courses offered, contact the Technical Office Training Department at 235-8441, ext. 49.

charged from the day the loan is made.

Here's how the "Rule of 78" works:

If you have a one-year loan, you pay 12/78s of the total interest the first month. You pay 11/78's the second month and so on.

If you pay off the loan after six months, you already will have paid 73 percent (more than half) of the total interest.

In addition, the loan agency will not refund any of the amount you have already paid.

They will refund only the interest not yet earned — in this case only 27 percent of the total (just a bit more than a fourth of it).

Of course, not all installment-loan payments are set up with the interest "loaded" early in the loan period.

However, if your contract has interest computed by such a method, think twice before paying it off early, Rhoades suggests.

### NUTTY SANDWICH FILLINGS

#### TUNA ALMOND MIX Makes 5 sandwiches

- 3/4 cup Planters Sliced Almonds
- 1 can (13 oz.) tuna, drained
- 3/4 cup grated carrot
- 3/4 cup mayonnaise
- 1/4 cup sliced green onion
- 1/2 teaspoon dill weed
- Whole wheat or rye bread slices

Thoroughly combine

Planters Sliced Almonds, tuna, carrot, mayonnaise, green onion and dill weed. Spread 1/2 cup tuna mixture on 5 bread slices and serve as open-face sandwiches or top with 5 additional bread slices and cut into quarters to serve.

#### CHICKEN ALMOND TOSS Makes 6 servings

- 1/3 cup Planters Almonds
- 3 cups diced cooked chicken
- 1 can (13 1/4 oz.) pineapple chunks, drained and halved

- 1 tablespoon reserved pineapple syrup
- 1/2 cup sliced celery
- 1/8 teaspoon salt
- Dash ground black pepper
- 1/3 cup mayonnaise
- 6 sandwich pockets

Coarsely chop Planters Almonds and combine with chicken, pineapple chunks, celery, salt and pepper. Mix mayonnaise and reserved pineapple syrup until smooth. Toss chicken mixture with mayonnaise mixture until thoroughly combined. Use to fill lightly toasted sandwich pockets.

"When a fellow says, 'It ain't the money, but the principle of the thing,' it's the money." Kin Hubbard

- Friday, Sept. 17  
Chicken fried steak, cream gravy, whipped potatoes, whole kernel corn, peanut butter cookies, hot rolls with butter on top, milk or chocolate milk.

### Sneak-a-peek Friday night at the fair

Friday night is the time the younger crowd has been waiting for since last year's West Texas Fair & Rodeo — it's Sneak-a-peek night on the midway. For the uninitiated, that means a bargain preview of the rides on the midway the night before the Fair officially opens.

This year's Sneak-a-peek gets underway at 6 p.m. and for only \$6.00 you can purchase an arm-band that lets you ride all the rides you want to until closing. There is no admission charge to the fairgrounds for this occasion.

As in the past, the rides in the midway are from the Bill Hames Shows. Featured are rides ranging from an assortment of kiddie rides to adult favorites like the Tilt-A-Whirl, Super Loop, Sky Diver, Sea Drago, Giant Spider and Hurricane.

The West Texas Fair & Rodeo begins with the 10 a.m. Saturday parade in downtown Abilene. The PRCA Rodeo runs through Wednesday this year. General admission to the rodeo is included in the Fair admission and there is no parking charge this year. Admission for adults is \$4.00, students \$1.50. Entertainment on the tent stage is free with Fair admission.

### CRIME STOPPERS

For an enterprising thief, Texas' oilfields offer endless opportunity. Thirty to fifty million dollars worth of oilfield equipment was stolen in Texas last year. These losses are pushing the cost of pumping oil sky high, and that affects each of us.

The drilling boom in Texas has created a demand for materials which are hard to come by. Any tool, large or small, can catch the eye of a thief, as it represents a pocket full of money. This problem is running rampant in Texas and is hard to detect. Items are often taken to another state where they are stripped of serial numbers, given a fresh coat of paint and resold, sometimes back to the original owners.

The industry is fighting back with rewards, recovery systems and better identification methods. Governor

Clements and the Texas Legislature have implemented new laws to stop the growing crime wave in the oil patch — but they can't do it alone.

For the month of May, 1982, the Crime Stoppers Advisory Council is focusing its statewide "Crime of the Month" program on oilfield theft. Any citizen having information about oilfield theft is asked to call the anti-crime hotline at 1-800-252-TIPS. Cash rewards are available for information leading to the arrest and indictment of oilfield thieves. Citizens do not have to reveal their name, just their information, and they will be given a unique code number for identification purposes.

Let's get these people out of our society! Call 1-800-252-TIPS today to help stop oilfield theft in Texas.

**Jerry Lackey's  
Country Folk**

Labor Day, 1982, is behind us now. There is something mental about this holiday which serves to officially put summer behind, and get on with another year of business. It is the last hurdle to normalcy with the children back in school, the wife and everyone in their proper places and vacations over.

Speaking of Labor Day . . . Around our office it has been a labor of love for three months as we put to bed the first issue of West Texas Business. With this new regional magazine, we will attempt to paint a portrait of West Texas labor and the economy derived from it. Some 5,000 copies of the publication were mailed throughout the state. Response has been overwhelming. A note to P.O. Box 1367, San Angelo, Texas, 76902, and a check for \$8.50 will guarantee you a place on the circulation list!

Some 300 cattle and sheepmen gathered on the banks of the Concho River last week to officially kickoff the 23rd annual drive for Cattleman's Round-Up for Crippled Children.

For nearly a quarter of a century now, ranchers and stockmen of the Southwest have joined hands with the West Texas Rehabilitation Center to help the handicapped. Here's how it works.

A calf, pen of calves, horses or other livestock are donated to be sold at special auctions. All proceeds, along with Round-Up gifts of cash, are used for treatment of patients at the West Texas Rehab Centers. Gifts are tax deductible.

The colorful history of CRCC was started in the fall of 1960, when Conda H. Wylie, Fort Chadbourne rancher, came to the West Texas Rehab Center officials and asked, "If I cut out some cattle for when I round up this fall, do you think you can get some other fellows to go along with me in using part of our fall round-up to help toward the operational expenses of the Center?" Needless to say, Mr. Wylie's 20 head of top steers were quickly accepted.

It didn't take long for the Center staff to have a program offering other ranchers and stockmen throughout the Southwest the opportunity to join with Mr. Wylie in the gathering of livestock to be sold for the benefit of WTRC. Almost spontaneously this gathering of livestock for the fall sale was called the "Cattleman's Round-Up for Crippled Children."

The 1982 fall sales schedule is: cattle sale, 1 p.m., Sept. 27, Abilene; horse sale, 1 p.m., Oct. 2, Abilene; sheep and goat sale, 1 p.m., Oct. 4, Junction; special auction, 1 p.m., Oct. 6, Coleman; and special auction, 1 p.m., Nov. 3, Brownwood.

WTRC is a private, non-profit treatment and diagnostic facility with campuses in Abilene, San Angelo and Snyder. A patient needs only a doctor's referral to be admitted. There is no charge for Rehab services. Established in 1953, WTRC is fully accredited.

In memory: Aubrey DeLong of Mertzon, longtime head of Texas Production Credit Association, died Aug. 29. He was 75. The ranching country will miss him.

D.K. McMullan of Big Lake died Aug. 31. One of the oldtime sheepmen of West Texas, D.K. was a longtime supporter of this writer. When I wrote a daily column and was hard up for a story, I could always count on D.K. He was nearly 72.

The first regular air mail service for civilian mail in the United States started in 1918.

**PRO Brand Wheat 812  
yields 93 bu/acre**

For Dan Reed, Veribest, Texas, PRO Brand Wheat 812 produced 93.1 bu/acre at 13 percent moisture. It's the best yield I've ever had on wheat, says Reed. His 812 was planted December 15, 1981, and harvested June 5, 1982. The 46 acres of 812 had a test weight of 61 lbs/acre. Reed applied 100 lbs/acre of 82-0-0 and 200 lbs/acre of 5-20-20. The wheat was irrigated. 812 is a short, stiff-strawed early maturing hard red winter wheat. It grazes as good as it yields. See your NK dealer for PRO Brand Wheat 812 soon!

Save on these NK seeds by ordering before September 30, 1982!

**Sixth screwworm case reported in Texas, says TAHC director**

Texas' sixth screwworm case of 1982 was confirmed Sept. 1, Dr. John W. Holcome, executive director, Texas Animal Health Commission, reports.

The case was found in a show calf in the La Gloria community, about 40 miles northwest of Mission. "Livestock producers within 100 miles of that area should redouble efforts to check their animals for any other possible screwworm infestations," Dr. Holcome said.

He suggested it would be a good idea for all livestock people to check animals on a regular basis. "We are entering the Fall season, and that usually means a build-up of screwworm activity," he noted.

Screwworm submission samples this past month

were only about half of what they were a year ago, so it is essential that producers begin again to make a regular check of livestock. Samples of suspected screwworms should be submitted to the fly lab at Mission.

Texas Animal Health Commission personnel will assist in efforts in the La Gloria area to wipe out any other possible screwworm infestations. Sterile screwworm flies will be dispersed in that area and special pellets which attract and destroy screwworm flies will also be dropped.

The last confirmed screwworm case in Texas this year was June 26. The other cases were found in the same general area as the one located in the La Gloria community.

**4th annual Hay Show names winners**

Bill Cervenka, Otto Gottschalk, Jim Fryar and Steve Stubblefield were the big winners in the 4th Runnels County Annual Hay Show, held on Aug. 21 at the Norton Community Center.

Champion hay entry was exhibited by Otto Gottschalk on a Forage Sorghum type hay which had a crude protein content of 10.88%. Bill Cervenka's Coastal Bermuda entry was named Reserve Champion, also with a 10.88% crude protein. The highest crude protein hay sample was the Alfalfa variety shown by Jim Fryar. Steve Stubblefield's entry was a Kleingrass.

Hay Show judge, Dr. Willis Gass, Area Agronomist, stated that overall the hay quality was slightly less due to the fact that wet weather at harvest time kept the balers out of the field at the time when the hay was in the correct stage for optimum protein content. The important thing Gass pointed out is for producers to know what their hay is and a test is the only way to determine hay quality.

In the 4H-FFA project preview show, Scott Gerhardt of Winters, was the top Senior Beef Showman and Jody Frey was the top Junior Beef Showman. In the sheep division, Caroline Niehues was the Senior division winner, with Kristy Hays the junior winner.

**Get the Picture**

Still Pictures And Moving Days. Picking up and moving to another town, or even another house, can be a disrupting experience. In the space of a few days, your household gets taken apart, transported somewhere else, and put back together again. It's chaotic, all right, but an instant camera and a few packs of film can help you cut down on some of the worry.

Here's how: If you've been transferred and have scouted out your new home in a new town, be sure to photograph it thoroughly before you come to finish packing. A picture of the new house can do wonders to make the children feel better about leaving the old one.

By photographing interiors of your new home, you can do a better job of planning for new drapes, furniture and accessories. Particularly if you're moving to a smaller community, it may make sense to shop for these items before you leave. Having instant pictures along when you shop will ensure a good match.

Before the moving van arrives, photograph valuable and fragile pieces. They'll help prove that items were in good shape before they were shipped, in case damage occurs enroute. A camera with an auxiliary close-up lens, like Polaroid's Sun 650 camera, is ideal.

The tedious job of reconnecting stereo speakers and other fixtures can be simplified if you take quick Polaroid pictures before they're disconnected.

"Feel the dignity of a child. Do not feel superior to him, for you are not." Robert Henri

trol, use Dipel, Thuricide, Bio-Spray or Biological Worm Killer. These materials contain the bacteria Bacillus thuringiensis that kills only caterpillars and will not harm beneficial insects. Add one teaspoon of liquid soap per gallon of spray mixture to help spread the material on the leaf's surface. Good coverage of upper and lower leaf surfaces is necessary for best control.

**Smoke detectors can cut fire deaths in half**

Smoke detectors can provide an early warning of fire that could cut deaths in half.

Estimates show that an early-warning fire detection device could save from 40 to 50 percent of the people that die in home fires, points out Dr. Gary Nelson, safety engineer with the Texas Agricultural Extension Service, Texas A&M University System.

Nearly 7,000 persons die each year in almost 700,000 home fires in the U.S. Since most of these deaths occur while people are asleep, an early-warning device such as a smoke detector can be a life-saver, contends Nelson.

The engineer believes a smoke detector is more suitable than a heat detector because most home fires start by smoldering. Thus smoke will likely be one of the first combustion products.

Smoke detectors are self-contained units that can run on batteries or can be plugged into existing electrical systems. Cost averages \$20 to \$50 per unit. Get two or three price estimates, and be sure the units bear UL or FM labels.

Test units as you install them or have the installer test them in your presence, suggests Nelson. Be sure you get an instruction booklet on their operation, testing and maintenance.

A single smoke detector installed outside the bedroom area on the ceiling or wall will provide minimum protection for the average home, says Nelson. For a two-story dwelling with bedrooms on both floors, he recommends two units — one outside each bedroom area.

According to the engineer, ceiling-mounted units have proved superior to some mounted on walls because smoke rises and more readily

enters the ceiling detection chamber. Just as important as an early-warning fire detection device is an evacuation plan, emphasizes Nelson. Be sure there are alternate methods of escape in case doorways are blocked by fire.

**MANSELL BROS.**  
Hwy. 53 West WINTERS, TEXAS

**Deadline near for All-Risk wheat insurance**

September 15 is the last date on which applications will be accepted for All-Risk insurance policies on 1983-crop wheat. All-Risk Crop Insurance Field Operations Director F.W. "Ted" Crouch, Jr. says that a list of local agents who offer the insurance can be obtained by contacting the county ASCS office.

Crouch says that the number of applications received to date and the interest expressed by wheat growers suggests that the amount of insurance in force will be a record high. "One major reason," Crouch notes, "is the continuing increase in crop production costs. Many wheat growers

simply do not have the necessary cash reserves or additional borrowing capability to take a chance on losing the money that they will have invested in their crops."

"Another reason," the insurance official contends, "is the reduced cost of purchasing insurance." The federal government, in an effort to encourage participation in the program, pays up to 30% of the cost of the protection. Anticipated sign-up also is expected to be higher because a growing number of lenders are requiring or suggesting that borrowers carry at least enough coverage to provide for repayment of production loans.

**Insect control a must for fall gardening**

Insects can completely devastate your fall garden!

The most noticeable of these champions of plant terror in the fall are leaf miners, white grubs, spider mites, suck flies, squash vine borers and worms or caterpillars.

Leaf miners: The adult leaf miner is a fly, but the damaging stage is a 1/8-inch long yellow worm that makes long, slender, winding tunnels in leaves. Since there can be several generations each year, this insect pest can reduce plant vitality through foliage damage. To control, apply Diazinon to the foliage of vegetable plants every 7-10 days for about three sprays.

White grubs: White grubs live in the soil and are larvae of May beetles or June bugs. They are dirty white with brown heads and are 1/4 to 1 1/2 inches long when full grown. White grubs can severely damage underground plant parts with their feeding activity, especially in the fall when grubs are young. To control, treat the soil with

granular diazinon and water well.

Spider mites: Spider mites are tiny, spider-like plant chiggers that feed on undersides of leaves of many garden vegetables and flowers. Most mites are about 1/32-inch long and live and feed in a web they produce on plant leaves. They reproduce rapidly and can severely damage plants in a short time. Inspect plants frequently by examining the underside of leaves with a magnifying glass. To control, spray plants with Kelthane with one teaspoon of liquid soap added to the mixture. Spray every four days for four consecutive sprays. Sulfur also controls mites but do not use it on vine crops such as squash, cucumbers and cantaloupes.

Suck flies: These insects are small but larger than spider mites. Some are green and some brown. Their damage is almost identical to that of spider mites. The difference is the presence of numerous, distinct black specks on the undersides of affected leaves. To control, apply diazinon or malathion at 7-10 day intervals.

Squash vine borer: These small, white worms increase in size as they tunnel inside squash stalks. Sooner or later, their ravenous appetite kills the plant. An insecticide schedule must be followed since moths which deposit the egg of this hungry borer are plentiful when fall squash begins to grow. Apply Sevin dust every 7-10 days but avoid heavy applications on foliage as this can obstruct sunlight and retard plant growth. Be sure the main stalk and stems are covered.

Worms or caterpillars: Worms (caterpillars) come in a variety of colors and shapes but all damage plants by eating holes in leaves. They feed on most garden vegetables and can destroy entire plants. To con-

**Q:** If a company with pending contracts sells to another company, does the purchaser have to fulfill the contracts?

**A:** The sale documents describe what the buyer purchased. There are many variations on the purchase of an on-going business, from equipment only to future income from current contracts. Parties typically contract to bind themselves and "their successors and assigns."

This allows contractual obligations to be sold, bought or assigned. The new owner would stand in the place of the original contractor: he would have to fulfill the contracts or defend his breach.

**Q:** Is there a law in Texas allowing a wife to file for

separate maintenance, in a case of extreme mental cruelty and incompatibility? If not, what else can I do, short of divorce?

**A:** Texas does not have any provisions for enforcing separation and maintenance unless a divorce has been filed. Once the marriage is before the court, temporary orders can be entered for support, for use of the home, and for keeping the couple from interfering with each other. After the couple has been separated, the actual divorce can be postponed until final terms are reached or until the couple decides to reconcile.

**Q:** I have two questions about city laws. First, when can I read the law controlling

the water service deposit for my town? Second, how can I protect myself from my neighbor's dogs? They bark and tear up my lawn.

**A:** The City Attorney's office will be able to refer you to the water deposit regulations. They might invite you to come by to read the ordinance, or send you a copy.

If there is a barking dog ordinance, the City Attorney will advise you on how to enforce it. Also, if there is a leash law in your town, call the pound and have the dogs picked up.

**Q:** My husband has to pay a lot of child support for his eldest daughter who is going to college. Is there a way to decrease this support?

**A:** Modification of orders concerning custody, visitation, and support can be granted by the Court upon a showing of a change in circumstance. In Texas, these matters stay open until each child of the divorce reaches 18.

Your husband may be paying college support even past his daughter's 18th birthday because he and his ex-wife entered into an agreement incident to the divorce. You should study the documents describing the divorce and child support to see whether there are any limits on your husband's right to seek modification.

Send your questions to "You and the Law," State Bar of Texas, P.O. Box 12487, Austin, 78711. Answers may appear in columns in a hypothetical terms; personal answers not possible.

## Losing weight no great mystery

Someone is bound to come up with an "anchovies and Perrier water only" diet. Everything else has been tried.

Fad diets come and go, whether it's the Dolly Parton, the Scarsdale or the Stillman. They come because they offer dramatic weight loss — accomplished only after the dieter has bought a \$12.95 book with a lot of narrative usually based on anecdotes and half truths. They go because none of them has been proved effective, says Dr. Bob Kaman, associate director of the Institute for Human Fitness at Texas College of Osteopathic Medicine in Fort Worth.

There is nothing mystical about weight loss, according to Dr. Kaman, whose Ph.D. is in biochemistry and nutrition. It's simple arithmetic, the number of calories taken in versus the number burned. You'll gain weight if you take in more than you burn and lose if you burn more than you take in. That means two choices: eat less or be more active.

"The fad diets are all negative-calorie diets," Dr. Kaman explained, meaning they offer dieters fewer calories to eat than their regular diets. Their downfall is that they are designed for short-term effects, not major lifestyle changes. When the dieter returns to normal eating, the fat comes back.

"I went on a protein-sparing fast myself about five years ago," Dr. Kaman admitted. "I lost 50 pounds. The diet was biochemically sound, dealing with negative biochemistry changes that happen to a body on a strict diet. It's about 460 calories a day, all liquid protein."

A body dieting with no exercise burns everything it can — fat, carbohydrates, protein, he said. This diet supplied protein so that the body would not burn its own protein. "But as soon as you get off the diet and start eating food, the old habits come back and so does the fat."

"Research shows that, with some exceptions, gradual weight loss is the only kind that stays with you," he continued. "When you lose weight fast, you lose car-

bohydrates and water first. There are certain motivational benefits, but the rapid loss doesn't last. The exceptions are the dramatic diets in hospital situations, under strict monitoring.

"Another factor in weight loss is that we have spent our whole lives developing habits about eating that are hard to break. Eating is one of three habits strong enough to be considered an addiction (the others are alcohol and drugs)." Therefore, weight loss and weight maintenance over the long haul require changes, sometimes major ones, in behavior.

"Most people need help to change their behavior," he went on. "We know the benefits of nutritional counseling that includes psychological counseling. Behavior modification with a weight reduction diet and moderate exercise is the way to go."

How many calories do we need to keep going? That, too, is simple arithmetic. It's your body weight multiplied by 11.43 with an allowance for exercise. Multiply the answer by 1.3 if you get no exercise, by 1.4 for moderate exercise and by 1.5 for vigorous exercise.

An example: To maintain her weight, a 150-pound woman who gets moderate exercise must eat 2,400 calories a day (150 x 11.43 x 1.4). To lose weight, she must come up with a daily calorie deficit.

"A 150-pound woman who wants to, say, bicycle vigorously (13 miles per hour) can expend 650 calories in one hour," Dr. Kaman said. "If she brought her caloric intake down to 2,000 and bicycled for an hour a day, she could lose about two pounds a week."

"Exercise is the only way to maintain lean body tissue on a weight reduction program. If you are loose and flabby at 150, you'll be loose and flabby at 125."

Technically it seems if you found a fad diet and could stay on it the rest of your life, you could maintain the dramatic weight loss you first experienced on it. Dr. Kaman says no. "I know of no such diet that is adequate in nutrition. Sooner or later you would run into nutritional problems."

"You need a diet well balanced in the four food groups," he advised, "one that you can stay on the rest of your life without having to develop a whole new system different from family and friends."

## Blackwell

Blackwell had a bad windstorm Thursday afternoon, with some thunder and lightning and then received 3/10 of an inch of rain, just a good yard and garden shower, then on Friday afternoon, another windstorm, lots more thunder and lightning, but only received 1/10 of an inch of rain. Oak Creek Lake received 1/2 inch of rain.

The Ladies of the United Methodist Women of the Blackwell United Methodist Church met Monday morning at 9 a.m. for a workday for the bazaar.

A sack lunch was enjoyed by all at noon, and a social hour was enjoyed while resting and visiting.

Mr. and Mrs. T. J. Oden received word Sunday morning of the death of his sister's husband, Ellis Brooks, who passed away at his home Saturday

evening in Santa Rosa, Calif. after a lengthy illness.

Mr. Brooks had lived in San Angelo before moving to California.

Survivors are his wife, Mrs. Louise (Oden) Brooks of the home; and two stepdaughters, Mrs. Barbara Hoffschneider of Healdsburg, Calif., and Mrs. Connie Hean of Oakhurst, Calif.; and five grandchildren.

Lafferty and Smith Funeral Home of Santa Rosa is in charge of the funeral arrangements.

Mrs. Eula Nabors, also of Blackwell, is Mrs. Louise Brooks' sister, but no one here planned to go out there for the funeral.

### CREEPING NEGLECT CAN BE COSTLY

Everyone feels a bit remiss from time to time when neglecting such duties as dental checkups, dripping faucets or overdue shoe repairs. Basic preventive maintenance on our cars is another responsibility which deserves attention.

Engine tune-up, for example, is among the automotive services which, if ignored too long, can penalize the car owner in terms of wasted gasoline, inconvenience and delays.

Statistics are working against us, according to Car Care Council. The average car age is increasing while the size of the vehicle engine is decreasing. The negligent motorist, therefore, becomes more vulnerable to car trouble. When one spark plug in a four-cylinder engine stops firing, the performance drops off much more noticeably than it would in the case of a larger engine.

How do you know when your engine needs a tune-up? The Council lists the following symptoms:

1. A noticeable increase in fuel consumption. Keep a running record of fuel consumed versus mileage driven to be aware of increasing consumption.
2. Rough idling or roughness on acceleration.
3. Hard starting.
4. Dieseling or "run-on", where the engine continues to run a few seconds after the ignition is turned off.
5. Knocking or pinging, especially under load.
6. Noticeable drop in power or performance.

While the new breed of American car is vastly more fuel efficient than its counterpart of just a few years ago, it still requires periodic service and adjustments, replacement of necessary fuel and ignition components to keep it running that way.

### New GE refrigerator with low operating cost

Model TBF17SB

- 17.2 cu. ft. no-frost refrigerator.
- Big 4.73 cu. ft. freezer.
- Equipped for optional automatic ice maker.
- Super-efficient urethane foam insulation.
- Four cabinet shelves.
- Twin vegetable bins.
- Removable egg trays.
- Coil-free back.

## AVISO PUBLICO

Breves Declaraciones Explicativas De Las

### ENMIENDAS CONSTITUCIONALES

PROPUESTAS ELECCION GENERAL 2 DE NOVIEMBRE DE 1982

#### PROPOSICION NUMERO 1 EN LA BOLETA

Resolución Conjunta de la Cámara de Representantes 1 propone una enmienda constitucional que prohíba cualquier impuesto estatal por avalúo. Los recibos de impuestos estatales por avalúo anteriormente autorizados que son cobrados después de la fecha efectiva de la propuesta enmienda a esta sección serán depositados al crédito del fondo general del condado que cobra los impuestos y pueden ser gastados para los fines del condado. Los impuestos que son cobrados antes de esa fecha serán distribuidos por la Legislatura entre las instituciones educativas que son elegibles para recibir esos fondos bajo ley previa. La propuesta enmienda también revoca una sección de la Constitución que impone un impuesto por avalúo para un fondo para la construcción de 17 colegios y universidades estatales.

La propuesta enmienda aparecerá en la boleta como sigue:

"La enmienda constitucional que revoca el impuesto estatal sobre la propiedad."

#### PROPOSICION NUMERO 2 EN LA BOLETA

Resolución Conjunta de la Cámara de Representantes 2 tal como fue enmendada por Resolución Conjunta del Senado 10 propone una enmienda constitucional que elimine el límite de \$80,000,000 de asistencia pública estatal durante cualquier año fiscal.

La enmienda establecerá el límite de gastos de asistencia pública estatal a \$160,000,000 para el bienio 1982-1983.

Además la enmienda provee que para cada bantido subsiguiente la cantidad máxima que se pueda gastar en asistencia pública no será en exceso de 1% del presupuesto estatal.

La propuesta enmienda aparecerá en la boleta como sigue:

"La enmienda constitucional que autoriza a la Legislatura proveer asistencia por el proceso de asignación a necesitados y establecer un límite sobre los pagos para niños dependientes necesitados de un por ciento del presupuesto estatal."

#### PROPOSICION NUMERO 3 EN LA BOLETA

Resolución Conjunta del Senado 8 propone una enmienda constitucional que exención de la imposición de impuestos de la maquinaria y el equipo que se usan en la producción de productos agrícolas y ganaderos. No se impondría límites de dólares y la exención se aplicaría a las sociedades anónimas y colectivas tanto como a las familias y los individuos.

La propuesta enmienda aparecerá en la boleta como sigue:

"La enmienda constitucional que exención los implementos de producción agrícola (maquinaria y equipo agrícola) de la imposición de impuestos por avalúo."

#### PROPOSICION NUMERO 4 EN LA BOLETA

Resolución Conjunta de la Cámara de Representantes 77 propone una enmienda constitucional que autorice a la Legislatura establecer un límite de cuatro años para los plazos de los miembros de las juntas de ciertos distritos de agua y distritos de conservación y reclamación.

La enmienda propuesta aparecerá en la boleta como sigue:

"La enmienda constitucional que autoriza a la Legislatura proveer asistencia por el proceso de asignación a necesitados y establecer un límite sobre los pagos para niños dependientes necesitados de un por ciento del presupuesto estatal."

#### PROPOSICION NUMERO 5 EN LA BOLETA

Resolución Conjunta No. 119 de la Cámara de Representantes propone una enmienda constitucional que autorice a los condados de Tarrant y Bee celebrar elecciones en los dos condados para anular por mayoría el oficio de tesoro del condado.

Si se anula el oficio de tesoro del condado, se coleccionarán los deberes, poderes y funciones de dicho oficio al auditor del condado o al sucesor de las funciones del auditor.

La enmienda propuesta aparecerá en la boleta como sigue:

"La enmienda constitucional que anula el oficio de tesoro del condado en los condados de Tarrant y Bee."

#### PROPOSICION NUMERO 6 EN LA BOLETA

Resolución Conjunta del Senado 6 propone una enmienda constitucional que aumente el límite de la tarifa constitucional de interés en los bonos generales estatales de obligación de 6% a 12%. Sin embargo, el nuevo límite de 12% no se aplica a bonos emitidos de la Junta de Terrenos para Veteranos.

La propuesta enmienda aparecerá en la boleta como sigue:

"La enmienda constitucional que aumenta la tarifa máxima de interés que se permite en los bonos generales estatales de obligación a un promedio ponderado de 12% de interés anual."

## FISHING Facts & Fancies

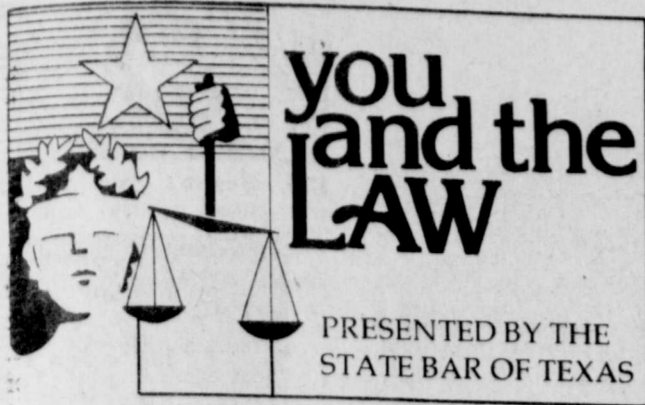

### FAMILY FISHING

Many people believe that fishing is the exclusive domain of the adult male, but this is no longer true. A study conducted for the Federal Fish and Wildlife Service during 1978-79 showed that only 30 percent of the fresh water fishing licenses were issued to males over 18 years of age. More and more youngsters as well as women are joining the men on the streams, lakes and waterways of our country.

Fishing is an inexpensive family activity that can be exciting fun for everyone. In fact, a family of four can get rigged out for about \$60, point out the experts at Du Pont Company, who make "Stren" fishing line, America's best-selling brand. Fishing is also an ideal way for the entire family to get away and learn to appreciate the value of conservation.

Fishing also helps a child gain confidence. It makes children feel comfortable in a new environment and teaches them new skills. Important, too, is that it teaches an activity that can be shared for a lifetime with family and friends.

Q: I had some dental work done which included a bridge for \$450. I paid for everything except the bridge since it did not fit properly. I asked my dentist to either adjust it, or replace it with one that was properly made. He refused and keeps sending me overdue notices for \$450, but he has not turned it over to a collection agency. What recourse do I have?

A: Depending on the dentist's promises and representations to you, you may have a cause of action for breach of warranty or you might be able to sue under the Deceptive Trade Practices Act. Either of these could be a defense if the dentist files suit against you to recover his fee.

If you are also interested in getting the work corrected so it fits properly, call the Texas

Dental Association in Austin at 443-3675, and ask them to advise you on working this out with your dentist.

Q: My wife and I made out wills in another state. Are they legal in Texas or do we need to make others?

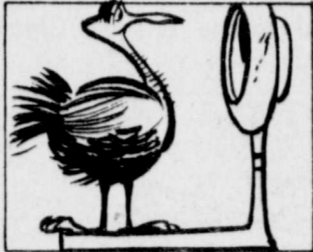

A: The Courts will make every effort to admit your Wills to probate if they meet the requirements for valid Texas Wills. However, it would be to your advantage to have a Texas lawyer review the Wills. Community property laws sometimes make a vast difference in the size of your estates: Texas community property laws are unique. Also, it is wise to review your Wills every two years, but particularly when you move across state lines. If your present Wills omit a necessary provision, you will be treated as having died intestate as to

that provision.

Q: My husband and I recently attempted to buy a house. Although we and the seller signed an earnest money contract, the seller did not show up for the closing. Is the contract binding?

A: If the contract was properly drawn - and there are several elements that make an earnest money contract valid - it probably also contains a paragraph on enforcement. Even if no provisions were made in case of breach, you can sue on a valid escrow contract for specific performance - that is, delivery of the house as promised - or you might settle for money damages. You could try to settle this case yourselves, but you will probably need an attorney if a lawsuit becomes necessary.

Send your questions to "You and the Law," State Bar of Texas, P.O. Box 12487, Austin, 78711. Answers may appear in columns in hypothetical terms; personal answers not possible.

The ostrich, largest of living birds, weighs 300 pounds or more.

### Winters Volunteer Fire Department news

(The following column was scheduled to run in last week's issue of The Enterprise but was omitted accidentally)

One night last week, firemen answered a false alarm on a structure fire. Calling in a false alarm could be a very serious matter. Yelling wolf might result in the same procedures in Winters that were initiated in a neighboring community. They send out a police car to verify the fire before calling firefighters.

This is bad business

because the time lost in verifying the fire could mean the difference between saving a life, or keeping property damage to a minimum.

We ask the public to pull over to the side of the roadway when emergency vehicles are making a run. Curiosity-seekers sometimes block the street to the point of not being able to tie into a fire plug, or even get to the scene of a fire. We ask for your cooperation and thank you for it.

### California Avocado Handbook

A Guide to Selecting, Storing and Preparing...

California avocados have gained enormously in popularity and acceptance. But many people still hesitate to try avocados because they are not sure how to buy or prepare them. Here are a few tips that should help take the mystery out of the golden-green fruit!

California avocados are available year round. The winter varieties have a smooth green skin. The summer Hass variety has a thick pebbly skin that darkens to purple-black as the fruit ripens.

When selecting avocados, look for fruit that is blemish-free. It is perfectly fine to purchase firm avocados... just put them in your fruit bowl and leave out at room temperature until they ripen. To speed up the ripening, put the avocados in a brown paper bag. A California avocado is ripe when it yields to gentle pressure from your hand.

To prepare avocados, cut lengthwise around the seed. Rotate the halves to separate. To remove the seed, either slide the tip of a spoon gently underneath and lift out or carefully whack the seed with a sharp knife. Rotate the knife to lift the seed out. To peel, place the cut side down in your palm and remove the skin either with a knife or your hand. Serve that avocado as a half shell, sliced, diced or cubed. Or make balls with a melon ball cutter. Remember to sprinkle all cut surfaces with lemon or lime juice to keep the pretty golden-green color.

Enjoy California avocados as is or use in appetizers, dips, salads, sandwiches, desserts or beverages.

North Carolina was the first colony to vote for independence from England.

### CARD OF THANKS

We would like to thank the nurses at North Runnels Hospital, Dr. W. J. Lee, and the nurses at Hendricks Medical Center in Abilene.

Also, we would like to thank all those who sent food and flowers during the loss of our loved one. -The family of Fidel Lujano

### CARPORT SALE

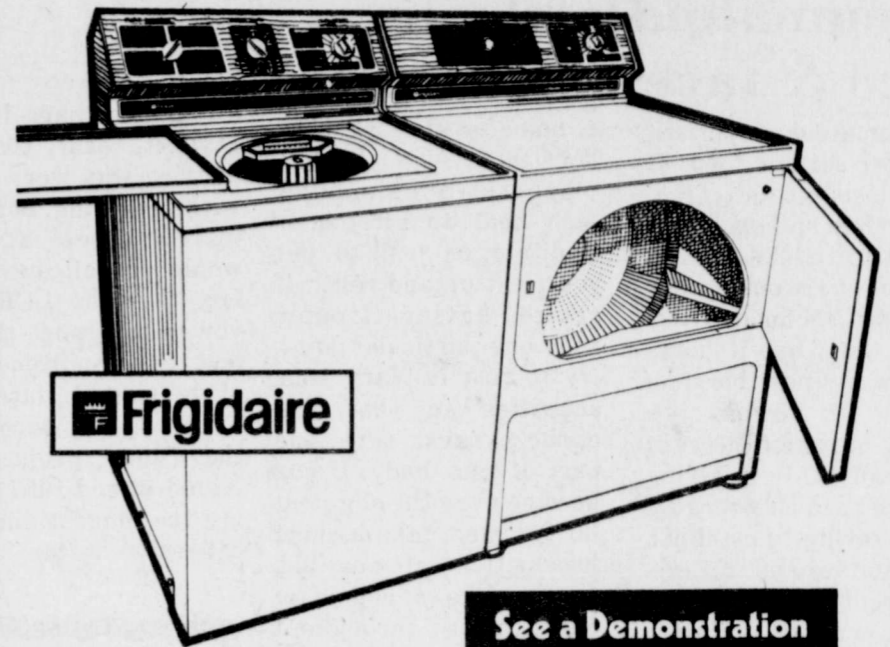

211 Roselane

Electric kitchen range with Corningware top, dishes, clothes, chest of drawers, full size bed, books, furniture (including couch and chair), many miscellaneous items.

Friday and Saturday  
9 a.m. to 6 p.m.

(NO Sales before 9 a.m.)

This dependable energy saving Frigidaire Laundry Pair can handle big family-size loads—up to a full 18 pounds.

See a Demonstration TODAY!

Washer offers dependable cleaning power — even lets you conserve hot water and detergent

- No need to waste hot water. This Frigidaire Washer features a Water Level selector that lets you match the amount of water to the size of your washload.
- Depend on Frigidaire to keep lint from settling back on your clothes with the Lint Filter which snaps in and out for easy cleaning.
- New horizontal cleaning action passes clothes under the recirculating filter 8 to 14 times each cycle. The new system is equally effective for small, average or large loads.

Dryer puts big drying capacity within easy reach

- For easy loading and unloading, the big oversize door opening — one of the largest in the industry — is positioned a comfortable 18 inches off the floor.
- For efficient drying, without hot spots that can damage fabrics, Frigidaire gently pulls air through your clothes.
- For big-family wash loads this Frigidaire dryer provides gentle fabric care for up to 18 pounds of laundry.

### Rheumatoid arthritis: pace & face a better day

Rheumatoid arthritis, the most serious form of arthritis, is a pain!

Over five million Americans have it. Two-thirds of them are women. Not only does rheumatoid arthritis hurt, but it hurts at the worst possible time of life. Its victims are usually between the ages of 20 and 40. It is during this age span that most of us are trying to establish both families and careers.

Currently there is no known cure for arthritis, says the Texas Medical Association, although the disease can be controlled by proper medication, diet and exercise.

It is an unpredictable disease. One day it seems to have gone away completely for no reason only to reappear in full force perhaps a day, perhaps a month or more later. It affects not only the joints, but the entire body as well. Fatigue is one of its most annoying symptoms.

How do you cope with widely varying energy levels at the very time of life when you feel like you need all the energy in the world and then some?

One answer is pacing. Pacing is a way to deal with changing levels of energy without becoming a yo-yo.

Prevent yourself from going from spurts of frenzied activity to a bed-ridden state because you're burned out. Plan your day to allow for periods of rest, whether

at home or at work, says TMA.

Set aside a few minutes each hour to stretch or meditate or just to put your feet up and relax. If you're having trouble with one particular joint, try to rest it. Vary your activities so that you don't exhaust any one part of your body. If you become even the slightest bit fatigued, take a short break. If at all possible, try to take a couple of quick naps throughout the day.

Most importantly, stop whatever you are doing before you become tired, even if it means not finishing something right then and there. You can go back and do a better job later, when you are more rested. If you wait until you are exhausted it may be too late. You may have already pushed yourself too far and provoked a flare-up. This can mean being totally out of commission for a few days or more.

Listen to your body. Pain and fatigue are symptoms that should be taken seriously. Although it may seem at first that you are "goofing off" by paying attention to your body's warning signals, you will actually wind up being more productive. You will be able to work steadily and not in fits and starts.

Remember that you are living and working for the long distance, not the short sprint.

(Football from page 1) passes, made four tackles, and five assists.

Offensively, Dwight Hubbard carried the ball 13 times for a total of 83 yards, completed two passes for one touchdown, and scored one touchdown.

The Blizzards will host the Coleman Bluecats Friday in Blizzard Stadium at 8 p.m. This game, according to head coach Dan Slaughter, appears to be another close, hard-hitting game that will come down to the last

quarter to get a winner. Come on out and support the Blizzards in their first home game of the season. The 1982 Blizzards have kicked off their season with some very explosive and exciting football.

The Winters Junior Varsity played last Thursday against Ballinger and lost by a score of 24-14. Winters Gordon Fenwick scored six points when he recovered a fumble in the endzone. The other score was added with a halfback pass from Eric Belk to Nick Trevino.

	Winters	Ballinger
First Downs	15	18
Total Yds.	244	255
Rushing Yds.	219	89
Passing Yds.	25	166
Turnovers	3	0
Penalties	4/34	6/60
Punts	4/37	5/35

(Stacy from page 1) District, said that the district was very happy with the ruling, but that a wait-and-see attitude would prevail due to the fact that the LCRA has vowed to oppose the project to the Supreme Court of the United States.

The initial permit for the Stacy project was issued in mid-1980 following the longest and most expensive water hearing

ever in Texas. Since June of 1980, the project has been contested in the courts.

Water from the proposed lake would supply water to cities as far away as Midland-Odessa, Big Spring, Snyder, San Angelo, and others. The plans call for the lake to impound some 445,000 acre feet of water which would furnish almost 115,000 acre feet of water per year.

All aboard!

Photo by Joe Gerhart

Winters High School students, being bused to classes, are not having many problems. In fact, high school officials this week highly commended the students for their efforts in making the best of a somewhat difficult situation.

The busing was necessitated by the refurbishment of the high school building. Classes are being conducted in temporary classrooms in the Mt. Carmel Catholic Church.

Saber-toothed tigers once prowled all continents except Australia.

The village of Tadoussac, Quebec, at the mouth of the Saguenay River, claims to be Canada's oldest settlement since a fur-trading post was built there in 1599.

U.S. Grant's real name was Hiram Ulysses Grant.
